Phoenix-Mesa Gateway Airport

Notice of Meeting Cancellation

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the public that the Regular Meeting of the Phoenix-Mesa Gateway Airport Authority Board of Directors scheduled for Tuesday, January 18, 2022, has been cancelled.

The next Regular Meeting of the Phoenix-Mesa Gateway Airport Authority Board of Directors is scheduled for Wednesday, February 16, 2022 at 9:00 a.m. in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

DATED this 3rd day of January, 2022.

I Misty Johnson, do hereby certify that I caused to be posted this 3rd day of January, 2022, the Notice of Cancellation of the Tuesday, January 18, 2022 Phoenix-Mesa Gateway Airport Authority Board of Directors Meeting in the following places: 1) www.gatewayairport.com ; 2) Gateway Administration Building.

Misty Johnson

Misty Johnson, Clerk of the Board

NOTICE AND AGENDA OF MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the members of the Phoenix-Mesa Gateway Airport Authority and to the public that the Phoenix-Mesa Gateway Airport Authority will hold a meeting open to the public on **Wednesday, February 16, 2022 beginning at 9:00 a.m.** in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

The agenda for the meeting is as follows:

1. **Call to Order** (Mayor John Giles, Chair)
   Members of the Phoenix-Mesa Gateway Airport Authority will attend either in person or via videoconference.

2. **Roll Call** (Mayor John Giles, Chair)

3. **Pledge of Allegiance**

4. **Call to the Public**
   Members of the Board may not discuss items that are not on the agenda. Therefore, action taken as a result of public comment will be limited to directing staff to study the matter or scheduling the matter for further consideration and decision at a later date. Maximum of three minutes per speaker.

5. **Executive Director's Report** - J. Brian O'Neill, A.A.E., Executive Director/CEO

6. **Fiscal Year 2023 Budget Presentation** – Chuck Odom, Chief Financial Officer

7. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on December 21, 2021.

   b) **Resolution No. 22-01 –** Amending the Board of Director's **Procurement Policy** 19-27.

   c) **Resolution No. 22-02 –** Adopting the revised **Airport Rates and Charges** schedule with an effective date of February 16, 2022.

   d) **Resolution No. 22-03 –** Authorizing the purchase of Unleaded and Diesel fuel from the lowest priced **State contract vendor** at market prices for the Airport Authority use and resale in the amount of $60,000.

   e) **Resolution No. 22-04 –** Authorizing the purchase of Jet A and 100LL Avgas fuel from **Ascent Aviation Group, Inc. (World Fuel)** for Airport Authority resale in the amount of $875,000.

Consideration and Possible Approval of:

8. **Resolution No. 22-05 –** Authorizing additional $4,500,000 for FY22 Capital Budget for two new projects, CIP 1222 **Construction of the Car Rental Return Lot**, and CIP 1241 **North Economy Parking Lot Expansion**.

9. Board Member Comments/Announcements

10. Next Meeting: Tuesday, March 15, 2022 at 9:00 a.m.

11. Adjournment

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Misty Johnson at 480-988-7607 or mrjohnson@gatewayairport.com. Requests should be made as early as possible to allow time to arrange the accommodation.

Phoenix-Mesa Gateway Airport

- Airport Posts Record Passenger Activity in Five of Last Seven Months
- SkyBridge Arizona Hotel Receives City of Mesa Approval
- 2021 Operational Metrics Show Significant Rebound
- Airport to Conduct Triennial Emergency Preparedness Exercise

Executive Director's Report

February 2022

Financial Snapshot

OPERATING INCOME	December		Month Variance	FYTD Comparison		FYTD Variance
	FY21	FY22		FY21	FY22	
Revenues	$1,519,951	$2,057,948	$537,997	$10,997,700	$11,830,913	$833,213
Less Expenses	$1,621,266	$1,891,212	$269,946	$9,456,680	$10,712,499	$1,255,819
Operating Income *(before depreciation)*	**($101,315)**	**$166,736**	**$268,051**	**$1,541,020**	**$1,118,414**	**($422,606)**

Investment Fund Balances: As of December, the Local Governmental Investment Pool (LGIP) 700 = $18,990,956; Wells Fargo; Collateralized Money Market = $384,884 and Collateralized CD's = $42,254,219; Total $61,630,058. The month-over-month decrease was attributable to investment market adjustments of ($18,276). PMGAA invests in fixed rate instruments, market adjustments are accounting entries only.

Finance and Accounting

Phoenix-Mesa Gateway Airport Authority (PMGAA) reported a net operating income of $166,736 for December 2021, and a fiscal-year-to-date 2022 (FYTD22) net operating income of $1,118,414.

An operational and financial analysis comparing calendar year (CY) 2020 and 2021 showed PMGAA achieved significant improvement in most financial metrics during the past year. Aircraft Landing Fee Revenue, Terminal Concession Revenue, Facility/Land Lease Revenue, Car Rental Revenue, Vehicle Parking Revenue, and Net Operating Income all increased by double-digits in 2021.

December 2021 expenditures were 5% below budget and FYTD22 expenditures are 7% under budgeted amounts. COVID-19 related staffing issues, supply chain delays, and product/service cost increases are creating additional challenges as Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) continues to attract more air travelers, corporate aircraft, and private commercial investment.

American Rescue Plan Act (ARPA) grant funding of $8,222,781 has been awarded to PMGAA. Reimbursement claims are now being submitted for approval.

It's Only a Drill! PMGAA to Conduct Triennial Emergency Preparedness Exercise

Area residents and Gateway Airport users please take notice! On February 22nd from 9:00 – 11:00 AM, the Airport will be conducting its Triennial Full-Scale Emergency Preparedness Exercise. This live simulated emergency drill, required by the Federal Aviation Administration (FAA) every three years, is designed to evaluate and improve personnel readiness, efficient and effective coordination, and increased communication among all first responders, mutual aid agencies, emergency vehicles, and area hospitals.

PMGAA would like to thank all of the agencies and organizations participating in this month's live training exercise. We appreciate your support and couldn't do it without you!

PMGAA Team Member Spotlight

Employee Name: **Sandra Aguilar**
Employee Title: **Communications Specialist**
PMGAA Department: **Operations and Maintenance**
Years with PMGAA: **26**

What are your job responsibilities for PMGAA? I am responsible for assigning terminal resources for airlines in the common use environment; radio dispatching to the airfield, terminal, and maintenance; as well as monitoring alarms and multiple video monitors within the terminal and around the Airport. I also use the Everbridge System to dispatch emergency information and am responsible for the Airport's emergency response phone.

What is your most memorable Gateway Airport moment? After 26 years there are several memorable moments, but a few most memorable would be driving across the ramp in a golf cart from the Administration Building to the Maintenance Building when there was no terminal, no security fence, or any aircraft (1996); the arrival of the largest cargo aircraft in the world (Antonov 225) that brought in a transformer for SRP (2003); and of course, Air Force One landing at the Airport (2012).

What is something people may not know about you? I'm an Arizona Wildcat Fan that donates blood every 56 days. Changing the ASU Sun Devils one pint at a time!

Engineering and Planning

Gateway Airport Expanding Parking for Larger/Heavier Aircraft

Alpha Apron Phase III Under Construction

Gateway Airport has a large footprint that encompasses more than 3,000 acres and has approximately 16 million sq. ft. of concrete and pavement surfaces. Airport tenants and transient aircraft owners lease space on the airfield and ramp to park various sized aircraft ranging from the smaller Cessna 172 pilot training aircraft to the larger four-engine Antonov 124 cargo aircraft.

During the U.S. Forest Service's active firefighting season and other busy time of the year, ramp space at Gateway Airport for larger and heavier aircraft is at a premium. PMGAA, wanting to ensure that the Airport always has enough parking space for these "specialty" aircraft, has undertaken a two-phased airfield construction project to expand the Alpha Apron on the south end of the airfield. When completed, Gateway Airport will have an additional 450,000 sq. ft. of aircraft parking area designed for larger and heavier aircraft to lease.

Federal, State, and Local Elected Officials Tour New Air Traffic Control Tower

Elected Officials Tour New Air Traffic Control Tower

The Gateway Airport Air Traffic Control Tower (ATCT, Tower) Tour Program has provided a good opportunity to showcase the new facility to many of the individuals responsible for making the project possible. The most recent VIPs to visit the Airport and tour the new Tower were U.S. Congressmen Greg Stanton (AZ) and Rick Larsen (WA), Mesa Mayor and PMGAA Chairman John Giles, Gilbert Mayor Brigette Peterson, Gilbert Councilmember Kathy Tilque, and AZ State Representative Jennifer Pawlik.

Gateway Airport's new ATCT has been years in the making; a journey that included changing federal legislation and securing almost $28 million in federal funding. PMGAA would like to thank the many individuals that worked tirelessly to bring this important airfield infrastructure to reality. THANK YOU!

Gateway Aviation Services

During the month of December 2021, PMGAA pumped almost 1.8 million gallons of aviation fuel, a 23% increase over the same month last year. FYTD22, Gateway Aviation Services (GAS), PMGAA's fixed base operator (FBO), has pumped over nine million gallons of fuel into a growing number of commercial, corporate, military, cargo, and general aviation aircraft.

Community Noise Report

During the month of December 2021, PMGAA received aircraft noise calls from a total of 13 area residents, compared to 10 received from callers during December 2020. The Airport maintains a comprehensive Community Noise Program that includes communication and education with Airport neighbors, as well as outreach to adjacent Homeowners Associations (HOA) and local municipalities.

SkyBridge Arizona Hotel Receives City of Mesa Approval

Rendering of New SkyBridge Arizona Hotel

During their January 24, 2022 meeting, the Mesa City Council unanimously approved zoning changes and a site plan review for a new four-story, 129-room hotel to be built in SkyBridge Arizona, a 360-acre master development located at the south end of Gateway Airport. The dual-brand hotel will include a pool, full bar, three large meeting rooms, and a fitness center. The new hotel is scheduled to open during the second quarter of 2023.

First Two Hangars at the Gateway Executive Airpark Taking Shape

Gateway Executive Airpark is a 185,000 sq. ft. state-of-the-art, full-service hangar complex located at the north end of Gateway Airport's airfield between Textron Aviation's Mesa Service Center and Embraer's Executive Jet Service Center. This project includes both multi-tenant and single tenant hangars sized to accommodate larger jets, multiple smaller aircraft, and helicopters. The first two hangars will be available for lease by the end of the second quarter 2022, the third hangar is scheduled to be completed by the end of 2022.

Budget Key Assumptions

1. Member contributions for FY23 will continue to fund capital improvements.
2. Enplaning passenger activity is expected to increase in FY23's budget by 7% over FY22's budget and will be equal to FY19 levels at 850,000.
3. Fuel sales will be up by $1.215M; Volume ($55K) and Price $1.270M.
4. Aero revenue will be up 13%; Non-Aero revenue will be up 10%.
5. Air-Service Incentive Program carries over from previous fiscal year.
6. Operating Contingency is 10% of total expenses from unrestricted cash reserve.

MINUTES OF PUBLIC MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS | December 21, 2021

A public meeting of the Phoenix-Mesa Gateway Airport Authority (PMGAA) was convened on Tuesday, December 21, 2021, beginning at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona.

Members Present

Mayor John Giles, Mesa
Councilmember Jim Waring, Phoenix (*via videoconference*)
Mayor Brigette Peterson, Gilbert
Mayor Chip Wilson, Apache Junction
Lt. Governor Monica Antone, Gila River Indian Community Junction (*via videoconference*)
Mayor Gail Barney, Queen Creek*

** Neither present nor represented*

Airport Staff Present

J. Brian O'Neill, Executive Director/CEO
Scott Brownlee, Deputy Director/COO
Chuck Odom, CFO
Misty Johnson, Clerk of the Board
Jill Casson Owen, Attorney

1. **Call to Order** at 9:01 a.m. (Mayor Giles)

2. **Roll Call**

3. **Pledge of Allegiance**

4. **Call to the Public**
   There were no public comments.

5. **Executive Director's Report** J. Brian O'Neill, A.A.E., Executive Director/CEO

   Executive Director O'Neill provided a briefing on PMGAA financial performance, passenger activity, the community noise report, and various Airport projects.
   - Fiscal Year-to-Date (FYTD) Net Operating Income is $746,608.
   - So far this fiscal year, commercial passenger activity at Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) has experienced a 47% increase in passengers compared to FYTD21.
   - Since November 1, 2021, twelve new nonstop destinations have been added at Gateway Airport. Allegiant has added a significant number of new destinations. Sun Country has begun service to Minneapolis. Flair, WestJet, and Swoop are providing service to Vancouver, Edmonton, Calgary, Winnipeg, and Toronto Canada.
   - Gateway Airport has set passenger activity records in four of the last six months. Two new records were set over the busy 2021 Thanksgiving Holiday travel period. November 24th was the busiest day in the history of the Airport with more than 4,600 enplaned air travelers (8,600 total passengers) passing through its doors. Monday, November 27th then eclipsed that record with more than 5,300 enplaned passengers (10,600 total passengers).
   - Each year, all Part 139 Commercial Service Airports undergo a certification inspection by the Federal Aviation Administration (FAA). This year's inspection resulted in no reportable conditions!

DRAFT

- Gulfstream Aerospace Corporation (Gulfstream) will be constructing a new West Coast Service Center at Gateway Airport. Phase I is a 225,000 SF facility with an investment of over $70MM. Construction will begin in the spring of 2022. Gulfstream is now leasing a 50,000 SF hangar at the Airport and has started the hiring process for 300-350 Gateway Airport employees.
- Three hangars totaling 183,000 SF are under construction in the Gateway Executive Airpark located at the north end of the airfield. Two of the hangars will be available for lease by the end of the second quarter 2022. Earthwork has begun on the larger 115,000 SF hangar scheduled to be completed in the summer of 2022.
- SkyBridge Arizona continues to grow. Design work on the horizontal infrastructure is underway for a taxiway extension, roadways, sewer, water, and fiber. Coordination efforts are ongoing with the City of Mesa to complete the entitlement process to obtain permitting and variances needed to proceed with construction of a 127-room Wyndham dual-brand hotel along Sossaman Road. The hotel will offer rooms for both transient overnight guests and extended stay customers. SkyBridge is planning for two additional industrial buildings. These two buildings will be approximately 200,000 SF and 250,000 SF respectively.
- The Bipartisan Infrastructure Bill and been signed into law. A portion of the funding in this bill is designed for terminal modernization. PMGAA is hoping to secure a grant from the Bipartisan Infrastructure Law to construct a new five-gate terminal addition that will connect to the main terminal creating one unified commercial passenger terminal consisting of 11 gates.
- The Air Traffic Control Tower is on-track to be commissioned in the summer of 2022. The glass in the tower cab has been installed and work is being done on the elevator. Tours of the tower are being coordinated with member community elected officials.
- PMGAA is expanding aircraft parking opportunities at the south end of the airfield. Alpha Apron Phase III is under construction and getting ready for concrete pours. Completion is anticipated in February 2022. Phase IV is in design and will be ready for construction once Phase III is complete.
- The Hourly Parking Lot is critical to the successful, efficient operation of the Airport because it provides the opportunity for the drop off and pick up of passengers in need of someone else's assistance to travel – elderly, underage, physical or mental limitations. Closure of the Hourly Parking Lot creates significant challenges and hardships for the traveling public. Eliminating the maximum daily parking rate ($18.00) will make overnight parking in the Hourly Parking Lot much less attractive and will increase parking availability for those air travelers in need of assistance.
- The previous Cell Phone Lot was repurposed into a new parking lot for terminal tenant employees. This important project opened revenue spaces currently being used by 150 terminal tenant employees in the Daily Parking Lot.
- The Bipartisan Infrastructure Law contains an additional $4.4MM coming to the Airport to be used for projects like the Center Runway Reconstruction project. This is the reconstruction of 3,500 SF of concrete on RW 12C-30C. PMGAA is working with FAA to try and condense the project into one year.

6. **Gateway*East* Presentation** – Shea Joachim, Business Development Director
   - Gateway***East*** is a 400-acre mixed use non-aeronautical master development opportunity located on the east side of the Airport. January 2021 began the RFQ process which had 12 highly qualified submissions. The top four submissions were invited to participate in an RFP process. The interview process was held in September with two finalists being selected. The two finalists were asked to present their best and final proposal. The PMGAA Board of Directors is being asked to consider and approve a Memorandum of Understanding (MOU) with the Boyer Company, L.C. as the preferred

development partner for the Gateway***East*** development opportunity. Matt Jensen, a partner with the Boyer Company, L.C., spoke to further introduce the Boyer Company, their history, and to acknowledge this great opportunity.

7. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on **November 16, 2021.**

   b) **Resolution No. 21-53 –** Authorizing the purchase of airfield asphalt services with **Sunland Asphalt & Construction, LLC** for an amount not to exceed $99,770.88.

   c) **Resolution No. 21-54 –** Authorizing the Executive Director to execute an Air Carrier Operating Agreement with **WestJet**, an Alberta Partnership, for commercial air service at the Airport.

   d) **Resolution No. 21-55 –** Approving a new one-year Air Carrier Operating Agreement with **Allegiant Air, LLC**.

   e) **Resolution No. 21-56 –** Authorizing Amendment 2 to the Land Lease with **Pegasus Mesa Owner, LLC** to add 5,840 square feet to the Premises located at the corner of Sossaman Road ad Velocity Way.

   f) **Resolution No. 21-57 –** Authorizing the Adjustment Amendment to the Master Lease with **Mesa SkyBridge, LLC** to remove 5,840 square feet from the northwest corner of the Property.

   g) **Resolution No. 21-58 –** Authorizing the elimination of the maximum daily charge for the **Hourly Parking Lot** effective December 22, 2021.

Mayor Chip Wilson moved to approve the Consent Agenda.
Councilmember Jim Waring seconded the motion.
The motion was carried unanimously.

Consideration and Possible Approval of:

8. **Resolution No. 21-59 –** Authorizing a Memorandum of Understanding with **The Boyer Company**, L.C. to acknowledge the Boyer Company, L.C. as the preferred proposer and establish an exclusive negotiation period and the terms under which PMGAA staff will work to establish a Master Development Agreement with the Boyer Company, L.C.

Mayor Chip Wilson moved to approve Resolution No. 21-59.
Councilmember Jim Waring seconded the motion.
The motion was carried unanimously.

9. **Resolution No. 21-60 –** Authorizing the Executive Director/CEO and/or delegate to negotiate and execute a final contract for the Airport's Parking Access Revenue Control System (PARCS) Replacement, CIP 998, with **Scheidt & Bachman USA, Inc. (S&B)** for equipment installation and support and maintenance in an amount not to exceed $650,000.

Mayor Brigette Peterson moved to approve Resolution No. 21-60.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

10. **Resolution No. 21-61 –** Authorizing the Executive Director/CEO and/or delegate to negotiate and execute a final contract for the Airport's Parking Access Revenue Control System (PARCS) Replacement, CIP 998, with **SDB, Inc.** for system infrastructure in an amount not to exceed $375,000.

    Councilmember Jim Waring moved to approve Resolution No. 21-61.
    Lt. Governor Monica Antone seconded the motion.
    The motion was carried unanimously.

11. **Board Member Comments/Announcements.**

    There were no comments or announcements.

12. **Next Meeting: Tuesday, January 18, 2022** at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone/videoconference.

13. **Adjournment.**
    The meeting adjourned at 9:40 a.m.

Dated this _____ day of _____ 20___.

Board Action Item

Re: Resolution 22-01

To: **Board of Directors**
From: **Chuck Odom, Chief Financial Officer**
Through: **J. Brian O'Neill, A.A.E., Executive Director/CEO**
Subject: **Amended Procurement Policy**
Date: **February 16, 2022**

Proposed Motion
To authorize an amendment to the Board of Director's Procurement Policy 19-27.

Narrative
To promote the efficient operation of the Phoenix-Mesa Gateway Airport, the Phoenix-Mesa Gateway Airport Authority (PMGAA) Board of Directors provides policy direction to the Executive Director and staff through the formal adoption of certain policies. These policies are periodically reviewed and updated as needed.

With review of the Airport's Procurement Policy, staff have made the following changes:

1. Updated definitions for added clarity
2. Added a section for Tied Submittals
3. Clarified the internal award recommendation process
4. General housekeeping items such reorganization and grammatical changes

Fiscal Impact
There is no financial impact to the Procurement Policy.

Attachment(s)
Amended Procurement Policy.

RESOLUTION NO. 22-01

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to amend the Board of Director's Procurement Policy 19-27.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby amends the Board of Director's Procurement Policy 19-27. This resolution also authorizes the Chair or Executive Director/CEO to execute such Policy, with such insertions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 16th day of February, 2022.

Resolution No.: 19-27 | Procurement	
Responsible Department: Finance and Accounting	
Effective Date: June 18, 2019	**Supersedes:** October 16, 2018 (Res. 18-41)
Personnel Covered: All Employees	

POLICY STATEMENT

It is the policy of the Phoenix-Mesa Gateway Airport Authority ("PMGAA" or "Authority") to purchase goods and services in such a manner that promotes fiscal responsibility and efficiency, in accordance with this policy's terms and conditions.

PURPOSE

This policy's purposes are to obtain competitive pricing in PMGAA procurements, to authorize exceptions in specific situations, and to provide reasonable controls and accountability to PMGAA's Board of Directors.

DEFINITIONS

A.R.S.: Arizona Revised Statutes, as amended from time to time.

A/E (Architect or Engineer) Professional Services: Services performed by a registered professional licensed by the Arizona State Board of Technical Registration architect or engineer, including architectural, engineering, or other services associated with research, planning, development, design, construction, surveying, alteration, or repair of buildings and other improvements to real property.

Alternative Project Delivery Method: These methods contemplate that the contractor will be selected based on qualifications—not low bid. Alternative methods include design- build, construction manager at risk, job order contracting and any method required by federal funding.

Award: A determination by PMGAA to enter into a contract with one or more respondents. An award precedes execution of a contract.

Bid: The response submitted by a bidder to an Invitation for Bid. ~~The response to a Request for Proposals is called a proposal or offer.~~

Bidder: A person or company submitting a bid.

Board of Directors/Board: The members who jointly oversee the activities of PMGAA, a joint powers airport authority. The Authority is comprised of the Cities of Mesa, Phoenix, and Apache Junction, Towns of Queen Creek and Gilbert, and the Gila River Indian Community.

Capital Improvements: A new building or structure, or additions to or alterations of existing buildings or structures, or other improvements to real property as further defined in the budget or capital improvement program policy.

Competitive Procurement: The process of publicly soliciting bids or proposals to select the best provider of materials, equipment, services, concessions, or construction. Methods of competitive selection include Request for Quotations, Request for Proposals, Invitation for Bids, Requests for Qualifications, and cooperative contracts (with other agencies) that were competitively procured one of these ways.

Competitive Bidding: The process of soliciting bids from bidders, which may result in an award to the lowest responsible, responsive bidder. For purposes of this policy, either PMGAA or a cooperating agency may conduct competitive bidding.

Contract: All types of written agreements, regardless of what they may be called, for the procurement of materials, equipment, services, concessions, or construction. The Authority shall never enter into an oral contract.

Cooperative Purchasing: A competitively bid procurement conducted by, or on behalf of, or utilized by another governmental agency or procurement unit.

Emergency Purchase: Any purchase necessary for the immediate benefit of the public health, safety, or welfare and for which compliance with established procurement procedures is impracticable or contrary to the public interest.

Evaluation Panel: The members that review, evaluate, and score submittals received in response to an RFP or RFQ issued by PMGAA. The number of members on the panel shall always be an odd number.

Executive Director/CEO: The Chief Executive Officer of the Airport reporting to PMGAA's Board of Directors. The Executive Director/CEO has responsibility to manage, operate, and maintain Phoenix-Mesa Gateway Airport.

Executive Team: The following staff members of the Airport – Executive Director/CEO, Deputy Director, and Chief Financial Officer.

General Services: By contrast to professional services, general services are provided primarily through semi-skilled labor.

IFB: Invitation for Bid. The IFB consists of all documents, including those attached to or incorporated by reference, utilized for soliciting bids where price is the sole consideration for the award.

Interested Person: A person that is an actual or prospective bidder or proposer with a direct economic interest affected by the award or failure to award the contract at issue. Neither a subcontractor nor a supplier is an "interested person."

Intergovernmental Agreement: An agreement with another public agency in accordance with A.R.S. 11-952.

Micro-purchase: The purchase of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed the micro-purchase threshold as set by the Federal Acquisition Regulation at 48 CFR, including any exceptions thereto, as applicable to PMGAA.

PMGAA: Phoenix-Mesa Gateway Airport Authority.

Procurement ~~Coordinator~~ Officer: The PMGAA employee with specific responsibility for overseeing procurement of materials, goods, and services valued over $5,000.

Professional Services: Professional services are rendered by members of a recognized profession or by persons possessing a special skill. These services include advertising, appraisers, architects, attorneys, consultants, certified public accountants, planners, environmental studies, financial and operational audits, personnel and benefits studies, land surveyors, landscape architects, renewals of proprietary computer hardware and software licensing, trainers, and other licensed professionals.

Proposal: A proposal is an offer submitted by a vendor in response to a solicitation.

Protest: A formal objection that arises during the procurement process asserted by an interested person.

Protester: An interested person that objects to a solicitation or award.

Publicly Accessible Procurement Source: A public source to establish market value of used equipment.

Purchaser: PMGAA or another agency that acquires goods, professional services, other services, or construction on behalf of an organization.

Purchasing Director: A PMGAA employee responsible for and authorized to administer day-to-day procurement activities under this Board Policy and applicable law.

Quote: An informal purchasing process that results in obtaining pricing information from several sources, including publicly posted or advertised pricing.

Quotation: A statement of price, terms of sale, and description of goods or services offered by a vendor to a prospective purchaser.

Responsible Bidder/Proposer: A person who is licensed (if required), who complies with all of the requirements of law, the solicitation, and proposed contract, and who possesses the experience, resources, financial and technical capacity, and everything else necessary to perform the contract.

Responsive Bid: A bid or proposal that fully conforms in all material respects to the IFB/RFP and all of its requirements.

RFP: Request for Proposals. The RFP consists of all documents, including those attached or incorporated by reference, utilized for soliciting proposals.

RFQ: Request for Qualifications. The RFQ consists of all documents, including those attached to or incorporated by reference, utilized for soliciting statements of qualifications.

Services: Includes A/E, professional, and general services.

Solicitation: An Invitation for Bid (IFB), Request for Proposals (RFP) or Request for Qualifications (RFQ) issued by PMGAA or another agency or procurement unit.

Submittal: A Bid, Proposal, or Statement of Qualifications submitted to PMGAA in response to an IFB, RFP or RFQ issued by PMGAA.

Vendor: A seller or supplier of goods and services.

I. CONFLICT OF INTEREST STATEMENT

Employees conducting business on behalf of PMGAA have a responsibility to do so in a manner that is objective and ethical. The goal of all such business dealings must be to benefit PMGAA. The following policies apply:

1. No employee, officer, agent or outside firm may participate in the preparation, selection, award, or administration of a solicitation or contract if he or she has a real or perceived conflict of interest.

2. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization

which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

3. The acceptance of gifts, money, or gratuities from any person or organization is prohibited except as provided below. PMGAA employees, officers or agents will be guided in interpretation of this section by the distinction between a gift, gratuity, or favor given or received which has significant monetary value and is offered or accepted in expectation of preferential treatment, and an expression of courtesy.

   a. Employees, officers or agents may not accept cash in any form.

   b. It is recognized that employees, officers and agents must conduct a certain amount of Airport business with non-Airport employees during meals, or occasionally during entertainment events. An employee, officer or agent may accept items valued at or below $50.00, such as business meals and/or entertainment tickets when, in the employee's, officer's or agent's judgment, such offers are made in the normal course of Airport business, they benefit and advance positive working relationships and PMGAA interests, they are the usual standard of the industry, and it is not appropriate to decline.

   c. This policy is not meant to preclude the acceptance of:

      (1.) Free attendance or participation at official or quasi-official functions such as groundbreaking, open houses, award ceremonies, banquets or similar events which the employee, officer or agent attends in the capacity as a PMGAA employee; or

      (2.) Free meals and/or entertainment that are part of such programs or functions;

      (3.) Gifts of nominal value such as promotional items such as calendars, note pads, and pens.

4. Any contract entered into in violation of this policy is voidable or subject to cancellation at the option of the Purchasing Director. Employees, officers, and agents who violate PMGAA's conflict of interest policy will be subject to disciplinary action, as set forth in PMGAA's Personnel Rules.

5. If an employee, officer, or agent has any questions concerning this policy or is in doubt as to what is considered appropriate, he/she is directed to contact PMGAA's Procurement ~~Coordinator~~ Officer.

II. RESPONSIBILITY FOR PURCHASING

A. PMGAA's Chief Financial Officer shall serve as Purchasing Director. The Purchasing Director shall direct all purchases of goods and services made by or on behalf of PMGAA. The Purchasing Director may delegate purchasing functions to authorized PMGAA employees.

B. Department Directors must ensure that their employees comply with this policy.

C. The Purchasing Director shall establish procedures necessary to effectively implement this policy.

D. Under the Purchasing Director's oversight, the Accounting Department shall maintain documentation sufficient to detail the history of procurements for audit purposes and for compliance with records-retention requirements. All procurement records must be maintained and disposed of in accordance with PMGAA's records-retention schedule.

E. PMGAA, alone, will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve PMGAA of any contractual responsibilities under its contracts.

For Federal procurements, the Federal awarding agency will not substitute its judgment for that of PMGAA unless the matter is primarily a Federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction.

III. GENERAL

A. PMGAA shall award contracts only to responsible vendors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as vendor integrity, compliance with public policy, record of past performance, and financial and technical resources. Solicitation documents shall outline additional requirements for award considered by

PMGAA. ~~PMGAA shall not award Federally funded contracts to any vendor that is listed on the government wide exclusions in the System for Award Management (SAM).~~

B. PMGAA will conduct all procurement transactions in a manner providing full and open competition consistent with the standards of this policy.

For procurements funded in full or in part by a Federal agency:

1. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals shall be excluded from competing for such procurements.

2. PMGAA shall ensure, to the fullest extent possible, enough qualified sources are notified of the procurement opportunity to ensure maximum open and free competition. PMGAA shall not preclude potential bidders from qualifying during the solicitation period.

3. PMGAA shall conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference.

4. Nothing in this section preempts state licensing laws.

5. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

6. PMGAA will maintain a list of interested persons, firms or products which are used in acquiring goods and services. Such list shall be kept current, to the extent possible, and include enough qualified sources to ensure maximum open and free competition.

C. PMGAA will avoid acquisition of unnecessary or duplicative items by ensuring the need and use of goods and services. Staff will review existing procurement contracts to ensure that the procurement will not be duplicative. Consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase,

however, will not circumvent the requirement of Section V(A)(1) of this policy. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

D. In accordance with Title 49 Code of Federal Regulations Part 26, Disadvantaged Business Enterprise (DBE) and Part 23, Airport Concession DBEs (ACDBE), PMGAA has established a DBE and ACDBE program, approved by the FAA, taking all necessary affirmative steps to assure that minority businesses, women and small business concerns (SBC) have equal and fair opportunity to participate in procurements where they meet the stated requirements and goals established.

E. PMGAA encourages the use of recovered materials. For procurements funded in full or in part by a Federal agency for items designated in the guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 and where the item being procured exceeds the threshold set at 2 CFR Part §200.322, PMGAA will procure that item from recovered materials, when possible or practicable, consistent with maintaining a satisfactory level of competition. Further, PMGAA will follow this policy when the value of the quantity acquired during the preceding fiscal year exceeded the dollar threshold set. At the time of publication of this Policy, the threshold is $10,000.

F. PMGAA's solicitation documents and contracts shall contain the required provisions as set forth in the FAA's "Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects", regardless of funding source.

IV. PURCHASING AUTHORIZATIONS

The Executive Director/CEO will delegate purchasing authorizations, including spending limits, to designated PMGAA staff at the beginning of each fiscal year, as required by current PMGAA Operating Policies and Procedures.

Once designated by the Executive Director/CEO, defined staff will be authorized for that fiscal year to approve purchasing commitments with PMGAA vendors at the spending limits set forth by the Executive Director/CEO. Spending limits will be set to meet the typical needs associated with certain airport requirements, staff functions, and staff responsibilities.

Except as provided in this policy, purchases or contracts that exceed $50,000 may not be awarded without the Board's prior approval.

V. TYPES OF PURCHASES

A. General Applicability

1. Purchases may not be intentionally divided between multiple, separate procurements to circumvent this policy's requirements.

2. No purchase may be made without proper authorization.

3. ~~When purchasing materials and general services eligible for reimbursement under a federal or state grant,~~ PMGAA shall ensure compliance with all ~~applicable~~ laws, regulations, and grant assurances, as applicable, for any procurement.

4. If, after adequate advertising of a solicitation, only one bid, proposal or statement of qualifications is received the Purchasing Director or designee will:

   a. Confirm that the specifications of the IFB, RFP or RFQ were not overly restrictive. If deemed nonrestrictive, the Purchasing Director or designee shall perform a cost or price analysis to ensure the pricing received is in line with expected services and, if in line, proceed to award the contract following the guidelines set forth in this Policy.

      If the solicitation is deemed restrictive, the department requesting the procurement must submit a sole source justification to the Purchasing Director for consideration before contract award.

   OR

   b. Cancel the solicitation.

      The procurement file shall be documented with sufficient information detailing the procurement history.

B. Federally Funded Procurements

PMGAA shall not award any federally funded contracts, nor procure any goods or services under a federal award, from any vendor and/or its principals that are listed on the government-wide exclusions or debarment listing in the System for Award Management (SAM).

Any procurement funded in full or in part by a Federal agency will adhere to the following purchasing methods:

1. Purchases under the Micro-purchase threshold. Except as required by applicable law, so long as the micro-purchase threshold exceeds $5,000, purchases under the micro-purchase threshold shall be purchased in accordance with the procedures set forth in Section V (C).

2. Purchases between the Micro-purchase threshold and $50,000. Unless otherwise outlined within this Policy, for purchases of services, supplies, or other property that is equal to or will exceed the Micro-purchase threshold but does not exceed $50,000, the authorized employee will obtain at least three price or rate quotes from qualified sources for the same or substantially similar items or services. If, after solicitation of a number of sources, competition is determined inadequate and three quotes are not available, the employee shall obtain as many quotes as are reasonably available. The employee shall document the procurement file explaining why three quotes/proposals were not obtained. Oral quotes, published advertisements, catalogues, and online web pricing will satisfy this requirement.

3. Purchases in excess of $50,000. For purchases that will exceed $50,000, the Purchasing Director shall require a formal competitive procurement process, except as otherwise provided in this Policy.

4. Procurement by noncompetitive proposals. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source. PMGAA may only use this procurement method when one or more of the following circumstances apply:

    a. The item is available only from a single source;

    b. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

    c. The Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from PMGAA; or

    d. After solicitation from a number of sources, competition is determined inadequate.

5. For procurements of services other than A/E services and Alternative Project Delivery Methods, PMGAA shall not use the competitive selection process of a Request for Qualifications (RFQ).

C. Non-Federally Funded Procurements: Purchases of Products, Materials, Equipment, and General Services

1. Purchases under $5,000. For purchases under $5,000, PMGAA may obtain the products, materials, equipment, or general services as needed without further formality. Multiple quotes are not required for procurements up to $5,000. However, the authorized employee must ensure that the procurement is made consistent with sound business practice and that PMGAA receives the best value.

2. Purchases between $5,000 and $50,000. Unless otherwise outlined within this Policy, for purchases of products, materials, equipment, or general services that will exceed $5,000 but not exceed $50,000, the authorized employee shall obtain at least three written price quotes for the same or substantially similar items or services. If, after solicitation of a number of sources, competition is determined inadequate and three quotes are not available, the employee shall obtain as many quotes as are reasonably available. The employee shall document the procurement file explaining why three quotes/proposals were not obtained. Oral quotes, published advertisements, catalogues, and online web pricing will satisfy this requirement.

3. Purchases in excess of $50,000. For purchases of products, materials, equipment, or general services that will exceed $50,000, the Purchasing Director shall require a formal competitive procurement process, except as otherwise provided in this Policy.

D. Non-Federally Funded Procurements: A/E Professional Services and Construction

1. PMGAA shall comply with A.R.S. Title 34 to procure construction and A/E professional services.

2. Under A.R.S. Title 34, contracts with engineers in excess of $500,000 and contracts with architects in excess of $250,000 require advertising and selection through an RFQ. These A/E professional services and construction projects utilizing design-bid-build, construction-manager-at-risk, and job-order contracting delivery methods must be approved by the Purchasing Director or designee before advertising.

E. Non-Federally Funded Procurements: Professional Services (not including A/E Professional Services)

1. Purchase of professional services between $5,000 and $50,000. When contemplating a purchase of professional services (such as legal counsel, auditors, brokers, or other professional consultants), the authorized employee shall obtain at least three written quotes/proposals. If after solicitation of a number of sources, competition is determined inadequate and three quotes or proposals are not available, the employee shall obtain as many quotes/proposals as are reasonably available. The employee shall document the procurement file explaining why three (3) quotes/proposals were not obtained. Alternatively, the Purchasing Director may authorize the employee to directly select professional services as needed without further formality.

2. Purchase of professional services over $50,000. Unless the Executive Director/CEO grants an exception, PMGAA shall procure professional services that exceed $50,000 by competitive selection to the extent practicable, advantageous to PMGAA, consistent with sound business practices, and likely to ensure that PMGAA receives the best value and service. The Executive Director/CEO may grant exceptions upon written recommendation by the department head that competitive selection is not practicable or advantageous to PMGAA. If an exception is granted by the Executive Director/CEO and the amount for the services exceeds $50,000 then a report will be made to the Board detailing the circumstances at the next scheduled Board meeting.

F. Purchases from Member Governments

The Purchasing Director may purchase services from or contract directly with any member government as necessary without using a competitive procurement process.

G. Excess and Surplus Property

For procurements funded in full or in part by a Federal agency, PMGAA shall utilize Federal excess and surplus property in lieu of purchasing new equipment and property, whenever such use is feasible, acceptable for the intended use, and available in the needed time frame.

H. Procurements Involving Gateway Aviation Services

PMGAA shall procure products and services for Gateway Aviation Services in accordance with this policy, with the following exceptions.

1. Fuel, oil, and other products for resale may be purchased without formality from any qualified vendor as needed to fulfill customer orders, with due regard for price.

2. Fuel trucks and related equipment and parts may be acquired, at the Purchasing Director's option, by purchase or lease from PMGAA's fuel supplier through direct negotiations with the supplier. The Board must approve any proposed purchase or lease with a value that exceeds $50,000.

I. Emergency Procurements

Notwithstanding any other provision of this policy, the Purchasing Director may make or authorize other employees to make emergency procurements without following this policy if a threat to the public health, safety, or welfare exists; or if a situation exists that makes compliance with this policy problematic. All procurements completed under this Section must be conducted with as much competition as practicable under the circumstances. A written determination of the basis for the emergency must be included in the procurement file, and if the procurement exceeds $5,000, a report explaining the emergency and the procurement's outcome must be made to the Board at the next scheduled Board meeting. If, however, the next scheduled Board meeting is not within thirty (30) days from the date of the Emergency Procurement, PMGAA staff will provide email notification to all Board members explaining the emergency and the procurement's outcome in addition to providing a report at the next scheduled Board meeting.

J. Impractical Procurements

In some cases, it is impractical to require competitive quotes or bids for products or services. In such situations and notwithstanding any other provision of this policy, the Purchasing Director may make or authorize other employees to make procurements without following this policy. Such examples include but are not limited to: matching existing furniture and fixtures, warranty service, and standardization. All procurements completed under this section must be conducted with as much competition as practical under the circumstances. A written determination of the basis for the impracticality must be included in the procurement file, and if the procurement exceeds $5,000, a report explaining the impractical situation and the procurement's outcome must be made to the Board at the next scheduled Board meeting. If, however, the next scheduled Board meeting is not within thirty (30) days from the date of the Impractical Procurement, PMGAA staff will provide

email notification to all Board members explaining the impractical situation and the procurement's outcome in addition to providing a report at the next scheduled Board meeting.

K. Purchases Excluded from Quotation/Competitive Selection Requirements

The following items are excluded from the requirement of multiple quotes or competitive selection.

1. Sponsorships.
2. Advertisements in magazines, newspapers, or other media.
3. Former employees with unique knowledge contracted on a temporary or part-time basis.
4. Publicly available training seminars and conferences.
5. Memberships in professional associations.
6. Works of art, entertainment, or performance (when authorized by the Executive Director/CEO or Board, as applicable).
7. Subscriptions to trade/professional magazines or journals.
8. Travel-related expenses as defined in the Business Travel Authorization and Reimbursement policy.
9. Payments for regulated services, such as postage and utilities, where no practical competitive alternatives exist.
10. Arizona Correctional Industries, Arizona Industries for the Blind, and other entities established by the state of Arizona under the set-aside program (A.R.S. 41-2636).
11. Hardware and software licensing renewals and maintenance support.

L. Multi-Year Contracts

1. Multi-year contracts are contracts that extend more than one (1) year in length. Multi-year contracts may have optional years specified to be exercised at PMGAA's discretion. An example of a multi-year contract is a contract for three (3) years with two (2) one (1) year options for a total of five (5) years (potentially).

Multi-year contracts may not exceed five (5) years total unless approved by the Board.

2. Board approval is required for multi-year contracts having a total cumulative value, including all options, in excess of $50,000. Board approval for exercising the option years is not required if the Board approves the option when the contract is first approved.

VI. PROCUREMENT PROCESSES

PMGAA may procure goods and services generally in accordance with the following selection methods. The selection method to be used for each procurement should be determined in coordination with the Purchasing Director or designee, giving due consideration to the nature and scope of the procurement, this policy, applicable laws, and any applicable grant or other funding requirements.

A. Obtaining Quotes for Purchases of Products, Materials, Equipment, or General Services

1. The authorized employee shall obtain and document quotes from at least three (3) qualified vendors for the same or substantially similar items or services. If three quotes are not available, the employee shall obtain as many quotes as are reasonably available, and the employee shall document the circumstances for the procurement file.

2. The authorized employee may receive quotes by any expedient manner, including telephone, fax, email, advertisements, catalogues, and online web pricing.

3. The authorized employee shall not reveal the amount of any quote to any competing vendor until after all quotes have been received.

4. As part of the purchase order approval process, the Purchasing Director or designee will review the quotes and may: (1) accept the quotes; (2) reject any or all quotes and re-procure; (3) request additional quotes; or (4) require a formal competitive procurement process.

B. Sole Source

When there is only one person or entity capable of providing a particular product or service, or when sole source procurement is needed to maintain program continuity or compatibility with existing equipment, these circumstances must be documented.

The Purchasing Director or designee may then authorize a sole source procurement and waive the requirement for a competitive procurement process.

C. Invitations for Bid (IFB)

1. Each IFB shall describe the goods or services required and include design or performance specifications for the item or service. Such description shall not contain features which unduly restrict competition.

2. Each IFB shall describe all requirements which offerors must fulfill and all other factors to be used in evaluating bids submitted.

3. The Purchasing Director or designee shall publicly issue and advertise each IFB. A notice inviting bids shall be published in accordance with A.R.S. 34-201 (construction) or A.R.S. 39-203 (if applicable).

4. The IFB must state the place where each bid must be submitted, the deadline for submitting bids, and the date, time, and place of the bid opening.

5. Each bid must be submitted in a sealed envelope clearly identified as a bid on the front of the envelope. Any bid not sealed or not received within the specified time period must be rejected.

6. All bids must be opened in public at the time and place specified by PMGAA in the IFB documents. A tabulation of all bids received will be posted on PMGAA's website.

7. The Purchasing Director or designee may reject any and all bids or parts of bids and may re-advertise and re-solicit bids.

8. The contract must be awarded to the lowest responsible and responsive bidder for a firm fixed price. In making the determination of the lowest responsible, responsive bidder, the Purchasing Director, designee or Board may consider the following:

   a. The ability, capacity, experience, and resources of the bidder, its employees, and subcontractors to perform the contract.

   b. The bidder's capacity to perform the contract promptly and within the time specified, without delay or disruption.

c. The bidder's quality of performance on previous contracts with PMGAA or with its members.

d. The bidder's financial, technical, and other resources to perform the contract.

e. The quality and adaptability of the bidder's materials, supplies, or services to the particular use required.

9. If an award is not made to the lowest bidder, the Purchasing Director or designee shall prepare a written statement of the reasons and include this statement in the procurement file.

D. Requests for Proposals (RFP)

1. A Request for Proposal may be used when the Purchasing Director or designee determines that the product(s) or service(s) being procured cannot be evaluated by cost alone. With the use of an RFP, PMGAA may conduct oral or written discussions with proposers regarding experience, technical information, price, or other aspects of their proposals that would be beneficial.

2. Each RFP must be publicly issued and advertised in the same manner as an IFB.

3. Each RFP must state:

a. A clear and accurate description of the technical requirements for the material, product, or service to be procured as well as a description of the work involved, if applicable. Such description must not contain features which unduly restrict competition;

b. Whether cost or pricing data is required;

c. Whether discussions, interviews, presentations or any combination thereof, may be held with the top-ranked proposers.

d. Identify all requirements which offerors must fulfill in order to be considered under the solicitation;

e. The criteria on which an award will be based and the points that may be awarded for each criterion.

~~4. Proposals submitted that meet the requirements, as outlined in the RFP, shall be considered by PMGAA to the maximum extent practical.~~

~~5.~~4. The Purchasing Director, designee or the Board may reject any and all proposals or parts of proposals and may re-advertise or re-solicit proposals.

~~6.~~5. For an RFP, the award must be made to the responsible and responsive proposer whose proposal is determined to be the most advantageous to PMGAA and best satisfies PMGAA's needs taking into consideration the evaluation criteria in the RFP. PMGAA is not required to award the contract to the proposer with the lowest price. The following criteria may be considered.

a. Price;

b. The ability, capacity, and experience of the proposer, its employees, and subcontractors to perform the contract;

c. The proposer's capacity to perform the contract promptly and within the time specified, without delay or disruption;

d. The proposer's quality of performance on previous contracts with PMGAA or with its members;

e. The proposer's financial, technical, and other resources to perform the contract;

f. The quality and adaptability of the proposer's materials, supplies, or services to the particular use required;

g. The number and scope of conditions attached to the proposer's offer, and the offer's conformance to all material aspects of the RFP.

~~g.~~h. Concurrence of the Executive Team of the basis for the award recommendation.

~~7.~~6. The procurement file must contain the basis on which the award is made, including the evaluation method and evaluation criteria used for the proposals received.

E. Requests for Qualifications (RFQ)

1. A Request for Qualifications may be issued for professional services and where federal or state law requires or allows the use of a qualifications-based selection process.

2. Each RFQ must be publicly issued and advertised in the same manner as an IFB.
3. Each RFQ must state:
   a. A clear and accurate description of the work to be performed; involved;
   b. Whether discussions, interviews, presentations or any combination thereof, may be held with the most-qualified firms;
   c. identify all requirements which the offeror must fulfill in order to be considered under the solicitation;
   d. The criteria on which an award will be based and the points that may be awarded for each criterion.
4. The contract or purchase shall be awarded based upon the criteria outlined in the RFQ and in accordance with applicable federal and state laws. The following criteria may be considered:
   a. The ability, capacity, and experience of the proposer, its employees, and subcontractors to perform the contract;
   b. The proposer's capacity to perform the contract promptly and within the time specified, without delay or disruption;
   c. The proposer's quality of performance on previous contracts with PMGAA or with its members;
   d. The proposer's financial, technical, and other resources to perform the contract;
   e. The quality and adaptability of the proposer's materials, supplies, or services to the particular use required;
   f. The number and scope of conditions attached to the proposer's offer, and the offer's conformance to all material aspects of the RFQ.
   ~~f.~~g. Concurrence of the Executive Team of the basis for the award recommendation.

F. Tied Submittals

1. Tied submittals are those from responsive and responsible Bidders/Offerors that either: (i) in the case of an Invitation for Bid, are bids that are identical in price; or (ii) in all other types of competitive selection, receive the same evaluation ranking.

2. Invitation for Bid: In the event that two (2) or more Bidders submit identical bids, the award shall be made by a drawing of lots among the identically priced Bidders. The drawing shall take place at PMGAA by the Purchasing Director. Two (2) or more PMGAA employees shall witness the drawing.

3. Request for Proposals and Request for Qualifications: In the event that two (2) or more Offerors are ranked number one by the Evaluation Panel, award shall be made based on the Offeror receiving the highest weighted ranking. The weighting shall be calculated by summing the individual rankings of each evaluator for each Offeror and ranking the sums. This method shall address a single outlier's scoring where one evaluator's scores are outside the norm of the other evaluator's scores. If, after utilizing a weighted ranking, a tie of submittals still exists, the award will be made by a drawing of lots among the tied submittals. The drawing shall take place at PMGAA by the Purchasing Director. Two (2) or more PMGAA employees shall witness the drawing.

4. Documentation of the resolution of tied submittals will be retained in the procurement file.

~~F.~~G. Cooperative Purchasing Agreements

To foster greater economy and efficiency, and in accordance with efforts to promote cost-effective use of shared services across governmental agencies, PMGAA may, where appropriate, enter into cooperative purchasing agreements with state and local governments and other procurement units for the procurement or use of common or shared goods and services.

The Purchasing Director or Executive Director/CEO may enter into cooperative purchasing agreements with other agencies or procurement units. In most cases, a procurement process conducted by another agency will satisfy this policy. The Purchasing Director or designee shall exercise reasonable efforts to ensure that the original contract was solicited with the intent to be used for cooperative procurement, that the process was conducted in a manner consistent with this policy, and that the contract provides the best value for PMGAA.

~~G.~~H. Publicly Accessible Procurement Sources

When the Procurement Director determines it more practical and economical to purchase used heavy equipment versus new, and the amount exceeds $50,000 in value, publicly accessible procurement sources may be utilized for establishing a market value for the equipment. The applicability of procurement methodology will be determined on an individual basis without securing multiple bids. Sources to establish market value may include, but are not limited to, auctions and classified advertisements (print and Web based).

Due to the type of purchase, the equipment must be paid for at time of sale to ensure availability. This makes Board approval prior to the purchase impractical. Therefore, PMGAA staff will subsequently make a full report to the Board, including type of equipment purchased, cost of the item, disclosure of the information utilized to establish market value and related expenses, if any.

This method benefits PMGAA both financially and operationally due to a larger pool of equipment at a less expensive costs and immediate availability.

~~H~~I. Changes in Scope of Work After Contract Award

If, after a contract has been awarded and changes in the scope of work are required, PMGAA shall negotiate an amendment to the contract to be executed by PMGAA and the Bidder/Proposer. No work shall commence on any amendment or change until the amendment has been approved by PMGAA and the Bidder/Proposer has been notified, in writing, to proceed by PMGAA. If the change in scope of work results in a contract that exceeds $50,000 a report will be made notifying the PMGAA Board at the next scheduled Board meeting.

VII. CONTRACTS

If the original quote/proposal for services exceeds $10,000 a contract will be executed by PMGAA and the Bidder/Proposer prior to any work commencing. The contract will detail the Scope of Work, contract dollar amount, and payment terms, along with PMGAA standard terms and conditions.

For procurements funded in full or in part by a Federal agency:

A. PMGAA shall, if deemed appropriate and feasible, use value engineering clauses in contracts for constructions projects of sufficient size to offer reasonable opportunities for cost reduction.

B. PMGAA may use a time and materials type contract only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to PMGAA is the sum of:

   1. The actual cost of materials; and

   2. Direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

   With a time and materials contract, PMGAA will assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

C. PMGAA shall perform a cost or price analysis in connection with procurements in excess of the Simplified Acquisition Threshold (set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1) including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, PMGAA shall make independent estimates before receiving bids or proposals.

D. PMGAA shall negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration must be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

E. PMGAA will only allow costs or prices based on estimated costs for contracts under the Federal award to the extent that costs incurred or cost estimates included in negotiated prices would be allowable for PMGAA under Subpart E—Cost Principles, of 2 CFR Part 200.

F. The cost plus a percentage of cost and percentage of construction cost methods of contracting will not be used.

G. PMGAA’s contracts will contain the applicable provisions described in Appendix II to Part 200, Contract Provisions for non-Federal Entity Contracts Under Federal Awards.

H. PMGAA will follow the State of Arizona bonding requirements for all construction work unless, on construction work funded in full or in part by a Federal agency, the Federal agency determines that the Federal interest is not adequately protected. In such cases, the bonding requirements at 2 CFR Part §200.325 shall take effect.

VIII. OTHER

A. Public Access to Procurement Information

1. Procurement opportunities that exceed $50,000 in value will be posted on PMGAA's website at www.gatewayairport.com under the Business| Procurements, Vendors & Notices section.

2. Written records pertaining to a solicitation or award of a contract or purchase order must be maintained by the Purchasing Director or designee.

3. Submittals to PMGAA become public documents subject to disclosure and applicable Arizona public records laws and PMGAA published policies. Bids, proposals, statements of qualification, and all solicitation and evaluation materials (except the solicitation document itself) may not be disclosed until the final contract has been negotiated and awarded. If the proposer deems any portion of its submittal as confidential, the proposer must label each and every page of the confidential portions with: "Trade Secret", "Confidential" and/or "Proprietary." Proposers are advised that, pursuant to Arizona law, contract terms and conditions, pricing, and information which are generally available to the public are not considered confidential information. The proposer must also list each of the materials it deems confidential at the beginning of its proposal, and provide a written, detailed justification for not making such material public, along with its submittal. This justification must address, at a minimum, the specific competitive harm that may result from any disclosure, the intrinsic value of the information to the proposer, and any safeguards the proposer uses to protect the information from disclosure. PMGAA shall have the sole discretion to disclose or not disclose such material, subject to any protective order that the proposer may obtain, but it is incumbent on the proposer to assert its rights to confidentiality. By submitting a quote, bid, proposal, or statement of qualifications, the proposer agrees to hold PMGAA harmless from any claim arising from the release of Trade Secret, Confidential Information and/or Proprietary Information which is not clearly marked as such by the proposer or lacking written, detailed justification supported by applicable law. PMGAA shall endeavor to protect against disclosure

of any trade secrets, confidential or proprietary information or data contained in a proposal, which information and data the proposer has designated as confidential. If any member of the public demands public disclosure of this confidential information, PMGAA will notify the proposer, who shall defend and indemnify PMGAA against attorneys' fees and costs incurred in the event the proposer is resisting the demand to disclose the confidential information.

B. Procurement Transparency Regulation

1. PMGAA has adopted the following transparency regulation. This transparency regulation applies to every solicitation under this Procurement Policy. The transparency regulation's purpose is to ensure that every person's solicitation-related contacts and communications with PMGAA's Board of Directors and staff (other than the Purchasing Director or his designee) occur in a public meeting in which every other interested person may participate.

2. No person may directly or indirectly contact or communicate with any member of PMGAA's Board of Directors or any PMGAA employee about any active or pending solicitation under this Procurement Policy except at the Board of Directors' regular monthly public meeting, unless the solicitation documents specifically authorize otherwise. This transparency regulation becomes effective for each solicitation immediately upon PMGAA's release of the solicitation documents or posting of the solicitation opportunity on PMGAA's website. The regulation continues in effect through any protest until the Board's public meeting at which final action on the solicitation (or protest) has been scheduled.

3. The Purchasing Director may reject the bid, proposal, statement of qualifications, or other offer of, and the Purchasing Director may disqualify, any person that directly or indirectly (through agents, subcontractors, or suppliers, for example) violates this transparency regulation. The Purchasing Director's decision to reject a bid, proposal, statement of qualifications, or other offer and to disqualify any person that violates this transparency regulation is final and non-appealable.

4. Every person's contacts or communications with PMGAA regarding any active or pending solicitation must conform to this transparency regulation and the solicitation documents' terms and conditions. Generally, each solicitation will establish PMGAA's point of contact (typically the Purchasing Director or his designee) for purposes of the solicitation, and all persons interested in the

solicitation may contact or communicate with the point of contact as specified in the solicitation documents.

IX. PROTESTS - GENERAL INFORMATION

A. Authority to Resolve Protest

The Purchasing Director is authorized to decide any protest relating to any procurement on PMGAA's behalf.

B. Right to Protest

Any interested person aggrieved in connection with a solicitation or award of a contract may protest the solicitation or award. The protest must be filed with the Purchasing Director.

C. Confidentiality of Protest Information

All materials submitted by a protester may be disclosed to any interested person except to the extent permitted or required by law or as determined under this policy.

D. Protests Involving Federal Aviation Administration (FAA) or Arizona Department of Transportation (ADOT) Funded Projects.

For protests on FAA or ADOT funded projects, PMGAA may be required to provide information to or obtain the funding agency's approval of protest determinations. Accordingly, notwithstanding any deadline in this policy applicable to PMGAA, PMGAA is entitled to additional time as needed to comply with any grant or other agency requirements relating to a procurement dispute. Under no circumstances may the protester consider or name FAA or ADOT a party to the protest.

E. Record of Protest

PMGAA shall maintain a written record of each protest.

X. PROTEST OF SOLICITATION OR SPECIFICATIONS (BEFORE BID OPENING)

A. Any interested person aggrieved in connection with the solicitation of a contract shall protest irregularities in the IFB, RFP, or RFQ within three (3) business days from the date the protester knew or should have known of the basis for the protest and, in any case, at least five (5) business days before opening bids or the deadline for submission of proposals or statements of qualifications.

B. All protests must be made in writing to the Purchasing Director. Each protest must state the specific factual and legal grounds on which the protest is based. The protester must also include with the protest all pertinent documents and all supporting evidence. PMGAA need not accept any protest that fails to comply with the requirements of this section. The protester's failure to timely protest specifications or other solicitation terms and conditions constitutes a waiver of the protest.

C. If a timely protest before the bid opening or receipt of proposals or statements of qualifications is made, PMGAA may proceed with the solicitation or with the award of the contract unless the Purchasing Director determines in writing that the protest should be sustained or that an addendum addressing the protest should be issued.

XI. PROTEST OF AWARD RECOMMENDATION

A. A protest made after the deadline for bids, proposals or SOQs, including challenges to the evaluation committee, must be submitted in writing to the Purchasing Director.

B. A protest must be received by the Purchasing Director within five business days following public posting of PMGAA's intent of award recommendation. The formal protest must contain the following information.

1. PMGAA's solicitation identification number and title.

2. Name and address of the protester, the title or position of the person submitting the protest, and a statement that the protest has been authorized by the protester and the protest is made in good faith.

3. A statement of all facts alleged and all rules, regulations, statutes, or constitutional provisions that entitles the protester to relief.

4. All other information, documents, materials, legal authority, and evidence in support of the protest.

5. A statement indicating the precise relief sought by the protester.

C. The Purchasing Director will make a written decision on the protest within ten business days after it is received.

D. The Protester may appeal the Purchasing Director's decision to the Executive Director/CEO. Any appeal must be filed with the Executive Director/CEO within

three (3) business days after the protester receives the Purchasing Director's decision.

E. The Executive Director/CEO may hear the appeal or appoint an independent hearing officer to do so. If a hearing officer is appointed, the hearing officer shall conduct an informal hearing on the appeal within 10 business days from receipt of the appeal. The hearing officer shall promptly prepare an informal decision and recommendation on the appeal for the Executive Director/CEO's consideration. The hearing officer shall promptly serve the recommendation on the protester.

F. Upon receipt of the hearing officer's recommendation, or if no hearing officer is appointed, the Executive Director/CEO shall decide any protest for a solicitation valued at less than $50,000. For solicitations valued less than $50,000 or sustained protests, the Executive Director/CEO's decision is final. For solicitations valued over $50,000 and the Executive Director/CEO is recommending denial of the protest, the Executive Director/CEO shall make a recommendation to the Board, and the Board shall make the final decision regarding award of the contract.

G. Notice of the Board's final decision must be furnished to the protesting party, in writing, by the Purchasing Director.

Board Action Item

Re: Resolution 22-02

To: Board of Directors
From: Chuck Odom, Chief Financial Officer
Through: J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject: Airport Rates and Charges- Recommended Revision Effective February 16, 2022
Date: February 16, 2022

Proposed Motion

To adopt the revised Airport Rates and Charges schedule with an effective date of February 16, 2022.

Narrative

In the U.S. Customs and Border Protection section, Federal holidays will now require an appointment for Customs and Border Protection inspection services. There will be a minimum two-hour fee of $415.00 per inspector in addition to the standard user fee for Federal holidays. With this change the fee schedule for Federal holidays is the same as the fee schedule for after-hours services.

U.S. Customs and Border Protection		
U.S. Customs and Border Protection (CBP) Service User Fees	**Category (based on MGLW)**	**Inspection Fee (per aircraft arrival)**
	<5,000	$80.00
	5,001 – 12,500	$250.00
	12,501 – 35,000	$350.00
	35,001 – 100,000	$480.00
	100,001 – 255,000	$670.00
	> 255,000	$830.00
	Regular service hours are Monday – Friday, 1100 – 1900 hrs. (MST). Closed on Federal holidays. After-hours and Federal holidays by appointment only. For after-hours and Federal holiday appointments, there will be a minimum two-hour fee of $415.00 per inspector in addition to the standard user fee shown above. Two hours after the aircraft's scheduled arrival time, each additional 30 minutes required of the U.S. Customs Inspector will incur a $61.00 fee above the $415.00 minimum each.	

Fiscal Impact

This proposed change to the U.S. Customs inspection fees will enable the Authority to charge overtime rates to the end user for services on Federal holidays and will offset the overtime charges from U.S. Customs.

Attachment(s)

Proposed changes to Airport Rates & Charges

RESOLUTION NO. 22-02

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to adopt the revised Airport Rates and Charges schedule with an effective date of February 16, 2022.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby adopts the revised Airport Rates and Charges schedule with an effective date of February 16, 2022. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 16th day of February, 2022.

Airport Rates and Charges*

Effective February 16, 2022

This schedule of Airport Rates and Charges is subject to updates. For the latest schedule, please visit the Phoenix-Mesa Gateway Airport website at:
http://www.gatewayairport.com/PoliciesDocumentsandForms#BoardPolicies

Signatory Commercial Carriers	Scheduled, FAR Part 121 and 129 operators, with a 90-day rolling average of 90 or more departures per month.		
Non-Signatory Commercial Carriers	Scheduled, FAR Part 121 and 129 operators, with a 90-day rolling average of less than 90 departures per month.		
Aircraft Landing Fee	Signatory Commercial Carriers, $1.32 per 1,000 lbs. maximum gross landing weight (MGLW). Non-Signatory Commercial Carriers, General Aviation and other eligible aircraft $1.98 per 1,000 lbs. MGLW. *Exemptions:* 1. U.S. Government owned aircraft 2. Non-revenue and flight training aircraft up to 12,500 MGLW 3. All based flight training school aircraft		
Aircraft Terminal Use Fee	Signatory Commercial Carriers - $50 per Turn Non-Signatory Commercial Carriers - $75 per Turn		
	Commercial Carriers with no operating agreement, see page 2 Non-Operating Agreement Passenger Terminal – Common Use Areas and Equipment		
Aircraft Parking Fee	**Aircraft Passenger Capacity**	**Signatory**	**Non-Signatory**
	1-69	$ 35	$ 53
	70-250	$ 70	$105
	251 or greater	$100	$150
	Will be assessed for the occupancy of an aircraft parking position for more than 3 hours, including terminal gates and remote parking positions, and for each additional 24 hour period.		
Airport Car Rental Customer Facility Charge (CFC)	$2.50 per vehicle rental day		
Aviation Fuel Flowage Fees	Fuel Flowage Fees are paid to PMGAA by any entity or person dispensing or receiving fuel on the Airport in accordance with PMGAA Aviation Fuel Storage, Dispensing & Handling Guidelines.		
	Signatory Commercial Carriers by agreement		
	Non-Signatory Commercial Carriers - $.05 per gallon		
	All Others - $0.12 per gallon		
Fire Suppression Services	$.50 per year per square foot of floor space + $250.00 set-up charge, billed in monthly installments. 15% of annual fees required as security deposit. South ramp connection fee = $209,746.00		
Parking Rates *Grace Period first 10 minutes	**Fee by Location**	**Rate**	**Daily Maximum Charge**
	Hourly Parking Lot	$1.00 / 30 minutes*	$48.00
	Daily Parking Lot	$1.00 / 30 minutes*	$11.00
	Ray Rd Economy Parking Lot Uncovered	$1.00 / 30 minutes*	$ 7.00
	Ray Rd Economy Parking Lot Covered	$1.00 / 30 minutes*	$11.00

All Airport Rates and Charges may vary due to terms defined in specific agreements.
Late payments are subject to a 1.5% finance charge. Payment terms are net 30 days unless otherwise specified.

	Lost Token Fee with itinerary = Days of Stay x Parking Lot Rate + $20 Lost Token & Admin Fee Lost Token Fee without itinerary (may be adjusted later with proof of itinerary)		$250.00
Passenger Facility Charge (PFC)	$4.50 per enplaned commercial passenger, Per FAA Approved PFC Application; reference Federal Register: (Vol. 79, Number 3)		
Airport Licenses & Permits	Fuel Dispensing Permit	$100.00 per organization, permit valid for 2 years	
	Fuel Handling Permit (includes exam)	$15.50 per individual, permit valid for 2 years	
	Fuel Storage & Service Equipment Permit	$38.00 per filtration vessel, permit valid for 2 years	
Common Use Terminal Equipment	Signatory Commercial Carriers	$1,250 per month	
	Non-Signatory Commercial Carriers	$ 500 per month	

Common Use Area - Operational Surcharges

Item	Description	Area	Operation	Surcharge
Operational Surcharges	Charges for exceeding allocated time slots on common use areas	Ticket counter or gate	Occupying a gate after the scheduled allocation time, resulting in aircraft holding or gate change	$200 per hour
		Use of ticket counter or gate without prior permission.		$200 plus regular fees
		Failure to use allocated time slot without 48-hour cancellation notice	Negatively impacting another scheduled carrier or causing Airport to shift resources to accommodate.	$200 plus regular fees

Transient Air Carrier Passenger Terminal – Common Use Areas and Equipment Rates

Item	Description	Aircraft Passenger Capacity	Resources Included	Rate
Full Service	Includes ticket counter(s) and lobby area, secure hold room and boarding area podium, aircraft parking position (2 hours), baggage claim area, and common use computer equipment per flight, as scheduled by Airport Operations. 1 ticket counter = 2 positions	1-69	1 ticket counter, 1 gate podium, 1 shared use hold room, 1 baggage belt, 1 aircraft parking spot	$ 260 per flight

Board Action Item

Re: Resolution 22-03

To:	**Board of Directors**
From:	**Matt Nebgen, Gateway Aviation Services Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Purchase of Unleaded and Diesel Fuel – State Contract Vendors**
Date:	**February 16, 2022**

Proposed Motion
To authorize the purchase of Unleaded and Diesel fuel from the lowest priced State contract vendor at market prices for Airport Authority use and resale in the amount of $60,000.

Narrative
The Phoenix-Mesa Gateway Airport Authority owns and operates Gateway Aviation Services, the airport's sole provider of fuel for ground support equipment.

Unleaded and Diesel #2 clear are needed to provide fuel to tenant and airport ground support equipment.

Due to rising fuel prices, the Airport expects to exceed the original requested purchase amount prior to the end of FY22. The additional $60,000 authorization will bring the total FY22 Unleaded and Diesel purchase to $388,468.

As a qualified participant of the Arizona Department of Administration Sate Procurement Office (ADSPO), Phoenix-Mesa Gateway Airport Authority (PMGAA) can procure goods and services under the state contracts. These contracts have been competitively bid and are available upon request.

Fiscal Impact
This purchase will be funded by FY22 operating contingency budget.

N/A

RESOLUTION NO. 22-03

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize the purchase of Unleaded and Diesel fuel from the lowest priced State contract vendor at market prices for Airport Authority use and resale in the amount of $60,000.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes the purchase of Unleaded and Diesel fuel from the lowest priced State contract vendor at market prices for Airport Authority use and resale in the amount of $60,000. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 16th day of February, 2022.

Re: Resolution 22-04

To:	**Board of Directors**
From:	**Matt Nebgen, Gateway Aviation Services Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Purchase of Jet-A and 100LL Avgas Fuel**
Date:	**February 16, 2022**

Proposed Motion
To authorize the purchase of Jet A and 100LL Avgas fuel from Ascent Aviation Group, Inc. (World Fuel) for Airport Authority resale in the amount of $875,000.

Narrative
The Phoenix-Mesa Gateway Airport Authority owns and operates Gateway Aviation Services, the Airport's sole provider of retail aviation fuel.

Jet-A and 100LL Avgas are needed to provide aircraft fuel to tenant, transient, corporate, flight school, airline, and military customers. Actual cost of fuel is based upon market price at time of order. Airport staff expects to exceed the original requested purchase amount prior to the end of FY22. This is due to higher fuel cost in the first half of the fiscal year. The additional $875,000 authorization will bring the total FY22 Jet A and 100LL Avgas purchase to $3,881,000.00.

Request for Proposal No. 2019-05 was issued, and World Fuel was selected as the fuel provider. Board Resolution No. 19-34 approved a multi-year contract between Phoenix-Mesa Gateway Airport Authority and World Fuel.

Fiscal Impact
This purchase will be funded by FY22 operating contingency budget and will be more than offset by an increase in revenue.

Board Action Item

Re: Resolution 22-05

To:	**Board of Directors**
From:	**Chuck Odom, Chief Financial Officer**
Through:	**J. Brian O'Neill, A.A.E., Executive Director/CEO**
Subject:	**FY22 Capital Budget Adjustment**
Date:	**February 16, 2022**

Proposed Motion
To authorize additional $4,500,000 for FY22 Capital Budget for two new projects, CIP 1222 Construction of the Car Rental Return Lot, and CIP 1241 North Economy Parking Lot Expansion.

Narrative
Due to two new capital projects that are not in the FY22 Capital budget, we are requesting an increase to the FY22 Capital budget to cover these projects.

CIP 1222 Construction of the Car Rental Return Lot - Design for this project was approved at the November 2021 Board meeting. The construction portion of this project will cost an estimated $500,000 and will be funded with Customer Facility Charges (CFC) funds.

CIP1241 North Economy Parking Lot Expansion - Due to the increase in the overall passenger activity and most recently the strong 2021 holiday travel season, we have determined that the North Economy Parking Lot needs to be expanded. An additional 1,260 parking spaces will be added in two phases, 500-600 spaces completed by June 2022. The remaining spaces to be completed by Thanksgiving 2022. The total cost of this project will be $4,000,000 and will be funded with PMGAA Capital Reserves.

Fiscal Impact
The additional $4,500,000 for these two projects is requested to be included in the FY22 Capital budget.

NOTICE AND AGENDA OF MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the members of the Phoenix-Mesa Gateway Airport Authority and to the public that the Phoenix-Mesa Gateway Airport Authority will hold a meeting open to the public on **Tuesday, March 15, 2022 beginning at 9:00 a.m.** in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

The agenda for the meeting is as follows:

1. **Call to Order** (Councilmember Jim Waring, Vice Chair)
   Members of the Phoenix-Mesa Gateway Airport Authority will attend either in person or via videoconference.

2. **Roll Call** (Councilmember Jim Waring, Vice Chair)

3. **Pledge of Allegiance**

4. **Call to the Public**
   Members of the Board may not discuss items that are not on the agenda. Therefore, action taken as a result of public comment will be limited to directing staff to study the matter or scheduling the matter for further consideration and decision at a later date. Maximum of three minutes per speaker.

5. **Executive Director's Report** - J. Brian O'Neill, A.A.E., Executive Director/CEO

6. **Gulfstream Presentation** – Shea Joachim, Business Development Director

7. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on February 16, 2022.

   b) **Resolution No. 22-06 –** Approving a construction contract with **SDB Contracting Services (SDB)** for the renovation of the rental car return lot, in an amount not to exceed $671,121 under CIP 1222.

   c) **Resolution No. 22-07 –** Authorizing Phoenix Mesa Gateway Airport Authority staff to negotiate and execute a final contract for the **North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Pre-Construction Services and Guaranteed Maximum Price (GMP) 1 Early Works, with Nesbitt Contracting Co., Inc.** in an amount not to exceed $608,176.

Consideration and Possible Approval of:

8. **Resolution No. 22-08 –** Adoption of the proposed **Operating Budget, Capital Budget, and Member Government Contributions** for the fiscal year ending June 30, 2023.

9. **Resolution No. 22-09 –** Approving an Authorization of Services with **Kimley-Horn & Associates** for Engineering Design Services for the Fuel Farm Expansion Design, in an amount not to exceed $373,867 under CIP 1216.

10. Board Member Comments/Announcements

11. Next Meeting: Tuesday, April 19, 2022 at 9:00 a.m.

12. Adjournment

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Misty Johnson at 480-988-7607 or mrjohnson@gatewayairport.com. Requests should be made as early as possible to allow time to arrange the accommodation.

Airport Operations

PMGAA would like to thank Airside Operations Manager Ivan Smith, his team, and many other PMGAA employees for a great job coordinating this year's Triennial Emergency Preparedness Exercise. Live training drills like these are invaluable and help build stronger relationships, increase communication, improve emergency response coordination, and better prepare the Authority, first responders, and mutual aid organizations for an actual emergency.

There were many participating municipalities, agencies, airports, companies, and volunteers that generously gave their time, energy, and expertise to make this year's training exercise event a success. PMGAA would like to acknowledge everyone on the next page for a job well done! Thank you for being an important part of this year's mock live drill.

Participants in PMGAA's 2022 Emergency Preparedness Exercise

- Allegiant Airlines
- City of Mesa
- Town of Gilbert
- Town of Queen Creek
- City of Phoenix
- Superstition Fire & Medical District
- City of Chandler
- City of Scottsdale
- City of Tempe
- Federal Aviation Administration
- Tucson International Airport
- Denver International Airport
- Flagship Inc.
- Republic Parking
- Serco NA
- Task Aerospace, Inc.
- Worldwide Flight Services
- Aviation Performance Solutions (APS)
- All the Victim Volunteers
- PMGAA Staff

PMGAA Team Member Spotlight

Employee Name: **Alex Smith, A.A.E.**
Employee Title: **Landside Operations Manager**
PMGAA Department: **Security, Operations, and Maintenance**
Years with PMGAA: **9+**

What are your job responsibilities for PMGAA? I oversee the administration and operational functions of the Terminal Operations and Airport Badging Office teams. We ensure a safe, secure, and customer service-oriented experience for all our users and stakeholders!

What is your most memorable Gateway Airport moment? My most memorable moment at Gateway Airport was working as part of an amazing team of Airport staff and stakeholders to ensure a safe and successful presidential visit.

What is something people may not know about you? I am on the Board of Directors for the Southwest Chapter of the American Association of Airport Executives (SWAAAE) representing the great State of Arizona!

Engineering and Planning

Gateway Airport's Rental Car Facilities and Infrastructure Getting a Major Facelift!

Car Rental Ready Return Lot Reconfiguration

Car Care Facility Design Layout

More efficient vehicular flow, increased parking capacity, and customer experience enhancements like shade structures are just some of the reasons PMGAA and its rental car companies are reconfiguring, expanding, and improving the Rental Car Return Lot located across Sossaman Road from the commercial passenger terminal. The project will be completed later this spring after the busy travel season.

Another important project that PMGAA and its rental car companies are designing is a new Rental Car Care Facility. This much-needed project includes new wash bays, vacuum bays, maintenance garages, and additional parking for rental cars cleaned and ready to return to service. This $5-6 million project is currently in design and is scheduled to begin construction next fall/winter.

Gateway Aviation Services

During the month of January 2022, PMGAA pumped over 1.7 million gallons of aviation fuel, a 27% increase over the same month last year. FYTD22, Gateway Aviation Services (GAS) has pumped almost 11 million gallons of fuel into a variety of commercial, corporate, military, cargo, and general aviation aircraft.

FUEL (Gallons)	January			FYTD		
	FY21	FY22	% Change	FY20	FY21	% Change
AvGas	40,139	32,853	-18%	375,005	257,026	-32%

Military Training Activity Keeps Gateway Aviation Services Busy During February

T-38 Aircraft Refueled and Ready for Another Training Mission

Where do U.S. military training missions turn when their locations become unexpectedly covered in ice or snow? Gateway Airport in sunny Arizona for exceptional customer service provided by PMGAA's Gateway Aviation Services (GAS) Department…that's where!

For two weeks this February, Gateway Airport played host to 18 - 20 T-38 aircraft and their pilots for winter training exercises. During their February 2 – 17 stay in the Phoenix Valley, the GAS team professionally completed 443 fueling transactions for the active military aircraft and pumped close to 200,000 gallons of aviation fuel. These military training operations are an economic win for the region. The visiting pilots rent vehicles, stay in local hotels, dine in area restaurants, and usually make retail purchases during their stay in the Valley.

GAS staff has worked hard to build relationships with military schedulers and has earned a very good reputation for providing exceptional customer service during transient training missions. Great job team!

Community Noise Report

During the month of January 2022, PMGAA received aircraft noise calls from a total of 14 area residents, compared to 32 received from callers during January 2021.

Community and Government Relations

U.S. Senator Kyrsten Sinema Tours Gateway Airport

PMGAA always appreciates the opportunity to showcase Gateway Airport's continuing transformation and development to local, state, and federal elected officials. Often times, these VIPs are interested in seeing, first-hand, the progress being made with the much-needed infrastructure funding they've helped deliver to the Airport.

Sen. Sinema Receives a Briefing on the Terminal Modernization Project

On Friday, February 11th, U.S. Senator Kyrsten Sinema visited Gateway Airport to attend a Phoenix East Valley Business Roundtable and tour the Airport's commercial passenger terminal and the new Air Traffic Control Tower (ATCT). Senator Sinema and Arizona's Congressional Delegation have been some of the Airport's strongest champions in Washington, DC, supporting critical airport facility, airfield, and infrastructure projects and bringing federal grants for these important projects back to the State.

On March 9, 2022, Allegiant is launching new nonstop service between Gateway Airport and Toledo, OH – a.k.a. The Glass City and Frogtown! Please tell family, friends, and co-workers about this exciting new service!

MINUTES OF PUBLIC MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS | February 16, 2022

A public meeting of the Phoenix-Mesa Gateway Airport Authority (PMGAA) was convened on Wednesday, February 16, 2022, beginning at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona.

Members Present

Mayor John Giles, Mesa
Councilmember Jim Waring, Phoenix (*via videoconference*)
Mayor Brigette Peterson, Gilbert
Mayor Chip Wilson, Apache Junction (*via videoconference*)
Lt. Governor Monica Antone, Gila River Indian Community (*via videoconference*)
Mayor Gail Barney, Queen Creek (*via videoconference*)

** Neither present nor represented*

Airport Staff Present

J. Brian O'Neill, Executive Director/CEO
Scott Brownlee, Deputy Director/COO
Chuck Odom, CFO
Misty Johnson, Clerk of the Board
Jill Casson Owen, Attorney

1. **Call to Order** at 9:00 a.m. (Mayor Giles)

2. **Roll Call**

3. **Pledge of Allegiance**

4. **Call to the Public**
   There were no public comments.

5. **Fiscal Year 2023 Budget Presentation** – Chuck Odom, Chief Financial Officer

   - Mr. Odom provided a proposed FY23 Operating and Capital Budget for the Board's review. The Board will be asked to consider the budget for approval at the March 15, 2022, PMGAA Board meeting.

   - Mayor Giles asked what the fiscal impact would be if PMGAA does not secure a grant from the Bipartisan Infrastructure Law (BIL). Executive Director O'Neill replied that plans for construction of the new five-gate terminal addition will be put on hold until federal funding is available in the future.

6. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on **December 21, 2021.**

   b) **Resolution No. 22-01 –** Amending the Board of Director's **Procurement Policy** 19-27.

DRAFT

c) **Resolution No. 22-02 –** Adopting the revised **Airport Rates and Charges** schedule with an effective date of February 16, 2022.

d) **Resolution No. 22-03 –** Authorizing the purchase of Unleaded and Diesel fuel from the lowest priced **State contract vendor** at market prices for the Airport Authority use and resale in the amount of $60,000.

e) **Resolution No. 22-04 –** Authorizing the purchase of Jet A and 100LL Avgas fuel from **Ascent Aviation Group, Inc. (World Fuel)** for Airport Authority resale in the amount of $875,000.

Mayor Brigette Peterson moved to approve the Consent Agenda.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

Consideration and Possible Approval of:

7. **Resolution No. 22-05 –** Authorizing additional $4,500,000 for FY22 Capital Budget for two new projects, CIP 1222 **Construction of the Car Rental Return Lot**, and CIP 1241 **North Economy Parking Lot Expansion**.

Mayor Chip Wilson moved to approve Resolution No. 22-05.
Mayor Brigette Peterson seconded the motion.
The motion was carried unanimously.

At 9:20 a.m., Chair Giles turned the meeting over to Vice Chair Waring before leaving to attend a prior commitment.

8. **Executive Director's Report** J. Brian O'Neill, A.A.E., Executive Director/CEO

Executive Director O'Neill provided a briefing on PMGAA financial performance, passenger activity, the community noise report, and various Airport projects.

- Fiscal Year-to-Date 2022 (FYTD22) Net Operating Income is $1,118,414.
- Calendar Year-End 2021 (CYE21) Net Operating Income was $3,448,955.
- A comparison of CY20 and CY21metrics for commercial passengers, operations, revenue, and fuel showed the various % changes between the two most recent years. CY19 data was included to provide a more realistic comparison to pre-pandemic activity levels.
- Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) welcomed 175,432 commercial passengers during December 2021; an 80% increase in passengers compared to December 2020.
- Gulfstream Aerospace Corporation (Gulfstream) will be constructing a new West Coast Service Center at Gateway Airport. Phase I is a 225,000 SF facility with an investment of over $70MM. Construction will begin in the spring of 2022. Gulfstream is currently leasing a 50,000 SF hangar at the Airport to serve as a "beachhead" while their new facility is being constructed.
- Three hangars totaling 183,000 SF are under construction in the Gateway Executive Airpark located at the north end of the airfield. Steel is being constructed on the first two hangars. Earthwork has begun on the larger 115,000 SF hangar. This project is a speculative, private development that will address the need for hangar space for larger corporate aircraft. All three of the hangars will be available for lease in 2023.

- SkyBridge Arizona continues to grow. The City of Mesa recently issued the necessary permits for construction of a 127-room dual-brand hotel along Sossaman Road. SkyBridge Arizona hopes to break ground during the spring of 2022. The hotel will offer rooms for both transient overnight guests and extended stay customers. Design work on SkyBridge Arizona's horizontal infrastructure – taxi lane extension, entrance roadways, sewer, water, fiber, and other utilities – continues. SkyBridge is also in the planning stage for two additional industrial buildings. These two flex industrial buildings will be approximately 200,000 SF and 250,000 SF respectively.
- Gateway***East*** is a 400-acre mixed use non-aeronautical master development opportunity located on the east side of the Airport. PMGAA is working with The Boyer Company from Salt Lake City, Utah on a master lease and master development agreement for the property.
- February 2022 has been a busy month for military operations at Gateway Airport. More than 50 military aircraft have been stationed at Gateway Airport so far in February. These training missions provide a positive economic impact on restaurants, hotels, and other greater Phoenix attractions and entertainment venues.
- Federal, state, and local elected officials have been taking advantage of PMGAA's invitation to tour the new air traffic control tower (ATCT, Tower) and Airport terminal. PMGAA enjoys showing off all the changes to its owners and supporters.
- PMGAA is hoping to secure a grant from the Terminal Modernization Program of the BIL to construct a new five-gate, 30,000 SF terminal addition that will connect to the main terminal creating one unified commercial passenger terminal consisting of 11 gates.
- The finished exterior of the ATCT will be unveiled in the coming weeks. Interior construction will continue, and the Tower is still on-track to be commissioned in the summer of 2022.
- PMGAA is expanding aircraft parking opportunities for larger/heavier aircraft at the south end of the airfield. Alpha Apron Phase III is currently under construction and Phase IV is in design process and will be ready for construction once Phase III is completed. The Alpha Apron is the area of the airfield where the US Forest Service refuels its aircraft and refills them with firefighting retardant.
- The BIL also includes much-needed funding for other important Airport projects. PMGAA has received an additional $4.4MM for reconstruction of its Center Runway. PMGAA is working closely with its partners at the Federal Aviation Administration (FAA) to try and complete the runway reconstruction project in one year.
- On February 22nd, the Airport will be conducting its Triennial Full-Scale Emergency Preparedness Exercise. The Federal Aviation Administration (FAA) requires Part-139 airports to conduct a live simulated emergency drill every three years. The training exercise is designed to evaluate and improve personnel readiness, efficient and effective coordination, and increased communication among all first responders, mutual aid agencies, emergency vehicles, and area hospitals.

9. Board Member Comments/Announcements.

There were no comments or announcements.

10. Next Meeting: Tuesday, March 15, 2022 at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone/videoconference.

11. Adjournment.
The meeting adjourned at 9:36 a.m.

Dated this _____ day of _____ 20___.

Board Action Item

Re: Resolution 22-06

To:	**Board of Directors**
From:	**R. J. Draper, P.E., LEED AP, CM Engineering & Facilities Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Rental Car Return Lot Construction – SDB Contracting Services – CIP 1222**
Date:	**March 15, 2022**

Proposed Motion
To approve a construction contract with SDB Contracting Services (SDB) for the renovation of the rental car return lot, in an amount not to exceed $671,121 under CIP 1222.

Narrative
The growth of commercial service at the Airport benefits the car rental companies and generates revenue for the Airport through Customer Facility Charges (CFC). CFCs are daily transaction fees imposed upon a customer renting a vehicle from an on-airport car rental company. CFC revenues are used to pay for capital improvement projects for the car rental companies located at the Airport.

Our current Car Rental Return Lot is inadequate, and lacks the capacity and efficiency needed to service our customers effectively. This parking lot needs to be upgraded and expanded in order to accommodate the increased number of rental cars currently in service. SDB will provide Construction Services, which will include the renovation of existing facilities, by relocating an existing Car Rental Kiosk, seal coating the parking lot, updating the pavement markings, refresh the lighting and in-ground infrastructure, and upgrade the secured entrance and exit access locations.

PMGAA and SDB are both participants of the 1GPA Purchasing Group. Under 1GPA, SDB was awarded Contract #18-15PV-12, and it is through this competitive selection that PMGAA will utilize SDB for these Construction Services. The Cooperative Contract is available upon request.

A quote was obtained utilizing the 1GPA pricing as noted below:

SDB Contracting Services $671,121

Fiscal Impact
The construction portion of this project was originally anticipated to cost $500,000 and was included in the FY22 capital budget. The 1GPA proposal is $172,000 higher than anticipated and in accordance with our policy we are requesting to increase the budget by $172,000, bringing the construction portion of this project to a total of $672,000 under CIP 1222 using CFC funding.

Attachment(s): Proposal

RESOLUTION NO. 22-06

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to approve a construction contract with SDB Contracting Services (SDB) for the renovation of the rental car return lot, in an amount not to exceed $671,121 under CIP 1222.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby approves a construction contract with SDB Contracting Services (SDB) for the renovation of the rental car return lot, in an amount not to exceed $671,121 under CIP 1222. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 15th day of March, 2022.

Jim Waring, Vice Chair

BID PROPOSAL

ATTACHMENT "A"

CUSTOMER:	PMGAA	BID DATE:	3/3/2022
ADDRESS:	5835 S. Sossaman Rd.	PROPOSAL NO.:	22-33-0003
	Mesa AZ 85212	PROPOSAL TYPE.:	LS
JOB DESC.:	**PMGAA RENTAL CAR RETURN LOT MODIFICATIONS**		
CONTACT:	RICH ADAMS		

SCOPE OF WORK:

Per plans/ engineering by Trace Consulting dated 2/3/22, no addendums

Coordination with PMGAA's rental return lot /others — All per site walks and PMGAA representations

CLARIFICATIONS:

- SDB Proposal does NOT include asbestos/hazards abatement/remediation
- SDB Proposal includes regular time work M-F from 6A top 3P (8 hour work days), plus OT if noted, 2- Phases
- Contingency will be used as approved in writing by owner and markups/taxes/bond fee will apply.
- Parking lot access/parking fees & badging & UG boring is EXCLUDED
- Any parking access/ fees equipment, parking lot equipment, arms, UPS, cameras are EXCLUDED
- Proposal good for 30 days, material cost escalation/inflation may apply after 30 days
- The site will have NO POWER (2 weeks?) when the existing pedestal/power is demo and relocated, pending on SRP to show too.
- ANY COVID-19 related delays (work stop, materials procurement, others) will be excusable delays
- SRP coordination/design to bring or move power will be a delay at this project, **expect 4-5 months** possible

  SDB could coordinate all efforts with SRP and try to expedite for an additional fee (pre-construction) if PMGAA is interested
- All SRP (and any other utility companies) related design, service, work fees are to be contracted & paid by PMGAA or others
- The shade structure and split face/integral color block may have a lead time **10- 12 weeks** (fabrication+)/ Wedge barriers 8 weeks

PROJECT TENTATIVE SCHEDULE:

ALLOW (2) weeks for job-set up /submittals AFTER receiving a PO

ALLOW up to (10-12) weeks for long lead items

ALLOW 4-5 months for SRP design/work on site to happen

ALLOW up to (4) weeks for on-site work completion for Phase-1

ALLOW up to (4) weeks for on-site work completion for Phase-2/ final

1GPA PRICING COEFFICIENTS	
1 $0 - $50,000	12%
2 $50,000 - $100,000	11%
3 $100,000 - $250,000	10%
4 $250,000 - $500,000	8%
5 **$500,000 - $999,999**	**6%**

ALTERNATES:

1- DEDUCT [$10,375] if the (1) 14'x16' modular building can be lifted and transported, depending on floor/ built structure

EXCLUSIONS:

- Drawings, engineering, construction permit fees, materials testing, special inspections, liquidated damages, SRP design/fees
- Identification of and/or removal of hazardous materials, NESHAP fees and testing, modifications to existing electrical gear
- Unforeseen Conditions, underground obstructions, utility company fees/charges. Relocate or upgrade existing systems
- Temporary/Construction power/water/HVAC/lighting. Premium time, accelerated schedule. Existing code issues, shut down fees
- Utility fees/costs, Security systems or special systems work, power surveys, special integral colors on concrete/block
- Parking lot access/parking fees. Badging, Police officer, paid escorts, work stopage by others (car rental), fire protection work
- As-builts (CAD), hard dig/caving soils, UG/OH utilities conflicts or relocations, steel traffic plates, shoring, slurry backfill,
- Any telecommunications, data, fiber, any terminations, parking lot equipment, automation not in prints. SRP coordination
- Landscaping, any new trees/shrubs, traffic control. Electrical includes meter section up to 200A, anything more (SRP) is a change
- *Any items not included in the proposal are excluded.* Any work at the existing Enterprise big customer service booth

Start Date: TBD Completion Date: TBD

ELECTRICAL PROPOSAL AS FOLLOWS:

Our electrical proposal is only based on the following: Red line e-sheets E-0.1 - E-4.1 02/03/2022
We have included the following addendums in our base bid price below:

BASE BID PER PLANS **$110,956.00**

- **PRICE INCLUDES THE FOLLOWING:**

All lighting and lighting controls are per print and considered to be existing and in good clean working order. We have included the relocation of (1) pole light per E-1.1 KN #3 & E-2.1 KN #8. Demo of light pole base and new concrete light pole base in its entirety by others. All gear is per print with new meter panel/ pedestal in new location based on E-2.1 KN #4 (pedestal concrete based by other). All demo and make safe is based on E-Sheets provided and job site conditions observed. All new ground pull boxes will be traffic rated per E-2.1 KN #1, 6. All new Phone/data conduit will be based on E-2.1 KN #2 from existing communication box. All existing conduit and conductors are considered to be sized properly, in good working order and contain a code compliant grounding conductor. NOTE: Bid is based on normal working hours only and all fire alarm is excluded. **Pricing for this project is based on current commodity pricing and can not be guaranteed past 15 days unless a PO is issued to lock in current estimate. PVC, copper, lighting and steel are expected to raise in price on a weekly bases.**

- **NOTES:**

1. Please note: The standard lead times for fixtures and gear will be 16 to 18 weeks.
2. Our Estimate/Proposal is predicated and based on the Copper price of $4.00 per pound and steel products at $0.00 per pound, and is good for 15 days from this proposal date. We have the option to raise our pricing (if above mentioned products are increased) to the adjusted level after 15 days or during the project unless we are approved to purchase materials at those locked levels in the beginning of the project.
3. Please review all of our exclusions below.

- **PRICE EXCLUDES THE FOLLOWING:**

1. All permit and engineering fees, sales tax and bonds.
2. All modifications to existing electrical gear.

3. All power company shut-down fees.
4. All temporary power in its entirety.
5. All off-site trash haul-off and clean-up, We will utilize an onsite dumpster.
6. All cutting, painting and patching of walls.
7. All demolition work.
8. All asphalt and concrete saw-cutting, patching, removal and landscape repair.
9. All x-rays for floor penetrations and core drilling.
10. All formed concrete, (transformer pads, etc.).
11. All low-voltage control wiring and thermostat conduits.
12. All motor starters for HVAC units.
13. Fire alarm system in its entirety.
14. Security system in its entirety.
15. All telephone/data cabling, terminations and installation, (stub-ups with a pull string only into the accessible ceiling space above).
16. All off-hours and overtime.
17. All costs of acceleration or schedule compressions.
18. All ceiling wires for light fixture supports, if required.
19. All labor to install lamps from a 'furnished by others' fixture package, which do not already come lamped directly from factory.
20. All power company surveys, (by others).
21. General Contractor is responsible for the coordination of all city planning, zoning and inspections.

Subject: PMGA rental car lot - red line revised

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello Sal,

Please see the attached revised proposal for the PMGA rental car lot project, if you have any questions concerning our proposal feel free to contact James or I any time.
Our last revised bid was per prints & the wedge barriers info, the redlines they put in calls for larger pipes and more underground boxes then the bid set.
E-Sheets show (1) 2inch and (2) 1 1/4 runs not the 3 inch and 2 inch and boxes they indicate on redlines.

Thank you,

Alex Clay

Board Action Item

Re: Resolution 22-07

To:	**Board of Directors**
From:	**R. J. Draper, P.E., LEED AP, CM Engineering & Facilities Director**
Through:	**Scott Brownlee, Deputy Director/COO** **J. Brian O'Neill, A.A.E., Executive Director/CEO**
Subject:	**North Economy Parking Lot Expansion Construction CMAR – Nesbitt Contracting Co., Inc. – CIP 1241**
Date:	**March 15, 2022**

Proposed Motion

To Authorize Phoenix Mesa Gateway Airport Authority staff to negotiate and execute a final contract for the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Pre-Construction Services and Guaranteed Maximum Price (GMP) 1 Early Works, with Nesbitt Contracting Co., Inc. in an amount not-to-exceed $608,176.

Narrative

The Phoenix-Mesa Gateway Airport has experienced unprecedented growth and requires immediate additional parking capacity in order to maintain the ability to meet customer demand. The North Economy Parking Lot Expansion Plans were developed in 2012 and will provide PMGAA with an additional 1263 parking spaces of which 18 are ADA accessible.

Phase I of this project includes 600 parking spaces, parking lot lighting and a shuttlebus pickup location that will be completed by June 2022. Phase II, which will be completed by November 2022, will include the remainder of the parking spaces and planned improvements. It is anticipated that the existing fence line will remain in place, with swing gates added, as the additional parking spaces will be considered overflow parking and not for routine use.

Early GMP is needed to meet established deadlines, Staff will present a CMAR Construction Services Contract to the Board for review and consideration at a later date.

The Notice of Request for Qualifications (RFQ), Solicitation 2022-018-RFQ was issued on January 10, 2022, and advertised in the Arizona Business Gazette on 1/13, 1/20, 1/27 and 2/3/22; it was also posted on the AzAA, ACC, ACI-NA, SWAAAE Websites as well as the Phoenix-Mesa Gateway Airport Authority Website. In addition, the RFQ was emailed to a list of 94 prospective firms. PMGAA Staff received three (3) Statement of Qualifications on February 8, 2022, from the following firms:

Nesbitt Contracting Company, Inc.
Pulice-Roadway Electric-McNeil Joint Venture
Rummel Construction, Inc.

Upon review of the qualifications, the Evaluation Panel unanimously selected Nesbitt Contracting Co., Inc. as the CMAR firm that best satisfied the requirements based on the qualifications of the firm, project team experience, and project understanding and approach to performing the required services.

Fiscal Impact
This contract is utilizing PMGAA Non-grant funds under Capital Improvement Project 1241.

RESOLUTION NO. 22-07

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize the Executive Director/CEO and / or delegate to negotiate and execute a final contract for the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Pre-Construction Services and Guaranteed Maximum Price (GMP) 1 Early Works, with Nesbitt Contracting Co., Inc. in an amount not to exceed $608,176.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes the Executive Director/CEO and / or delegate to negotiate and execute a final contract for the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Pre-Construction Services and Guaranteed Maximum Price (GMP) 1 Early Works, with Nesbitt Contracting Co., Inc. in an amount not to exceed $608,176. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 15th day of March, 2022.

Re: Resolution 22-08

To:	**Board of Directors**
From:	**Chuck Odom, Chief Financial Officer**
Through:	**J. Brian O'Neill, A.A.E., Executive Director/CEO**
Subject:	**Operating and Capital Budget for Fiscal Year ending June 30, 2023**
Date:	**March 15, 2022**

Proposed Motion
To adopt the proposed Operating Budget, Capital Budget, and Member Government Contributions for the fiscal year ending June 30, 2023.

Narrative
The following is an overview of the proposed budgets.

Key Assumptions for FY23 Budget

1. Member contributions will continue to fund capital improvements.
2. Enplaning passenger activity is expected to increase in FY23's budget by 7% over FY22's.
3. Fuel sales will be up by $1.215M; Volume ($55K) and Price $1.270M.
4. Aero revenue will be up 13%; Non-Aero revenue will be up 10%.
5. Air-Service Incentive Program carries over from previous fiscal year.
6. Operating Contingency is 10% of total expenses from unrestricted cash reserve.

FY23 Operating Budget Highlights

Operating Revenues:	FY22 Budget	FY23 Budget	Difference	%
Aero Op Rev: Aircraft Parking	$ 231,559	$ 238,212	$ 6,653	3%
Aero Op Rev: Fuel Flowage	647,112	741,352	94,240	15%
Aero Op Rev: Landing Fees	1,295,750	1,218,451	(77,299)	-6%
Aero Op Rev: Lease Income	3,046,619	2,706,284	(340,335)	-11%
Aero Op Rev: Svcs Sold	4,791,674	5,977,002	1,185,328	25%
Aero Op Rev: Fuel Sales	5,985,732	7,201,310	1,215,578	20%
Total Aero Op Revenue	15,998,448	18,082,612	2,084,164	13%
Non-Aero Op Rev: Concess	883,000	1,195,850	312,850	35%
Non-Aero Op Rev: Lease Inc	1,298,587	1,131,592	(166,995)	-13%
Non-Aero Op Rev: Parking	3,343,618	3,632,067	288,449	9%
Non-Aero Op Rev: Rental Car	1,858,950	2,193,000	334,050	18%
Non-Aero Op Rev: Svcs Sold	161,200	150,400	(10,800)	-7%
Total Non-Aero Op Revenue	7,545,356	8,302,910	757,554	10%
Total Operating Revenue	$ 23,543,804	$ 26,385,522	$ 2,841,718	12%
Operating Expenditures:				
Communication & Utilities	$ 886,238	$ 898,999	$ 12,761	1%
Contractual Services	5,880,030	6,413,400	533,370	9%
Cost of Goods Sold	3,331,674	4,897,478	1,565,804	47%
Insurance	562,932	652,189	89,257	16%
Other	857,510	535,571	(321,939)	-38%
Compensation & Benefits	9,870,850	10,468,250	597,400	6%
Repair & Maintenance	1,173,350	1,374,413	201,063	17%
Supplies & Materials	969,994	983,523	13,529	1%
Total Operating Expense	$ 23,532,578	$ 26,223,823	$ 2,691,245	11%
Operating Income	$ 11,226	$ 161,699	$ 150,473	1340%
Total Operating Expense	$ 23,532,578	$ 26,223,823	2,691,245	11%
Potential Air Incentive	2,000,000	2,000,000	-	0%
10% Contingency	2,353,258	2,622,382	269,125	11%
Total Budgeted Operating Expense Capacity	$ 27,885,836	$ 30,846,205	$ 2,960,370	11%

Capital Improvement Program (CIP) Project Summary

The proposed capital budget for FY23 is $68,167,000. The projects are listed in Attachment 1 with more detailed description of the projects in Attachment 2. The carry over capital projects from FY22 total $46,103,005 and are listed in Attachment 3 with the descriptions in Attachment 4.

FY23 Capital Improvement Program Funding Summary

FAA	$ 23,675,600
PMGAA Cash Reserves	23,369,200
PFC	10,000,000
CFC	5,900,000
Member Contributions	4,060,000
ADOT	1,162,200
Total for FY23	$ 68,167,000

FY22 Carry Over Capital Funding Sources

PFC	$ 20,325,000
FAA	13,704,691
PMGAA Cash Reserves	10,146,455
ADOT	1,926,859
Total for FY22 Carry Over	$ 46,103,005

Total Operating, Capital and Debt Service Budget Combined

Total Operating Expense	$ 26,223,823
Potential Air Incentive	2,000,000
10% Operating Expense Contingency	2,622,382
FY23 Capital Budget	68,167,000
FY22 Carry Over Capital Projects	46,103,005
Capital Maintenance Reserve	1,000,000
Debt Service Payment	1,295,750
Total Budget Operating and Capital	$147,411,960

RESOLUTION NO. 22-08

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority is required pursuant to Arizona Revised Statutes and Section 9 of the Joint Powers Airport Authority Agreement to recommend to the governing bodies of the Airport Authority's members an operating budget, capital budget, and capital improvement program for each fiscal year; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Phoenix-Mesa Gateway Airport Authority as follows:

> **The Phoenix-Mesa Gateway Airport Authority Board of Directors hereby adopts the Phoenix-Mesa Gateway Airport Authority Fiscal year 2023 Operating Budget in the amount of $30,846,205, the Fiscal Year 2023 Phoenix-Mesa Gateway Airport Authority Capital Improvement Program and Debt Service in the amount of $116,565,755, and incorporated as if fully set forth herein, subject to the authority granted to the Executive Director/CEO under Board Policy #15-04, and including the member government contributions and proportions provided as follows: City of Mesa $1,700,000 (41.87 %); City of Phoenix $1,300,000 (32.02 %); Gila River Indian Community $450,000 (11.08%); Town of Gilbert $350,000 (8.62 %); Town of Queen Creek $130,000 (3.20 %); City of Apache Junction $130,000 (3.20 %).**

Passed and adopted by the Authority this 15th day of March, 2022.

Attachment 2

FY23 Capital Budget

Project # Name	Amount	Description
1072-Reconstruction of Runway 12R/30L & Twy Hotel	$26,000,000	Reconstruct Runway 12R30L from 1000 feet from north end to 500 feet north of Taxiway Lima. Project encompasses sections 20, 30, and 40 totaling almost 1 million sq ft. Project will include runway PCCP replacement, shoulder, lighting, striping, and signage improvements.
1236-Construction of TWY C New Connectors and Partial Parallel Taxiways	$15,000,000	Construction of a new parallel taxiway, 2 taxiway connectors on west side and two taxiway connectors on the east side of the proposed partial parallel that will allow aircraft to access the proposed hangar/apron development
1231-Construciton Alpha Apron IV	$10,000,000	Approx 32,000 sq yards, will include a Portland cement concrete apron pavement section, asphalt paved shoulders, taxiway/apron lighting, grading and drainage, pavement markings
1224-Construction of Jet A Fuel Expansion	$6,000,000	Design and Construction for 3 additional 50k gallon Jet A fuel tanks to increase fuel capacity
1242-Construction Rental Car Care Facility	$5,900,000	Construct a new Car Care Facility for the Airport Car Rental Companies. Improvements include demolition of existing fence, building, canopy, pavement and fueling equipment. Redevelopment of site will include new administration & Mx Buildings, car service canopies, car vacuum bays, car wash building, new asphalt, concrete pavements, utilities, fueling equipment pads, fire hydrants and traffic markings.
1223-Old ATCT Demo	$800,000	Remove existing ATCT cab from building for salvage and use. Demolish building- Demo provides better visual skyline for Airport.
1240-Add 4 GPU's and 4 PCAir Units for Terminal Expansion	$700,000	Four new GPU's and four new PC Air Units to be placed at Gates 1A-3 once the Terminal Modernization Project is completed
0284-Purchase Pavement Cleaning Machine	$675,000	Purchase self-contained pavement cleaning machine that has the capability to remove rubber, paint markings and pavement cleaning.
1219-Demolition & Relocation of Remote Transmitter & Receiver	$600,000	Relocate critical equipment from the existing RTR facility, re-route necessary conduit and demolition existing buildings to make way for future spine road development and Gulfstream
0982-Taxiway Circle Reconstruction	$500,000	Replace 2500 Sq yards of pavement located in front of building 1080 (parking lot drive lanes) The pavement inventory indicates 6' thickness (circa 1942) and LAD calls out 8" PCCP over 8" compacted subgrade. Due to the age of the pavement and wear and tear on the roadway after being the "haul" route for two major projects, TWY K and ATCT Construction, this access roadway in front of 1080 will be in need of replacement.
1238-Replc 4 Fire Pumps at So. Central & Pump House	$500,000	Replace the fire pumps at the South Central and the Pump House (Bldg 1083) due to their age and cost of maintenance
0389-Demolition of Existing Structures	$270,000	Demo of existing reinforced PCC structures located in the Mesa Skybridge Arizona leasehold
0687-Replc 2003 Air Start Unit 100 ppm Unit -259	$200,000	Equipment beyond useful life and scheduled for replacement
1061-Replc 2002 Mobile Air Condition Unit -EQP 262	$170,000	Equipment beyond useful life and scheduled for replacement
1096 -GAS Remodel Phase IV	$160,000	Second phase of GAC improvements to bring all office spaces and public spaces to the same appearance and standards established in the FBO lobby area.
1063-Replc 1999 F350 Airstair Truck - VHC 274	$130,000	Equipment beyond useful life and scheduled for replacement
1225- Storage Area Network Servers 4 yr refresh	$125,000	Refresh Storage Area Network Servers - Last Refresh was 2018
1233-Lenel Security Servers 4-Yr Life Cycle Refresh	$100,000	Lenel Security System Server life cycle refresh 4 years. Supports all the security cameras, alarms, & sensors throughout the airport.
0678-Replc 2000 Lavatory Service Truck -TRK 279	$100,000	Equipment beyond useful life and scheduled for replacement
1020-Replc 2 Dodge 2500 Trucks 2008 TRK-230 & 2008 TRK 235	$75,000	Replace 2 2008 Dodge 2500 Trucks - TRK 230 & TRK 235
1060-Replc 2011 28.0v GPU -EQP 265	$60,000	Equipment beyond useful life and scheduled for replacement
1226-Replc 2003 Ford Ranger Trk- 545	$30,000	Replc 2003 Ford Ranger Trk- 545
1232-Replc Generator 470 for AWOS /Glideslope	$30,000	Replc Generator 470 (Pre-1998) that was signed over when the base converted to PMGAA
0864-US Customs Technology Refresh	$25,000	Perform technology refresh on US Customs computer network and equipment
1227- Replc 2017 6 pax Gem Car - EQP 208	$17,000	Replc old equipment for transporting customers from ramp to FBO and other utility uses

$68,167,000

Attachment 4

FY23 Capital Budget FY22 Carry Overs

Project # Name	Amount	Description
1201-Terminal Modernization	$21,500,000	Design and reconstruct 5 gates and includes related concession spaces.
1202-Center Runway 12C/30C Design & Reconstruction	$13,952,000	Design & Reconstruct section 30 of Runway 12C/30C. Approx 2,500 linear feet and include approx 21,000 SY PCCP. Includes shoulders, LED lights, pavement markings, storm drainage, signage.
1241-North Economy Parking Lot Expansion	$2,000,000	Construct the Extension of the North Economy Parking Lot adding an additional 1260 spaces. This construction will be done in phases: 500-600 spaces completed by June 2022; remaining spaces will be completed by Thanksgiving 2022
0741-Design and Recon Twy H Btwn B & 12R	$1,248,005	Design & Reconstruct Taxiway H between Taxiway B and Runway 12R. 250' x 75' (2,100 SY PCCP), plus 250' x 30' shoulders (1,700 SY AC), including lighting, drainage, signage & marking. According to AP Tech report dated March 2010, the pavement condition index (PCI) is rated at 66. CW
0998-PARCS System Replacement	$1,100,000	PMGAA's parking revenue control system will reach its full usable life cycle by FY20. The existing equipment was installed in 2007/08. The new system will have more advanced technology such as cloud based access portals and customer service functionalities. In addition a License Plate recognition system will be installed to enhance security, customer service and provide for more accurate measures of parking lot usage.
0927-Construction ATCT	$1,000,000	Construct new Air Traffic Control Tower. Site selection study completed by FAA (CIP 888) proposes new site 410' NW of current tower. EA underway (CIP 945). New tower to be 164' eye level height, top of tower 194', 550 SF cab with 8 controller positions
0744-Taxiway W Design & Recon	$200,000	Design and reconstruct a section of Taxiway Whiskey located on the southern portion of the taxiway and north of intersection of W and T. 2013 pavement condition index (PCI) for the worst section is rated at 57, approaching pavement failure if not reconstructed in the intermediate term. The dimensions of the section is 22' x 405' (8,910 SF). Project to address edge lighting, markings, shoulder, drainage as required.
1022-Replc 1997 Kubota L35 Backhoe -TRACT 321	$63,000	Replc Tractor 321 1997 Kubota . Tractor is 23 years old and is nearing the end of its service life which would require extensive refurbishment.

Board Action Item

Re: Resolution 22-09

To:	**Board of Directors**
From:	**R. J. Draper, P.E., LEED AP, CM Engineering & Facilities Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Fuel Farm Expansion Design Services – Kimley-Horn & Associates, CIP 1216**
Date:	**March 15, 2022**

Proposed Motion
To approve an Authorization of Services with Kimley-Horn & Associates for Engineering Design Services for the Fuel Farm Expansion Design, in an amount not to exceed $373,867 under CIP 1216.

Narrative
Due to the increased commercial aircraft passenger traffic and the additional airlines utilizing PMGAA, Airport staff had an analysis completed of the existing and anticipated Jet-A Fuel Storage Capacity that is needed at the Fuel Farm. Currently the Airport has a usable storage capacity of 225,000 gallons of Jet-A Aviation Fuel, which has been determined (by Airport Staff), to be less than five days of storage reserves on hand. Based on recent growth patterns, within the next five years, this number is anticipated to be less than three days of storage reserves on hand. With the findings from this recent study, PMGAA staff has determined the need for an expansion to the Fuel Farm in order to accommodate future Jet-A Fuel Storage Capacity.

The proposed project design will provide three additional 50,000-gallon (gross) Jet-A fuel storage tanks, fuel lines, pumps and will utilize the airport controlled vacant lot adjacent to the existing fuel farm in order to provide adequate space for the new tanks and the refueler/tanker truck circulation paths.

In 2019, a Request for Qualifications, 2020-007-RFQ for On-Call Engineering Services was issued. Kimley-Horn and Associates (KHA) was one of two firms selected as the most qualified. In accordance with the terms of our agreement, C-2020007-A, KHA worked with Airport staff to refine a Scope of Work for Engineering Design Services for the Fuel Farm Expansion Design. The cost for these services was negotiated based upon the contract fee schedule at a cost not to exceed $373,867 under CIP 1216.

Fiscal Impact
These Engineering Design Services are included in the FY22 Capital Budget and are funded with PMGAA non-grant funds under CIP 1216.

Attachment(s)
Authorization of Services

RESOLUTION NO. 22-09

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to approve an Authorization of Services with Kimley-Horn & Associates for Engineering Design Services for the Fuel Farm Expansion Design, in an amount not to exceed $373,867 under CIP 1216.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby approves an Authorization of Services with Kimley-Horn & Associates for Engineering Design Services for the Fuel Farm Expansion Design, in an amount not to exceed $373,867 under CIP 1216. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 15th day of March, 2022.

Jim Waring, Vice Chair

ATTEST:

Misty Johnson, Clerk of the Board

APPROVED AS TO FORM:

Jill Casson Owen, Attorney

AUTHORIZATION OF SERVICES
Kimley-Horn & Associates, AOS 20A-2205

The signing of this Authorization (Agreement) by Phoenix-Mesa Gateway Airport Authority (PMGAA) and Kimley-Horn & Associates, 7740 N. 16th Street, Suite 300, Phoenix, AZ 85020 ("Kimley-Horn"), authorizes Kimley-Horn to carry-out and complete the services described below in consideration of the mutual covenants set forth below:

1. **PROJECT**: Fuel Farm Expansion Design under CIP 1216.

2. **SCOPE OF WORK**: Perform and provide Engineering Design Services for an expansion of the existing Jet-A Fuel Storage Capacity at the Airport's Fuel Farm. All services are to be performed in accordance with PMGAA Agreement C-2020-007-A, including the Standard Terms, and the attached detailed scope of work. Services shall be coordinated with and approved by PMGAA Authorized Representative prior to start of work.

3. **FEE FOR SERVICES**: The fee for services shall be based upon the attached scope of work, not to exceed Three hundred seventy-three thousand, eight hundred sixty-seven dollars and zero cents ($373,867), of PMGAA non-grant funds without the express written approval of PMGAA.

4. **AVAILABILITY OF PROJECT FUNDING:** The approval and continuation of this contract is subject to the availability of funds provided to, made available to, or appropriated by PMGAA for this purpose. In the event that funds are not available or appropriated for PMGAA's payment requirements under this contract for the goods and/or services to be provided hereunder, PMGAA may terminate this contract by providing notice to the consultant of the lack of the availability of funds. The consultant acknowledges and agrees that one source of funding for this contract may be funds made available from the Federal Aviation Administration and/or Arizona Department of Transportation, and that this contract, its approval and continuation, may contingent on the availability of those funds being made to PMGAA.

5. **INCORPORATED:** The following documents are hereby incorporated with this Authorization of Services and made part thereof:

   ☑ PMGAA Agreement C-2020007-A dated December 17, 2019.

6. **ATTACHED:** The following documents are attached to this Agreement and are incorporated herein by this reference made part thereof:

☑ Scope and Fee Proposal dated February 07, 2022.

PMGAA and Kimley-Horn acknowledge that they are in agreement with the terms and conditions as set forth in this Authorization.

Re: Solicitation Notification
Date: **March 15, 2022**

This report is to provide notification of the active and upcoming solicitations to help ensure compliance with the Phoenix-Mesa Gateway Airport Authority procurement transparency clause. The active activities include the following:

Active/Pending Solicitations

Type Solicitation	Number	Title	Anticipated Contract Award (Board Action)
Request for Qualifications	2022-018-RFQ	CMAR for North Economy Parking Lot Expansion	March 2022
Request for Proposals	2022-014--RFP	Revenue Parking Operations	April 2022
Request for Qualifications	2022-020-RFQ	CMAR for Rental Car Care Facility Improvements	April 2022
Request for Qualifications	2022-013-RFQ	On-Call Cultural / Archeological Services	May 2022
Request for Proposals	2022-015-RFP	Herbicide Application Services	May 2022
Request for Proposals	2022-016-RFP	Landscape Maintenance Services	May 2022

Future Solicitations

Type Solicitation	Number	Title	Scheduled for Release	Anticipated Contract Award (Board Action)
Invitation for Bid	2022-004-IFB	Taxiway W Rehabilitation	March 2022	May 2022
Invitation for Bid	2022-017-IFB	Rwy 12C/30C Reconstruct	April 2022	June 2022
Invitation for Bid	2022-022-IFB	Taxiway Connectors & Access Road & Utilities	April 2022	June 2022
Request for Qualifications	2022-005-RFQ	Fabrication and Installation of Signs	April 2022	June 2022

Fiscal year totals from sales of decommissioned / nonworking equipment total $7,350.

If you have any questions about the solicitations or the procurement process, please feel free to contact me at 480-988-7613.

NOTICE AND AGENDA OF MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the members of the Phoenix-Mesa Gateway Airport Authority and to the public that the Phoenix-Mesa Gateway Airport Authority will hold a meeting open to the public on **Tuesday, April 19, 2022 beginning at 9:00 a.m.** in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

The agenda for the meeting is as follows:

1. **Call to Order** (Mayor John Giles, Chair)
   Members of the Phoenix-Mesa Gateway Airport Authority will attend either in person or via videoconference.

2. **Roll Call** (Mayor John Giles, Chair)

3. **Pledge of Allegiance**

4. **Call to the Public**
   Members of the Board may not discuss items that are not on the agenda. Therefore, action taken as a result of public comment will be limited to directing staff to study the matter or scheduling the matter for further consideration and decision at a later date. Maximum of three minutes per speaker.

5. **Executive Director's Report** - J. Brian O'Neill, A.A.E., Executive Director/CEO

6. **Allegiant Presentation** – Michael Graci, Allegiant Manager of Airport Affairs

7. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on March 15, 2022.

   b) **Resolution No. 22-10 –** Authorizing an increase for FY22 **City of Mesa Fire Aircraft Rescue and Fire Fighting** services in an amount not to exceed $28,434.

   c) **Resolution No. 22-11 –** Approving an unscheduled 5% **cost of living adjustment** for the PMGAA Executive Director/CEO.

   d) **Resolution No. 22-12 –** Authorizing the filing of **grant applications** including agreeing to all understandings and assurances contained therein; and, authorizing the acceptance and execution of any Federal Aviation Administration (FAA) or other Federal agency, State of Arizona, Arizona County or Arizona Local Municipal grant offer(s), applied for or received between July 1, 2022 and June 30, 2023 by the Chair of the Authority, the Executive Director/CEO, Deputy Director/COO or Chief Financial Officer/CFO.

   e) **Resolution No. 22-13 –** Authorizing the procurement of wireless network equipment and software from **Enterprise Networks Solutions (ENS)** in an amount not to exceed $74,000.

f) **Resolution No. 22-14 –** Approving the amended and restated Phoenix-Mesa Gateway Airport Authority **Personnel Rules**.

g) **Resolution No. 22-15 –** Authorizing an increase to the annual contractual authority by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the **Fire Protection Systems** in Airport Facilities.

Consideration and Possible Approval of:

8. **Resolution No. 22-16 –** Authorizing a change order for the final phase of the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) construction services contract with **Nesbitt Contracting Co.,** in an amount not to exceed $2,755,361.31.

9. **Resolution No. 22-17 –** Authorizing the Intergovernmental Agreement (IGA) with the **City of Mesa for Aircraft Rescue and Firefighting Services**, in an amount not to exceed $1,556,752 for one-year effective July 1, 2022, with two optional one-year renewals not to exceed $1,633,872 and $1,714,826 respectively each year**.**

10. **Board Member Comments/Announcements**

11. **Next Meeting: Tuesday, May 17, 2022 at 9:00 a.m.**

12. **Adjournment**

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Misty Johnson at 480-988-7607 or mrjohnson@gatewayairport.com. Requests should be made as early as possible to allow time to arrange the accommodation.

Executive Director's Report

April 2022

Financial Snapshot

OPERATING INCOME	February		Month Variance	FYTD Comparison		FYTD Variance
	2021	2022		FY21	FY22	
Revenues	$1,720,434	$2,346,276	**$625,842**	$14,315,749	$16,406,574	$2,090,825
Less Expenses	$1,554,243	$1,875,365	**$332,122**	$12,634,675	$14,442,676	$1,808,001
Operating Income *(Before Depreciation)*	**$166,191**	**$470,911**	**$304,720**	**$1,681,074**	**$1,963,898**	**$282,824**

Investment Fund Balances: As of February, the Local Governmental Investment Pool (LGIP) 700 = $18,882,275; Wells Fargo; Collateralized Money Market = $233,972 and Collateralized CD's = $49,390,552; Total $68,506,799.

Finance and Accounting

Phoenix-Mesa Gateway Airport Authority (PMGAA) reported a net operating income of $470,911 for February 2022, very close to the record-setting February of 2019. PMGAA also reported a net operating income of $1,963,898 for fiscal-year-to-date 2022 (FYTD22), a $282,824 increase over the same time period last fiscal year.

Aeronautical revenues (29% increase) and non-aeronautical revenues (56% increase) both continue to exceed FY21 monthly totals. The largest increase was in the Services Sold category (70% increase) and reflects the significant increase in the number of commercial flights during FY22. Increases in non-aeronautical revenues (58%) are reflective of increased passenger activity and passenger spending.

Despite higher costs for goods and services, February 2022 and FYTD22 expenditures are still running approximately 6% under budget.

American Rescue Plan Act (ARPA) grant funds in the amount of $8,222,781 have been approved and awarded to PMGAA. To date, $6,814,581 in claims have been submitted for reimbursement.

Airport Operations

U.S. Forest Service – Mesa Base personnel and other wildfire fighting team members have been spotted at Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) training in preparation for the upcoming wildfire season in the southwest. When called into action, these real-life super-heroes work tirelessly to save lives and structures and keep important utilities operational during some very dangerous situations.

One aerial firefighting company looking to assist during wildfire season is Bridger Aerospace, a Bozeman, MT-based company that owns and operates a unique aircraft called the Super Scooper. This aircraft was built from the ground up with the sole purpose of fighting wildfires. The Super Scooper can skim on a water source, fill its tanks, and return to action, allowing it to fight wildfires for longer durations of time.

Another company training at the Airport is CAL FIRE, based in Sacramento, CA. CAL FIRE's fleet of more than 60 fixed and rotary wing aircraft makes it the largest civil aerial firefighting fleet in the world. CAL FIRE's world-renowned aviation program responds to thousands of wildfires throughout California and the west each year.

PMGAA would like to thank the U.S. Forest Service, Bridger Aerospace, CAL FIRE and all the other aerial firefighting organizations that take flight each year to keep us safe. THANK YOU!

Transportation Security Administration (TSA) Adds 6th Screening Lane at Gateway Airport

To stay ahead of the growing popularity of Gateway Airport, the TSA has added a sixth lane at the Airport's security screening checkpoint. During March, the local TSA leadership even borrowed security screening personnel from other Arizona airports in order to open all six lanes at Gateway Airport during peak travel periods. PMGAA appreciates the efforts of Assistant Federal Security Director Justin Bryan and his team to keep as many lanes as possible open during these challenging times. The TSA is a true team player!

PMGAA Team Member Spotlight

Employee Name: Shannon Jones
Employee Title: Training and Administrative Manager
PMGAA Department: Gateway Aviation Services
Years with PMGAA: 16 (in June)

What are your job responsibilities for PMGAA? Managing the training program for all staff in the department. Administrative side includes uniform, parts, and equipment ordering; training record keeping, and drafting standard operating procedures (SOP). I also oversee the Fuel Storage Facility and staff. This responsibility includes managing staff and quality control of all fuel.

What is your most memorable Gateway Airport moment? I think seeing the growth of the Airport over the past 16 years is amazing. When I started at the Airport it didn't even have commercial service.

What is something people may not know about you? I am from a little town called Akron, New York. I am Native American, and my tribe is called Cayuga, Heron clan. I moved to Arizona in 1998 and started working for America West Airlines. After 8 years in Phoenix, I came here to Gateway Airport.

Engineering and Planning

Gateway Airport is Expanding the Ray Road Economy Parking Lot by 1,300 Spaces

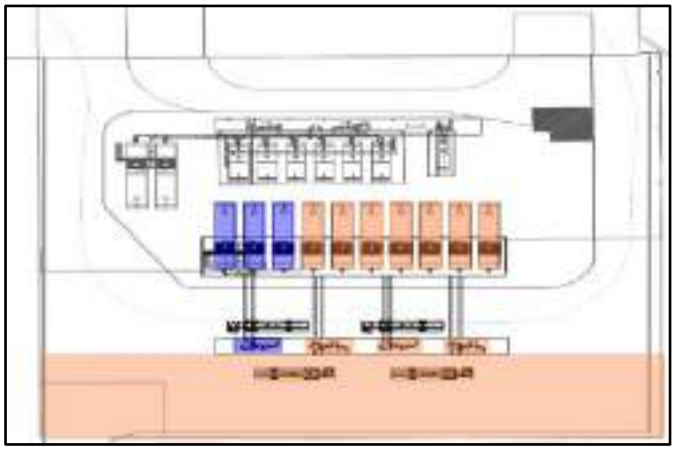
Great News! The PMGAA Board of Directors has approved construction of approximately 1,300 additional parking spaces in the Airport's Ray Road Economy Parking Lot. This important landside infrastructure enhancement project will ensure that Gateway Airport doesn't run low on parking during busy travel periods such as holidays and summer vacation.

Airfield Parking Area for Larger/Heavier Aircraft Opens in Time for 2022 Wildfire Season

One would think that with 3,000 acres of land available at Gateway Airport, there would be plenty of parking space for the larger/heavier aircraft that use the Airport for cargo transport and firefighting operations. However, there are times when parking space for aircraft like the Antonov, B747's, DC-10's, KC-135's, and others is at a real premium. To alleviate this airfield constraint, PMGAA recently opened Phase III of the Alpha Apron located at the southwest end of the airfield.

Alpha Apron Phase III

Gateway Aviation Services



Fuel Farm Expansion Plans

One of the important lessons learned during the ongoing COVID-19 pandemic is that fuel and trucking disruptions can jeopardize the operation of any airport. At Gateway Airport, there is currently 250,000 gallons of fuel storage on the airfield. This represents an approximate three-day fuel supply. As the Airport continues to grow, and to protect against future fuel delivery instability, PMGAA is planning to add another 300,000 gallons of fuel storage. This will give the Airport a healthy 7- to 9-day fuel supply on-Airport.

During the month of February 2022, PMGAA pumped approximately 2 million gallons of aviation fuel, a 20% increase over the same month last year. FYTD22, Gateway Aviation Services (GAS) has pumped over 12.7 million gallons of fuel into a variety of commercial, corporate, military, cargo, and general aviation aircraft.

FUEL (Gallons)	February			FYTD		
	2021	2022	% Change	FY21	FY22	% Change

Gateway Executive Airpark's First of Three Hangars

Gateway Executive Airpark Hangar Making Progress

The Gateway Executive Airpark is a 185,000 sq. ft. state-of-the-art, full-service hangar complex located at the north end of Gateway Airport's airfield between Textron Aviation's Mesa Service Center and Embraer's Executive Jet Service Center. This exciting private development project includes both multi-tenant and single tenant hangars sized to accommodate large jets, multiple smaller aircraft, and helicopters.

The first two hangars, totaling approximately 70,000 sq. ft., will be available for lease by the end of 2022 and the third, larger hangar (115,.000 sq. ft.) is scheduled for completion in 2023.

MINUTES OF PUBLIC MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS | March 15, 2022

A public meeting of the Phoenix-Mesa Gateway Airport Authority (PMGAA) was convened on Tuesday, March 15, 2022, beginning at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona.

Members Present

Mayor John Giles, Mesa*
Councilmember Jim Waring, Phoenix (*via videoconference*)
Mayor Brigette Peterson, Gilbert
Mayor Chip Wilson, Apache Junction
Lt. Governor Monica Antone, Gila River Indian Community (*via videoconference*)
Mayor Gail Barney, Queen Creek

** Neither present nor represented*

Airport Staff Present

J. Brian O'Neill, Executive Director/CEO
Scott Brownlee, Deputy Director/COO
Chuck Odom, CFO
Misty Johnson, Clerk of the Board
Jill Casson Owen, Attorney

1. **Call to Order** at 9:00 a.m. (Councilmember Waring, Vice Chair)

2. **Roll Call**

3. **Pledge of Allegiance**

4. **Call to the Public**
   There were no public comments.

5. **Executive Director's Report** – J. Brian O'Neill, A.A.E., Executive Director/CEO
   Executive Director O'Neill provided a briefing on PMGAA financial performance, passenger activity, the community noise report, and various Airport projects.

   - Fiscal Year-to-Date 2022 (FYTD22) Net Operating Income is $1,492,291.
   - Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) welcomed 140,650 commercial passengers during January 2022; a 74% increase in passengers compared to January 2021.
   - Allegiant Peer Airport Benchmarking comparing Phoenix-Mesa Gateway Airport (AZA), Las Vegas International Airport (LAS), Punta Gorda Airport (PGD), St. Pete-Clearwater International Airport (PIE) and Orlando Sanford International Airport (SFB) shows AZA having the highest load factor, the second highest adjusted yield, and the third lowest cost per passenger.
   - The U.S. Forest Service is preparing its Mesa Base for the 2022 wildfire season. Aircraft have begun arriving at Gateway Airport for training.
   - Gulfstream Aerospace Corporation (Gulfstream) is currently leasing a 50,000 SF hangar at the Airport while their new facility is being constructed.

DRAFT

- Three hangars totaling 183,000 SF are under construction in the Gateway Executive Airpark located at the north end of the airfield. Steel is being erected on the first hangar and it will be available for lease later this summer/fall. This project is a speculative, private development that will address the need for hangar space for larger corporate aircraft.
- SkyBridge Arizona has received the necessary permits from the City of Mesa for their 127-room dual-brand hotel along Sossaman Road. SkyBridge Arizona hopes to begin construction during the spring/summer of 2022. The hotel will offer rooms for both transient overnight guests and extended stay customers. Design work on SkyBridge Arizona's horizontal infrastructure –taxi lane extension, entrance roadways, sewer, water, fiber, and other utilities – continues. SkyBridge is also designing two additional industrial buildings. These two flex industrial buildings will be approximately 200,000 SF and 250,000 SF respectively. SkyBridge Arizona anticipates breaking ground on these two buildings in the fall of 2022.
- Gateway***East*** is a 400-acre mixed use non-aeronautical master development opportunity located on the east side of the Airport. The Boyer Company from Salt Lake City, Utah is working with the City of Mesa and the Authority on infrastructure needs to unlock the site. PMGAA is working with the developer to finalize negotiations on a master lease and master development agreement for the property.
- Allegiant has shown renewed interest in developing a large multi-use maintenance facility that would consolidate the three separate facilities they are currently leasing from PMGAA.
- The scaffolding has been removed to unveil the nearly finished exterior of the Air Traffic Control Tower (ATCT). Interior construction will continue. The Tower is on-track to be commissioned in the summer of 2022.
- Airport Authority Staff has submitted the Bipartisan Infrastructure Law (BIL) grant application. PMGAA is hoping to secure a grant from the Terminal Modernization Program to construct a new five-gate, 30,000 SF terminal addition that will connect to the main terminal creating one unified commercial passenger terminal consisting of 11 gates. To handle passengers during construction, PMGAA intends to purchase a temporary sprung structure to serve as a temporary three-gate hold room. At the completion of the terminal addition, the sprung structure will be re-purposed for other Airport uses.
- PMGAA is expanding aircraft parking opportunities for larger/heavier aircraft at the south end of the airfield. Concrete has been poured for Alpha Apron Phase III and it will be available for use in early April. The Alpha Apron is located adjacent to the U.S. Forest Service, who plans to use the new aircraft parking area during the upcoming fire season. Alpha Apron Phase IV is in design and will be ready for construction once Phase III is completed.
- The BIL also includes much-needed funding for other important Airport projects. PMGAA has received an additional $4.4MM for reconstruction of its Center Runway. PMGAA is working closely with its partners at the Federal Aviation Administration (FAA) to try and complete the runway reconstruction project in one year.
- Customer Facility Charge (CFC) funds are fees assessed to passengers renting cars at the Airport. The CFC amount is $2.50 per rental day. These funds go into a dedicated account and can only be used to improve the infrastructure and facilities for rental car operations. PMGAA is embarking upon a project in the Rental Car Return Lot to re-design traffic flow, expand capacity, add new facilities for the car rental companies, and add shade structures for customer convenience.
- The Transportation Security Administration (TSA) Security Screening Checkpoint was designed for six lanes, but only had equipment installed in five of the lanes. Recently, the TSA installed

security equipment in the sixth check point lane. There is no additional staffing allocation for the sixth lane, but the TSA is working to staff the sixth lane during peak travel periods using their existing Gateway Airport staff.

- A shortage of CDL drivers last summer led to challenges getting aviation fuel deliveries. PMGAA is expanding its fuel storage capacity to try and avert future fuel delivery disruptions. Resolution 22-09 below asks for the Board's consideration and approval for the fuel farm expansion design. Phase I of this design will be the addition of three 50,000-gallon storage tanks.
- The Ray Road Economy Parking Lot Expansion Phase 3 will begin work next month. By the 4th of July holiday, this project will provide 600 additional parking spaces with another 900 parking spaces available by the end of November 2022.

6. **Gulfstream Presentation** – Shea Joachim, Business Development Director

Mr. Joachim provided an update on the progress of the ground lease agreement with Gulfstream and the responsibilities of the Authority, the City of Mesa and Gulfstream in making this project successful.

The ground lease agreement with Gulfstream is anticipated to be presented for the Board's consideration at the April 19, 2022, meeting.

7. **Consent Agenda**

a) **Minutes** of the Board Meeting held on **February 16, 2022.**

b) **Resolution No. 22-06 –** Approving a construction contract with **SDB Contracting Services (SDB)** for the renovation of the rental car return lot, in an amount not to exceed $671,121 under CIP 1222.

c) **Resolution No. 22-07 –** Authorizing Phoenix Mesa Gateway Airport Authority staff to negotiate and execute a final contract for the **North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Pre-Construction Services and Guaranteed Maximum Price (GMP) 1 Early Works, with Nesbitt Contracting Co., Inc.** in an amount not to exceed $608,176.

Mayor Gail Barney moved to approve the Consent Agenda.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

Consideration and Possible Approval of:

8. **Resolution No. 22-08 –** Adoption of the proposed **Operating Budget, Capital Budget, and Member Government Contributions** for the fiscal year ending June 30, 2023.

Mayor Brigette Peterson moved to approve Resolution No. 22-08.
Mayor Gail Barney seconded the motion.
The motion was carried unanimously.

9. **Resolution No. 22-09 –** Approving an Authorization of Services with **Kimley-Horn & Associates** for Engineering Design Services for the Fuel Farm Expansion Design, in an amount not to exceed $373,867 under CIP 1216.

Mayor Chip Wilson moved to approve Resolution No. 22-09.
Mayor Gail Barney seconded the motion.
The motion was carried unanimously.

10. **Board Member Comments/Announcements.**
    There were no comments or announcements.

11. **Next Meeting: Tuesday, April 19, 2022** at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone/videoconference.

12. **Adjournment.**
    The meeting adjourned at 9:33 a.m.

Dated this _____ day of _____ 20___.

Re: Resolution 22-10

To:	**Board of Directors**
From:	**Margi EvanSon, Operations & Maintenance Director**
Through:	**Scott Brownlee, Deputy Director**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**FY22 Contract Increase, Aircraft Rescue and Fire Fighting Services**
Date:	**April 19, 2022**

Proposed Motion
To authorize an increase for FY22 City of Mesa Fire Aircraft Rescue and Fire Fighting (ARFF) services in an amount not to exceed $28,434.

Narrative
On June 18, 2019 the Board approved a contract with the City of Mesa to provide ARFF services to Phoenix Mesa Gateway Airport Authority (PMGAA) in the not to exceed amount of $4,344,160 for the 3 year term of the contract. For planning purposes, Airport staff included an average 3% increase in salary/benefits each year in the above amount. The City of Mesa notified PMGAA that it elected to increase employee salary/benefits by 5% for year 3 of the contract, as allowed under the terms of the contract. Therefore, the cost of ARFF services for FY22 will be an additional $28,434. The total for ARFF services provided by the City of Mesa for the 3 year contract term will now be $4,372,594.

Fiscal Impact
This contract was included in the FY22 operating budget and is funded under Contractual Services: Fire.

Attachment(s)
Email notification of 5% increase.

RESOLUTION NO. 22-10

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize an increase for FY22 City of Mesa Fire Aircraft Rescue and Fire Fighting (ARFF) services in an amount not to exceed $28,434.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes an increase for FY22 City of Mesa Fire Aircraft Rescue and Fire Fighting (ARFF) services in an amount not to exceed $28,434. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Good Morning Margi,
Based off of City of Mesa pay increases for all employees, the following increases effective July 1, 2021 are consistent with the contract:

Salary/Benefits

- Increasing 5% from $1,285,082 to $1,349,336 per year

Minimum Staffing

- Increasing 5% from $140,692 to $143,424 per year

Training

- Increasing 3% from $25,956 to $26,735 per year

Please let us know if you have any questions.

Hello Tara -
There is normally an informal letter/e-mail from MFMD BC or MFMD finance (not formal or from Chief Camelli or anything) to me advising of the amount of salary increase that affects the contracted personnel and the effective date. Normally we account for increases on a fiscal year.

Ex:
Please note that the annual salary increase for MFMD ARFF Qualified personnel has increased by 3% effective July 1, 2021.

Thanks,
Margi

Hi Margi,

John Locklin (attached) is our new Operations Assistant Chief; we would like to see how the increases have been made annually for the salaries and training cost increases. Was it a formal letter? Something through legal? As you are probably aware, City employees received a 3% pay increase effective Jan. 4th. Thanks for your assistance!

Thank you,

Board Action Item

Re: Resolution 22-11

To: Board of Directors
From: J. Brian O'Neill, A.A.E., Executive Director/CEO
Through: Executive Team
Subject: Unscheduled Cost of Living Adjustment
Date: April 19, 2022

Proposed Motion
To approve an unscheduled 5% cost of living adjustment for the PMGAA Executive Director/CEO.

Narrative
As part of PMGAA's employee retention and recruitment efforts, all eligible PMGAA employees received an unscheduled 5% cost of living adjustment on April 1, 2022. This action was initiated to address compensation competitiveness within the industry and the region, as well as increasing inflationary pressures on all PMGAA employees.

I would like the PMGAA Board to consider approving a similar unscheduled 5% cost of living adjustment for the Executive Director/CEO. This adjustment, retroactive to April 1, 2022, will also address compensation compression among PMGAA senior level employees.

Fiscal Impact
If approved, this request represents an approximately $2,700 impact to PMGAA's FY22 budget.

Re: Resolution 22-12

To:	**Board of Directors**
From:	**Brian Lehrich, MAcc, CPA, Accounting Director**
Through:	**Chuck Odom, Chief Financial Officer**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Authorizing Applications and Acceptance of Grants**
Date:	**April 19, 2022**

Proposed Motion

To authorize the filing of grant applications including agreeing to all understandings and assurances contained therein; and, authorizing the acceptance and execution of any Federal Aviation Administration (FAA) or other Federal agency, State of Arizona, Arizona County or Arizona Local Municipal grant offer(s), applied for or received between July 1, 2022 and June 30, 2023 by the Chair of the Authority, the Executive Director/CEO, Deputy Director/COO or Chief Financial Officer/CFO.

Narrative

The FAA and Arizona Department of Transportation received the Phoenix-Mesa Gateway Airport Authority (PMGAA) Airport Capital Improvement Program (fiscal years 2021-2025 and preceding years) in accordance with the Airport Master Plan. The Federal Government, State of Arizona, Arizona Counties or Arizona Local Municipalities may offer PMGAA a grant or multiple grants for capital improvements or other projects at any time during the year that will support the priorities of the PMGAA.

Staff requests authority to prepare grant applications and submit for capital planning, design, construction or other projects that will support the priorities of the PMGAA. PMGAA further requests authority to accept offer(s) received, agree to accomplish the described development or scope, and comply with the terms and conditions of the grant agreement(s), including maintaining compliance with the assurances made as part of the project application(s).

Fiscal Impact

Grants from the agencies make the Capital Improvement Program at the Airport financially feasible and leverage funding.

	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Aruba Wireless upgrade project - Clearpass**
Date:	**April 19, 2022**

Proposed Motion
To authorize the procurement of wireless network equipment and software from Enterprise Networks Solutions (ENS) in an amount not to exceed $74,000.

Narrative
PMGAA's Technical Services Department (TES) ensures the Airport's operation, compliance, and disaster recovery functionality relative to information technology standards. Aruba Clearpass provides enhanced security functionality that allows for identification and security classification of wireless devices connecting to PMGAA's wireless environment. This enhancement will allow for more secure connections to our network for Airport owned equipment and will provide a better experience for Airport guests. Additional wireless access points will provide enhanced wireless coverage through the Airport campus.

As a qualified participant of the Arizona Department of Administration State Procurement Office (ADSPO), the Phoenix Mesa Gateway Airport Authority is able to procure goods and services under state contracts that have been competitively bid. The state has currently contracted with ENS for network equipment, software, and services under Contract #ADSPO16-137344. This contract is available upon request.

Fiscal Impact
This purchase was included in the FY22 Capital Improvement Project and is funded under CIP 1080

Board Action Item

Re: Resolution 22-14

To: Board of Directors
From: Veronica Lewis, Human Resources Director
Through: J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject: Update Personnel Rules
Date: April 19, 2022

Proposed Motion
To approve the amended and restated Phoenix-Mesa Gateway Airport Authority Personnel Rules.

Narrative
Phoenix-Mesa Gateway Airport Authority (PMGAA) staff is recommending the addition of Juneteenth as a holiday. This will add to the value of benefits provided to employees in an effort to keep PMGAA as a competitive employer. Additionally, an updated review of the PMGAA Board of Director's adopted Personnel Rules was also conducted, and a few minor edits are recommended.

Attachment(s)
Draft Personnel Rules with red-line changes.

RESOLUTION NO. 22-14

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to approve **the amended and restated Phoenix-Mesa Gateway Airport Authority Personnel Rules**.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby approves the amended and restated Phoenix-Mesa Gateway Airport Authority Personnel Rules. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 19th day of April, 2022.

I. ADMINISTRATIVE

SECTION 1.1: DEFINITIONS

The following words and phrases used in these Rules have the following defined meanings unless otherwise clearly indicated by the context.

Accrual – The accumulation of leave time.

Administrative Leave – Management directed time off with pay for an employee that is not charged against the employee's paid time off categories.

Announcement/Posting – The notice of intent to fill a position.

Applicant – An individual who has submitted an application for a posted employment opening.

Chain-of-Command – In the workplace, includes the supervisory responsibilities sequence of employee, supervisor, manager, director, and the executive.

Classification – A group of positions similar as to duties performed, scope of discretion and responsibility, skills and qualifications requirements, and other such characteristics that the same title, pay range, and job description is applied.

Common Review Date – A common date of October 1 upon which employees are evaluated for performance-based pay increases.

Compensation – All forms of financial returns, tangible services and benefits that employees receive as part of being employed.

Controlled Substance – Any narcotic, prescribed, or un-prescribed drug as defined by state and federal law.

Days – Calendar days unless otherwise stated.

Demotion – The movement of an employee from one position to another position having a lower rate of pay. A voluntary demotion is a demotion initiated by the employee. An involuntary demotion is a demotion initiated by PMGAA.

Department – An organizational unit of Phoenix-Mesa Gateway Airport Authority.

Discipline – Actions taken to address and correct an employee's work behavior or performance. Discipline may be up to and including termination of employment.

Emergency (Airport) – A sudden and unforeseen happening that requires service of an employee to protect the health, welfare, and safety of the Airport and/or community.

Employee – A person who holds an authorized-budgeted position.

Essential Functions – The most critical, time consuming and/or important tasks and duties of a position; the tasks and duties that form the reason for the existence of the position.

Exempt Employee – Employees who, because of their positional duties and responsibilities and level of decision-making authority, are exempt from overtime provisions of the Fair Labor Standards Act (FLSA).

Family and Medical Leave Act (FMLA) – A federal law that governs a period of employment protection during which an eligible employee may return to the same or similar position with equivalent pay and benefits after a qualified absence.

Flex Time – Adjusting an employee's work schedule.

Full-Time – An employee who regularly works over 30 hours per week and is appointed to a full-time position.

Hire Date – The most recent first date of employment with the Airport Authority in a position other than a temporary position.

Leave – An authorized absence or time off from regularly scheduled work hours, which has been approved by the proper authority. Also referred to as a Leave of Absence (LOA).

Management – Airport Authority employees who have specific responsibility for a particular Airport Authority department to supervise employees, functions, and/or projects.

Performance-Based Pay Increase – A pay increase based on job performance within the limits of a position's established pay range.

Nepotism – The potential for or perception of preferential treatment due to a family or similar relationship.

Non-Exempt Employee – Employees who, because of the type of duties performed, the usual level of decision making authority, and the method of compensation, are subject to all Fair Labor Standards Act (FLSA) provisions including the payment of overtime.

Organizational Policy – Policy statements, administrative regulations and associated procedures for the efficient and effective operation of the organization and the administration and execution of Airport Authority matters which are created and modified at the discretion of the Department Director and/or Executive Director.

Probation Period – A period of time for all new employees and employees receiving a promotion or demotion during which time the employee's performance in the new position is evaluated.

Overtime – Hours worked in excess of forty (40) hours by an employee in a non-exempt (as defined by FLSA) position during his/her established work week.

Part-Time Benefited – An employee who is budgeted to work less than thirty (30) hours per week and is eligible for vacation, sick and holiday leave.

Part-Time Non-Benefited – An individual who is appointed to a position that requires working a work week of less than thirty (30) hours and is not eligible for any holiday, sick or vacation leave accrual.

Pay Range – A pay plan with established minimum to maximum hourly or bi-weekly pay rate dollar amounts associated with each position classification.

Pay Reduction – A decrease in the hourly or bi-weekly pay rate, which may have resulted from a reduction to the pay rate for a pay range or reallocation of a position to a lower pay range.

Performance Evaluation – The written review of an employee's performance of position duties and responsibilities.

Personnel Action – Any official action taken with reference to appointment, pay, promotion, suspension, transfer, layoff, termination, leave, or any other action affecting the status of an employee.

Promotion – The movement of an employee from one position to another having a higher pay range.

Reclassification – Changing the classification of a position when a material change in duties or responsibilities occurs.

Regular Rate of Pay – An hourly rate of pay determined by dividing the total compensation actually earned for the normal non-overtime workweek by the total number of hours worked. Includes all renumeration for employment paid to, or on behalf of, the employee, except payments specifically excluded under Section 7(e) of the Fair Labor Standards Act (FLSA).

Resignation – Written notification by an employee indicating his/her intention to terminate employment with Airport Authority.

Retirement – Any employee covered by Arizona State Retirement System who has reached the designated age and possesses the appropriate number of years of service, and who elects to receive an annuity benefit from the plan.

Review Date – The date when an employee's performance is evaluated.

Separation – The end of employment; can be initiated by either the Airport Authority or the employee.

Suspension – A form of discipline consisting of relieving an employee from work without pay for a specified period of time.

Temporary – An assignment that exists for a limited or defined period of time.

Transfer – The movement of an employee from one position to another position within the Airport Authority at the same pay range.

SECTION 1.2: ADMINISTRATIVE PROVISIONS

Phoenix-Mesa Gateway Airport Authority adopts the Personnel Rules to provide a uniform system of personnel administration. They are not legally binding and are not to be construed as, and do not constitute, a contract, expressed or implied, or a guarantee of employment for any specific duration.

Phoenix-Mesa Gateway Airport Authority hereinafter may be referred to as "PMGAA," "Airport Authority," "Airport," or "Employer." Phoenix-Mesa Gateway Airport may be referred to as "Gateway."

A. **Applicability**: These Rules are applicable to all employees and positions at Phoenix-Mesa Gateway Airport Authority. The information contained in these Rules supersedes all previous personnel policies, procedures, and administrative regulations. These Rules are subject to change at the discretion of the Phoenix-Mesa Gateway Airport Authority Board of Directors.

B. **Delegation of Authority**: Unless otherwise stated in these Rules, the Executive Director/Chief Executive Officer (CEO) may delegate any authority granted to him/her.

C. **Availability of Funds**: The granting of any compensation in these Rules is contingent upon the availability of funds, as determined by the budget, the authority of the Executive Director and/or the Authority Board of Directors. The Airport Authority works to provide its employees with benefits and employment conditions that are desirable, but the Airport Authority reserves the right to change benefits and employment conditions when deemed reasonable to do so by the Authority Board of Directors or Executive Director.

D. **Conflict with Federal or State Requirements**: Any provision of these Personnel Rules that conflicts or is inconsistent with state or federal rules, regulations, or standards shall not be applicable.

E. **Service of Notice**: If any document or notice is to be given to any individual or department, the notice or document may be served personally or by mail to the last known residence or business address of the addressee. Unless otherwise provided by law or these Rules, service is complete upon mailing.

F. **Correction of Errors**: The Executive Director may correct a manifest error or clear inequity affecting an employee or an applicant for employment.

SECTION 1.3: EQUAL EMPLOYMENT/AFFIRMATIVE ACTION STATEMENT

Phoenix-Mesa Gateway Airport Authority is an Equal Employment Opportunity (EEO)/Affirmative Action employer. Equal Employment has been, and will continue to be, a fundamental principle at the Airport Authority to ensure a work environment that is free from unlawful discrimination. The Airport Authority will consider all applicants on the basis of his/her qualifications for available positions without regard to race, color, national origin, age, disability, gender, sexual orientation, gender identity or expression, religion, veteran status, genetic information and any other protected characteristic or category under applicable law. As such every effort will be made to ensure that appointments, promotions, reclassifications, transfers, compensation, training, terminations, or any other type of personnel actions are based on merit, fitness, or other factors determined to be non-discriminatory. (See Organizational Policy #400.02 - EEO/Affirmative Action)

SECTION 1.4: CODE OF ETHICS

A. The Code of Ethics is the general value system and ethical principles embodied by the Airport Authority. Expected ethics include that employees strive to be:

1. Honest, trustworthy, and fair in all professional relationships;

2. Considerate and treat all people with dignity and respect to foster a work environment of encouragement, acceptance, cooperation, reliability, support, and teamwork;

3. Committed to accomplishing tasks in a safe and exceptional way;

4. Dedicated to providing quality services safely and with the most efficient use of available resources;

5. Responsible to maintain acceptable attendance and punctuality as determined by the Airport Authority;

6. Compliant with reasonable grooming and dressing habits conducive to a business atmosphere;

7. Compliant with the Airport Authority's policies, practices, and procedures; and

8. Compliant with the laws and report, within five days, any noncompliance resulting in a conviction.

B. **Conflict of Interest**: A conflict of interest can be defined as a situation in which an employee is in a position to exploit their professional or official capacity for his/her personal benefit. The existence of a conflict of interest may not, in and of itself, be evidence of wrongdoing. A conflict of interest can, however, become a legal matter when an employee influences the outcome of a decision for personal benefit. An employee is considered to have a conflict of interest when engaged in, but not limited to, the following:

1. Acceptance of a bribe, being money, a promise, or favor in order to influence the judgment or conduct of a person in the course of work or in connection with work;

2. Engaging in outside business activities on the Airport Authority's time, regular duties, or that interferes with the Airport Authority's interest. Outside employment will not be considered a valid reason for absenteeism, tardiness, or poor work performance;

3. Soliciting, selling, displaying, promoting, or distributing merchandise, literature, or services, or conduct a similar form of business activity on Airport property unless authorized by the Executive Director; or

4. Threatening to use, or attempting to use, undue influence, extortion, or blackmail in securing employment benefits or advantages for the employee or another individual.

SECTION 1.5: PERSONNEL RECORDS

A. **Content:** Each employee will have a personnel file that will serve as the official record of employment. It may include, but is not limited to, the following: employee application; new employee hire form; performance evaluations; personnel change forms; promotion, demotion, transfer, or position changes; disciplinary actions; certificates of recognition and accomplishment; and other employment related documents deemed appropriate by Human Resources. The contents may be in a physical paper form or electronic.

B. **Access**: An employee shall have access to his/her official personnel file during normal Airport Authority Human Resources business hours. Employee personnel files are treated as confidential; however, contents are subject to public record.

C. **Access to Other Files:** The presence of copies of any item in any other informational file concerning an employee shall not in itself confer upon such employee any right of access to such file.

D. **Control:** The official personnel file/record will remain in the control of Human Resources, unless otherwise ordered by a court of competent jurisdiction.

II. EMPLOYMENT

SECTION 2.1: GENERAL EMPLOYMENT PROVISIONS

A. **At-Will:** Employment with Phoenix-Mesa Gateway Airport Authority is at-will, meaning that no one has a contractual right, expressed or implied, to remain in the Airport Authority's employ and the Airport Authority may terminate an employee, or an employee may terminate his/her employment, with or without cause, and with or without notice, at any time.

B. **Employment Eligibility**: Applicants for employment at the Airport Authority must present proof of identity and eligibility for employment as required by federal and state law.

C. **Age Requirement**: The only minimum age requirement is that imposed by state or federal law.

D. **Pre-Employment Requirements**: All individuals recommended for employment will be required to pass a background investigation which may include pre-employment drug screening, employment history verification, criminal record verification, motor vehicle record check, and social security number trace. Should the potential new hire be recommended for a position requiring unescorted access to Security Identification Display Area (SIDA) they are subject to a fingerprint based criminal history check through the Federal Bureau Investigation (FBI).

E. **Academic**: All postsecondary academic achievements required to meet the minimum qualifications of a position must be attained in an academic institution recognized by an accredited association as determined by the Human Resources Director.

F. **Outside Employment**: An employee may engage in outside employment if the employment does not adversely impact the employee's PMGAA work and does not create a conflict of interest or the appearance of a conflict of interest with the employee's PMGAA job. An employee who wishes to engage in outside employment is required to notify PMGAA in writing. The employee may be asked to choose between his/her PMGAA employment and his/her outside employment if it is found that the outside employment interferes with the employee's duties at PMGAA.

G. By accepting employment with PMGAA, employees assign to PMGAA all rights to patent or otherwise project inventions or intellectual property of any kind the employee may develop on PMGAA time, or with PMGAA property, or arising out of his/her PMGAA duties and responsibilities.

SECTION 2.2: RECRUITMENT

When a position becomes vacant and approval to fill has been given, Human Resources may conduct a recruitment to fill the position.

A. **Notice of Vacancy**: If an external job posting is to be conducted, public notice shall be accomplished by posting announcements of the vacancies by such means as the Human Resources Director shall direct.

B. **Applications**: All applications for employment shall be submitted on the designated forms. Applications and any accompanying documentation become the property of the Airport Authority and shall not be returned. Applications are only accepted for open positions that have been announced during the recruitment period.

C. **Disqualification**: Applicants for open positions may be denied further consideration for employment, for, but not limited to, the following reasons: failure to meet the minimum qualifications specified in the announcement; failure to submit complete and accurate application; or submission of the application after the specified time period.

D. **Selection Methods/Examinations**: Human Resources shall review and approve all selection methods and rating criteria in advance to ensure compliance with legal guidelines. All selection methods for employment shall be job related and designed to reveal the ability to perform the type of work for which the applicant has applied.

SECTION 2.3: APPOINTMENT

With the approval of the Executive Director, a vacant position may be filled by appointment on the basis of merit demonstrated by examination or other evidence of competence. The individual appointed to a position must meet the minimum qualifications for the designed classification.

SECTION 2.4: REINSTATEMENT OF BENEFITS

Employees who separate in good standing and are rehired within nine (9) months of the date of their separation shall begin accruing vacation at the same rate as they were at the time of separation. In addition, the returning employee's forfeited sick time shall be restored upon reinstatement. Seniority (years of service) for the purposes of recognition or shift scheduling shall not be restored. Rehire request is subject to approval and contingent on the availability of positions and may be reviewed along with the normal recruitment process in filling a vacant position.

SECTION 2.5: EMPLOYMENT OF RELATIVES/NEPOTISM

Relatives and significant others shall not maintain a regular reporting relationship to one another in the chain of command. If such a relationship is created, one of the parties must elect to transfer to or be selected for a vacant position opening (if available) where there is no chain of command reporting relationship. If a transfer compatible with this policy cannot be made within ninety (90) days, it shall result in the separation of one of the employees from the Airport Authority employment. It shall be the responsibility of the employee who holds the highest classification level to immediately notify his/her department director of relationships as described above.

III. CLASSIFICATION AND COMPENSATION

SECTION 3.1: CLASSIFICATION

Human Resources shall place every position in a class based on its essential functions and maintain job descriptions for each classification within the Airport Authority. Human Resources may establish new classifications and revise or delete existing classifications as needed.

SECTION 3.2: PAY PLAN

Human Resources shall prepare a pay plan listing all classifications with corresponding pay ranges. All Airport Authority employees shall be paid within the assigned pay range of his/her positions, unless otherwise explained.

A. **Entrance Pay Rates**: Except as specified below, all new employees shall be paid at the minimum of the pay range for the position hired.

   1. If the hiring manager determines that a particular applicant has special qualifications that justify a pay rate that is higher than the minimum of the pay range, the hiring manager, with the Human Resources Director and the Executive Director's approval, may authorize a special entrance pay rate at a higher pay rate within the position's pay range for the applicant.

B. **Performance-Based Pay Increases**: Employees may be considered for a performance-based pay increase annually on a common review date, if performance and budget warrants.

   1. The Airport Authority routinely establishes performance-based pay guidelines that generally are issued in conjunction with the Airport Authority's budget cycle.
   2. An employee hired or promoted within three (3) months of the common review date of October 1 will need to wait until the following year to be eligible to receive their first performance-based pay increase.

   3. Exceptions to the guidelines may be made with the approval of the Human Resources Director and Executive Director.

   4. Employees at the maximum of their pay range may receive performance-based compensation in a lump sum payment that does not become part of base compensation.

C. **"Frozen" Pay Rate**: Based upon position classification studies, reclassification of a position, or a voluntary demotion, the Executive Director may authorize a "frozen" pay rate. A "frozen" pay rate is an employee's pay rate in excess of the maximum pay rate of the pay range assigned to the position classification. No pay rate increases, including market adjustments, cost of living adjustments (COLA), performance-based pay rate increases, and lump sum performance-based payments shall be in effect for an employee with a "frozen" pay status and the employee will remain at this "frozen" pay status until the pay range for the new position reaches the employee's pay rate, at which point the employee will again be eligible for pay increases.

D. **Position Reclassification**: The Executive Director may approve exceptions to this section.

   1. If material and permanent changes occur in the duties and responsibilities of a position, the Department Director with the approval of the Department Executive may request to have Human Resources conduct a classification study of the position.

2. An employee whose position is reclassified to a class in the same pay range shall receive the same salary as before the reclassification.

3. An employee whose position is reclassified to a higher pay range shall receive the same salary, unless the salary is less than the entry pay of the new pay range, in which case the employee shall receive the entry salary of the new pay range.

4. An employee whose position is reclassified to a lower pay range by the Airport Authority, typically will continue to receive the same pay rate. If this pay rate is higher than the maximum of the new position's pay range, the employees pay rate will become "frozen".

E. **Unscheduled Pay Increase**: An employee may be awarded an Unscheduled Pay Increase, with the approval of the Executive Director, to recognize exceptional performance in the employee's position or to adjust salary based on organizational needs. This award is a permanent increase of pay and may be given only to employees below the maximum of the pay range for that position.

SECTION 3.3: WORK SCHEDULES

Phoenix-Mesa Gateway Airport Authority reserves the right to establish work schedules (standard hours of work) in accordance with operational needs.

A. **Pay Period**: The pay period is defined as two (2) work weeks. The standard pay period begins on Monday at 12:00 AM and ends the second Sunday thereafter at 11:59 PM.

B. **Work Week**: The standard work schedule is forty (40) hours in each work week. For non-exempt employees, the work week defines the specific period on which overtime calculations are based. The work week is a consecutive seven-day period starting at the same time each week.

C. **Scheduling**: The Airport Authority may require an employee to work overtime and/or to work beyond his/her normally scheduled hours to accommodate operational needs.

1. Overtime may be considered a condition of employment. Refusal to accept overtime work may be subject to disciplinary action. In cases of conflict with an outside activity, the employee's obligations to the Airport Authority must be given priority.

2. Prior approval by the immediate supervisor is required before a non-exempt employee may work overtime. An employee who works overtime without approval will be paid for the overtime hours worked, however he/she may be subject to disciplinary action.

3. Non-exempt employees may be subject to on call standby status for a designated specific period of time in addition to his/her regular work schedule.

D. **Rest Periods**: Supervisors may allow an employee paid rest or break periods, based on operational needs, during his/her workday if normal business functions would not be impaired. Rest periods or breaks shall be limited to fifteen (15) minutes for each four (4) hours worked. This time may not be combined or accrued to create an extended rest period or break period or to shorten the workday. If an employee is required to work through a rest period, the Airport Authority will not be obligated to provide an alternative rest period or to pay the employee more for that time than the Airport Authority otherwise would have paid.

E. **Meal Breaks:** An employee's work schedule may include an unpaid meal break each workday, during which the employee is relieved of all position duties and free to use the time for a meal break. A non-exempt employee is expected to take his/her meal breaks away from his/her workstation and may not work during his/her meal breaks without prior approval from his/her supervisor.

1. Supervisors should generally not interrupt an unpaid meal break; although, interruptions may be necessary, based on operational needs. If a non-exempt employee's meal break is interrupted by work responsibilities that preclude him/her from receiving at least thirty (30) minutes of uninterrupted meal break time, the entire meal break shall be considered time worked. If a non-exempt employee with a sixty (60) minute meal break receives an uninterrupted meal break of thirty (30) minutes or more, only the time actually worked by the employee during the meal break shall be recorded as work time.

2. Supervisors may adjust the employee's meal break schedule, if necessary, to ensure that the employee receives at least thirty (30) minutes of unpaid uninterrupted meal break time.

3. Some non-exempt positions are expected to be available during their meal breaks and as such are compensated for the meal break.

F. **Lactation Breaks:** PMGAA accommodates nursing mothers by providing a reasonable amount of break time to any employee each time such employee has the need to express breast milk for an infant child for up to one year from the birth of the child. This lactation break time shall, if possible, run concurrently with any break time and/or meal breaks already provided to the employee.

SECTION 3.4: FAIR LABOR STANDARDS ACT (FLSA) STATUS/OVERTIME

A. **Exempt Employees**: Certain employees shall be considered exempt from the FLSA, in accordance with FLSA exemption criteria.

1. Exempt employees shall not be entitled to overtime compensation and shall work whatever time is necessary to meet departmental needs and organizational service delivery demands.

2. For purposes of public accountability, all FLSA exempt employees must use accrued leave for absences of more than four (4) consecutive hours unless approval is given by the Supervisor. Otherwise, FLSA exempt employees who do not have accrued leave available may have their pay docked. FLSA exempt employees generally need not use accrued leave for absences of four (4) consecutive hours or less in a work day. Supervisor approval is required for any absence from work.

B. **Non-Exempt Employees**: Certain employees shall be considered non-exempt, in accordance with FLSA criteria.

1. **Overtime**: Overtime pay is administered in accordance with applicable federal and state laws.

   a. Overtime will be paid at one and one-half (1 ½) times the employee's regular rate of pay.

   b. Overtime is based on a scheduled forty (40) hour work week, not on an eight (8) hour day. Overtime pay is earned only for hours worked during the established work week after forty (40) hours have been completed.

   c. For purposes of calculating overtime pay, only hours worked will be counted. Holidays hours will be counted as hours worked, only if the hours are actually worked. Sick and Vacation time will not be counted as time worked.

   d. For the purposes of calculating overtime pay, the standby hours paid during a work week are not included in the hours worked.

SECTION 3.5: SHIFT DIFFERENTIAL

The Airport Authority provides additional compensation (shift differential) to employees working in specified non-exempt positions during specified evening and nighttime work hours. The shift differential compensation amount shall be $1.00 for each hour of work performed by a non-exempt employee in an eligible position between the hours of 5:00 p.m. and 5:00 a.m.

SECTION 3.6: STANDBY AND CALLOUT PAY

A. An employee who is eligible (non-exempt employee) for overtime pay is eligible for standby and call out pay.

B. Standby pay is payment received by an employee to pay the employee for being required to be available to provide services for a business need or an emergency during a designated specific period of time. An employee on standby on a day normally scheduled to work shall be paid one (1) hour of base pay as standby pay for that day. An employee who is on standby on a day on which the employee is not normally scheduled to work shall receive two (2) hours base pay for that day.

C. Call out pay is pay received by an employee for actually working during a time the employee is not normally scheduled to work, in response to a call out for a business need or an emergency. An employee who is called out for emergency service shall be paid one and one-half (1 ½) times the hourly base pay rate for a minimum of one (1) hour payable for the employee's regular scheduled work day or a minimum of two (2) hours payable for the employee's regular day off.

IV. BENEFITS

SECTION 4.1: INSURANCE PROGRAMS

Eligibility: All full-time employees are eligible to participate in employee health and welfare insurance programs beginning the first of the month after thirty (30) days of employment.

SECTION 4.2: RETIREMENT

All full time and qualifying part-time employees are required to participate in the Arizona State Retirement System (ASRS). ASRS is a cost-sharing, public employee, tax qualified, defined benefit plan. Both the employee and employer contribute to the member's retirement at an equal percentage of compensation. The appropriate percentage for contributions may change each fiscal year based on ASRS actuarial evaluation.

SECTION 4.3: ABSENCE FROM WORK

Absence from work is subject to supervisory approval. All requests for absence from scheduled work should be submitted to the employee's supervisor with as much advanced notice as possible prior to the beginning of the absence or as soon as possible for emergencies. The request must be submitted and approved by the employee's supervisor. This applies to paid and unpaid absences.

A. **Unexcused Absences:** An employee who is absent from duty for any period of time without supervisory approval is considered to have an unexcused absence and subject to disciplinary action. An unexcused absence of three (3) or more consecutive work days is considered to be abandonment of PMGAA employment and will be treated to have voluntarily resigned his/her position as of the end of the employee's scheduled shift on the third day.

B. **Paid Absences:** The time an employee is absent from work but receiving pay is considered paid time off. The following fall under this category: observance of a holiday, vacation, sick, flex time, personal time, jury/witness duty, and administrative leave. An employee on paid time off shall be paid at their effective rate of pay (not including shift differential pay), unless otherwise noted. All paid time off can be taken in quarter (¼) hour increments.

SECTION 4.4: HOLIDAYS

A. **PMGAA Observed Holidays**: New Year's Day, Martin Luther King Day, President's Day, Memorial Day, Juneteenth, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day, Day after Thanksgiving, Christmas Eve, and Christmas Day.

B. **Observation of Holidays**: When the holiday falls on a Sunday, it will be observed on the following Monday. When a holiday falls on a Saturday, it will be observed on the preceding Friday. For continuous, seven day operations, or work schedules that include a Saturday and/or Sunday, the holiday shall be observed on the calendar day of the holiday.

C. **Holiday Pay**: Every full-time and part-time benefited employee will receive pay for his/her regular scheduled workday (at a max of 12 hours) for every holiday observed by PMGAA. When a holiday falls on the employee's scheduled day off, the employee will be allowed to use that day as an alternate holiday, unless otherwise determined by the department as stated below. This alternate holiday must be used by the end of the fiscal year and shall not carry over, unless otherwise approved by the Executive Director.

    1. In select areas, when a holiday falls on the employee's scheduled day off, non-exempt employees will be paid for that day. This is determined by the Department Director based on business needs.

2. A non-exempt employee who works on an observed holiday shall, in addition to holiday pay, receive pay for all hours worked on the holiday at the rate of one and one-half (1 ½) times his/her regular rate of pay.

3. **Holidays during Paid Leave**: Full-time and benefited part-time employees on PMGAA paid leave when a holiday occurs will receive the holiday pay and this holiday time off will not be charged as vacation or sick leave.

4. **Holidays during Unpaid Leave**: An employee who is on an authorized unpaid leave of absence shall not be paid holiday pay unless the employee works on the employee's scheduled workday either the day before or the day after the holiday. ~~The employee's holiday bank will then be reduced by the applicable number of hours that the holiday would have been paid at.~~

5. **Starting Employment**: If an employee's first day of employment is the day after a holiday, the employee will not receive pay for the holiday.

6. **Terminating Employment**: If an employee's last day worked (employment termination day) is on the day before a holiday, the employee will not receive pay for the holiday. All unused alternate holiday time, not taken by the last day of employment, will be forfeited.

SECTION 4.5: VACATION

A. **Accrual:** Employees will accrue vacation leave based on their most recent hire date, in accordance with the following schedule:

Full-time Employees	**Vacation Accrual**
Fewer than two years	Eight hours per month
Two to five years	Ten hours per month
Five to ten years	Twelve hours per month
Ten to fifteen years	Fourteen hours per month
Fifteen or more years	Sixteen hours per month

Benefited Part-time Employees	**Vacation Accrual**
Fewer than two years	Four hours per month
Two years to five years	Five hours per month
Five to ten years	Six hours per month
Ten to fifteen years	Seven hours per month
Fifteen or more years	Eight hours per month

1. An employee shall not accrue vacation hours for any pay period in which the employee has been on unpaid leave for 15 hours or more.

2. If a full-time employee works a regular schedule of less than 40 hours per week their accrual rate will be prorated based on the number of hours worked per week.

3. For partial months of employment, vacation hours will be accrued on a prorated basis.

4. The date for change in the accrual rate is the first day of the complete pay period immediately following the anniversary date of continuous employment.

5. For the purpose of determining the date of change in number of hours per month, accrual of vacation hours will be by continuous employment after the employee's most recent hire date, as provided in state and federal laws including the Family and Medical Leave Act (FMLA) Policy, military service pursuant to U.S. DOL USERRA or ARS. 26-168, 26-171, or 38-610 and any special leave without pay of thirty (30) days or less. If a special leave without pay exceeds thirty (30) days, the excess days over thirty (30) shall not be counted as continuous employment.

B. **Accrual Maximum**: The maximum accumulation of vacation hours that can be carried over into the next fiscal year is two hundred forty (240) hours for full-time employees and one hundred twenty (120) for benefited part-time employees. An employee who has in excess of two hundred forty (240) hours for full-time employees and one hundred twenty (120) hours for part-time employees on June 30th of each year will be paid for the excess amount of time after June 30th, provided the full-time employee has taken eighty (80) hours vacation time and the part-time employee has taken forty (40) hours during the fiscal year. If the employee has not taken the required amount of time during the year, all excess time shall be forfeited.

C. **Use of Vacation Hours**:

1. Eligibility to use accrued vacation hours shall begin after the employee has completed ninety (90) days of employment from his/her most recent hire date unless a written request was submitted and signed by Human Resources prior to the most recent hire date.

2. Vacation leave may be taken at any time approved by the employee's supervisor.

3. All previously approved absence requests are subject to supervisor revocation if required by operational considerations. However, every effort shall be made to avoid any adverse financial or personal impacts on employees as a result of having their "approved" absence revoked.

4. Vacation leave shall not be advanced to an employee nor may vacation leave be transferred between employees

5. Depending on the incident, an employee who becomes ill during a scheduled vacation may change vacation days to sick days with authorization from the Department Director and Human Resources.

D. **Vacation Hours at Separation:** A full-time or part-time employee, who separates from the Airport Authority service by termination, resignation, retirement, layoff, or death, shall be paid for all unused vacation hours accrued. An employee who separates from employment for any reason before the completion of ninety (90) days service from his/her most recent hire date shall forfeit all accrued vacation hours.

SECTION 4.6: SICK LEAVE

A. **Accrual**: Employees will accrue sick leave in accordance with the following schedule:

Airport Authority Employees	Sick Leave Accrual
Fulltime Employees	Eight hours per month
Benefited Part-time Employees	Four hours per month
Non-Benefited Part-time Employees	One hour for every 30 hours worked to a max of 40 hours accrued per year

1. For partial months of employment, sick hours will be accrued on a prorated basis.

2. An employee shall not accrue sick hours for any pay period in which the employee has been on unpaid leave for 15 hours or more.

B. **Accrual Maximum**: The maximum accumulation of sick leave is one thousand forty (1,040) hours for full-time employees and five hundred twenty (520) hours for part-time employees. Any sick leave accrued in excess of the maximum accumulation of one thousand forty (1,040) hours or five hundred twenty (520) hours, shall be automatically converted to vacation leave on the basis of one (1) hour of vacation leave for every two (2) hours of excess sick leave accrued.

C. **Use of Sick Leave**:

1. Eligibility to use accrued sick leave hours shall begin on the date after the end of the pay period in which it is accrued.

2. Sick leave may be taken at any time approved by the employee's supervisor. The employee must notify his/her immediate supervisor a minimum of one (1) hour prior to the beginning of the work shift, unless the employee is unable to do so due to circumstances beyond the employee's control. Failure to report within the specified time period may result in the employee being docked a day's pay and subjected to disciplinary action.

3. Sick leave is available time off with pay for periods of an approved absence for an employee due to:

   a. Illness or injury, which renders the employee unable to perform the essential functions of the position.

   b. Disability caused by pregnancy, childbirth, or miscarriage.

   c. Examination or treatment by a licensed health care practitioner.

   d. Absence due to domestic violence, sexual violence, abuse, or stalking.

   e. Illness, injury, examination, or treatment of a member of the employee's immediate family by a licensed health care practitioner. For the purpose of this section the term immediate family means the employee's spouse, committed partner, child, stepchild, parent, stepparent, grandparent, mother-in-law, father-in-law, sister, sister-in-law, brother, brother-in-law, son-in-law, daughter-in-law,

stepparent-in-law, grandchild and minor child or an adult for whom the employee is a legal guardian.

4. Once the employee has been out on sick leave for three or more consecutive work days, a supervisor, in conjunction with Human Resources, may require submission of evidence from a licensed health care practitioner substantiating the need for sick leave.

5. The supervisor, in conjunction with Human Resources, may require the employee to obtain written approval from the licensed health care practitioner as to the employee's fitness for duty and if employee has any work restrictions prior to the employee's returning to work.

6. A supervisor, in conjunction with Human Resources, may require an employee to be examined by a licensed health care practitioner designated by the Airport Authority. If the licensed health care practitioner determines that the employee should not work due to illness or injury, the supervisor may place the employee on sick leave. If the licensed health care practitioner determines that the employee can return to work but cannot perform the essential functions of his/her position, the Airport Authority will investigate a possible reasonable accommodation for the employee. The Airport Authority shall pay for all examinations directed by and required by the Airport Authority. The employee shall not be charged any leave while participating in or traveling to or from any examination required pursuant to this paragraph.

7. For all illness-related absences, sick leave will be used first followed, if needed, by vacation leave. After the sick and vacation leave time is used, the employee will then go on unpaid status, and may be considered for discharge for inability to perform the essential functions of his/her position other than as protected by state and federal laws or request a special leave without pay.

8. A supervisor, in conjunction with Human Resources, may send an employee home who is reasonably believed to be ill at work. In these instances, the employees sick time will be used first, followed by, if needed and with supervisory approval, other forms of paid time off or unpaid status.

9. A supervisor receiving a request from an employee requesting and/or using sick leave that spans three or more consecutive workdays must notify Human Resources. This information may be necessary to allow the Airport Authority to comply with the federal Family and Medical Leave Act (FMLA).

D. **Sick Leave Hours at Separation**:

1. **Termination**: An employee who terminates Airport Authority service for any reason other than retirement or disability shall forfeit all accumulated sick leave.

2. **Retirement/Death**: An employee who retires from Airport Authority service or dies shall be compensated for accumulated sick leave at the rate of fifty (50) percent of the accumulated sick leave hours at the employee's current base rate of pay.

3. **Disability Termination**: For an employee that terminates employment because of his/her disability as defined in The Americans with Disability Act (ADA) Amendments Act, at the discretion of the Executive Director on a case-by-case basis, a determination will be made as to whether he/she will be compensated for accumulated sick leave. If the determination is that the employee is to be compensated, he/she will be compensated at the rate of fifty (50) percent of the accumulated sick leave hours at his/her current base rate of pay

E. **Sick Leave Donation**: Phoenix-Mesa Gateway Airport Authority offers a sick leave donation program for employees who has successfully completed the new hire probationary period. (See Organizational Policy #400.15 ~~Sick Leave Donation~~Donated Leave Program.)

SECTION 4.7: BEREAVEMENT LEAVE

In the event of a death in the immediate family of an employee, the full-time or benefited part-time employee may be granted three (3) days of leave and bereavement pay. For the purpose of this section the term immediate family is defined as employee's spouse, committed partner, child, stepchild, mother, father, sister, brother, stepparent, mother-in-law, father-in-law, brother-in-law, sister-in-law, stepparent-in-law, grandparent, grandparent-in-law, grandchild, aunt, uncle, daughter-in-law, and son-in-law.

Before the leave or upon return to work, the employee must record his/her absence as Bereavement Leave and submit the request to his/her supervisor. Proof of death and relationship to the deceased may be required. If an employee requires leave beyond the allotted three (3) days, it will be charged to sick or vacation.

SECTION 4.8: WORKERS COMPENSATION LEAVE

A. Workers' compensation is governed by the laws found in Article 18, Section 8 of the Arizona State Constitution, Chapter 6 of Title 23 of the Arizona Revised Statutes (A.R.S.) 23-901. The Industrial Commission of Arizona (ICA) administer and enforce all applicable laws and regulations not specifically delegated to others, relative to the protection of life, health, safety, and welfare of employees within the state.

B. An employee who sustains a job-related injury or illness is required to report the incident to their supervisor or Human Resources and may be eligible for workers' compensation benefits in accordance with the State of Arizona law.

C. An employee who is absent from work due to a job-related injury or illness will have this time designated as Family Medical Leave (FMLA). During the period of worker's compensation leave, the employee's vacation and sick leave accrual will cease and performance-based increases shall not be granted.

SECTION 4.9: JURY OR WITNESS LEAVE

A leave of absence for jury duty will be granted to any full-time or part-time employee who has been notified to serve. Employees receive jury duty or witness pay if summoned on scheduled work days/hours. The employee shall be granted paid Jury Duty or Witness Leave for a maximum of thirty (30) work days per year. If an employee is subpoenaed to testify as a witness in an Airport Authority-related case or hearing, this time will be considered work time.

SECTION 4.10: ELECTION LEAVE

An employee must request an election leave accommodation to vote at least one (1) day before Election Day. On days when elections for public office and all primary and general elections are scheduled throughout the state, county, city, or town in which the employee works, schedules will be changed as needed to ensure that work either starts at least three (3) hours after the polls open or ends at least three (3) hours before polls close. An employee living in other localities or states will need to inform his/her supervisor in advance if he/she expects any conflict between his/her work schedule and the exercise of voting rights. No employee will be penalized or retaliated against for requesting time off to vote.

SECTION 4.13~~1~~: FAMILY MEDICAL LEAVE (FMLA)

The Airport Authority supports and complies with the federal Family and Medical Leave Act of 1993 (FMLA), as amended. (See Organizational Policy #400.05 - Family and Medical Leave).

SECTION 4.1~~1~~2: MILITARY LEAVE

The Airport Authority complies with the requirements of the Uniformed Services Employment and Reemployment Rights Act (USERRA) and all other state, federal and local laws regarding military leave. (See Organizational Policy #400.11 – Military Leave)

SECTION 4.1~~2~~3: SPECIAL LEAVE

A special leave is any absence from work in excess of thirty (30) consecutive calendar days that is not covered by the FMLA or Military Leave. In addition, a special leave is any additional time-off required after exhaustion of FMLA. Special leave includes, but is not limited to extended use of paid and unpaid time off, leave for a non-FMLA eligible employee, or leave for a non-FMLA eligible circumstance. Special leaves may be for a medical or non-medical condition.

A. **Approval**: All requests for special leave must be approved in advance and in writing by the employee's department director and the Human Resources Director. The initial approval period for special leave duration will be for a period of twelve (12) weeks or less. The Executive Director may approve extensions of special leaves for more than twelve (12) weeks.

B. **Use of Time**: An employee may be required to exhaust any available paid time off categories prior to using unpaid time.

C. **Return to Work**:

1. An employee who is able to return to work after a period of special leave may be approved to return to a position in the class held at the start of the special leave, if such a position is available and funded. If such a position is not available and funded, the employee may be terminated.
2. An employee returning from special leave must notify Human Resources at least two (2) business days prior to the scheduled return. If the conditions for the leave change, the employee must notify Human Resources as soon as possible.

D. **Insurance Premiums**: An employee on unpaid special leave may be responsible for the payment of the entire insurance premium for his/her and dependent(s) coverage.

~~SECTION 4.13: FAMILY MEDICAL LEAVE (FMLA)~~

~~The Airport Authority supports and complies with the federal Family and Medical Leave Act of 1993 (FMLA), as amended. (See Organizational Policy #400.05 - Family and Medical Leave).~~

SECTION 4.14: TRAINING AND DEVELOPMENT

The Airport Authority offers a variety of training and development opportunities in order to assist an employee in performing his/her position more productively, preparing for future responsibilities, and encouraging self-improvement and growth. These educational opportunities may be available as internal and/or external training.

A. **Responsibility and Availability**: Supervisors, managers or directors and Human Resources have joint responsibility to ensure that all employees receive necessary training. The Airport Authority may reimburse an employee for certain expenses incurred when he/she successfully completes an external position-related course with prior approval.

B. **Required Training**: The Airport Authority shall pay all costs associated with the attendance by an employee at any course, seminar, or workshop required of the employee by the Airport Authority. The employee shall not be charged any type of leave while in attendance at such a course. The employee shall be considered to be on duty while at the course and for travel time proceeding to and from the course. Travel time does not include an employee's normal commute to and from his/her regular worksite for departure to the training. Hours worked for training that requires out-of-town travel and/or an overnight stay, for a non-exempt (hourly) employee will be determined in compliance with the Fair Labor Standards Act (FLSA) hours worked regulations.

SECTION 4.15: TUITION REIMBURSEMENT

Eligibility: To qualify for tuition reimbursement, an employee must have successfully completed the new hire probation period and be classified as a full-time employee prior to enrolling in the course. (See Organizational Policy #400.10 – Tuition Reimbursement)

V. WORKPLACE STANDARDS

SECTION 5.1: EMPLOYEE CONCERNS

Phoenix-Mesa Gateway Airport Authority (PMGAA) is committed to maintaining a formal mechanism that allows employees to resolve misunderstandings and preserve positive relations between management and other employees. Employees and supervisors shall, to the greatest extent possible, work cooperatively together to resolve work-related concerns. If an employee is unable to resolve a work-related concern, or he/she feels there is a perceived misapplication of written Airport Authority rules or policies, the employee is encouraged to bring this concern to the appropriate chain of command or to the Human Resources Director for review.

SECTION 5.2: RESPECTFUL WORKPLACE

Phoenix-Mesa Gateway Airport Authority is committed to providing and maintaining an environment conducive to the safety and health of its employees, tenants, and customers. PMGAA prohibits harassment, sexual harassment, illegal discrimination, gender bias, workplace violence, or unlawful activity as defined by state and federal law, including Title VII of the Civil Rights Act, the Age Discrimination Act, and the Americans with Disabilities Act. (See Organizational Policy #400.01- Anti-Harassment and Discrimination)

SECTION 5.3: ALCOHOL AND DRUG FREE WORKPLACE

Phoenix-Mesa Gateway Airport Authority is committed to providing a workplace free of drugs and alcohol. PMGAA will conduct alcohol, drug, and/or controlled substances testing under all circumstances required by federal or state law. In addition, PMGAA may conduct substance abuse testing when permitted by law which may include, but is not limited to: pre-employment or pre-placement testing, reasonable suspicion testing, random testing, post-accident testing, and follow up testing. (See Organizational Policy #400.14 – Alcohol and Drug Free Workplace)

SECTION 5.4: SMOKE FREE WORKPLACE

Phoenix-Mesa Gateway Airport Authority prohibits smoking including vaping in all Airport operated facilities and vehicles. Smoking and vaping is prohibited within twenty (20) feet of the Airport operated building entrances, from the gathering of non-smokers, and where appropriate signage is posted in enclosed areas. This complies with the City of Mesa ordinance entitled Smoking Regulations and Healthier Smoke Free Environments, under Title 6, Chapter 11 of the Mesa City Code and the Smoke-Free Arizona Act.

SECTION 5.5: PROBATION

All new employees and employees receiving a promotion or demotion shall serve a six (6) month probation period, during which an employee's performance in the new position is evaluated. The successful completion of the probationary period should not be construed as creating a contract or as guaranteeing employment for any specific duration or as establishing a just cause termination standard. Employment with the Airport Authority remains at-will, that is the Airport Authority may terminate an employee, or an employee may terminate his/her employment, with or without cause, and with or without notice, at any time.

SECTION 5.6: PERFORMANCE EVALUATIONS

All Airport Authority employees shall receive a performance evaluation annually based on a common review date. In conjunction with the annual performance evaluation, an employee may become eligible for consideration of a performance-based pay increase when applicable and based on the fiscal year budget. (See Organizational Policy #400.06 - Performance Evaluations)

SECTION 5.7: CHANGES IN ASSIGNMENT

A. **Promotion**: A posted promotional opportunity is open to an employee(s) who meets the minimum qualifications. On occasion, a posted promotional opportunity may be limited to employees in specific positions or departments.

   1. An employee who is promoted typically receives an increase in pay rate which is five percent (5%) higher than his/her previous pay rate, or the minimum pay rate of the new pay range; whichever is greater. Increases greater than five percent (5%) shall be approved by the Executive Director unless it is to bring them to the minimum pay rate of the new pay range. If the date of promotion falls within thirty (30) days of the common review date, the employee shall receive both the performance increase based on the fiscal year budget and the promotional increase unless the promotional increase is greater than 8%.

   2. An employee who is on disciplinary probation may not be considered for promotional opportunities.

   3. An employee who has been demoted for cause may not be considered for a promotion until ninety (90) days after the effective date of the demotion.

B. **Criteria-Based Promotion**: An employee may be promoted from one class to another class (with a higher maximum pay range) in a class series based on pre-approved criteria, without a competitive examination, with the approval of the Department Executive.

      1. An employee who is promoted through a criteria-based promotion typically receives an increase in pay rate which is five percent (5%) higher than his/her previous pay rate, or the minimum pay rate of the new pay range; whichever is greater. Increases greater than five percent (5%) shall by approved by the Executive Director unless it is to bring them to the minimum pay rate of the new pay range.

2. If the criteria-based promotion falls within thirty (30) days of the common review date, the employee shall receive both the performance pay increase based on the fiscal year budget and the promotional increase unless the promotional increase is greater than 8%.

3. An employee who is on disciplinary probation is not eligible to be considered for a criteria-based promotion.

C. **Demotion**: It shall be considered a demotion when an employee moves from one classification to another in a lower pay grade. An employee may be demoted, with the approval of the Department Executive, for inability of the employee to meet the requirements of the employee's position; at the request of the employee; and/or for the convenience of the Airport Authority. (See section 5.12 for Disciplinary Demotion)

1. When appropriate, an employee who is demoted for failing to meet the requirements of the position may be demoted to a formerly held position, if available, and the employee's pay rate shall be returned to the pay rate of his/her formerly held position.

2. An employee who requests a demotion shall be paid at a rate within the positions pay range unless otherwise approved by the Executive Director.

3. An employee demoted for the Airport Authority's convenience typically will continue to receive the same pay rate as before the demotion. If this pay rate is higher than the maximum of the new position's pay range, the employee's pay rate will be "frozen" until the pay range for the new position reaches the employee's pay rate, at which point the employee will again be eligible for pay rate increases.

4. An employee demoted shall be placed on a six (6) month probation period.

D. **Transfer**: Management will make final decisions regarding transfers in conjunction with Human Resources. The transferred employee may maintain the same common review date. However, if the duties and responsibilities are sufficiently different from those previously performed, the employee may be placed on a six (6) month probation period.

1. **Compensation:** The pay rate of an employee whose position is transferred from one classification to another classification having the same pay range shall remain the same unless approved by the Executive Director.

2. **Intra-Department Transfer:** An employee may be transferred to a different position within the same department with the same pay range, with the approval of the Department Director and notification to the Human Resources Director.

3. **Inter-Department Transfer:** An employee may be transferred to a position in a different department with the same pay range with the approval of both the current and prospective director or manager, and with notification to the Human Resources Director. Each transfer is determined on an individual basis, depending on the needs of both departments involved.

4. **Reason for Transfer:** An employee may be transferred at the employee's request, or for the convenience of the Airport Authority.

5. **Qualifications**: A transferred employee must meet the minimum qualifications for the class to which the employee may be transferred.

E. **Special Assignments**: With the approval of the Department Executive, an employee may be placed on a special assignment for assuming higher level job responsibilities for a period of greater than one month.

1. **Compensation:** An employee placed on special assignment shall receive a five (5%) salary increase to compensate the employee for the higher-level work performed. The Executive Director may approve more than a five (5%) increase in pay.
2. **Duration:** No special assignment shall extend beyond a period of one (1) year unless approved by the Executive Director.

3. **Review Date:** During the period of a temporary assignment, the employee continues in the common review date schedule, and continues to be eligible for performance-based pay increases based on the pay range established and fiscal year budget for the employee's regular position.

SECTION 5.8: SEPARATIONS

A. **Resignation**: It is customary for an employee in good standing who wishes to resign, to submit written notice at least two (2) weeks in advance.

1. At the Executive Director's sole discretion, an employee who has submitted a notice of resignation may be required to cease working for the Airport Authority immediately.

2. An employee who has submitted a resignation may submit in writing a withdrawal of resignation. The decision to accept the withdrawal will be based on the consent of the director, the Human Resources Director, and the Executive Director.

3. An employee who is unable to work due to a medically certified disability may apply for long-term disability if eligible. This application shall be treated as the resignation from PMGAA employment.

B. **Reduction in Workforce**: The Executive Director may institute a layoff of employees due to lack of funds, lack of work, or any other business reason. The Executive Director shall determine the timing and number of employees to be laid off. Layoff will be performed in a manner which best facilitates the reason(s) behind the layoff. Upon approval of the Executive Director, an employee subject to layoff may be transferred to a vacant position.

SECTION 5.9: STANDARDS OF CONDUCT

A. In addition to the conduct prohibited to all Arizona public employees by Arizona Revised Statutes, a violation of the Standards of Conduct listed below is cause for discipline up to and including termination. The following list of examples is not inclusive of every act that may be subject to disciplinary action up to and including termination:

1. Incompetence or inefficiency in the performance of duties.

2. Violation of any policy or procedure, lawful or official regulation or order.

3. Failure to obey lawful and reasonable directives given by management.

4. Abusiveness in attitude, language, or conduct to the public or fellow employees.

5. Being absent from work without authority or having excessive absences that effect productivity, the efficiency or effectiveness of the department, or impedes the work unit.

6. Participation in unlawful or improper conduct that adversely affects an employee's relationship to the position, position's duties, to other employees, or that in any way discredits the Airport Authority's reputation or goodwill in the community.

7. Engaging in unlawful harassment or discriminatory conduct against another individual on the basis of race, color, gender, religion, national origin, age, disability, veteran status, or genetics or engaging in retaliation against another for filing a complaint or participating in any investigation.

8. Conviction of a felony, failure to report a felony or misdemeanor conviction, and/or failure to report any felony arrest. Employees are required to report a felony arrest and a felony misdemeanor conviction to Human Resources or their supervisor upon the start of the employee's next scheduled workday following the conviction or arrest.

9. Jeopardize safety or to place oneself or another individual in an unsafe environment.

10. Falsify, misuse, or provide unauthorized use of Airport Authority documents or records, make false statements concerning duties with the Airport Authority, or use of misrepresentation to obtain a position with the Airport Authority.

11. Steal, damage, misuse, or misappropriate property, products, or equipment that belong to the Airport Authority, other employees, or visitors due to negligence or willful misconduct.

12. Commit fraud or other illegal acts regarding interfacing with or the use of the Airport Authority funds.

13. Possession of unauthorized firearms, dangerous items, weapons, or explosives on Airport Authority property.

14. Failure to maintain minimum standards, licenses, or qualifications required for one's position.

SECTION 5.10: ADMINISTRATIVE LEAVE

An employee may be placed on administrative leave with the approval of the Executive Director and the Human Resources Director. Administrative leave is to be used when the circumstances warrant the employee be temporarily relieved from his/her duties pending an investigation or administrative process. While on administrative leave, the employee will be paid their regular pay and is expected to follow departmental direction concerning requirements for leave time. Failure to comply and depending upon the circumstances and violations the employee may be subject to disciplinary action up to and including termination.

SECTION 5.11: DISCIPLINARY ACTIONS

Phoenix-Mesa Gateway Airport Authority utilizes disciplinary actions for employees who have committed infractions of employer policies and procedures. Depending upon the circumstances, violations may be subject to disciplinary action, up to and including termination of employment including immediate discharge from employment without prior warning or notice. This policy should not be construed as requiring the Airport Authority to use progressive discipline, or as a limitation on the right of the Airport Authority to take disciplinary action. Typically, actions taken against an employee may be any of the following:

A. **Written Reprimand**: A supervisor, manager or director may deliver a written reprimand to an employee as documentation to make the employee aware of unacceptable conduct or performance or for a violation of Airport Authority policies or procedures.

B. **Disciplinary Probation**: An employee may be placed on disciplinary probation, with the approval of the Department Executive, for unacceptable conduct or performance or for violation of Airport Authority policies or procedures.

1. Disciplinary probation will be up to twelve (12) months and cannot be extended beyond its original length. The probation can be ended early based on demonstrated improvement, with the approval of the Department Executive.

2. While on disciplinary probation, an employee will not be allowed to compete for any promotional opportunity and will not be eligible for any salary increases. Once the employee is removed from disciplinary probation they may be eligible for a performance-based increase at the next scheduled common review date based on performance and budget availability.

3. The Executive Director can approve a reduction in pay along with the disciplinary probation, if recommended by management.

C. **Suspension**: The Department Executive can approve the suspension of an employee from the employee's position without pay, at any time for unacceptable conduct or performance or for violation of Airport Authority policies or procedures.

1. Except in certain limited circumstances, an exempt employee may not be suspended for a period of less than one work week.

2. A suspended employee shall typically be notified prior to the start of the suspension. An employee suspended may be placed on disciplinary probation for a period of up to one year.

D. **Demotion**: With the approval of the Executive Director, an employee may be demoted at any time for unacceptable conduct or performance or for violation of Airport Authority policies or procedures.

1. An employee who is demoted for disciplinary reasons shall be paid at the highest level in the lower pay range that is at least five percent (5%) lower than the employee's salary prior to the demotion.

2. An employee demoted will be placed in a position for which he/she is qualified.

3. An employee demoted shall be placed on a six (6) month probation period and if the demotion is within three (3) months of the common review date, the employee will have to wait until the next year to be eligible for a performance-based review.

4. An employee demoted for disciplinary reasons may not be allowed to compete for any promotional opportunity until ninety (90) days after the effective date of the demotion.

E. **Termination**: With the approval of the Human Resources Director and the Executive Director, an employee may be terminated from the Airport Authority service for any reason that the Airport Authority decides, in its sole discretion, justifies such an action.

Board Action Item

Re: Resolution 22-15

To:	**Board of Directors**
From:	**Bob Draper, P.E., LEED AP, CM Engineering & Facilities**
Through:	**Chuck Odom, Chief Financial Officer**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Re:	**Fire Test, Inspect and Monitoring Contract Adjustments – Cross Fire Protection**
Date:	**April 19, 2022**

Proposed Motion
To increase the annual contractual authority by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the Fire Protection Systems in Airport Facilities.

Narrative
On October 20, 2020, the Board approved Resolution 20-38, a contract with Cross Fire Protection LLC (Cross Fire) to provide Airport wide Fire System Test, Inspect, Monitoring and Repair Services for all fire protection/alarm systems installed throughout the Airport's Property.

Since the execution of this contract, a leased building has been reverted back to the Airport resulting in the airport assuming the test, inspect and monitoring services for the building once paid by the tenant. In addition, Airport staff has had Cross Fire upgrade a number of Fire Protection Systems and convert several properties from Landline Monitoring Systems to Cellular Monitoring Systems for efficiency and added safety.

As the Airport continues to upgrade the Fire Protection and Monitoring Systems, staff is requesting to increase the annual contractual authority for these improvements by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the Fire Protection Systems in Airport Facilities.

Fiscal Impact
Revised Annual Amounts:

November 1, 2021 – October 31, 2022	$46,726
November 1, 2022 – October 31, 2023	$46,726

RESOLUTION NO. 22-15

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize an increase to the annual contractual authority by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the Fire Protection Systems in Airport Facilities.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes an increase to the annual contractual authority by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the Fire Protection Systems in Airport Facilities. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 19th day of April, 2022.

Board Action Item

Re: Resolution 22-16

To:	**Board of Directors**
From:	**Bob Draper, P.E., LEED AP, CM Engineering & Facilities Director**
Through:	**Scott Brownlee, Deputy Director/COO** **J. Brian O'Neill, A.A.E., Executive Director/CEO**
Subject:	**North Economy Parking Lot Expansion Construction CMAR – Nesbitt Contracting Co., Inc. – Change Order for CIP 1241**
Date:	**April 19, 2022**

Proposed Motion

To authorize a change order for the final phase of the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) Construction Services Contract with Nesbitt Contracting Co., Inc. in an amount not to exceed $2,755,361.31.

Narrative

The Phoenix-Mesa Gateway Airport has experienced unprecedented growth and requires immediate additional parking capacity in order to maintain the ability to meet customer demand. The North Economy Parking Lot Expansion Plans were originally developed in 2012 and will provide PMGAA with an additional 1263 parking spaces of which 18 are ADA accessible.

In March 2022, the Board approved Phase I of this project (Pre-Construction Services and GMP1 Early Works) for $561,497.25, which includes the initial grading work for the addition of approximately 600 parking spaces, parking lot lighting and a shuttlebus pickup location that will be completed by June 2022. Phase II, which is covered by this Change Order, will finalize the remaining initial work and be completed by November 2022, and will include the remainder of the parking spaces and planned improvements with a final completion in November 2022. The additional parking spaces will be considered overflow parking and not for routine use.

The GMP1 Early Works approval was needed and approved in order to meet established deadlines. Staff is now presenting to the Board, a Change Order for the CMAR Construction Services Contract to complete the remainder of these needed improvements.

The Notice of Request for Qualifications (RFQ), Solicitation 2022-018-RFQ was issued on January 10, 2022, and advertised in the Arizona Business Gazette on 1/13, 1/20, 1/27 and 2/3/22; it was also posted on the AzAA, ACC, ACI-NA, SWAAAE Websites as well as the Phoenix-Mesa Gateway Airport Authority Website. In addition, the RFQ was emailed to a list of 94 prospective firms. PMGAA Staff received three (3) Statement of Qualifications on February 8, 2022, and the Evaluation Panel unanimously selected Nesbitt Contracting Co., Inc. as the CMAR firm that best satisfied the requirements based on the qualifications of the firm, project team experience, and project understanding and approach to performing the required services.

The total for this project is now $3,316,858.56.

Fiscal Impact
This contract is utilizing PMGAA Non-grant funds under Capital Improvement Project 1241.

PROJECT DESCRIPTION:

Phoenix -Mesa Gateway Airport has experienced unprecedented growth and requires additional parking capacity immediately to maintain the ability to meet customer demand. North Economy Parking Lot expansion plans were developed in 2012 provides for an additional 1263 and 1643 parking spaces in a base bid and add alternate bid scenario. The Airport intends to contract with a CMAR to construct what is referred to on the construction plans as base bid, 1263 +/- additional parking spaces. The existing plans will not be updated but will be used as the basis of what is expected to be completed. Approximately 600 available parking spaces are needed no later than June 27, 2022. Parking lot lighting and a shuttlebus pickup location will be required for the initial phase. The remainder of the project and all improvements will be required to be in-place and accepted no later than November 18, 2022. It is

anticipated that the existing fence line will remain with swing gates added as the additional parking spaces will be considered overflow and not routine use.

ARTICLE 2 – CONTRACT DOCUMENTS

2.1 CONTRACT DOCUMENTS

The Contract between Owner and CMAR shall consist of the following Contract Documents:

1. This Contract and all of its Exhibits, including subsequent Specifications and Plans
2. The Request for Qualifications (RFQ) requirements (2022-018-RFQ) , documents, and CMAR's submittal to such solicitation dated February 8, 2022.
3. General Conditions
4. General Provisions
5. Special Provisions
6. Any plans and drawings
7. Any amendments or modifications to the foregoing documents, including (a) a written amendment signed by both parties, (b) a Change Order, (c) a Change Directive, (d) Supplementary Instructions, or (e) a written order for a minor change in the work (collectively the "Contract").
8. Guaranteed Maximum Price (GMP)

2.3 PROJECT SPECIFIC CONDITIONS

If there are any additional conditions that apply to this Project, they are set forth in the attached Exhibit C, and are incorporated herein.

2.4 PROJECT PLANS AND SPECIFICATIONS

A detailed list of the Plans and Specifications for this Project are set forth in the attached Exhibit C.

ARTICLE 3 – PRE-CONSTRUCTION SERVICES

Although CMAR has performed Pre-Construction Services pursuant to a separate Contract between Owner and CMAR, the completion, quality and accuracy of those services and the deliverables provided by Owner thereunder directly impact CMAR's performance of its obligations under this Contract. Therefore, all of CMAR's obligations, duties, and warranties in relation to Pre-Construction Services and deliverables survive completion of the Pre-Construction Services Contract and are incorporated herein. Any breach of any of CMAR's duties, obligations, or warranties under the Pre-Construction Services Contract shall likewise be considered a breach of this Contract.

ARTICLE 4 – CONSTRUCTION SERVICES

4.1 GENERAL

4.1.1 CMAR agrees at its own cost and expense, to do all work necessary and required to fully, timely and properly complete the construction of the Project in strict accordance with the Contract Documents in a good and workmanlike manner, free and clear of all claims, liens, and charges whatsoever, in the

manner and under the conditions specified, and within the Project Schedule included in Exhibit A of this Contract.

4.1.2 CMAR shall provide all of the labor and materials and perform the Work in accordance with the General Conditions and General Provisions. Some but not all of the major components of the

Construction Services and the corresponding subsections of Section 4 of the General Conditions are set forth below.

4.1.3 At all times relevant to the Contract and performance of the Work, the CMAR and its subcontractors shall fully comply with all Laws, Regulations, or Legal Requirements applicable to Owner, the Project and the Contract, including, without limitation, those set forth on attached Exhibit C and Article 3 of the General Conditions.

4.1.4 CMAR shall perform the Work under this Contract using only those firms, team members and individuals designated by CMAR consistent with the Statement of Qualifications dated February 8, 2022, the GMP Proposal, or otherwise approved by Owner pursuant to the General Conditions. No other entities or individuals may be used without prior approval of the Project Manager.

4.1.5 CMAR will comply with all terms and conditions of the General Conditions, General Provisions and Special Provisions, as well as the Owner's published Rules & Regulations and Minimum Standards (Exhibit J).

4.1.6 In the event of a conflict between this Contract and the General Conditions, General Provisions, Special Provisions or any exhibit hereto or appendix thereto, the terms of this Contract shall control, but nothing in this contract shall be construed so as to either (i) Violate any term or condition of the Owner's published Rules & Regulations or Minimum Standards; or (ii) Violate Owner's mandatory subordination to its federal obligations, pursuant to Federal Aviation Administration ("FAA") Policies (2009) (including, but not limited to § 1.1, § 1.5, § 12.3, §10, § 14.1, *et. seq*.) and federal statutory authority, including, but not limited to, 49 U.S.C. §40103(a) (establishes the federal government's total dominance over the airspace of the United States, including, U.S. airports).

4.1.7 **Ownership of Work Product.** Notwithstanding anything to the contrary in this Contract, all Work Product prepared or otherwise created in connection with the performance of this Contract, including the Work, are to be and remain the property of Owner. For purposes of this provision, "Work Product" shall include all designs, drawings, plans, specifications, ideas, renderings and other information or matter, in whatever form created (e.g., electronic or printed) and in all media now known or hereinafter created. All Work Product shall be considered Work Made for Hire as defined in the United States Copyright Act 17 U.S.C. § 101 (Copyright Act). If for any reason any such Work is found not to be a work for hire, CMAR hereby transfers and assigns ownership of the copyright in such Work to Owner. The rights in this section are exclusive to Owner in perpetuity.

4.2 CMAR's PRE-CONTRACT AND PRE-WORK DELIVERABLES

The CMAR will provide the insurance and bond(s) requirements in accordance with Article 11 of the General Conditions prior to any work commencing.

Owner will obtain and pay for all permits necessary for the work.

4.3 PRE-CONSTRUCTION CONFERENCE

CMAR shall attend the Pre-Construction Conference.

4.4 PERFORMANCE OF THE WORK (INCLUDING FIELD MEASUREMENTS, SUBCONTRACTORS, AND SUPPLIERS)

CMAR shall perform the Work in accordance with the General Conditions.

4.5 CONTROL OF THE PROJECT SITE

CMAR shall control and maintain the Project Site in accordance with Article 4 of the General Conditions.

4.6 PROJECT SAFETY

CMAR shall implement and enforce Project safety in accordance with Article 10 of the General Conditions.

4.7 MATERIALS QUALITY, SUBSTITUTIONS AND SHOP DRAWINGS

CMAR shall provide materials testing and submit substitute materials and Shop Drawings in accordance with Article 3 of the General Conditions.

4.8 PROJECT RECORD DOCUMENTS

CMAR shall maintain and make available the Project Record Documents in accordance with Article 3.12 of the General Conditions.

4.9 WARRANTY AND CORRECTION OF DEFECTIVE WORK

CMAR shall provide warranties and correct defective Work in accordance with Article 3.6 of the General Conditions.

ARTICLE 5 – OWNER RESPONSIBILITIES

5.1 Owner shall have the responsibilities, and provide the information specified in, and subject to the conditions set forth throughout the Contract Documents.

5.2 Additional information to be provided by Owner, if any, is listed below:

Final contract documents, including, but not limited to General Conditions, General Provisions, Special Provisions, applicable as-built drawings, stamped Construction Documents and Technical Specifications.

ARTICLE 6 – CONTRACT TIME

Contract Duration is a fixed date with at least 600 usable, striped and lit parking spaces no later than 6/27/2022 and with a Final Completion no later than 11/18/2022.

6.1 CONTRACT TIME

6.1.1 The Contract Time shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth in Article 6.4 below. The Notice to Proceed cannot be issued prior to the approval and acceptance by Owner of the GMP or Fixed Price.

6.1.2 CMAR agrees that it will commence performance of the Work and complete the Project through both Substantial Completion and Final Completion within the Contract Time.

6.1.3 Time is of the essence of this Contact, for the Project, and for each phase and/or designated Milestone thereof.

6.2 PROJECT SCHEDULE

The Project Schedule approved as part of the GMP Proposal and incorporated herein as part of the attached Exhibit A shall be updated and maintained throughout CMAR's performance under this Contract in accordance with Article 3 of the General Conditions.

6.2.1 Failure on the part of CMAR to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination for cause of this Contract by Owner.

6.3 SUBSTANTIAL COMPLETION

Substantial Completion shall be achieved not later than the Substantial Completion Date set forth in the Project Schedule. Substantial Completion shall be determined in accordance with Article 9.8 of the General Conditions.

6.4 FINAL COMPLETION AND FINAL ACCEPTANCE

6.4.1 Final Completion will be obtained within the time period set forth in the Project Schedule.

6.4.2 Final Completion will be determined, and a Final Acceptance will be issued, pursuant to Article 9.9 of the General Conditions.

6.5 LIQUIDATED DAMAGES

6.5.1 **Final Completion Liquidated Damages.** For the same reason set forth in Article 6.1.3 above, Owner and CMAR further agree that if CMAR fails to achieve Final Completion of the Work within the time set forth in Article 6.4.1 above, Owner shall be entitled to retain or recover from CMAR, as liquidated damages and not as a penalty, the following per diem amounts (which the Parties agree is a reasonable approximation of any resulting damages) commencing from the actual date of Substantial Completion or the Final Completion Date as required under the Contract, whichever is later, until the actual date of Final Completion:

$1,070 per calendar day.

6.5.2 Owner may deduct liquidated damages described in this Article 6.5 above from any unpaid amounts then or thereafter due CMAR under this Agreement. Any liquidated damages not so deducted from

any unpaid amounts due CMAR shall be payable to Owner at the demand of Owner, together with interest from the date of the demand at the highest lawful rate of interest payable by CMAR.

ARTICLE 7 – CONTRACT PRICE

7.1 CONTRACT PRICE

7.1.1 In exchange for CMAR's full, timely, and acceptable performance and construction of the Work under this Contract, and subject to all of the terms of this Contract, Owner will pay CMAR the "Contract Price" which:

The sum of the CMAR's Fee and reimbursable Cost of the Work, which the CMAR guarantees will not exceed the GMP set forth in Exhibit A, in the amount of **561,497.25**. Costs which would cause the GMP to be exceeded shall be paid by CMAR without reimbursement from Owner.

7.1.2 The Contract Price is all-inclusive and specifically includes all fees, costs, insurance and bond premiums, and taxes any type necessary to fully, properly and timely perform and construct the Work encompassed in attached Exhibit A.

7.1.3 The contract price may only be changed as set forth in the Contract Documents.

7.1.4 Only costs specifically designated as reimbursable costs are eligible for payment by Owner or may be charged against the Contract Price. All other costs will not be paid by Owner and shall not be chargeable against the Contract Price.

7.1.5 For Contract Amendments, Change Orders, or Job Orders reimbursable costs shall be determined pursuant to MAG Specifications 109.5.

7.2 ALLOWANCES

Contractor shall include in the Contract Price all Allowances stated in the Contract Documents and agreed to in writing by Owner. Items covered by these Allowances shall be supplied for such amounts and by such persons as Owner may direct, provided Contractor will not be required to employ persons against whom Contractor makes a reasonable objection. Materials and equipment under an Allowance shall be selected by Owner in accordance with a schedule to be mutually agreed upon by Owner, Design Professional and Contractor or otherwise in reasonably sufficient time to avoid delay in the Work.

7.2.1 Unless otherwise provided in the Contract Documents:

7.2.1.1 These Allowances shall cover the cost to Contractor, less any applicable trade discount, of the Materials and equipment required by the Allowances, delivered at the Site, and all applicable taxes;

7.2.1.2 Contractor's costs for unloading and handling on the Site, labor, installation costs, overhead, profit and other expenses relating to Materials and Equipment required by the Allowance shall be included in the Contract Sum and not in the Allowance; and

7.2.1.3 Whenever the cost is more or less than the Allowance, the Contract Sum shall be adjusted accordingly by Change Order, the amount of which will recognize the difference between

actual costs for an Allowance item and the amount of the Allowance item and changes, if any, in handling costs on the Site, labor, installation costs, overhead, profit and other expenses.

7.3 CONTINGENCY

An agreed to amount in the GMP that may only be used in accordance with the terms set forth in these General Conditions and with prior written approval by Owner.

7.4 FINAL PAYMENT

If the Contract Price is based upon a GMP, as a further condition precedent to Final Payment by Owner, Contractor must submit to the Project Manager a complete final accounting of the Actual Reimbursable Cost of the Work, including all such documentation (including, without limitation, invoices, subcontracts, subcontractor change orders, purchase orders, records of payment, etc.) as Owner may require, to establish whether the payments made to Contractor equal, exceed, or are less than the Actual Reimbursable Cost of the Work to date.

Any excess payments by Owner, as determined by the Project Manager, shall be deducted from the one-half retention payment to be made to Contractor, and any additional excess amounts paid to Contractor shall be refunded by Contractor to Owner. Disputes relating to the Final Cost of the Work shall be subject to Owner's audit rights under Article 13.14 of the General Conditions and 7.5 below, and the dispute resolution process under Article 4 of the General Conditions.

7.5 OPEN BOOK

On any GMP-based or Change Order, Owner may attend any and all meetings or discussions pertaining to the Project, including bid openings, and shall have access to all books, invoices, accounts, memoranda, correspondence, and written communications or records of any kind pertaining to the Project, including without limitation, those stored in electronic format.

ARTICLE 8 – PAYMENT

Payments shall be made to CMAR in accordance with Article 9 of the General Conditions and Article 7 above.

ARTICLE 9 – CHANGES TO THE CONTRACT

Changes to the Contract may be made in strict accordance with Article 7 of the General Conditions.

ARTICLE 10 – SUSPENSION AND TERMINATION

This Contract may be suspended and/or terminated in accordance with Article 14 of the General Conditions.

ARTICLE 11 – INSURANCE AND BONDS

11.1 CMAR shall provide insurance in accordance with Article 11 of the General Conditions to the CMAR Contract. CMAR shall provide proof of such insurance and all required endorsements in forms acceptable to Owner prior to commencing any Work under this Contract.

11.2 CMAR shall provide performance and payment bonds to Owner in accordance with Article 11 of the General Conditions and A.R.S. § 34-610(A).

11.3 Failure to provide proof of insurance and the required endorsements, or the required bonds, in forms acceptable to Owner will be material breach and grounds for termination for cause of this Contract by Owner.

ARTICLE 12 – INDEMNIFICATION

CMAR shall have and assume the indemnity obligations set forth in Article 3 of the General Conditions.

ARTICLE 13 – DISPUTE RESOLUTION

Any claims or disputes relating to this Contract shall be resolved according to the dispute resolution process set forth in Article 4 of the General Conditions.

ARTICLE 14 – MISCELLANEOUS PROVISIONS

The miscellaneous provisions set forth in Article 13 of the General Conditions shall apply to this Contract.

Executed as of the Effective Date.

STATUTORY PAYMENT BOND

PURSUANT TO TITLE 34, CHAPTER 2, ARTICLE 2, ARIZONA REVISED STATUTES

KNOW ALL MEN BY THESE PRESENTS:

That, _____, (hereinafter called the Principal), as Principal and _____, a corporation duly organized under the laws of the State of _____, with its principal office in the City of _____, (hereinafter called the Surety), as Surety, are held and firmly bound unto Phoenix-Mesa Gateway Airport Authority, Maricopa County, Arizona (hereinafter called the Obligee), in the amount of _____ _____($_____), for the payment of which the Principal and Surety bind themselves and their heirs, administrators, executors, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has entered into a certain written Contract with Obligee, dated the ____day of _____ ____, 202__ to construct the following projects under the **Authority Solicitation No. 2022-018-RFQ; CMAR for the North Economy Parking Lot Expansion (Authority Project No. 1241),** which contract is hereby referred to and made a part of this bond as fully and to the same extent as if copied at length herein.

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION IS SUCH, that if the Principal promptly pays all monies due to all persons supplying labor or materials to the Principal or the Principal's subcontractors in the prosecution of the work provided for in the contract, this obligation is void. Otherwise it remains in full force and effect.

PROVIDED, HOWEVER, that this bond is executed pursuant to the provisions of Title 34, Chapter 2, Article 2, Arizona Revised Statues, and all liabilities on this bond shall be determined in accordance with the provisions of Title 34, Chapter 2, Article 2, Arizona Revised Statues, to the same extent as if they were copied at length in this agreement.

The prevailing party in a suit on this bond shall recover as part of the judgment reasonable attorney fees that may be fixed by a judge of the court.

Witness our hands this _____ day of _____, 202__.

Authority Project No. 1241
Authority Solicitation No. 2022-018-rFQ

Phoenix-Mesa Gateway Airport Authority, a joint powers airport authority authorized by the State of Arizona (Owner), has considered the Statement of Qualifications (SOQ) submitted and interview performed (if applicable) by your firm for the above described WORK in response to the Advertisement for SOQ's dated February 8, 2022. You are hereby notified that you were awarded this CMAR Contract by Phoenix-Mesa Gateway Airport Authority on _____, in the amount of $_____. You are required by the Terms and Conditions of this bid to execute the CMAR Contract and to furnish Contractor's Performance and Payment Bonds and submit the appropriate Certificate(s) of Insurance within fifteen (15) calendar days from this Notice.

If you fail to execute the CMAR Contract, furnish the required bonds, and submit Insurance Certificate(s) within Fifteen (15) calendar days from the date of this Notice, the Owner will consider this as a forfeiture of your consideration
to be selected as CMAR. The Owner will be entitled to such other rights as may be granted by law.

A pre-construction meeting is scheduled for _____202__, at _____ in the Phoenix-Mesa Gateway Airport Authority Board Room, 5835 South Sossaman Road, Mesa.

You are required to return an acknowledged copy of the NOTICE OF AWARD to the Phoenix-Mesa Gateway Airport Authority.

Dated this _____ day of _____, 202__.

Dear _____:

You are unconditionally authorized to proceed with the above-referenced project effective the date of this letter. The contract time is ____ calendar days. All work shall be performed strictly in accordance with the Contract Documents, including all project schedule requirements.

Your contact for this project is [name], phone no. (xxx) xxx-xxxx and all project communications should be directed to him. If the preconstruction conference has not already occurred, he will contact you shortly about scheduling it.

Remember, the Owner must approve *in writing* any and all changes in the project scope of work before you start work on the change.

Phoenix-Mesa Gateway Airport Authority looks forward to a successful project with your firm.

Sincerely,

PHOENIX-MESA GATEWAY AIRPORT AUTHORITY, a joint powers airport authority authorized by the State of Arizona

CONDITIONAL
FULL RELEASE OF ALL CLAIMS AND WAIVER OF LIEN UPON FINAL PAYMENT (CMAR)

WHEREAS, the undersigned, _____ (CMAR) has furnished labor, materials, and services and/or equipment for the construction of the **North Economy Parking Lot Expansion*, Authority Project No. 1241,*** at the Phoenix-Mesa Gateway Airport, Maricopa County, State of Arizona, on the Property of the Phoenix-Mesa Gateway Airport Authority, Mesa, Arizona.

NOW, THEREFORE, the undersigned, on receipt of a check from the Owner payable to the CMAR in the sum of $ _____, said sum representing full and final payment for the above-mentioned labor, materials, services and/or equipment, does hereby waive and release any and all liens, claims of lien, and demands whatsoever that now exist or may hereafter accrue against the Owner and the Property on account of labor and materials furnished by the undersigned.

The undersigned warrants that all materials and labor placed by the undersigned in the Project are free from any claims, liens, or encumbrances and that all bills and obligations incurred for labor, taxes, withholding taxes based on payroll and payable to the United States of America or State of Arizona, premiums under a voluntary disability insurance policy, if any, carried with a private insurer, and payments to all union health, welfare, pension, apprentice training and vacation funds applicable for workmen employed on the above-described Project, in connection with the work of improvement on the Project, have been paid in full. The undersigned warrants that all subcontractors and material-men that may have delivered materials and performed work upon the Property for the Project have been fully paid or will be paid from monies received from this final payment. The undersigned shall and does hereby indemnify, save, and hold harmless the Owner and CMAR from all claims, damages, liens and losses, including all costs, professional fees, and reasonable attorney's fees, which the Owner may suffer by reason of filing of any claims, notices, liens or encumbrances, or the failure of the undersigned to obtain cancellation and discharge thereof.

DATED this _____day of _____, 202_____.

(Title)

EXHIBIT D – DEFINITIONS

Allowance – A specific amount for a specific item of Work, if any, that Owner agrees has not been sufficiently designed, detailed, or selected (including design changes from 90% to 100% as authorized by and at the discretion of the Owner) at the time the Contract Price is agreed to for Contractor to provide a definitive price. Allowances shall be treated in accordance with Article 7.2 above.

Baseline Cost Model – A breakdown and estimate of the scope of the Project developed by CMAR.

CMAR or Construction Manager at Risk – The person or firm selected by Owner to provide pre-construction and/or construction services as detailed in a Construction Manager at Risk Contract with Owner. In these General Conditions, the term "Contractor" includes CMAR under both Pre-Construction and Construction Services Contracts.

CMAR Fee or Contractor's Fee – An agreed to percentage in an accepted GMP that represents the Contractor's fee for performance of the Work.

Contract Documents – Where compensation under the Contract is based upon a GMP accepted by Owner, the term "Contract Documents" also includes the accepted GMP Proposal.

Contract Price – Where compensation under the Contract based upon a GMP accepted by Owner, the term "Contract Price" refers to the GMP.

Cost-Based Contract, Change Order, or Job Order – A Contract, Change Order, or Job Order where the Contract Price is based upon the actual cost of performing the Work, subject to the terms of the Contract Documents. These would include those generally referred to as "Cost of the Work plus a Fee with a GMP," "Time and Materials," or "Cost Plus a Fee."

Cost of the Work – The direct costs necessarily incurred by Contractor in the proper, timely, and complete performance on the Work. The Cost of the Work shall include only those costs set forth in Article 7 above.

Deliverables – The work products prepared by Contractor in performing the scope of work described in the Contract. Some of the major deliverables to be prepared and provided by Contractor during pre-construction may include but are limited to: the Baseline Cost Model and Schedule that validate Owner's plan and budget, Construction Management Plan, Detailed Project Schedule, Schedule of Values, alternative system evaluations, procurement strategies and plans, Detailed Cost Estimates, construction market surveys, cash flow projections, GMP Proposals, Subcontractor procurement plan, Subcontractor agreements, Subcontractor bid packages, Supplier agreements, Constructability Review, Cost Control Log, Traffic control and phasing plans and others as indicated in this Contract or required by the Project Team.

Pre-Construction Services Contract – The Contract entered into between Owner and the CMAR for Pre-Construction Services to be provided by the CMAR, including, without limitation, the generation of a GMP Proposal. If the GMP Proposal is accepted by Owner and a CMAR Contract is entered into between Owner and CMAR, the duties, obligations and warranties of the CMAR under the Pre-Construction Services Contract survive and are incorporated into the resulting CMAR Contract.

Pre-Construction Services – The services to be provided under a Pre-Construction Services Contract.

Detailed Project Schedule – The Detailed Project Schedule developed by the CMAR for the review and approval of the Owner.

GMP Plans and Specifications – The plan and specifications upon which the Guaranteed Maximum price Proposal is based.

GMP Proposal – The proposal of Contractor submitted for the entire Work and/or portion (phases) of the Work.

Guaranteed Maximum Price or GMP – The Guaranteed Maximum Price set forth in the Contract.

	Tempe, AZ 85281-3118	**Fax:**	(480) 423-7680
Project Name:	103 Mesa Gateway Parking Lot Phase 3 - GMP1	**Bid Number:**	
Project Location:		**Bid Date:**	2/25/2022

Item #	Item Description	Estimated Quantity	Unit	Total Price
001	Mobilization	1.00	LS	$11,200.00
002	Trench	1.00	LS	$135,020.00
003	Conduit	1.00	LS	$77,875.00

Total Bid Price: $224,095.00

Notes:

- AZ LICENSE #075367 & 074573
- **Scope of Work Includes:**
  - Provide & install 1" UG PVC Sch. 40 conduits for power circuits as shown on drawings for base bid
  - Provide & install 2" UG PVC Sch. 40 conduits for power circuits as shown on drawings for base bid
  - Provide & install 1" UG PVC Sch. 40 conduits for communication as shown on drawings for base bid
  - Provide & install 2" UG PVC Sch. 40 conduits for communication as shown on drawings for base bid
  - Provide & install PVC conduit stub-ups w/ pvc caps for power and communication conduits at locations for future UG pull boxes
  - Provide excavation, slurry encasement and native backfill for ductbanks under pavement areas
  - Proposal is based on one mobilization

  Spec Sections:
  - None - as shown on electrical plans

  Plan Sheets:
  - Electrical plan sheets for base bid only
- **Excludes:**
  - Taxes, permits, fees or allowances
  - Utility company permits, fees or allowances
  - Temporary power or lighting
  - Traffic control, barricades, flaggers or off-duty officers
  - Sawcutting, removal or patching of asphalt or concrete
  - Finished grading
  - Engineering, design, surveying, and staking for line and / or grade are excluded. Elevations must be provided where required
  - QA/QC or 3rd party testing
  - Spoils from trench or excavation work will be placed trench side to be removed or spread by others. All concrete and asphalt removal and disposal by others
  - Any/All electrical demolition/removals or adjustments - Future GMP
  - Concrete pole foundations or conduit stub-ups - Future GMP
  - All light fixtures or poles - Future GMP
  - All electrical equipment, panelboards, circuit breakers or lighting control - Future GMP
  - All conductors, communication cables, fiber optic cable or innerducts - Future GMP
  - All UG pull boxes or adjustments to existing - Future GMP
  - Any/All work for the Toll Plaza Expansion
  - Any/All work for the Gate/Exit Lanes
  - Any/All equipment for the Security, CCTV or Access Control systems
  - Any/All electrical equipment for the bus stops - Provide stub-ups only
  - Communication conduits stubbed up into lighting poles - Not shown on plans
  - Dumpsters or Haul-off
- Bonding is NOT included in these bid amounts. If a bond is requested, it will be billed outside the contract value and will become due and payable immediately upon presentation of bond. Our bond rate for this project is 1.20%.

- Hard dig is excluded. Upon discovery of hard digging conditions that a standard 420F Caterpillar backhoe is unable to excavate, GC will excavate, remove rock and Rural will complete trench and backfill (Rural will provide credit for normal excavation)
- All Division 1 requirements are to be furnished by the Prime Contractor or others. This includes but is not limited to preparation of construction schedules, contractor quality control program, QA and QC testing, temporary construction trailers or facilities, construction lighting and power, maintenance of site access, site dust control, temporary site environmental protection, permits and/ or fees, and builders-risk or all risk insurance policies.
- Where the electrical drawings and electrical specifications conflict with other contract documents, our pricing is based on the electrical drawings.
- Rural Electric is not responsible for unmarked landscaping facilities.
- Prime contractor is to furnish a source for construction water at no cost to the subcontractor.
- Pay when paid clauses will not be accepted.
- Rural Electric, Inc. maintains its own job documentation system. Any additional requirements by the GC to complete job documentation on GC supplied forms will require additional subcontractor administration time and additional cost. This proposal excludes the use of GC supplied documents (i.e. Special GC daily reports, RFIs, certified payrolls, submittal/transmittal forms, etc.).
- This proposal is made with the understanding that we will enter into a mutually acceptable subcontract agreement. We will not accept any terms or conditions that are less favorable to Rural than those imposed in the Prime contract by the Owner. The conditions of this proposal must be attached or incorporated into our subcontract agreements.
- Prices quoted herein are those in effect today, and are predicated on immediate release for manufacture and shipment. These prices are subject to adjustment for changes in the base price of commodity items such as: Copper, Steel, Lead, Aluminum, or Resins), which may occur between the date of quotation and the date(s) shipments are made.
- Our Quote is valid for 30 days
- Rural shall not be liable for any losses, damages or delays due to causes beyond our reasonable control, including without limitations, acts of God, epidemics, extreme weather events, fire, delays by others, or any acts, conduct, or omission from unrelated third-parties outside of our direct control
- Liquidated damages (if applicable) shall be limited to the proportion of our subcontract to the General Contract.
- Retention shall be reduced by 50% upon substantial completion and released once beneficial occupancy or final acceptance has been received.
- If a subcontract payment bond is requested of Rural, then providing monthly lien releases shall not be a condition precedent for payment and all payment will be made to Rural as single party checks.

Payment Terms:

Net payment is expected within 30 days.

ACCEPTED:	**CONFIRMED:**
The above prices, specifications and conditions are satisfactory and are hereby accepted.	**Rural Electric, Inc.**

GENERAL CONDITIONS TO THE CMAR CONTRACT

ARTICLE 1 GENERAL CONDITIONS

1.1 DEFINITIONS, CORRELATION AND INTENT

1.1.1 Definitions. Unless otherwise provided herein, capitalized terms used in this Contract, and not otherwise defined herein, have the respective meanings set forth in the Contract Documents that make up the entire agreement and incorporated herein by this reference.

1.1.2 Entire Agreement. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral.

1.1.3 Contractual Relationship. The Contract shall not be construed to create a contractual relationship of any kind (1) between the Owner and CMAR, (2) between the Owner and a Subcontractor, or (3) between any persons or entities other than the Owner and CMAR. The Owner, however, shall be entitled to performance and enforcement of obligations under the Contract intended to facilitate performance of the Owner's duties. The CMAR is not a third-party beneficiary to any agreement among or between the Owner. The Owner's performance of duties under such agreements is solely for the benefit of parties identified as beneficiaries under such agreements.

1.1.4 Intent. The intent of the Contract is to include all items necessary for the proper execution and completion of the work by the CMAR.

1.1.5 Supplementary Instructions. The Owner will issue written interpretations necessary for the proper execution of the work in the form of Supplementary Instructions with reasonable promptness. Supplementary Instructions may either be instructions, drawings or additional information but shall not change the Contract Sum or Contract Time without subsequently executed Change Orders (collectively "Supplementary Instructions").

1.1.6 Requests for Clarification. The CMAR shall submit requests for clarification of the Contract to the Owner.

1.1.7 Discrepancies in Contract. If there is any discrepancy, inconsistency or ambiguity in the quality or quantity of the work or materials required under the Contract, the CMAR shall (1) immediately bring such discrepancy, inconsistency or ambiguity to the attention of the Owner, and (2) provide the better quality of or greater quantity of the work or materials, without an increase in the Contract Sum, unless otherwise directed in writing by the Owner or the Owner. If the Owner or the Owner accepts the lower quality or quantity of work or materials, the CMAR shall remit to the Owner the difference in cost between the better quality or greater quantity and such lower quality or lesser quantity.

1.1.8 Organization of Specifications and Drawings Not to Control Division of Work. Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings shall not control

the CMAR in dividing the work among Subcontractors or in establishing the extent of work to be performed by any trade.

1.1.9 CMAR Solely Responsible for Division of Work. The CMAR is solely responsible for the division of the work among Subcontractors. The Owner will not act as arbiter as to which trade or Subcontractor is to furnish or install the various items indicated or required to complete the work. The CMAR shall make necessary arrangements to reconcile any and all labor conflicts without delay, damage or cost to the Owner and without recourse to the Owner.

1.1.10 Technical and Industry Meanings. Unless otherwise stated in the Contract, words that have well-known technical or construction industry meanings are used in the Contract in accordance with such recognized meanings.

1.1.11 Current Standards. Where a reference in the Contract to an American Society for Testing and Materials Standard (ASTM), American National Standards Institute Standard (ANSI), federal specification or other recognized standard does not include the date of the standard, the edition current as of the date of issuance of the permit for the work shall apply. No consideration will be given to claimed ignorance as to what a cited standard contains, since the CMAR and each Subcontractor is considered to be experienced and familiar with the generally accepted, published standards of quality and workmanship for its own trade. Requirements of such referenced standards form a part of the Specifications to the extent indicated by the references thereto.

1.2 OWNERSHIP AND USE OF DRAWINGS, SPECIFICATIONS AND OTHER DOCUMENTS

All Drawings, Specifications and copies thereof furnished by the Owner are and shall remain the property of the Owner. The Drawings and Specifications and the design reflected therein shall be kept strictly confidential and shall not be disclosed or released except as necessary for the performance of the work. The CMAR may retain one record set. Neither the CMAR nor any Subcontractor shall own or claim a copyright in the Drawings, Specifications or other documents prepared by the Owner. The Owner will retain all common law, statutory and other reserved rights, in addition to the copyright. All copies of them, except the CMAR's record set, shall be returned to the Owner upon completion of the work. The Drawings, Specifications and other documents prepared by the Owner, and copies thereof furnished to the CMAR, are for use solely with respect to this Project. They are not to be used by the CMAR or any Subcontractor on other projects or for additions to this Project outside the scope of the work without the specific written consent of the Owner. The CMAR and its Subcontractors are granted a limited license to use and reproduce applicable portions of the Drawings, Specifications and other documents prepared by the Owner necessary for execution of the work. All copies made under this license shall bear the statutory copyright notice, if any, shown on the Drawings, Specifications and other documents prepared by the Owner. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with this Project is not to be construed as publication in derogation of the Owner's copyright or other reserved rights.

ARTICLE 2 OWNER

2.1 INFORMATION AND SERVICES REQUIRED OF THE OWNER

2.1.1 Financial Arrangements. The Owner shall, at the request of the CMAR, furnish to the CMAR reasonable evidence that financial arrangements have been made to fulfill the Owner's obligations under the Contract.

2.1.2 Survey and Work Milestone Dates. The Owner shall furnish survey information of the Site and work Milestone Dates, if any, required for performance of the work.

2.1.3 Copies. The CMAR will provide their own copies of plans, project specifications and addenda, concerning clarifications, proposed changes and changes.

2.1.4 Communication with CMAR. The Owner shall forward communications to the CMAR directly.

2.2 OWNER'S RIGHT TO STOP THE WORK.

If the CMAR fails to perform or correct work that is not in accordance with the requirements of the Contract or does not allow other Contractors to timely perform their work, the Owner may order the CMAR to stop the work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the CMAR or any other person or entity.

2.3 OWNER'S RIGHT TO CARRY OUT THE WORK.

The Owner shall have the right to contact the CMAR's Surety if the Owner determines that the CMAR is not performing in accordance with the Contract. If the CMAR defaults or neglects to carry out the work in accordance with the Contract or fails to commence and continue correction of such default or neglect with diligence or promptness, the Owner may, after forty-eight (48) hours written notice to the CMAR and its Surety, require the Surety to promptly assume the obligations of the Contract. Should the Surety fail to assume the obligations within five (5) calendar days after receipt of the written notices then Owner, without prejudice to any other remedy it may have, may correct such nonconforming work. In such case, an appropriate Change Order shall be issued deducting from the payments then or thereafter due the CMAR or the Surety all costs of correcting such nonconforming work, including but not limited to, compensation for the Owner's additional services made necessary by such default, neglect or failure. If the payments then or thereafter due the CMAR or its Surety are not sufficient to cover such amount, the CMAR or its Surety shall pay the difference to the Owner within thirty (30) days after the Owner's invoice therefore.

ARTICLE 3 CMAR

3.1 REVIEW OF CONTRACT AND FIELD CONDITIONS BY CMAR.

3.1.1 Notice of Errors. The CMAR warrants that he has carefully reviewed the Contract, including the work Milestone Dates, if any, and all documents pertaining to the work, including but not limited to the plans, Specifications and the work Milestone Dates, and that he is satisfied as to the feasibility and correctness of the Contract, including the work Milestone Dates, to perform the work within the Contract Time. The CMAR shall immediately report to the Owner any errors, inconsistencies or omissions discovered in the Contract, including the work Milestone Dates. If the CMAR performs any construction activity containing an error, inconsistency, or omission that the CMAR recognized or should have recognized through the exercise of reasonable diligence, without reporting such error, inconsistency or omission to the Owner, the CMAR shall assume responsibility for such performance and shall bear the costs for correction.

3.1.2 Examination of Site. The CMAR warrants that he has visited and examined the character of the Site and any existing structures and/or has satisfied himself as to the nature of the work and all matters which could in any way affect the work. The CMAR shall take field measurements and verify field conditions and shall compare such field measurements and conditions and other information known to the CMAR with the Contract before commencing the work. Errors, inconsistencies or omissions discovered shall be reported to the Owner immediately. The Owner does not guarantee the accuracy of grades, elevations, dimensions, or locations on work installed by other Contractors. The CMAR shall verify the accuracy of all grades, elevations, dimensions and locations relating to the work. In cases of interconnection of the CMAR's work with other work, it shall verify at the Site all dimensions relating to such other work. The CMAR shall promptly rectify any error due to the CMAR's failure to verify the accuracy of such grades, elevations, location or dimensions without any additional cost to the Owner.

3.1.3 CMAR License and Compliance with Law. The CMAR warrants (1) that it is licensed under the laws of the State of Arizona to perform the work, and (2) that it is familiar and will comply with all applicable laws, statutes, ordinances, building codes, rules and regulations and lawful orders of public authorities in performing the work, including but not limited to environmental laws and A.R.S. Title 34 as amended.

3.1.4 Contract Compliance with Law. If the CMAR observes that portions of the Contract are at variance with applicable laws, statutes, ordinances, building codes, or rules and regulations, the CMAR shall promptly notify the Owner in writing, and necessary changes shall be accomplished by appropriate modification. If the CMAR performs work it knows or should know to be contrary to laws, statutes, ordinances, building codes, or rules and regulations without such notice to the Owner, the CMAR shall assume full responsibility for such work and shall bear all damages, losses, costs and expenses attributable thereto.

3.1.5 CMAR Compliance with Contract. The CMAR shall perform the work in accordance with the Contract and in a first class and workmanlike manner. In the event that the CMAR fails to do so, the Owner may withhold payments to protect the Owner from loss, regardless of whether payment has previously been made for the work in question.

3.2 SUPERVISION AND CONSTRUCTION PROCEDURES.

3.2.1 CMAR to Supervise Work. The CMAR shall supervise and direct the work using the CMAR's best skill and attention. The CMAR shall be solely responsible for and have control over construction means, methods, techniques, sequences, safety, and procedures associated with its work and for coordinating all portions of the work under this Contract. The CMAR shall designate in writing and assign to the Project a qualified and experienced project superintendent, who shall be fully authorized to act and receive communications on the CMAR's behalf. The superintendent shall be present on site at all times necessary or appropriate to adequately supervise and coordinate the work.

Contractor shall have an authorized and qualified representative on site at all times when a subcontractor, or lower tier subcontractor, is conducting any work.

3.2.2 Acts and Omissions. The CMAR shall be responsible to the Owner for acts and omissions of the CMAR's employees, Subcontractors and their agents and employees, and other persons performing portions of the work under a contract with the CMAR.

3.2.3 Duty to Perform. The CMAR shall not be relieved of obligations to perform the work in accordance with the Contract either by activities or duties of the Owner in its administration of the Contract, or by tests, inspections or approvals required or performed by persons other than the CMAR.

3.2.4 Duty to Inspect. The CMAR shall inspect portions of the Project related to the CMAR's work in order to determine that such portions are in proper condition to receive subsequent work.

3.2.5 Limitation on Liability. CMAR acknowledges that the Owner nor any of their respective agents, employees, successors or assigns shall control the day-to-day operations of the CMAR and shall not determine construction means, methods, techniques or procedures or safety precautions and programs in connection with the work. CMAR agrees that the Owner nor any of their respective agents, employees, successors or assigns shall be responsible for the failure of the CMAR to perform the work in accordance with the Contract or with the laws, ordinances, rules, permit conditions, regulations or lawful orders of any governmental agency having regulatory authority over the manner, methods or means of performance of the work.

3.3 LABOR AND MATERIALS.

3.3.1 CMAR to Provide. The CMAR shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, storage and other facilities and services necessary for proper execution and completion of the work, whether temporary or permanent and whether or not incorporated or to be incorporated in the work.

3.3.2 Skilled Labor. The CMAR shall enforce strict discipline and good order among the CMAR's employees and other persons carrying out the Contract. The CMAR shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

3.3.3 Standard of Quality. Wherever materials, products, articles, equipment systems or similar items are identified by reference to proprietary terms or by a similar reference, it is intended to establish the minimum standard or measure of quality that has been determined as requisite or intended for the work.

3.3.4 E-verify Requirements. To the extent applicable under Arizona Revised Statutes § 41-4401, the CMAR and its Subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under A.R.S. § 23-214(A). Contractors or its Subcontractors failure to comply with such warranty shall be deemed a material breach of this Contract and may result in the termination of this Contract by the Authority.

3.4 SUBSTITUTION OF PRODUCTS.

3.4.1 Requests for Substitutions. After the Contract has been executed, the Owner may consider, but shall have no obligation to consider, a formal request for the substitution of products in place of those specified under the conditions set forth herein and those set forth in the Technical Specifications. The decision in the first instance on acceptance or rejection of proposed alternate, substitute or similar materials, products, equipment or systems shall be vested in the Owner, and ultimately with the Owner, whose decision shall be final and binding.

3.4.2 Conditions for Substitutions. By making requests for substitutions, the CMAR (1) represents that the CMAR has personally investigated the proposed substitute product and determined that it is equal or superior in all respects to that specified, (2) represents that the CMAR will provide the same warranty for the substitution that the CMAR would for that specified, (3) certifies that the cost data presented is complete and includes all related costs under the Contract except the Owner's analysis and redesign costs, and waives all claims for additional costs related to the substitution which subsequently become apparent, and (4) will coordinate the installation of the accepted substitute, making such changes as may be required for the work to be complete in all respects.

3.4.3 Criteria for Acceptance or Rejection of Substitutes. Acceptance or rejection of proposed alternate, substitute, or similar materials, products, equipment or systems for use may be based on the construction, design, function, type, size, capacity, performance, strength, durability, finish, aesthetic quality, the Owner's standard for repair, replacement and maintenance or other characteristics or criteria approved by the Owner.

3.4.4 Expense for Modification. The CMAR proposing the substitution shall pay any modification to the Contract or work necessary as a result of the use of an approved alternate or substitute.

3.4.5 Rejection of Substitute. If any alternate or substitute is not approved, the CMAR shall use the specified material, product, equipment or system without adjustment to the Contract Sum or Contract Time.

3.5 WORK HOURS.

Except as otherwise provided in the Contract, work can be performed up to six (6) days per week, excluding Sundays, except for Holidays. Refer to Special Provision Specification section 30.02 to the

limitations of work during the Holidays. Notwithstanding the foregoing, in the event of emergency or when required to complete the work in accordance with the work Milestone Dates, if any, work may be performed on night shifts, overtime, weekends, or Holidays, provided that permission to do so has been obtained from the Owner and confirmed in writing by the Owner within 72 hours of the commencement of such work. The CMAR will not be entitled to additional compensation for work performed outside of regular working hours, except to the extent the Owner approves such compensation in advance. If so approved, such compensation shall in such event cover only the direct cost of the premium portion of the time involved and not overhead and profit. In no event will CMAR be entitled to additional compensation for work performed outside regular hours where occasioned by delays, need for repairs or other causes attributable to CMAR or its Subcontractors. Notwithstanding the foregoing and unless overtime has been requested by the Owner, the CMAR shall bear all costs of standby contractors or subcontractors, if any. In the event the CMAR performs any of the work on night shifts, overtime, weekends or holidays, the CMAR shall comply with all laws, ordinances, codes, rules, and regulations applicable thereto (including, without limitation, those relating to noise).

3.6 WARRANTY.

3.6.1 Free from Defects. The CMAR warrants to the Owner that (1) materials and equipment furnished under the Contract will be of first quality and new, (2) the work will be free from defects, and (3) the work will conform to the requirements of the Contract. Work not conforming to these requirements, including substitutions not properly approved and authorized, shall be considered defective. This warranty is in addition to and not limited by the provisions of Section 12.2.

3.6.2 Assignment of Warranties. The CMAR shall assign to the Owner, before Final Payment is due, all manufacturer's warranties relating to equipment, materials, and labor used in the work.

3.7 TAXES.

3.7.1 The CMAR shall pay any and all sales, consumer, use, transaction privilege, and similar taxes on all monies owed for the Work or portions thereof provided by the CMAR.

3.7.2 The Phoenix-Mesa Gateway Airport Authority has been certified by the State of Arizona as an eligible entity providing aviation services in a designated Military Reuse Zone (MRZ). As a result, construction-type improvements within the MRZ are eligible for exemption from State Transaction Privilege Taxes (sales taxes).

The MRZ tax exemption only applies to the State of Arizona Transaction Privilege Tax. No such exemption exists for the City of Mesa Transaction Privilege Taxes. See Section 3.7.1 above regarding payment of required taxes.

3.7.3 Owner, with the assistance of the CMAR, shall apply for any and all applicable benefits. If Owner is deemed eligible, CMAR shall then apply for a Letter of Qualification for MRZ Transaction Privilege

Tax Exemption from the Arizona Department of Revenue (ADOR) in a timely manner. Owner will issue Notice to Proceed only after such letter has been sent by CMAR to ADOR.

3.7.4 Within thirty (30) days of release of Retention by Owner to CMAR, CMAR must submit a Completion Report to the Arizona Commerce Authority, or as required by the program, to secure the tax exemption.

3.7.5 If CMAR fails to file any reports as required, after Owner has been deemed eligible under the MRZ program, CMAR will be obligated to pay any and all taxes, not the Owner.

3.8 PERMITS AND FEES.

The CMAR shall secure and pay, as applicable, for the building permit and plan check fee, and the CMAR shall secure and pay for all other permits and governmental fees, licenses and inspections necessary for proper execution and completion of the work.

3.9 ALLOWANCES.

3.9.1 Allowances Included in GMP. The CMAR shall include in the GMP all allowances stated in the Contract, if any. Such persons or entities shall supply for such amounts and items covered by allowances as the Owner may direct.

3.9.2 Costs Included in Allowances. Unless otherwise provided in the Contract:

.1 Allowances shall cover the cost to the CMAR of materials and equipment delivered at the Site and all required taxes, less applicable trade discounts, rebates, credits or other such reductions in cost made available to CMAR;

.2 CMAR's costs for unloading and handling at the Site, labor, installation costs, bonds, permits, insurance, overhead, profit and other expenses contemplated for stated allowance amounts shall be included in the Contract Sum and not in the allowances except when installation is specified as part of the allowance in the General Requirements; and

.3 Whenever costs are more than or less than allowances, the Contract Sum shall be adjusted accordingly by Change Order. The amount of the Change Order shall reflect (1) the difference between actual costs and the allowances under Section 3.9.2.1 and (2) changes in CMAR's costs under Section 3.9.2.2.

3.9.3 Selection of Products. CMAR shall, at the time of submittal of the CMAR Construction Schedule, advise the Owner of the date when the final selection and purchase of each product or system described by an allowance must be completed to avoid delaying the work.

3.10 SUPERINTENDENT.

3.10.1 On Site. The CMAR shall employ a competent superintendent and necessary assistants who shall be in attendance at the Site during performance of the work. The superintendent shall represent the CMAR, and communications given to the superintendent shall be as binding as if given to the CMAR. The CMAR shall confirm important communications in writing. If prime CMAR is working on more than one project at Phoenix-Mesa Gateway Airport a separate superintendent will be provided for this project.

3.10.2 Satisfactory to Owner. The CMAR's superintendent and staff must be satisfactory to the Owner. The CMAR, within ten (10) days of the Contract award, shall submit to the Owner the names and resumes of the superintendent and staff it proposes to use for the work. The superintendent and key members of the CMAR's staff shall not change without the prior consent of the Owner. However, the CMAR agrees to change any superintendent or key member of the CMAR's staff at the request of the Owner if in the sole opinion of the Owner such person's performance is unsatisfactory.

3.11 CMAR'S SCHEDULES.

3.11.1 CMAR Construction Schedule. The CMAR, within ten (10) calendar days after being awarded the Contract, shall meet with the Owner and prepare and submit for the Owner's information and review a construction schedule for the work ("CMAR Construction Schedule"). Such schedule (1) shall not exceed time limits current under the Contract, (2) shall be updated and submitted monthly or more often as directed by the Owner, (3) shall comply with the work Milestone Dates, and (4) shall provide for expeditious and practicable execution of the work.

3.11.2 Updated Schedules. The updated CMAR Construction Schedules shall not exceed time limits current under the Contract and shall be in accordance with, and fully coordinated with all information previously supplied to the CMAR, including the work Milestone Dates. The CMAR shall submit an updated Schedule with each monthly pay application.

The CMAR, prior to the start of the weekly progress meetings shall, if required, develop a three (3) week look-ahead schedule. The CMAR will discuss this schedule during the progress meetings. The CMAR's three (3) week look-ahead schedule shall not be changed without the approval of the Owner. Permitted revisions to the schedule will be based on the availability of inspection staff, materials testing staff and the amount of lead time provided for the requested schedule change. Should the CMAR request a change in the three (3) week look-ahead schedule to request to work night shifts, weekends or Holidays; a minimum of a 72-hour notice will be required. The Owner may not approve the requested change if the CMAR does not provide the 72-hour notice. Should the Owner approve the requested change, the CMAR shall immediately furnish a revised three (3) week look-ahead schedule to the Owner.

3.11.3 Critical Path Method. The CMAR Construction Schedule shall be a critical path method (CPM) precedence diagram network or other mutually agreed upon form of schedule with supporting printouts and a computer disk prepared on software as may be acceptable to the Owner.

3.11.4 Scheduling Cooperation. The CMAR shall cooperate with the Owner in scheduling and performing the CMAR's work to avoid conflict, delay in or interference with the work of other contractors or the construction or operations of the Owner's own forces.

3.11.5 Submittal Schedule. The CMAR, within ten (10) calendar days after being awarded the Contract, shall prepare and submit for the Owner's information and the Owner's review a schedule for submittal of Shop Drawings, Product Data, Samples, mockups, models and other submittals ("Submittal Schedule") which is coordinated with the CMAR Construction Schedule and the work Milestone Dates, if any, and which allows the Owner reasonable time for review of such submittals. The CMAR shall issue to the Owner a monthly updated Submittal Schedule that identifies both submitted and to be submitted items and the approval status of such items.

3.11.6 Conform to Most Recent Schedule. The CMAR shall conform to the most recent schedules.

3.11.7 Material Status Report. The CMAR, within ten (10) calendar days after the Notice of Award shall prepare and submit a report for materials ("Material Status Report") on a form approved by the Owner. This report shall be updated and submitted on a monthly basis or more often as directed by the Owner. Delivery dates provided on the Material Status Report shall conform to the CMAR's Submittal Schedule, the CMAR Construction Schedule and the work Milestone Dates, if any.

3.11.8 Manpower Schedule. The CMAR, within ten (10) calendar days of the Notice of Award shall prepare and submit a projected schedule for manpower ("Manpower Schedule") for the duration of the work. This schedule shall be updated and submitted on a monthly basis or more often as directed by the Owner. The Manpower Schedule shall be broken down by craft or trade. This schedule shall conform to the CMAR Construction Schedule and the work Milestone Dates, if any.

3.11.9 Compliance with Schedules. The CMAR shall be responsible for all costs resulting from its lack of diligence or failure to provide needed labor or materials to meet the requirements of the work Milestone Dates, if any, or the CMAR Construction Schedule. Owner may withhold payments to CMAR if requested to do so by CMAR's Surety, or otherwise if necessary, to protect the Owner from delay or expense occasioned by the CMAR's failure to perform under the Contract.

3.12 DOCUMENTS AND SAMPLES AT THE SITE.

3.12.1 CMAR to Maintain. The CMAR shall maintain at the Site for the Owner one record copy of the Drawings, Specifications, Change Orders, Shop Drawings, Product Data, Samples, current As-Built Drawings, and addenda or modifications in good order and marked currently to record changes and selections made during the work. These shall be available to the Owner and shall be delivered to the Owner before Final Payment is due.

3.12.2 Record Drawings. The CMAR shall keep one (1) copy of all specifications, plans, addenda, modifications, working drawings, and shop drawings at the site and in good order, and the CMAR shall annotate these to show all changes made during construction as the changes occur. When the Project is complete but before the final application for payment is submitted, the annotated set of plans showing the as-built work and any annotated working and shop drawings shall be delivered to the Owner for the Owner's record.

3.12.3 Preparation of Manuals. Before final payment is due, the CMAR shall furnish to the Owner five (5) sets of manuals containing the manufacturers' instructions for maintenance and operation of each item of equipment and apparatus furnished under the Contract and any additional data requested under the Specifications for each division of the work. The manuals shall have a table of contents, indexes and be bound in a 3-ring notebook.

3.13 SHOP DRAWINGS, PRODUCT DATA AND SAMPLES.

3.13.1 Not Part of Contract. Shop Drawings, Product Data, Samples and similar submittals are not part of the Contract. The purpose of their submittal is to demonstrate for those portions of the work for which submittals are required the way the CMAR proposes to conform to the information given and the design concept expressed in the Contract.

3.13.2 Prompt Submittal. The CMAR shall submit, in accordance with its Submittal Schedule, Shop Drawings, Product Data, Samples and similar submittals required by the Contract with such promptness as to cause no delay in the CMAR's own work or in that of any other CMAR. The CMAR shall cooperate with the Owner in the coordination of the CMAR's Shop Drawings, Product Data, Samples and similar submittals with related documents submitted by other contractors. Submittals made by the CMAR that are not required by the Contract may be returned without action.

3.13.3 Review Required. The CMAR shall perform no portion of the work requiring submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the Owner has reviewed the submittal. Such work shall be performed in accordance with reviewed submittals.

3.13.4 Representations Made by Submittals. By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the CMAR represents that the CMAR has determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the work and of the Contract.

3.13.5 Effect of Review. The CMAR shall not be relieved of responsibility for deviations from requirements of the Contract by the Owner's review of Shop Drawings, Product Data, Samples or similar submittals unless the CMAR has specifically informed the Owner in writing of such deviation at the time of submittal and the Owner has given written approval to the specific deviation. The CMAR shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by the Owner's review thereof.

3.13.6 Revisions to Submittals. The CMAR shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by the Owner on previous submittals.

3.13.7 Informational Submittals. Informational submittals upon which the Owner is not expected to take responsive action shall be so identified in the submittals.

3.13.8 Professional Certification. When professional certification of performance criteria of materials, systems or equipment is required by the Contract, the Owner shall be entitled to rely upon the accuracy and completeness of such calculations and certifications.

3.13.9 Cost for Re-submittals. The Owner shall have the right to require the CMAR to pay the additional costs of the Owner resulting from the review by the Owner of any Shop Drawings, Product Data, Samples and similar submittals which have been submitted three (3) or more times.

3.14 USE OF SITE.

3.14.1 Limits on Use. The CMAR shall confine operations at the Site to areas permitted by law, ordinances, permits, and the Owner and shall not unreasonably encumber the Site with materials or equipment. Only materials and equipment that are to be used directly in the work shall be brought to the Site. After equipment is no longer required for the work, it shall be promptly removed from the Site.

3.14.2 Owner Approval. The CMAR shall coordinate the CMAR's operations with, and secure the approval of, the Owner before using any portion of the Site.

3.14.3 Display of Signs. The CMAR shall not display on or about the Site any sign, trademark or other advertisement without the consent of the Owner.

3.14.4 Equipment Location. The CMAR's field offices, shanties, materials, storage rooms, etc., if any, will be placed in locations designated by the Owner. When it becomes necessary, due to the progress of the Project, for the CMAR to relocate the CMAR's field operations, such relocation will be accomplished in an expeditious manner with no increase in the Contract Time or GMP.

3.15 CUTTING AND PATCHING

3.15.1 CMAR Responsible. The CMAR shall be responsible for cutting, fitting or patching required to complete the work or to make its parts fit together properly with other work.

3.15.2 Consent Required. The CMAR shall not damage or endanger work performed by the Owner or other contractors by cutting, patching, excavating or otherwise altering such construction. The CMAR shall not cut or otherwise alter work performed by the Owner or other contractors except with written consent of the Owner and such other contractors. The CMAR shall not unreasonably withhold from the other contractors or the Owner the CMAR's consent to cutting or otherwise altering the work.

3.16 CLEANING UP.

3.16.1 Daily Clean Up. The CMAR shall, on a daily basis, clean up after its operation by removing rubbish, including old and surplus materials. The CMAR shall use its best efforts to prevent dust. All waste materials, rubbish and debris resulting from CMAR's work shall be removed regularly from the Site and disposed in accordance with federal, state, and local laws.

3.16.2 Final Clean Up. At the completion of the work, the CMAR shall remove all its waste materials and rubbish from and about the Site as well as all its tools, construction equipment, machinery and surplus materials. The CMAR shall professionally wash and clean all surfaces and leave the work neat and clean, ready for occupancy by the Owner, unless higher cleaning standards are required elsewhere in the Contract. The CMAR shall be responsible for the overall cleanliness and neatness of the work.

3.16.3 Failure to Clean Up. If the CMAR fails to perform regular daily cleanup or to cleanup at the completion of the work as specified, the Owner may do so or cause such work to be performed, with the cost paid for by the CMAR. The Owner shall have the right to retain such costs from payments due CMAR.

3.16.4 Clean Up Disputes. If a dispute arises between the CMAR and other contractors as to their responsibility for cleaning up as required by this Section 3.16, or elsewhere in the Contract, the Owner may clean up and equitably charge the cost thereof to the several contractors. The Owner shall have the right to retain such costs from payments due CMAR.

3.17 ACCESS TO WORK.

The CMAR shall provide the Owner and others as required access to the work in preparation and progress wherever located. The CMAR shall provide facilities for such access so that the Owner and others may perform its functions under the Contract.

3.18 ROYALTIES AND PATENTS.

3.18.1 CMAR Responsibility. The CMAR shall pay all royalties and license fees applicable to the CMAR's work. The CMAR shall indemnify, defend and hold harmless the indemnified parties from any and all suits, demands or claims for infringement of any patent rights unless a particular design, process or product is specified in the Contract. If such specification is made and the CMAR has reason to believe it is an infringement of a patent, the CMAR shall be responsible for any loss arising therefrom unless the CMAR promptly notifies the Owner before performing any portion of the work involving the patented item.

3.18.2 Effect of Review by Owner. The review by the Owner of any method of construction, invention, appliance, process, article, device or material of any kind shall not constitute an approval thereof for use by the CMAR in violation of any patent or other rights of any third party.

3.19 INDEMNIFICATION.

3.19.1 Indemnification for Claims Arising From Work. To the fullest extent permitted by law, the CMAR shall fully protect, indemnify, defend and hold harmless the indemnified parties from and against any and all liabilities, claims or demands, arising out of or resulting from, either directly or indirectly, the performance of the work or the conditions of the Site, provided that any such claim, damage, loss or expense (1) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (including the work itself) including the loss of use resulting therefrom, and (2) is caused by any act, neglect, default or omission of the CMAR or Subcontractor

or anyone for whose acts either of them may be liable. But in no event, shall CMAR be required to indemnify Owner for Owner's negligence. The CMAR's indemnity obligation shall not be construed to negate, abridge or otherwise reduce any other right or obligation of indemnity that would otherwise exist as to any party or person described in this Section 3.19.1. The CMAR at its own expense and risk shall defend all legal proceedings that may be brought against the indemnified parties on any such liability, claim or demand, and satisfy any resulting judgment that may be rendered against any of them.

3.19.2 Effect of Workers' Compensation Law on Indemnification. In any and all claims against the indemnified parties by any employee of the CMAR or Subcontractor, or anyone for whose acts any of them may be liable, the indemnification obligation under this Section 3.19 shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the CMAR or any subcontract under Workers' or Workmen's compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 4 ADMINISTRATION AND RESOLUTION OF DISPUTES

4.1 ADMINISTRATION OF THE CONTRACT.

4.1.1 Owner's Representatives. The Owner may provide administration of the Contract, and may be the Owner's representative (1) during construction, (2) until Final Payment is made, and (3) with the Owner's concurrence, from time to time during the correction period described in Section 12.2.

4.1.2 Coordination of Contractors. The Owner will provide for coordination of the activities of other contractors and of the Owner's own forces with the work of the CMAR, who shall cooperate with them. The CMAR shall participate with other contractors and the Owner in reviewing their construction schedules when directed to do so. The CMAR shall make any revisions to the CMAR Construction Schedule deemed necessary by the Owner.

4.1.3 Coordination with Work Milestone Dates. The CMAR shall schedule and coordinate its activities in accordance with the work Milestone Dates, if any. The Owner will schedule and coordinate all Contractors with respect to their use of the Site.

4.1.4 Owner's Observation of the Work. The Owner may visit the Site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the completed work and to determine in general if the work is being performed in a manner indicating that the work, when completed, will comply with the Contract. The Owner may assign an inspector to observe the work and report to the Owner on its progress. Whenever it appears that material furnished or work performed by the CMAR fails to fulfill Contract Document requirements, the inspectors may, but shall not be required to, report their observations to the Owner. The inspector may direct the attention of the CMAR to such work defects or deficiencies, but nothing the inspector observes, says, or does shall relieve the CMAR from the obligation to perform the work strictly in accordance with the Contract Documents. The inspector shall have the authority to reject defective work. The Owner shall have the authority to suspend the work until an issue can be referred to and decided by the Owner. Inspectors are not authorized to revoke, alter, enlarge, relax, or release any requirements of the Contract Documents. Inspectors shall in no case act as foremen or perform other duties for the CMAR or interfere with prosecution of the work.

4.1.5 Control of Work. The Owner will not have control over or charge of and will not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work, since these are solely the CMAR's responsibility and neither will be responsible for the CMAR's failure to carry out the work in accordance with the Contract. Neither the Owner nor the Owner will have control over or charge of or be responsible for acts or omissions of the CMAR or Subcontractors. Inspections by the Owner or designee shall not constitute control of individual workmen or the work. Direct control of workmen shall be solely the responsibility of the CMAR. Refer to General Provision Specification Section 50 for additional provisions related to Control of Work.

4.1.6 Communication with Owner. Except when direct communications have been specifically not authorized in the Contract, the CMAR shall communicate with the stakeholders through the Owner.

Communications by and with Subcontractors shall be through the CMAR. Communications by and with other contractors shall be through the Owner.

4.1.7 Authority to Reject Work. The Owner and the Inspectors shall have authority to reject work that does not comply with the Contract and to require additional testing and inspection.

4.1.8 Owner's Review of Submittals. The Owner will receive from the CMAR and review shop drawings and submittals as listed in Special Provision Specifications.

4.1.9 Limitation on Owner's Review of Submittals. The Owner will review or take other appropriate action on the CMAR's submittals such as shop drawings, working drawings, supplemental drawings, product data and samples, but only for the limited purpose of checking for general conformance with information given and the design concept expressed in the Contract. The Owner's action will be taken within two (2) weeks of the date of submittal to the Owner. Review is for general compliance with the intent of the Contract Documents only. The CMAR is responsible for dimensions, quantities, performance, details, coordination with other trades, safety and other requirements of the Contract Documents. Review does not authorize changes to the contract requirements unless specifically stated in a separate letter of change order. The Owner's review of the CMAR's submittals shall not relieve the CMAR of the obligations under the Contract. The Owner's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Owner, of any construction means, methods, techniques, sequences or procedures. The Owner's review of a specific item shall not indicate approval of an assembly of which the item is a component.

4.1.10 Inspections by the Owner. The Owner will conduct inspections to determine the dates of Substantial Completion and Final Completion, and will receive written warranties and related documents required by the Contract and assembled by the CMAR.

4.1.11 Aesthetic Decisions. The Owner's decisions on matters relating to aesthetic effect will be final.

4.1.12 Owner Representation at Site. The Owner will be represented at the Site by appropriate construction supervisory staff for the observation of the CMAR's work. The Owner will establish procedures for coordination among the Owner and other contractors as appropriate for all aspects of the project.

4.1.13 Contractors Required to Attend Meetings. The Owner will call for weekly meetings of the CMAR and Subcontractors, as Owner deems necessary. Such meetings shall be held at the Site on regular working days during regular working hours, unless otherwise directed. Attendance shall be mandatory for all parties notified to attend, and the CMAR and Subcontractors so notified are required to have a responsible member of their organizations with full decision making authority in attendance.

4.1.14 Acts or Omissions by Owner. In no event shall any act or omission on the part of the Owner relieve the CMAR from its obligation to perform the work in full compliance with the Contract.

4.2 CLAIMS AND DISPUTES.

4.2.1 Time Limits on Claims. Claims by the CMAR must be made within the number of days specified in Sections 4.2.3, 4.2.4, 4.2.5 or 4.2.6 before the occurrence of the event giving rise to such claim.

Claims shall be made by written notice. An additional claim made after the initial Claim has been implemented, by Change Order, shall not be considered.

4.2.2 Continuing Contract Performance. Pending final resolution of a claim, the CMAR shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract other than amounts in dispute.

4.2.3 Claims for Concealed or Unknown Conditions. If conditions are encountered at the Site which are (1) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract, (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent at the Site, and (3) could not have been discovered by a thorough inspection and investigation of the Site by the CMAR, the CMAR shall give written notice within 24-hours of observing such conditions to the Owner. The Owner will promptly investigate these conditions and, if they differ materially and cause an increase or decrease in the CMAR's cost of, or time required for, performance of any part of the work, may recommend to the Owner an equitable adjustment in the Contract Sum or Contract Time, or both. If the Owner, in consultation with the Owner, determines that the conditions at the Site are not materially different from those indicated in the Contract and that no change in the terms of the Contract is justified, the Owner shall so notify the CMAR in writing, stating the reasons. Claims by the CMAR in opposition to such determination shall be made within three (3) calendar days after the Owner has given notice of the decision. Failure to give notice in strict compliance with this time frame shall constitute a waiver of such claim.

4.2.4 Claims for Additional Cost.

4.2.4.1 Required Notice Prior to Execution of Work. If the CMAR wishes to make Claim for an increase in the Contract Sum, written notice as provided in Section 4.2.4.2 shall be given 24-hours before proceeding to execute the work. If the CMAR believes additional cost is involved for reasons including but not limited to (1) a changed condition unknown to all parties at the time of bid, (2) an order by the Owner to stop the work where the CMAR was not at fault, (3) a written order for a major change in the work issued by the Owner, (4) failure of payment by the Owner, or (5) other reasonable grounds, the claim shall be filed in accordance with Section 4.2.4.2.

4.2.4.2 Claims for Adjustment and Disputes. If the CMAR wishes to make a claim for an increase in the Contract Sum, the CMAR shall give the Owner written notice thereof within 24-hours before proceeding with the work for the event giving rise to such claim, in the exercise of due diligence, for the condition giving rise to such Claim.

4.2.4.3 Waiver of Claim for Additional Cost. Failure to give notice of a claim for an increase in the Contract Sum, in strict compliance with the requirements of this Section 4.2.4 shall constitute a waiver of such Claim.

4.2.4.4 Not Used

4.2.4.5 Not Used

4.2.5 Claims for Additional Time.

4.2.5.1 Estimate of Cost and Delay. If the CMAR wishes to make a Claim for an increase in the Contract Time, written notice as provided in Section 4.2.5.4 shall be given. The CMAR's claim shall include an estimate of cost and of probable effect of delay on progress of the work. In the case of a continuing delay only one claim is necessary.

4.2.5.2 Adverse Weather. The CMAR is required, in preparing the Project Schedule, to take into account all relevant weather conditions, including normal rainfall and distribution. No additional compensation shall be given for any rain-related delays or impacts on the Work or the Project Schedule. No time extension will be granted in the Project Schedule unless actual monthly inclement weather exceeds the monthly average for that identified in **Table 1** for the same month. The City of Mesa average monthly precipitation data has been provided as shown in **Table 1** below, based on data published by the Western Regional Climate Center (Jan 2016). In addition, the excessive rainfall must have actually impacted Work Activities on the Critical Path and cause delay beyond any remaining Float at the time of the rain-caused delay. The burden of documenting normal rainfall, the excessive rainfall and the impact on Critical Path activities is on the CMAR. All other provisions in the Contract Documents relating to claims, including without limitation notice requirements, apply to any claim by the CMAR for a rain delay.

The CMAR shall request an extension of time in writing within twenty-four (24) hours after the event that caused the delay.

TABLE 1 – City of Mesa Average Monthly Precipitation Data.

Month	Average Monthly Precipitation
January	0.93-inches
February	0.89-inches
March	0.91-inches
April	0.36-inches
May	0.13-inches
June	0.09-inches
July	0.92-inches
August	1.13-inches
September	0.80-inches
October	0.56-inches
November	0.66-inches
December	0.98-inches

4.2.5.3 Critical Path. No extension of time shall be granted to the CMAR for a delay caused by the Owner, any of the other contractors, or other causes beyond the CMAR's control, unless the delay affects the critical path of the Project and then only to the extent that the delay affects the critical path. No extension of time shall be granted to the CMAR to the extent that, notwithstanding the existence of any such circumstance beyond the CMAR's control, delay would have resulted in any event due to a concurrent unexcused delay by the CMAR.

4.2.5.4 Notice of Claim for Additional Time. If the CMAR contends that it is entitled to an extension of time for completion of any portion or portions of the work, the CMAR shall, within 24-hours of the

occurrence of the cause of the delay, notify the Owner in writing of its Claim, setting forth (a) the cause of the delay, (b) a description of the portion or portions of work affected by the delay, (c) the specific number of days of delay for which an extension of time is requested, and (d) all details pertaining thereto. Within three (3) calendar days after the expiration of any such delay, if such delay continues after the filing of the Claim pursuant to the foregoing sentence, the CMAR shall deliver to the Owner a subsequent written application for the specific number of days of extension of time requested.

4.2.5.5 Request for Changes in Time Resulting from Change in Work. For changes in the work which significantly affect the time and progress of the work, any time extension shall be requested no later than when the change in the work is requested.

4.2.5.6 Waiver of Claim for Additional Time. Failure to give notice of a Claim for extension of time in strict compliance with the requirements of this Section 4.2.5 shall constitute a waiver of such Claim.

4.2.6 Injury or Damage to Person or Property. If the CMAR suffers injury or damage to person or property because of an act or omission of the Owner, written notice of such injury or damage, whether or not insured, shall be given to the Owner within a reasonable time not exceeding 24-hours after first observance. The notice shall provide sufficient detail to enable the Owner to investigate the matter. If a Claim for additional cost or time related to this Claim is to be asserted, it shall be filed as provided in Section 4.2.4 or 4.2.5.

4.3 DISPUTE RESOLUTION.

4.3.1 Negotiations. If a dispute arises out of or relates to this Contract or its breach, the parties to this Contract shall endeavor to settle the dispute through direct discussions as a condition precedent to mediation or binding dispute resolution.

4.3.2 Mediation. Should the parties to this Contract be unable to resolve their dispute through direct negotiations, the parties to this Contract, upon the written request of either, shall engage in mediation, to be administered privately by a mediator and according to rules mutually agreed upon by the parties to this Contract, or, the absence of such mutual agreement, by a mediator appointed by JAMS and administered by JAMS in accordance with its then-current mediation rules. The fees and costs of mediation shall be split equally by the parties to this Contract, but subject to reallocation following binding dispute resolution.

4.3.3 Binding Dispute Resolution. Should the parties to this Contract be unable to resolve their dispute through direct negotiations or mediation, either party may, within the time limitations for bringing claims under Arizona law and this Contract, commence formal dispute resolution proceedings. Both parties to this Contract consent to binding arbitration administered by JAMS according to its then current arbitration rules, provided, however, that (i) in the event both parties agree, the arbitration may be administered privately by an arbitrator and according to rules mutually agreed upon by the parties to this Contract, and (ii) in the event any party seeks relief against the other party or against a non-party which cannot fully be granted in arbitration, by reason of non-joinder or otherwise, the parties to this Contract are excused from this arbitration

requirement and the parties to this Contract shall proceed in the state or federal courts of competent jurisdiction and located in Maricopa County, Arizona. In any arbitration or litigation, the prevailing party shall be entitled to an award of its reasonable attorneys' fees and costs as determined by the arbitrator or court as applicable.

ARTICLE 5 SUBCONTRACTORS

5.1 CONTRACTUAL RELATIONSHIP.

Nothing contained in the Contract shall create any contractual relationship between the Owner or any Subcontractor.

5.2 AWARD OF SUBCONTRACTS AND OTHER CONTRACTS FOR PORTIONS OF THE WORK.

5.2.1 Division of Work. The CMAR shall submit a Subcontractor List with his bid. The CMAR shall designate and distinguish in writing with his Bid those portions of the work to be performed by Subcontractors and the CMAR's own forces.

5.2.2 Proposed Subcontractors. The CMAR shall furnish in writing to the Owner for review by the Owner the names of persons or entities (including those who are to furnish materials or equipment) proposed for each principal portion of the work with his Bid. The proposed Subcontractors shall be established, reputable firms of recognized standing with a record of successful and satisfactory past performance with the type of work and/or items proposed to be provided or furnished by them. The CMAR shall with this information provide an experience statement or other requested information providing evidence of the Subcontractors' qualifications for the work and experience with similar projects. The Owner shall have the right to reject any proposed Subcontractor for whom they have a reasonable objection. The Owner will promptly reply to the CMAR in writing stating whether or not the Owner, after due investigation, has reasonable objection to any such proposed person or entity.

5.2.3 Opportunity to Review List of Proposed Subcontractors. No subcontracts shall be executed until the Owner have had a reasonable opportunity to review the list of Subcontractors. The CMAR shall not contract with a proposed person or entity to which the Owner has made reasonable and timely objection.

5.2.4 Reasonable Objection to Proposed Subcontractors. If the Owner has reasonable objection to a person or entity proposed by the CMAR, the CMAR shall propose another to whom the Owner has no reasonable objection. No increase in the GMP or Contract Time shall be allowed for such change.

5.2.5 Reasonable Objection to Removing Approved Subcontractors. The CMAR shall not change a Subcontractor, person or entity previously selected if the Owner makes reasonable objection to such change.

5.2.6 CMAR Responsibility Not Diminished. The right of the Owner to reject proposed Subcontractors shall not diminish the CMAR's responsibility for the performance of the CMAR's Subcontractors. The CMAR shall continue to be fully responsible to the Owner for the proper, complete and timely execution of the work, even though a portion of such work has been subcontracted to a Subcontractor acceptable to the Owner.

5.3 SUBCONTRACTUAL RELATIONS.

5.3.1 Subcontractors Subject to Contract. By an appropriate written Agreement, the CMAR shall require each Subcontractor, to the extent of the work to be performed by the Subcontractor, to be bound to the CMAR by the terms of the Contract, and to assume toward the CMAR all the obligations

and responsibilities which the CMAR assumes toward the Owner, except with respect to the ADR provisions of this Contract. The CMAR shall require its Subcontractors to enter into similar agreements with their Subcontractors, except with respect to the ADR provisions of this Contract. The CMAR shall make available to each proposed Subcontractor, prior to the execution of the subcontract, copies of this Contract to which the Subcontractor will be bound, except with respect to the ADR provisions of this Contract. Each Subcontractor shall similarly make copies of this Contract available to their Subcontractors.

5.3.2 Terms to be Included in Subcontracts. All work performed for the CMAR by a Subcontractor shall be pursuant to a written subcontractor agreement between the CMAR and the Subcontractor. The CMAR will insure that each such subcontract contains provisions requiring:

.1 that the work be performed and guaranteed in accordance with the requirements of this Contract.

.2 submission to the CMAR of Applications for Payment under each subcontract, and reasonable time to enable the CMAR to apply for payment in accordance with Article 9;

.3 that the Subcontractor pay sub-subcontractors in accordance with A.R.S. § 32-1129.02 and 34-221(E);

.4 that the Subcontractor purchase and maintain insurance and comply with all insurance provisions as required by Article 11; and

.5 that the Subcontractor consent to an assignment of the subcontract from the CMAR to the Owner in the event of termination of the CMAR by the Owner.

.6 all Federal Assurances as listed in these Specifications.

5.4 CONTINGENT ASSIGNMENT OF SUBCONTRACT.

The CMAR hereby assigns a portion of the work to the Owner any subcontracts held by the CMAR provided that:

.1 assignment is effective only after termination of the Contract by the Owner for cause pursuant to Section 14.1 and only for those subcontracts which the Owner accepts by notifying the Subcontractor in writing; and

.2 assignment is subject to the prior rights of the Surety, if any, obligated under the bond required by the Contract.

ARTICLE 6 CONSTRUCTION BY OWNER OR BY OTHER CONTRACTORS

6.1 OWNER'S RIGHT TO PERFORM CONSTRUCTION WITH OWN FORCES AND TO AWARD OTHER CONTRACTS.

The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, which include persons or entities under separate contracts involving different Engineers. The Owner further reserves the right to award other contracts in connection with other portions of the Project or other construction or operations on the Site.

6.2 MUTUAL RESPONSIBILITY.

6.2.1 Coordination with Owner's Forces. The CMAR shall afford the Owner's own forces and other Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities and shall connect and coordinate the CMAR's construction and operations with theirs as required by the Contract.

6.2.2 Defects in Other Work. If part of the CMAR's work depends upon construction or operations by the Owner's own forces or other contractors, the CMAR shall, prior to proceeding with that portion of the work, promptly report to the Owner apparent discrepancies or defects in such other construction that would render it unsuitable for proper execution and results. Failure of the CMAR to so report shall constitute an acknowledgment that the Owner's own forces or other contractors' completed or partially completed construction is fit and proper to receive the CMAR's work, except as to defects not then reasonably discoverable.

6.2.3 Damage to Other Work. The CMAR shall promptly remedy damage caused by the CMAR to the completed or partially completed Project or to the property of the Owner or other contractors.

ARTICLE 7 CHANGES IN THE WORK

7.1 CHANGE ORDERS.

7.1.1 Defined. A Change Order is a written order to the CMAR signed by the Owner authorizing a change in the (1) Work, (2) Contract Sum or (3) Contract Time. Only a Change Order may change the Contract Sum or Contract Time. The CMAR or its Subcontractors shall not perform any work for which the CMAR intends to seek additional money or an extension of time unless the CMAR obtains a written Change Order or written approval by the Owner prior to performing the work. A Change Order signed by the CMAR indicates the CMAR's agreement therewith, including without limitation, any adjustment in the Contract Sum or Contract Time. A Change Order signed by the CMAR without any indication of change in the GMP or Contract Time indicates the CMAR's agreement that there will be no change in the Contract Sum or Contract Time (collectively "Change Order").

7.1.2 Contract Sum. Adjustments to the Contract Sum shall be based on one of the following methods:

.1 mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

.2 unit prices stated in the Contract or subsequently agreed upon;

.3 actual cost of the change, as determined by payroll records and paid receipts, plus allowances for the CMAR's overhead and profit as provided for in Section 7.1.4 subject to a predetermined maximum amount, less applicable trade discounts, rebates, credits or other such reductions in cost made available to CMAR; and

.4 cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed percentage fee of 5.0% as provided in the GMP.

7.1.3 Itemized Costs. For the purpose of preparing Change Orders, the CMAR shall submit to the Owner a complete itemization of all costs required for the change in such form and detail requested by the Owner.

7.1.4 Overhead and Profit. The maximum that will be allowed for combined overhead and profit, expressed as a percentage of the actual basic cost of the change, shall be as set forth in the Contract GMP. However, the percentage for overhead and profit allowed by the Owner may be less, depending on the nature, extent or complexity of the change, where the percentage is not commensurate with the responsibility and administration involved (such as the CMAR merely processing a substantial Change Order to a Subcontractor).

7.1.5 Limitations on Costs. Costs for changes, to which overhead and profit are to be applied, shall be limited to the following:

.1 actual costs of labor, including social security, old age and unemployment insurance, fringe benefits required by agreement or custom, and workers' compensation insurance;

.2 actual costs of materials, supplies and equipment, including cost of transportation, whether incorporated or consumed, less applicable trade discounts, rebates credits or other such reductions in cost made available to CMAR;

.3 actual rental costs of machinery and equipment per ADOT schedule of equipment rates.

.4 actual costs of premiums for all bonds and insurance, permit fees, and sales, use or similar taxes related to the work; and

.5 additional costs of supervision and field office personnel directly attributable to the change.

7.1.6 Costs of Material. Material costs shall be at the actual cost to the CMAR or Subcontractor. Upon request, the CMAR, or Subcontractor, shall submit evidence to substantiate the costs. Materials shall be quoted at trade discount price, with quantity discounts also applied where the quantities warrant. Cash or prompt payment discounts need not be credited. In any proposal with material credits, the credit shall be based on the actual contract cost of the material (including trade and quantity discounts) less any charges actually incurred for handling or returning material that has been delivered. No cancellation or restocking charge will be allowed when material has not been shipped.

7.1.7 Actual Costs. Except for changes based on unit prices included in the Contract, cost changes shall be computed by determining the actual cost enumerated in Section 7.1.5 to which the combined overhead and profit may be added, and then adding the tax on materials.

7.1.8 Unit Prices. Unit prices proposed on the bid form and included in the Contract are not subject to further overhead and profit adjustments. The Contract Sum will be adjusted by the direct extension of the number of units and the unit prices.

7.1.9 Impact Costs. No claim for impact costs resulting from the performance of a Change Order will be permitted against the Owner, or any other party in privity of contract with the Owner with respect to the Project after the time the Change Order is signed by the CMAR.

7.1.10 Prompt Response to Proposed Changes. The CMAR shall promptly respond to requests for proposals for changes initiated by the Owner, and in any event shall provide a written itemized proposal in response to any such request within five (5) calendar days after such request is made to the CMAR.

7.1.11 Final Settlement. Agreement on any Change Order shall constitute a final settlement of all matters relating to the change in the work which is the subject of the Change Order, including, but not limited to, all direct and indirect costs associated with such change, any impact such change may

have on the unchanged work, and any and all adjustments to the Contract Sum or the Contract Time. In the event a Change Order increases the Contract Sum, the CMAR shall include the work covered by such Change Orders in Applications for Payment as if such work were originally part of the Contract. Agreement on any Change Order releases the Owner and any other party in privity of Contract with the Owner with respect to the Project from all claims or liabilities arising in any way in connection with, or in any way association with, such change.

7.2 CHANGE DIRECTIVE.

7.2.1 Defined. A Change Directive is a written order prepared by the Owner and signed by the Owner directing the CMAR to proceed with a change in the work when the Owner and CMAR do not agree on the extent of the work, Contract Sum, or Contract Time related to the requested change ("Change Directive"). The Change Directive shall include a proposed basis for adjustment in the Contract Sum or Time, if any adjustment is to be made.

7.2.2 Contract Sum. If the Change Directive provides for an adjustment to the Contract Sum, the adjustment shall be based on one of the following methods:

.1 mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

.2 unit prices stated in the Contract or subsequently agreed upon;

.3 cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or

.4 as provided in Section 7.1.5.

7.2.3 CMAR's Duty to Proceed with the Change in the Work. Upon receipt of a Change Directive, the CMAR shall promptly proceed with the change in the work involved and advise the Owner of the CMAR's agreement or disagreement with the method, if any, provided in the Change Directive for determining the proposed adjustment in the Contract Sum or Contract Time.

7.2.4 CMAR's Signature on Change Directive. A Change Directive signed by the CMAR indicates the agreement of the CMAR therewith, including adjustment in Contract Sum and Contract Time and the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.

7.2.5 Change Order Required for Payment. Pending final determination of cost by the Owner, amounts not in dispute in a Change Directive may be included in Applications for Payment, provided amounts not in dispute have been previously approved in a Change Order. The amount of credit to be allowed by the CMAR to the Owner for a deletion or change that results in a net decrease in the Contract Sum shall be actual net cost as determined by Sections 7.1.4 and 7.1.5 and confirmed by the Owner. When both additions and credits covering related work or substitutions are involved in a change, the allowance for overhead and profit shall be figured on the basis of net increase, if any, with respect to that change.

7.3 MINOR CHANGES IN THE WORK.

The Owner will have authority to order minor changes in the work not involving adjustment in the Contract Sum or Contract Time and not inconsistent with the intent of the Contract. Such changes shall be effected by written order issued through the Owner, and shall be binding on the CMAR. The CMAR shall carry out such written orders promptly.

7.4 PAYMENT FOR EXTRA WORK.

Extra work, performed in accordance with the subsection 40-04 of the General Provisions, titled EXTRA WORK of Section 40, will be paid for at the Contract prices or agreed prices specified in the change order or supplemental agreement authorizing the extra work. When the change order or supplemental agreement authorizing the extra work requires that it be done by force account, such force account shall be measured and paid for based on expended labor, equipment, and materials, overhead, taxes, insurance and profit, as follows:

.1 General Contractor Self-Performed Work and Subcontractor Work Markups. For overhead and profit, the actual or approved costs for equipment, material, and labor shall be marked up by twelve (12.0) percent for profit and overhead.

.2 General Contractor Markups of Subcontractor Work. The Contractor will be allowed to markup actual or approved subcontractor costs for equipment, material, and labor (excluding subcontractor overhead and profit) by seven and one half (7.5) percent.

.3 Subcontractor Markups for Self Performed Work. The subcontractor will be allowed to markup actual or approved costs for equipment, material, and labor performed by that subcontractor's own forces, shall be marked up by twelve (12.0) percent.

.4 Subcontractor Work Markups for Sub-subcontractors. The subcontractor will be allowed to markup actual or approved costs for equipment, materials and labor performed by the sub-subcontractor by five (5.0) percent.

.5 Bond. The Contractor shall be allowed to markup the cost for change order work for payment and performance bonds utilizing the same percentage used on the initial Contract and shall submit verification of this percentage from the bonding company.

.6 Insurance. The Contractor shall be allowed to markup the cost for change order work plus bond costs for property damage/public liability insurance, utilizing the same percentage used on the initial Contract. Verification, form insurance carriers, of this percentage shall be submitted with the initial change order request.

.7 Sales Tax. The Contractor shall be allowed to markup the cost for change order work plus bond and insurance cost by the current, approved sales tax rate required by the City of Mesa unless modified by the Military Re-Use Zone Tax Credit.

.8 Equipment. For all equipment, the use of which has been authorized by the Engineer, except for small tools and manual equipment, the Contractor will be paid in accordance with the latest Schedule of Equipment Rates used by the Arizona Department of Transportation.

.9 Material. For all material, accepted by the Engineer and used in the work, the Contractor will be paid the actual cost of such material. See General Conditions Section 7.1.6 for additional information.

.10 Labor. For all labor and for the foreman, when he is in direct charge of the operation, the Contractor will be paid the actual wages paid.

.11 Miscellaneous. No additional allowance will be made for general superintendence, the use of small tools, or other costs for which no specific allowance is herein provided.

.12 Comparison of Records. The Contractor and the Engineer shall compare records of the cost of force account work at the end of each day. Agreement shall be indicated by signature of the Contractor and the Engineer or their duly authorized representatives. The Contractor shall submit all required backup and supplemental information, calculations, invoices, etc., that are required to justify and support all Contractor, subcontractor and/or supplier costs.

.13 Statement. No payment will be made for work performed on a force account basis until the Contractor has furnished the Engineer with an itemized statement of the cost of such force account work detailed as follows:

- Name, classification, date, daily hours, total hours, rate and extension for each laborer and operator.
- Designation, dates, daily hours, total hours, rental rate(s), and extension for each unit of machinery and equipment.
- Quantities of materials, prices, and extensions.
- Statements shall be accompanied and supported by a receipted invoice for all materials used and transportation charges.

ARTICLE 8 TIME

8.1 PROGRESS AND COMPLETION.

8.1.1 Consent to Contract Time. The CMAR acknowledges that the Contract Time is a reasonable period for performing the work, and that it is capable of properly completing the work within the Contract Time.

8.1.2 Effective Date of Insurance. Except by agreement or instruction of the Owner in writing, the CMAR shall not knowingly prematurely commence operations on the Site or elsewhere before the effective date of insurance provided by CMAR under Section 11.2 and bonds to be furnished by the CMAR under Section 11.3.1.

8.1.3 Compliance with Contract Time. The CMAR shall carry the work forward expeditiously with adequate forces to maintain progress in accordance with the CMAR Construction Schedule and the work Milestone Dates, if any, and to complete the work within the Contract Time.

8.1.4 Notice Required Before Commencing Work. The CMAR shall give notice in writing at least forty-eight (48) hours before commencement of the work, to all persons, public utility companies, owners of property having structures or improvements in proximity to the Site, superintendents, inspectors, or those otherwise in charge of property, streets, water lines, gas lines, sewer lines, telephone cables, electric cables, railroads, or others who may be affected by CMAR's operations, in order that they may remove any obstruction for which they are responsible, and have representation on the Site to see that their property is properly protected. Such notice does not relieve the CMAR of responsibility for any damages, claims, or defense of all actions against the Owner resulting from performance of the work.

8.1.5 Maintenance of Utilities. The CMAR shall (1) protect utilities encountered whether indicated on Drawings or not; (2) exercise care in excavation around utilities; (3) restore any damaged items to the same condition (or better) as existed prior to starting the work; and (4) maintain utilities or other services indicated to be abandoned in service until new services are provided, tested, and ready for use.

8.2 DELAYS AND EXTENSIONS OF TIME.

8.2.1 Notice of Delays. The CMAR shall provide prompt written notice to the Owner of the occurrence of any delay, and in no event shall such notice be given later than (24) hours after commencement of the delay. The CMAR agrees that adjustments in the Contract Time will be permitted for a delay only to the extent such delay (1) is not caused or could not have been anticipated by the CMAR, and (2) could not have been limited or avoided by the CMAR's timely notice to its suppliers, Subcontractors, the Owner of the delay.

8.2.2 Claims for Additional Time. Claims relating to time shall be made in accordance with Section 4.2.5.

8.2.3 Recovery of Damages Not Precluded. This Section 8.2 does not preclude recovery of damages for delay by either party.

ARTICLE 9 PAYMENTS AND COMPLETION

9.1 SCHEDULE OF VALUES.

At least thirty (30) calendar days before the first Application for Payment is submitted, or at the Pre-construction conference, whichever is sooner, the CMAR shall submit to the Owner a schedule detailing values allocated to various portions of the work, prepared in such form and supported by such data to substantiate its accuracy as the Owner may require ("Schedule of Values"). The Schedule of Values shall detail labor, materials and transportation costs for each pay item. This schedule, after acceptance by the Owner, shall be used as a basis for reviewing the CMAR's Applications for Payment.

9.2 APPLICATIONS FOR PAYMENT.

9.2.1 Defined. On the 25th of each month or the next Business Day if the 25th is a legal holiday or weekend, the CMAR shall submit to the Owner an itemized application requesting payment for work completed in accordance with the Schedule of Values, substantiating the CMAR's right to payment as the Owner may require, such as copies of requisitions from Subcontractors and reflecting retainage ("Application for Payment").

9.2.3 Change Order Required for Payment. Applications for Payment may not include requests for payment on account of changes in the work which have been properly authorized by Change Directives but not yet included in executed Change Orders.

9.2.4 Disputes with Subcontractors. Applications for Payment may not include requests for payment of amounts the CMAR does not intend to pay to a Subcontractor because of a dispute or other reason.

9.2.5 Retainage. Until the work is fifty (50) percent complete, the Owner will retain ten (10) percent of the amount due the CMAR on account of progress payments. When the contract is fifty (50) percent complete, one-half of the amount retained shall be paid to the CMAR upon the CMAR's written request to Owner, provided the CMAR is making satisfactory progress on the Contract and there is no specific cause or claim requiring a greater amount to be escrow. At the time the work is fifty (50) percent complete and thereafter, five (5) percent of the amount of each progress payment will be retained unless the Owner determines that the CMAR is not making satisfactory progress or is in default under the Contract. If the Owner determines that the CMAR is not making satisfactory progress or is in default under the Contract, the Owner may continue or reinstate retainage of up to ten (10) percent for all progress payments made under the Contract subsequent to the determination. (Note that the Owner will accept Deposits in Escrow in accordance with *General Provisions* Section 90-08 PAYMENT OF WITHELD FUNDS in lieu of retention of partial payments).

9.2.6 Payment for Stored Materials. Unless otherwise provided in the Contract, payments shall be made on account of materials delivered and suitably stored at the Site for subsequent incorporation in the work. Payment will not be made for materials and equipment suitably stored off the Site. Payment for materials and equipment stored on the Site shall be conditioned upon (1) compliance by

the CMAR with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, (2) property insurance as set forth in Section 11.1.1.4.2, (3) transportation to the Site, and (4) all other requirements as listed in the General Provision Specifications, Section 90-07, Payment for Materials on Hand. The Owner will not consider requests to pay for items that are stored offsite, or off-the-shelf type materials not requiring a long lead time to order.

9.2.7 Lien Waivers. The CMAR warrants that title to all work covered by an Application for Payment will pass to the Owner no later than the time of payment. The CMAR also warrants that upon submittal of an Application for Payment all work for which payments have been received from the Owner shall be free and clear of liens, claims, security interests or encumbrances in favor of the CMAR, Subcontractors, or other persons or entities making a claim by reason of having provided labor, materials, or equipment relating to the work. All Applications for Payment shall include lien waivers executed by the CMAR and all Subcontractors providing labor, equipment or materials for the work in the form set forth in A.R.S. § 33-1008. If a Subcontractor, sub-subcontractor, vendor, supplier, manufacturer, or other entity or person supplying labor, equipment, or materials related to the work refuses to furnish a lien waiver for CMAR's Application for Payment, the CMAR shall furnish a bond satisfactory to the Owner against such possible lien prior to payment. Payment shall not be due until CMAR furnishes such bond. The CMAR shall also indemnify defend and hold harmless the indemnified parties against any lien by any Subcontractor, sub-subcontractor, vendor, supplier, manufacturer or other entity or person supplying labor, equipment, or materials related to the work.

9.2.8 Certified Payroll and Statement of Compliance. The Owner shall return the monthly progress payment application to the CMAR with no action if all certified payrolls and statement of compliance have not been submitted to the Owner through the ending date of the monthly progress payment application.

9.3 RECOMMENDATION FOR PAYMENT.

9.3.1 Timing for Payment. The Owner shall pay the Contractor within fourteen (14) days once the Contractor's Application for Payment has been approved and certified by the Owner. In addition to the amount withheld under Section 9.2.4, the Owner may withhold an additional amount from the progress payment sufficient to pay the expenses that the Owner reasonably expects to incur in correcting the deficiency set forth in the written finding. Undisputed portions of progress payments shall be paid monthly after an Application for Payment is submitted to the Owner. The Owner shall recommend payment only upon the Owner's determination that the work has progressed to the point indicated in the CMAR's Application for Payment and that to the Owner's knowledge, information and belief, the quality of the work is in accordance with the Contract.

9.3.2 Not Used.

9.3.3 Recommendation Subject to Later Evaluation. The recommendation of the Owner and the decision of the Owner to make a payment is subject to later evaluation of the work for conformance with the Contract upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract correctable prior to completion and to specific qualifications expressed by the Owner. The issuance of a recommendation for payment will not be a representation

that the Owner has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the work, (2) reviewed the CMAR's construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and material suppliers and other data requested by the Owner to substantiate the CMAR's right to payment, or (4) made examination to ascertain how or for what purpose the CMAR has used money previously paid on account of the Contract Sum.

9.4 DECISIONS TO WITHHOLD RECOMMENDATION.

9.4.1 Criteria for Withholding Recommendation. The Owner may decide not to recommend payment and may withhold a recommendation in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Owner's opinion the representations to the Owner required in Section 9.3.1 cannot be made. If the Owner is unable to recommend payment in the amount of the Application for Payment, the Owner will notify the CMAR and Owner as provided in Section 9.3.1. If the CMAR and Owner cannot agree on a revised amount, the Owner will promptly issue a recommendation for the amount for which the Owner is able to make such representations to the Owner. The Owner may also decide not to recommend payment or, because of subsequently discovered evidence or subsequent observations, may nullify the whole or a part of a recommendation previously issued, to such extent as may be necessary in the Owner's opinion to protect the Owner from loss because of:

.1 defective work not remedied;
.2 third party claims filed or reasonable evidence indicating probable filing of such claims;
.3 failure of the CMAR to make payments properly to Subcontractors or for labor, materials or equipment;
.4 reasonable evidence that the work cannot be completed for the unpaid balance of the Contract Sum;
.5 damage to the Owner or another CMAR;
.6 reasonable evidence that the work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay;
.7 persistent failure to carry out the work in accordance with the Contract;
.8 failure to submit lien waivers as required by Section 9.2.6;
.9 unsatisfactory prosecution of the work or failure to comply with the work Milestone Dates or CMAR Construction Schedule;
.10 failure to supply Shop Drawings or other required submittals;
.11 erroneous estimates by the CMAR of the value of the work performed; or
.12 the existence of a breach by the CMAR of any provision in the Contract.

9.4.2 Recommendation Made Upon Compliance. When the above reasons for withholding recommendation are removed, recommendation will be made for amounts previously withheld.

9.5 PAYMENTS TO SUBCONTRACTORS.

Prompt Payment. The CMAR agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 7 days from the receipt of each payment the

prime CMAR receives from Owner. The CMAR agrees further to return retainage payments to each subcontractor for work satisfactorily completed within 7 days from receipt of payment the CMAR receives from Owner. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the Owner.

For purposes of this section, a subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the Owner. When Owner has made an incremental acceptance of a portion of this Contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

CMAR must insert the above clause, or language with the same intent, in all subcontracts as a result of this contract.

9.5.1 No Obligation to Oversee Payments. The Owner shall not have an obligation to pay or to see to the payment of money to a Subcontractor.

9.5.2 Payment Not Acceptance of Work. A payment recommendation, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of work not in accordance with the Contract.

9.6 NOT USED.

9.7 NOT USED.

9.8 SUBSTANTIAL COMPLETION.

9.8.1 Defined. Substantial completion is the stage in the progress of the work when all of the work is complete in accordance with the Contract Documents so the Owner can occupy or utilize the project for its intended use. For the project and each construction phase to be substantially complete, the following items must be completed in accordance with the Contract Documents: **all new Work identified in the Contract Documents shall be complete and operational leaving only items identified on the final punchlist outstanding**. The project area must be open and fully operational for airport and aircraft operations use as intended and shown in the plans. The purpose of granting or acknowledging substantial completion is to stop Contract time. Granting of substantial completion will eliminate the possibility of incurring liquidated damages or additional liquidated damages beyond the substantial completion date, whichever case may apply. The date of substantial completion shall be the date the Owner receives, in writing, notification from the CMAR, that the work is substantially complete. If upon inspection the project Owner determines that the project is not substantially complete and/or not ready for inspection, the date of notification from the CMAR will become void. In the event that the Owner grants substantial completion, the CMAR shall have thirty (30) calendar days thereafter to complete punch list work, unless the Owner grants additional time in writing. In no case shall a CMAR be granted more than thirty (30) calendar days to complete punch list work, unless there are extenuating circumstances such as a labor strike or circumstance beyond the CMAR's control that would necessitate a further time extension.

In the event the CMAR fails to complete the punch list work within thirty (30) calendar days following the Contract completion date, or in the case of specialized situations within the additional time allotted by the Owner, the CMAR may be declared in default, and the Owner may order the work completed by

others. In the event of default, as described herein, the Owner shall withhold from the CMAR's final payment, an amount equal to at least twice the estimated cost of the remaining work. In addition, the Owner shall withhold the retention or securities deducted from Contract progress payments until all punch list work has been satisfactorily completed, whereupon twice the amount of the actual cost of completing the work shall be deducted from the CMAR's final payment and the remaining funds, if any, including the Contract retention, shall be released in accordance with the conditions set forth in Contract retention. The authority to determine whether the CMAR has achieved Substantial Completion is vested in the first instance with the Owner, and ultimately in the Owner, whose decision shall be final and binding.

9.8.2 Certificate of Substantial Completion. When the CMAR considers that all of the work that the Owner agrees to accept as substantially complete, the CMAR shall prepare and submit to the Owner a comprehensive list of items to be completed or corrected. The CMAR shall, within 30 calendar days, complete and correct all items on the list, unless the Owner in writing grants a longer time. Failure to include an item on such list does not alter the responsibility of the CMAR to complete all work in accordance with the Contract. Upon receipt of the list, the Owner will make an inspection to determine whether the work or designated portion thereof is substantially complete. If the inspection discloses any item, whether or not included on the list, which is not in accordance with the requirements of the Contract, the CMAR shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by the Owner. The CMAR shall then submit a request for another inspection by the Owner to determine Substantial Completion. When the work or designated portion thereof is substantially complete, the Owner will prepare a certificate which shall (1) establish the date of Substantial Completion, and (2) shall fix the time within which the CMAR shall finish all items on the list accompanying the Certificate ("Certificate of Substantial Completion"). The Certificate of Substantial Completion shall be submitted to the Owner and CMAR for their written acceptance of responsibilities assigned to them in such Certificate.

9.9 FINAL COMPLETION AND FINAL PAYMENT.

9.9.1 Final Inspection/Request for Punch List. Following the issuance of a Certificate of Substantial Completion for the work and upon completion of the work, the CMAR shall forward to the Owner a written notice that the work is ready for final inspection and acceptance and shall also forward to the Owner a final Application for Payment. Upon receipt, the Owner will promptly make such inspection. When the Owner, upon consultation, finds the work acceptable under the Contract and the Contract fully performed, the Owner will promptly issue a final recommendation stating that to the best of its knowledge, information and belief, and on the basis of its observations and inspections, the work has been completed in accordance with the Contract and that the remaining Contract Sum is due, including all retainage, less authorized deductions.

9.9.2 Conditions to Final Payment. Final Payment to the CMAR shall be made within sixty (60) days after compliance Sections 9.9.1 and 9.9.2. Neither Final Payment nor any remaining retainage shall become due until the CMAR submits to the Owner (1) an original affidavit acknowledging that all Subcontractors, material suppliers, payrolls, bills for materials and equipment, and other indebtedness connected with the work have been paid or otherwise satisfied, (2) an original certificate evidencing that insurance required by Section 11.2 is currently in effect and will not be canceled or allowed to expire until at least 30 days' prior written notice has been given to the Owner,

(3) a written statement that the CMAR knows of no reason that the insurance will not cover the period required by Section 11.1, (4) the written consent of the Surety to Final Payment, (5) Record Drawings in accordance with Paragraph 3.12.2 and the Special Provision Specifications, certified by the CMAR that the Drawings as submitted are accurate and complete, (6) five (5) sets of manuals, indexed and bound, containing the manufacturer's warranties, instructions for maintenance and operation of each item of equipment and apparatus included in the work, and (7) a full and final release and waiver of liens from the CMAR and all Subcontractors. If a Subcontractor refuses to furnish a release and waiver of liens, the CMAR shall furnish a bond satisfactory to the Owner against such possible liens prior to Final Payment. Final Payment shall not be due until the CMAR furnishes such bond. The CMAR shall also indemnify, defend, and hold harmless the indemnified parties against liens by any Subcontractor (collectively "Final Payment").

9.9.3 Delay of Final Completion. If, after Substantial Completion of the work, Final Completion thereof is materially delayed through no fault of the CMAR or by issuance of Change Orders affecting Final Completion, and the Owner so confirms, the Owner shall, upon application by the CMAR and recommendation by the Owner, and without terminating the Contract, make payment of the balance due for that portion of the work fully completed and accepted. In such case, the Owner will retain at least two times the value of the incomplete or uncorrected parts of the work, as determined by the Owner in consultation with the Owner. If the remaining balance for work not fully completed or corrected is less than retainage stipulated in the Contract the written consent of Surety to payment of the balance due for that portion of the work fully completed and accepted shall be submitted by the CMAR to the Owner prior to recommendation of such payment. Such payment shall be made under terms and conditions governing Final Payment.

9.9.4 Waiver of Claims. Acceptance of payment by the CMAR or Subcontractor shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

9.10 INSPECTION BY OWNER.

The Owner will make up to two inspections of the work for the purpose of determining Substantial Completion and up to two inspections of the work for the purpose of determining Final Completion. If, after making either of such inspections, the Owner determines that the work is not substantially complete or finally complete (as the case may be), the CMAR shall be responsible for the costs of the Owner incurred in the performance of additional inspections for the purpose of determining Substantial Completion or Final Completion (as the case may be).

ARTICLE 10 PROTECTION OF PERSONS AND PROPERTY

10.1 SAFETY PRECAUTIONS AND PROGRAMS.

10.1.1 CMAR's Responsibility. The CMAR shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work. The CMAR shall have a written safety program for the work and shall submit two (2) copies of this safety program to the Owner within fifteen (15) days of the Contract award.

10.1.2 Remedy for Failure to Maintain Safety. If the CMAR fails to maintain the safety precautions required by law, the Owner may take action as necessary and charge the CMAR therefore. However, the failure of the Owner to take any such action shall not relieve the CMAR of its obligations set forth in Section 10.1.1. If the CMAR fails to maintain the safety precautions required by law, the CMAR shall, if directed by the Owner, remove all forces from the Project without cost or loss to the Owner until the CMAR complies with such safety precautions.

10.1.3 Environmental Hazards. In the event the CMAR encounters on the Site material reasonably believed to contain asbestos, polychlorinated biphenyls (PCBs), petroleum based substances, or hazardous substances (as defined or regulated under any federal, state, or local law), the CMAR shall (1) immediately suspend the work in the area affected and report the condition to the Owner by the fastest available means and follow up in writing; and (2) take reasonable precautions to prevent or contain the movement, spread or disturbance of such materials. The work in the affected area shall not thereafter be resumed except by written consent of the Owner. In no event shall the Owner have any responsibility for any substance or material that is brought to the Site by the CMAR, any Subcontractor, any material-men or supplier or any entity for which any of them is responsible. The CMAR agrees not to use any fill or other materials to be incorporated into the work that are hazardous, toxic or comprised of any items that are hazardous or toxic. CMAR shall indemnify, defend, and hold harmless, the indemnified parties from and against any and all liabilities, claims, or demands (including attorney's fees and costs) arising out of or resulting from the presence, uncovering, release of suspected or confirmed asbestos, polychlorinated biphenyls (PCBs), petroleum based substances, or hazardous substances to the extent caused by the negligence of, or failure to comply with the terms and conditions of the Contract by, the CMAR, any Subcontractor, any material-men or supplier, or any entity for whom any of them is responsible.

10.1.4 Duty to Suspend the Work. If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance encountered on the Site by the CMAR, the CMAR shall, upon recognizing the condition, immediately suspend the work in the affected area and report the condition to the Owner in writing.

10.2 SAFETY OF PERSONS AND PROPERTY.

10.2.1 CMAR's Duty to Protect. The CMAR shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

.1 employees on the work and other persons who may be affected thereby;

.2 the work and materials and equipment to be incorporated therein, whether in storage on or off the Site, under care, custody or control of the CMAR or the CMAR's Subcontractors;

.3 other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, Taxiways, Runways, Aprons, structures and utilities not designated for removal, relocation or replacement in the course of construction; and

.4 construction or operations by the Owner or other Contractors.

10.2.2 Compliance with Safety Notices and Laws. The CMAR shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

10.2.3 Safety Precautions. The CMAR shall erect and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities. The CMAR shall also be responsible, at the CMAR's sole cost and expense, for all measures necessary to protect any property adjacent to the Site and improvements thereon. The CMAR shall promptly repair any damage to such property or improvements. Without limiting the indemnity provisions elsewhere in the Contract, the CMAR shall indemnify, defend and hold harmless the indemnified parties from and against any and all liabilities, claims or demands (including attorney's fees and costs) arising out of or resulting from damage to such property or improvements.

10.2.4 Use of Explosives or Hazardous Materials. When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the work, the CMAR shall exercise utmost care and carry on such activities under supervision of properly qualified personnel. When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary, the CMAR shall secure the Owner's approval prior to their storage or use.

10.2.5 CMAR Liability. The CMAR shall promptly remedy damage and loss to any property caused in whole or in part by the CMAR or Subcontractor or anyone or by anyone for whose acts they may be liable.

10.2.6 Safety Representative. The CMAR shall designate a responsible member of the CMAR's organization at the Site whose duty shall be the prevention of accidents. This person shall be the CMAR's superintendent unless otherwise designated by the CMAR in writing to the Owner. This person shall conduct regular safety meetings for employees of the CMAR and Subcontractors engaged in construction activities at the Site.

10.2.7 Loading Precautions. The CMAR shall not load or permit to be loaded any part of the Project including the structure or the Site in such a way as to cause damage to or endanger the Project or any persons or entities at the Site during or after completion of the work.

10.2.8 Accident Reports. The CMAR shall immediately report in writing to the Owner all accidents arising out of or in connection with the work which cause death, personal injury or property damage, giving full details and statements of any witnesses. In addition, if death or serious personal injuries or serious damages are caused, immediately report the accident by telephone or messenger to the Owner.

10.2.9 Safety Cooperation. The CMAR and its Subcontractors shall cooperate fully with all interested persons on accident prevention.

10.2.10 Risk of Loss. The CMAR shall be fully responsible for, and shall bear the full risk of loss of, all the CMAR's tools, equipment, materials, and other property, notwithstanding any security measures for the Site provided by the Owner.

10.3 EMERGENCIES.

In an emergency affecting safety of persons or property, the CMAR shall act, at the CMAR's discretion, to prevent threatened damage, injury or loss. Additional compensation or extension of time claimed by the CMAR on account of an emergency shall be determined as provided in Section 4.2 and Article 7.

ARTICLE 11 INSURANCE

11.1 CMAR-PROVIDED INSURANCE.

11.1.1 Scope. The CMAR and Subcontractors shall purchase from and maintain in a company or companies authorized to do business in Arizona insurance specified in the CMAR Contract as well as the following insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the CMAR, his agents, representatives, employees, or subcontractors. Such insurance shall be effective for the duration of the contract and for ten (10) years thereafter.

11.1.1.1 Workers' Compensation. Workers' Compensation insurance with statutory limits as required by the State of Arizona and Employer's Liability insurance with limits of no less than $1,000,000 per occurrence for bodily injury, $1,000,000 per employee for bodily injury by disease and a $1,000,000 policy limit for bodily injury by disease. Such Workers' Compensation insurance will cover obligations imposed by federal and state statutes having jurisdiction of CMAR's or Subcontractors' employees while performing work at locations other than the Site and shall cover CMAR's employees after Substantial Completion of the work and Subcontractor's employees after Subcontractor has substantially performed its Subcontract.

11.1.1.2 Commercial General Liability. Commercial General Liability insurance, with a combined single limit of $5,000,000 per occurrence and in the annual aggregate. Such insurance shall include coverage for Bodily Injury, Property Damage, Personal Injury, Broad Form Property Damage (including Completed Operations), Contractual, Contractors' Protective, Products and Completed Operations, and the hazards commonly referred to as "XCU." This insurance shall also be required for work performed at locations other than the Site, shall cover CMAR after Substantial Completion of the work, and shall cover Subcontractor after Subcontractor has substantially performed its Subcontract. Further, this insurance shall contain a severability of interest provision.

11.1.1.3 Business Automobile Liability. Business Automobile Liability insurance, with a combined single limit no less than $1,000,000 combined single limit per accident for Bodily Injury and Property Damage with respect to all vehicles used in performance of the work on or off the Site, whether owned, non-owned, leased, hired, assigned, or borrowed. If CMAR, his agents, representative, employees, or subcontractors are operating in the Air Operations Area (airside), the combined single limit for Bodily Injury and Property Damage shall be no less than $5,000,000 per accident.

11.1.1.4 Property Insurance. All-risk property insurance covering damages and/or destruction of all materials which will become part of the work until such materials are delivered to the Site.

11.1.2 Additional Insured. The policies required by Sections 11.1.1.2 & 11.1.1.3 herein shall be endorsed to include Phoenix-Mesa Gateway Airport Authority as the Owner and their officers' employees, successors and assigns as additional insured, shall provide that the insurance shall be primary, and shall stipulate that any insurance carried by the additional insured and their officers or employees, shall not be contributory insurance.

11.1.3 Waiver. CMAR and Subcontractors waive all rights of recovery against Phoenix-Mesa Gateway Airport Authority, their directors, officers, employees, successors and assigns, and shall

require its insurers to waive all rights of subrogation against Phoenix-Mesa Gateway Airport Authority and the Owner, and all of their respective directors, officers, employees, successors and assigns.

11.1.4 CMAR to Provide Certificates of Insurance. Before commencing any work under this Contract, CMAR shall furnish Owner with Certificates of Insurance issued by CMAR's and Subcontractors' insurer(s), as necessary, in a form acceptable to Owner, as evidence that the insurance policies, including all applicable endorsements, providing the coverage, conditions, and limits required by this Section 11.1, are in full force and effect. Owner has the right to request and receive promptly from the CMAR certified copies of any or all of such insurance policies and/or endorsements. Owner will not be obligated, however, to review such certificates, policies, and endorsements, or to advise CMAR of any deficiencies in such documents, and such receipts shall not relieve CMAR from, or be deemed a waiver of, Owner's right to insist on strict fulfillment of CMAR's obligations hereunder.

11.1.5 Cancellation Notice. CMAR's and Subcontractors' Certificates of Insurance shall identify the Contract number and shall provide for not less than thirty (30) days' advance notice of any cancellation, termination, or alteration **affecting the minimum required amounts of insurance (Addendum No. 2, 5.11.17).** All such certificates, endorsements, and notices shall be sent to the following:

Owner:	Phoenix-Mesa Gateway Airport Authority
Address:	5835 South Sossaman Road Mesa, Arizona 85212-6014
Attn:	Mr. Bob Draper, PE – Engineering and Facilities Director

11.1.6 Costs of CMAR-Provided Insurance. Costs of all insurance coverage required by Section 11.1 are the sole responsibility of the CMAR.

11.1.7 Cancellation of Insurance. In the event that any insurance coverage for the work is cancelled or terminated, CMAR agrees to replace the insurance without any lapse of protection to Owner.

11.1.8 Contractual Obligations. The stipulation of insurance coverage in this Section 11.1 shall not be construed to limit, qualify, or waive any liabilities or obligations of CMAR, assumed or otherwise, under this Contract.

11.1.9 Notice of Loss. All physical loss or damage to the work or to Owner property must be reported immediately to the Owner.

11.1.10 Higher Limits. If the CMAR maintains higher limits than the minimums stated in this Article 11, Owner requires, and shall be entitled to, coverage for the higher limits maintained by the CMAR. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to Owner.

11.1.11 Deductibles and Self-Insured Retentions. Any deductibles or self-insured retentions must be declared to, and approved by, Owner. At the option of Owner, either: the CMAR shall reduce or

eliminate such deductibles; or the CMAR shall provide a financial guarantee satisfactory to the Owner guaranteeing payment of losses and related investigations, claim administration, and defense expenses.

11.1.12 Claims Made Policy. No Claims Made policies, other than Professional Liability, Cyber Liability or Pollution Legal Liability (if applicable to this Contract), will be accepted. For policies that provide claims made coverage:

.1 The retroactive date must be shown, and this date must be before the execution date of the contract or the beginning of contract work.

.2 Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract work.

.3 If coverage is canceled or non-renewed, and not replaced with another claims made policy with a retroactive date prior to the contract effective date, or start of work date, the CMAR must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.

.4 A copy of the claims reporting requirements must be submitted to the Owner for review.

.5 If the services involve lead-based paint or asbestos identification/remediation, the CMAR's Pollution Legal Liability policy shall not contain lead-based paint or asbestos exclusions. If the services involve mold identification/remediation, the CMAR's Pollution Legal Liability policy shall not contain a mold exclusion, and the definition of Pollution shall include microbial matter, including mold.

11.1.13 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best rating of no less than "A-" unless otherwise acceptable to the Owner.

11.1.14 Subcontractors. CMAR shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and CMAR shall ensure that Owner is an additional insured on insurance from subcontractors.

11.1.15 Special Risks or Circumstances. Owner reserves the right to modify these requirements, including limits, based on the nature of the risk, scope of services, prior experience, insurer, coverage, or other special circumstances

11.2 PERFORMANCE AND PAYMENT BONDS.

11.2.1 A.R.S. § 34-222. CMAR shall obtain, at its own expense, performance and payment bonds as required by A.R.S. § 34-222. CMAR warrants that its payment and performance bonds fully comply with A.R.S. § 34-222.

11.2.2 Copies to Potential Beneficiaries. Upon the request of any person or entity appearing to be a potential beneficiary of bonds covering payment of obligations arising under the Contract, the CMAR shall promptly furnish a copy of the bonds or shall permit a copy to be made.

ARTICLE 12 UNCOVERING AND CORRECTION OF WORK

12.1 UNCOVERING OF WORK.

12.1.1 Duty to Uncover Work. If a portion of the work is covered contrary to the Owner's request or to requirements specifically expressed in the Contract, it must, if required in writing by the Owner, be uncovered for its observation and be replaced at the CMAR's expense without change in the Contract Time.

12.1.2 Cost of Uncovering Work. If the CMAR covers a portion of the work that the Owner has not specifically requested to observe prior to its being covered, the Owner may request to see such work and the CMAR shall uncover it. If such work is in accordance with the Contract, an appropriate Change Order shall charge costs of uncovering and replacement to the Owner. If such work is not in accordance with the Contract, the CMAR shall pay such costs.

12.2 CORRECTION OF WORK.

12.2.1 Duty to Correct Rejected Work. The CMAR shall promptly correct all work rejected by the Owner as defective or failing to conform to the requirements of the Contract, whether observed before or after Substantial Completion of the work and whether or not fabricated, installed or completed. The CMAR shall bear costs of correcting such rejected work including the replacement or repair of other work affected by CMAR's performance, including additional testing and inspection and compensation for the Owner's services made necessary thereby. Work rejected before Final Completion shall be corrected prior to Final Payment

12.2.2 One-Year Duty to Correct Work. Without limiting the Owner's statutory, common law, or rights arising out of this Agreement, if within one year after the date of Substantial Completion of the work, or within such longer period of time as may be prescribed by law or by the terms of any applicable special warranty or guarantee required by the Contract, any of the work is found to be defective or not in accordance with the requirements of the Contract, the CMAR shall correct it promptly after receipt of written notice from the Owner to do so. The CMAR shall bear all costs of correcting such defective work, including replacement or repair of other work affected by the defect and any other damages resulting from such defect. The obligations under this Section 12.2.2 shall survive Final Payment to the CMAR.

12.2.3 Removal of Nonconforming Work. The CMAR shall remove from the Site, at no additional cost, portions of the work that are not in accordance with the requirements of the Contract and are neither corrected by the CMAR nor accepted by the Owner.

12.2.4 Owner's Right to Correct Nonconforming Work. If the CMAR fails to correct nonconforming work within a reasonable time, the Owner may correct it in accordance with Section 2.4. If the CMAR does not proceed with correction of such nonconforming work within a reasonable time fixed by written notice from the Owner, the Owner may remove it and store the salvable materials or equipment at the CMAR's expense. If the CMAR does not pay costs of such removal and storage within ten (10) days thereafter, the Owner may sell such materials and equipment at auction or at private sale and shall account for the net proceeds thereof, after deducting the costs that should have

been borne by the CMAR, including compensation for the Owner's additional services and expenses made necessary thereby. If such proceeds of sale do not cover costs that the CMAR should have borne, the Contract Sum shall be reduced by the deficiency. If payments then or thereafter due the CMAR are not sufficient to cover such amount, the CMAR shall pay the difference to the Owner.

12.2.5 Cost of Correcting Other Affected Work. The CMAR shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the Owner, CMAR or other contractors caused by the CMAR's correction or removal of work which is defective or not in accordance with the requirements of the Contract.

12.2.6 Warranty Periods. Nothing contained in this Section 12.2 shall be construed to establish a period of limitation with respect to obligations that the CMAR has under the Contract or at law, including Section 3.6. Establishment of the time period of one year as described in Section 12.2.2, or such longer period of time as may be prescribed by law or by the terms of any warranty required by the Contract, relates only to the specific obligation of the CMAR to correct the work, and has no relationship to the time within which the obligation to comply with the Contract may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the CMAR's liability with respect to the CMAR's obligations.

12.3 ACCEPTANCE OF NONCONFORMING WORK.

If the Owner prefers to accept work that is not in accordance with the requirements of the Contract, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable for the difference in value together with an allowance for damage or loss of quality. Such adjustment shall be effected whether or not Final Payment has been made.

ARTICLE 13 MISCELLANEOUS PROVISIONS

13.1 GOVERNING LAW.

The laws of the State of Arizona shall govern the Contract.

13.2 SUCCESSORS AND ASSIGNS.

The Owner and CMAR respectively bind themselves, their successors, assigns and legal representatives to the other party hereto and to successors, assigns and legal representatives of such other party in respect to covenants, agreements and obligations contained in the Contract.

13.3 THIRD PARTY BENEFICIARY.

This Contract is not intended to benefit any third party.

13.4 NOTICES.

13.4.1 Methods of Notice. All notices under this Contract shall be in writing and sent to the appropriate person and will be deemed properly given if sent by (i) personal delivery (hand carried), (ii) facsimile transmission, (iii) express mail, postage prepaid, return receipt requested, or (iv) certified United States mail, postage prepaid, return receipt requested, addressed as follows:

Owner: Phoenix-Mesa Gateway Airport Authority
5835 South Sossaman Road
Mesa, Arizona 85212-6014
Attn: Mr. Bob Draper, PE – Engineering and Facilities Director

With a copy to:

CMAR: Nesbitt Contracting Co., Inc.
100 S. Price Rd.
Tempe, AZ 85281
Attn: Mr. Joe Chavez

Each party may by notice to the others specify a different address for subsequent notice purposes. Notice is effective on the date of actual receipt or three (3) days after the date of mailing, whichever is earlier.

13.4.2 Authorized Persons. Written notice shall be deemed to have been duly served if delivered in person to the individual or a member of the firm or entity or to an officer of the corporation for which

it was intended, or if delivered at or sent by registered or certified mail to the last business address known to the party giving notice.

13.5 RIGHTS AND REMEDIES.

13.5.1 Legal Rights. Duties and obligations imposed by the Contract and rights and remedies available thereunder shall be in addition to and not a limitation of duties, obligations, rights and remedies otherwise imposed or available by law. This clause shall not be interpreted to permit the CMAR to recover any costs or damages that are otherwise limited, prohibited or waived by the Contract.

13.5.2 No Waiver. No action or failure to act by the Owner or CMAR shall constitute a waiver of a right or duty afforded them under the Contract, nor shall such action or failure to act constitute approval of or acquiescence in a breach thereunder, except as may be specifically agreed in writing.

13.6 TESTS AND INSPECTIONS.

13.6.1 CMAR's Duty to Administer. Tests, inspections and approvals of portions of the work required by the Contract or by laws, ordinances, rules, regulations or orders of public authorities having jurisdiction shall be made at the appropriate time. Unless otherwise provided, the CMAR shall make arrangements for such tests, inspections and approvals with an independent testing laboratory selected and paid for by the Owner or with the appropriate public authority. The CMAR shall give the Owner timely notice of when and where tests and inspections are to be made so the Owner may observe such procedures. Any of the work requiring testing, inspection or approval which is covered or otherwise made inaccessible without the consent of those requiring or making the inspection or test shall be uncovered or made accessible by and at the expense of the CMAR. CMAR shall be responsible for any testing, retesting or other charges resulting from CMAR's failure to perform.

13.6.2 Additional Testing and Inspection. If the Owner or public authorities having jurisdiction determine that portions of the work require additional testing, inspection or approval not included under Section 13.6.1, the Owner will, upon written authorization from the Owner, instruct the CMAR to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Owner, and the CMAR shall give timely notice to the Owner of when and where tests and inspections are to be made so the Owner may observe such procedures. The Owner shall bear such costs except as provided in Section 13.6.3.

13.6.3 Costs for Testing and Inspection. If such procedures for testing, inspection or approval under Sections 13.6.1 and 13.6.2 reveal failure of the portions of the work to comply with requirements established by the Contract, the CMAR shall bear all costs made necessary by such failure including those of repeated procedures and compensation for the Owner's services and expenses.

13.6.4 Certificates. Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract, be secured by the CMAR and promptly delivered to the Owner.

13.6.5 Prompt Testing and Inspection. Tests or inspections conducted pursuant to the Contract shall be made promptly to avoid unreasonable delay in the work.

13.7 MANUFACTURERS' NAMEPLATES.

Manufacturers' nameplates shall not be permanently attached to ornamental and miscellaneous metal work, doors frames, millwork, and similar factory fabricated products on which, in the Owner's opinion, the nameplates would be objectionable, if visible after installation of the work. This provision does not apply to underwriters' labels when required, or to the manufacturers' name and rating plates on mechanical and electrical equipment.

13.8 MANUFACTURERS' INSTRUCTIONS.

All manufactured articles, materials, and equipment shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the manufacturers' written specifications or instructions. In case of any difference or conflicts between the requirements of the manufacturers' instructions or specifications and the technical sections of the Specifications, the CMAR shall promptly report any such difference or conflict to the Owner.

13.8.1 Equal Employment Opportunity. CMAR shall comply with the terms of: (1) Section 503, Public Law 93-112, and the regulations at 41 CFR Part 60-741; (2) Executive Order 11246, as amended, and the regulations at 41 CFR Parts 60-1 through 60-60; and (3) Section 402, Public Law 93-508, and the regulations at 41 CFR Part 60-250.

13.8.2 Compliance with State Executive Order No. 99-4 (Amending 75-5). The CMAR shall comply at all times with Arizona Executive Order 75-5, as amended by Executive Order 99-4.

13.9 HEADINGS.

The subject headings of this Agreement are included for purposes of convenience only and shall not affect the construction or interpretation of any provision of this Agreement.

13.10 INTERPRETATION.

In the interest of brevity, the Contract frequently omits modifying words such as "all" and "any" and articles such as "the" and "an" but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement. To the extent permitted by the context in which used, (a) words in the singular member shall include the plural, words in the masculine gender shall include the feminine and neuter, and vice versa; and (b) (unless specified otherwise) references to paragraphs, sections or articles are to paragraphs, sections or articles of the General Conditions to the CMAR Contract.

13.11 RECORDS RETENTION AND INSPECTION.

The CMAR shall make available at its office all CMAR books, documents, papers, drawings and records relating to this Project for audit, inspection, excerpt, reproduction, or transcription by any authorized representative of the Owner, Contractors and subcontractors' books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating

to this Contract, including the papers of any CMAR and Subcontractor employee who works on the Contract, to ensure that the CMAR and its Subcontractor are complying with the warranty under Item 48 below (all the foregoing hereinafter referred to as the Records), shall be open to inspection and subject to audit and/or reproduction during normal working hours to the extent necessary to adequately permit (1) evaluation and verification of any invoices, payments or claims based on Contractors and its Subcontractors actual costs (including direct and indirect costs and overhead allocations) incurred, or units expended directly in the performance of work under this Contract and (2) evaluation of the Contractors and Subcontractors compliance with the Arizona employer sanctions laws referenced Paragraph 3.3.4 of the General Conditions. To the extent necessary for the audit of Records as set forth in this Section, CMAR and it Subcontractors hereby waive any rights to keep such Records confidential. For the purpose of evaluating or verifying such actual or claimed costs or units expended, the Authority shall have access to said Records from the effective date of this Contract for the duration of the work and until five years after the date of final payment by the Authority to CMAR pursuant to this Contract. The Authority shall have access, during normal working hours, to all necessary CMAR and Subcontractor facilities, and shall be provided adequate and appropriate workspace, in order to conduct audits in compliance with the provisions of this subsection. The Authority shall give CMAR or Subcontractor reasonable advance notice of intended audits. CMAR shall require its Subcontractors to comply with the provisions of this subsection by insertion of the requirements hereof in any subcontract pursuant to this Contract. If any information required of the CMAR or a Subcontractor is in the exclusive possession of another who fails or refuses to furnish this information, the CMAR shall so certify to the Owner, FAA, ADOT Aeronautics, EDA and the Office of Inspector General, or the Comptroller General of the United States, and shall set forth what efforts it has made to obtain the information.

13.12 FOREIGN NATIONALS.

The CMAR certifies that: (1) it is not owned or controlled by one or more citizens or nationals of a foreign country included in the list of countries that discriminate against U.S. firms published by the office of the United States Trade Representative; (2) it has not knowingly entered into any contract or subcontract for this project with a CMAR that is a citizen or national of a foreign country on the list or a CMAR that is owned or controlled directly or indirectly by one or more citizens or nationals of a foreign country on the list; and (3) it has not procured any product or subcontracted for the supply of any product for use on the project that is produced in a foreign country on the list. Unless the restrictions of this clause have been waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to a CMAR or subcontractor who is unable to certify to the above. If the CMAR knowingly procures or subcontracts for the supply of any product or service of a foreign country on this list for use on the Project, the FAA through the Owner may cancel the contract at no cost to the Owner. Further, the CMAR agrees that it will incorporate this provision for certification without modification in each contract and in all lower tier subcontracts

related to the Project. Making false, fictitious or fraudulent certification may render the maker subject to prosecution under Title 18, U.S.C. Section 1001.

13.12.1 CMAR Certification. Pursuant to Arizona Revised Statutes Section 35-397, the CMAR certifies that it does not have a scrutinized business operation in either Sudan or Iran.

13.13 WORK HOURS AND SAFETY STANDARDS.

With regard to the employment of mechanics and laborers, the CMAR shall comply with sections 103 and 107 of the Contract work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR Part 5).

13.14 ENVIRONMENTAL COMPLIANCE.

13.14.1 The CMAR shall comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR Part 15).

13.14.2 At its sole cost and expense, the CMAR shall at all times promptly observe and comply with all applicable federal, state, and local laws, regulations, and standards and in particular with those provisions concerning the environment and pollution control and abatement, waste minimization and pollution prevention that are, or may become, applicable to the work.

13.14.3 The CMAR shall be solely responsible for obtaining at its cost and expense any environmental permits required for its operations under this Contract, independent of any existing Owner permits.

13.14.4 To the fullest extent permitted by law, the CMAR shall save, indemnify, defend and hold harmless the Owner, and the federal government from any damages, costs, expenses, liabilities, fines, or penalties resulting from or relating to releases, discharges, emissions, spills, storage, disposal, or any other acts or omissions by the CMAR, its officers, agents, employees, or contractors, or the invitee of any of them under federal, state or local environmental laws. This provision shall survive the termination or completion of this Contract, and the CMAR's obligations under this Section 13.22.4 shall apply whenever the Owner or the federal government incurs costs or liability for the CMAR's actions of the types described in this Section 13.22.

13.14.5 The Owner's rights under this Contract specifically include the right to inspect upon reasonable notice the Site for compliance with environmental, safety, and occupational health laws and regulations. The CMAR shall have no claim against the Owner or any officer, agent, employee, or CMAR of the Owner on account of any entries.

13.14.6 The CMAR shall comply with all federal, state, and local laws, regulations, and other requirements relating to occupational safety and health, the handling and storage of hazardous materials, and the proper generation, handling, accumulation, treatment, storage, disposal, and transportation of hazardous wastes. The CMAR shall be liable for the cost of proper disposal of any hazardous waste it generates or for that waste generated by Subcontractors or assigns in the event

of failure by a Subcontractor or assign to properly dispose of such wastes. Where required, the Owner may act on behalf of CMAR to dispose of CMAR-derived waste, sign manifests on behalf of CMAR, and assign such disposal to CMAR's EPA ID number. CMAR shall repay the Owner the costs and fees for doing so.

13.14.7 The CMAR shall strictly comply with the hazardous waste permit requirements under RCRA, or its state equivalent, and any other applicable laws, rules, or regulations.

13.14.8 The CMAR shall not conduct any subsurface excavation, digging, drilling, or other disturbance of the surface without Owner's prior written approval.

13.15 ENERGY CONSERVATION AND POLICY ACT COMPLIANCE.

This agreement is executed in recognition that the CMAR and Subcontractor agree to comply with mandatory standards and policies relating to energy efficiency as contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201et seq).

ARTICLE 14 TERMINATION OR SUSPENSION OF THE CONTRACT

14.1 TERMINATION BY THE OWNER FOR CAUSE.

14.1.1 Criteria for Termination for Cause. The Owner may terminate the Contract if the CMAR:

.1 more than once refuses or fails to supply enough properly skilled workers or proper materials;

.2 fails to make payment to Subcontractors for materials or labor in accordance with the respective agreements between the CMAR and the Subcontractors;

.3 disregards laws, ordinances, or rules, regulations or orders of a public authority having jurisdiction;

.4 breaches any provision of the Contract;

.5 fails to furnish the Owner with assurances satisfactory to the Owner evidencing the CMAR's ability to complete the work in compliance with all the requirements of the Contract; or

.6 fails after commencement of the work to proceed diligently and continuously with the construction and completion of the work for more than seven (7) days, except as permitted under the Contract.

14.1.2 Effect of Termination for Cause. When any of the above conditions exist, the Owner, after consultation with and certification by the Owner that sufficient cause exists to justify such action, may without prejudice to any other rights or remedies of the Owner and after giving the CMAR and the CMAR's Surety, if any, ten (10) days' written notice, terminate the Contract and may, subject to any prior rights of the Surety:

.1 take possession of the Site and all materials, equipment, tools, and construction equipment machinery thereon owned by the CMAR;

.2 accept assignment of subcontracts pursuant to Section 5.4; and

.3 finish the work by whatever reasonable method the Owner may deem expedient.

14.1.3 CMAR Right to Receive Payment. When the Owner terminates the Contract for one of the reasons stated in Section 14.1.1, the CMAR shall not be entitled to receive further payment until the work is finished.

14.1.4 Costs for Finishing Work. If the unpaid balance of the Contract Sum exceeds costs of finishing the work, including compensation for Owner's services and expenses made necessary thereby, such excess shall be paid to the CMAR. If such costs exceed the unpaid balance, the CMAR shall pay the difference to the Owner. The amount to be paid to the CMAR or Owner, as the case may be, shall,

upon application, be certified by the Owner, and this obligation for payment shall survive termination of the Contract.

14.2 SUSPENSION BY THE OWNER FOR CONVENIENCE.

14.2.1 Owner's Right. The Owner may, without cause, order the CMAR in writing to suspend, delay or interrupt the work in whole or in part for such period of time as the Owner may determine.

14.2.2 Adjustment in Contract Sum. An adjustment shall be made for increases in the cost of performance of the Contract, including profit on the increased cost of performance, caused by suspension, delay or interruption. No adjustment shall be made to the extent:

.1 that performance is, was or would have been so suspended, delayed or interrupted by another cause for which the CMAR is responsible; or

.2 that an equitable adjustment is made or denied under another provision of this Contract.

14.2.3 Method for Adjustment in Contract Sum. Adjustments made in the cost of performance may have a mutually agreed fixed or percentage fee.

14.3 OWNER'S TERMINATION FOR CONVENIENCE.

14.3.1 Effect of Termination for Convenience. The Owner reserves the right to terminate the Contract for convenience and without cause even if CMAR has not failed to perform any part of the Contract. Termination of the work hereunder shall be effected by written notice to the CMAR. Upon receipt of such notice, CMAR shall, unless the notice otherwise directs:

.1 Immediately discontinue the work and the placing of all orders and subcontracts in connection with this Contract;

.2 Immediately cancel all of the existing orders and subcontracts made hereunder;

.3 Immediately transfer to the Owner all materials, supplies, work in progress, appliances, facilities, machinery and tools acquired by the CMAR in connection with the performance of the Contract, and take such action as may be necessary or as the Owner may direct for protection and preservation of the work relating to this Contract; and

.4 Deliver all plans, Drawings, Specifications and other necessary information to the Owner.

14.3.2 CMAR's Exclusive Remedy. If the Owner terminates the Contract for convenience, the following shall be the CMAR's exclusive remedy:

.1 Reimbursement of all actual expenditures and costs approved by the Owner as having been made or incurred in performing the work;

.2 Reimbursement of expenditures made and costs incurred with the Owner's prior written approval in settling or discharging outstanding commitments entered into by the CMAR in performing the Contract; and

.3 Payment of profit, in so far as profit is realized hereunder, of an amount equal to the estimated profit on the entire Contract at the time of termination multiplied by the percentage of completion of the work. In no event shall the CMAR be entitled to anticipated fees or profits on work not required to be performed.

14.3.3 Warranties, Guarantees and Indemnified Parties to Remain in Effect. All obligations of the CMAR under the Contract with respect to completion of the work, including but not limited to all warranties, guarantees and indemnities, shall apply to all work completed or substantially completed by the CMAR prior to a convenience termination by the Owner. Notwithstanding the above, any convenience termination by the Owner or payments to the CMAR shall be without prejudice to any claims or legal remedies that the Owner may have against the CMAR for any cause, including liquidated damages assessed for CMAR's delays to any work Milestone Dates.

14.3.4 Conversion of Termination for Cause to Termination for Convenience. Upon a determination that a termination of this Contract other than a termination for convenience under this Article was wrongful or improper for any reason, such termination shall automatically be deemed converted to a convenience termination under this Article 14, and the CMAR's remedy for such wrongful termination shall be limited to the recoveries specified under Section 14.3.2.

14.3.5 Remedy Limited to Damages. In the event that CMAR is terminated, whether for cause or convenience, the CMAR's sole remedy shall be for damages. In no event shall the CMAR be entitled to reinstatement or other equitable relief from a court or through alternative dispute resolution.

14.3.6 Notice that Contract is Subject to Termination Provisions of A.R.S. § 38-511. The parties acknowledge, and as required by law, notice is hereby given that this Contract is subject to A.R.S. § 38-511.

Part 1 – General Contract Provisions

Section 10 Definition of Terms

When the following terms are used in these specifications, in the contract, or in any documents or other instruments pertaining to construction where these specifications govern, the intent and meaning shall be defined as follows:

Paragraph Number	Term	Definition
10-01	**AASHTO**	The American Association of State Highway and Transportation Officials.
10-02	**Access Road**	The right-of-way, the roadway and all improvements constructed thereon connecting the airport to a public roadway.
10-03	**Advertisement**	A public announcement, as required by local law, inviting bids for work to be performed and materials to be furnished.
10-04	**Airport**	Airport means an area of land or water which is used or intended to be used for the landing and takeoff of aircraft; an appurtenant area used or intended to be used for airport buildings or other airport facilities or rights of way; airport buildings and facilities located in any of these areas, and a heliport.
10-05	**Airport Improvement Program (AIP)**	A grant-in-aid program, administered by the Federal Aviation Administration (FAA).
10-06	**Air Operations Area (AOA)**	The term air operations area (AOA) shall mean any area of the airport used or intended to be used for the landing, takeoff, or surface maneuvering of aircraft. An air operation area shall include such paved or unpaved areas that are used or intended to be used for the unobstructed movement of aircraft in addition to its associated runway, taxiway, or apron.
10-07	**Apron**	Area where aircraft are parked, unloaded or loaded, fueled and/or serviced.
10-08	**ASTM International (ASTM)**	Formerly known as the American Society for Testing and Materials (ASTM).

Paragraph Number	Term	Definition
10-09	**Award**	The Owner's notice to the successful bidder of the acceptance of the submitted bid.
10-10	**Bidder**	Any individual, partnership, firm, or corporation, acting directly or through a duly authorized representative, who submits a GMP/proposal for the work contemplated.
10-11	**Building Area**	An area on the airport to be used, considered, or intended to be used for airport buildings or other airport facilities or rights-of-way together with all airport buildings and facilities located thereon.
10-12	**Calendar Day**	Every day shown on the calendar.
10-13	**Certificate of Analysis (COA)**	The COA is the manufacturer's Certificate of Compliance (COC) including all applicable test results required by the specifications.
10-14	**Certificate of Compliance (COC)**	The manufacturer's certification stating that materials or assemblies furnished fully comply with the requirements of the contract. The certificate shall be signed by the manufacturer's authorized representative.
10-15	**Change Order**	A written order to the Contractor covering changes in the plans, specifications, or proposal quantities and establishing the basis of payment and contract time adjustment, if any, for work within the scope of the contract and necessary to complete the project.
10-16	**Contract**	A written agreement between the Owner and the Contractor that establishes the obligations of the parties including but not limited to performance of work, furnishing of labor, equipment and materials and the basis of payment. The awarded contract includes but may not be limited to: Advertisement, Contract form, Proposal, Performance bond, payment bond, General provisions, certifications and representations, Technical Specifications, Plans, Supplemental Provisions, standards incorporated by reference and issued addenda.
10-17	**Contract Item (Pay Item)**	A specific unit of work for which a price is provided in the contract.
10-18	**Contract Time**	The number of calendar days or working days, stated in the proposal, allowed for completion of the contract, including authorized time extensions. If a calendar date of

Paragraph Number	Term	Definition
		completion is stated in the proposal, in lieu of a number of calendar or working days, the contract shall be completed by that date.
10-19	**Contractor**	The individual, partnership, firm, or corporation primarily liable for the acceptable performance of the work contracted and for the payment of all legal debts pertaining to the work who acts directly or through lawful agents or employees to complete the contract work. All references to Contractor shall also mean Construction Manager At Risk (CMAR).
10-20	**Contractors Quality Control (QC) Facilities**	The Contractor's QC facilities in accordance with the Contractor Quality Control Program (CQCP).
10-21	**Contractor Quality Control Program (CQCP)**	Details the methods and procedures that will be taken to assure that all materials and completed construction required by the contract conform to contract plans, technical specifications and other requirements, whether manufactured by the Contractor, or procured from subcontractors or vendors.
10-22	**Control Strip**	A demonstration by the Contractor that the materials, equipment, and construction processes results in a product meeting the requirements of the specification.
10-23	**Construction Safety and Phasing Plan (CSPP)**	The overall plan for safety and phasing of a construction project developed by the airport operator, or developed by the airport operator's consultant and approved by the airport operator. It is included in the invitation for bids and becomes part of the project specifications.
10-24	**Drainage System**	The system of pipes, ditches, and structures by which surface or subsurface waters are collected and conducted from the airport area.
10-25	**Engineer**	The individual, partnership, firm, or corporation duly authorized by the Owner to be responsible for engineering, inspection, and/or observation of the contract work and acting directly or through an authorized representative.
10-26	**Equipment**	All machinery, together with the necessary supplies for upkeep and maintenance; and all tools and apparatus necessary for the proper construction and acceptable completion of the work.

Paragraph Number	Term	Definition
10-27	**Extra Work**	An item of work not provided for in the awarded contract as previously modified by change order or supplemental agreement, but which is found by the Owner's Engineer or Resident Project Representative (RPR) to be necessary to complete the work within the intended scope of the contract as previously modified.
10-28	**FAA**	The Federal Aviation Administration. When used to designate a person, FAA shall mean the Administrator or their duly authorized representative.
10-29	**Federal Specifications**	The federal specifications and standards, commercial item descriptions, and supplements, amendments, and indices prepared and issued by the General Services Administration.
10-30	**Force Account**	**a.** Contract Force Account - A method of payment that addresses extra work performed by the Contractor on a time and material basis. **b.** Owner Force Account - Work performed for the project by the Owner's employees.
10-31	**Intention of Terms**	Whenever, in these specifications or on the plans, the words "directed," "required," "permitted," "ordered," "designated," "prescribed," or words of like import are used, it shall be understood that the direction, requirement, permission, order, designation, or prescription of the Engineer and/or Resident Project Representative (RPR) is intended; and similarly, the words "approved," "acceptable," "satisfactory," or words of like import, shall mean approved by, or acceptable to, or satisfactory to the Engineer and/or RPR, subject in each case to the final determination of the Owner. Any reference to a specific requirement of a numbered paragraph of the contract specifications or a cited standard shall be interpreted to include all general requirements of the entire section, specification item, or cited standard that may be pertinent to such specific reference.
10-32	**Lighting**	A system of fixtures providing or controlling the light sources used on or near the airport or within the airport buildings. The field lighting includes all luminous signals, markers, floodlights, and illuminating devices used on or near the airport or to aid in the operation of aircraft landing at, taking off from, or taxiing on the airport surface.

Paragraph Number	Term	Definition
10-33	**Major and Minor Contract Items**	A major contract item shall be any item that is listed in the proposal, the total cost of which is equal to or greater than 20% of the total amount of the award contract. All other items shall be considered minor contract items.
10-34	**Materials**	Any substance specified for use in the construction of the contract work.
10-35	**Modification of Standards (MOS)**	Any deviation from standard specifications applicable to material and construction methods in accordance with FAA Order 5300.1.
10-36	**Notice to Proceed (NTP)**	A written notice to the Contractor to begin the actual contract work on a previously agreed to date. If applicable, the Notice to Proceed shall state the date on which the contract time begins.
10-37	**Owner**	The term "Owner" shall mean the party of the first part or the contracting agency signatory to the contract. Where the term "Owner" is capitalized in this document, it shall mean airport Sponsor only. The Owner for this project is **Phoenix Mesa Gateway Airport Authority.**
10-38	Passenger Facility Charge (PFC)	Per 14 Code of Federal Regulations (CFR) Part 158 and 49 United States Code (USC) § 40117, a PFC is a charge imposed by a public agency on passengers enplaned at a commercial service airport it controls.
10-39	**Pavement Structure**	The combined surface course, base course(s), and subbase course(s), if any, considered as a single unit.
10-40	**Payment bond**	The approved form of security furnished by the Contractor and their own surety as a guaranty that the Contractor will pay in full all bills and accounts for materials and labor used in the construction of the work.
10-41	**Performance bond**	The approved form of security furnished by the Contractor and their own surety as a guaranty that the Contractor will complete the work in accordance with the terms of the contract.
10-42	**Plans**	The official drawings or exact reproductions which show the location, character, dimensions and details of the airport and the work to be done and which are to be

Paragraph Number	Term	Definition
		considered as a part of the contract, supplementary to the specifications. Plans may also be referred to as 'contract drawings.'
10-43	**Project**	The agreed scope of work for accomplishing specific airport development with respect to a particular airport.
10-44	**Proposal**	The written offer of the bidder (when submitted on the approved proposal form) to perform the contemplated work and furnish the necessary materials in accordance with the provisions of the plans and specifications.
10-45	**Proposal guaranty**	The security furnished with a proposal to guarantee that the bidder will enter into a contract if their own proposal is accepted by the Owner.
10-46	**Quality Assurance (QA)**	Owner's responsibility to assure that construction work completed complies with specifications for payment.
10-47	**Quality Control (QC)**	Contractor's responsibility to control material(s) and construction processes to complete construction in accordance with project specifications.
10-48	**Quality Assurance (QA) Inspector**	An authorized representative of the Engineer and/or Resident Project Representative (RPR) assigned to make all necessary inspections, observations, tests, and/or observation of tests of the work performed or being performed, or of the materials furnished or being furnished by the Contractor.
10-49	**Quality Assurance (QA) Laboratory**	The official quality assurance testing laboratories of the Owner or such other laboratories as may be designated by the Engineer or RPR. May also be referred to as Engineer's, Owner's, or QA Laboratory.
10-50	**Resident Project Representative (RPR)**	The individual, partnership, firm, or corporation duly authorized by the Owner to be responsible for all necessary inspections, observations, tests, and/or observations of tests of the contract work performed or being performed, or of the materials furnished or being furnished by the Contractor, and acting directly or through an authorized representative.
10-51	**Runway**	The area on the airport prepared for the landing and takeoff of aircraft.

Paragraph Number	Term	Definition
10-52	**Runway Safety Area (RSA)**	A defined surface surrounding the runway prepared or suitable for reducing the risk of damage to aircraft. See the construction safety and phasing plan (CSPP) for limits of the RSA.
10-53	**Safety Plan Compliance Document (SPCD)**	Details how the Contractor will comply with the CSPP.
10-54	**Specifications**	A part of the contract containing the written directions and requirements for completing the contract work. Standards for specifying materials or testing which are cited in the contract specifications by reference shall have the same force and effect as if included in the contract physically.
10-55	**Sponsor**	A Sponsor is defined in 49 USC § 47102(24) as a public agency that submits to the FAA for an AIP grant; or a private Owner of a public-use airport that submits to the FAA an application for an AIP grant for the airport.
10-56	**Structures**	Airport facilities such as bridges; culverts; catch basins, inlets, retaining walls, cribbing; storm and sanitary sewer lines; water lines; underdrains; electrical ducts, manholes, handholes, lighting fixtures and bases; transformers; navigational aids; buildings; vaults; and, other manmade features of the airport that may be encountered in the work and not otherwise classified herein.
10-57	**Subgrade**	The soil that forms the pavement foundation.
10-58	**Superintendent**	The Contractor's executive representative who is present on the work during progress, authorized to receive and fulfill instructions from the RPR, and who shall supervise and direct the construction.
10-59	**Supplemental Agreement**	A written agreement between the Contractor and the Owner that establishes the basis of payment and contract time adjustment, if any, for the work affected by the supplemental agreement. A supplemental agreement is required if: (1) in scope work would increase or decrease the total amount of the awarded contract by more than 25%: (2) in scope work would increase or decrease the total of any major contract item by more than 25%; (3) work that is not within the scope of the originally awarded contract; or (4) adding or deleting of a major contract item.

Paragraph Number	Term	Definition
10-60	**Surety**	The corporation, partnership, or individual, other than the Contractor, executing payment or performance bonds that are furnished to the Owner by the Contractor.
10-61	**Taxilane**	A taxiway designed for low speed movement of aircraft between aircraft parking areas and terminal areas.
10-62	**Taxiway**	The portion of the air operations area of an airport that has been designated by competent airport authority for movement of aircraft to and from the airport's runways, aircraft parking areas, and terminal areas.
10-63	**Taxiway/Taxilane Safety Area (TSA)**	A defined surface alongside the taxiway prepared or suitable for reducing the risk of damage to an aircraft. See the construction safety and phasing plan (CSPP) for limits of the TSA.
10-64	**Work**	The furnishing of all labor, materials, tools, equipment, and incidentals necessary or convenient to the Contractor's performance of all duties and obligations imposed by the contract, plans, and specifications.
10-65	**Working day**	A working day shall be any day other than a legal holiday, Saturday, or Sunday on which the normal working forces of the Contractor may proceed with regular work for at least six (6) hours toward completion of the contract. When work is suspended for causes beyond the Contractor's control, it will not be counted as a working day. Saturdays, Sundays and holidays on which the Contractor's forces engage in regular work will be considered as working days.
10-66	**Owner Defined terms**	None

END OF SECTION 10

Section 20 Proposal Requirements and Conditions

20-01 Advertisement (Notice to CMARS). N/A

20-02 Qualification of CMARs. **N/A**

20-03 Contents of proposal forms. N/A

20-04 Issuance of proposal forms. **N/A**

20-05 Interpretation of estimated proposal quantities. The Owner does not expressly, or by implication, agree that the actual quantities involved will correspond exactly therewith; nor shall the CMAR plead misunderstanding or deception because of such estimates of quantities, or of the character, location, or other conditions pertaining to the work. Payment to the Contractor will be made only for the actual quantities of work performed or materials furnished in accordance with the plans, specifications and Guaranteed Maximum Price (GMP). It is understood that the quantities may be increased or decreased as provided in the Section 40, paragraph 40-02, Alteration of Work and Quantities, without in any way invalidating the unit bid prices.

20-06 Examination of plans, specifications, and site. The CMAR is expected to carefully examine the site of the proposed work, the proposal, plans, specifications, and contract forms. CMARs shall satisfy themselves to the character, quality, and quantities of work to be performed, materials to be furnished, and to the requirements of the proposed contract. The submission of a proposal shall be prima facie evidence that the CMAR has made such examination and is satisfied to the conditions to be encountered in performing the work and the requirements of the proposed contract, plans, and specifications.

Boring logs and other records of subsurface investigations and tests are available for inspection of CMARs. It is understood and agreed that such subsurface information, whether included in the plans, specifications, or otherwise made available to the CMAR, was obtained and is intended for the Owner's design and estimating purposes only. Such information has been made available for the convenience of all CMARs. It is further understood and agreed that each CMAR is solely responsible for all assumptions, deductions, or conclusions which the CMAR may make or obtain from their own examination of the boring logs and other records of subsurface investigations and tests that are furnished by the Owner.

20-07 Preparation of proposal. The CMAR shall submit their proposal on the forms furnished or approved by the Owner. All blank spaces in the proposal forms, unless explicitly stated otherwise, must be correctly filled in where indicated for each and every item for which a quantity is given. The CMAR shall state the price (written in ink or typed) both in words and numerals which they propose for each pay item furnished in the proposal. In case of conflict between words and numerals, the words, unless obviously incorrect, shall govern.

The CMAR shall correctly sign the proposal in ink. If the proposal is made by an individual, their name and post office address must be shown. If made by a partnership, the name and post office address of each member of the partnership must be shown. If made by a corporation, the person signing the proposal shall give the name of the state where the corporation was chartered and the name, titles, and business address of the president, secretary, and the treasurer. Anyone signing a proposal as an agent shall file evidence of their authority to do so and that the signature is binding upon the firm or corporation.

20-08 Responsive and responsible CMAR. It is the Owner's responsibility to decide if the exceptions taken by a CMAR to the solicitation are material or not and the extent of deviation it is willing to accept.

A responsible CMAR has the ability to perform successfully under the terms and conditions of a proposed procurement, as defined in 2 CFR § 200.318(h). This includes such matters as Contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

20-09 Irregular proposals. Proposals shall be considered irregular for the following reasons:

a. If the proposal is on a form other than that furnished or approved by the Owner, or if the Owner's form is altered, or if any part of the proposal form is detached.

b. If there are unauthorized additions, conditional or alternate pay items, or irregularities of any kind that make the proposal incomplete, indefinite, or otherwise ambiguous.

c. If the proposal does not contain a unit price for each pay item listed in the proposal, except in the case of authorized alternate pay items, for which the CMAR is not required to furnish a unit price.

d. If the proposal contains unit prices that are obviously unbalanced.

e. If the proposal is not accompanied by the proposal guaranty specified by the Owner.

f. If the applicable Disadvantaged Business Enterprise information is incomplete.

The Owner reserves the right to reject any irregular proposal and the right to waive technicalities if such waiver is in the best interest of the Owner and conforms to local laws and ordinances pertaining to the letting of construction contracts.

20-10 Bid guarantee. N/A

20-11 Delivery of proposal. N/A

20-12 Withdrawal or revision of proposals. **N/A**

20-13 Public opening of proposals. **N/A**

20-14 Disqualification of CMARs. A CMAR shall be considered disqualified for any of the following reasons:

a. Evidence of collusion. CMARs participating in such collusion shall be disqualified as CMARs for any future work of the Owner until any such participating CMAR has been reinstated by the Owner as a qualified CMAR.

20-15 Discrepancies and Omissions. A CMAR who discovers discrepancies or omissions with the project bid documents shall immediately notify the Owner's Engineer of the matter.

Any interpretation of the project bid documents by the Owner's Engineer will be by written notification issued by the Owner. The Owner will not consider any instructions, clarifications or interpretations of the documents in any manner other than written notification.

END OF SECTION 20

Section 30 Award and Execution of Contract

30-01 Consideration of proposals. If a CMAR's proposal contains a discrepancy between unit bid prices written in words and unit bid prices written in numbers, the unit bid price written in words shall govern.

Until the award of a contract is made, the Owner reserves the right to reject a CMAR's proposal for any of the following reasons:

a. If the proposal is irregular as specified in Section 20, paragraph 20-09, *Irregular Proposals*.

b. If the CMAR is disqualified for any of the reasons specified Section 20, paragraph 20-14, *Disqualification of CMARs*.

In addition, until the award of a contract is made, the Owner reserves the right to reject any or all proposals, waive technicalities, if such waiver is in the best interest of the Owner and is in conformance with applicable state and local laws or regulations pertaining to the letting of construction contracts; advertise for new proposals; or proceed with the work otherwise. All such actions shall promote the Owner's best interests.

30-02 Award of contract. If the Owner elects to proceed with an award of contract, the Owner will make award to the responsible CMAR whose bid, conforming with all the material terms and conditions of the bid documents, is the best value.

30-03 Cancellation of award. The Owner reserves the right to cancel the award without liability to the CMAR at any time before a contract has been fully executed by all parties and is approved by the Owner in accordance with paragraph 30-07 *Approval of Contract*.

30-04 Return of proposal guaranty. **N/A**

30-05 Requirements of contract bonds. At the time of the execution of the contract, the successful CMAR shall furnish the Owner a surety bond or bonds that have been fully executed by the CMAR and the surety guaranteeing the performance of the work and the payment of all legal debts that may be incurred by reason of the Contractor's performance of the work. The surety and the form of the bond or bonds shall be acceptable to the Owner. Unless otherwise specified in this subsection, the surety bond or bonds shall be in a sum equal to the full amount of the contract.

30-06 Execution of contract. The successful CMAR shall sign (execute) the necessary agreements for entering into the contract and return the signed contract to the Owner, along with the fully executed surety bond or bonds specified in paragraph 30-05, *Requirements of Contract Bonds*, of this section, within **15** calendar days from the date mailed or otherwise delivered to the successful CMAR.

30-07 Approval of contract. Upon receipt of the contract and contract bond or bonds that have been executed by the successful CMAR, the Owner shall complete the execution of the contract in accordance with local laws or ordinances, and return the fully executed contract to the Contractor. Delivery of the fully executed contract to the Contractor shall constitute the Owner's approval to be bound by the successful CMAR's proposal and the terms of the contract.

30-08 Failure to execute contract. Failure of the successful CMAR to execute the contract and furnish an acceptable surety bond or bonds within the period specified in paragraph 30-06, *Execution of Contract,* of this section shall be just cause for cancellation of the award and forfeiture of the proposal guaranty, not as a penalty, but as liquidated damages to the Owner.

END OF SECTION 30

Section 40 Scope of Work

40-01 Intent of contract. The intent of the contract is to provide for construction and completion, in every detail, of the work described. It is further intended that the Contractor shall furnish all labor, materials, equipment, tools, transportation, and supplies required to complete the work in accordance with the plans, specifications, and terms of the contract.

40-02 Alteration of work and quantities. The Owner reserves the right to make such changes in quantities and work as may be necessary or desirable to complete, in a satisfactory manner, the original intended work. Unless otherwise specified in the Contract, the Owner's Engineer or RPR shall be and is hereby authorized to make, in writing, such in-scope alterations in the work and variation of quantities as may be necessary to complete the work, provided such action does not represent a significant change in the character of the work.

For purpose of this section, a significant change in character of work means: any change that is outside the current contract scope of work; any change (increase or decrease) in the total contract cost by more than 25%; or any change in the total cost of a major contract item by more than 25%.

Work alterations and quantity variances that do not meet the definition of significant change in character of work shall not invalidate the contract nor release the surety. Contractor agrees to accept payment for such work alterations and quantity variances in accordance with Section 90, paragraph 90-03, *Compensation for Altered Quantities*.

Should the value of altered work or quantity variance meet the criteria for significant change in character of work, such altered work and quantity variance shall be covered by a supplemental agreement. Supplemental agreements shall also require consent of the Contractor's surety and separate performance and payment bonds. If the Owner and the Contractor are unable to agree on a unit adjustment for any contract item that requires a supplemental agreement, the Owner reserves the right to terminate the contract with respect to the item and make other arrangements for its completion.

40-03 Omitted items. The Owner, the Owner's Engineer or the RPR may provide written notice to the Contractor to omit from the work any contract item that does not meet the definition of major contract item. Major contract items may be omitted by a supplemental agreement. Such omission of contract items shall not invalidate any other contract provision or requirement.

Should a contract item be omitted or otherwise ordered to be non-performed, the Contractor shall be paid for all work performed toward completion of such item prior to the date of the order to omit such item. Payment for work performed shall be in accordance with Section 90, paragraph 90-04, *Payment for Omitted Items*.

40-04 Extra work. Should acceptable completion of the contract require the Contractor to perform an item of work not provided for in the awarded contract as previously modified by change order or supplemental agreement, Owner may issue a Change Order to cover the necessary extra work. Change orders for extra work shall contain agreed unit prices for performing the change order work in accordance with the requirements specified in the order, and shall contain any adjustment to the contract time that, in the RPR's opinion, is necessary for completion of the extra work.

When determined by the RPR to be in the Owner's best interest, the RPR may order the Contractor to proceed with extra work as provided in Section 90, paragraph 90-05, *Payment for Extra Work*. Extra work that is necessary for acceptable completion of the project, but is not within the general scope of the work covered by the original contract shall be covered by a supplemental agreement as defined in Section 10, paragraph 10-59, *Supplemental Agreement*.

If extra work is essential to maintaining the project critical path, RPR may order the Contractor to commence the extra work under a Time and Material contract method. Once sufficient detail is available to establish the level of effort necessary for the extra work, the Owner shall initiate a change order or supplemental agreement to cover the extra work.

Any claim for payment of extra work that is not covered by written agreement (change order or supplemental agreement) shall be rejected by the Owner.

40-05 Maintenance of traffic. It is the explicit intention of the contract that the safety of aircraft, as well as the Contractor's equipment and personnel, is the most important consideration. The Contractor shall maintain traffic in the manner detailed in the Construction Safety and Phasing Plan (CSPP).

a. It is understood and agreed that the Contractor shall provide for the free and unobstructed movement of aircraft in the air operations areas (AOAs) of the airport with respect to their own operations and the operations of all subcontractors as specified in Section 80, paragraph 80-04, *Limitation of Operations*. It is further understood and agreed that the Contractor shall provide for the uninterrupted operation of visual and electronic signals (including power supplies thereto) used in the guidance of aircraft while operating to, from, and upon the airport as specified in Section 70, paragraph 70-15, *Contractor's Responsibility for Utility Service and Facilities of Others*.

b. With respect to their own operations and the operations of all subcontractors, the Contractor shall provide marking, lighting, and other acceptable means of identifying personnel, equipment, vehicles, storage areas, and any work area or condition that may be hazardous to the operation of aircraft, fire-rescue equipment, or maintenance vehicles at the airport in accordance with the construction safety and phasing plan (CSPP) and the safety plan compliance document (SPCD).

c. When the contract requires the maintenance of an existing road, street, or highway during the Contractor's performance of work that is otherwise provided for in the contract, plans, and specifications, the Contractor shall keep the road, street, or highway open to all traffic and shall provide maintenance as may be required to accommodate traffic. The Contractor, at their expense, shall be responsible for the repair to equal or better than preconstruction conditions of any damage caused by the Contractor's equipment and personnel. The Contractor shall furnish, erect, and maintain barricades, warning signs, flag person, and other traffic control devices in reasonable conformity with the Manual on Uniform Traffic Control Devices (MUTCD) (http://mutcd.fhwa.dot.gov/), unless otherwise specified. The Contractor shall also construct and maintain in a safe condition any temporary connections necessary for ingress to and egress from abutting property or intersecting roads, streets or highways

40-06 Removal of existing structures. All existing structures encountered within the established lines, grades, or grading sections shall be removed by the Contractor, unless such existing structures are otherwise specified to be relocated, adjusted up or down, salvaged, abandoned in place, reused in the work or to remain in place. The cost of removing such existing structures shall not be measured or paid for directly but shall be included in the various contract items.

Should the Contractor encounter an existing structure (above or below ground) in the work for which the disposition is not indicated on the plans, the Resident Project Representative (RPR) shall be notified prior

to disturbing such structure. The disposition of existing structures so encountered shall be immediately determined by the RPR in accordance with the provisions of the contract.

Except as provided in Section 40, paragraph 40-07, *Rights in and Use of Materials Found in the Work*, it is intended that all existing materials or structures that may be encountered (within the lines, grades, or grading sections established for completion of the work) shall be used in the work as otherwise provided for in the contract and shall remain the property of the Owner when so used in the work.

40-07 Rights in and use of materials found in the work. Should the Contractor encounter any material such as (but not restricted to) sand, stone, gravel, slag, or concrete slabs within the established lines, grades, or grading sections, the use of which is intended by the terms of the contract to be embankment, the Contractor may at their own option either:

a. Use such material in another contract item, providing such use is approved by the RPR and is in conformance with the contract specifications applicable to such use; or,

b. Remove such material from the site, upon written approval of the RPR; or

c. Use such material for the Contractor's own temporary construction on site; or,

d. Use such material as intended by the terms of the contract.

Should the Contractor wish to exercise option a., b., or c., the Contractor shall request the RPR's approval in advance of such use.

Should the RPR approve the Contractor's request to exercise option a., b., or c., the Contractor shall be paid for the excavation or removal of such material at the applicable contract price. The Contractor shall replace, at their expense, such removed or excavated material with an agreed equal volume of material that is acceptable for use in constructing embankment, backfills, or otherwise to the extent that such replacement material is needed to complete the contract work. The Contractor shall not be charged for use of such material used in the work or removed from the site.

Should the RPR approve the Contractor's exercise of option a., the Contractor shall be paid, at the applicable contract price, for furnishing and installing such material in accordance with requirements of the contract item in which the material is used.

It is understood and agreed that the Contractor shall make no claim for delays by reason of their own exercise of option a., b., or c.

The Contractor shall not excavate, remove, or otherwise disturb any material, structure, or part of a structure which is located outside the lines, grades, or grading sections established for the work, except where such excavation or removal is provided for in the contract, plans, or specifications.

40-08 Final cleanup. Upon completion of the work and before acceptance and final payment will be made, the Contractor shall remove from the site all machinery, equipment, surplus and discarded materials, rubbish, temporary structures, and stumps or portions of trees. The Contractor shall cut all brush and woods within the limits indicated and shall leave the site in a neat and presentable condition. Material cleared from the site and deposited on adjacent property will not be considered as having been disposed of satisfactorily, unless the Contractor has obtained the written permission of the property Owner.

END OF SECTION 40

Section 50 Control of Work

50-01 Authority of the Resident Project Representative (RPR). The RPR has final authority regarding the interpretation of project specification requirements. The RPR shall determine acceptability of the quality of materials furnished, method of performance of work performed, and the manner and rate of performance of the work. The RPR does not have the authority to accept work that does not conform to specification requirements.

50-02 Conformity with plans and specifications. All work and all materials furnished shall be in reasonably close conformity with the lines, grades, grading sections, cross-sections, dimensions, material requirements, and testing requirements that are specified (including specified tolerances) in the contract, plans, or specifications.

If the RPR finds the materials furnished, work performed, or the finished product not within reasonably close conformity with the plans and specifications, but that the portion of the work affected will, in their opinion, result in a finished product having a level of safety, economy, durability, and workmanship acceptable to the Owner, the RPR will advise the Owner of their determination that the affected work be accepted and remain in place. The RPR will document the determination and recommend to the Owner a basis of acceptance that will provide for an adjustment in the contract price for the affected portion of the work. Changes in the contract price must be covered by contract change order or supplemental agreement as applicable.

If the RPR finds the materials furnished, work performed, or the finished product are not in reasonably close conformity with the plans and specifications and have resulted in an unacceptable finished product, the affected work or materials shall be removed and replaced or otherwise corrected by and at the expense of the Contractor in accordance with the RPR's written orders.

The term "reasonably close conformity" shall not be construed as waiving the Contractor's responsibility to complete the work in accordance with the contract, plans, and specifications. The term shall not be construed as waiving the RPR's responsibility to insist on strict compliance with the requirements of the contract, plans, and specifications during the Contractor's execution of the work, when, in the RPR's opinion, such compliance is essential to provide an acceptable finished portion of the work.

The term "reasonably close conformity" is also intended to provide the RPR with the authority, after consultation with the Sponsor and FAA, to use sound engineering judgment in their determinations to accept work that is not in strict conformity, but will provide a finished product equal to or better than that required by the requirements of the contract, plans and specifications.

The RPR will not be responsible for the Contractor's means, methods, techniques, sequences, or procedures of construction or the safety precautions incident thereto.

50-03 Coordination of contract, plans, and specifications. The contract, plans, specifications, and all referenced standards cited are essential parts of the contract requirements. If electronic files are provided and used on the project and there is a conflict between the electronic files and hard copy plans, the hard

copy plans shall govern. A requirement occurring in one is as binding as though occurring in all. They are intended to be complementary and to describe and provide for a complete work. In case of discrepancy, calculated dimensions will govern over scaled dimensions; contract technical specifications shall govern over contract general provisions, plans, cited standards for materials or testing, and cited advisory circulars (ACs); contract general provisions shall govern over plans, cited standards for materials or testing, and cited ACs; plans shall govern over cited standards for materials or testing and cited ACs. If any paragraphs contained in the Special Provisions conflict with General Provisions or Technical Specifications, the Special Provisions shall govern.

From time to time, discrepancies within cited testing standards occur due to the timing of the change, edits, and/or replacement of the standards. If the Contractor discovers any apparent discrepancy within standard test methods, the Contractor shall immediately ask the RPR for an interpretation and decision, and such decision shall be final.

The Contractor shall not take advantage of any apparent error or omission on the plans or specifications. In the event the Contractor discovers any apparent error or discrepancy, Contractor shall immediately notify the Owner or the designated representative in writing requesting their written interpretation and decision.

50-04 List of Special Provisions.

In case of a discrepancy between the Plans and the Specifications, the following is the precedence of contract documents:

1. General Conditions to the Construction Contract.
2. Special Provisions.
3. Technical Specifications.
4. General Provisions.
5. Plans/Drawings.
6. City of Mesa Supplements to the MAG Specifications and Details and Building Codes.
7. MAG Uniform Standard Specifications and Details.

50-05 Cooperation of Contractor. The Contractor shall be supplied with an electronic PDF of the plans and specifications. The Contractor shall have available on the construction site at all times one hardcopy each of the plans and specifications. Additional hard copies of plans and specifications may be obtained by the Contractor for the cost of reproduction.

The Contractor shall give constant attention to the work to facilitate the progress thereof, and shall cooperate with the RPR and their inspectors and with other Contractors in every way possible. The Contractor shall have a competent superintendent on the work at all times who is fully authorized as their agent on the work. The superintendent shall be capable of reading and thoroughly understanding the plans and specifications and shall receive and fulfill instructions from the RPR or their authorized representative.

50-06 Cooperation between Contractors. The Owner reserves the right to contract for and perform other or additional work on or near the work covered by this contract.

When separate contracts are let within the limits of any one project, each Contractor shall conduct the work not to interfere with or hinder the progress of completion of the work being performed by other Contractors. Contractors working on the same project shall cooperate with each other as directed.

Each Contractor involved shall assume all liability, financial or otherwise, in connection with their own contract and shall protect and hold harmless the Owner from any and all damages or claims that may arise because of inconvenience, delays, or loss experienced because of the presence and operations of other Contractors working within the limits of the same project.

The Contractor shall arrange their work and shall place and dispose of the materials being used to not interfere with the operations of the other Contractors within the limits of the same project. The Contractor shall join their work with that of the others in an acceptable manner and shall perform it in proper sequence to that of the others.

50-07 Construction layout and stakes. The Engineer/RPR shall establish necessary horizontal and vertical control. The establishment of Survey Control and/or reestablishment of survey control shall be by a State Licensed Land Surveyor. Contractor is responsible for preserving integrity of horizontal and vertical controls established by Engineer/RPR. In case of negligence on the part of the Contractor or their employees, resulting in the destruction of any horizontal and vertical control, the resulting costs will be deducted as a liquidated damage against the Contractor.

Prior to the start of construction, the Contractor will check all control points for horizontal and vertical accuracy and certify in writing to the RPR that the Contractor concurs with survey control established for the project. All lines, grades and measurements from control points necessary for the proper execution and control of the work on this project will be provided to the RPR. The Contractor is responsible to establish all layout required for the construction of the project.

Copies of survey notes will be provided to the RPR for each area of construction and for each placement of material as specified to allow the RPR to make periodic checks for conformance with plan grades, alignments and grade tolerances required by the applicable material specifications. Surveys will be provided to the RPR prior to commencing work items that cover or disturb the survey staking. Survey(s) and notes shall be provided in the following format(s): Comma Separated values (CSV), AutoCAD DXF (Drawing Interchange Format) and hard copies.

Laser, GPS, String line, or other automatic control shall be checked with temporary control as necessary. In the case of error, on the part of the Contractor, their surveyor, employees or subcontractors, resulting in established grades, alignment or grade tolerances that do not concur with those specified or shown on the plans, the Contractor is solely responsible for correction, removal, replacement and all associated costs at no additional cost to the Owner.

No direct payment will be made, unless otherwise specified in contract documents, for this labor, materials, or other expenses. The cost shall be included in the price of the bid for the various items of the Contract.

50-08 Authority and duties of Quality Assurance (QA) inspectors. QA inspectors shall be authorized to inspect all work done and all material furnished. Such QA inspection may extend to all or any part of the work and to the preparation, fabrication, or manufacture of the materials to be used. QA inspectors are not authorized to revoke, alter, or waive any provision of the contract. QA inspectors are not authorized to issue instructions contrary to the plans and specifications or to act as foreman for the Contractor.

QA Inspectors are authorized to notify the Contractor or their representatives of any failure of the work or materials to conform to the requirements of the contract, plans, or specifications and to reject such nonconforming materials in question until such issues can be referred to the RPR for a decision.

50-09 Inspection of the work. All materials and each part or detail of the work shall be subject to inspection. The RPR shall be allowed access to all parts of the work and shall be furnished with such information and assistance by the Contractor as is required to make a complete and detailed inspection.

If the RPR requests it, the Contractor, at any time before acceptance of the work, shall remove or uncover such portions of the finished work as may be directed. After examination, the Contractor shall restore said portions of the work to the standard required by the specifications. Should the work thus exposed or examined prove acceptable, the uncovering, or removing, and the replacing of the covering or making good of the parts removed will be paid for as extra work; but should the work so exposed or examined prove unacceptable, the uncovering, or removing, and the replacing of the covering or making good of the parts removed will be at the Contractor's expense.

Provide advance written notice to the RPR of work the Contractor plans to perform each week and each day. Any work done or materials used without written notice and allowing opportunity for inspection by the RPR may be ordered removed and replaced at the Contractor's expense.

Should the contract work include relocation, adjustment, or any other modification to existing facilities, not the property of the (contract) Owner, authorized representatives of the Owners of such facilities shall have the right to inspect such work. Such inspection shall in no sense make any facility owner a party to the contract and shall in no way interfere with the rights of the parties to this contract.

50-10 Removal of unacceptable and unauthorized work. All work that does not conform to the requirements of the contract, plans, and specifications will be considered unacceptable, unless otherwise determined acceptable by the RPR as provided in paragraph 50-02, *Conformity with Plans and Specifications*.

Unacceptable work, whether the result of poor workmanship, use of defective materials, damage through carelessness, or any other cause found to exist prior to the final acceptance of the work, shall be removed immediately and replaced in an acceptable manner in accordance with the provisions of Section 70, paragraph 70-14, *Contractor's Responsibility for Work*.

No removal work made under provision of this paragraph shall be done without lines and grades having been established by the RPR. Work done contrary to the instructions of the RPR, work done beyond the lines shown on the plans or as established by the RPR, except as herein specified, or any extra work done without authority, will be considered as unauthorized and will not be paid for under the provisions of the contract. Work so done may be ordered removed or replaced at the Contractor's expense.

Upon failure on the part of the Contractor to comply with any order of the RPR made under the provisions of this subsection, the RPR will have authority to cause unacceptable work to be remedied or removed and replaced; and unauthorized work to be removed and recover the resulting costs as a liquidated damage against the Contractor.

50-11 Load restrictions. The Contractor shall comply with all legal load restrictions in the hauling of materials on public roads beyond the limits of the work. A special permit will not relieve the Contractor of liability for damage that may result from the moving of material or equipment.

The operation of equipment of such weight or so loaded as to cause damage to structures or to any other type of construction will not be permitted. Hauling of materials over the base course or surface course under construction shall be limited as directed. No loads will be permitted on a concrete pavement, base, or structure before the expiration of the curing period. The Contractor, at their own expense, shall be

responsible for the repair to equal or better than preconstruction conditions of any damage caused by the Contractor's equipment and personnel.

50-12 Maintenance during construction. The Contractor shall maintain the work during construction and until the work is accepted. Maintenance shall constitute continuous and effective work prosecuted day by day, with adequate equipment and forces so that the work is maintained in satisfactory condition at all times.

In the case of a contract for the placing of a course upon a course or subgrade previously constructed, the Contractor shall maintain the previous course or subgrade during all construction operations.

All costs of maintenance work during construction and before the project is accepted shall be included in the unit prices bid on the various contract items, and the Contractor will not be paid an additional amount for such work.

50-13 Failure to maintain the work. Should the Contractor at any time fail to maintain the work as provided in paragraph 50-12, *Maintenance during Construction*, the RPR shall immediately notify the Contractor of such noncompliance. Such notification shall specify a reasonable time within which the Contractor shall be required to remedy such unsatisfactory maintenance condition. The time specified will give due consideration to the exigency that exists.

Should the Contractor fail to respond to the RPR's notification, the Owner may suspend any work necessary for the Owner to correct such unsatisfactory maintenance condition, depending on the exigency that exists. Any maintenance cost incurred by the Owner, shall be recovered as a liquidated damage against the Contractor.

50-14 Partial acceptance. If at any time during the execution of the project the Contractor substantially completes a usable unit or portion of the work, the occupancy of which will benefit the Owner, the Contractor may request the RPR to make final inspection of that unit. If the RPR finds upon inspection that the unit has been satisfactorily completed in compliance with the contract, the RPR may accept it as being complete, and the Contractor may be relieved of further responsibility for that unit. Such partial acceptance and beneficial occupancy by the Owner shall not void or alter any provision of the contract.

50-15 Final acceptance. Upon due notice from the Contractor of presumptive completion of the entire project, the RPR and Owner will make an inspection. If all construction provided for and contemplated by the contract is found to be complete in accordance with the contract, plans, and specifications, such inspection shall constitute the final inspection. The RPR shall notify the Contractor in writing of final acceptance as of the date of the final inspection.

If, however, the inspection discloses any work, in whole or in part, as being unsatisfactory, the RPR will notify the Contractor and the Contractor shall correct the unsatisfactory work. Upon correction of the work, another inspection will be made which shall constitute the final inspection, provided the work has been satisfactorily completed. In such event, the RPR will make the final acceptance and notify the Contractor in writing of this acceptance as of the date of final inspection.

50-16 Claims for adjustment and disputes. If for any reason the Contractor deems that additional compensation is due for work or materials not clearly provided for in the contract, plans, or specifications or previously authorized as extra work, the Contractor shall notify the RPR in writing of their intention to

claim such additional compensation before the Contractor begins the work on which the Contractor bases the claim. If such notification is not given or the RPR is not afforded proper opportunity by the Contractor for keeping strict account of actual cost as required, then the Contractor hereby agrees to waive any claim for such additional compensation. Such notice by the Contractor and the fact that the RPR has kept account of the cost of the work shall not in any way be construed as proving or substantiating the validity of the claim. When the work on which the claim for additional compensation is based has been completed, the Contractor shall, within 10 calendar days, submit a written claim to the RPR who will present it to the Owner for consideration in accordance with local laws or ordinances.

Nothing in this subsection shall be construed as a waiver of the Contractor's right to dispute final payment based on differences in measurements or computations.

END OF SECTION 50

Section 60 Control of Materials

60-01 Source of supply and quality requirements. The materials used in the work shall conform to the requirements of the contract, plans, and specifications. Unless otherwise specified, such materials that are manufactured or processed shall be new (as compared to used or reprocessed).

In order to expedite the inspection and testing of materials, the Contractor shall furnish documentation to the RPR as to the origin, composition, and manufacture of all materials to be used in the work. Documentation shall be furnished promptly after execution of the contract but, in all cases, prior to delivery of such materials.

At the RPR's option, materials may be approved at the source of supply before delivery. If it is found after trial that sources of supply for previously approved materials do not produce specified products, the Contractor shall furnish materials from other sources.

The Contractor shall furnish airport lighting equipment that meets the requirements of the specifications; and is listed in AC 150/5345-53, *Airport Lighting Equipment Certification Program* and *Addendum*, that is in effect on the date of advertisement.

60-02 Samples, tests, and cited specifications. All materials used in the work shall be inspected, tested, and approved by the RPR before incorporation in the work unless otherwise designated. Any work in which untested materials are used without approval or written permission of the RPR shall be performed at the Contractor's risk. Materials found to be unacceptable and unauthorized will not be paid for and, if directed by the RPR, shall be removed at the Contractor's expense.

Unless otherwise designated, quality assurance tests will be made by and at the expense of the Owner in accordance with the cited standard methods of ASTM, American Association of State Highway and Transportation Officials (AASHTO), federal specifications, Commercial Item Descriptions, and all other cited methods, which are current on the date of advertisement for bids.

The testing organizations performing on-site quality assurance field tests shall have copies of all referenced standards on the construction site for use by all technicians and other personnel. Unless otherwise designated, samples for quality assurance will be taken by a qualified representative of the RPR. All materials being used are subject to inspection, test, or rejection at any time prior to or during incorporation into the work. Copies of all tests will be furnished to the Contractor's representative at their request after review and approval of the RPR.

A copy of all Contractor QC test data shall be provided to the RPR daily, along with printed reports, in an approved format, on a weekly basis. After completion of the project, and prior to final payment, the Contractor shall submit a final report to the RPR showing all test data reports, plus an analysis of all results showing ranges, averages, and corrective action taken on all failing tests.

The Contractor shall employ a Quality Control (QC) testing organization to perform all Contractor required QC tests in accordance with Item C-100 Contractor Quality Control Program (CQCP).

60-03 Certification of compliance/analysis (COC/COA). The RPR may permit the use, prior to sampling and testing, of certain materials or assemblies when accompanied by manufacturer's COC stating that such materials or assemblies fully comply with the requirements of the contract. The certificate shall be signed by the manufacturer. Each lot of such materials or assemblies delivered to the work must be accompanied by a certificate of compliance in which the lot is clearly identified. The COA is the manufacturer's COC and includes all applicable test results.

Materials or assemblies used on the basis of certificates of compliance may be sampled and tested at any time and if found not to be in conformity with contract requirements will be subject to rejection whether in place or not.

The form and distribution of certificates of compliance shall be as approved by the RPR.

When a material or assembly is specified by "brand name or equal" and the Contractor elects to furnish the specified "or equal," the Contractor shall be required to furnish the manufacturer's certificate of compliance for each lot of such material or assembly delivered to the work. Such certificate of compliance shall clearly identify each lot delivered and shall certify as to:

a. Conformance to the specified performance, testing, quality or dimensional requirements; and,

b. Suitability of the material or assembly for the use intended in the contract work.

The RPR shall be the sole judge as to whether the proposed "or equal" is suitable for use in the work.

The RPR reserves the right to refuse permission for use of materials or assemblies on the basis of certificates of compliance.

60-04 Plant inspection. The RPR or their authorized representative may inspect, at its source, any specified material or assembly to be used in the work. Manufacturing plants may be inspected from time to time for the purpose of determining compliance with specified manufacturing methods or materials to be used in the work and to obtain samples required for acceptance of the material or assembly.

Should the RPR conduct plant inspections, the following conditions shall exist:

a. The RPR shall have the cooperation and assistance of the Contractor and the producer with whom the Contractor has contracted for materials.

b. The RPR shall have full entry at all reasonable times to such parts of the plant that concern the manufacture or production of the materials being furnished.

c. If required by the RPR, the Contractor shall arrange for adequate office or working space that may be reasonably needed for conducting plant inspections. Place office or working space in a convenient location with respect to the plant.

It is understood and agreed that the Owner shall have the right to retest any material that has been tested and approved at the source of supply after it has been delivered to the site. The RPR shall have the right to reject only material which, when retested, does not meet the requirements of the contract, plans, or specifications.

60-05 Engineer/ Resident Project Representative (RPR) field office. **(NOT USED)**

60-06 Storage of materials. Materials shall be stored to assure the preservation of their quality and fitness for the work. Stored materials, even though approved before storage, may again be inspected prior to their use in the work. Stored materials shall be located to facilitate their prompt inspection. The Contractor shall coordinate the storage of all materials with the RPR. Materials to be stored on airport property shall not create an obstruction to air navigation nor shall they interfere with the free and unobstructed movement of aircraft. Unless otherwise shown on the plans and/or CSPP, the storage of materials and the location of the Contractor's plant and parked equipment or vehicles shall be as directed by the RPR. Private property shall not be used for storage purposes without written permission of the Owner or lessee of such property. The Contractor shall make all arrangements and bear all expenses for the storage of materials on private property. Upon request, the Contractor shall furnish the RPR a copy of the property Owner's permission.

All storage sites on private or airport property shall be restored to their original condition by the Contractor at their expense, except as otherwise agreed to (in writing) by the Owner or lessee of the property.

60-07 Unacceptable materials. Any material or assembly that does not conform to the requirements of the contract, plans, or specifications shall be considered unacceptable and shall be rejected. The Contractor shall remove any rejected material or assembly from the site of the work, unless otherwise instructed by the RPR.

Rejected material or assembly, the defects of which have been corrected by the Contractor, shall not be returned to the site of the work until such time as the RPR has approved its use in the work.

60-08 Owner furnished materials. The Contractor shall furnish all materials required to complete the work, except those specified, if any, to be furnished by the Owner. Owner-furnished materials shall be made available to the Contractor at the location specified.

All costs of handling, transportation from the specified location to the site of work, storage, and installing Owner-furnished materials shall be included in the unit price bid for the contract item in which such Owner-furnished material is used.

After any Owner-furnished material has been delivered to the location specified, the Contractor shall be responsible for any demurrage, damage, loss, or other deficiencies that may occur during the Contractor's handling, storage, or use of such Owner-furnished material. The Owner will deduct from any monies due or to become due the Contractor any cost incurred by the Owner in making good such loss due to the Contractor's handling, storage, or use of Owner-furnished materials.

END OF SECTION 60

Section 70 Legal Regulations and Responsibility to Public

70-01 Laws to be observed. The Contractor shall keep fully informed of all federal and state laws, all local laws, ordinances, and regulations and all orders and decrees of bodies or tribunals having any jurisdiction or authority, which in any manner affect those engaged or employed on the work, or which in any way affect the conduct of the work. The Contractor shall at all times observe and comply with all such laws, ordinances, regulations, orders, and decrees; and shall protect and indemnify the Owner and all their officers, agents, or servants against any claim or liability arising from or based on the violation of any such law, ordinance, regulation, order, or decree, whether by the Contractor or the Contractor's employees.

70-02 Permits, licenses, and taxes. The Contractor shall procure all permits and licenses, pay all charges, fees, and taxes, and give all notices necessary and incidental to the due and lawful execution of the work.

70-03 Patented devices, materials, and processes. If the Contractor is required or desires to use any design, device, material, or process covered by letters of patent or copyright, the Contractor shall provide for such use by suitable legal agreement with the Patentee or Owner. The Contractor and the surety shall indemnify and hold harmless the Owner, any third party, or political subdivision from any and all claims for infringement by reason of the use of any such patented design, device, material or process, or any trademark or copyright, and shall indemnify the Owner for any costs, expenses, and damages which it may be obliged to pay by reason of an infringement, at any time during the execution or after the completion of the work.

70-04 Restoration of surfaces disturbed by others. NOT USED

70-05 Federal Participation. NOT USED.

70-06 Sanitary, health, and safety provisions. The Contractor's worksite and facilities shall comply with applicable federal, state, and local requirements for health, safety and sanitary provisions.

70-07 Public convenience and safety. The Contractor shall control their operations and those of their subcontractors and all suppliers, to assure the least inconvenience to the traveling public. Under all circumstances, safety shall be the most important consideration.

The Contractor shall maintain the free and unobstructed movement of aircraft and vehicular traffic with respect to their own operations and those of their own subcontractors and all suppliers in accordance with Section 40, paragraph 40-05, *Maintenance of Traffic*, and shall limit such operations for the convenience and safety of the traveling public as specified in Section 80, paragraph 80-04, *Limitation of Operations*.

The Contractor shall remove or control debris and rubbish resulting from its work operations at frequent intervals, and upon the order of the RPR. If the RPR determines the existence of Contractor debris in the work site represents a hazard to airport operations and the Contractor is unable to respond in a prompt and reasonable manner, the RPR reserves the right to assign the task of debris removal to a third party and recover the resulting costs as a liquidated damage against the Contractor.

70-08 Construction Safety and Phasing Plan (CSPP). The Contractor shall complete the work in accordance with the approved Construction Safety and Phasing Plan (CSPP) developed in accordance with AC 150/5370-2, Operational Safety on Airports During Construction. The CSPP is a separate document that the contractor must use to complete all of his work.

70-09 Use of explosives. The use of explosives is not permitted on this project

70-10 Protection and restoration of property and landscape. The Contractor shall be responsible for the preservation of all public and private property, and shall protect carefully from disturbance or damage all land monuments and property markers until the Engineer/RPR has witnessed or otherwise referenced their location and shall not move them until directed.

The Contractor shall be responsible for all damage or injury to property of any character, during the execution of the work, resulting from any act, omission, neglect, or misconduct in manner or method of executing the work, or at any time due to defective work or materials, and said responsibility shall not be released until the project has been completed and accepted.

When or where any direct or indirect damage or injury is done to public or private property by or on account of any act, omission, neglect, or misconduct in the execution of the work, or in consequence of the non-execution thereof by the Contractor, the Contractor shall restore, at their expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, or otherwise restoring as may be directed, or the Contractor shall make good such damage or injury in an acceptable manner.

70-11 Responsibility for damage claims. The Contractor shall indemnify and hold harmless the Engineer/RPR and the Owner and their officers, agents, and employees from all suits, actions, or claims, of any character, brought because of any injuries or damage received or sustained by any person, persons, or property on account of the operations of the Contractor; or on account of or in consequence of any neglect in safeguarding the work; or through use of unacceptable materials in constructing the work; or because of any act or omission, neglect, or misconduct of said Contractor; or because of any claims or amounts recovered from any infringements of patent, trademark, or copyright; or from any claims or amounts arising or recovered under the "Workmen's Compensation Act," or any other law, ordinance, order, or decree. Money due the Contractor under and by virtue of their own contract considered necessary by the Owner for such purpose may be retained for the use of the Owner or, in case no money is due, their own surety may be held until such suits, actions, or claims for injuries or damages shall have been settled and suitable evidence to that effect furnished to the Owner, except that money due the Contractor will not be withheld when the Contractor produces satisfactory evidence that he or she is adequately protected by public liability and property damage insurance.

70-12 Third party beneficiary clause. It is specifically agreed between the parties executing the contract that it is not intended by any of the provisions of any part of the contract to create for the public or any member thereof, a third-party beneficiary or to authorize anyone not a party to the contract to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of the contract.

70-13 Opening sections of the work to traffic. If it is necessary for the Contractor to complete portions of the contract work for the beneficial occupancy of the Owner prior to completion of the entire contract, such "phasing" of the work must be specified below and indicated on the approved Construction Safety and Phasing Plan (CSPP) and the project plans. When so specified, the Contractor shall complete such portions of the work on or before the date specified or as otherwise specified.

Upon completion of any portion of work listed above, such portion shall be accepted by the Owner in accordance with Section 50, paragraph 50-14, *Partial Acceptance*.

No portion of the work may be opened by the Contractor until directed by the Owner in writing. Should it become necessary to open a portion of the work to traffic on a temporary or intermittent basis, such openings shall be made when, in the opinion of the RPR, such portion of the work is in an acceptable condition to support the intended traffic. Temporary or intermittent openings are considered to be inherent in the work and shall not constitute either acceptance of the portion of the work so opened or a waiver of

any provision of the contract. Any damage to the portion of the work so opened that is not attributable to traffic which is permitted by the Owner shall be repaired by the Contractor at their expense.

The Contractor shall make their own estimate of the inherent difficulties involved in completing the work under the conditions herein described and shall not claim any added compensation by reason of delay or increased cost due to opening a portion of the contract work.

The Contractor must conform to safety standards contained AC 150/5370-2 and the approved CSPP.

Contractor shall refer to the plans, specifications, and the approved CSPP to identify barricade requirements, temporary and/or permanent markings, airfield lighting, guidance signs and other safety requirements prior to opening up sections of work to traffic.

70-14 Contractor's responsibility for work. Until the RPR's final written acceptance of the entire completed work, excepting only those portions of the work accepted in accordance with Section 50, paragraph 50-14, *Partial Acceptance*, the Contractor shall have the charge and care thereof and shall take every precaution against injury or damage to any part due to the action of the elements or from any other cause, whether arising from the execution or from the non-execution of the work. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the work occasioned by any of the above causes before final acceptance and shall bear the expense thereof except damage to the work due to unforeseeable causes beyond the control of and without the fault or negligence of the Contractor, including but not restricted to acts of God such as earthquake, tidal wave, tornado, hurricane or other cataclysmic phenomenon of nature, or acts of the public enemy or of government authorities.

If the work is suspended for any cause whatever, the Contractor shall be responsible for the work and shall take such precautions necessary to prevent damage to the work. The Contractor shall provide for normal drainage and shall erect necessary temporary structures, signs, or other facilities at their own expense. During such period of suspension of work, the Contractor shall properly and continuously maintain in an acceptable growing condition all living material in newly established planting, seeding, and sodding furnished under the contract, and shall take adequate precautions to protect new tree growth and other important vegetative growth against injury.

70-15 Contractor's responsibility for utility service and facilities of others. As provided in paragraph 70-04, *Restoration of Surfaces Disturbed by Others*, the Contractor shall cooperate with the owner of any public or private utility service, FAA or NOAA, or a utility service of another government agency that may be authorized by the Owner to construct, reconstruct or maintain such utility services or facilities during the progress of the work. In addition, the Contractor shall control their operations to prevent the unscheduled interruption of such utility services and facilities.

To the extent that such public or private utility services, FAA, or NOAA facilities, or utility services of another governmental agency are known to exist within the limits of the contract work, the approximate locations have been indicated on the plans and/or in the contract documents.

It is understood and agreed that the Owner does not guarantee the accuracy or the completeness of the location information relating to existing utility services, facilities, or structures that may be shown on the plans or encountered in the work. Any inaccuracy or omission in such information shall not relieve the Contractor of the responsibility to protect such existing features from damage or unscheduled interruption of service.

It is further understood and agreed that the Contractor shall, upon execution of the contract, notify the Owners of all utility services or other facilities of their plan of operations. Such notification shall be in writing addressed to "The Person to Contact" as provided in this paragraph and paragraph 70-04, *Restoration of Surfaces Disturbed By Others*. A copy of each notification shall be given to the RPR.

In addition to the general written notification provided, it shall be the responsibility of the Contractor to keep such individual Owners advised of changes in their plan of operations that would affect such Owners.

Prior to beginning the work in the general vicinity of an existing utility service or facility, the Contractor shall again notify each such Owner of their plan of operation. If, in the Contractor's opinion, the Owner's assistance is needed to locate the utility service or facility or the presence of a representative of the Owner is desirable to observe the work, such advice should be included in the notification. Such notification shall be given by the most expeditious means to reach the utility owner's "Person to Contact" no later than two normal business days prior to the Contractor's commencement of operations in such general vicinity. The Contractor shall furnish a written summary of the notification to the RPR.

The Contractor's failure to give the two days' notice shall be cause for the Owner to suspend the Contractor's operations in the general vicinity of a utility service or facility.

Where the outside limits of an underground utility service have been located and staked on the ground, the Contractor shall be required to use hand excavation methods within 3 feet (1 m) of such outside limits at such points as may be required to ensure protection from damage due to the Contractor's operations.

Should the Contractor damage or interrupt the operation of a utility service or facility by accident or otherwise, the Contractor shall immediately notify the proper authority and the RPR and shall take all reasonable measures to prevent further damage or interruption of service. The Contractor, in such events, shall cooperate with the utility service or facility owner and the RPR continuously until such damage has been repaired and service restored to the satisfaction of the utility or facility owner.

The Contractor shall bear all costs of damage and restoration of service to any utility service or facility due to their operations whether due to negligence or accident. The Owner reserves the right to deduct such costs from any monies due or which may become due the Contractor, or their own surety.

70-15.1 FAA facilities and cable runs. NOT USED

70-16 Furnishing rights-of-way. The Owner will be responsible for furnishing all rights-of-way upon which the work is to be constructed in advance of the Contractor's operations.

70-17 Personal liability of public officials. In carrying out any of the contract provisions or in exercising any power or authority granted by this contract, there shall be no liability upon the Engineer, RPR, their authorized representatives, or any officials of the Owner either personally or as an official of the Owner. It is understood that in such matters they act solely as agents and representatives of the Owner.

70-18 No waiver of legal rights. Upon completion of the work, the Owner will expeditiously make final inspection and notify the Contractor of final acceptance. Such final acceptance, however, shall not preclude or stop the Owner from correcting any measurement, estimate, or certificate made before or after completion of the work, nor shall the Owner be precluded or stopped from recovering from the Contractor or their surety, or both, such overpayment as may be sustained, or by failure on the part of the Contractor to fulfill their obligations under the contract. A waiver on the part of the Owner of any breach of any part of the contract shall not be held to be a waiver of any other or subsequent breach.

The Contractor, without prejudice to the terms of the contract, shall be liable to the Owner for latent defects, fraud, or such gross mistakes as may amount to fraud, or as regards the Owner's rights under any warranty or guaranty.

70-19 Environmental protection. The Contractor shall comply with all federal, state, and local laws and regulations controlling pollution of the environment. The Contractor shall take necessary precautions to prevent pollution of streams, lakes, ponds, and reservoirs with fuels, oils, asphalts, chemicals, or other harmful materials and to prevent pollution of the atmosphere from particulate and gaseous matter.

70-20 Archaeological and historical findings. Unless otherwise specified in this subsection, the Contractor is advised that the site of the work is not within any property, district, or site, and does not contain any building, structure, or object listed in the current National Register of Historic Places published by the United States Department of Interior.

Should the Contractor encounter, during their operations, any building, part of a building, structure, or object that is incongruous with its surroundings, the Contractor shall immediately cease operations in that location and notify the RPR. The RPR will immediately investigate the Contractor's finding and the Owner will direct the Contractor to either resume operations or to suspend operations as directed.

Should the Owner order suspension of the Contractor's operations in order to protect an archaeological or historical finding, or order the Contractor to perform extra work, such shall be covered by an appropriate contract change order or supplemental agreement as provided in Section 40, paragraph 40-04, *Extra Work*, and Section 90, paragraph 90-05, *Payment for Extra Work*. If appropriate, the contract change order or supplemental agreement shall include an extension of contract time in accordance with Section 80, paragraph 80-07, *Determination and Extension of Contract Time*.

70-21 Insurance Requirements. Owner insurance requirements are stated in Article 11 of the *General Conditions*.

END OF SECTION 70

Section 80 Execution and Progress

80-01 Subletting of contract. The Owner will not recognize any subcontractor on the work. The Contractor shall at all times when work is in progress be represented either in person, by a qualified superintendent, or by other designated, qualified representative who is duly authorized to receive and execute orders of the Resident Project Representative (RPR).

The Contractor shall perform, with his organization, an amount of work equal to at least 45 percent of the total contract cost.

Should the Contractor elect to assign their contract, said assignment shall be concurred in by the surety, shall be presented for the consideration and approval of the Owner, and shall be consummated only on the written approval of the Owner.

The Contractor shall provide copies of all subcontracts to the Owner 14 days prior to being utilized on the project. As a minimum, the information shall include the following:

- Subcontractor's legal company name.
- Subcontractor's legal company address, including County name.
- Principal contact person's name, telephone and fax number.
- Complete narrative description, and dollar value of the work to be performed by the subcontractor.
- Copies of required insurance certificates in accordance with the specifications.
- Minority/ non-minority status.

80-02 Notice to proceed (NTP). The Owners notice to proceed will state the date on which contract time commences. The Contractor is expected to commence project operations within 7 days of the NTP date. The Contractor shall notify the Owner at least 48 hours in advance of the time contract operations begins. The Contractor shall not commence any actual operations prior to the date on which the notice to proceed is issued by the Owner.

80-03 Execution and progress. Unless otherwise specified, the Contractor shall submit their coordinated construction schedule showing all work activities for the RPR's review and acceptance at least 10 days prior to the start of work. The Contractor's progress schedule, once accepted by the RPR, will represent the Contractor's baseline plan to accomplish the project in accordance with the terms and conditions of the Contract. The RPR will compare actual Contractor progress against the baseline schedule to determine that status of the Contractor's performance. The Contractor shall provide sufficient materials, equipment, and labor to guarantee the completion of the project in accordance with the plans and specifications within the time set forth in the proposal.

If the Contractor falls significantly behind the submitted schedule, the Contractor shall, upon the RPR's request, submit a revised schedule for completion of the work within the contract time and modify their operations to provide such additional materials, equipment, and labor necessary to meet the revised schedule. Should the execution of the work be discontinued for any reason, the Contractor shall notify the OWNER at least 48 hours in advance of resuming operations.

The Contractor shall not commence any actual construction prior to the date on which the NTP is issued by the Owner.

80-04 Limitation of operations. The Contractor shall control their operations and the operations of their subcontractors and all suppliers to provide for the free and unobstructed movement of aircraft in the air operations areas (AOA) of the airport.

When the work requires the Contractor to conduct their operations within an AOA of the airport, the work shall be coordinated with airport operations (through the RPR) at least 48 hours prior to commencement of such work. The Contractor shall not close an AOA until so authorized by the RPR and until the necessary temporary marking, signage and associated lighting is in place as provided in Section 70, paragraph 70-08, *Construction Safety and Phasing Plan (CSPP)*.

When the contract work requires the Contractor to work within an AOA of the airport on an intermittent basis (intermittent opening and closing of the AOA), the Contractor shall maintain constant communications as specified; immediately obey all instructions to vacate the AOA; and immediately obey all instructions to resume work in such AOA. Failure to maintain the specified communications or to obey instructions shall be cause for suspension of the Contractor's operations in the AOA until satisfactory conditions are provided.

The Contractor shall be required to conform to safety standards contained in AC 150/5370-2, Operational Safety on Airports During Construction and the approved CSPP.

80-04.1 Operational safety on airport during construction. All Contractors' operations shall be conducted in accordance with the approved project Construction Safety and Phasing Plan (CSPP) and the Safety Plan Compliance Document (SPCD) and the provisions set forth within the current version of AC 150/5370-2, Operational Safety on Airports During Construction. The CSPP included within the contract documents conveys minimum requirements for operational safety on the airport during construction activities. The Contractor shall prepare and submit a SPCD that details how it proposes to comply with the requirements presented within the CSPP.

The Contractor shall implement all necessary safety plan measures prior to commencement of any work activity. The Contractor shall conduct routine checks to assure compliance with the safety plan measures.

The Contractor is responsible to the Owner for the conduct of all subcontractors it employs on the project. The Contractor shall assure that all subcontractors are made aware of the requirements of the CSPP and SPCD and that they implement and maintain all necessary measures.

No deviation or modifications may be made to the approved CSPP and SPCD unless approved in writing by the Owner. The necessary coordination actions to review Contractor proposed modifications to an approved CSPP or approved SPCD can require a significant amount of time.

80-05 Character of workers, methods, and equipment. The Contractor shall, at all times, employ sufficient labor and equipment for prosecuting the work to full completion in the manner and time required by the contract, plans, and specifications.

All workers shall have sufficient skill and experience to perform properly the work assigned to them. Workers engaged in special work or skilled work shall have sufficient experience in such work and in the operation of the equipment required to perform the work satisfactorily.

Any person employed by the Contractor or by any subcontractor who violates any operational regulations or operational safety requirements and, in the opinion of the RPR, does not perform his work in a proper and skillful manner or is intemperate or disorderly shall, at the written request of the RPR, be removed immediately by the Contractor or subcontractor employing such person, and shall not be employed again in any portion of the work without approval of the RPR.

Should the Contractor fail to remove such person or persons, or fail to furnish suitable and sufficient personnel for the proper execution of the work, the RPR may suspend the work by written notice until compliance with such orders.

All equipment that is proposed to be used on the work shall be of sufficient size and in such mechanical condition as to meet requirements of the work and to produce a satisfactory quality of work. Equipment used on any portion of the work shall not cause injury to previously completed work, adjacent property, or existing airport facilities due to its use.

When the methods and equipment to be used by the Contractor in accomplishing the work are not prescribed in the contract, the Contractor is free to use any methods or equipment that will accomplish the work in conformity with the requirements of the contract, plans, and specifications.

When the contract specifies the use of certain methods and equipment, such methods and equipment shall be used unless otherwise authorized by the RPR. If the Contractor desires to use a method or type of equipment other than specified in the contract, the Contractor may request authority from the RPR to do so. The request shall be in writing and shall include a full description of the methods and equipment proposed and of the reasons for desiring to make the change. If approval is given, it will be on the condition that the Contractor will be fully responsible for producing work in conformity with contract requirements. If, after trial use of the substituted methods or equipment, the RPR determines that the work produced does not meet contract requirements, the Contractor shall discontinue the use of the substitute method or equipment and shall complete the remaining work with the specified methods and equipment. The Contractor shall remove any deficient work and replace it with work of specified quality, or take such other corrective action as the RPR may direct. No change will be made in basis of payment for the contract items involved nor in contract time as a result of authorizing a change in methods or equipment under this paragraph.

80-06 Temporary suspension of the work. The Owner shall have the authority to suspend the work wholly, or in part, for such period or periods the Owner may deem necessary, due to unsuitable weather, or other conditions considered unfavorable for the execution of the work, or for such time necessary due to the failure on the part of the Contractor to carry out orders given or perform any or all provisions of the contract.

In the event that the Contractor is ordered by the Owner, in writing, to suspend work for some unforeseen cause not otherwise provided for in the contract and over which the Contractor has no control, the Contractor may be reimbursed for actual money expended on the work during the period of shutdown. No allowance will be made for anticipated profits. The period of shutdown shall be computed from the effective date of the written order to suspend work to the effective date of the written order to resume the work. Claims for such compensation shall be filed with the RPR within the time period stated in the RPR's order to resume work. The Contractor shall submit with their own claim information substantiating the amount shown on the claim. The RPR will forward the Contractor's claim to the Owner for consideration in accordance with local laws or ordinances. No provision of this article shall be construed as entitling the Contractor to compensation for delays due to inclement weather or for any other delay provided for in the contract, plans, or specifications.

If it becomes necessary to suspend work for an indefinite period, the Contractor shall store all materials in such manner that they will not become an obstruction nor become damaged in any way. The Contractor shall take every precaution to prevent damage or deterioration of the work performed and provide for normal drainage of the work. The Contractor shall erect temporary structures where necessary to provide for traffic on, to, or from the airport.

80-07 Determination and extension of contract time. The number of calendar days allowed for completion of the work has been stated in the Construction Contract and shall be known as the Contract Time.

If the contract time requires extension for reasons beyond the Contractor's control, it shall be adjusted as follows:

80-07.1 Contract time based on calendar days. Contract Time based on calendar days shall consist of the number of calendar days stated in the contract counting from the effective date of the Notice to Proceed and including all Saturdays, Sundays, holidays, and non-work days. All calendar days elapsing between the effective dates of the Owner's orders to suspend and resume all work, due to causes not the fault of the Contractor, shall be excluded.

At the time of final payment, the contract time shall be increased in the same proportion as the cost of the actually completed quantities bears to the cost of the originally estimated quantities in the proposal. Such increase in the contract time shall not consider either cost of work or the extension of contract time that has been covered by a change order or supplemental agreement. Charges against the contract time will cease as of the date of final acceptance.

80-08 Failure to complete on time. For each calendar day or working day, as specified in the contract, that any work remains uncompleted after the contract time (including all extensions and adjustments as provided in paragraph 80-07, *Determination and Extension of Contract Time*) the sum specified in the contract and proposal as liquidated damages (LD) will be deducted from any money due or to become due the Contractor or their own surety. Such deducted sums shall not be deducted as a penalty but shall be considered as liquidation of a reasonable portion of damages including but not limited to additional engineering services that will be incurred by the Owner should the Contractor fail to complete the work in the time provided in their contract.

Liquidated Damages are provided for in the Construction Contract.

80-09 Default and termination of contract. The Contractor shall be considered in default of their contract and such default will be considered as cause for the Owner to terminate the contract for any of the following reasons, if the Contractor:

a. Fails to begin the work under the contract within the time specified in the Notice to Proceed, or

b. Fails to perform the work or fails to provide sufficient workers, equipment and/or materials to assure completion of work in accordance with the terms of the contract, or

c. Performs the work unsuitably or neglects or refuses to remove materials or to perform anew such work as may be rejected as unacceptable and unsuitable, or

d. Discontinues the execution of the work, or

e. Fails to resume work which has been discontinued within a reasonable time after notice to do so, or

f. Becomes insolvent or is declared bankrupt, or commits any act of bankruptcy or insolvency, or

g. Allows any final judgment to stand against the Contractor unsatisfied for a period of 10 days, or

h. Makes an assignment for the benefit of creditors, or

i. For any other cause whatsoever, fails to carry on the work in an acceptable manner.

Should the Owner consider the Contractor in default of the contract for any reason above, the Owner shall immediately give written notice to the Contractor and the Contractor's surety as to the reasons for considering the Contractor in default and the Owner's intentions to terminate the contract.

If the Contractor or surety, within a period of 10 days after such notice, does not proceed in accordance therewith, then the Owner will, upon written notification from the RPR of the facts of such delay, neglect, or default and the Contractor's failure to comply with such notice, have full power and authority without violating the contract, to take the execution of the work out of the hands of the Contractor. The Owner may appropriate or use any or all materials and equipment that have been mobilized for use in the work

and are acceptable and may enter into an agreement for the completion of said contract according to the terms and provisions thereof, or use such other methods as in the opinion of the RPR will be required for the completion of said contract in an acceptable manner.

All costs and charges incurred by the Owner, together with the cost of completing the work under contract, will be deducted from any monies due or which may become due the Contractor. If such expense exceeds the sum which would have been payable under the contract, then the Contractor and the surety shall be liable and shall pay to the Owner the amount of such excess.

80-10 Termination for national emergencies. The Owner shall terminate the contract or portion thereof by written notice when the Contractor is prevented from proceeding with the construction contract as a direct result of an Executive Order of the President with respect to the execution of war or in the interest of national defense.

When the contract, or any portion thereof, is terminated before completion of all items of work in the contract, payment will be made for the actual number of units or items of work completed at the contract price or as mutually agreed for items of work partially completed or not started. No claims or loss of anticipated profits shall be considered.

Reimbursement for organization of the work, and other overhead expenses, (when not otherwise included in the contract) and moving equipment and materials to and from the job will be considered, the intent being that an equitable settlement will be made with the Contractor.

Acceptable materials, obtained or ordered by the Contractor for the work and that are not incorporated in the work shall, at the option of the Contractor, be purchased from the Contractor at actual cost as shown by receipted bills and actual cost records at such points of delivery as may be designated by the RPR.

Termination of the contract or a portion thereof shall neither relieve the Contractor of their responsibilities for the completed work nor shall it relieve their surety of its obligation for and concerning any just claim arising out of the work performed.

80-11 Work area, storage area and sequence of operations. The Contractor shall obtain approval from the RPR prior to beginning any work in all areas of the airport. No operating runway, taxiway, or air operations area (AOA) shall be crossed, entered, or obstructed while it is operational. The Contractor shall plan and coordinate work in accordance with the approved CSPP and SPCD.

END OF SECTION 80

SPECIAL PROVISIONS TO THE CMAR CONTRACT

SECTION 10

GENERAL

10.01 OWNER

Wherever the word Owner, Sponsor, or Municipality appears in these specifications it shall be construed to mean the PHOENIX-MESA GATEWAY AIRPORT AUTHORITY, a joint powers airport authority authorized by the State of Arizona. The Owner's contact is:

Mr. Bob Draper, P.E. – Engineering and Facilities Director

Phoenix-Mesa Gateway Airport Authority

5835 South Sossaman Road

Mesa, Arizona 85212-0919

Phone: 480.988.7705

Facsimile: 480.988.2315

10.02 NOT USED

10.03 LOCATION OF THE WORK

Phoenix-Mesa Gateway Airport is owned and operated by Phoenix-Mesa Gateway Airport Authority. The work is located in Mesa, Arizona on Ray Road, East of Sossaman Road.

10.04 GENERAL DESCRIPTION OF THE WORK AND CONTRACT SCHEDULE

The North Economy Parking Lot Expansion project may be funded by Passenger Facility Charges (PFC's) and the Authority. The sponsor of this project is the Authority.

The intent of the North *Economy Parking Lot Expansion* project is to expand parking. Phoenix -Mesa Gateway Airport has experienced unprecedented growth and requires additional parking capacity immediately to maintain the ability to meet customer demand. North Economy Parking Lot expansion plans were developed in 2012 provides for an additional 1263 and 1643 parking spaces in a base bid and add alternate bid scenario. The Airport intends to contract with a CMAR to construct what is

referred to on the construction plans as base bid, 1263 +/- additional parking spaces. The existing plans will not be updated but will be used as the basis of what is expected to be completed. Approximately 600 available parking spaces are needed no later than June 27, 2022. Parking lot lighting and a shuttlebus pickup location will be required for the initial phase. The remainder of the project and all improvements will be required to be in-place and accepted no later than November 18, 2022. It is anticipated that the existing fence line will remain with swing gates added as the additional parking spaces will be considered overflow and not routine use.

10.05 SPECIFICATIONS AND CONTRACT DOCUMENTS

The following documents, labeled as:

PROJECT NAME: North Economy Parking Lot Expansion

Authority Project No. 1241

Authority Solicitation No. 2022-018-RFQ

10.06 SCHEDULE OF DRAWINGS

All construction plans sheets bearing an approval and date of approval are hereby made a part of the Contract, Contract Documents, and Specifications by reference.

10.07 RFI SUBMITTAL PROCESS

Should it appear that the work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the CMAR shall submit a Request for Information (RFI) to the Owner/Engineer. Such request shall clearly state the CMAR's question or concern, reference the specification or plan sheet in question and state the date the request is submitted and the date by which the CMAR must have an answer in order not to delay CMAR operations. CMAR shall submit an RFI as soon as possible after having discovered need for additional information or clarification. The Owner/Engineer shall provide such further explanations as may be necessary and the CMAR shall conform to them as part of the contract. In the event of any doubt or question arising respecting the true meaning of these specifications, the Special Provisions or the plans, reference shall be made to the Owner/Engineer, whose decision thereon shall be final.

END SECTION 10

SECTION 20

CONTRACT ITEMS

20.01 LICENSING

It is the responsibility of the offeror to determine whether the offeror has the appropriate contracting licenses to perform the work. The Owner will make the award, if any, to the most qualified offeror who has the proper licenses. The offeror is required to have the licenses at the time of bidding. Licensing information is available from the Arizona Registrar of CMARs.

20.02 ERRORS AND OMISSIONS

Minor errors or omissions in the Proposal Form, Plans, or Specifications shall not relieve the CMAR from fulfilling the general intent of the Contract or from completing any item or items called for in the Plans, Specifications, or Proposal Form.

20.03 UNIFORM STANDARDS FOR PUBLIC WORKS CONSTRUCTION

The Maricopa Association of Governments Standard Details and Specifications that are not altered or modified by the plans or project specifications contained herein shall apply to this project even though the CMAR's attention is not specifically drawn to such provisions. In the event of any conflict between the contract documents for this project and these Standard Specifications, the Contract Documents for this project shall prevail.

20.04 PERMITS

It is the responsibility of the CMAR to acquire and pay for all necessary permits as required for work performed at Phoenix-Mesa Gateway Airport. The CMAR is responsible for the cost of, but not limited to, federal clean water act, air quality permits, water meters, water and sewer taps, fire lines and taps, and all water bills on the project until the project is finally accepted. This provision does not constitute an assumption by the Phoenix-Mesa Gateway Airport Authority of an obligation of any kind for violation of said permit or notice requirements. The cost of all required permits shall be included as non-pay items.

20.05 TAXES

Each offeror and the CMAR shall thoroughly familiarize himself with all laws, ordinances, regulations and rules required for the payment of taxes, and each Offeror and the CMAR are

responsible for checking with the State of Arizona and the Maricopa County on items that may be exempt and the steps which should be taken to obtain such exemption. Each offeror shall include the current approved City of Mesa sales tax and State of Arizona sales tax for the work that is included in the GMP. See Additional tax requirements under Article 3.7 of the General Conditions.

20.06 ACCESS TO DOCUMENTS, RECORDS, ETC

Phoenix-Mesa Gateway Airport Authority, or any of their duly authorized representatives shall be allowed access to any books, documents, papers, and records of the CMAR which are directly pertinent to the project for the purpose of making audit, examinations, excerpts, and transcriptions.

20.07 CONSTRUCTION COST INFORMATION

The CMAR shall furnish any and all cost information requested by the Owner/Engineer. The Phoenix-Mesa Gateway Airport Authority or any of their authorized representatives shall be allowed access to any books, documents, papers and records of the CMAR that are directly pertinent to this Project for the purpose of making audit, examination, excerpts and transcriptions.

20.08 FINAL PAYMENT

Upon satisfactory completion of all items called for in the Contract and in accordance with the approved plans and specifications, the CMAR shall furnish to the Owner/Engineer, a CMAR's Affidavit Regarding the Settlement of Claims;, an original Affidavit acknowledging that all Subcontractors, Material Suppliers, Payrolls, Bills for Materials and Equipment, and other indebtedness connected with the work have been paid or are otherwise satisfied, an original Certificate evidencing that Insurance required by Section 11.2 of the *General Conditions* to the CMAR Contract is currently in effect and will not be canceled or allowed to expire until at least 30-days prior written notice has been given to the Owner, a written statement that the CMAR knows of no reason that the insurance will not cover the period required by Section 11.2 of the *General Conditions* to the CMAR Contract, a written consent of the Surety to Final Payment, Record Drawings with a certification that the drawings are accurate and complete, five (5) sets of Operation and Maintenance manuals, indexed and bound, containing manufacturer's warranties, instructions for maintenance and operation of each item of equipment and apparatus, an original, with notary signature, Full and Final Release and Waiver on Liens from the CMAR and for each Subcontractor and Material Supplier, that documents that they have been paid in full, Certificate of Completion, Written 1-year Warrantee, due at

final completion, and other required documentation as provided for in Article 9.9 of the *General Conditions* to the CMAR Contract. The CMAR shall also be required to furnish the Owner with sworn affidavits attesting that all Subcontractors, employees, materials suppliers, mechanics, etc. have been paid in full, for all debts incurred by the CMAR for work on this Contract. Upon receipt of the above clearances, and as listed elsewhere in these Contract Documents, the CMAR will receive full payment for the entire amount of his Contract, less previous progress payments as provided for in the General Provisions of these specifications.

20.09 LIEN RELEASE

The CMAR shall submit monthly to the Owner/Engineer, a lien release which documents that all subcontractors and material supplies have been paid for the previous months' work. No payment for the current month will be made until the CMAR has provided all lien releases for the previous month.

20.10 CLEAN WATER ACT

This project shall comply with all requirements and conditions for water quality standards and air quality regulations.

20.11 CONDITIONS FOR WATER QUALITY CERTIFICATION

No disposal of construction or demolition wastes, wastewater, contaminated water or any other potential pollutant will be authorized.

Runoff and seepage from runways, taxiways, roadways, embankments, or other alterations of the natural environment must not cause a violation of Water Quality Standards for Navigable Waters, A.A.C. Title 18, Chapter 11, Article 1.

All off-site material sources for the project must have valid and current permits under the Federal Clean Water Act, Sections 402 (NPDES) and 404 (Dredge and Fill) and the State Aquifer Protection Program, where necessary. Facilities and activities not covered by individual permits under these programs are not exempt from the duty to comply with water quality standards, and will be subject to compliance action, including possible closure by ADEQ if violation is documented. Other permits pertaining to air quality may be required for material sources and are the responsibility of the applicant or his agent(s).

Water for dust suppression shall not contain contaminants that could violate ADEQ water quality standards for surface waters or aquifers.

Practices to avoid or minimize damage to floodplain ecosystems, including riparian zones and wetlands, should be considered during project planning, construction and operation, consistent with the Final Report and Recommendations of the Governor's Riparian Habitat Task Force of October, 1990 and Executive Order 89-16.

Pollution from the operation of equipment in the construction area must be immediately removed from and properly disposed. Spills must be cleaned up and properly disposed of. Erosion control and/or other bank protection features should be used to minimize soil loss where appropriate.

Debris (such as soil, silt, sand, rubbish, cement, asphalt, oil or petroleum products, organic materials, tires, or batteries) derived from construction or demolition activities must not be deposited at any site where it may be washed into a watercourse.

20.12 CONDITIONS FOR AIR QUALITY CERTIFICATION

Portable sources of air pollution such as rock, sand, gravel, and asphaltic concrete plants are required to receive Installation and Operating Permits from the Office of Air Quality in order to operate in Arizona. Air quality certification is conditional upon all regulated sources obtaining and complying with air quality permitting requirements and applicable state air quality rules.

The applicant must provide a copy of these Air and Water Quality Certification Conditions to all subcontractors. The applicant must also post a copy of the conditions in a weather resistant location at the construction site where the workers may observe it.

20.13 PAY ITEMS

All pay items relating to the work indicated in these contract documents are listed in the bid proposal sheet. The CMAR shall include all necessary costs to complete this project within these items. Any work necessary to complete the project as represented in the Plans and Specifications that is not specifically noted as a pay item on the bid proposal sheet shall be considered incidental to the project and no separate payment will be made.

END SECTION 20

SECTION 30

PRECONSTRUCTION CONFERENCE AND SUBMITTALS

30.01 PRECONSTRUCTION CONFERENCE

The CMAR's project superintendent, the Construction Administration Resident Engineer & Inspector, an FAA representative (if needed), the Owner/Engineer and Phoenix-Mesa Gateway Airport Authority staff shall attend a pre-construction conference, conducted by the Project Manager to discuss the following subjects.

30.01.1 GENERAL INTEREST AND SAFETY ITEMS

1. The scope of the project and the sequence and timing of all operations. Submission of CMAR's construction schedule and barricade plan.
2. Relationship of the resident engineer to the sponsor with emphasis on the authority of the resident engineer to act in the sponsor's behalf.
3. Advise that the Owner has the authority to suspend operations, wholly or in part, when safety violations or nonconformance to the contract specifications are noted.
4. Relationship between ADOT Aeronautics, the FAA, and the Sponsor.
5. Identification of the CMAR's superintendent and a discussion of his/her authority and responsibilities.
6. Designation of sponsor representative responsible for notifying the Flight Service Station serving the airport of the proposed start and completion dates of construction or any circumstances requiring a NOTAM.
7. Scheduling of work and the need to perform certain items at various stages of the project, including operational safety problems that might arise because of the proposed work.
8. Discuss the notice to proceed date.
9. Operational Safety on Airports during construction, including the responsibility for marking and lighting of closed and hazardous areas, (see FAA Advisory Circulars 150/5370-2 (latest version) and 150/5340-1, *Operational Safety on Airports During Construction* and *Standards for Airport Marking*, (latest version) for detailed information).
10. Security requirements.
11. All responsible parties must be alert to the following hazard-producing situations that may develop during the construction period.
    a. Open trenches and settlement of backfill adjacent to pavement.
    b. Pavement "drop offs" or "lips" at pavement tie-in areas.

c. The obliteration, inadvertent relocation or disturbance of the marking and/or lighting of displaced threshold and marking of closed runways or taxiways.

d. Damage to existing in-use pavement lighting, marking or NAVAIDS by construction forces.

e. Spillage from vehicles on active airport pavement.

f. Temporary stockpiling of material for an extended period of time.

g. CMAR vehicular traffic through restricted critical areas of NAVAID facilities and the airport operating area.

h. Dust control and environmental factors, such as burning, waste disposal, etc.

i. Maintenance of sanitary facilities on the project site.

30.01.2 CONSTRUCTION ITEMS

1. The general requirements of quality control and testing to be discussed. It should be clearly understood who will do the testing, what is to be tested, when it is to be tested, and the location and number of tests.

2. Discussion of Test Reports. Each report should, as a minimum, contain the following information.

   a. Test performed.

   b. Applicable standard.

   c. Test location.

   d. Test result.

   e. Action taken for failing tests.

A copy of all test reports shall be furnished to the resident Owner/Engineer in a timely manner. Failing test results should be reported to the resident Owner/Engineer immediately. the Owner is not obligated to financially participate in construction that does not meet contract plans and specifications.

3. Emphasize the Role of the Project Manager. Duties include the following:

   a. Ensure all required testing is performed.

   b. Ensure tests are performed at the frequency stated in the specifications. If not stated in the specifications make sure an adequate number of tests are taken to document an acceptable level.

c. Review test results for conformance to specifications.

d. Inform the CMAR of deficiencies so that corrections can be made and retests performed prior to covering any substandard work with additional material.

e. Maintain record of quantity of materials used on the project.

f. Maintain copies of test reports on file.

g. Maintain a diary. Contents of a diary should include:

(1) Weather conditions and temperature.

(2) Work in progress and location.

(3) Equipment in use - types and numbers.

(4) Size of work force including supervision.

(5) Hours worked per day for CMAR or subcontractors.

(6) Materials delivered.

(7) Any instructions to the CMAR.

(8) Principal visitors.

h. Maintain set of working drawings that can be used to prepare "as-constructed" drawings. Record drawings to be furnished by the CMAR.

4. Discussion of periodic construction report, *Construction Progress and Inspection Report* (FAA Form 5370-1).

5. Change orders, time extensions, periodic cost estimates, and liquidated damages.

30.01.3 LABOR REQUIREMENTS.

Labor requirements including items such as minimum wage rates, employee classification and payrolls, and review of payrolls.

30.01.4 NOT USED.

30.01.5 ENVIRONMENTAL.

Comply with applicable federal, state, and local, air and water quality standards during construction and any environmental mitigation actions resulting from the environmental coordination process.

30.01.6 ARCHAEOLOGICAL AREAS.

Comply with applicable federal, state, and local preservation standards in archaeological areas during construction. If during construction the CMAR discovers what may be an archaeological site, a suspected human burial site, or the remains of any ancient structure and/or artifacts, the CMAR shall immediately cease performance of services in said areas and promptly notify Owner of the location of such sites. The CMAR is directed to Article 13.15 in the *General Conditions* for further information

30.02 CONSTRUCTION SCHEDULE

The CMAR shall submit to the Owner/Engineer for review, its proposed construction schedule within ten (10) calendar days from the date of award of the contract, see Article 3.11 of the *General Conditions* to the *CMAR Contract*. The contract time is based on a seven (7) days per week schedule except for Holidays. There will be no work without written authorization from the Owner, with the exception to vacuum sweeping to clean up of foreign object debris, as described in the following:

a. The night shift prior to Memorial Day
b. All day on Memorial Day;
c. The night shift on Memorial Day;
d. The night shift prior to the 4th of July;
e. All day on the 4th of July;
f. The night shift on the 4th of July;
g. The night shift prior to Labor Day;
h. All day on Labor Day;
i. The night shift of Labor Day;
j. The night shift prior to Thanksgiving Day;
k. All day on Thanksgiving Day;
l. The night shift on Thanksgiving Day;
m. All day on the day after Thanksgiving Day
n. The night shift the day after Thanksgiving Day
o. The night shift on Christmas Eve;
p. All day on Christmas Day;
q. The night shift on Christmas Day;
r. The night shift on New Year's Eve;
s. All day on New Year's Day;
t. The night shift on New Year's Day.

1. Arrange schedule to indicate required sequencing of work as outlined below and in the Contract Documents, and to indicate time allowances for submittals, inspections, and similar time margins.

2. Schedule shall reflect CMAR's modifications and suggested revisions to work sequencing indicated in the Contract Documents. The Owner reserves the right to approve or disapprove such modifications or revisions.
3. Review and recognition of this schedule shall not relieve the CMAR of responsibility for scheduling of the work and maintaining progress in accordance with the Contract Documents. Schedule shall be submitted and reviewed for comment by Owner and for conformance to Critical Milestone Completion Dates and overall project completion time criteria. Lack of this information shall be cause for rejection of schedule. Partial payment requests will not be processed without a revised CPM schedule.
4. In addition to the construction related work items, the following shall be included:
   - Critical submittal dates related to each activity or prepare separate coordinated listing of critical submittal dates.
   - Sequences of work within each activity that involves purchase lead-time, mock-ups, testing, or similar phases, as well as installation.
   - The CPM Construction Schedule shall relate to the entire project to the extent required by the Contract Documents and shall provide for expeditious and practicable execution of the work.
5. The following items define the term "activities" as it pertains to the Trades in the CMAR's CPM network:
   - Each activity shall be a unit of work that requires an amount of time for its performance.
   - Each activity shall be a logically separate part of the work, defined by an observable start and an observable finish.
   - To establish the scope of an activity for CPM purposes, Trade CMAR shall form a single activity from the largest grouping of related operations which permit a continuous and measurable flow of work and which can proceed without affecting or being affected by work of another Trade CMAR.
   - The scope of an activity shall be small enough to permit a reasonable appraisal of its status or as directed by the Owner/Engineer.
   - Activities of other contractors or other subcontractors that must be completed prior to the start of the Trade subcontractors work or portion of work shall be included in the Trade subcontractors schedule as milestones and identified with a designation approved by the CMAR.
6. The following information shall be furnished on the network diagram for each activity in the Trade CMAR's schedule:
   - Description of the activity.
   - Duration of the activity in days.

- Who will be performing the activity (CMAR, supplier or subcontractor company name)
- Each activity shall be identified with early/late start, early/late finish, and total float.

30.03 SHOP DRAWINGS AND SUBMITTALS

Refer to Article 3.13 of the *General Conditions* to the CMAR Contract for other requirements for shop drawings, product data and samples. Shop drawings and submittals shall be furnished by the CMAR and shall include such details as may be required to control the work adequately and are not included in the contract documents.

The CMAR shall furnish an adequate number of copies of shop drawings and submittals to allow the Owner/Engineer to retain four (4) copies allowing two (2) weeks for review. The Owner/Engineer will review all shop drawings and submittals for general compliance with the contract documents and no responsibility is assumed for correctness of dimensions or details. The Owner/Engineer will indicate his action taken in response to the submittal or shop drawing by affixing a review stamp and indicating the action as follows:

"No Exceptions Taken", which means reviewed for construction, fabrication or manufacturer, subject to the provision that the work shall be in accordance with the requirements of the contract documents. Final acceptance of the work shall be contingent upon such compliance.

"Make Corrections Noted", which means unless otherwise noted on the drawings reviewed for constructing, fabrication or manufacture, subject to the provision that the work shall be carried out in compliance with all annotations or corrections indicated and in accordance with the requirements of the contract documents. Final acceptance of the work shall be contingent upon such compliance.

"Amend and Resubmit", which means the review as noted is valid, and a corrected submittal is required.

"Rejected", which means that deviations from the requirements of the contract exists in the submittal such that no work based on such drawings or submittal shall be constructed, fabricated, or manufactured. The CMAR shall revise the drawing in compliance with the Owner/Engineer's annotations and pursuant to all requirements of the contract and shall resubmit the drawing or submittal to the Owner/Engineer for another review.

The CMAR shall submit for review, a proposed schedule of submittals, shop drawings, working drawings, supplemental drawings, product data and samples as necessary to control the work

adequately. A partial, example list of submittals has been made for reference and the list may not be complete and may be revised from time to time as the project progresses, as follows:

1. Operation and Maintenance Manuals.
2. Names and Resumes of Superintendent and Staff.
3. CMAR's Construction Schedule due 10 calendar days after the Notice of Award.
4. Updated CMAR's Construction Schedule (due with each monthly progress payment application).
5. A Submittal Schedule (due 10 calendar days after the Notice of Award, and due monthly).
6. Material Status Report (due monthly).
7. Manpower Schedule (due monthly).
8. Record Drawings.
9. A Schedule of Values.*
10. CMAR's Emergency Name and Phone Number List (FAA Project Requirements)*
11. A List designating those portions of the work to be performed by Subcontractor's and the CMARs own forces.
12. A List of Subcontractors and Material Suppliers with an Experience Statement
13. A Lien Release documenting that all Subcontractors and Material Suppliers have been paid for the previous months work, monthly submission required.
14. Written Safety Program for the work.
15. Copy of all Subcontracts, including Material Suppliers.
16. Duplicate Original Certified Payroll Reports and Statement of Compliance, with sworn affidavits from the CMAR (submitted weekly).
17. A List of Proposed Construction Equipment (FAA Project Requirement)*
18. Construction Cost Information, as requested by the Owner/Engineer.
19. Three (3) week look ahead Project Schedule at Weekly Construction Meetings.
20. CMAR Certification that the Initial Verification of the Control Points established are acceptable.
21. CMAR Certification of Calculations and Measurements to fully support the derivation of all Monthly Pay Quantities.
22. A Barricade Plan and Traffic Control Plan. *
23. Shop Drawings for all Temporary Taxiway Signs.
24. A Construction Safety and Phasing Plan Compliance Document. *
25. CMAR's Quality Control Plan, to be submitted 5-days prior to the pre-construction

conference.

26. CMAR's Quality Control Records, including Daily Inspection Reports and Daily Test Reports, to be submitted daily.
27. National Pollutant Discharge Elimination System Site Construction Permittee Inspection Checklist
28. Storm Water Pollution Prevention Plan Notice of Termination.
29. A Letter of Certification stating that all Dowel Bars used meet the requirements of the Contract Documents.
30. A Certified Copy of the test reports for the Preformed Joint Sealer, and the Preformed Joint Sealer Lubricant (If Applicable).
31. CMAR's Affidavit Regarding Settlement of Claims.
32. Submit an original Affidavit acknowledging that all Subcontractors, Material Suppliers, Payrolls, Bills for Materials and Equipment, and other indebtedness connected with the work have been paid or otherwise satisfied.
33. An original Certificate evidencing that Insurance required by the General Conditions to the CMAR Contract is currently in effect and will not be canceled or allowed to expire until at least 30-days prior written notice has been given to the Owner.
34. A written statement that the CMAR knows of no reason that the insurance will not cover the period required by the General Conditions to the CMAR Contract.
35. A written consent of the Surety to Final Payment.
36. Record Drawings with a certification that the drawings are accurate and complete.
37. Five (5) sets of Operation and Maintenance manuals, index and bound, containing manufacturer's warranties, instructions for maintenance and operation of each item of equipment and apparatus.
38. An original, with notary signature, Full and Final Release and Waiver on Liens from the CMAR and for each Subcontractor and Material Supplier, that documents that they have been paid in full.
39. Certificate of Completion.
40. Written 1-year Warrantee, due at final completion.

*Indicates the submittal is due at the pre-construction conference.

Each submittal shall be numbered sequentially and shall be submitted in accordance with the above schedule, as amended from time to time, so as to cause no delay in the work schedule. The CMAR shall certify each submittal and shop drawing by providing an original letter (on CMAR's letterhead) to the Owner/Engineer that he has <u>reviewed and approved</u> the submittal

and that it conforms to the requirements of the contract documents. If this original certification is not included, the submittal and/or shop drawing will be returned without action. At the time of each submittal, the CMAR shall define and delineate in writing, separate from the certification, any deviations from the contract documents. If the Owner/Engineer accepts this deviation, he will authorize the deviation by issuing a change order or if the deviation is minor by endorsement to the letter.

The Owner/Engineer's review will be only for general conformance with the design concept of the work and for compliance with the information contained in the contract documents. The review of a specified item, as such, will not indicate review of the assembly or in which the item functions. Review by the Owner/Engineer will not relieve the CMAR from responsibility for any errors or omissions in the submittals or shop drawings nor from his responsibility for complying with the Contract Documents. The only exception is deviations accepted in accordance with the preceding paragraph.

END SECTION 30

SECTION 40

CONTROL OF WORK

40.01 DAMAGE TO EXISTING PROPERTY

CMAR will be held responsible for any damage to existing structures, work, materials, or equipment because of his operations and shall repair or replace any damaged structures, work, materials, or equipment to the satisfaction of, and at no additional cost to the Owner.

CMAR shall protect all existing structures and property from damage and shall provide bracing, shoring, or other work necessary for such protection. CMAR shall be responsible for all damage to street, roads, curbs, sidewalks, highways, shoulders, ditches, embankments, culverts, bridges, fences, or other public or private property, which may be caused by transporting equipment, materials, or men to or from the work. CMAR shall make satisfactory and acceptable arrangements with the agency having jurisdiction over the damaged property concerning its repair or replacement.

40.02 STORAGE OF MATERIALS AND EQUIPMENT

Equipment and stockpiled materials may be stored in areas on the project site provided they are kept below a maximum height of 8 feet and not within any safety areas or Part 77 surfaces. Airport Operations shall approve all areas of storage.

40.03 ACCESS ROADS

The CMAR shall establish and maintain permanent and temporary access roads to various parts of the site as required in the drawings or as required to complete the Project. Unless otherwise noted on the plans or approved by the Authority, temporary roads or vehicular traffic will not be permitted within the designated archaeologically sensitive areas. Such roads shall be available for the use of all others performing work or furnishing services in connection with the Project. In addition, they must be out of the areas of the project that are open to aviation traffic. Approval of the Owner/Engineer is required for all desired locations. **The CMAR is required to inspect and videotape all existing areas of work, access and haul roads anticipated to be used by the CMAR prior to the start of construction, with the accompany of the Owner or Resident Engineer.** The CMAR will be required to maintain all access and haul routes used during the course of the work during construction and return them to their original condition at the completion of construction.

40.04 FENCES

The CMAR shall maintain all existing fences and gates affected by the work until completion of the work. Fences and gates that interfere with construction operations shall not be relocated or dismantled until

written permission is obtained from the Owner, and the period the fence may be left relocated or dismantled as has been agreed upon. On completion of the work, the CMAR shall restore all fences, at their own expense, to their original or to a better condition and to their original location or as indicated on the drawings.

40.05 PARKING

The CMAR shall provide and maintain suitable parking areas for the use of all construction workers and others performing work or furnishing services in connection with the project, as required to avoid any need for parking personal vehicles where they may interfere with public traffic, Owner's operations, or construction activities. The CMAR's parking area will be located at the staging area upon approval of Airport Operations for security access. Vehicles with access into the Airport property require insurance as described in Article 11 of the *GENERAL CONDITIONS*.

40.06 DUST CONTROL

The CMAR shall take reasonable measures to prevent unnecessary dust. Earth surfaces subject to dusting shall be kept moist with water or by application of a chemical dust suppressant. Dusty materials in piles or in transit shall be covered to prevent blowing. Suitable dust screens shall protect existing or new machinery, motors, instrument panels or similar equipment. Proper ventilation shall be included with dust screens. County Dust permits are required and are a non-pay-item.

40.07 DRAINAGE PROVISIONS

The CMAR shall provide for the drainage of storm water and such water as may be applied or discharged on the site in performance of the work. Drainage facilities shall be adequate to prevent damage to the work, the site, and adjacent property. Existing drainage channels and conduits shall be cleaned, enlarged or supplemented as necessary to carry all increased runoff attributable to CMAR's operations. Dikes shall be constructed as necessary to divert increased runoff from entering adjacent property (except in natural channels), to protect Owner's facilities and the work, and to direct water to drainage channels or conduits. See Technical Specification P-156 for additional requirements.

40.08 EROSION CONTROL

CMAR shall prevent erosion of soil on the site and adjacent property resulting from his construction activities. Effective measures shall be initiated prior to the commencement of clearing, grading, excavation, or other operation that will disturb the natural protection. Work shall be scheduled to expose areas subject to erosion of the shortest possible time. Temporary storage and construction buildings shall be located, and construction traffic routed, to minimize erosion. See Technical Specification P-156 for additional requirements.

40.09 POLLUTION CONTROL

CMAR shall prevent the pollution of drains and watercourses by sanitary wastes, sediment, debris and other substances resulting from construction activities. No sanitary wastes will be permitted to enter any drain or watercourse other than sanitary sewers. No sediment, debris or other substance will be permitted to enter sanitary sewers and reasonable measures will be taken to prevent such materials from entering any drain or watercourse. See Technical Specification P-156 for additional requirements.

40.10 EXCESS MATERIAL

Unsuitable material, broken asphaltic concrete, construction debris, and broken Portland cement concrete resulting from the construction shall be removed from the project and disposed of at an offsite location (landfill) by the CMAR at the CMAR's expense.

40.11 CONSTRUCTION DEBRIS

The CMAR shall use his own forces and equipment to dispose of site refuse or construction debris at an offsite location (landfill).

40.12 CLEAN-UP

The CMAR shall upon completion of the work remove all temporary construction facilities, debris, and unused materials provided for in the work, and restore the site of the work and public right-of-way in a neat and clean condition.

40.13 WEEKLY PROGRESS MEETINGS

The Owner/Engineer will conduct weekly Progress Meetings at regularly scheduled times convenient for all parties involved. A three (3) week look-ahead schedule will be developed by the CMAR prior to the start of the meeting and will be discussed by the CMAR during a portion of the agenda. Additionally, discussions will address administrative and technical issues of concern, determining resolutions and development of deadlines for resolution within allowable time frames.

As may be required by the Owner/Engineer, in addition to representatives of the Phoenix-Mesa Gateway Airport Authority and the CMAR, each subcontractor, supplier or other entity concerned with current progress or involved in planning, coordination or performance of future activities may be represented at these meetings by individuals directly involved with the Contract and authorized to conclude matters relating to progress.

During the weekly construction meeting, there will be review and corrections (if any) and approve the meeting minutes of the previous progress meeting prepared by the Owner/Engineer. The meeting minutes may be tape recorded and will document issues of significance including submittals, schedules, quality control, issues encountered, and the assignment of responsibilities for future action. Other items of significance that could affect progress may be discussed, and the meeting will include topics for discussion as appropriate to the current status of the project, including:

Review progress since the last meeting. Determine where each activity is in relation to the CMAR's Construction Schedule, whether on time or ahead or behind schedule. Determine how construction behind schedule will be expedited; secure commitments from parties involved to do so. Discuss whether schedule revisions are required to ensure that current and subsequent activities will be completed within the Contract Time.

Review the present and future needs of each entity present, including such items as:

1. Work Schedule and Hours of Work
2. Quality and Work Standards

3. Access and Limitation
4. Submittal Status
5. Requests for Information
6. Non-Compliance Notices
7. Status on Certified Payroll Reports
8. Change Orders and/or Extra Work
9. Housekeeping

The Owner/Engineer may tape record the meeting and the Owner/Engineer will distribute a copy to the Owner and CMAR. The CMAR shall be responsible to distribute the meeting minutes to subcontractors, suppliers, and others affected by decisions or actions resulting from each meeting.

40.14 CONSTRUCTION SURVEYING LAYOUT

The CMAR shall set all construction stakes establishing lines, grades, and elevations to include necessary utilities and appurtenances and shall be responsible for their conformance with plans and specifications. The Owner/Engineer will establish or designate (within the plan sheets) a control line or benchmark of known location and elevation for use as a reference. The CMAR shall furnish all materials, personnel and equipment necessary to perform all surveying, staking and verification of the accuracy of all existing control points, which have been provided by the Owner/Engineer and/or Phoenix-Mesa Gateway Airport Authority. Included in this work shall be all calculations required for the satisfactory completion of the project in conformance with the plans and specifications. The work shall include establishing and marking “Record Drawings” coordinates and elevations on survey monuments and other designated locations. The work shall be done under the direction of a registered land surveyor employed by the CMAR. All survey crew chiefs shall be either a registered Civil Engineer, a registered Land Surveyor, an Engineer-in-Training, or a NICET Level III (or a higher NICET level) certified technician.

Materials and equipment shall include, but shall not necessarily be limited to, vehicles for transporting personnel and equipment, properly adjusted and accurate survey equipment, straightedges, stakes, flagging and all other devices necessary for checking, marking, establishing and maintaining lines, grades and layout to perform the work called for in the contract. The CMAR shall furnish a sufficient quantity of competent personnel to perform the survey work and layout.

The CMAR shall not employ nor engage the services of any person or persons in the employ of the Owner/Engineer or the Phoenix-Mesa Gateway Airport Authority for the performance of any work as described herein.

a. Field Books. The CMAR shall furnish and use bound field books for recording survey data and field notes. These books shall be available for inspection by the Owner/Engineer at any time and shall become property of the Owner upon completion of the work.

b. Initial Verification. Prior to setting any construction stakes the CMAR shall first verify the accuracy of the control points established by the Owner/Engineer. If errors are discovered during this verification process, and the control points do not agree with the geometry shown in the plans, the CMAR shall immediately notify the Owner/Engineer in writing, explaining the issue in detail. The Owner/Engineer will advise the CMAR within five (5) working days of any corrective actions, which may be deemed necessary. Secondly, upon completion of this verification process, the CMAR's registered Land Surveyor shall certify in writing, that all control points established by the Owner/Engineer are acceptable and adequate to allow the CMAR's construction staking to meet the accuracy requirements of the specifications.

c. General Description. After the CMAR's registered surveyor has submitted his written certification verifying the accuracy of the control points established by the Owner/Engineer, the CMAR shall set all stakes including, but not necessarily limited to: centerline stakes, offset stakes, reference point stakes, slope stakes, pavement lines, curb lines and grade stakes, stakes for sewers and waterlines, airfield drainage, pipe, underdrains, clearing, survey monuments, blue tops for subgrade, base and pavement courses, paint striping layouts, supplemental bench marks and permanent as-built elevation marks, as-built survey elevations of concrete pavement (all joints, corners of each panel) and asphalt base under concrete pavements at each concrete paving joint intersection, and the as-built elevations prior to placing the base course shall be obtained as well as all other horizontal or vertical controls necessary for complete and accurate layout of the construction work, and submitted to the Owner/Engineer.

d. Preservation. The CMAR shall exercise care in the preservation of stakes, references and benchmarks and shall reset them when any are damaged, lost, displaced or removed. Station and offset reference stakes shall be installed and maintained at all times on each side of the Taxiway and on each side of all connecting Taxiways at 100-feet intervals.

e. Discrepancies. Any discrepancies in the grade, alignment, quantities, locations or dimensions detected by the CMAR shall immediately be brought to the attention of the Owner/Engineer. Changes to the project plans will not be allowed without the written approval of the Owner/Engineer.

f. Random Inspections. The Owner/Engineer reserves the right to make inspections and random checks of any portion of the staking and layout work. If, in the Owner/Engineer's opinion, the work is not being performed in a manner that will assure proper controls and accuracy, he may order any or all of the staking and layout work re-done, or he can order

further staking to supplement the original work, both of which would be at no additional cost to the William Gateway Airport Authority.

g. Special Staking Requirements. Utility adjustments and Taxiway signs are a part of the Contract; therefore, the CMAR shall perform all layout work and set all control points, stakes and reference necessary for carrying out all such adjustments.

h. Monthly Pay Quantities. Measurement of all pay quantities will be the responsibility of the Owner/Engineer. However, the CMAR shall furnish the Owner/Engineer for each pay period, a certified set of calculations and measurements to fully support the derivation of all pay quantities.

i. Additional Work. If additional staking and layout are required as the result of additional work ordered by the Owner/Engineer, such work will be paid at the respective predetermined unit prices specified herein. The amount per hour for a two (2) person or three (3) person survey party, a survey manager and a registered land surveyor includes the cost of all work necessary to complete the extra work, including the CMAR's overhead, profit, bond, insurance and sales tax and extended general condition costs.

j. Measurement. Reference General Provisions Section 50-06 for measurement and payment.

40.15 SAMPLING AND TESTING

The Owner shall employ the official testing laboratory for acceptance testing. The CMAR shall employ the laboratory for quality control testing or plant calibration and it shall not be the same laboratory as the one employed by the Owner. The quality control measures by the CMAR shall be sufficient to produce materials of acceptable quality. The CMAR is required to provide and maintain a Quality Control Program, along with all the personnel, equipment, supplies and facilities necessary to obtain samples, perform tests, and otherwise assure the quality of the product(s). The Owner/Engineer may require the CMAR's technician to perform testing of samples to demonstrate an acceptable level of performance.

The CMAR shall utilize a statistical based procedure of random sampling that provides that all material being produced will have an equal chance of being selected for sampling and testing. The CMAR shall sample and test any material that appears inconsistent with similar material being sampled unless such material is voluntarily removed and replaced or corrected by the CMAR. All sampling shall be in accordance with standard AASHTO or ASTM procedures.

The CMAR is directed to General Provisions Section 50.06 for additional information, requirements, measurement and payment for Construction Survey and Staking.

40.16 RECORD DRAWINGS

The CMAR shall keep one or more copy of all specifications, plans (24x36 in size), any addenda issued during the bidding process, any modifications to the plans and contract documents during construction (i.e. ESI, RFI, etc.), working drawings and shop drawings at the site, and in good order. One set of 24x36 plans shall be continually annotated by the CMAR to show all changes made during the construction process as they occurred. Additionally, these plans shall be verified by a licensed land surveyor.

The Owner and/or Project Manager will review the completeness of the Record Drawings on a monthly basis prior to and as a condition of approval of the monthly progress payments.

Upon completion of the project and prior to submittal of the final application for payment, a single, complete, all-inclusive, annotated full set of plans showing all "As-Built" work together with any annotated working and Shop Drawings, RFI's, ESI's, and Change Orders of relevance shall be delivered to the Owner/Engineer for the Owner's record. At a minimum, the CMAR shall provide as-built elevations for each design grade that is shown on the plans. The CMAR shall provide stations and offsets for each handhole, manhole, light can/base, catch basin or other similar structure on the annotated set of record drawings. The "As-Built" set of plans must be sealed by a registered Arizona Surveyor.

END SECTION 40

SECTION 50

UTILITIES AND EXISTING FACILITIES

50.01 GENERAL

This item shall govern the field location of all underground existing utilities in areas to be improved, to avoid conflicts with proposed surface or underground improvement. Work under this section shall include, but not be limited to, the investigation and locating of all underground facilities. Underground facilities means any item that is buried or placed below ground for use in connection with the storage or conveyance of water, sewage, electronic, telephone or telegraphic communications, electric energy, oil, gas or other substances, and shall include, but not be limited to pipes, sewers, conduits, cables, valves, lines, wires, manholes, attachments and those portions of poles and their attachments below ground, including electrical and communication ducts, airfield lighting and control cables, fiber optic lines, storm drains, electrical and telephone lines. The CMAR shall employ a private utility location service to locate the existing Owner and non-Owner utilities prior to starting the work. The CMAR shall blue stake and pot hole and use prudent care when excavating and locating said utilities.

The CMAR shall, after October 1, 1988, comply with the State requirements regarding excavation and underground utilities per A.R.S., Chapter 2, Article 6.3. and other pertinent Sections of the Blue Stake Law. The Airport is not a member, but has distribution systems for gas, electrical, water, and sewer on the site. The CMAR shall be responsible for locating all Owner and non-Owner utilities.

The CMAR's attention is directed to the following Arizona Revised Statutes:

a. **ARS 40-360.22.** Excavations, determining location of underground facilities; providing information. This statute requires that no person shall begin excavation before the location and marking are complete or the excavator is notified that marking is unnecessary and requires that upon notification, the Owner of the facility shall respond as promptly as practical, but in no event later than two (2) working days. This section is not applicable to an excavation made during an emergency that involves danger to life, health or property if reasonable precautions are taken to protect underground facilities.

b. **ARS 40-360.23**. Making excavations in careful, prudent manner; liability for negligence. This statute states that obtaining information as required does not excuse any

person making any excavation from doing so in a careful and prudent manner no shall it excuse such persons from liability for any damage or injury resulting from his negligence.

c. ARS 40-360.28. Civil penalty; liability. If the Owner or operator fails to locate, or incorrectly locates the underground facility, pursuant to this article, the Owner or operator becomes liable for resulting damages, costs and expenses to the injured party.

50.02 EXISTING UTILITIES

The CMAR is hereby advised that the location of all utilities, as shown on the Plans, may not be complete nor exact and the CMAR shall satisfy himself as to the exact location of the utilities. The CMAR shall be responsible for any damage done to public or private property and shall be repaired at the CMAR's expense.

Location of any underground telephone lines may be field verified by calling the Blue Stake Center telephone number "Arizona 811". The CMAR is required by Blue Stake Center to call at least two (2) working days before digging. The CMAR shall locate all utilities that Blue Stake will not locate.

The following utilities companies may serve the Phoenix-Mesa Gateway Airport directly or can provide services as requested.

TABLE – Utility Companies for Existing Utilities and Flood Plain Information.

Utility	Description
Water	City of Mesa
Electrical	Salt River Project
Airport	Authority (Communications & Special Systems)
Telephone	Century Link and Cox (Telephone and Data)

Sanitary	City of Mesa
Drainage	Maricopa Flood Control District, (East Maricopa and Powerline Floodway)
Flood Plain	The project is within the 500-year flood plain.

The CMAR is to protect all existing facilities during construction. The CMAR shall notify the appropriate Utility Company or agency of any construction that may affect their facilities.

50.03 WATER FOR CONSTRUCTION PURPOSES

The CMAR, at their own expense, shall obtain and provide all water required for and in connection with the work to be performed. The CMAR shall remove all temporary waterlines installed by him, after completion of the work, if directed to do so by the Owner/Engineer.

It is the CMAR's responsibility to identify the water source, its compatibility, storage, and costs for all water requirements for this project. The CMAR must submit a water source and its intended use to the Owner/Engineer for approval. No direct payment will be made for construction water. The cost thereof shall be included in other items for which direct payment is made.

50.04 ELECTRICAL POWER

All power for lighting, operation of CMAR's plant or equipment, or for any other use as may be required in the execution of the work to be performed under the provision of these Contract Documents shall be provided by the CMAR at their expense. The CMAR shall remove all temporary electrical facilities installed by him, after completion of the work, if ordered to do so by the Owner/Engineer.

50.05 TELEPHONE SERVICE

The CMAR shall make all necessary arrangements with the telephone utility for telephones in his offices at the site and separate telephones, fax, high-speed internet, and a direct service

line in the office of the Owner/Engineer and shall pay all monthly charges therefore including long distance calls from the office of the Owner/Engineer. All CMARs and others performing work or furnishing services at the site shall be permitted to use the CMAR's telephone without charge for calls pertaining to the work.

50.06 SANITARY FACILITIES

CMAR shall furnish temporary sanitary facilities at the site, as provided herein, at their own expense, for the needs of all construction workers and other performing work or furnishing services on the Project. Sanitary facilities shall be of reasonable capacity, properly maintained throughout the construction period, and obscured from public view to the greatest practical extent. If toilets of the chemically treated type are used, at least one toilet will be furnished for each 20 men. CMAR shall enforce the use of such sanitary facilities by all personnel at the site.

END SECTION 50

SECTION 60

OPERATIONS, SAFETY AND SECURITY

The CMAR shall reference the Construction Safety and Phasing Plan for a comprehensive report of the safety procedures and requirements on this project.

60.01 DEFINITIONS

a. **Air Carrier Aircraft** - An aircraft with a seating capacity of more than 30 passengers that is being operated by an air carrier.

b. **Air Carrier Operation** - The takeoff and landing of an air carrier aircraft and includes the period of time from 15 minutes before and until 15 minutes after the takeoff or landing.

c. **Air Operations Area (AOA)** - Air operations area, paved or unpaved, is any area of the airport used for or intended for landing, takeoff, or surface maneuvering of aircraft including its associated runway, taxiway, or apron.

d. **Airfield Operations Specialist** – The Authority employee who monitors activities within the Airport Restricted Areas. Operations Specialists ensure a safe and secure operating environment is maintained on the airfield.

e. **Airport Marking Aids** - Marking used on runway and taxiway surfaces to identify a specific runway, a runway threshold, a centerline, a hold line, etc. A runway should be marked in accordance with its present usage such as: visual, non-precision instrument, precision instrument.

f. **Construction** - The presence and movement of construction-related personnel, equipment, and materials in any location that could infringe upon the movement of aircraft.

g. Escort - person authorized by the Authority to accompany CMAR personnel within the Airport Restricted Area. The escort shall accompany or monitor the activities of an individual(s) in a manner sufficient to take responsive action in a sized area approved by the Owner/Engineer. A proper escort is defined as maintaining visual monitoring, within reasonable voice range and being able to react to the actions of those under escort.

h. FAA - The Federal Aviation Administration, a branch of the U.S. Department of Transportation that regulates aviation and airport safety and certification.

i. FDC – Fire Department Connection.

j. FOD - Foreign Object Debris/Damage, meaning any object that is potentially hazardous to aircraft.

k. General Aviation - That portion of civil aviation which encompasses all facets of aviation except air carriers holding a certificate of public convenience and necessity from a Civil Aeronautics Board and Large aircraft commercial operators.

l. Haul Route - A specified path created for vehicles to maneuver within the Airport Restricted Area to/from a work site. Haul routes are subject to the approval of the Owner/Engineer in accordance with the contract documents.

m. Instrument Landing System (ILS) – An electronic visual approach guidance system used by aircraft during landing operations.

n. Movement Area - The runways, taxiways, and other areas of an airport that are used for taxiing or hover taxiing, air taxiing, takeoff, and landing of aircraft, exclusive of loading ramps and aircraft parking areas (reference 14 CFR part 139).

o. Navigational Aid (NAVAID) - An apparatus generally located within the AOA, serving as a guide to aircraft.

p. Obstruction - Any object/obstacle exceeding the obstruction standards specified by 14 CFR part 77, subpart C.

q. **Object Free Area (OFA)** - An area on the ground centered on the runway, taxiway, or taxilane centerline provided to enhance safety of aircraft operations by having the area free of objects except for those objects that need to be located in the OFA for air navigation or aircraft ground maneuvering purposes (see AC 150/5300-13, *Airport Design,* for additional guidance on OFA standards and wingtip clearance criteria).

r. **Obstacle Free Zone (OFZ)** - The airspace below 150 feet (45m) above the established airport elevation and along the runway and extended runway centerline that is required to be clear of all objects, except for frangible visual NAVAIDs that need to be located in the OFZ because of their function, in order to provide clearance protection for aircraft landing or taking off from the runway and for missed approaches (refer to AC 150/5300-13 for guidance on OFZs).

s. **Precision Approach Path Indicator (PAPI)** - An airport lighting facility providing vertical visual approach slope guidance to aircraft during approach to landing by radiating a directional pattern of high intensity red and white focused light beams which indicate to the pilot that he/she is "on path" if he sees red/white, "above path" if white/white, and "below path" if red/red.

t. **Restricted Area** – Areas that do not allow access to the general public. These are limited access areas that the Executive Director, the FAA, or commercial aviation business owners have elected to restrict for purposes of security or safety. It is enclosed by a perimeter fence and includes but is not limited to the AOA, perimeter roadways, haul routes, CMAR security gate and worksite.

u. **Runway** - A defined rectangular area on a land airport prepared for the landing and takeoff run of aircraft along its length. Runways are normally numbered in relation to their magnetic direction rounded off to the nearest 10 degrees; e.g., Runway 12 and Runway 30.

v. **Runway End Identifier Lights (REIL)** - Two synchronized flashing lights, one on each side of the runway threshold, which provides rapid and positive identification of the approach end of a particular runway.

w. **Runway Lights/Runway Edge Lights** - Lights having a prescribed angle of emission used to define the lateral limits of a runway. Runway lights are uniformly spaced and the intensity may be controlled or preset.

x. **Runway Safety Area (RSA)** - A defined surface surrounding the runway prepared or suitable for reducing the risk of damage to airplanes in the event of an undershoot, overshoot, or excursion from the runway, in accordance with AC 150/5300-13.

y. **Safety Area** - A designated area abutting the edges of a runway or taxiway intended to reduce the risk of damage to an aircraft inadvertently leaving the runway or taxiway.

z. **Taxi** - The movement of an airplane under its own power on the surface of an airport.

aa. **Taxiway** - A defined surface used by aircraft for transition/movement to and from aircraft parking areas/aprons to runways.

bb. **Taxiway Lights/Taxiway Edge Lights** - Lights having a prescribed angle of emission used to define the lateral limits of a taxiway and are blue in color.

cc. **Threshold Lights** - Fixed green lights arranged symmetrically left and right of the runway centerline, identifying the runway threshold.

dd. **TSA** – The Transportation Security Administration, a branch of the U.S. Department of Homeland Security that oversees aviation security.

ee. **Visual Flight Rules (VFR)** - Rules that govern the procedures for conducting flight under visual conditions. The term "VFR" is also used in the United States to indicate weather conditions that are equal to or greater than minimum VFR requirements.

ff. **Worksite** - Area in which work under contract is being performed, generally starting at the CMAR on-site trailer. Airport ID badges must be displayed within the worksite at all times.

60.02 AIRPORT SECURITY REQUIREMENTS

This project will be constructed both inside and outside of the sterile area of the Terminal (each side of the TSA checkpoint).

The airport is operated in strict compliance with Transportation Security Administration (TSA) and Federal Aviation Regulations (FAR), which prohibit unauthorized persons or vehicles in the Air Operations Area (AOA). Equipment and workmen will be restricted to the work area defined on the plans. Any violation by CMAR's personnel or subcontractors' personnel will subject the CMAR to penalties imposed by the TSA or the Authority.

The CMAR will assume all fines against the Authority assessed to them by the TSA for the CMAR's security violations. Typical fines are ten thousand dollars ($10,000.00) or more per incident.

The CMAR shall be responsible for the protection of the construction site, and all work, materials, equipment, and existing facilities thereon, against vandals and other unauthorized persons. Security measures shall include such additional security fencing, barricades, lighting, and other measures as the CMAR may deem necessary to protect the site.

The CMAR's responsibilities for work areas are as follows:

1. The CMAR shall be held responsible for controlling his employees, subcontractors, and their employees with regard to traffic and personnel movements.

2. The CMAR shall rebuild, repair, restore, and make good at his own expense all injuries or damages to any portion of the work occasioned by his use of these facilities before completion and acceptance of his work.

3. The CMAR shall submit to the Owner/Engineer in writing a detailed work plan for each construction phase. The work plan shall include, but not be limited to, temporary electrical facilities, installation sequence of underground electrical and storm sewer systems, paving sequence, and installation sequence of electrical items. **This plan shall be submitted 14 calendar days prior to the start of each construction phase.** No work within the construction phase may commence until the phase work plan is approved.

4. The following language shall be used in all solicitations, Contracts and subcontracts requiring the distribution of security badges to CMAR, subcontractor or material supplier employees:

a. AIRPORT ACCESS BADGES - All CMAR and/or subcontractor personnel performing work in accordance with this Contract shall obtain and properly display a Phoenix-Mesa Gateway Airport (IWA) airport security badge. The CMAR shall submit a Security Badge Application form to the Authority security office for each employee requiring unescorted access, along with the current fee for each badge. The fee must be paid for with cash or check. The Security Badge Application form and instructions are available via the Internet at www.gatewayairport.com.

A Company Principal of the CMAR must obtain and submit a "Company Security Media Authorization" form, which is to be submitted to the Authority Badging Office. The Company Security Media Authorization will identify those individuals employed by the CMAR who are authorized to approve and sign a Security Badge Application for other employees of the CMAR. The Company Security Media Authorization form and instructions are available via the Internet at www.gatewayairport.com

1. All CMAR and subcontractor personnel that are to be issued an Airport Identification Badge are required to attend and successfully complete a training class before being issued an identification badge. Fees for the security badge include attendance for the necessary training classes. Attendance at the security classes and issuance of the security badge may take 2 hours per person.

   The types of training required will be determined by the scope and location of the work involved. All personnel that will receive Airport badges shall attend the security training. Additionally, personnel operating vehicles or equipment within the Restricted Area of the airport will attend Airport Driver training, all personnel working near active movement areas will attend the Operational Safety on Airports training and any personnel acting as a Gate Guard/Crossing Guard will attend the Gate Guard/Crossing Guard training.

2. Additional information, including a "Frequently Asked Questions" is available via the Internet at www.gatewayairport.com or by contacting the Authority Badging Office at 480.988.7520 or via email to badgingoffice@gatewayairport.com

3. The CMAR should allow thirty (30) business days lead time for employee badges to be issued.

4. The CMAR shall immediately notify Airport Operations/Badging Office of any CMAR personnel whose employment status has changed.

5. The CMAR shall be responsible for retrieving all security badges and keys and return them to the Badging Office. A fee will be charged for each badge that is damaged, lost or not returned.

6. The Authority Badging Office will require the following from each badge applicant before a security badge is issued:

   Security Badge Application - All employees are required to complete a security badge application form. The security badge application is available via the Internet at www.gatewayairport.com.

   CMAR-Provided Escorts - The job superintendent and assistant superintendent will be responsible for escorting their non-badged employees, visitors, vendors, subcontractors and material suppliers while on the job site, assuring that no breeches of the Airport security program occur.

   Company Security Media Authorization - A Principal of the CMAR is required to complete and submit to the Authority Badging Office this form, which identifies authorized signatories for the CMAR.

   For current badging hours or any other questions pertaining to badging, please call the Badging Office at 480.988.7522.

Airport security badges are issued by the Authority Airport Operations and will be required when working within the Restricted Area. It is recommended that Superintendents, Foremen, Supervisors, or Leads be issued an airport security badge who then can provide the required escort for their work crew.

- Airport ID badges issued by the Airport are property of the Airport and must be surrendered upon the request of any Airport personnel.
- No person shall loan or provide airport ID badges to anyone other than to whom the badge was issued.

- Airport ID badges must be properly displayed on the outermost garment, above the waist, at all times while within the Restricted Area.
- Airport ID badges shall not be mutilated or altered from its original form in any way, nor shall any such media be reproduced or copied in such a manner as to degrade the security of the ID system.
- Airport ID badges are non-transferable.
- Damaged badges will be subject to a replacement fee.
- Contractors are required to wear the armband that accompanies the badge.
- The CMAR shall be assessed a fee for each lost/unreturned badge.
- The CMAR must immediately report to the Badging Office any lost badge or any employee who quits or is terminated, and the employee's badge must be returned to the Authority.

b. Access Control

Any time access is required within the Restricted Areas the CMAR shall be responsible for assuring that no breeches of airport security occur. Restricted areas are fenced and must remain fenced at all times. The gates will remain closed and locked or a guard will be provided at the CMAR's expense. The CMAR will furnish the guard with a roster of his personnel and ensure that each individual has adequate identification. The duplicate keys for each lock will be turned over to the airport authorities.

- No person shall enter the CMAR worksite without authorization. Any person found within the worksite without proper identification as describe herein shall be considered unauthorized and shall be removed from the worksite.
- All persons authorized access to the worksite shall display a valid Airport ID badge issued by the Authority or be under authorized escort.
- Persons authorized to provide escorts include the Authority staff and designated CMAR supervisors. The number of personnel being escorted shall not exceed ten (10) non-badged personnel; this includes vendors, subcontractors, visitors and part-time workers. Equipment Operators are not allowed to provide escort while operating equipment. **Failure to provide an escort can result in loss of escort privileges, fines, revocation of the security badge, or all three.**

c. Challenge Procedures

All personnel are responsible for challenging and reporting anyone in their work areas not displaying an Airport ID badge. Personnel shall contact Airport Operations and/or Mesa Police Department and detain person(s) if safe to do so.

60.03 AIRPORT SAFETY REQUIREMENTS

a. Operating Construction Vehicles on the Airport

No vehicle shall enter the CMAR worksite unless the following conditions are met:

- The driver is authorized to access the worksite (in possession of valid security badge with a driver endorsement).
- The driver possesses a valid driver's license.
- The vehicle is properly marked with the company name.
- Vehicle is marked with beacon or checkered flag or under escort.
- Transient haul truck drivers are not required to obtain an Airport ID badge but are required to check in with the CMAR security guard.
- All equipment operators are required to be badged when working within the Airport Restricted Area.

b. Prohibited Vehicles

The use of motorcycles, bicycles, two-wheeled motor scooters and privately owned vehicles within the worksite is strictly prohibited.

c. Vehicle Condition

Vehicles must be in good mechanical condition with operational lights, horn, brakes, and clear visibility from the driver's seat. Trailers and semi-trailers must be equipped with proper brakes so that when disengaged from a towing vehicle, neither aircraft engine blast nor wind will cause them to become free rolling.

d. Compliance

All traffic within the Airport Restricted Area and/or CMAR worksite must comply with any lawful order, signal or direction of any Airport employee. When such traffic is controlled by signs or pavement markings, such symbols shall be obeyed, unless otherwise directed by an officer or agent of the Airport Authority.

e. Night or Low Visibility Operations

All vehicle headlights, taillights, and running or clearance lights shall be in operational condition. Headlights shall be used at all times.

f. Construction Vehicle and Equipment Markings

All construction equipment and vehicles shall have flashing amber lights, mounted at the highest point, during the nighttime and a 3’ x 3’ orange and white checkered flag or a flashing amber beacon during the daytime. All vehicles and equipment on the construction site shall have company designations visibly displayed. No personal vehicles will be allowed in the work area. All construction vehicles and equipment must have the company name and/or logo and vehicle number at least four (4) inches in height on each side of the vehicle.

g. Operation of Vehicles

No vehicle shall operate within the Airport Restricted Area:

- Unless operated by an individual in possession of a valid Airport Identification Badge with a driver’s endorsement or, under the direct escort of someone who is.
- In a careless or negligent manner.
- With disregard of the rights and safety of others.
- At a speed or in a way which endangers persons or property.
- While the driver is under the influence of drugs or alcohol.
- If such vehicle is loaded or maintained as to endanger persons or property.

h. Speed Limits

The speed limit on the perimeter roads is 25 miles per hour. The speed limit on the haul route is 15 miles per hour.

i. Vehicle Accidents

Each operator of a motor vehicle involved in an accident on the airport that results in damage to property or personal injury shall first contact 9-1-1 and then report it fully to the Airport Operations Department as soon as possible after the accident. The

report must include the name and address of the person reporting. Copies of reports taken by City of Mesa are acceptable for incidents that occur in the public areas of the airport.

j. Hearing Protection

CMAR personnel working on or adjacent to the AOA are encouraged to wear hearing protection.

k. Worker Injuries

In the event of a serious injury requiring medical attention call **911**. If called from a cell phone, tell the emergency operator to connect to the City of Mesa Emergency Dispatch, otherwise the call will be routed to Maricopa County Dispatch and that will delay emergency response. All injuries must also be reported to Airport Operations as soon as possible.

l. After Hours Contacts

The CMAR shall submit to the Owner/Engineer a list of personnel who can be contacted 24 hours a day, seven (7) days a week and can respond in a reasonable time frame regarding any possible emergency on the work site. The list must include names, job title and phone numbers.

m. Daily Site Inspections

Prior to the CMAR leaving the worksite for the day, an inspection of the site shall be completed. All discrepancies noted in the inspection must be corrected to the satisfaction of the Owner/Engineer prior to the CMAR leaving the worksite.

n. Deliveries

All deliveries for the CMAR shall be received by the CMAR. Deliveries will not be accepted by anyone other than the CMAR. The Authority nor its authorized representatives will not accept or be responsible for deliveries.

o. Haul Routes

- The majority of the haul route is in the City of Mesa Public Right-of-Way and CMAR shall abide by City of Mesa Traffic regulations. CMAR shall maintain access in the

vicinity of the haul routes to provide access to the parking lot and the Authority vehicles.

- Placards will be issued to transient haul trucks (i.e. concrete) upon entry into the Restricted Area by the gate guard.

p. Cranes or Mobilized Equipment

All activities involving cranes or mobilized vehicles exceeding 20 feet in height on or near the AOA require 48-hour advance coordination with Airport Operations. The following information is required:

- Location of equipment
- Maximum extendable height
- Duration of use
- Daily hours of operation
- Whether or not the crane can be lowered when not in use

Equipment must be lowered to its stowed height when not in use or as otherwise directed. The **highest point** of each piece of equipment shall be marked by a 3' x 3' orange and white checkered flag. At night and during periods of low visibility, the highest point of the crane must be marked by a red obstruction light. Crews must be prepared to remove equipment promptly if so directed.

The CMAR is advised that it may take up to 12 weeks to obtain an airspace determination for construction equipment (such as a concrete batch plant if he elects to use one), and he must submit information required for inclusion into the FAA 7460 airspace evaluation submittal as soon as feasible after Notice of Award in order to not delay the project schedule. This review should be included in the CMAR's schedule.

q. Staging & Storage Area

All CMAR materials, equipment and supplies shall be within the CMAR's designated staging & storage area. All staging & storage areas shall be marked, debris boxes covered and area kept neat and clean of debris.

For equipment that must remain in the work area, the following conditions must be met:

- Be marked with lighted barricades around the equipment perimeter with a spacing of no more than 10 feet.
- Be coordinated at least 48 hours in advance with the Owner/Engineer.
- The highest point of the equipment marked and lit with a red flashing/steady burning omni-directional obstruction light.

r. Barricades & Lighting

The perimeters of the actual work areas, all uneven surfaces, mounds and excavations shall be adequately barricaded in accordance with the plans and contract documents including but not limited to vertical panel barricades, low level barricades and/or Type II barricades and lighted with omni-directional flashing red lights to prevent intrusion by taxiing aircraft, equipment, personnel and vehicles.

The CMAR shall provide and maintain all low-profile and vertical panel barricades and LED omni-directional lights, night and day. The lights for the low-level barricades shall be capable to be "screwed in" to the barricade. Low-profile barricades shall be orange and white in color and shall be a minimum of eight (6) feet in length and approximately ten (10) inches in height. All cones and other marking devices must be lighted or equipped with reflectors during periods of darkness as directed by Airport Operations.

All barricades, lights, flags and cones must be maintained and kept in proper working order by the CMAR day and night. All burned out lights must be replaced immediately. Barricades, lights, flags and cones must remain upright at all times.

The low-profile barricades must always be filled with water. In situations of adverse weather, the placement of sandbags on barricades may also be required. The CMAR must also keep an adequate supply of extra barricades and lights on site for replacement. Escorts for barricade maintenance must be provided by the CMAR or coordinated in advance with Airport Operations.

Only red, battery powered or approved solar powered, lights are acceptable at the airport.

s. Trenches and Excavations

CMARs shall close trenches located within active safety areas at the end of each workday. No open trenches or excavations will be allowed within the following active safety areas without prior coordination and approval with the Owner/Engineer:

- Open trenches not to exceed 500 feet in length at any one time.
- Spoils from excavations are to be placed closest to the trench.
- Spoils length not to exceed 500 feet in length at any one time.
- Spoil height is not to exceed 4 feet or any height that would cause a visual obstruction.
- Spoils not returned to the trench or removed from the worksite are to be properly marked with lighted barricades with a spacing of no more than 10' or that to properly delineate the trench.

t. Stockpiled Material

Stockpiled materials are allowed only within the CMAR's designated staging & storage areas.

u. CMAR Security Guards

The following procedures are for CMAR security guards controlling CMAR access gates into the Restricted Areas. CMAR is also responsible to:

- Use primary radio or back-up telephone equipment to contact Airport Operations and the CMAR Foreman of any security violation or threat to airport safety. Report any failure of radio or back-up equipment immediately.
- Assure that all authorized CMAR employees or suppliers use designated haul route and staging areas.
- Monitor the Restricted Area access gate at all times and NEVER leave a gate open, unsecured or unattended.

v. Deliveries

Delivery trucks must be properly escorted in order to proceed into any controlled area of the airport. The gate guard shall log down the date, driver name, and company. Advise the driver to wait at the gate until the escort arrives.

w. Haul Trucks

Transient haul truck drivers are required to check in with the CMAR security guard. The driver shall be issued an orange/white checkered flag to be mounted on the highest point of the truck; and shall be returned to the security guard upon check out. Advise the driver to remain on the marked haul route and follow the appropriate signs to the intended work area. At no time shall a driver unfamiliar with the worksite be allowed to deviate from the marked haul route.

x. Weapons

No person, except a peace officer, authorized air carrier employee, airport employee or a member of an armed force of the United States on official duty, shall carry any weapon, explosive, or inflammable material on or about his person, openly or concealed, in the Restricted Area of the airport without the written permission of the Airport Director, Deputy Director or Director of Operations and Maintenance. A weapon includes all those listed in Section 13-301, Arizona Revised Statutes. No person shall furnish, give, sell, or trade a weapon on airport property.

y. CMAR Responsibilities

- The CMAR must maintain and provide to the Owner/Engineer a log detailing the contract number, the airfield access point used, and all authorized and anticipated subcontractors and suppliers that will be requiring entry.
- The CMAR must furnish guards with a sufficient number of flags for transient vehicles such as concrete or asphalt trucks entering the Restricted Area.
- The CMAR must furnish guards a means of securing the access point should the guard have to leave the area in an emergency.

z. Construction Flagmen

Construction flagmen will be required at any crossings of taxiways by construction equipment.

60.04 MEASUREMENT AND PAYMENT

Measurement for Airfield Safety and Security shall be per lump sum and shall include full compensation for furnishing all labor, materials, checkered flags, warning lights, silt fence, traffic signs, airfield radios, crossing guards, escorts, power vacuum sweepers, furnishing and maintaining all barricades and lights day and night, vehicle and equipment markings, security

badges and training for all construction personnel, tools, equipment, flagmen, cell phones, SPCD acceptable to Airport Operations, installation and removal of temporary pavement markings and all other incidentals required to safely control traffic and provide the proper security for the Airport as identified in the phasing plans.

60.05 SCHEDULE OF FINES (AS APPLICABLE TO THIS PROJECT)

Due to both the safety and security precautions necessary at the airport, failure of the CMAR and subcontractors to adhere to the prescribed requirements/regulations has consequences that may jeopardize the health, welfare and lives of the customers and employees at the airport, as well as the CMAR's own employees. Therefore, if the CMAR is found to be in non-compliance with the security, airfield badging/licensing and airfield safety requirements by the Owner's personnel, the Owner may issue Notice of Violation (NOV). The CMAR may appeal the NOV, however appeals must be made in writing, and within four (4) calendar days of the offending incident, to the Authority Project Representative. The appeal shall state, in sufficient detail, why the NOV/circumstances is unwarranted. A final and binding decision on the appeal will be made by Airport Operations within ten (10) working days of receipt of the appeal, the CMAR will then be notified of this decision in writing. No further appeals to the specific NOV will be considered/accepted. Subsequent fines and/or requirements, if any, will be applied in accordance with the Schedule of Fines table (on the next page), and the applicable amount will be withheld from the CMAR's monthly payment application following the date of the violation. The CMAR shall be held financially responsible for all NOV's issued to their subcontractors, lower tier subcontractors, or material suppliers associated with this Contract.

DESCRIPTION OF FINES:	***1ST OFFENSE***	***2ND OFFENSE***	***3RD OFFENSE***
Parking in unauthorized areas.	$1,000	$2,500	$5,000
Not having proper and current Airport Security Badge or not properly displaying Airport Security Badge.	$1,000	$5,000	$15,000
Unauthorized access to AOA by construction personnel or access through construction gate by unauthorized personnel.	$1,000	$5,000	$15,000
Failure to Escort / be Escorted.	$1,000	$5,000	$15,000
Failure to secure an access gate / door when not in use, or failure to wait for an automated gate / door to close.	$5,000	$10,000	$15,000
Operating a vehicle or mobile construction equipment without a current Ramp Driver's permit.	$1,000	$5,000	$15,000
Failure to stop at a designated Stop, or exceeding the maximum speed limit, or deviating from designated service roadway or haul routes.	$2,500	$5,000	$15,000
Failure to yield to airside personnel or vehicles.	$1,000	$5,000	$15,000
Failure to yield to an aircraft and/or causing an aircraft to deviate from intended course.	$5,000	$10,000	$15,000
No logo on vehicle or logo is not correct in name and dimension.	$1,000	$5,000	$15,000
Runway incursion.	$15,000	$20,000	$25,000
Runway/Taxiway deviation of an active taxiway, or apron.	$10,000	$15,000	$20,000

Safety violation, such as insufficient barricades, or no flags or amber beacons on vehicle or equipment. Or no red obstruction lighting on cement silo, batch plants, cranes or other equipment with significant height.	$5,000	$10,000	$15,000
Non-compliance with the Authority's lock-out tag-out procedures.	$5,000	$10,000	$15,000
Failure to backfill open trenches within time specified.	$5,000	$10,000	$15,000
Failure to provide lighted barricades.	$5,000	$10,000	$15,000
Failure to provide functional temporary edge lighting.	$5,000	$10,000	$15,000
All other NOV not listed in this Table 1.	$1,000	$5,000	$15,000

ITEM P-152 EXCAVATION AND EMBANKMENT

DESCRIPTION

152-1.1 This item covers excavation, disposal, placement, and compaction of all materials within the limits of the work required to construct a parking lot, drainage ditches, and other areas identified on the plans, building construction, parking, or other purposes in accordance with these specifications and in conformity to the dimensions and typical sections shown on the plans.

152-1.2 CLASSIFICATION. All material excavated shall be classified as defined below:

a. Unclassified Excavation. Unclassified excavation shall consist of the excavation, hauling, disposal off-site, or placement and compaction of all material, regardless of its nature, which is not otherwise classified and paid for.

b. Over-excavation of Unsuitable Materials. Over-excavation of Unsuitable Materials shall consist of the removal and disposal of deposits of any material containing vegetable or organic matter, such as muck, peat, organic silt, or sod considered unsuitable for foundation material or for use in embankment construction from the airport property, including hauling. Material, when approved by the Engineer as suitable to support vegetation, may be used on the embankment slope.

c. Imported Fill. Imported Fill shall consist of approved material required for the construction of embankment or for other portions of the work in excess of the quantity of usable material available from required excavations. Imported fill material may consist of material on airport property (outside the project limits) or material obtained from off-site the airport property. Hauling is also considered incidental

CONSTRUCTION METHODS

152-2.1 General. Before beginning excavation, grading, and embankment operations in any area, the area shall be completely cleared and grubbed in accordance with MAG Standard Specification 201. Measurement and payment for clearing and grubbing is identified in the Special Provisions Sections 80.04.7 and 90.01.1.

The suitability of material to be placed in embankments shall be subject to approval by Phoenix-Mesa Gateway Airport (PGMAA). Unsuitable material shall be disposed of off airport.

When the Contractor's excavating operations encounter artifacts of historical or archaeological significance, the operations shall be temporarily discontinued. At the direction of PMGAA, the Contractor shall excavate the site in such a manner as to preserve the artifacts encountered and allow for their removal. Such excavation will be paid for as extra work. See *General Conditions* Section 13.15 and *General Provisions* Section 70.21 for additional information.

Those areas outside of the pavement areas in which the top layer of soil material has become compacted, by hauling or other activities of the Contractor shall be scarified and disked to a depth of 4 inches (100 mm), in order to loosen and pulverize the soil.

If it is necessary to interrupt existing surface drainage, sewers or under-drainage, conduits, utilities, or similar underground structures the Contractor shall be responsible for and shall take all necessary precautions to preserve them or provide temporary services. When such facilities are encountered, the Contractor shall notify PMGAA, who shall arrange for their removal if necessary. The Contractor shall, at his/her own expense, satisfactorily repair or pay the cost of all damage to such facilities or structures which may result from any of the Contractor's operations during the period of the contract.

152-2.2 EXCAVATION. All suitable excavated material shall be used in the formation of embankment, subgrade, or for other purposes shown on the plans. All unsuitable material shall be disposed of as shown on the plans.

When the volume of the excavation exceeds that required to construct the embankments to the grades indicated, the excess shall be disposed of as directed as waste. When the volume of excavation is not sufficient for constructing the fill to the grades indicated, the deficiency shall be obtained from borrow area. If there is no borrow area available, material from an off-site location may be used as long as the material meets the standards set forth herein. All testing of borrow or off-site materials for suitability shall be considered incidental to the Imported Fill line item provided.

The grade shall be maintained so that the surface is well drained at all times. When necessary, temporary drains and drainage ditches shall be installed to intercept or divert surface water which may affect the work.

a. **Selective Grading.** When selective grading is indicated on the plans, the more suitable material as designated by PMGAA shall be used in constructing the embankment or in capping the pavement subgrade. If, at the time of excavation, it is not possible to place this material in its final location, it shall be stockpiled in approved areas so that it can be measured for payment for rehandling.

b. **Over-excavation of Unsuitable Materials.** Rock, shale, hardpan, loose rock, boulders, or other material unsatisfactory for the parking lot, subgrades, roads, or shoulders, shall be excavated to a minimum depth of 12 inches or to the depth specified by PMGAA, below the subgrade. Muck, peak, matted roots, or other yielding material, unsatisfactory for subgrade foundation, shall be removed to the depth specified by PMGAA. Unsuitable materials shall be disposed of at an off-site location by the Contractor, and the resultant excavated area shall be refilled with suitable material, obtained from the grading operations or borrow areas and thoroughly compacted by rolling.

c. **Not Used.**

d. **Removal of Utilities.** The removal of existing structures and utilities required to permit the orderly progress of work will be accomplished by the Contractor, unless otherwise shown on the plans. All existing foundations shall be excavated for at least 2 feet (6 cm) below the

top of subgrade or as indicated on the plans, and the material disposed of as directed. All foundations thus excavated shall be backfilled with suitable material and compacted as specified herein. Reference Section 50 within the *Special Provisions* for measurement, payment and further information.

e. **Compaction Requirements.** The subgrade under the parking lot and entrance road pavement, (Asphalt and Concrete), shall be scarified to a depth of 12 inches, moisture conditioned to optimum two percent (2%), and compacted to at least 95 percent of maximum density as determined by ASTM D 698. For subgrade under sidewalks, the compaction should be limited between 90 percent (%) minimum and 95 percent (%) maximum at an optimum moisture content of at least to three percent (3%) above. The material to be compacted shall be within -2 percent, +2 percent of optimum moisture content before rolling to obtain the prescribed compaction.

The in-place field density shall be determined in accordance with ASTM D 1556 or ASTM D 2167. Stones or rock fragments larger than 4 inches (100 mm) in their greatest dimension will not be permitted in top 6 inches (150 mm) of the subgrade. The finished grading operations, conforming to the typical cross section, shall be completed and maintained at least 1,000 feet (300 m) ahead of the paving operations or as directed by PMGAA.

In cuts, all loose or protruding rocks on the back slopes shall be bared loose or otherwise removed to line of finished grade of slope. All cut-and-fill slopes shall be uniformly dressed to the slope, cross section, and alignment shown on the plans or as directed by PMGAA.

Blasting will be not be permitted.

152-2.3 PREPARATION OF EMBANKMENT AREA. Where an embankment is to be constructed all sod and vegetable matter shall be removed from the surface upon which the embankment is to be placed, and the cleared surface shall be completely broken up by plowing or scarifying to a minimum depth of 12 inches (150 mm). This area shall then be moisture-conditioned to optimum (+/- 2%) and compacted to at least 95% of the maximum dry density as determined by ASTM D 698.

Where embankments are to be placed on natural slopes steeper than 3 to 1, horizontal benches shall be constructed as shown on the plans.

No direct payment shall be made for the work performed under this section. The necessary clearing and grubbing and the quantity of excavation removed will be paid for under the respective items of work or as previously identified.

152-2.4 FORMATION OF EMBANKMENTS. Embankments shall be formed in successive horizontal layers of not more than 8 inches (200 mm) in loose depth for the full width of the cross section, unless otherwise approved by PMGAA.

The grading operations shall be conducted, and the various soil strata shall be placed, to produce a soil structure as shown on the typical cross-section or as directed. Materials such as brush, hedge, roots, stumps, grass and other organic matter, shall not be incorporated or buried in the embankment.

Operations on earthwork shall be suspended at any time when satisfactory results cannot be obtained because of rain or other unsatisfactory conditions of the field. The Contractor shall drag, blade, or slope the embankment to provide proper surface drainage.

If imported fill is required, it shall have 100 percent (%) passing the 3 inch sieve and a combination of percent passing the 200 sieve and plasticity index that would result in a correlated R-value (per ADOT method) of equal to, or better than the 33 value. It should exhibit less than 1.5% swell potential when compacted to a 95 percent (%) of maximum dry density (per ASTM D 698) at a moisture content of two percent (2%) below optimum, confined under a 100 psf surcharge, and inundated. The material in the layer shall be within +/-2 percent of optimum moisture content before rolling to obtain the prescribed compaction.

Fill should be placed in horizontal lifts of 8 inch thickness where possible and compacted to the percent of maximum dry density per ASTM D 698 set forth as follows:

a. Minor Structures.

1. Below footing level	95

b. Pavement Subgrade or Fill.

1. All fills or under asphalt pavement	95
2. Within one foot (1') of finished subgrade (concrete sidewalks)	90min– 95max

c. Utility Trench Backfill.

1. More than two feet (2') below finish subgrade	95
2. Within two feet (2') of finished subgrade (non-granular)	95
3. Within two feet (2') of finished subgrade (granular)	100

d. Aggregate Base Course.

1. Below paving	100

e. Landscape Areas.

1. Miscellaneous fill	90
2. Utility trench – more than one foot (1') below finish grade	85
3. Utility trench – within one foot (1') of finish grade	90

The material in the layer shall be within +/-2 percent of optimum moisture content before rolling to obtain the prescribed compaction. In order to achieve uniform moisture content throughout the layer, wetting or drying of the material and manipulation shall be required when necessary. Should the material be too wet to permit proper compaction or rolling, all work on all of the affected portions of the embankment shall be delayed until the material has dried to the required moisture content. Sprinkling of dry material to obtain the proper moisture content shall be done with approved equipment that will sufficiently distribute the water. Sufficient equipment to furnish the required water shall be available at all times. Samples of all embankment materials for testing, both before and after placement and compaction, shall be taken by the Contractor for each 1,000 cubic yards. Based on the results of these tests, the Contractor shall make the necessary corrections and adjustments in methods, materials or moisture content in order to achieve the correct embankment density.

Rolling operations shall be continued until the embankment is compacted to not less than 95 percent (%) of maximum density as determined by ASTM D 698**.**

The in-place field density shall be determined in accordance with ASTM D 1556 or ASTM D 2167**.**

Compaction areas shall be kept separate, and no layer shall be covered by another until the proper density is obtained.

During construction of the embankment, the Contractor shall route his/her equipment at all times, both when loaded and when empty, over the layers as they are placed and shall distribute the travel evenly over the entire width of the embankment. The equipment shall be operated in such a manner that hardpan, cemented gravel, clay, or other chunky soil material will be broken up into small particles and become incorporated with the other material in the layer.

In the construction of embankments, layer placement shall begin in the deepest portion of the fill; as placement progresses, layers shall be constructed approximately parallel to the finished pavement grade line.

When rock and other embankment material are excavated at approximately the same, time, the rock shall be incorporated into the outer portion of the embankment and the other material shall be incorporated under the future paved areas. Stones or fragmentary rock larger than 4 inches (100 mm) in their greatest dimensions will not be allowed in the top 6 inches (150 mm) of the subgrade. Rockfill shall be brought up in layers as specified or as directed and every effort shall be exerted to fill the voids with the finer material forming a dense, compact mass. Rocks or boulders shall not be disposed of outside the excavation or embankment areas, except at places and in the manner designated by PMGAA.

When the excavated material consists predominantly of rock fragments of such size that the material cannot be placed in layers of the prescribed thickness without crushing, pulverizing or further breaking down the pieces, such material may be placed in the embankment as directed in layers not exceeding 2 feet (60 cm) in thickness. Each layer shall be leveled and smoothed with suitable leveling equipment and by distribution of spalls and finer fragments of rock. These type lifts shall not be constructed above an elevation 4 feet (120 cm) below the finished subgrade. Density requirements will not apply to portions of embankments constructed of materials which cannot be tested in accordance with specified methods.

There will be no separate measurement of payment for compacted embankment, and all costs incidental to placing in layers, compacting, disking, watering, mixing, sloping, and other necessary operations for construction of embankments will be included in the contract price for excavation or other items.

152-2.5 FINISHING AND PROTECTION OF SUBGRADE. After the subgrade has been substantially completed the full width shall be conditioned by removing any soft or other unstable material which will not compact properly. The resulting areas and all other low areas, holes or depressions shall be brought to grade with suitable select material. Scarifying, blading, rolling and other methods shall be performed to provide a thoroughly compacted subgrade shaped to the lines, grades, and densities shown on the plans and required by these specifications.

Grading of the subgrade shall be performed so that it will drain readily. The Contractor shall take all precautions necessary to protect the subgrade from damage. Contractor shall limit hauling over the finished subgrade to that which is essential for construction purposes.

All ruts or rough places that develop in a completed subgrade shall be smoothed and recompacted. Subgrade shall be finished to the plan lines and grades, and compacted to the required density and depth as shown on the plans.

No subbase, or surface course shall be placed on the subgrade until the subgrade has been approved by PMGAA.

152-2.6 HAUL. All hauling will be considered a necessary and incidental part of the work. Its cost shall be considered by the Contractor and included in the contract unit price for the pay of items of work involved. No payment will be made separately or directly for hauling on any part of the work.

152-2.7 TOLERANCES. In those areas upon which a subbase or base course is to be placed, the top of the subgrade shall be of such smoothness that, when tested with a 16-foot (4.8 m) straightedge applied parallel and at right angles to the centerline, it shall not show any deviation in excess of 1/2-inch (12 mm), or shall not be more than 0.05-foot (.015 m) from true grade as established by grade hubs or pins. Any deviation in excess of these amounts shall be corrected by loosening, adding, or removing materials; reshaping; and recompacting by sprinkling and rolling.

In parking lot, intermediate and other designated areas, the surface shall be of such smoothness that it will not vary more than 0.10 foot (0.03 m) from true grade as established by grade hubs. Any deviation in excess of this amount shall be corrected by loosening, adding or removing materials, and reshaping. Flowlines of ditches or swales shall not vary by more than 0.05-foot from true grade.

METHOD OF MEASUREMENT

152-3.1 Measurement for "Unclassified Excavation" shall include furnishing all materials, labor, equipment, tools, and incidentals necessary to complete the item, including excavation, hauling, construction of embankment, and removal of waste excavation from the airport. Unclassified Excavation outside of structural pavements sections shall include the excavation from the existing grade down to the top of finished grade compacted in-place, including construction of embankment. Measurement shall not include the quantity of materials excavated without authorization beyond normal slope lines, or the quantity of material used for purposes other than those directed.

Subgrade Preparation under pavements following completion of Excavation and Embankment construction as specified herein shall be measured and paid for under Special Provisions Item SP 90.01.1 *Subgrade Preparation.*

152-3.2 Measurement for "Imported Fill" shall include furnishing all materials, labor, equipment, tools, and incidentals necessary to complete the item, including hauling from an on-site stock pile or an off-site location, testing of the material, placement, construction of embankment, and compaction. Measurement shall be by the cubic yard compacted in-place.

152-3.3 **"**Over-Excavation and Replacement of Unsuitable Materials" shall be by the cubic yard measured from its original position of the surface prior to excavation of unsuitable material less the measured surface after excavation of unsuitable material when complete. Measurement shall include furnishing all materials, labor, equipment, tools, and incidentals necessary to excavate, remove, haul and properly dispose of the unsuitable material off-site, as well as the placement, compaction and finishing of the suitable material in its place including the hauling of any embankment. This is a Contingent item and measurement shall not include the quantity of materials excavated without prior Resident Engineer authorization, or the quantity of material used for purposes other than those directed.

152-3.4 For payment specified by the cubic yard, measurement for all excavation shall be computed by the average end area method except as noted below. The end area is that bound by the original ground line established by field cross sections and the final theoretical pay line established by excavation cross sections, are subject to verification by the Engineer. After completion of all excavation operations and prior to the placing of base or sub-base material, the final excavation shall be verified by the Engineer by means of field cross sections taken randomly at intervals not exceeding 500 linear feet. Measurement for Drainage Excavation will be measured and paid at plan quantities unless the following conditions are met:

a. Plan width of embankments or excavations are changed by more than plus or minus 2.0 feet; or

b. Plan elevations of embankments or excavations are changed by more than plus or minus 0.5 foot.

BASIS OF PAYMENT

152-4.1 For "Unclassified Excavation" payment shall be made at the contract unit price per cubic yard. This price shall be full compensation for furnishing all materials, labor, equipment, tools, and incidentals necessary to complete the item, including excavation, hauling, and placement and compaction or removal of waste excavation from the airport. Unclassified Excavation outside of structural pavements sections shall include the excavation from the existing grade down to the top of finished grade compacted in-place, including construction of embankment.

152-4.2 For "Imported Fill" payment shall include furnishing all materials, labor, equipment, tools, and incidentals necessary to complete the item, including hauling from an off-site location, placement, construction of embankment, and compaction. Measurement shall be by the cubic yard compacted in-place.

152-4.3 For "Over-Excavation and Replacement of Unsuitable Materials" payment shall be made at the contract unit price per cubic yard of all work as identified in Sections 152-2.2 (c) and 152-3.6 of this specification. This price shall be full compensation for furnishing all materials, labor, equipment, tools, and incidentals necessary to complete the item. Prior approval from the Engineer is required before this work can be performed.

Payment will be made under:

Item P-152-4.1 Unclassified Excavation – per Cubic Yard

Item P-152-4.2 Imported Fill – per Cubic Yard

Item P-152-4.3 Over-Excavation and Replacement of Unsuitable Material (Contingent Bid Item) – per cubic yard

TESTING REQUIREMENTS

ASTM D 698 Tests for Moisture-Density Relations of Soils and Soil-Aggregate Mixtures, Using 5.5-pound (2.5 kg) Rammer and 12-inch (300 mm) Drop

ASTM D 1556 Test for Density of Soil In-Place by the Sand Cone Method

ASTM D 698 Tests for Moisture-Density Relations of Soils and Soil-Aggregate Mixtures, Using 5.5-pound (24.5-N) Rammer and 12-inch (305 mm) Drop

ASTM D 2167 Test for Density of Soil In-Place by the Rubber Balloon Method.

END OF ITEM P-152

PARKING AND TRAFFIC CONTROL EQUIPMENT

PART 1 - GENERAL

1.1 Work Included

A. The work of this section shall include furnishing all material, equipment, labor, and supervision to install parking control and traffic control equipment, as specified herein and indicated on the drawings. Included will be the construction and installation of necessary conduit; and the supply, delivery, unloading, setting, anchoring, control wiring installation, wiring termination, and start-up of all parking, revenue control, access control equipment, and traffic control equipment (lane status lights).

1.2 Related Work

A. The Parking Equipment Vendor or an approved Electrical Subcontractor shall furnish and install all necessary conduit and power wiring in proper size and location to the parking control equipment and empty conduit for control wiring as needed. Conduit for power and communications (separate conduit) will be needed for all lane equipment.

B. Manufacturer of the parking control system shall provide those responsible for related work with:

1. Installation diagrams and details for setting indoor and outdoor mounted equipment.
2. Templates for setting indoor and outdoor mounted equipment.
3. Templates and cast-in inserts to anchor freestanding equipment to curbs and bases.
4. Electrical wiring diagrams and details.
5. Electrical installation requirements.
6. Electrical power requirements.

1.3 System Description

A. General

1. The parking access and revenue control equipment will be used to control parking in the Long Term parking lot located north of the airport terminal on Ray Road. The parking lot will be primarily used by transient parkers, but card/tag access will be provided for airport employees and terminal shuttle buses. Transient parkers will activate entrance gates by taking a plastic token (with a computer chip for encoding entrance and payment information) from a token dispenser and will exit upon inserting a properly paid token into an exit verifier. Transient parking payments will be made at automatic pay stations (pay-on-foot machines) located in the airport terminal and in the lot, by using an exit verifier (credit card payments only), or by using a pay-in-lane station. Card/tag access will be provided using proximity cards, radio frequency identification (RFID) tags, and card/tag readers. The proximity cards and readers must be compatible with the airport's existing access system (HID 5355 readers, HID cards, and Lenel OnGuard 2005 software).

2. The parking equipment will be online with a parking control computer that will be located in the airport terminal (Terminal Com Room).

3. The parking control equipment shall be supported by an intercom system tied back to the airport terminal and an on-site security station (per Owner).

B. Vehicle Entrance and Exit Locations

1. There are a total of three entrance lanes (Lanes A, B, and C). Lane A will allow entrance to terminal shuttle buses (RFID tags and reader) and card access parkers (proximity cards and reader). Lanes B and C will allow entrance to transient parkers only. There are a total of four exit lanes (Lanes D, E, F, and G). Initially, Lane D will allow only terminal shuttle buses to exit (RFID tags and reader). Lanes E, F, and G will allow transient parkers and card access parkers (proximity cards and reader) to exit. Access and revenue control equipment is already installed in Lanes A through F. Lane G is a new exit lane.

C. Dedicated Exit Lanes (Lanes E, F, and G)

1. Lanes E and F:

a. During regular operating hours, transient parkers shall proceed to an automatic pay station to pay the appropriate parking fee. The entrance time encoded in the token shall be read by the automatic pay station and the parking fee shall be computed automatically by the station based on programmable rate tables. The "out" time, date, and fee shall be encoded in the token and the fee shall be displayed on the fee display. The transient parker then inserts the fee (via cash, coin, or credit/debit card). Once the fee is paid, the automatic pay station will return the parking token to the customer. The exit lane gate shall automatically open upon the insertion of a properly paid parking token into an exit verifier. If the fee was not paid, or if additional funds are necessary, the exit verifier will be able to compute the fee and accept a credit or debit card for payment.

b. Card access parkers shall proceed to the exit gate. The utilization of a valid proximity card shall open the exit gate.

c. The exit lane shall close automatically after the vehicle has passed over the closing detector loop. The circuitry shall be such that the exit cycle of a vehicle shall be completed before the system will accept the exit of another vehicle through the same lane.

2. Lane G:

a. During regular operating hours, transient parkers shall proceed to the lane to pay the appropriate parking fee. The entrance time encoded in the token shall be read by the pay-in-lane station installed at the lane and the parking fee shall be computed automatically by the station based on programmable rate tables. The "out" time, date, and fee shall be encoded in the token and the fee shall be displayed on the fee

display. The transient parker then inserts payment (via cash, coin, or credit/debit card). Once the fee is paid, the pay-in-lane station will complete the transaction. The exit lane gate shall automatically open upon the completion of the transaction. If the fee was not paid, or if additional funds are necessary, the transaction will not be completed and the gate will remain down.

b. Card access parkers shall proceed to the exit gate. The utilization of a valid proximity card shall open the exit gate.

c. The exit lane shall close automatically after the vehicle has passed over the closing detector loop. The circuitry shall be such that the exit cycle of a vehicle shall be completed before the system will accept the exit of another vehicle through the same lane.

D. Count/Control System

1. The parking access and revenue control equipment shall be connected to and communicate with the airport's existing count/control system.

2. The count/control system shall maintain both differential and total counts (by lane) of transient parkers, RFID/card access parkers, and facility totals. Differential and total counts of illegal entries shall also be maintained. The parking equipment shall be monitored to identify the status of the equipment such as gates, token dispensers, exit verifiers, RFID and proximity readers, vehicle detector loops, lane status lights, etc.

3. The count/control system will also provide real-time equipment monitoring, revenue control and utilization reports, equipment programming, remote operation, and control of lane status lights.

1.4 Quality Control

A. Manufacturer of parking control system shall provide an experienced field representative to meet with the Parking Equipment Vendor and/or Electrical Subcontractor, before any rough-in work begins, to review relevant building plans/drawings as they relate to the parking control equipment, to explain details or precautions necessary to assure that all parking and revenue control equipment, and in particular, detector loops will work properly, and to determine that all required conduits and wiring are properly laid out.

B. Installer shall have previously worked successfully with the equipment manufacturer, and prior to being awarded a contract shall submit with bid to the Owner the names, locations, contacts, and telephone numbers for the five most recently installed, similar, completed projects. The list shall include any difference between material furnished then and materials to be furnished for this project.

C. Installers shall be approved in writing by the Parking Control System Manufacturer.

D. Installer shall service and maintain the parking control system and have an Owner approved equipment service center located to provide service within 24 hours.

E. Provide equipment service and maintenance as follows:

1. Use experienced, Manufacturer-trained personnel.

2. Assume total responsibility for proper installation and operation of all components within the system.

1.5 Submittals

A. Submit shop drawings for review and approval. Included are equipment wiring diagrams, equipment cut sheets and specifications, booth shop drawings, and equipment color charts.

B. Upon request submit for review and approval the names, locations, contacts, and telephone numbers for the five most recently installed completed projects.

C. Submit for record 30 days prior to installing the parking control equipment, procedures for testing electrical, mechanical, and program functions of the system.

D. Provide the Owner with two final copies of each of the following:

1. Maintenance Manual
2. Operating Manual
3. Equipment electrical circuitry diagram
4. As built equipment wiring diagram

E. Provide Owner with two sets of keys for each piece of equipment with locks and two sets of master keys. Each equipment type shall be master keyed including, but not limited to:

1. Cabinets for Gate
2. Pay-in-Lane Station

Keys shall be unique to the airport; they shall not fit any other equipment in the same city.

1.6 Transportation and Handling

A. Deliver equipment to the site packaged to prevent damage and marked for easy identification.

B. Store equipment in a clean, dry location protected from damage. Replace damaged materials at no cost to the Owner.

C. Deliver items required to be built into the concrete promptly to the site so they may be built in as the work progresses.

1.7 Operating Conditions

A. Equipment shall be designed, fabricated, and installed to operate effectively under the climate and exposure conditions to which the equipment will be exposed. All lane equipment is for exterior, exposed to weather use.

B. If parking and revenue control equipment self-contained heating and cooling devices do not operate to the Owners satisfaction within the Warranty period, they shall be repaired and/or replaced by the Manufacturer.

C. It is recognized that certain solid state and computer type parking and revenue control equipment may require special electrical power and grounding considerations. If required by the parking and revenue control equipment, the Manufacturer of the parking control system should:

1. Include in the bid amount, the cost to provide and install voltage stabilization modules or devices to protect each component from normal voltage variations.

2. Advise the Owner in writing at the time of the award of contract of any special electrical power and grounding requirements.

1.8 Warranty

A. Provide Manufacturer's Warranty

1. Warranty shall be for at least one year, covering all labor and materials.

2. Warranty shall commence when equipment is 100 percent operational and acceptable to the Owner, as approved in writing by the Owner and/or Owner's Consultant.

3. Maintain equipment during the warranty period such that, if defective, equipment will be serviced within eight business hours, following notification by the Owner. Business hours are 5 a.m. to 12 a.m. Monday through Sunday.

4. Warranty shall include preventative maintenance cleaning, testing, and minor repair no less than twice per year.

5. Warranty shall cover all equipment furnished under this specification section – both manufacture and installation, excluding misuse or vandalism.

PART 2 - PRODUCTS

2.1 General

A. All equipment colors shall be standard manufacturer colors except where specifically noted.

B. All parking control equipment must be compatible with the existing airport electrical system and the existing airport parking access and revenue control equipment/system.

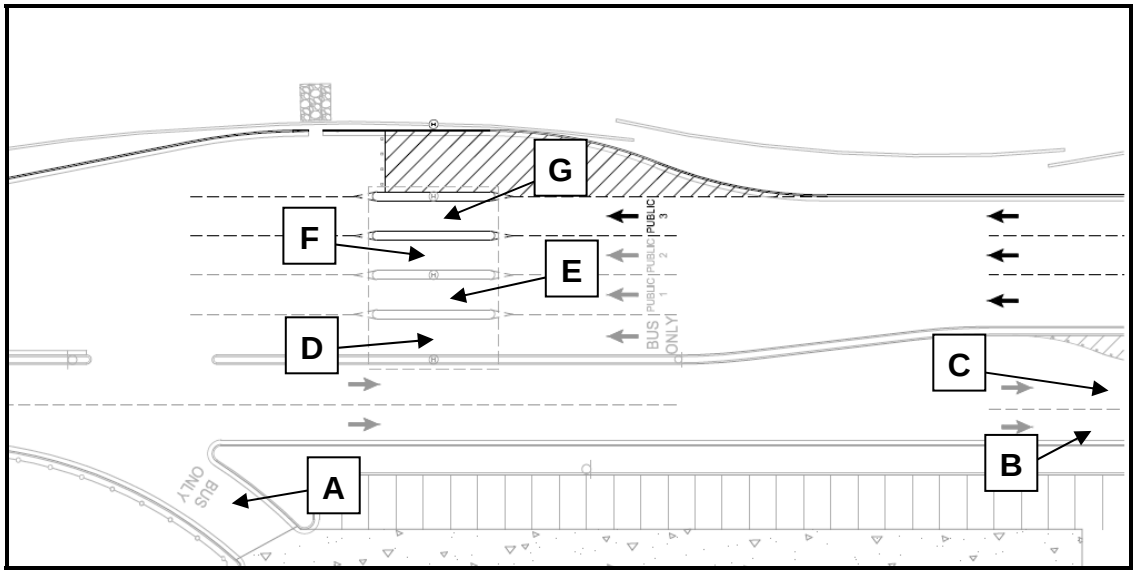
2.2 Equipment List

A. The following equipment list consists of basic system components. Provide auxiliary items required for the proper functioning of the system, whether mentioned or not, including but not limited to, heaters, coolers, conduit, wiring, transformers, relays, pedestals, etc. It is the SOLE RESPONSIBILITY of the Parking Control Equipment Vendor to provide every component necessary for a complete functioning system.

B. Locate equipment as indicated on the Drawings.

C. Equipment List

1. Provide parking control equipment for each lane as indicated:



2. Lane Types:

a.	Lane A – Terminal Shuttle Bus and Card Access Entrance Lane	(1 lane)
b.	Lane B – Transient Entrance Lane	(1 lane)
c.	Lane C – Transient Entrance Lane	(1 lane)
d.	Lane D – Terminal Shuttle Bus and Card Access Exit Lane	(1 lane)
e.	Lane E – Transient and Card Access Exit Lane	(1 lane)
f.	Lane F – Transient and Card Access Exit Lane	(1 lane)
g.	Lane G – Transient, Card Access, and Pay-in-Lane Exit Lane	(1 lane)

3. Equipment List:

Item		Quantity per Lane				Total Required
		D	E	F	G	
A	Gate with automatic safety reverse and 10' arm	0	0	0	1	1
B	Digital self-tuning vehicle detector	0	0	0	1	1
C	Detector loop - sawcut*	0	0	0	2	2
D	Pay-in-Lane Station	0	0	0	1	1
E	Proximity Card Reader	1	0	1	1	3
F	Lane Status Lights	0	0	0	1	1
G	Intercom	0	0	0	1	1

* Quantity and detector loop sizes to be determined by the system Manufacturer.

4. Office Equipment

a. Installer shall provide connection to existing control computer.

b. Lane G intercom shall connect to the existing master intercom (per Owner).

2.3 Pay-in-Lane Station

A. The pay-in-lane station shall have the ability to charge a computed programmable fee. The unit will accept a facility issued token (with integrated computer chip) from the transient parker, compute the appropriate fee, and then accept payment.

B. The pay-in-lane station shall be capable of computing both time variable and flat parking fees. The rate schedules shall be programmable from either the count/control computer or the pay-in-lane station.

C. The pay-in-lane station shall be capable of processing parking validations. Parking validations could include either pre-encoded tokens issued by airport departments, or validations provided by departments using a merchant validator device. The Owner will determine if parking validations are offered in the future.

D. The pay-in-lane station shall accept currency, coins, validations, and credit/debit cards for payment of the appropriate exit fee. The station will be capable of providing change when needed, including two bank note dispensers for two denominations.

E. The coin acceptor shall accept the following United States coins: nickels, dimes, quarters, and dollar coins. Up to two recycling coin hoppers shall be provided.

F. The currency acceptor shall accept the following United States currency: $1, $5, $10, $20, and $50 (at minimum).

G. A programmable electronic display shall be included with the station that is capable of displaying a welcome prompt, additional greetings, and basic instructions. The pay-in-lane station shall be capable of using English and Spanish languages.

H. The pay-in-lane station shall be capable of generating activity reports detailing cash, credit and validation transactions. Include any necessary printing equipment required to print activity reports.

I. The pay-in-lane station shall be constructed of heavy gauge steel, and shall be suitably tamper/theft/vandal resistant.

J. Receipts shall be issued automatically with the following information: facility name, date, time in, time out, amount, transaction number, and rate.

K. The pay-in-lane station shall function online with the existing count/control system. The station shall be capable of operating off-line when the count/control system is down, and shall record all transactions appropriately. All transactions recorded while the station is off-line shall be sent to the count/control system once it is operating properly.

L. The pay-in-lane station is to be mounted at a height that will be accessible and easy to use for all parking patrons from a seated position.

M. An intercom shall be included on the pay-in-lane station for customer questions.

N. Approved manufacturers are:

1. Scheidt and Bachmann, Burlington, MA. (USA office)

2.4 Parking Control Gates

A. The parking gates shall provide an effective barrier to one-way vehicles in the entrance and exit lanes. The barrier arms shall retract quickly in a vertical plane on a command signal from a token dispenser, exit verifier, proximity card reader, pay-in-lane station, or the control computer and return to the lower position upon a signal from a detector beyond the gate location. The parking gates shall be installed as located on drawings and shall incorporate in one housing all necessary components for the functioning of this unit. The assembly shall operate satisfactorily in the environmental conditions stated elsewhere in this specification.

B. The units shall include 10-foot straight or folding arms of wood construction. The barrier arms shall be a break-away design that can be easily and inexpensively replaced when broken. The height of the gate arms or the extended portion of folding arms shall be approximately 36 inches from drive level in the down position.

C. The gate arms shall have a down strike safety feature. This feature provides that should any object be struck by a gate arm during its descent, the arm shall immediately reverse and return to the up position without damage, and remain up from 2 to 60 seconds, until automatically reset by variable control. The sensory function shall be initiated by sensing the internal mechanical action.

The external mounting of tubes, wiring, and electrical devices on gate arms shall not be acceptable.

D. External key switches shall be provided at each gate to lock the gate into the up position for special event conditions in addition to the ability using the central computer to raise and lock the gates in the up position.

E. Gates shall be online with the control computer, but be capable of working off-line as necessary.

F. All gates shall be approved by Underwriters Laboratories, Inc. (UL)

G. Approved manufacturers are:

1. Scheidt and Bachmann, Burlington, MA. (USA office)

2.5 Proximity Card Readers

A. The proximity card readers shall be located in the exit lanes on the exit verifier (Lane F), the pay-in-lane station (Lane G), or using a pedestal stand (Lanes D, F, or G).

B. The access control system shall be an online system. If the central controller is not functional, the proximity card readers shall function off-line. Validity checks shall be made, but not anti-passback checks, when the control computer is down.

C. System shall be able to add proximity cards to memory with the ability to define where and when the cardholder may use the facility.

D. System shall be able to delete cards from memory as well as modify access control privileges of individual cards. The Owner will determine how many cards shall be provided in the base bid (if any).

E. System shall be able to select card-controlled areas that are to operate in an antipassback (APB) mode and select whether contact closure (e.g., gate up) is required to change antipassback status. APB shall include a forgive command which resets the sequence control to a neutral state. The antipassback status shall be restored within the access system when a card is next used in either entrance or exit reader. SOFT APB (printer lists the illegal use but control gate still opens) and HARD APB (printer lists the illegal use and control gate does not open) shall be selectively programmable.

F. All system activity messages to the operator shall be printed in plain language English text including cardholder name.

G. The card access system shall be capable of automatically scanning the card and sending the card number to the controller to verify status. Reading rejects shall not exceed one-half of one percent of proximity card presentations.

H. Card reader height and location shall be such that the card reader shall be within easy reach of seated driver.

I. Both housing and stand shall be treated for corrosion resistance and finished externally with two coats of acrylic enamel in same color as other equipment as selected by the Owner.

J. The proximity cards and readers must be compatible with the existing airport access control system (HID 5355 readers, HID cards, and Lenel OnGuard 2005 software).

K. Contractor shall install card readers per Manufacturer's recommendation.

L. Acceptable manufacturers are:

1. HID, Irvine, CA.

2.6 Lane Status Lights

A. Provide lane status lights mounted on the canopy as indicated on the drawings. The lane status lights shall provide parkers with the open/closed status of the exit lane (Lane G) using green (open) and red (closed) lights. The lane status lights shall be controlled by the control computer (both automatically and manually as needed). The lane status lights shall meet the following specifications:

1. Cabinet Dimensions:

   a. 14" H x 7" W x 9" D

2. Illumination Source:

   a. Super bright, wide viewing angle red and green LEDs with a life-span of approximately 100,000 hours.

3. Electrical:

   a. The lane status lights shall use the same voltage as the parking access and revenue control equipment.

4. Construction:

   a. Cabinet: Injection molded, impact resistant polycarbonate housing and hood.
   b. Raceway: .050 aluminum.
   c. Lens Material: Impact resistant tinted Lexan.
   d. Lens Colors: Red and green.
   e. Cabinet Color: Black.

B. Provide a mode key switch in the security booth for control of the lane status lights.

C. Approved manufacturers are:

1. Trans-Tech, Pittsburgh, PA – LED Traffic Signal TCILV
2. Other Approved Equivalent

2.7 Embedded Loops and Vehicle Detectors

A. The parking equipment detector loops shall be sawcut (maximum 3/4" depth) into the lane drive aisle.

B. Directional logic detection shall be provided by a count system. Provide loops as required for directional detection and counting.

C. Detectors shall be installed with the barrier gates.

2.8 Intercom System

A. Intercom shall be mounted on (or integrated in) the pay-in-lane station in Lane G, and shall include "Press for Assistance" engraved signs and push button operation. Intercom shall be capable of two-way communication with the dual master intercom station.

B. The intercom shall be connected to the master intercom located in the security station.

C. Approved manufacturers are:

1. Aiphone, Bellevue, WA.

2.9 Uninterruptible Power Supply (UPS)

A. Provide UPS system(s) for entrance and exit lane equipment (as well as the pay-in-lane station) as indicated on the Drawings.

B. The Manufacturer shall have been in the UPS business for at least 5 years.

C. The UPS shall consist of a power module, storage battery, and a battery disconnect switch.

D. The UPS shall be sized to provide 1250 VA output power rating, 120 input/output voltage (VAC) nominal.

E. The UPS shall have a lockable weather resistant UL designation suitable for outdoor mounting.

F. The storage battery shall be a ten-year low maintenance type, sealed lead calcium type cells (or similar technology) with an internal battery run time of at least 60 minutes.

G. Approved products are:

1. Novus P1250, Alpha Technologies, Inc., Bellingham, WA.

2. Other Approved Equivalent.

PART 3 - EXECUTION

3.1 Inspection

A. Inspect setting surfaces, power wiring, and conduit installation for equipment and report immediately in writing to the Owner or Owner's Consultant, any conditions of Related Work which are unsuitable for proper execution of this Work.

3.2 Installation

A. Install equipment in accordance with Manufacturer's recommendations and the approved shop drawings.

B. Installation shall be by factory-trained technicians experienced in installation of equipment of this type.

C. Provide all necessary conduit, pull power/communications wiring, and make final connections of all wiring.

3.3 Adjustment and System Start-Up

A. Adjust and tune the system as required to assure proper operation. After installation, test all functions of the parking and revenue control systems.

B. Demonstrate the satisfactory electrical and functional performance of the entire parking control system by the following operations:

1. Proper operation of all gates.

2. Proper operation of the pay-in-lane station, including (but not limited to): proper token acceptance, correct computation of parking fees, proper acceptance of fee payments, exact change is provided, proper issuance of receipts, and proper tracking of transactions/activity.

3. The successful use of a proximity access card to exit through appropriate parking gates, with all information recorded by the control computer. Proper operation of all proximity card readers.

4. The proper generation of end of day/monthly revenue and facility utilization reports.

5. The proper operation of, and connection to, the count control system, including directional counting feature.

6. The proper operation of parking control equipment and lane status lights during simulated facility full and equipment malfunction conditions.

7. The proper operation of the intercoms.

8. Proper operation of the gate opening switches.

C. Provide 4 hours of on-site training to Owner's personnel. Training shall include but not be limited to, programming of proximity cards, programming and maintenance of the automatic pay station, use and operation of the count/control system and differential counter, operation and maintenance of token dispenser and gates, and methods of controlling revenue and auditing tokens available with the system specified. Coordinate schedule with Owner.

D. The parking and revenue control systems will be considered acceptable after being 100 percent operational and after having performed satisfactorily for thirty (30) continuous business days with no down time.

PART 4 – Measurement and Payment

4.1 Measurement and Payment

A. This Item shall consist of furnishing and installing parking revenue and traffic control equipment in accordance with the project plans and these specifications and the Owner's approval of aesthetics. Measurement and payment for this item shall be made at the contract unit price per each of furnished and installed control gate, vehicle detector, detector loop, pay-in-lane station, proximity card reader, lane status light, and intercom. This price shall include full compensation for all labor, materials, and equipment necessary to complete the item as contain in this specification.

B. The PRCS Allowance item is provided to cover additional items that may be needed during installation of new PRCS equipment for compatibility with existing systems and PRCS equipment that is needed but not specifically identified on the plans. This item will require prior approval from PMGAA before it can be exercised.

Payment shall be made under:

Item PRCS-4.1 Control Gate – per Each

Item PRCS-4.2 Vehicle Detector – per Each

Item PRCS-4.3 Detector Loop – per Each

Item PRCS-4.4 Pay-in-Lane Station (Including Built-In Card Reader, Exit Verifier, and Intercom)– per Each

Item PRCS-4.5 Lane Status Lights – per Each

Item PRCS-4.6 UCS – per Each

Item PRCS-4.7 PRCS Allowance – per Allowance

END OF SECTION

SECTION 32 80 00 IRRIGATION SYSTEM

DESCRIPTION

32 80 00-1.1 This item covers trenching, stockpiling excavation materials and refilling trenches; a complete system including but not limited to, piping, valves, fittings, emitters, wiring and final adjustments to insure complete coverage; water connections; replacement of unsatisfactory materials; clean up, inspection and approval; and tests.

REFERENCES

32 80 00-1.2 Perform Work in accordance with requirements of Conditions of the Contract and Division 1 - General Requirements as well as provisions of all applicable laws, codes, ordinances, rules and regulations. Conform to requirements of reference information listed below except where more stringent requirements are shown or specified in Contract Documents. American Society for Testing and Materials (ASTM) - Specifications and Test Methods specifically referenced in this Section. Underwriters Laboratories (UL) - UL Wires and Cables.

RELATED SECTIONS

32 80 00-1.3 Section 32 90 00 LANDSCAPING may contain requirements for irrigation.

SUBMITTALS

32 80 00-1.4 Prepare and make submittals in accordance with conditions of the Contract. Operation Instructions - Submit 3 written operating instructions, including start-up with cut sheets of products, and coordinate controller/watering operation with Gateway's maintenance personnel.

Do not prepare charts until record (as-built) drawings have been reviewed by Gateway's Representative.

Record Drawings (as-builts): At onset of irrigation installation secure reproducible copies of original irrigation design from Gateway's Representative. Make blueline or blackline prints as required. As-built blueprints shall be brought up to date at close of working day on every Friday by a qualified draftsperson. A print of record plan(s) shall be available at project site. Indicate zoning changes on weekly as-built drawings. Indicate non-pressure piping changes on as-builts. Upon completion of project, submit for review, prior to final acceptance, final set of as-built blueprints. Dimension, from two permanent points of reference (building corners, sidewalks, road intersections or permanent structures), location of following items: Connection to existing water lines, routing of irrigation pressure lines (dimension maximum 100 feet along routing), Control valves, drip line blow out stubs, new Controller, control wire routing, if not in mainline trench, other related equipment as directed.

Gateway's Representative will not certify any pay request submitted by the contractor if the record drawings are not current, and processing of pay request will not occur until record drawings are updated and current.

QUALITY ASSURANCE

32 80 00-1.5 Installer Qualifications - Installer shall have had considerable experience and demonstrate ability in the installation of irrigation system(s) of specified type(s) in a neat, orderly and responsible manner in accordance with recognized standards of workmanship with five (5) consecutive years of documented service.

Special Requirements include: Licensed and bonded plumber(s) shall execute work involving substantial plumbing for installation of copper piping and related Work. Secure a permit at least 48 hours prior to start of installation, tolerances - Specified depths of mains and laterals and pitch of pipes are minimums. Settlement of trenches is cause for removal of finish grade treatment, refilling, recompaction and repair of finish grade treatment, coordination With Other Contracts - Protect, maintain and coordinate Work with Work under other Sections, and damage to Other Improvements - Contractor shall replace or repair damage to grading, soil preparation, seeding, or planting done under other Sections during Work associated with installation of irrigation system at no additional cost to Gateway.

Pre-Construction Conference - Contractor shall schedule and conduct a conference to review in detail quality control and construction requirements for equipment, materials and systems used to perform the Work. Conference shall be scheduled not less than ten (10) days prior to commencement of Work. All parties required to be in attendance shall be notified no later than seven (7) days prior to date of conference. Contractor shall notify qualified representatives of each party concerned with that portion of Work to attend conference, including but not limited Gateway's Representative and installer. Minutes of conference shall be recorded and distributed by Contractor to all parties in attendance within five days of conference.

As part of the pre-construction conference, the contractor shall meet with the Gateway's Representative to identify the process and schedule for completing the work. A field review of the areas of work and equipment will be conducted as part of the conference. The contractor shall identify in the field review his proposed approach to completing the work and indicate evidence of coordination with other work on the project. The contractor will accept comments from the others on the proposed activities. Within three days of the meeting, the contractor shall provide a written schedule of the proposed work for the Gateway's Representative to review. Once a strategy and schedule are agreed upon, amend the schedule only as approved by the Gateway's Representative.

DELIVERY, STORAGE AND HANDLING

32 80 00-1.6 Deliver, unload, store and handle materials, packaging, bundling, and products in dry, weatherproof, waterproof condition in manner to prevent damage, breakage, deterioration, intrusion, ignition and vandalism. Deliver in original unopened packaging containers prominently displaying manufacturer name, volume, quantity, contents, instructions and conformance to local, state and federal law. Remove and replace cracked, broken or contaminated items or elements prematurely exposed to moisture, inclement weather, temperature extremes, fire and/or jobsite damage.

Handling of PVC Pipe - Exercise care in handling, loading and storing of PVC pipe. All PVC pipe shall be transported in a vehicle that allows length of pipe to lie flat so as not to subject it to undue bending or concentrated external loads. All sections of pipe that have been dented or damaged shall be discarded, and, if installed, shall be replaced with new piping.

JOB SITE CONDITIONS

32 80 00-1.7 Protection of Property: Preserve and protect all monuments, structures and paved areas from damage due to Work of this Section and as noted in Section 02310 SITE CLEARING. In the event damage does occur, all damage to inanimate items shall be completely repaired or replaced to satisfaction of Gateway's Representative. All costs of such repair shall be charged to and paid by Contractor.

Protect buildings, walks, walls and other property from damage. Flare and barricade open ditches. Damage caused to asphalt, concrete or other building material surfaces shall be repaired or replaced at no cost to Gateway. Restore disturbed areas to original condition.

Protection and Repair of Underground Lines. Request proper utility company to stake exact location (including depth) of all underground electric, gas or telephone lines. Take whatever precautions are necessary to protect these underground lines from damage, and, in the event damage does occur, contractor shall repair all damages. Contractor shall pay all costs of such repairs unless other arrangements have been made. Contractor is to request Gateway, in writing, to locate all private utilities (i.e., electrical service to outside lighting) before proceeding with excavation. If, after such request and necessary staking, private utilities that were not staked are encountered and damaged by Installer, Gateway shall repair them at no cost to Installer. If Contractor damages staked or located utilities, Contractor shall repair them unless other arrangements have been made.

Replacement of Paving and Curbs: Where trenches and lines cross-existing roadways, paths, curbing, etc., damage to these shall be kept to a minimum and shall be restored to original condition.

WARRANTY

32 80 00-1.8 Manufacturer shall warranty materials against defects for a period of one year from date of Substantial Completion. Installer(s) shall guarantee workmanship through the one (1) year Plant Establishment and Maintenance Period.

Settling of backfilled trenches that may occur during warranty period shall be repaired at no expense to Gateway, including complete restoration of damaged property.

Expenses due to vandalism before substantial completion shall be borne by Contractor.

Gateway will not maintain planting areas until after one (1) year warranty period.

MAINTENANCE

32 80 00-1.9 **F**urnish the following maintenance items to Gateway's Representative prior to Final Acceptance: Two sets of special tools required for removing, disassembling and adjusting each type of valve supplied on this Project.

MATERIALS

32 80 00-2.1 General Piping: Used pipe shall not be reused on the project. All components and practices must meet the requirements and standards governing agencies. Pressure Supply Lines (downstream of backflow prevention units) – per plans, non-pressure Lines - Per plans, emitter Tubing -

As recommended by emitter manufacturer. Plastic Pipe and Fittings: Identify all pipes with following indelible markings: Manufacturer's name, Nominal pipe size, Schedule of class, Pressure rating psi, NSF (National Sanitation Foundation) seal of approval, Date of extrusion.

Solvent Weld Pipe - Manufactured from virgin polyvinyl chloride (PVC) compound in accordance with ASTM D2241 and ASTM DI784; cell classification 12454-B, Type 1, Grade 1.

Fittings - Standard weight, Schedule 40, injection molded PVC; complying with ASTM DI784 and D2466, cell classification 12454-B. Threads - Injection molded type (where required) and tees and ells - Side gated. Threaded Nipples - ASTM D2464, Schedule 40 with molded threads. Joint Cement and Primer - type as recommended by manufacturer of pipe and fittings.

Low Pressure/Volume Systems: Drip Tubing - Manufactured of flexible polyvinyl chloride compound conforming to ASTM D1248, Type 1, Class C, Category 4, P14 and ASTM D3350 for PE 122111C. Fittings - Type and make recommended by tubing manufacturer. Drip Valve Assembly - type and size shown on Drawings. Wye Strainer – Per Plans. Control Valve – Per Plans. Pressure Reducing Valve – Per Plans. Emitter - Per plans.

Valve Boxes: Gate Valves, Drip Line Blow-out Stubs, and Wire Stub Box - Per plans. 3/4 Inch through 2 Inch Control Valves - Per plans. Drip Valve Assemblies - Per plans. Control Wiring Splices - Carson #910-12, Brooks #1100 or as shown on the plans. Electrical Control Wiring: Low Voltage: Electrical Control Wire - AWG UF UL approved No. 14 direct burial copper wire or larger, if required to operate system as designed. Control wire for restored irrigation system components shall match the existing wire or as approved. Wire Colors: Control Wires – Red, Common Wires – White, Master Valve or Fill Valve Wires – Blue, Spare Wires - Same color as control wires (labeled at terminations), Control wire connections and splices shall be made with 3M direct bury splice, Spears Pentite connectors, or similar dry splice method, High voltage - Type required by local codes and ordinances, of proper size to accommodate needs of equipment services, Irrigation Controller - type and size shown on Drawings.

INSPECTION

32 80 00-3.1 Examine areas and conditions under which Work of this Section is to be performed. Do not proceed with Work until unsatisfactory conditions have been corrected. Demolition and grading operations, with the exception of final grading, shall be completed and approved by Gateway's Representative before staking or installation of any irrigation system begins.

PREPARATION

32 80 00-3.2 Staking shall occur as follows: Mark, with powdered lime, routing of pressure supply line and flag heads for first few zones. Contact Gateway's Representative 48 hours in advance and request review of staking. Gateway's Representative will advise installer as to the amount of staking to be prepared. Gateway's Representative will review staking and direct changes if required. Review does not relieve installer from coverage problems due to improper placement of heads after staking.

If Project has significant topography, free-form planting beds, or other amenities that could require alteration of irrigation equipment layout as deemed necessary by Gateway's Representative, do not install irrigation equipment in these areas until Gateway's Representative has reviewed equipment staking.

Trenching - Trench excavation shall follow, as much as possible, layout shown on drawing. Dig trenches straight and support pipe continuously on bottom of trench. Trench bottom shall be clean and smooth with all rock and organic debris removed.

Clearances: Piping Smaller than 3 Inches - Trenches shall have a minimum width of 7 inches.

Line Clearance - Provide not less than 6 inches of clearance between each line, and not less than 12 inches of clearance between lines of other trades. Pipe and Wire Depth: Pressure Supply Piping - 18 inches from top of pipe and Control Wiring - Side of pressure main.

INSTALLATION

32 80 00-3.3 Locate other equipment as near as possible to locations designated. Gateway's Representative shall review any deviations to plans prior to installation.

PVC Piping - Snake pipe in trench as much as possible to allow for expansion and contraction. Do not install pipe when air temperature is below 40°F. When pipe laying is not in progress, or at end of each day, close pipe ends with tight plug or cap. Perform work in accordance with good practices prevailing in piping trades.

Solvent Weld PVC Pipe - Lay pipe and make all plastic to plastic joints in accordance with manufacturer's recommendations.

Drip Tubing: Install all drip tubing per the plans before installation of mulch. Install drip line blowout stubs at all dead ends of emitter laterals.

Control Wiring: Low Voltage Wiring: Bury control wiring between controller and electric valves in pressure supply line trenches, strung as close as possible to main pipe lines with such wires to be consistently located below and to one side of pipe, or in separate trenches. Bundle all 24-volt wires at 10-foot intervals and lay with pressure supply line pipe to one side of the trench. Provide an expansion loop at every pressure pipe angle fitting, every electric control valve location (in valve box), and every 500 feet. Form expansion loop by wrapping wire at least 8 times around a 3/4-inch pipe and withdrawing pipe. Make all splices and E.V.C. connections using Spears Pentite connectors or similar dry splice method. Install all control wire splices not occurring at control valve in a separate splice valve box. Install control wire for each control valve. Run 2 spare #14-1 wires from controller pedestal or electric control valve on each and every leg of mainline. Label spare wires at controller and wire stub box. High Voltage Wiring for Automatic Controller: Provide 120 volt power connection to automatic controller. All electric work shall conform to local codes, ordinances and authorities having jurisdiction. All high voltage electrical work shall be performed by licensed electrician.

Drip Emitters - Install all surface emitters as detailed and stake with acceptable tubing stakes.

Backfilling - Do not begin backfilling operations until required system tests have been completed. Leave trenches slightly mounded to allow for settlement after backfilling is completed. Trenches shall be finish graded prior to walk-through of system by Gateway's Representative. Materials - Excavated material is generally considered satisfactory for backfill purposes. Backfill material shall be free of rubbish, vegetable matter, and stone larger than 1 inch in maximum dimension. Do not mix subsoil with topsoil. Material not suitable for backfill shall be hauled away. Contractor shall be responsible for providing suitable backfill if excavated material is unacceptable or not sufficient to meet backfill, compaction and final grade requirements. Do not leave trenches open for a period of more than 48 hours. Open excavations shall be protected in accordance with OSHA regulations. Compact backfill to 90% maximum density, determined in

accordance with ASTM D155-7 utilizing the following methods: Mechanical tamping. Puddling or ponding. Puddling or ponding and/or jetting is prohibited within 20'-0" of building or foundation walls.

Piping Under Paving: Provide for a minimum cover of 18 inches between the top of the pipe and the bottom of the aggregate base for all pressure and non-pressure piping installed under asphaltic concrete or concrete paving. Piping located under areas where asphalt or concrete paving will be installed shall be bedded with sand (a layer 6 inches below pipe and 3 inches above pipe). Compact backfill material in 6 inch lifts at 90% maximum density determined in accordance with ASTM D155-7 using manual or mechanical tamping devices. Set in place, cap and pressure test all piping under paving, in presence of Gateway's Representative prior to backfilling and paving operations. Water Supply and Point of Connection - Water supply shall be extended as shown from water supply lines.

FIELD QUALITY CONTROL

32 80 00-3.4 Flushing - After piping, risers and valves are in place and connected, but prior to installation of emitter heads, thoroughly flush piping system under full head of water pressure from dead end fittings. Maintain flushing for 5 minutes through furthermost valves. Cap risers after flushing.

Testing - Notify Construction Manager in advance of all testing. Conduct tests in presence of Gateway's Representative for Project Site. Arrange for presence of Gateway's Representative 48 hours in advance of testing. Supply force pump and all other test equipment. After backfilling and installation of all control valves, fill pressure supply line with water and pressurize to 40 PSI over the designated static pressure or 120 PSI, whichever is greater, for a period of 2 hours. Leakage, Pressure Loss - Test is acceptable if no leakage or loss of pressure is evident during test period. Leaks - Detect and repair leaks. Retest system until test pressure can be maintained for duration of tests. Before final acceptance, pressure supply line shall remain under pressure for a period of 48 hours.

Pre-Maintenance Inspection: Arrange for Gateway's Representative's presence 48 hours in advance of walk-through. Entire system shall be completely installed and operational prior to scheduling of walk-through. Operate each zone in its entirety for Gateway's Representative at time of walk-through and open all valve boxes if directed. Generate a list of items to be corrected prior to Final Completion. Furnish all materials and perform all Work required to correct all inadequacies of coverage due to deviations from Contract Documents. During walk-through, expose all drip emitters under operations for observation by Gateway's Representative to demonstrate that they are performing and installed as designed; prior to placing of all mulch material. Schedule separate walk-through, if necessary.

Final Maintenance Inspection: Arrange for Gateway's Representative presence 48 hours in advance of walk-through. Show evidence to Gateway's Representative that Gateway has received all accessories, charts, record drawings, and equipment as required before Final Completion walk-through is scheduled. Operate each zone, in its entirety for Gateway's Representative at time of walk-through to insure correction of all incomplete items. Items deemed not acceptable by Gateway's Representative shall be reworked to complete satisfaction of Gateway's Representative. If after request to Gateway's Representative for walk-through for Final Completion of irrigation system, Gateway's Representative finds items during walk-through that have not been properly adjusted, reworked or replaced as indicated on list of incomplete items from previous walk-through, Contractor shall be charged for all subsequent walk-throughs. Funds will be withheld from final payment and/or retainage to Contractor, in amount equal to additional time and expenses required by Gateway's Representative to conduct and document further walk-throughs as deemed necessary to insure compliance with Contract Documents.

ADJUSTING

32 80 00-3.5 Upon completion of installation, "fine-tune" entire system by regulating valves, adjusting patterns and break-up arms, and setting pressure reducing valves at proper and similar pressure to provide optimum and efficient coverage.

If it is determined that irrigation adjustments will provide proper and more adequate coverage, make such adjustments prior to Final Acceptance, as directed, at no additional cost to Gateway. Adjustments may also include changes in control valve throttling.

Areas that do not conform to designated operation requirements due to unauthorized changes or poor installation practices shall be immediately corrected at no additional cost to the Gateway.

CLEANING

32 80 00-3.6 Maintain continuous cleaning operation throughout duration of Work. Dispose of, off-site at no additional cost to Gateway, all trash or debris generated by installation of irrigation system.

MEASUREMENT AND PAYMENT

32 80 00-4.1

ITEM 32 80 00 - 1 – FLUSH CAP ASSEMBLY

Payment for FLUSH CAP ASSEMBLY shall be made on a per each basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing a flush cap assembly in accordance with the project plans and technical specifications.

ITEM 32 80 00 - 2 – CLASS 200 DRIP LATERAL

Payment for CLASS 200 DRIP LATERAL shall be made on a lineal foot basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing class 200 drip lateral in accordance with the project plans and technical specifications.

ITEM 32 80 00 - 3 – DRIP EMITTER – SINGLE OUTLET

Payment for DRIP EMITTER – Single Outlet shall be made on a per each basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing a single outlet drip emitter in accordance with the project plans and technical specifications.

END OF SECTION

32 80 00 IRRIGATION SYSTEM

SECTION 32 90 00 LANDSCAPING

SUMMARY

32 90 00-1.1 Section Includes: Supplying and installing shrub and cacti accents, soil amendments, rock mulch, salvaged surface select boulders, seed mix, landscape maintenance, and warranty of landscape.

REFERENCES

32 90 00-1.2 ANSI Z60.1 – American Standard for Nursery Stock; 2004. ANSI A300 PART 7– American National Standard for Tree Care Operations –- Tree, Shrub and Other Woody Plant Maintenance – Standard Practices; 2001. ANA: Arizona Nursery Association Growers Committee "Recommended Tree Specifications", latest edition. ASTM: American Society for Testing and Materials.

RELATED WORK

32 90 00-1.3 Section 32 80 00 IRRIGATION SYSTEMS contains requirements that may affect the work of this section.

SUBMITTALS

32 90 00-1.4 All submittals and samples shall be forwarded in a single package to the Gateway's Representative within 45 days before planting work begins.

Certification: Submit certificates of inspection as required by governmental authorities or as requested herein. Submit manufacturers or vendors certified analysis for materials in Part 2. Submit data substantiating that materials comply with specified requirements. File copies of certificates with Gateway's Representative after acceptance of material.

Planting Schedule: Submit planting schedule, indicating dates for each type of landscape work during landscape installation. Correlate with specified maintenance periods to provide maintenance from date of substantial completion. Once accepted, revise dates only as approved in writing, after documentation of reasons for delay.

Plant Nurseries: Submit list of nurseries that will be supplying plant material for the project.

Maintenance Instructions: Submit typewritten instructions recommending procedures to be established by the Gateway for maintenance of landscape work for one full year. Submit prior to substantial completion.

The Contractor to submit a five-pound sample of each Rock Mulch showing each gradation and color. Verify in writing to Gateway's Representative that there is sufficient supply from a single source to supply the project. Contractor to submit material certificate signed by material producer and Contractor, certifying that Rock Mulch complies with or exceeds specified requirements.

QUALITY ASSURANCE

32 90 00-1.5 Nursery Qualifications: Company specializing in growing and cultivating the plants with five (5) consecutive years of documented experience.
Installer Qualifications: Company specializing in installing and planting the plants with five (5) consecutive year's experience.
Gateway's Representative reserves the right to take and analyze samples of materials for conformity to specifications at any time. Contractor shall furnish samples upon request by the Gateway's Representative. Rejected materials shall be immediately removed from the site at Contractor's expense. Contractor shall pay cost of testing of materials not meeting specifications.
Plant Material: Provide plants of quantity, size, genus, species, and variety shown and scheduled for landscape work and complying with recommendations and requirements of the above references. Provide healthy, vigorous stock, grown in recognized nursery in accordance with good horticultural practice and free of disease, insects, eggs, larvae, and defects such as knots, sunscald, injuries, abrasions, or disfigurement.
Measure plant material with branches or trunks in their normal position for conformance with requirements with the above references. Do not prune to obtain required sizes. Measure main body of tree for height and spread dimensions.
Plants shall be sound, healthy, well branched and densely foliated when in leaf. They shall have healthy, well-developed root systems and shall be free from evidence of physical damage or adverse conditions that would prevent thriving growth.
Plants shall not be pruned before delivery.
Inspection: Gateway's Representative may inspect plant material either at place of growth or at site before planting, for compliance with requirements for genus, species, variety, size, and quality. Gateway's Representative retains right to further inspect plant material for size and condition of balls and root systems, insects, injuries and latent defects, and to reject unsatisfactory or defective material at any time during progress of work. Remove rejected plant material immediately from project site.

REGULATORY REQUIREMENTS

32 90 00-1.6 Perform work in accordance with all applicable laws, codes and regulations required by authorities having jurisdiction over such work. Provide for all inspections and permits required by Federal, State and local authorities in furnishing, transporting and installing materials as shown or for completing the work identified herein.
All plant material shall be certified that they are free of disease and hazardous insects.
An individual licensed to perform this work shall apply all pesticides and herbicides.

DELIVERY, STORAGE AND HANDLING

32 90 00-1.7 A temporary storage yard for plants or equipment used on the project may be placed at an on-site storage location, as approved by the Gateway's Representative. Should the Contractor elect to store plants and equipment on the site, he/she shall be responsible for enclosing the yard with a 6 foot chain link fence and meet all requirements for the protection of occupational and public health and safety by agencies having jurisdiction over such matters.

The storage area shall have a lockable gate for which the Gateway's Representative will be provided a workable key for the duration of the storage yard existence. No flammable fuels or explosives are permitted in the yard.
The Contractor shall be responsible for delivering water to the plants stored in the yard. The Gateway's Representative shall approve the watering methods used for the storage area.
The Contractor shall hold harmless the Gateway's Representative from potential claims arising from the use of the land, acts of vandalism, or delays resulting from theft or unauthorized removal of materials and equipment from the storage yard.
Packaged Materials: Deliver packaged materials in containers shall show the weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site. Protect products/materials from weather or other conditions that would damage or impair the effectiveness of the product material.
Shrubs: Do not prune prior to delivery unless otherwise approved by Gateway's Representative. Do not bend or bind-tie plant material in such manner as to damage bark, break branches or destroy natural shape. Provide protective covering during delivery. Provide adequate protection for root systems and balls from drying winds and sun.
Deliver plant material after preparations for planting have been completed and plant immediately. If planting is delayed more than six hours after delivery, set plants in shade, protect from weather and mechanical damage, and keep roots moist by an acceptable means of retaining moisture. Water as often as necessary to maintain root system in a moist condition.
Do not remove container-grown stock from container until planting time.

SOURCE QUALITY CONTROL

32 90 00-1.8 Ship materials with certificates of inspection required by governmental authorities. Comply with regulations applicable to materials herein.

Do not make substitutions. If specified landscape material is not obtainable, submit proof of non-availability from five sources to Gateway's Representative, together with proposal for use of equivalent material with corresponding adjustment of contract price.

SITE CONDITIONS

32 90 00-1.9 Water: Water will be provided by the Gateway through an accepted backflow preventer for the irrigation system (constructed as part of this project) for use in the landscape installation at no charge to the Contractor. Water will not be available on-site until tap is made for irrigation system and backflow preventer is installed, inspected, and approved.
Site Examination: The prospective Contractors are encouraged to examine the plans and visit the job site prior to bidding on this project and to satisfy their concerns as to the magnitude of the work involved, to become aware of the existing conditions and to understand any restrictions to the completion of the proposed work. Failure to visit the site and acquaint himself with the existing conditions shall in no way relieve the Contractor from any obligation with respect to his proposal.
Final Grade: The Contractor shall be responsible for finish grades shown on the plans.
Utilities: Determine location of underground utilities through Blue Stake and perform work in a manner that will avoid possible damage. Hand excavate, as required. Repair or replacement of damaged utilities

shall be made as directed by the Gateway's Representative. The costs of repairs or replacement of utilities damaged by the actions of the Contractor shall be borne by the Contractor.
Obstruction: If rock, underground construction or other obstructions are encountered in preparation during plant pit excavation, Contractor is to the notify Gateway's Representative. Instructions may be issued to direct removal of obstruction to a depth of not less than 6" below required planting depth. Proceed with work only after approval of Gateway's Representative.

SAMPLES AND TESTS

32 90 00-1.10 The Gateway's Representative reserves the right to take and analyze samples of materials for conformity to specifications at any time. Contractor shall furnish samples as identified in this Section and upon request by the Gateway's Representative. Rejected materials shall be immediately removed from the site at Contractor's expense. Contractor shall pay the cost of testing of materials not meeting specifications. Label each type of plant with a securely attached waterproof tag bearing legible designation of botanical and common name.

ENVIORNMENTAL REQUIREMENTS

32 90 00-1.11 Planting Seasons and Conditions: Planting shall not be done when the soil is muddy or conditions are otherwise unsuitable for planting. The Gateway's Representative will be the sole judge of the acceptability of the site soil for planting.

WARRANTY

32 90 00-1.12 Warranty all plant materials against defects due to any cause for a period of one (1) year from the Date of Substantial Completion and the commencement of the formal Landscape Establishment Period.
This warranty will not be enforced should plant material die due to vandalism, improper maintenance procedures (including over- or under- watering), over-fertilization, non-removal of braces/guy wires causing girdling of trunks, fire, flood or hail, or other similar circumstances beyond the control of the Contractor.
Replacements: Replace plant materials when they are no longer in satisfactory condition as determined by the Gateway's Representative during the warranty period. Make replacements within fourteen (14) days of notification by the Gateway's Representative. Plant replacement materials of same size and species as originally specified, planted in the next growing season, with a new warranty commencing on date of replacement. Remove dead plants within seven (7) days of notification. Replacements shall en made at no expense to the Gateway.

PLANT ESTABLISHMENT PERIOD

32 90 00-1.13 From the time any plants are planted until completion of the Ninety (90) Day Plant Establishment Period, the Contractor shall ensure that all plants are watered, trash and debris are removed weekly, weeds controlled, plant replacements made, plants pruned, and/or spraying for insects or disease completed. Traffic control, if required during the maintenance period, shall be included in the cost of contract items. Spray or dust appropriate insecticides, miticides and fungicides as necessary to

maintain plants in healthy and vigorous growing condition until accepted by the Gateway's Representative. Apply pest and disease control chemicals in accordance with manufacturer's instructions. Contractor will bear full responsibility for complete removal of weeds and grasses such as Dallas, Bermuda, Johnson and Nut from the project site resulting from the landscape installation. Make replacements of dead or unhealthy plants for any reason during the Ninety (90) Day Plant Establishment Period except for replacements resulting from the exclusions identified in PROJECT WARRANTY above. Plants damaged by frost shall be replaced during the maintenance period as directed by the Gateway's Representative; there shall be no limit to the replacements due to frost. Gateway's Representative shall approve replacement plants prior to planting. Provide a schedule of maintenance activities to the Gateway's Representative prior to starting work. Provide the Gateway's Representative weekly reports summarizing maintenance activities completed by the Contractor, including person hours expended to complete the tasks. The Plant Establishment and Maintenance Periods shall not be considered within the allotted contract time. Each day during which the Gateway's Representative determines that work under the Plant Establishment Period is required and the Contractor is so advised, and the Contractor fails to accomplish the required work, the subject days will not be used to reduce the total number of calendar days specified.

FINAL MAINTENANCE INSPECTION

32 90 00-1.14 At the end of the Ninety (90) Day Plant Establishment and Maintenance Period, a final maintenance inspection will be performed to accept the landscape installation. At the time of final maintenance inspection, the Contractor shall have all planting areas under this Contract free of weeds and neatly cultivated. All plants shall be alive and healthy, without signs of stress. If, after the inspection, the Gateway's Representative is of the opinion that all work has been performed as per the drawings and specifications and that all plant materials are in satisfactory growing condition, he will give the Contractor written notice of final acceptance of the landscape installation and commencement of the one (1) year warranty period. Work requiring corrective action or replacement in the judgment of the Gateway's Representative shall be performed within ten (10) days after the final inspection. Corrective work and materials replacement shall be in accordance with the drawings and specifications, and shall be made by the Contractor at no cost to the Project. Maintain corrected work until reinspected by Gateway's Representative. If the optimal planting period has passed without compliance with the acceptance criteria, the Contractor shall be responsible for replanting, weeding, maintaining the landscaping and taking remedial actions as required to complete the deficient work during the following growing season, or until accepted by the Gateway's Representative. The Gateway's Representative shall be the sole judge of the remedial actions to be taken by the contractor.

SHRUBS AND CACTI ACCENTS

32 90 00-2.1 Shrubs and cacti accents: Shall be nursery grown, plantation grown or collected stock from on/off-site, as noted on the plans, conforming to ANSI Z60-1 and shall be of the varieties specified in the plant list bearing botanical names listed in the AJCHN-SPN publication. Planting stock shall be well-branched and well-formed, sound, vigorous, healthy and free from disease, sunscald, windburn, abrasion and harmful insects or insect eggs and shall have healthy, normal, and unbroken root systems and shall bear evidence of conformance with the Arizona Native Plant Law.

The minimum acceptable sizes of all plants, measured before pruning and with branches in normal position, shall conform to the measurements indicated in the plans or noted references. Plants larger in size than specified may be used as approved. If larger plants are used, the spread of roots shall be increased in accordance with ANSI Z60.1.
Plants shall be dug and prepared for shipment in a manner that will not cause damage to branches, shape and future growth after planting.
Container grown plants shall have sufficient roof growth to hold the earth intact when removed from the containers but shall not be root bound.

SOIL AMENDMENT MATERIALS

32 90 00-2.2 Forest Mulch: Shall be well-composted, nitrogen-stabilized wood fiber mulch with a carbon to nitrogen ratio of 30:1 available from Western Agricultural Products, Phoenix, Arizona, or approved equivalent. Plant Tablets: Shall be Agriform 21 gram, 20-10-5 fertilizer tablets or approved equivalent. Soil Sulfur: Shall be a commercial-grade product produced for the intended use. Sulfur shall be approved prior to use on the project. Bactericide: Shall be applied in accordance with manufacturer's recommendations. Herbicides and Pesticides: Contact herbicides and pesticides use must comply with all applicable state and federal laws and be registered with the U.S. Environmental Protection Agency. Contact herbicides shall be quick acting and permit planting within 7-10 days of their use. Sand: Shall be commercial grade mortar sand.

SCHEDULE OF BACKFILL MIX

32 90 00-2.3 Backfill mix shall be 1 part forest mulch to 4 parts native soil excavated from the plant pits. Backfill mix for cacti and succulents shall be per landscape drawings.

ROCK MULCH

32 90 00-2.4 The rock mulch (R.M.) shall be type and size specified on landscape plans. The rock mulch shall meet MAG Section 795 and shall not contain lumps or balls of clay, caliche, organic matter or calcareous coating. Rock mulch shall be placed in all planting areas shown on plans. Provide documentation that sufficient quantity is available to complete the project from a single source.

SALVAGE SURFACE SELECT BOULDER

32 90 00-2.5 The surface select boulders shall be type and size specified on landscape plans.

SEED MIX

32 90 00-2.6 The species, variety, and strain of seed (designated elsewhere herein as contract-specified seed) shall be as shown on the plans or as specified herein. The contract specified seed shall be obtained from seed suppliers through harvesting of wildland collections, or field-grown seeds grown prior to or during the contract period.

Within 30 calendar days after the award of contract, the contractor shall submit the name of the seeding subcontractor to be used, along with written confirmation from seed suppliers and collectors, on their letterhead, that the source(s) for the contract specified seed has been secured. If any of the contract-specified seed is expected to not be available during the contract period prior to seeding, in accordance with Subsection 2.02(B) below, the contractor shall notify Gateway's Representative at this same time.

The seed shall be delivered to the project site unmixed in standard, sealed, undamaged containers for each seed species. Each container shall be labeled in accordance with the appropriate provisions of the Arizona Revised Statues and the U.S. Department of Agriculture rules and regulations under the Federal Seed Act. Labels shall indicate the variety or strain of seed, the percentage of germination, purity and weed content, the date of analysis which shall not be more than nine months prior to the delivery date, and testing information. A Certificate of Analysis from an accredited seed-testing laboratory, and conforming SP-102 of these Special Provisions, shall accompany each container of seed.

Unless otherwise approved by Gateway's Representative, weed content of the contract-specified seed mix shall not exceed 0.5 percent.

The contractor shall provide all seed tag labels to Gateway's Representative. No payment will be made for seed unless tag labels from all seed to be used on the project have been submitted as specified.

The contractor shall store seed under dry conditions, at temperatures of between 35 °F and 120 °F, and out of direct sunlight. Prior to using the seed, the contractor shall provide a certification letter to Gateway's Representative that the seed was stored as specified herein.

Legume seed shall be inoculated with appropriate bacteria cultures approved by Gateway's Representative, in accordance with the culture manufacturer's instructions.

Tetrazolium staining shall be acceptable to test for germination and hard seed. Cut or fill testing will not be allowed. As directed by Gateway's Representative, seeds with an expiration date past the acceptable test date or not meeting the specified conditions for storage shall be retested by the contractor. Gateway's Representative may perform random sampling of seeds throughout the project. Mixing of the specified seed at the project site shall be under the supervision of Gateway's Representative.

Application rates of seed as specified are for Pure Live Seed (PLS). PLS is determined by multiplying the sum of the percent germination of seeds, including hard or dormant seeds, by the percent purity.

Seed mix species and the Pure Live Seed (PLS) rates are shown in the Table 1-A

TABLE 1-A		
SEED MIX		
Botanical Name	Common Name	**PLS Rate (Pounds Per Acre)**
Aristida purpurea	Purple Three-Awn	2.0
Piantago insularis	Indian Wheat	3.0
Senna covesii	Desert Senna	2.0
Sphaeralcea ambigua	Desert Globe-Mallow	1.0
Sporbolus	Sand Dropseed	1.0
Acacia constricta	Whitethorn Acacia, Mescat	2.0
Encelia farinose	Brittlebush	1.5
Larrea tridentata	Creosote Bush, Greasewood	6.0
Acacia greggii	Cat's Claw Acacia	2.0
Baileya multiradiata	Desert Marigold	1.0
Bouteloua curtipendula	Sideoats Grama	2.0
Cercidium floridium	Blue Palo Verde	2.0
Eschscholtzia mexicana	Mexican Gold Poppy	1.0
Phacelia campanularia	Desert Canturbury Bells	2.0
Prosopis velutina	Velvet Mesquite	1.0
Psilostrophe cooperi	Paper Flower	1.0

Native Seed Substitution:

No substitution of the contract-specified seed will be allowed unless evidence is submitted documenting that the contractor has made a diligent effort to obtain the contract-specified seed, from either seed suppliers or collectors, and that the contract-specified seed will not become available prior to the time specified for native seeding in the contractor's approved construction schedule.

Should a substitution of the contract-specified seed be requested for one of the two reasons specified above, and the contractor's documentation is approved by Gateway's Representative, Gateway will specify an alternate seed within five working days of Gateway's Representative's approval of the contractor's documentation. The alternate seed will only be allowed when there is an insufficient quantity of the contract-specified seed for the areas to be seeded as called for herein or as required for erosion control. The contractor shall obtain and apply the alternate seed, as required, to all such remaining areas. Unless otherwise approved by Gateway's Representative, the approved alternate seed will only be allowed until such time that contract specified seed meeting the availability can be provided.

No additional adjustments will be made for substituting the alternate seed, the costs being considered as included in the contract item for native seeding.

No payment will be made for areas seeded with unapproved seed.

Wood Cellulose Fibers: Natural wood cellulose fiber mulch shall be from thermo-mechanically processed wood, processed to contain no growth germination inhibiting factors. The mulch shall be from virgin wood manufactured and processed so the fibers will remain in uniform suspension in water under agitation to form homogenous slurry. Paper products will not be considered as virgin wood. The wood fiber mulch shall have the properties shown in Table 2 below:

TABLE 2	
Virgin Wood Cellulose Fiber	90% min.
Recycled Cellulose Fiber	10% max.
Ash Content	0.8% +/-0.3%
PH	4.5 +/-1.0
Water Holding Capacity	10:1 (water:fiber)

A colored dye which is non-injurious to plant growth may be used. Wood cellulose fiber shall be delivered in undamaged, labeled containers bearing the name of the manufacturer and showing the air -dry water content.

Straw: Straw shall be from wheat and shall be free of noxious weeds, mold or other objectionable material. Straw mulch shall be from the current season's crop and shall be in an air -dry condition and suitable for placing with mulch blower equipment.

A letter of certification from the supplier shall be required stating that the straw was baled less than 12 months from the delivery date.

All wheat straw shall be free from noxious weeds in compliance with the standards and procedures of the North American Weed Management Association (NAWMA) or the Arizona Crop Improvement Association (ACIA). The contractor shall provide documentation, including a transit certificate and appropriate labels and/or marking twine, from the ACIA or NAWMA that wheat straw to be used for mulch is free of noxious weeds. The wheat straw shall be accompanied by the certification, labels and/or marking twine at the time of delivery to the project site. Wheat straw delivered to the project without such information will be rejected, and promptly removed from the project.

Rye straw and oat straw will not be acceptable.

Water: Water shall be free of oil, acid, salts or other substances which are harmful to plants. The source shall be as approved by Gateway's Representative prior to use.

Tacking Agent: Tacking agent shall be a naturally occurring organic compound and be non toxic. It shall be a product typically used for binding soil and mulch in native seeding or erosion control operations. Approved types shall consist of mucilage or gum by dry weight as active ingredient obtained from guar or plantago. The tacking agent shall be labeled indicating the type and mucilage purity.

The contractor shall have the tacking agent swell volume tested by an approved testing laboratory using the USP method. The standard swell volume shall be considered at 30 milliliters per gram. Material shall

have a swell volume of at least 24 milliliters per gram. Certified laboratory test results shall be furnished to Gateway's Representative for each shipment of homogenous consistency to be used on project areas or as directed by Gateway's Representative. Tacking agent rates shall be adjusted to compensate for swell volume variation. Material tested with lesser volume shall have the tacking agent rate increased by the same percentage of decrease in swell volume from the standard 30 milliliters per gram. Material tested with greater volume may reduce tacking agent rates by the same percentage of increase in swell volume from the standard 30 milliliters per gram. Tacking agent shall be pure material without other starches, bentonite, or other compounds that would alter the swell volume test results of mucilage, or the effectiveness of the tacking.

Chemical Fertilizer and Sulfur:

Chemical fertilizer shall be a standard commercial fertilizer conforming to the analysis and in the physical form specified in the Special Provisions. Chemical fertilizer shall be furnished in standard containers with the name, weight and guaranteed analysis of the contents clearly marked. When a mixed fertilizer is specified, such as 5-10-5, the first number shall represent the minimum percent of soluble nitrogen, the second number shall represent the minimum percent of available phosphoric acid and the third number shall represent the minimum percent of water soluble potash.

Fertilizer shall be composed of a mixture of one part sulfur-coated urea 25-4-8, one part monammonium phosphate 11-52-0, and one part methylene urea 38-0-0. The sulfur-coated urea, a blended fertilizer 25-4-8, shall have 80 percent of the nitrogen defined as slow release, and contain 5 percent Iron, 10 percent sulfur and trace amounts of zinc and manganese. The resulting 24-18-2 chemical blended fertilizer, as specified herein, shall be applied at the rate of 200 pounds per acre. In addition to the fertilizer mixture, agricultural sulfur compounds, comprised of between 80 percent and 96 percent sulfur, shall be applied at the rate of 200 pounds per acre.

Compost: Compost shall consist of composted organic vegetative materials. Prior to being furnished on the project, compost mulch samples shall be tested for the specified microbiological and nutrient conditions, including maturity and stability, by a testing laboratory approved for testing of organic materials. Written test results shall be submitted to Gateway's Representative for approval.

Compost material shall be dark brown in color with the parent material composted and no longer visible. The structure shall be a mixture of fine and medium size particles and humus crumbs. The maximum particle size shall be within the capacity of the contractor's equipment for application to the constructed slopes. The odor shall be that of rich humus with no ammonia or anaerobic odors.

EXAMINATION

32 90 00-3.1 Site Inspection and Review: Contractor is to verify site conditions and note any irregularities affecting his/her work of this section. Contractor is to report any irregularities to the Gateway's Representative prior to beginning work. Contractor shall verify that rough grading is complete and accepted by the Gateway's Representative. Beginning work of this section implies acceptance of existing conditions. Contractor is to verify locations of all underground utilities. Coordinate with Gateway's Representative, and contact Blue Stake as needed. Placement of electrical, irrigation, and

other underground utilities will be reviewed with the General Contractor and Landscape Contractor prior to commencement of work. Conflicts will be brought to the attention of the Gateway's Representative for resolution.

SHRUB PLANTING

32 90 00-3.2 Clearing and grading: All planting areas shall be free of construction material and subgrade elevations established to permit landscape construction. No planting shall be done when the soil is excessively wet in the opinion of the Gateway's Representative.
Excavation: Plant pits shall be dug to produce vertical sides and flat, uncompacted bottoms or as shown on the drawings. If pits are dug with an auger and the sides of the pits become glazed in the opinion of the Gateway's Representative, the glazed surface shall be scarified. Loosen hard subsoil in bottom of excavation.
If caliche is encountered the Contractor is to break through the caliche to provide drainage and/or bring to the attention of the Gateway for resolution. Plant tablet schedules for plants shall be per landscape plans.
Backfill Mix: Refer to the backfill mix requirements herein. To be acceptable the backfill shall have all stones greater than 1-inch diameter removed and without balls, clumps or layers of individual materials. Prior to the backfilling of holes, the Contractor shall provide a sample of the backfill for the Gateway's Representative to review. This sample shall be used as reference material for the backfill as the project proceeds.
Cut plastic or metal containers on 2 sides with a metal cutter. Do not use spade to cut cans. Do not handle container planter by foliage, branches or trunks. After removing plant from container, scarify side or rootball to eliminate root-bound condition. Remove all nursery-type plant labels from plants.
Watering: All watering shall be done in a manner which will provide uniform coverage but which will not cause erosion or damage to the finished surface.
Herbicide and Pesticide Application: Herbicides, insecticides and fungicides shall be applied as needed and in accordance with the manufacturer's recommendations.

INSTALLATION OF CACTI ACCENTS

32 90 00-3.3 Installation of Cacti Accents: Lay out individual Cacti and Succulents locations. Stake locations, outline areas and secure Gateway's Representative acceptance before start of planting work. Make minor adjustments as may be requested by Gateway's Representative.
Excavation: Excavate pits, as shown on drawings and schedules. Loosen hard subsoil in bottom of excavation. Refer to Part 1 for underground obstructions.
If caliche is encountered the Contractor is to break through the caliche to provide drainage and/or bring to the attention of the Gateway for resolution.
Preparation of Cacti Accents Backfill Mix: If the existing soil material removed from the plant pits results in a deficient soil quantity to produce adequate backfill, the Contractor shall collect additional existing surface soil to fulfill the quantities necessary to complete the work, at no additional cost to the project. The additional soil shall be collected from within the limits of the project site as approved by the Gateway's Representative.
Setting and Backfilling for Cacti Accents: Prior to delivery to the site and planting, the Contractor shall mark the original north exposed surface and calibration measurement points of all cacti using a method

acceptable to the Gateway's Representative. The mark or its installation process shall not damage or deface the cacti. The mark must be capable of withstanding poor weather and expected working conditions without the possibility of erasure or detachment throughout the duration of the contract.
All wounds and/or cuts made to the Cacti Accents shall be treated with bactericide as approved on the same day that the cut and/or wound was made.
All cut and/or damaged roots shall be treated with dusting sulfur as approved on the same day that the cut and/or wound was made.

ROCK MULCH

32 90 00-3.4 Rock mulch shall be wetted prior to placement over accepted subgrade to eliminate powdering and dry placement. The rock mulch shall not be mixed with, and shall be protected from contamination by, on-site soil materials and other undesirable materials prior to installation any time during the installation operation. Rock mulch that, in the opinion of the Gateway's Representative, has undesirable contaminants shall be removed from the project.
The areas on which the mock mulch is to be placed shall be graded according to the drawings prior to the placement of any rock mulch. The ground shall be reasonably smooth and firm and all deleterious material and rocks larger than 1" in diameter shall be removed and disposed of. The rock mulch shall be placed over the entire planting area as shown on the drawings including underneath all plant materials located within rock mulch areas.
The Contractor shall stake out all areas to receive rock mulch prior to placement. Rock mulch shall not be placed until after plant materials in the area have been planted and a pre-emergent herbicide applied.
After placing and grading the rock mulch, the Contractor shall water settle the rock mulch with light spray to remove fine material from the surface. Care shall be taken in the placement of the rock mulch not to disturb or damage any plant material. A second application of pre-emergent herbicide shall be applied to planting areas in accordance with the manufacturer's printed instructions. After each application of herbicide contractor to water in pre-emergent so that it saturates the rock mulch layer and into soil.

SALVAGE SURFACE SELECT BOULDER

32 90 00-3.5 The contractor shall coordinate to placement of all salvage boulder with the Gateway's Representative. Boulders shall be installed per detail.

SEED MIX

32 90 00-3.5 The contractor shall notify Gateway's Representative at least two days prior to commencing native seeding operations.

The equipment and methods used to distribute native seeding materials shall provide an even and uniform application of seed, mulch, and other materials at the specified rates.

Unless specified otherwise in the Special Provisions, native seeding operations shall not be performed on undisturbed soil outside the clearing and grubbing limits of the project or on steep rock cuts.

The contractor shall coordinate the native seeding operations with the grading operations to determine mobilization frequency as embankment and cut slopes are finished throughout the duration of the project. Native seeding shall be done during suitable weather and soil conditions for tillage and placement of materials. Native seeding operations shall not be performed when wind would prevent uniform application of materials or would carry native seeding materials into areas not designated to be seeded.

Tillage: Where equipment can operate, the area to be seeded shall be prepared with a ripper bar, chisel plow, or with other devices, which will provide thorough soil cultivation to the depth specified below. For areas too steep to be prepared for native seeding after the slope has been completed, as determined by Gateway's Representative, tillage shall be accomplished with appropriate equipment as the slope is being constructed. On slope areas, all tillage shall be directional along the contours of the areas involved. All areas, which are eroded, shall be restored to the specified condition, grade and slope as directed prior to native seeding.

On cut and fill slopes the operations shall be conducted in such a manner as to form minor ridges thereon to assist in retarding erosion and favor germination of the seed.

Cut slopes flatter than 3:1 (horizontal to vertical) shall be tilled a minimum of 12 inches in depth, and fill slopes flatter than 3:1 shall be tilled to a six-inch minimum depth. All slopes steeper than 3:1, and areas which could potentially be affected by underground utilities, shall be tilled to a minimum 6 inches in depth, and left in a roughened condition as they are constructed.

Care shall be taken during the native seeding operations to prevent damage to existing trees and shrubs in the native seeding area.

Tillage may require passing the equipment over the area several times to provide thorough soil cultivation. Furrows from tillage shall be no more than 12 inches apart. No work shall be done when the moisture content of the soil is unfavorable to tillage.

All competitive vegetation shall be uprooted prior to native seeding and the soil shall be left in a friable roughened condition free of clods or large stones over four inches in any dimension and other foreign material that would interfere with the native seeding operation. Exposed stones larger than four inches shall be removed and disposed of in an approved manner prior to grading and native seeding.

Regardless of the method of seeding application, all areas prepared with tilling shall have fertilizer and compost uniformly applied and incorporated into the soil at the specified rates per acre with final tillage and seeding. Slopes 3:1 and flatter shall have fertilizer and compost tilled into a minimum of the top four inches of the surface. Slopes steeper than 3:1 shall have fertilizer, soil amendments, and compost applied for incorporation into the soil as directed by Gateway's Representative.

For mini-benched slopes, fertilizer, compost, and soil amendments shall be applied to at the specified rates with no tillage or incorporation.

Seeding: Drill seeding with straw mulch shall be considered as the preferred method of seed application when practicable. Unless otherwise specified by Gateway's Representative, drill seeding shall be used for all areas with slopes of 3:1 or less.

Hydroseeding shall be the alternative method for seed distribution for slopes in excess of 3:1, and where drill seeding is not practicable or suitable for soil conditions and seed types, as determined by Gateway's Representative.

Straw mulch or wood fiber mulch shall be applied on drilled or hydroseeded areas with crimping and tacking, as specified herein or directed by Gateway's Representative, within 24 hours of seed application.

Unless otherwise specified in the Special Provisions, native seeding areas shall not be watered after planting.

Drill Method: After the tillage and incorporation of fertilizer and compost is completed and accepted by Gateway's Representative, seed shall be planted with a drill seeder capable of accurately metering the specific seed mix. Use of a drill seeder shall not damage the prepared seedbed, and shall provide a soil cover over the planted seed.

Seed shall be planted approximately 1/4 inch deep, with a maximum depth of 1/2 inch. The distance between the furrows produced using the drill process shall not be more than eight inches. If the furrow openers on the drill exceed eight inches, the area shall be drilled twice. Native seeding shall be done with grass seeding equipment with double disc openers, depth bands, packer wheels or drag chains, rate control attachments, seed boxes with agitators and separate boxes for small seed. Seed of different sizes shall be sowed from at least two separate boxes adjusted or set to provide the planting rate as specified.

Hydroseed Method: Areas and seed types not suitable for drill-seeding, as directed by Gateway's Representative, shall be hydroseeded with straw mulch or wood fiber mulch applied following application of the seed. The contract specified seed shall be applied in a slurry containing a minimum of 40 pounds tacking agent and 200 pounds of wood fiber mulch per acre. Seed shall not be in the slurry for more than 30 minutes. Seed planted by this method will not require covering with soil. Soil areas shall be tilled to produce loose and friable surfaces with crusted hard soils broken up prior to hydroseeding.

Applying Straw Mulch: Within 24 hours after each area is planted, straw mulch shall be uniformly applied at the minimum rate of 2 1/2 tons per acre for crimped and tacked areas and minimum 2 tons per acre for tacked-only areas. Unless otherwise specified by Gateway's Representative, straw mulch shall be applied to both drill seeded and hydroseeded areas.

During native seeding and mulching operations, care shall be exercised to prevent drift and displacement of materials. Mulch material which is placed upon trees and shrubs, roadways, structures and upon any areas where mulching is not specified or which is placed in excessive depths on mulching areas shall be removed as directed. Mulch materials which are deposited in a matted condition shall be loosened and uniformly spread, to the specified depth, over the mulching areas. Any unevenness in materials shall be immediately corrected by the contractor.

Except as specified in the next paragraph, straw mulch applied to drill seeded or hydroseeded areas shall be immediately affixed by crimping and tacking after application. No mulch shall be applied to native seeding areas which cannot be crimped and/or tacked by the end of each day. Any drifting or displacement of mulch before crimping and/or tacking shall be corrected by the contractor at no additional cost to Gateway.

Crimping shall not be required for areas that are steeper than 3:1. Crimping may also be waived, when specifically directed by Gateway's Representative, for drill seeded or hydroseeded areas with rocky conditions or other areas deemed unsuitable by Gateway's Representative for crimping. Straw mulch applied to such drill seeded or hydroseeded areas shall only be tacked, as specified below.

Prior to the application of a tacking agent, protective covering shall be placed on all structures and objects where stains would be objectionable. All necessary precautions shall be taken to protect the traveling public and vehicles from damage due to drifting spray.

Anchorage by Crimping: Except as specified above, crimping shall be required for all straw mulched areas. Straw mulch shall be anchored into the soil with a heavy disc. Discs shall be flat and serrated with at least 1/4 inch thickness having dull edges and spaced no more than nine inches apart. Straw mulch shall be anchored to a depth of at least two inches and shall not be covered with an excessive amount of soil. Anchoring operations shall be across the slopes where practical with no more than two passes of the anchoring equipment. Immediately following the crimping operation, the crimped area shall be tacked as specified below.

Anchorage by Tacking: Straw mulch shall be anchored by tacking using a slurry consisting of a minimum of 150 pounds of tacking agent, 500 pounds of wood fiber mulch, and 300 gallons of water per acre. The contractor may increase the quantities of components to ensure the stability of the straw mulch to provide erosion control during the 45 calendar-day maintenance period at no additional cost to Gateway.

Applying Wood Fiber Mulch with Tacking Agent: Areas seeded but not practical for straw mulch, as determined by Gateway's Representative, shall have wood fiber mulch with tacking agent applied at the variable rates shown in the Table 4 below.

TABLE 4		
Slope (H:V)	**Tacking agent (Pounds pure mucilage per acre)**	**Wood Fiber Mulch (Pounds per acre)**
Flat to 4:1	50	1,000
From greater than 4:1 to 3:1	100	2,000
From greater than 3:1 to 2:1	150	2,500
Greater than 2:1	200	3,000
Erosive Soil Slopes*	300	3,500
*As determined by Gateway Representative		

The Contractor shall submit a batch (tank) mix quantity schedule for seed application and the temporary erosion control mulch application for approval of Gateway's Representative prior to mixing seed, fertilizer, wood fiber mulch and tacking agent in a slurry. Batch mixing and coverage will be monitored throughout the native seeding operations. The contractor shall coordinate the mixing and application operations with Gateway's Representative in advance of all mixing.

Native Seeding Acceptance: After application Gateway's Representative will inspect seeded areas or sub-areas for conformance to the contract requirements. The contractor shall correct, to the satisfaction of Gateway's Representative, any areas not conforming to the specifications. The 45-day maintenance period will begin upon acceptance of the area by Gateway's Representative.

The contractor shall maintain and stabilize each area or sub-area, including shoulder build-up areas, for a minimum period of 45 calendar days after application of the seeding and mulching materials, and acceptance by Gateway's Representative. Any areas damaged from erosion, or that have less than 90 percent of applied mulch remaining, shall be re-seeded, re-mulched, and re-tacked at no additional cost to Gateway.

Except for landscape projects, native seeding shall be completed, including the 45 calendar-day maintenance period, before the end of the contract time or sooner if required in the SWPPP or elsewhere in the contract documents. Native seeding used as part of a landscape project shall be completed, including the 45 calendar day maintenance period, before the end of the Construction Phase.

Preservation of Seeded Areas: The contractor shall protect seeded areas from damage by traffic or construction equipment. Surfaces which are eroded or otherwise damaged following seeding and prior to final acceptance shall be repaired by regrading, reseeding, and remulching as directed by Gateway's Representative.

CLEAN-UP AND PROTECTION

32 90 00-3.6 During landscape work, keep pavements and work area in a clean, neat and orderly condition. Broom, scrub or hose affected areas as directed by Gateway's Representative. Soil deposits or compacted mud will not be allowed to remain on the roads or parking lot and shall be removed daily or more frequently as directed by the Gateway's Representative.
Protect landscape work and existing improvements from damage due to landscape installation, operations by other Contractors and trespassers. The Contractor assumes all responsibility for the portion or portions of the site under construction and shall provide and maintain safety devices and protective equipment as required by state and local laws, codes and ordinances. Maintain protection during installation and maintenance periods as required. Treat, repair or replace Contractor damaged work as directed by the Gateway's Representative at no cost to the Gateway's Representative. Remove all debris, trash and excess materials generated by the landscape installation and properly dispose of it.

MEASUREMENT AND PAYMENT

32 90 00-3.7

ITEM 32 90 00 - 1 – 5 GALLON SHRUB

Payment for 5 GALLON SHRUB shall be made on a per each basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing a 5 gallon shrub in accordance with the project plans and technical specifications.

ITEM 32 90 00 - 2 – 5 GALLON CACTI ACCENT

Payment for 5 GALLON ACCENT shall be made on a per each basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing a 5 gallon accent in accordance with the project plans and technical specifications.

ITEM 32 90 00 - 3 – SALVAGE SURFACE SELECT BOULDER

Payment for BOULDER shall be made on a per each basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing a boulder in accordance with the project plans and technical specifications.

ITEM 32 90 00 - 4 – ROCK MULCH

Payment for ROCK MULCH shall be made on a square foot basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing the rock mulch in accordance with the project plans and technical specifications.

ITEM 32 90 00 - 5 – SEED MIX

Payment for SEED MIX shall be made on a square foot basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing and installing the seed mix in accordance with the project plans and technical specifications.

ITEM 32 90 00 - 6 – 90-DAY MAINTENANCE PERIOD

Payment for 90- DAY MAINTENANCE PERIOD shall be made on a lump sum basis. Price bid shall include all labor, materials, equipment, and all other items necessary and incidental to providing landscape and irrigation maintenance in accordance with the project plans and technical specifications.

END OF SECTION

32 90 00 LANDSCAPING

ITEM P-160 PERMANENT SURFACE STABILIZATION

DESCRIPTION

160-1.1 This item shall consist of applying a surface stabilization product to soils that are disturbed by the Contractor's operations that will remain un-paved in order to either permanently stabilize the soil, for control dust, to protect erosion of slopes and embankments, for sediment control, and to uphold vehicle traffic that it may encounter. The material shall be in Maricopa County (MAG) approved products.

"Stabilized surface" referenced herein shall be as defined in the *Revision to Promulgation of Federal Implementation Plan for Arizona – Maricopa Nonattainment Area; PM-10; Final Rule* [40 CFR Part 52, FRL 6511-3, 12/21/99] (FIP) and supporting technical documents including requirements that may be defined in subsequent re-proposals or addendums to the FIP published prior to the date of the bid opening date.

Two types of Surface Stabilizations are identified for this project:

1. Dust Control in areas impacted by the Contractors Operations such as the Staging and Storage Areas, Haul Routes, etc., (Non-Pay Items, see Technical Specification P-101 *Mobilization* for more information).
2. Surface Stabilizations at airfield pavement shoulder grading limits and other areas that may experience vehicle traffic or as identified on the plans.

When surface stabilization is required for dust control only or as identified in Technical Specification P-101 *Mobilization*, it shall meet the requirements of MAG Standard Specification 792, and the application shall be in accordance with MAG Standard Specification 230. Product testing and verification will be required per MAG 230.2.1, as modified by this specification. There will be no separate measurement or payment for the surface stabilization of the items identified in P-101 *Mobilization* and all equipment, labor, and materials required to perform the work shall be considered incidental to the P-101 *Mobilization* Payment Line Item provided.

When surface stabilization is required at airfield pavement shoulders, other areas that may experience vehicle traffic, or as identified on the plans, it shall meet the requirements as outlined in this Technical Specification. Measurement and payment for surface stabilization for these items shall be made under the Payment Line Item provided in Section 160-10.1.

The Contractor shall provide separate material and method of installation submittals for review and approval of the Engineer.

GENERAL

160-2.1 PLACEMENT PROCEDURE (SCARIFICATION AND COMPACTION). The work shall include scarification, mixing, placement, and compaction of a palliative into the soil (minimum 6-inch depth), and other miscellaneous items of work required for the completion of the scarification, mixing, and compaction portion of the project. The dust palliative shall be applied using the mixing method that blends the product with surface material, (minimum 6-inch depth) and then compacted to provide a permanent stabilized, dust resistant surface course in accordance with the Taxiway 'P' and Compass Calibration Pad Technical Specification P-152.

160-2.3 PROGRESS SCHEDULE. Contractor shall submit proposed work progress schedule to Phoenix-Mesa Gateway Airport for approval at the pre-construction meeting in accordance with this document.

160-2.4 CONTRACTOR RESPONSIBILITY. The contractor will be responsible for all permits and review fees. The contractor is specifically reminded of the need to obtain the necessary environmental permits or file the necessary environmental notices. Copies of these permits and notices must be provided to Phoenix-Mesa Gateway Airport prior to beginning any work. This provision does not constitute an assumption by Phoenix-Mesa Gateway Airport of any obligation of any kind for violations of said permit or notice requirements. Contractor must comply with all requirements of Phoenix-Mesa Gateway Airport and associated "Best Management Practices," Pollution Prevention Plan, and Air Quality Permit.

Any costs associated with the permitting through governing agencies or testing of material or soil prior to and after the application of product for soil stabilization, will be considered incidental to this item.

MATERIALS

160-3.1 Dust Palliative shall be an Acrylic Polymer Type described as an Acrylic, acrylate, or acetate liquid polymers meeting the requirements of Table 1. The emulsion shall be stable, *i.e.*, should not break down when stored in clean closed containers at ordinary temperatures, excluding freezing or boiling, for a minimum of 3 months. It shall be miscible with water in all proportions. The sequestering agents shall make the preparation stable against hard water, thus permitting dilution of the emulsion with almost all types of water. The emulsion shall be non-corrosive to metal containers. The materials shall penetrate into the soil surface at least 1/8-inch and not form a skin at the surface.

TABLE 1. DUST PALLIATIVE REQUIREMENTS

Parameter	Requirements
Specific Gravity, 25C	1.0-1.15
Active Solids Content	Minimum 40 percent
pH	4.0-9.5
Odor Intensity	Slight
Solubility in water	Dilutable
Brookfield Viscosity, 25C	Max. 1500 cps

Vendor shall submit test results (report) with the proposal from an independent AASHTO accredited lab, signed and sealed by a Professional Engineer, registered in the state of Arizona, showing the California Bearing Ratio (CBR) value of untreated A-7 soil from Maricopa County and CBR values of that same soil at the optimum stabilizer content. **Results of treated soil should show a minimum 25% increase in CBR value over the untreated soil.** The test method used shall be a modified version of ASTM D 1883 Test Method for CBR (California Bearing Ratio) of Laboratory Compacted Samples. The following curing modification shall be used:

Curing – CBR specimens, after molding, shall be left in their mold, on their sides and cured in the laboratory air for 7 days prior to being immersed in water for 96 hours and then tested for CBR.

Moisture Content – CBR samples shall be compacted at the optimum moisture content, both treated and untreated (ASTM D 698, method C). Three-specimen average required. Surcharge weight shall be 10 Lbs.

The test report shall include all the information required by ASTM D 1883, Section 10 for both treated and untreated CBR samples. In addition, the penetration vs. stress plow for each test shall be included (ASTM D1883, Fig. 2).

ENVIRONMENTAL CRITERIA

160-3.1 All products must be approved by the environmental representative of Phoenix-Mesa Gateway Airport prior to application/use.

All testing performed on the product to verify compliance to these document criteria shall be performed on the undiluted concentrate of the product itself. Dilution of the product may only occur as determined by the laboratory performing the testing to accommodate laboratory equipment detection limits. The actual trade name of the product submitted shall be on all chain of custody documentation and test result documentation. Tests shall have been performed within 5 years of the date of the products intended use.

Products shall not contain or emit chlorinated fluorocarbons (CFCs, Freons). Products shall not contain greater than 1 gram per liter of volatile organic compounds (VOCs).

HMIS rating equal to or less than for each category: H=1; P=1; R=1; PPE=X

The Contractor shall provide adequate proof that storm water runoff from treated areas (as a result of application of the chemical dust palliative/stabilizer product) shall not contain concentrations that exceed benchmark values of the parameters designated in the National Pollutant Discharge Elimination System Storm Multi-Sector General Permit for Industrial Activities (see Table 2, page 160-5) or the Arizona Surface Water Quality Numeric Standards as defined in the Arizona Administrative Code, Title 18, Chapter 11. Adequate proof can be shown by providing both of the following:

1. Complete Whole Effluent Toxicity (WET) testing for lethal concentration at 50% (LC50). The test shall be performed on rainbow trout, fathead minnows, and Daphnia magna. Other similar animals may be substituted upon approval of the Environmental representative. The testing shall be performed as close to the undiluted concentrate product as possible and the test shall be been performed within 5 years of the date for its intended use. All original laboratory data must be submitted with the tested product's exact identifiable name on all result sheets.

2. Complete list of all individual chemical constituents (including all proprietary chemical information) and percentage of each in a given volume of pure chemical product.

Dust palliatives and their degradation products shall not contain constituents that are identified or listed as a hazardous waste under the Arizona Administrative Code R18-8-261; emit or off-gas during placement, use, or degradation of any hazardous air pollutant listed under Rule 370, Section 203 of the Maricopa County Air Pollution Control Regulations; be a hazardous chemical substance or mixture pursuant to Section 7 of the Federal Toxic Substances Control Act [15 U.S.C. 26061, be designated by rule an extremely hazardous chemical substance pursuant to the Arizona Environmental Quality Act, be

prohibited for use by the Arizona Department of Environmental Quality, the Environmental Protection Agency, or any applicable law, rule, or regulation.

Dust palliatives or their components and degradation products shall not be substances or composed of substances known to be, or reasonably anticipated to be, carcinogenic by the U.S. Department of Health and Human Services. Dust palliatives that are composed of recycled materials shall not be accepted for use due to the added residual components that otherwise would not be present nor contribute to the effectiveness of the binding characteristics of the dust palliative.

Contractor shall provide a copy of the current Material Safety Data Sheet (MSDS) for the product(s) proposed. The MSDS must include all chemical compounds present in concentrations greater than 0.1% for each product proposed. If additives are added to the acrylic-polymer-type product other than water, then complete MSDS's for the acrylic polymer base and each additive shall be provided. Phoenix-Mesa Gateway Airport reserves the right to request and obtain all original manufacturer MSDS's of the submitted product upon request.

Failure to provide adequate proof of conformance to the criteria shall be considered grounds for rejection of product and/or bid. Bidder shall provide any new or updated written or verbal information regarding product use to Phoenix-Mesa Gateway Airport as it is made available.

The certifications shall state as a minimum that the product complies with the specifications submitted with the bid. Hazardous Material Identification System (HMIS) and/or National Fire Protection Association (NFPA) ratings labels shall be exhibited on all containers.

TABLE 2 – PARAMETER BENCHMARK VALUES

(Source: Table 3 of NPDES Multi-Sector General Permitting, Fed. Reg. Vol. 65, p. 64767)

Parameter name	Benchmark Level	Source
Biochemical Oxygen Demand	30 mg/L	4
Chemical Oxygen Demand	120 mg/L	5
Total Suspended Solids	100 mg/L	7
Oil and Grease	15 mg/L	8
Nitrate + Nitrite Nitrogen	0.68 mg/L	7
Total Phosphorus	2.0 mg/L	6
pH	6.0-9.0 s.u.	4
Acrylonitrile	7.55 mg/L	2
Aluminum, Total (pH 6.5-9)	0.75 mg/L	1
Ammonia	19 mg/L	1
Antimony, Total	0.636 mg/L	9
Arsenic, Total (c)	0.16854 mg/L	9
Benzene	0.01 mg/L	10
Beryllium, Total (c)	0.13 mg/L	2
Butylbenzyl Phthalate	3 mg/L	3
Cadmium, Total (H)	0.0159 mg/L	9
Chloride	860 mg/L	1
Copper, Total (H)	0.0636 mg/L	9
Cyanide, Total	0.0636 mg/L	9
Dimethyl Phthalate	1.0 mg/L	11
Ethylbenzene	3.1 mg/L	3
Fluofanthene	0.042 mg/L	3
Fluoride	1.8 mg/L	6
Iron, Total	1.0 mg/L	12
Lead, Total (H)	0.0816 mg/L	1
Magnesium, Total	0.0636 mg/L	9
Manganese	1.0 mg/L	13
Mercury, Total	0.0024 mg/L	1
Nickel, Total (H)	1.417 mg/L	1
PCB-1016 (c)	0.000127 mg/L	9
PCB-1221 (c)	0.10 mg/L	10
PCB-1232 (c)	0.000318 mg/L	9
PCB-1242 (c)	0.00020 mg/L	10
PCB-1248 (c)	0.002544 mg/L	9
PCB-1254 (c)	0.10 mg/L	10
PCB-1260 (c)	0.000477 mg/L	9
Phenols, Total	1.0 mg/L	11
Pyrene (PAH,c)	0.01 mg/L	10
Selenium, Total (*)	0.2385 mg/L	9
Silver, Total (H)	0.0318 mg/L	9
Toluene	10.0 mg/L	3
Trichloroethylene	0.0027 mg/L	3
Zinc, Total (H)	0.117 mg/L	1

CONSTRUCTION METHODS

160-4.1 SCARIFICATION AND COMPACTION. In general, scarification and compaction shall be performed in accordance with the Taxiway 'P' and Compass Calibration Pad Technical Specification Item P-152. Scarification and compaction conducted in conjunction with the application of dust palliative includes removal and disposal of all material (vegetation, roots, glass, metal objects, etc.) other than soil or aggregate and the removal and disposal of rocks 3-inches and larger in the top 12-inches of surface. Aggregate may be reincorporated into the soil, provided the aggregate does not protrude more than 2-inches above the surface or cause depressions in the surface greater than 9 square inches x 1-inch deep. Depressions will not be allowed within 10 feet in any direction of any other depression. On-site crushing of material for reincorporating will not be permitted. All unsuitable material shall be transported off airport property, and disposed of in a legally accepted manner. The moisture content shall be brought to that required for optimum compaction by the addition of water, by the addition and blending of dry, suitable material or by the drying of existing material. **The soil shall be scarified/loosened, via an agricultural-type method, such as tilling, discing, ripping, or by other soil preparation method(s), which achieves the same result to a depth of 6-inches (minimum) for all operations except for Dust Control. Dust Control shall achieve the same result to a depth of 2-inches (minimum).** Sufficient grading shall be done to provide reasonable drainage within the limits of existing drainage patterns. The dust palliative shall be applied and incorporated into the soil thoroughly by blade mixing or tilling until a homogeneous mixture is obtained. This uniformity shall be consistent throughout the scarification depth of 6-inches minimum, (2-inches for Dust Control) at the concentration specified in Table 3. The material shall then be compacted to the relative specified density using both pneumatic and a minimum 10-ton steel roller drum compaction equipment. A topical application of dust palliative shall then be applied after the compaction process at the concentration specified in Table 3. Scarified and compacted soils shall be constructed to achieve a uniform soil structure having a 90% density when tested in accordance with ASHTO T-99, method A, and T-191 or ASTM D-2922 and D-3017 with the percent of density adjusted in accordance with the rock correction procedures for maximum density determination, (MAG Standard Detail), to compensate for the rock content larger than that which will pass a No. 4 sieve (4.75 millimeters or 0.187 inches).

TABLE 3. SCARIFICATION AND COMPACTION APPLICATION RATES*

Product	Treatment(1)	Dilution Ratio(2)	Application Rate(3) (Gal/SY)
Acrylic Polymer Type	Scarification and mixing process – per inch of depth	10:1 to 2:1 (Typical 4:1)	0.10 to 0.05
	Final Topical Application After Compaction	12:1 to 4:1 (Typical 8:1)	0.10 to 0.06

*Note that the minimum amount of undiluted concentrate is 0.36 gallons per square yard for the scarification and compaction process.

1. Topical application, (separate application than that stated above), rate shown is required to obtain a minimum 1/8-inch penetration into the soil.
2. The dilution ratio (water: product) is variable and shall be appropriate for the local soil and weather conditions, as proposed by the Contractor and agreed upon by the Engineer.
3. Application rate of undiluted concentrate.

106-4.2 DUST PALLIATIVE APPLICATION. The dust palliative shall be applied using a distribution vehicle equipped with computerized controls and calibrated to ensure a controlled application method. The maintenance and calibration of this vehicle shall be checked periodically. The record of maintenance and calibration shall be submitted to Phoenix-Mesa Gateway Airport for review upon request.

Application rates shall be as described in the application methods submittal. The minimum application rate/dilution ratio for any Topical Application Procedure shall be the same as those stated in Table 3. Rates may be adjusted in the field due to changes in soil or other conditions only upon approval by Phoenix-Mesa Gateway Airport. The contractor will not perform any application without prior approval of Phoenix-Mesa Gateway Airport.

Dust palliative material shall be discharged only in approved areas.

160-4.3 GRADING OF AREAS. The surface shall be graded and compacted to meet previous or final elevations (according to plans and the Taxiway 'P' and Compass Calibration Pad Technical Specification P-152) and ground contours.

160-4.4 PROTECTION OF EXISTING FACILITIES. The contractor shall exercise extreme caution to prevent debris from falling into manholes or other structures. This includes excess product that enters storm drain inlet(s). In the event that debris should fall into a structure it shall be immediately removed. If the debris cannot be removed, Phoenix-Mesa Gateway Airport must be contacted immediately.

160-4.5 PROTECTION OF EXISTING VEGETATION. Existing vegetation shall be protected. Equipment shall not be operated within the drip line of existing trees. Vegetation, landscape features and/or irrigation systems that are damaged, destroyed, or removed without consent of Phoenix-Mesa Gateway Airport shall be replaced in kind and size and guaranteed for one year at the contractor's expense. Maintenance shall include watering, pruning, and fertilizing as required to ensure the vegetation becomes established within the warranty period.

1**60-4.6 PARKING CHARGES, SPECIAL FLAGS OR LIGHTS.** The contractor will be responsible for any charges incurred for parking fees, special flag or lighting equipment for vehicles, special dust control procedures or storm runoff protection.

160-4.7 DEBRIS CONTROL. The construction area is subject to jet blasts equivalent to 75 to 90 miles per hour. The Contractor shall be responsible for taking continued action to prevent loose material or debris from blowing across the airfield. The Contractor shall provide and operate vacuum sweepers as required elsewhere in the contract documents.

160-4.8 EAR PROTECTION. The contractor shall be responsible for ensuring that all contractor personnel and/or subcontractors shall comply with industry standards for hearing protection. The noise level within the work areas may reach as high as 120 decibels.

160-4.9 COMMUNICATIONS PROCEDURE. The Contractor will be responsible to establish communications procedures to ensure contractor personnel and/or subcontractors immediately comply with instructions from the FAA tower, or Phoenix-Mesa Gateway Airport Operations staff.

TEST REPORTS AND CERTIFICATIONS

160-5.1 Product testing and verification will be required per MAG 230.2.1. Proof of conformance of materials to the criteria defined in this document shall be provided in the form of test reports and certifications. Each batch delivery of product used on the project shall be accompanied by a certification letter signed by the owner, partner, or corporate officer, stating that the shipment conforms to the criteria established in the Contract.

PERFORMANCE REQUIREMENTS

160-6.1 Application of the dust palliatives in accordance with this document and as described in the application methods submittal (provided by the Contractor), shall provide a stabilized surface to the specified depth and with the required increase in CBR value as defined herein and in accordance with the test methods provided in the FIP, for a minimum of 12-months from substantial completion (warranty period). Stabilization resulting in only a surface "skin" treatment will be deemed unacceptable. For the purpose of this contract, a "skin" on the surface will be a formation of any palliative on the surface that can be dislodged from the soil by winds (either weather or aircraft related) or stormwater run-off. Any formation of the palliative on the soil surface must adhere to the underlying soil to a minimum depth of 1/2-inch.

CONTRACTOR QUALITY CONTROL

160-7.1 The Contractor shall be responsible for developing and implementing a Contractor Quality Control Program including inspection and testing to assure compliance with the requirements of this section in accordance with this *General Provisions* Section 100.

REQUIRED SUBMITTALS

160-8.1 APPLICATION METHODS SUBMITTAL. The material and application method submittals shall clearly define the application procedures in accordance with the manufacturer's recommendations, and in accordance with this specification.

In addition to the requirements stated elsewhere, the application methods submittal shall include:

a. Applicator's qualifications.

b. Manufacturer's standard literature for dust palliative.

c. Curing time for each application method.

d. Application and dilution rates proposed for a soil defined by the following: medium grained, 0-50% passing Tyler Sieve No. 4, 12-50% passing Tyler Sieve No. 200. Note: This is a "typical" soil found on Airport property; however, other types/ranges of soil may be encountered.

e. Equipment to be used during all phases of application.

f. Description of any construction activities not specifically referenced in this document.

METHOD OF MEASUREMENT

160-9.1 There shall be no measurement or payment for soil stabilization but shall be considered to the item to which the work is associated, (i.e. Mobilization).

EXP 9-30-13

SECTION 16000 GENERAL ELECTRICAL REQUIREMENTS

GENERAL

1.01 SCOPE OF WORK

A. It is the intent of this part of the Contract Documents to cover the work and materials necessary for erecting a complete electrical system, tested and ready for continuous use. The system shall be constructed in accordance with the Contract Documents, and Federal, State, and Local codes and regulations.

1.02 RELATED SECTIONS

A. The Contractor shall coordinate the work with other trades, and furnish and install the equipment in accordance with the manufacturers' requirements.

B. The Related Work can be found in other Divisions of these specifications, such as, but not limited to:

Division 0	Bidding Requirements, Contract Forms, and Conditions of the Contract
Division 1	General Requirements
Division 2	Trenching, back filling, and compacting
Division 3	Concrete formwork, reinforcement, and concrete material, mixing, placing, jointing, curing and finishing
Division 9	Painting and protective coatings
Division 11	Equipment
Division 13	Special Construction

1.03 GENERAL PROVISIONS

A. Minimum sizes of equipment, and electrical devices, are indicated but it is not intended to show every offset and fitting, nor every structural or mechanical difficulty that will be encountered during the installation of the work.

B. Work indicated on the Plans is approximately to scale. Actual dimensions and detailed Plans should be followed as closely as field conditions permit. Field verification of scaled dimensions on Plans is governed by field conditions. Installation of systems and equipment is subject to clarifications as indicated in reviewed shop drawings and field coordination.

C. Discrepancies indicated on different Plans, between Plans and actual field conditions, or between Plans and Contract Documents shall be promptly brought to the attention of the Engineer for clarification, prior to purchasing and installing equipment.

D. The alignment of equipment and conduit shall be adjusted to accommodate architectural changes, and coordinate with work of other trades, without extra expense to the Owner.

E. The Contractor shall furnish and install the parts and pieces necessary to the installation of equipment, in accordance with the best practice of the trade, and in conformance with the requirements of these Contract Documents and equipment manufacture's recommendations.

F. Items not specifically mentioned in these Contract Documents, or noted on the Plans, or indicated on reviewed shop drawings, but which are necessary to make a complete working installation, shall be deemed to be included herein.

G. The Contractor shall lay out and install electrical work prior to completion of floors and walls. Furnish and install sleeves and openings through floors and walls, required for installation of conduits. Sleeves shall be rigidly supported and suitably packed, or sealed, to prevent ingress of wet concrete. Spacers shall be installed in order to prevent conduit movement. Dimensions indicated for electrical equipment and their installation are minimum dimensions.

H. The Contractor shall furnish and install inserts and hangers required to support conduits and other electrical equipment. If the inserts, hangers, sleeves, or other mounting hardware are improperly placed, or installed, the Contractor shall do necessary work, at his/her own expense, to rectify the errors.

I. Electrical equipment shall be capable of operating successfully at full-rated load, without failure, at an ambient air temperature of 60 degrees C, and specifically rated for the altitude indicated on the Plans. Electrical equipment not rated for operation at that temperature shall be provided with air conditioning to meet the manufacturers' operating temperature.

J. If any contradictions, nonhomogeneity, or inconsistency appears, the most strict criteria noted and the collective requirements in any and all of the project documents shall apply.

K. The Contractor shall perform necessary saw cutting, core drilling, excavating, removal, shoring, backfilling, and other work required for the proper installation of conduits, whether inside, or outside of the buildings and structures. The Contractor shall repair and patch where demolition has taken place in a manner to match existing original structure.

1.04 REGULATIONS, CODES, AND STANDARDS

A. Electrical work, including connection to electrical equipment integral with mechanical equipment, shall be performed in accordance with the latest published regulations, codes, and standards, of the following:
   1. National Electrical Code (NEC)
   2. State and local codes
   3. Institute of Electrical and Electronic Engineers (IEEE)
   4. American National Standards Institute (ANSI)
   5. American Society for Testing and Materials (ASTM)
   6. Insulated Cable Engineers Association (ICEA)
   7. National Electrical Manufacturers Association (NEMA) Standards
   8. Federal Occupational Safety and Health Act (OSHA)
   9. National Fire Protection Association (NFPA)

B. When applicable, the material used in the performance of the electrical work shall be listed by the Underwriters' Laboratories, Inc. (UL) for the class of service for which they are intended.

1.05 SUBMITTALS

A. It is the obligation of the Contractor to organize his/her work, so that a complete electrical, instrumentation, and control system for the facility will be provided, and will be supported by accurate shop and record drawings, and O&M manuals.

B. The Contractor shall submit detailed shop drawings and data prepared and organized by the suppliers. The quantity of submittal sets required shall be as specified in the Contract Documents.

C. The submittals shall be neatly grouped and organized by specification section number, and sub-section. Related information shall be highlighted, and the specific product shall be indicated. All submittals shall be complete, and presented in one package. Incomplete submittals will be returned without review. If a portion of the project requires a fast track schedule, that portion only may be submitted earlier under a separate cover letter after securing the Engineer's written permission. The following shall be submitted to the Engineer and returned, reviewed to the Contractor before fabrication is started.

1. A complete list of the equipment and materials, including the manufacturer's name, product specification, descriptive data, technical literature, performance charts, catalog cuts, installation instructions, and spare part recommendations for each different item of equipment specified. The above shall clearly show all the specified requirements as described in the Specifications including but not limited to specific U.L. and NEMA rating, technical capabilities, test result verifications, and acceptance letters.

2. Drawings containing complete wiring and schematic diagrams, control diagrams, and any other details required to demonstrate that the system has been coordinated and will operate as intended. Drawings shall show proposed layout, anchoring, support, and appurtenances of equipment, and equipment relationship to other parts of the work including clearances for maintenance and operations.

3. Upon Project acceptance, the Contractor shall submit four sets of "Record Drawings" of the electrical, control, and instrumentation, along with step-by-step procedure manuals for the installation, operation start-up, and maintenance of the equipment. Each set shall include installation, operating, troubleshooting, maintenance and overhaul instructions in complete detail. It shall also include possible breakdowns and repairs, and troubleshooting guides, as well as simplified wiring and control diagrams of the system installed. This shall provide the Owner with comprehensive information on all systems and components to enable operation, service, maintenance and repair. Exploded, or other detailed views of all equipment, devices, assemblies, and accessory components shall be included, together with complete parts lists and ordering instructions.

4. Record Drawings:
   a. The Contractor shall maintain a marked up set of Contract Document Plans showing actual installed circuit numbers, conduit sizes, cable tray routing, number of conductors, conductor sizes (larger than #12 AWG), and all other deviations from the design Plans.
   b. Underground conduit and concealed items shall be dimensioned on the Plans from permanent, visible, building features.

c. The Contractor shall provide actual motor size, starter size, and overload heater size, along with all other protective equipment for all 480 V and 4160 V motor circuits as part of the one-line record drawings.

d. The Contractor shall revise all conductor identification and panel schedules to indicate as-built conditions.

PRODUCTS

2.01 GENERAL MATERIALS AND METHODS

A. Materials, equipment, and parts comprising any unit, or part thereof, specified or indicated on the Plans, shall be new and unused, of current manufacture, and of highest grade consistent with the state of the art. Damaged materials, equipment, and parts, are not considered to be new and unused, and will not be accepted.

B. Field verification of scaled dimensions on Plans is directed, since actual locations, distances, and levels will be governed by actual field conditions. The Contractor shall also review architectural, structural, yard, mechanical, and other Plans, and the accepted electrical and mechanical shop drawings, and shall adjust their work to conform to the conditions indicated therein.

C. The fabricator of major components, such as distribution panelboards, switchgear, and motor control centers, shall also be the manufacturer of the major devices therein.

D. Refer to various Division sections for individual equipment manufacturers. Indicated manufacturers are subject to strict compliance with the specifications and complete project documents. The reference to a particular manufacturer does not relieve the Contractor from conforming to the specified requirements.

2.02 NAMEPLATES

A. Where indicated elsewhere in these specifications, or on the Plans, the Contractor shall furnish and install nameplates, which shall be black laminate with white letters. The nameplates shall be fastened to the various devices with round head stainless steel screws. Each disconnect means for service, feeder, branch, or equipment conductors, shall have nameplates indicating its purpose.

2.03 SHOP WORK

A. The assembly of process control panels and/or modifications to equipment assemblies shall be done at a UL approved shop. The entire unit shall be completely assembled and tested prior to shipment to the project site. In addition, owner personnel shall be allowed to inspect the unit(s) prior to job-site shipping. This inspection shall not be construed as final acceptance of unit(s) by the owner.

2.04 LISTED EQUIPMENT ASSEMBLIES

A. Service Entrance equipment, Switchgear, Switchboards, Panelboards, Control and Distribution Panels, and other factory assembled electrical enclosures shall bear a UL label. Custom built electrical enclosures and control panels shall bear a UL508 label. Where UL listing is not available, CSA or ETL shall be considered during submittal review.

2.05 SUBSTITUTION OF MATERIAL AFTER AWARD OF CONTRACT

A. Any exceptions to these specifications shall be submitted to the Engineer, with the reasons for requesting such exceptions, with calculations and drawings for redesign of related components, including detailed drawings showing internal and assembly details, with installation instructions. Proposed layout changes showing any modifications or exceptions to related work made necessary by the(se) exception(s), with calculations and drawings showing such modifications or exceptions, shall also be included.

B. Items if material and equipment may be offered (at the Contractor's option) as alternates to specified items. Such offer shall be in writing under Bidder's letterhead.

C. Such alternate proposals shall be accompanied by full descriptive data on the proposed equipment. If alternate material proposals are considered, the Contractor shall submit a list of the proposed alternate substitution items in accordance with the requirements of "Review of Proposed Substitutions".

EXECUTION

3.01 INSTALLATION OF ELECTRICAL EQUIPMENT

A. Coordinate the installation of electrical equipment with other trades.
   1. Arrange for the building in of equipment during structure construction.
   2. Where equipment cannot be built-in during construction, arrange for sleeves, box-outs, and other openings, as required to allow installation of equipment after structure construction is complete.

B. Verify that equipment will fit support layouts indicated.

C. Equipment Dimensions and Clearances:
   1. Do not use equipment that exceeds the indicated dimensions. Except as approved in writing by the Engineer.
   2. Do not use equipment or arrangements of equipment that reduce required clearances or exceed the space allocation.

D. Install equipment in accordance with the manufacturer's instructions.

E. Equipment Access:
   1. Install equipment so it is readily accessible for operation and maintenance.
   2. Equipment shall not be blocked or concealed.
   3. Do not install electrical equipment such that it interferes with normal maintenance requirements of other equipment.

F. Equipment shall be installed plumb, square and true with the building construction, and shall be securely fastened.

G. Outdoor wall-mounted equipment, and indoor equipment mounted on earth, or water bearing walls, shall be provided with corrosion-resistant spacers to maintain ¼-inch separation between the equipment and the wall.

H. Screen or seal all openings in outdoor equipment to prevent the entrance of rodents and insects.

I. Equipment fabricated from aluminum shall not be imbedded in earth or concrete.

J. Provide all necessary anchoring devices and supports.
   1. Use supports as detailed on the Plans and as specified.
   2. Supports and anchoring devices shall be rated and sized based on dimensions and weights verified from approved equipment submittals.
   3. Hardware shall be stainless steel.
   4. Do not cut, or weld to, building structural members.
   5. Do not mount safety switches and external equipment to other equipment enclosures, unless enclosure mounting surface is properly braced to accept mounting of external equipment.

K. Contractor shall verify exact rough-in location and dimensions for connection to electrical items furnished by others.
   1. Shop drawings shall be obtained from those furnishing the equipment.
   2. Proceeding without proper information may require the Contractor to remove and replace work that does not meet the conditions imposed by the equipment supplied.
   3. Provide sleeves wherever openings are required through new concrete or masonry members. Place sleeves accurately and coordinate locations with the Engineer.
   4. Should any cutting and patching be required on account of failure of the Contractor to coordinate penetrations, such cutting and patching shall be done at the expense of the Contractor.
      a. The Contractor shall not endanger the stability of any structural member by cutting, digging, chasing, or drilling and shall not, at any time, cut or alter the work without the Engineer's written consent.
         1) Provide additional reinforcing if required.
         2) Cutting shall be done neatly using proper tools and methods.
      b. Subsequent patching to restore walls, ceilings, or floors to their original condition shall be done by the Contractor.

L. Provide concrete foundations or pads required for electrical equipment as indicated or specified. Floor-mounted equipment shall be mounted on a 4-inch concrete housekeeping pad. Pad shall be poured on top of the finished floor or slab.

3.02 CUTTING AND REPAIRING

A. Where it becomes necessary to cut into existing work for the purpose of making electrical installations, core drills shall be used for making circular holes. Other demolition methods for cutting or removing shall be reviewed by the Engineer prior to starting the work.

B. The Contractor shall repair damage caused by construction, or demolition work, and restore damaged areas to original condition.

3.03 CORROSION PROTECTION

A. Wherever dissimilar metals, except conduit and conduit fittings, come in contact, the Contractor shall isolate these metals, as required, with neoprene washers, 9 mil polyethylene tape, or gaskets. Where fastening conduit, electro plated, or equivalent fasteners and stainless steel bolts shall be used.

B. Factory finishes damaged during shipping, or construction, shall be restored to original new condition. Rust shall be removed, and bare metal surfaces shall be primed and painted to match the original surrounding finish.

C. Electrical panels, switchgear, motor control centers, and other electrical equipment, shall be shipped in sealed dust and moisture proof plastic sheet enclosures, and the seal maintained until units are installed. Said units shall be new and free of any dirt, dust, water, grease, rust, damaged parts or components. Relays, starters, circuit breakers, switches, contacts, insulators, mechanisms, and buses shall be free of dust, dirt, oil, moisture, metal shavings, and other debris before testing and energizing.

D. Once equipment is installed, it shall be protected at all times with plastic sheet covers until the area is free of dirt, dust, paint spray, water, and other trades. Heat shall be provided to eliminate condensation.

3.04 COORDINATION OF THE ELECTRICAL SYSTEM

A. The Contractor shall verify actual equipment, and motor full-load, and locked-rotor current ratings. The necessary minimum equipment, wire, and conduit sizes are indicated on the Plans. If the Contractor furnishes equipment of different ratings, the Contractor shall coordinate the actual current rating of equipment furnished with the branch circuit conductor size, the overcurrent protection, the controller size, the motor starter, and the branch circuit overcurrent protection. The branch circuit conductors shall have a current carrying capacity of not less than 125 percent of the actual full-load current rating.

3.05 TEST

A. The electrical work shall be free from improper grounds, and from short circuits. The correctness of the wiring shall be verified first by visual comparison of the conductor connections with connection diagrams. Next, individual circuit continuity checks shall be made by using electrical circuit testers. Last, the correctness of the wiring shall be verified by the actual electrical operation of the electrical and mechanical devices. Any deviation from the wiring indicated on the Plans, or accepted Drawings, shall be corrected and indicated on the record drawings.

B. Each conductor shall be identified as required by the Contract Documents. This identification shall be indicated on the record drawings to enable rapid, and accurate circuit tracing by maintenance personnel.

3.08 SINGLE LINE DIAGRAMS

A. Single line diagrams, as indicated on the Drawings, show circuit voltages, circuit protection rating, and other pertinent data. Where conflicts exist on the Drawings, the single line diagrams shall take precedence. Grounding conductors are not necessarily indicated. See grounding requirements specified elsewhere herein.

BASIS OF PAYMENT

4.01 Light Pole Base

A. Light pole base removal will be made at the contract unit price for cable installed in conduit or duct, through handholes, and light bases in place by the Contractor and accepted by the Owner. This price shall be full compensation for furnishing all materials and for all preparation and installation of these materials and for all labor, equipment, tools, and incidentals necessary to complete this Item. The unit price of each of these items shall also include the Contractor's overhead, profit and markup.

Payment will be made under:

Item 16000-4.1 Light Base removal – per each

END OF SECTION 16000

SECTION 16050 BASIC MATERIALS AND METHODS

GENERAL

1.01 DESCRIPTION

A. This section consists of general electrical materials and methods. Electrical materials that are a part of equipment specified under other sections shall meet the requirements of this section, unless part of larger factory-assembled equipment.

1.02 SUBMITTALS

A. Submit manufacturer's literature for raceways and fittings, boxes, wires and cables, wiring devices, nameplates, legend plates, labels, panelboards, and safety switches, service entrance equipment, control panels and any other electrical component utilized in this project.

1.03 QUALITY ASSURANCE

A. Refer to Section 16000.

1.04 SPARE PARTS

A. Provide spare components as indicated on plans and elsewhere herein.

PRODUCTS

2.01 BASIC MATERIALS

A. Electrical safety switches, distribution and control equipment shall be rated for heavy duty service.

B. Wiring devices shall be specifications grade.

2.02 MISCELLANEOUS METAL AND MOUNTING CHANNELS

A. Metal Framing:
   1. Unless otherwise shown, mounting channels shall be cold rolled from mild strip steel, 12-gauge, 1-5/8 inches by 1-5/8 inches, with a galvanized finish by Unistrut, Unistrut P-1000, as manufactured by Unistrut, or equal.
   2. Screws, bolts, washers and nuts shall be stainless steel. Parts and brackets for assembly of channels shall be hot dipped galvanized.

B. Miscellaneous Metal: Galvanized steel, unless otherwise shown.

2.03 NAMEPLATES, LEGEND PLATES, AND LABELS

A. Nameplates: Laminated sheet plastic, approximately 1/16 inch-thick, with engraved white letters on a black background, with adhesive backing and mounting screw holes. Stainless steel or brass screws, minimum height of letters, 5/16 inch. Card holders are not acceptable.

B. Legend Plates: Type KN-3 standard legend plates, Square D, or equal.

C. Control Wire Markers: Pressure-sensitive or heat shrink sleeve types, manufactured by W.H. Brady Company, or equal.

EXECUTION

3.01 BASIC MATERIALS

A. The completed installation shall conform to all applicable federal, state, and local code ordinances and regulations. Contractor shall obtain necessary permits and inspections required by the governing authorities. Work shall be done in a neat, workmanlike, finished and safe manner, according to the latest published N.E.C.A. standards of installation, under competent supervision. Install grounding as required by the National Electrical Code.

3.02 MISCELLANEOUS METAL AND MOUNTING CHANNELS

A. Install where electrical equipment is to be surface mounted to walls and where indicated on Plans. Where two or more devices are to be installed side by side, support on metal framing, bolt together, and brace as required to form a rigid structure.

B. Clean cuts and welds. Coat unpainted surfaces with cold application zinc galvanizing. Coat cuts and welds on painted surfaces with zinc chromate primer and finish to match existing paint.

3.03 NAMEPLATES, LEGEND PLATES, AND LABELS

A. Nameplates: Identify panels, switchgear, regulators, load-break junction boxes, disconnect switches, and component enclosures. Fasten nameplates with stainless steel, self-tapping screws or rivets.
   1. Panels: Identify panel number, voltage and amperage of panel bus.
   2. Switchgear: Identify equipment, voltage, amperage and phase and number of wires.
   3. Safety Switches and Relays: Identify equipment controlled and circuits from which they are fed.

B. Legend Plates: Install on selector switches, pushbuttons, pilot lights, starters, and other components.

C. Control Wire Markers: Install at both ends of each control wire interconnecting between such items as control panels, sensors, and control devices, and each end of control wires within control panels, and other such enclosures. Wiring markers shall correspond to control wire numbers on approved wiring diagrams.

4.01 BASIS OF PAYMENT

A. Payment for items described in this section will be made as part of payment for other system components as described in each section containing pay items.

END OF SECTION 16050

PAGE INTENTIONALLY LEFT BLANK

SECTION 16111 CONDUITS

GENERAL

1.01 SCOPE OF WORK

A. Furnish and install conduits as required, and as shown on the Plans. Materials employed shall be as shown on the Plans.

1.02 SUBMITTALS

A. Submit product literature including manufacturer part number, model number, material, size, and specifications. Material shall not be installed until the Engineer has reviewed the submittal data.

B. Shop Drawings shall be submitted for review and acceptance showing routing, conduit size, and number and size of wires in each conduit before installation of conduit and any related work.

C. Proposed routing of conduits buried under floor slabs-on-grade.

D. Identify conduit by tag number of equipment served or by circuit schedule number.

E. Proposed routing and details of construction including conduit and rebar embedded in floor slabs, columns, etc. Identify conduit by tag number of equipment served or by circuit schedule number.

F. Proposed location and details of construction for openings in slabs and walls for raceway runs.

G. Refer to Section 16000 for further submittal requirements.

1.03 REFERENCES

9. 886, Outlet Boxes and Fittings for Use in Hazardous (Classified) Locations.
10. 797, Electrical Metallic Tubing.

PRODUCTS

2.01 RACEWAYS

A. Exposed conduit in an unclassified or hazardous area shall be galvanized rigid steel (GRS) unless specifically indicated otherwise on the Plans. Conduits in the corrosive areas shall be PVC coated GRS unless otherwise indicated. Underground and/or concrete encased conduits shall be PVC, unless otherwise indicated. All wiring, except as otherwise noted, shall be in conduit. Conduit size shall not be less than the National Electrical Code (NEC) size required for the conductors therein and shall not be smaller than 3/4-inch. No underground conduit shall be less than one inch, unless otherwise indicated on Plans.

B. Condulet type fittings shall be Crouse-Hinds, Appleton, or equal with wedge nut covers. All condulets located outdoors or in wet locations shall be weathertight.

C. In unclassified areas, flexible conduit shall be grounding type, weatherproof, corrosion resistant, and watertight.

D. Couplings, connectors, and fittings shall be standard types specifically designed and manufactured for the purpose. They shall be installed to provide a firm mechanical assembly and electrical conductivity throughout.

E. Expansion fittings shall be OZ type AX with jumper for exposed locations and type DX at structural expansion joints, Spring City, or equal. Conduits shall have expansion fittings in accordance with NEC.

F. The conduits and fittings shall be supported per NEC requirements as a minimum.

2.02 GALVANIZED RIGID STEEL (GRS)

A. Conduit and couplings shall be hot-dipped galvanized with zinc coated threads and outer coating of zinc bichromate, in accordance with ANSI C80.1 standards, as manufactured by Jones & Laughlin Steel Corporation, Allied Tube & Conduit Corporation, Triangle PWC, or equal.

B. Steel conduit shall not be buried in earth without concrete encasement and additional corrosion protection. A half lapped rapping of 20 mil PVC based corrosion protection tape shall be used.

2.03 RIGID NONMETALLIC - PVC

A. Where specifically indicated on the Plans, or elsewhere specified, conduit may be high density Schedule 40, 90 degrees C, heavy-duty PVC. The conduit shall be manufactured from virgin polyvinyl chloride compound which meets ASTM D1784, NEMA TC-2, ANSI C33.91, and UL 651 standards. Smoke emissions shall be limited to less than 6 grams per 100 grams of material tested.

B. Where conduit concrete encasement is indicated on the Plans, conduit supports shall be installed at eight foot intervals. PVC conduit shall be manufactured by Carlon, Triangle Conduit & Cable, or equal.

2.04 LIQUIDTIGHT FLEXIBLE METAL CONDUIT

A. Liquidtight flexible metal conduit shall be liquid and vaportight, oil and ultraviolet ray resistant and manufactured in accordance with UL 360 standards. Liquidtight flexible metal conduit shall be formed of a continuous, spiral wound, galvanized steel core with an extruded PVC jacket. The PVC jacket shall be rated for high ambient heat applications, 90 degrees Celsius.

B. For corrosive locations, liquidtight flexible metal conduit shall be formed of a continuous, spiral wound, aluminum core with an extruded PVC jacket. The PVC jacket shall be impervious to corrosive liquids and vapors.

C. An external bonding conductor shall be required for flexible conduit connections containing circuits rated at 60 amps or greater and for sizes 1 1/2 " or larger. Flexible conduit and connectors for 1 1/4 " and smaller shall be listed for grounding.

D. Connectors for liquidtight flexible conduit shall be galvanized, furnished with a sealing ring and locknut, and suitable for wet locations.

2.05 ELECTRICAL METALLIC TUBING (EMT)

A. Conduit shall be galvanized Electrical Metallic Tubing (EMT) manufactured in accordance with UL 797 and as manufactured by Allied Tube & Conduit Corporation, or equal.

B. EMT shall be made of high grade mild steel for durability and shall be hot galvanized with a clear organic polymer top-coat for protection against corrosion.

C. Connectors with insulated throat and couplings for EMT shall be O-Z/Gedney or equal, compression type, UL file No. E35001, Zinc or galvanized for corrosion protection.

D. EMT shall only be installed inside structures where indicated on Contract Drawings and in accordance with the NEC and UL general information card #FJMX.

E. EMT shall not be installed in damp or corrosive locations or buried or encased in concrete.

EXECUTION

3.01 INSTALLATION

A. Conduit runs are schematic only, and shall be modified as required to suit field conditions, subject to review and acceptance by the Engineer.

B. Conduit shall run continuously between outlets and shall be provided with junction boxes where connections are made. Couplings, connectors, and fittings shall be acceptable types designed and manufactured for the purpose, and shall provide a firm mechanical assembly, and electrical conductivity throughout.

C. Conduit runs shall be straight and true. Elbows, offsets, and bends shall be uniform and symmetrical. Changes in direction shall be made with long radius bends, or with fittings of the condulet type.

D. Conduit runs in buildings and structures shall be exposed except as specifically noted, or accepted by the Engineer.

E. Conduit runs shall not interfere with the proper and safe operation of equipment, and shall not block or interfere with ingress or egress, including equipment removal hatches.

F. Exposed conduits shall be securely fastened with clamps, or straps, intended for conduit use. All exposed conduit shall be run on the walls and ceiling only and shall be parallel to the planes of the walls or ceiling. No diagonal runs will be permitted. Flexible conduit shall be used only for short lengths required to facilitate connections between rigid conduit to motors from junction boxes, or control equipment. The maximum length of flexible conduit shall be 3 feet.

G. Conduit runs on water-bearing walls shall be supported one inch away from the wall on an accepted channel. When channel galvanizing, or other coating, is cut or otherwise damaged, it shall be field coated to original condition. No conduit shall be run in water-bearing walls, unless specifically designated otherwise.

H. Conduit shall be thoroughly reamed to remove burrs. IMC or GRS shall be reamed during the treading process, and Rigid Nonmetallic PVC or EMT shall be reamed before applying fittings. A zinc rich cold galvanizing shall be used to restore corrosion protection on field cut threads. Bushings and lock nuts or hubs shall be used at conduit termination's. The total number of bends in any run between pull points shall not exceed 360 degrees. Junction boxes and pull boxes shall be installed at points acceptable to the Engineer. Conduit ends shall be plugged to prevent the entrance of moisture or debris during construction. All spare conduits shall be adequately capped and shall contain a suitable pull string.

I. Joints shall be set up tight. Hangers and fastenings shall be secure, and of a type appropriate in design, and dimensions, for the particular application.

J. Conduit runs shall be cleaned and internally sized (obstruction tested) so that no foreign objects, or obstructions remain in the conduit prior to pulling in conductors.

K. After installation of complete conduit runs 2 inches and larger, conduits shall be snaked with a conduit cleaner equipped with a cylindrical mandrel of a diameter not less than 85 percent of the nominal diameter of the conduit. Conduits through which the mandrel will not pass shall be prepared or replaced.

L. Expansion fittings shall be installed across all expansion joints and at other locations where necessary to compensate for thermal expansion and contraction.

M. Provide trenching, backfill, and compaction for conduits installed underground. Conduits shall be filled from the bottom left of the array upward, leaving the upper levels as spares as much as practical.

N. Trench bottoms for conduits with concrete slurry encasement shall be made to conform accurately to grade so as to provide uniform support for the conduit along entire length. When two or more conduits are installed in the same trench, the Contractor shall space them not less than 1-1/2 inches apart (measured from outside wall to outside wall) using spacers applicable to the type of duct. As the duct laying progresses, slurry not less than 3 inches thick shall be placed around the sides and top of the duct

bank. End bells or couplings shall be installed flush with the concrete handhole walls. Trenches shall be opened the complete length and the bottom of the trench shall be free of loose material and debris before slurry is laid is installed so that if any obstructions are encountered, proper provisions can be made to avoid them.

METHOD OF MEASUREMENT

4.01 UNDERGROUND CONDUITS

A. Underground conduits shall be measured by the linear feet of conduits. Encasement, locator tape, trenching and backfill designated, resolution, and for drain lines, the termination at the drainage structure, all measured in place, completed, and accepted shall be measured by the linear feet. Separate measurement shall be made for the various types and sizes.

BASIS OF PAYMENT

5.01 UNDERGROUND ELCTRICAL RACEWAYS.

A. Payment will be made at the contract unit price for each type and size of conduit and trench completed and accepted. This shall be full compensation for furnishing all materials including trench excavation, earth or slurry backfill (AKA Direct Burial = D.B.), and slurry encasement (S.E.), and for all labor, equipment, tools and incidentals necessary to complete these items. The unit price of each of these items shall include the Contractor's overhead, profit, and markup.

Payment will be made under:

Item 16111-5.1	Sch 40 PVC Conduit PVC – per lump sum
Item 16111-5.2	Trench and Backfill – Slurry Encased – per lump sum
Item 16111-5.3	Trench and Backfill – Direct Buried – per lump sum

END OF SECTION 16111

PAGE INTENTIONALLY LEFT BLANK

SECTION 16118 CONCRETE PULL BOXES

GENERAL

1.01 SCOPE OF WORK

A. The Contractor shall furnish and install pre-cast concrete pull boxes in the locations indicated on the Plans and as required.

1.02 SUBMITTALS

A. Products shall be submitted for review prior to installation in accordance with the Contract Documents, and Section 16000.

PRODUCTS

A. The pull boxes shall be designed for traffic conditions, and the pull box and cover shall be designed for heavy traffic bridge loading unless otherwise noted. The pull boxes shall have dimensions indicated on the plans. The pull boxes shall be constructed of concrete.

B. The pull boxes shall be Quikset, Utility Vault Co., or equal, with covers. The covers shall be engraved "ELECTRICAL".

EXECUTION

3.01 INSTALLATION

A. The pull boxes shall be installed on 12 inches of compacted gravel and shall be installed in such a manner that the cover of the pull box will be flush with finished grade.

BASIS OF PAYMENT

4.01 CONCRETE PULLBOXES

A. Payment for new concrete pull boxes will be made at the contract unit price, including all structural excavation and backfilling, installed and accepted, which price and payment shall constitute full compensation for furnishing all materials and for all preparation and installation of these materials, and for all labor, equipment, tools, and incidentals necessary to complete the work. The unit price of each of these items shall also include the Contractor's overhead, profit, and markup.

Payment will be made under:

Item 16118-4.1	Pullbox Furnished and Installed #5 – per each
Item 16118-4.2	Existing pullbox adjusted to grade – per each

END OF SECTION 16118

SECTION 16123 600 VOLT CLASS CABLE

GENERAL

1.01 SCOPE OF WORK

A. This section covers the furnishing and installation of 600 Volt Class cables and conductors, terminations and splicing, and pulling lubricants.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and elsewhere in the Contract Documents, prior to installation.

1.03 REFERENCES

A. Insulated Cable Engineers Association/National Electrical Manufacturers Association (ICEA/NEMA):
1. S-68-516/WC 8, ethylene-propylene rubber-insulated wire and cable for the transmission and distribution of electrical energy.

1. 44, rubber insulated wires and cables.
2. 83, thermoplastic-insulated wires and cables.
3. 486A, wire connectors and soldering lugs for use with copper conductors.
4. 486B, wire connectors for use with aluminum conductors.
5. 510, insulating tape.

C. National Electric Code

D. Insulated Cable Engineers Association

PRODUCTS

2.01 ACCEPTED MANUFACTURERS

A. Conductors and Multi Conductor Cables (MCC), subject to compliance with Contract Documents, the following manufacturers are acceptable: American Insulated Wire Corporation, Cablec Corporation, Okonite Company, Southwire Company, or equal.

2.02 CONDUCTORS

A. Wire sizes shall be American Wire Gauge (AWG) sizes with Class B stranded construction. Number 2 AWG and smaller shall be factory color coded with a separate color for each phase and neutral, which shall be

used consistently throughout the system. Larger cables shall be coded by the use of colored tape. Conductors sized No. 1 and larger shall be Type 2, rated for 90 degrees C. All circuit conductors, #6 or smaller shall be "THWN" stranded copper. All other conductors shall be "XHHW" stranded copper.

B. Individual or multiple conductor cables for power, control, and alarm circuits of 480 volts or less shall be insulated for not less than 600 volts and shall have insulation type as indicated on the Plans. "THWN" shall conform to ICEA S-61-402/NEMA WC 5 and UL 83 and "XHHW" shall conform to ICEA S-66-524/NEMA WC 7 and UL 44. Where wire size is not indicated, they shall be of the size required by the NEC, except that no wire external to panels and motor control centers shall be less than No. 12 AWG, unless specifically noted on the Plans. Panel control wiring shall not be less than No. 14 AWG. Where cable is indicated to be run in cable tray , said cable shall be UL listed for cable tray use.

C. All wiring shall be as indicated on the Plans. Wires shall be new and shall be soft drawn copper with not less than 97 percent conductivity. The wire and cable shall have size, grade of insulation, voltage, and manufacturer's name permanently marked on the outer covering at not more than 2-foot intervals. All wires shall conform to the latest Standards of the ASTM, and ICEA, and shall be tested for their full length by these Standards. Insulation thickness shall be not less than that specified by the National Electrical Code.

2.03 TERMINATIONS AND SPLICES

A. Cable shall be rated 600 volts. Other parts of cable systems such as splices and terminations shall be rated at not less than 600 volts. Splicing shall join conductors mechanically and electrically to provide a complete circuit prior to installation of insulation.

B. Splices in wires No. 10 AWG and smaller shall be made with an insulated, solderless, pressure type connector, Type I, Class 1, Grade B, Style G, or Type II, Class 1 of FS W-S-610 and conforming to the applicable requirements of UL 486A.

C. Splices in wires No. 8 AWG and larger shall be made with noninsulated, solderless, pressure type connector, Type II, Class 2 of FS W-S-610, conforming to the applicable requirements of UL 486A and UL 486B. They shall then be covered with an insulation and jacket material equivalent to the conductor insulation and jacket.

D. All splices below grade or in wet locations shall be sealed type conforming to ANSI C119.1 or shall be waterproofed by a sealant-filled, thick wall, heat shrinkable, thermosetting tubing or by pouring a thermosetting resin into a mold that surrounds the joined conductors.

E. Conductors, including grounding conductors, of different sizes shall be spliced and then soldered or welded. Splices in wet locations and all splices below grade shall be of the Exothermic type.

2.04 PULLING LUBRICANT

A. All cables shall be properly coated with pulling compound (Aqua Gel, CRC, or equal) before being pulled into conduits so as to prevent mechanical damage to the cables during installation. "Yellow 77" is not acceptable.

B. Other lubricants to be substituted must be accompanied by a statement from the cable manufacturer as to its acceptable use with the cable being installed.

2.05 IDENTIFICATION

A. All conductors shall be numbered with "tube sleeve" type tags with heat impressed letters and numbers.

B. Color code all wiring as follows:

1. Lighting and power wiring:

		120/208 VAC	480VAC	24V DC	120 VAC Control/ Power
a.	Phase 1	Black	Brown	Blue	Red
b.	Phase 2	RedOrange			
c.	Phase 3	Blue	Yellow		
d.	Neutrals	White	White		White
e.	Ground	Green	Green		

2. Color code ends of feeder phase conductors only.

EXECUTION

3.01 INSTALLATION

A. The pulling tension and side-wall pressures, as recommended by the cable manufacturer, shall not be exceeded. Additional pull boxes shall be installed, as required, to meet the cable manufacturer's recommendations.

B. As far as practical, all circuits shall be continuous from origin to termination without splices in intermediate pull boxes. Sufficient slack shall be left at the termination to make proper connections. In no case shall a splice be pulled into the conduit. Conductor splicing shall not be permitted without the Engineer's approval.

C. Install all cables in conduit.

D. Each feeder and branch circuit shall be installed in its own individual conduit unless combining feeder and branch circuits is permitted as defined in the following:

1. As specifically indicated on the Plans.
2. For lighting, multiple branch circuits may be installed in a conduit as allowed by the NEC and with the wire ampacity derated in accordance with the requirements of the NEC. Conduit fill shall not exceed the limits established by the NEC.
3. When field conditions dictate and written permission is obtained from the Engineer.

E. Feeder and branch circuits shall be isolated from each other and from all instrumentation and control circuits.

F. Control circuits shall be isolated from all other feeder, branch and instrumentation circuits, except as noted above.
   1. 12 V DC, 24 V DC and 48 V DC control circuits may be combined in common conduit.
   2. 125 V DC control circuits shall be isolated from all other DC and AC control circuits.
   3. 120 V AC control circuits shall be isolated from all DC control circuits.

G. Make splices only at pull or junction boxes.
   1. Crimp or indenter-type connectors are not allowed, except for control circuits landed on terminal strips.
   2. For wire smaller than #6 AWG: Use insulated conical spring type connectors, or "wirenuts".
   3. For #6 AWG and larger wire: Use solderless lugs and screw type connectors.

METHOD OF MEASUREMENT

4.01 CABLE

A. The footage of cable to be paid for shall be the number of linear feet of cable, including groundwire, measured in place, completed, ready for operation and accepted as satisfactory.

BASIS OF PAYMENT

5.01 CABLE PAYMENT

A. Cable Payment will be made at the contract unit price for cable installed in conduit or duct, through handholes, and light bases in place by the Contractor and accepted by the Owner. This price shall be full compensation for furnishing all materials and for all preparation and installation of these materials and for all labor, equipment, tools, and incidentals necessary to complete this Item. <u>The unit price of each of these items shall also include the Contractor's overhead, profit and markup.</u>

Payment will be made under:

Item 16123-5.1 Stranded Copper Wire – per lump sum

END OF SECTION 16123

SECTION 16140 OUTLET, SWITCH, PULL AND JUNCTION BOXES

GENERAL

1.01 SCOPE OF WORK

A. This section covers outlets, switches, pulls and junction boxes.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and elsewhere in the Contract Documents, prior to installation.

PRODUCTS

2.01 Subject to compliance with the Contract Documents, the boxes shall be manufactured by Crouse-Hinds, Appleton, Steel City or equal.

2.02 BOXES

A. Pull and junction boxes for wet areas shall be 14 GA steel with polyester power coating inside and out over phosphatized surfaces with seams continuously welded, ground smooth, no knockouts and stainless steel clamps on four sides and flat cover with oil resistant gasket. Boxes shall be NEMA 4 classification and UL listed.

B. Outlet and switch boxes shall be cadmium plated, cast, ferrous, metal, with threaded hubs and mounting tabs for exposed wiring. For concealed wiring, outlet and switch boxes shall be hot-dip galvanized steel with grounding screws, plaster rings and barriers between switches in boxes with 277 V switches on opposite phases.

EXECUTION

3.01 INSTALLATION

A. Install boxes in accordance with NEC rules and regulations.

B. Outlet and switch boxes for concealed wiring shall be mounted with manufactured or field fabricated brackets. Mounting brackets shall be submitted to the Engineer for review prior to installation.

BASIS OF PAYMENT

4.01 Payment for items described in this section will be made as part of payments of other system components as described in each section containing pay items. See pay items listed in sections 16141.

END OF SECTION 16140

PAGE INTENTIONALLY LEFT BLANK

SECTION 16141 RECEPTACLES

GENERAL

1.01 SCOPE OF WORK

A. This section covers devices for the control and supply of electrical power.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and elsewhere in the Contract Documents, prior to installation.

1.03 REFERENCES

A. NEC

B. UL

PRODUCTS

2.01 MATERIALS

A. Ground fault circuit interrupter receptacle shall be straight blade, grounding type, specification grade, rated 20 A, 125 V AC, UL listed, with test and reset buttons. Wall plates shall be 304 stainless steel for indoors or weatherproof as required, feed-thru type. Restroom, exterior, and wet areas receptacles shall be GFCI type.

EXECUTION

3.01 INSTALLATION

A. Install receptacles in accordance with NEC rules and regulations (and ADA when applicable).

BASIS OF PAYMENT

4.01 RECEPATCLES

A. Payment for new receptacles will be made at the contract unit price, installed and accepted, which price and payment shall constitute full compensation for furnishing all materials and for all preparation and installation of equipment, tools, junction boxes, and incidentals necessary to complete the work. <u>The unit price of each of these items shall also include the Contractor's overhead, profit, and markup.</u>

Payment will be made under:

Item 16141-4.1 20A GFCI WP Duplex Receptacle – per each

END OF SECTION 16141

SECTION 16170 GROUNDING

GENERAL

1.01 SCOPE OF WORK

A. A ground grid system consisting of the indicated configuration of copper wires, and ground rods, or concrete encased grounding electrodes ("UFERs") shall be provided to minimize station potential gradient irregularities and drain leakage and fault currents to earth.

B. Whether indicated on the Plans or not, neutral conductors, cable shields, metallic conduits, cable terminations, junction boxes, poles, surge arresters, and other noncurrent-carrying metallic parts of equipment shall be grounded.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and elsewhere in the Contract Documents, prior to installation.

1.03 REFERENCES

A. National Electrical Code (NEC) Article 250

PRODUCTS

2.01 GENERAL REQUIREMENTS

A. A resistance of not greater than 25 ohms shall be provided, unless otherwise specified. Ground resistances shall be measured as herein described. Resistances of systems requiring separate ground rods shall be measured separately before bonding below grade. The combined ground resistance of separate systems bonded together below grade may be used to meet the specified ground resistance, but the minimum number of rods indicated must still be provided.

2.02 GROUND RODS

A. Ground rods shall be copper-clad steel conforming to UL 467, 3/4 inch in diameter by 10 feet in length. Unless otherwise indicated, ground rods shall be driven into the ground until tops of rods are approximately 6 inches below finished grade. Where the specified ground resistance cannot be met with the indicated number of ground rods, additional ground rods, longer ground rods, or deep-driven sectional rods shall be installed and connected until the specified resistance is obtained, except that not more than three additional ground rods shall be required at any one installation. Ground rods shall be spaced as evenly as possible at least 6 feet apart and connected below grade.

2.03 CONNECTIONS

A. Connections above grade shall be made with bolted solderless connectors, and those below grade shall be made by a fusion-welding process. In lieu of a fusion-welding process, a compression ground grid

connector of a type which uses a hydraulic compression tool to provide the correct circumferential pressure may be used. Tools and dies shall be as recommended by the manufacturer. An embossing die code or other standard method shall provide visible indication that a connector has been adequately compressed on the ground wire.

2.04 GROUNDING ELECTRODE CONDUCTOR

A. Service entrance ground wires shall be sized in accordance with NEC Table 250-66, unless otherwise indicated on the Plans. After being located to provide maximum physical protection, exposed ground wires shall be securely attached to structural supports at not more than 2-foot intervals with suitable fasteners. Bends greater than 45 degrees in ground wires are not permitted. Routing of ground conductors through concrete should be avoided, except where specifically called for in these Documents. When concrete penetration is necessary, nonmetallic conduit shall be cast flush with the points of concrete entrance and exit, so as to provide an opening for the ground wire. The opening shall be sealed with a suitable compound after installation of the ground wire.

2.05 EQUIPMENT GROUNDING CONDUCTOR

A. Neutral conductors shall be grounded where indicated. Equipment grounding conductors shall be sized in accordance with NEC Table 250-122, unless otherwise indicated. Ground wires shall be protected by conduit, where such wires run exposed above grade in nonfence-enclosed areas, or are run through concrete construction. Where concrete penetration is necessary, nonmetallic conduit shall be cast flush with the points of concrete entrance and exit, so as to provide an opening for the ground wire. The opening shall be sealed with a suitable compound after installation of the ground wire. Bends greater than 45 degrees in ground wire connections to the ground rods are not permitted.

2.06 EQUIPMENT GROUNDING

A. Equipment frames of motor housings, metallic tanks, metallic equipment enclosures, metal splicing boxes, and other metallic noncurrent-carrying metal items, shall be grounded. Connections to earth shall be made in the same manner as required for system grounding. Equipment or devices operating at less than 750 volts may be connected to secondary neutral grounding electrodes.

2.07 SURGE ARRESTER GROUNDING

A. Surge arresters shall be grounded. Resistance to ground for intermediate-class arresters shall be not more than 10 ohms and for distribution-class arresters shall be not more than 25 ohms. Ground wire connections shall be not less than No. 4 AWG for distribution arresters and No. 1/0 AWG for intermediate arresters. Connections to earth shall be made in the same manner as required for neutral conductors. Surge arrester grounds may use the same ground wires provided for equipment operating at more than 750 volts. Surge arrester and secondary neutral grounds shall be separate from and independent of each other but both grounds shall be bonded together below grade at the ground rods or may utilize a common counterpoise.

2.08 LIGHTING POLE GROUNDING

A. Base of lighting poles shall be connected to a concrete encased grounding electrode (minimum 20' #6 AWG) coiled 2" from the bottom of foundation as indicated on Plans. A ground connection from poles back to neutral ground points shall also be provided utilizing the equipment grounding conductor.

2.09 METALLIC STRUCTURES

A. Metallic structures and buildings shall be grounded per NEC.

2.10 GROUNDING RINGS

A. When required, grounding rings shall be installed using 4.0 bare copper cable with ground rods at least 25 feet intervals using exothermic weld connecting means as indicated on the plans in accordance with NEC requirements.

EXECUTION

3.01 INSTALLATION

A. It is the intent of these Contract Documents that all device and equipment grounds shall be run as a separate conductor in the conduit from the equipment to the distribution panels or system ground. Wireways and enclosures shall be properly bonded and grounded, and ground conductors shall be run for all circuits.

B. Equipment cases and devices shall be grounded. Ground rods shall be driven, and concrete encased conduits installed, before a building, or structure is built, and ground conductors brought through the concrete to accessible points for grounding equipment. These systems shall be installed at each structure, where transformers, switchboards, panelboards, and MCCs are installed.

C. Duct banks shall contain a concrete encased system bare copper ground conductor. The system ground conductors shall run continuously in duct banks, through handholes and other raceway boxes. The system ground shall be connected to the structure grounding systems to provide a continuous grounding system. Each metallic raceway, panel, switchboard, and other metallic devices associated with the electrical and control systems shall be bonded to this grounding system.

D. Ground rod shall be installed not less than 6 inches below grade. Equipment, neutral, and surge arrester ground wires shall be connected to the ground grid as indicated.

3.02 TESTS

A. Pre-Energization Tests

Pre-energization tests shall include, but shall not be limited to tests that the equipment engineer is required to perform under paragraph "GENERAL REQUIREMENTS." No part of the electrical system shall be energized until all station grounding system components have been tested and demonstrated to comply with the requirements specified, and until associated test reports have been submitted and approved.

B. Operating Test

After the installation is completed, the Contractor shall conduct an operating test for approval. Equipment shall be demonstrated to operate in accordance with the requirements herein. Tests shall be performed in the presence of the Engineer. The Contractor shall furnish instruments and personnel required for the test.

C. Ground-Resistance Measurements

Ground-resistance measurements of each ground rod shall be taken and certified by the Contractor to the Engineer. No part of the electrical distribution system shall be energized prior to the resistance testing of that system's ground rods and grounding system and submission of test results to the Engineer. Test reports shall indicate the location of the ground rod and grounding system and the resistance and the soil conditions at the time the test was performed. When the building water service is used as a ground or part of the grounding system, ground-resistance measurements shall also be made of this connection. Ground-resistance measurements shall be made in normally dry weather, not less than 48 hours after rainfall, and with the ground under test isolated from other grounds. The resistance to ground shall be measured using the fall-of-potential method described in IEEE Std 142 and Std 81.

3.03 TEST RESULTS

A. The Contractor shall perform the above tests and complete the following report:

GROUNDING REPORT

1. Pre-Energization Tests
   a.
   b.
   c.
2. Operating Test
   a.
   b.
   c.
3. Ground-Resistance Measurements

BASIS OF PAYMENT

4.01 PAYMENT

A. Payment for items described in this section will be made as part of payments of other system components as described in each section containing pay items. See pay items in sections 16423, 16461, 165000 and 16470.

END OF SECTION 16170

SECTION 16195 ELECTRICAL IDENTIFICATION

GENERAL

1.01 SCOPE OF WORK

A. Electrical identification work specified in this section covers the following:
   1. Buried cable warnings
   2. Electrical power, control and communication conductors
   3. Operational instructions and warnings
   4. Danger signs
   5. Equipment/system identification signs

1.02 SUBMITTALS

A. Submittals to the engineer shall include the following:
   1. Manufacturers data on electrical identification materials and products
   2. Samples of each color, lettering style and other graphic representation required for each identification material or system

1.03 MANUFACTURERS

A. Subject to compliance with requirements, manufacturers offering electrical identification products maybe incorporated in the work include, but not limited to, the following:
   1. Brady, W.H. Co.
   2. Ideal Industries, Inc.
   3. Panduit Corp.
   4. Equivalent

1.04 QUALITY COMPLIANCE

A. Comply with applicable requirements of UL Std. 969, "Marking and Labeling Systems", pertaining to electrical identification systems.

B. Comply with applicable requirements of NEMA Std. No's WC-1 and WC-2 pertaining to identification of power and control conductors.

PRODUCTS

2.01 GENERAL

A. Except as otherwise indicated, provide manufacturer's standard products of categories and types required for each application. Where more than single type is specified for an application, selection is Installer's option, but provide single selection for each application.

2.02 COLOR-CODED CONDUIT MARKERS

A. Provide manufacturer's standard pre-printed, flexible or semi-rigid, permanent, plastic-sheet conduit markers, extending 360 degrees around conduits; designed for attachment to conduit by adhesive, adhesive lap joint of marker, matching adhesive plastic tape at each end of marker, or pretensioned snap-on. Except as otherwise indicated, provide lettering which indicates voltage of conductor(s) in conduit. Provide 8" minimum length for 2" and smaller conduit, 12" length for larger conduit.

B. Unless otherwise indicated or required by governing regulations, provide white markers with black letters.

2.03 CABLE AND CONDUCTOR WIRE MARKERS

A. Cable and conductor wire markers shall be self laminating vinyl on white background, printed using a BRADY XC PLUS printer, or equal. Handwritten wire markers are not acceptable.

2.04 SELF-ADHESIVE PLASTIC SIGNS

A. Provide manufacturer's standard, self-adhesive or pressure-sensitive, pre-printed, flexible vinyl signs for operational instructions or warnings; of sizes suitable for application areas and adequate for visibility, with proper wording for each application, e.g., 208V, EXHAUST FAN, RECTIFIER.

B. Unless otherwise indicated or required by governing regulations, provide white signs with black lettering.

2.05 LETTERING AND GRAPHICS

A. Coordinate names, abbreviations and other designations used in electrical identification work, with corresponding designations shown, specified or scheduled. Provide numbers, lettering and wording as indicated or, if not otherwise indicated, as recommended by manufacturers or as required for proper identification and operation/maintenance of electrical systems and equipment. Comply with ANSI A13.1 pertaining to minimum sizes for letters and numbers.

EXECUTION

3.01 INSTALLATION

A. Install electrical identification products as indicated, in accordance with manufacturer's written instructions, and requirements of NEC.

B. Where identification is to be applied to surfaces which require finish, install identification after completion of painting.

C. Comply with governing regulations and requests of governing authorities for identification of electrical work.

3.02 CONDUIT IDENTIFICATION

A. Where electrical conduit is exposed in spaces with exposed mechanical piping which is identified by a color-coded method, apply color-coded identification on electrical conduit in manner similar to piping identification. Except as otherwise indicated, use white as coded color for conduit.

3.03 CABLE/CONDUCTOR IDENTIFICATION

A. Apply cable/conductor identification, including voltage, phase and feeder number, on each cable/conductor in each box/enclosure/cabinet where wires of more than one circuit or communication/signal system are present, except where another form of identification (such as color-coded conductors) is provided. Match identification with marking system used in panelboards, shop drawings, contract documents, and similar previously established identification for project's electrical work.

3.04 EQUIPMENT/SYSTEM IDENTIFICATION

A. Install engraved plastic-laminate sign on each major unit of electrical equipment in building; including central or master unit of each electrical system including communication-control-signal systems, unless unit is specified with its own self-explanatory identification or signal system. Except as otherwise indicated, provide single line of text, 1/2" high lettering on 1-1/2" high sign (2" high where 2 lines are required), white lettering in black field. Provide text matching terminology and numbering of the contract documents and shop drawings. Provide signs for each unit of the following categories of electrical work:
   1. Panelboards, electrical cabinets and enclosures.
   2. Access panel/doors to electrical facilities.
   3. Major electrical switchgear.

B. Install signs at locations indicated or, where not otherwise indicated, at location for best convenience of viewing without interference with operation and maintenance of equipment. Secure to substrate with brass or stainless steel screws, except use adhesive where screws should not or cannot penetrate the substrate.

3.05 CIRCUIT IDENTIFICATION

A. The 3-phase wires shall be identified at the switchgear, panelboards and motor control centers as Phases A, B, and C. At 277/480V, Phase A shall be brown, Phase B shall be orange, and Phase C shall be yellow. The neutral shall be grey.

B. In addition to color coding all conductors, each conductor shall be identified in each pull box, manhole, panelboard, cable tray, or termination with circuit identification markers. This identification is applicable to all power, control, alarm, and instrumentation conductors and these markings shall be recorded on the Record Documents. Markers shall be slip-on PVC sleeve type as manufactured by Brady, Seaton, or equal.

C. Markers for other cabling shall be B-292 vinyl as manufactured by Brady, Seaton, or equal.

D. Exposed medium voltage conduits shall be labeled at 50 foot intervals with 1 inch letters stating the voltage - example - "12,470 volts". Labels shall be vinyl plastic as manufactured by Brady, Seton, or equal.

3.06 CONDUCTOR FASTENERS

A. Glue-on type conductor fasteners shall not be used in any panels, panelboards, switchboards, switchgear, motor control centers, or other enclosures containing electrical devices and/or conductors.

BASIS OF PAYMENT

4.01 PAYMENT

A. Payment for items described in this section will be made as part of payments of other system components as described in each section containing pay items. See pay items listed in sections 16123, 16124, and 16470.

END OF SECTION 16195

SECTION 16470 PANELBOARDS

GENERAL

1.01 SCOPE OF WORK

A. This section covers electrical panelboards.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and the Contract Documents, prior to installation.

B. Panel layout with alphanumeric designation, branch circuit breaker sizes and types, AIC rating, bus sizes, and other characteristics.

1.03 QUALITY ASSURANCE

A. NEMA PB-1, Panelboards

B. NEC

C. UL67, Panelboards

PRODUCTS

2.01 PANELBOARDS

A. Dead-front panelboards, including lighting distribution and control panels, shall be furnished and installed as indicated on the Plans. Buses shall be copper. Mounting and type of enclosures shall be as indicated on the Plans. Where not indicated on the plans, indoor enclosures shall be NEMA 12 and outdoor enclosures shall be NEMA 3R. The minimum interrupting capacity of any device shall be as indicated on the Plans.

B. Protective devices shall be bolt on type and replaceable without disturbing adjacent units. Wire connectors shall be suitable for wire sizes indicated. Branch circuits shall be numbered as indicated on the Plans, and a complete typed circuit schedule shall be furnished under a transparent cover, and affixed to the panel. Phase busing shall be full height without reduction. Full size neutral bars shall be included, and shall have suitable lug for each outgoing circuit requiring neutral connection. Spaces for future protective devices provided in lighting panels shall be bused for the maximum device that can be fitted into them.

C. Panelboards shall be finished with a primer, rust resistant phosphate undercoat and two coats of oven baked enamel with finish ANSI grey. They shall be sized to provide a minimum of 4 inches of gutter space on all sides. Doors shall not uncover any live parts, and shall be hinged and have latches that require no tool to operate. Panelboard doors shall be lockable. Lock and two keys shall be furnished.

D. Each panelboard shall have, on the outside of the door, a lamicoid nameplate with 3/4 inch letters as specified elsewhere in these Contract Documents.

E. Panelboards shall be as manufactured by Square D, General Electric, Cutler-Hammer, or equal.

F. Panelboards shall be service entrance rated where required, and as shown on the Plans.

EXECUTION

3.01 INSTALLATION

A. Panelboards shall be installed as indicated on the plans and according to manufacturer's instructions.

B. Provide grounding per NEC, and Section 16170.

C. Contractor shall verify all NEC clearance requirements prior to installation.

METHOD OF MEASUREMENT

4.01 The installation shall include: furnishing a new 100A, 120/240V, single phase, 3W, 30 circuit panelboard, with a 80A/2 pole main circuit breaker installed in a NEMA 3R, unmetered pedestal with a 40A, 2 pole main circuit breaker. Pedestal shall be installed on a 4 inch concrete pad.

BASIS OF PAYMENT

5.01 SYSTEM COMPONENT

A. Payment will be made at the contract unit price for each complete system component listed below, installed in place by the Contractor and accepted by the Owner. This price shall be full compensation for furnishing and installation of all materials, labor, equipment, tools, incidentals and for all preparation, assembly and installation necessary to complete this item in accordance with construction documents. The unit price for these items shall also include Contractor's overhead, profit and markup.

Payment will be made under:

Item 16470-5.1 NEMA 3R Panelboard – per each

END OF SECTION 16470

SECTION 16476 LOW VOLTAGE (600V AND BELOW) CIRCUIT BREAKERS

GENERAL

1.01 SCOPE OF WORK

A. The Contractor shall furnish and install, low voltage circuit breakers, as indicated on the Plans and specified herein.

1.02 SUBMITTALS

A. Products shall be submitted in accordance with Section 16000, and elsewhere in the Contract Documents, prior to installation.

PRODUCTS

2.01 GENERAL

A. Circuit breakers shall be as manufactured by Square D, Cutler-Hammer, General Electric, or equal.

B. Circuit breaker frame, trip, short circuit, and interruption ratings shall be as indicated on the Plans, except that they shall be coordinated with the ratings of the equipment actually furnished, and shall be modified where necessary to suit the equipment. Circuit breakers to be used in motor control centers shall be as indicated on the Plans. Where no indication of type is given on the Plans circuit breakers protecting motors shall be motor circuit protectors, and other circuit breakers shall be molded case type.

C. Circuit breaker for mounting in motor control centers, or for separate mounting shall be of the air-break type, quick-make and quick-break, voltage rated, with number of poles as indicated on the Plans.

D. Each pole of the circuit breaker shall provide inverse time delay, and instantaneous circuit protection.

E. The breakers shall be operated by a handle, and shall have a switching mechanism that is mechanically trip free from the handle, so that the contacts cannot be held closed against short circuits, and abnormal currents. Tripping due to overload, or short circuit shall be clearly indicated by the handle automatically assuming a position between the manual ON and OFF positions. Latch surfaces shall be ground and polished. Poles shall be constructed so that they open, close, and trip simultaneously.

F. Breakers must be completely enclosed in a molded case. Non-interchangeable trip breakers shall have their covers sealed; interchangeable trip breakers shall have the trip unit sealed to prevent tampering. Ampere ratings shall be clearly visible. Contacts shall be non-welding silver alloy. Arc extinction must be accomplished by means of arc chutes. The minimum interrupting ratings of the circuit breakers shall be at least equal to the available short circuit current at the line terminals.

G. Circuit breakers shall conform to the applicable requirements of NEMA Standards Publication No. AB1.

H. Molded case circuit breakers shall be ambient temperature compensating that provides inverse time delay overload and instantaneous short circuit protection by means of a thermalmagnetic element.

Compensation shall be accomplished by a secondary bi-metal that will allow the breaker to carry rated current between 25 degrees C and 50 degrees C with tripping characteristics that are approximately the same throughout this temperature range.

I. On breakers with interchangeable, thermal, adjustable magnetic trip, the accessibility and position of the adjustment knob shall not be changed from those on the standard breaker.

J. Unless mounted in a switchboard, or panelboard, circuit breakers shall be housed in a NEMA rated enclosure as described elsewhere in these specifications.

K. Provide circuit breakers with shunt trip mechanisms where shown on the Plans.

L. Circuit breakers for mounting inside panelboards shall be bolt-on type with a short circuit rating equal to or greater than the bracing of the panelboard bus.

M. Circuit breakers for mounting inside existing panelboards shall match existing circuit breaker type and shall have circuit rating equal to or greater than the bracing of the panelboard bus.

N. Circuit breakers dedicated for feeding fluorescent and High Intensity Discharge (HID) lighting systems shall be UL listed HID circuit breakers.

EXECUTION

3.01 INSTALLATION

A. Circuit breakers shall be installed as indicated on the plans and per manufacturer's instructions.

BASIS OF PAYMENT

4.01 Payment for items described in this section will be made as part of payment for other system components as described in each section containing pay items. See pay items in section 16470.

END OF SECTION 16476

SECTION 16485 LIGHTING CONTACTORS

GENERAL

1.01 SCOPE OF WORK

A. Lighting contactors shall have the ampacity, number of poles, and AIC rating as indicated on the plans.

1.02 RELATED WORK SPECIFIED ELSEWHERE

PRODUCTS

2.01 LIGHTING CONTACTORS – MULTIPOLE, ELECTRICALLY HELD

A. Lighting contactors shall be electrically and magnetically held. The operating coil voltage shall be suitable for the control circuitry indicated on the plans. Auxiliary (holding) contacts shall be provided as required.

B. They shall be rated for ballast, tungsten and general purpose loads. Their contacts shall be silver-cadmium-oxide double break.

C. Lighting contactors shall be as manufactured by Square D, General Electric, Cutler Hammer, or equal.

EXECUTION

3.01 INSTALLATION

A. Install lighting contactors as indicated on the plans and per manufacturer's instructions.

B. Lighting contactors to be mounted inside control cabinets shall be open type.

C. Unless mounted in a control cabinet, or other specified enclosure, lighting contactors shall be housed in a NEMA rated enclosure as described elsewhere in these specifications.

BASIS OF PAYMENT

4.01 Payment for items described in this section will be made as part of payment for other system components as described in each section containing pay items. See pay items in sections 16500.

END OF SECTION 16485

PAGE INTENTIONALLY LEFT BLANK

SECTION 16500 LIGHTING

GENERAL

1.01 SCOPE OF WORK

A. The Contractor shall provide all labor, materials, equipment and incidentals as shown, specified and required to furnish and install lighting fixtures.

1.02 QUALITY ASSURANCE

A. Reference Standards:
1. National Electrical Code (NEC)
2. UL Standard #1598, Electric Lighting Fixtures
3. UL Standard #8750, Light Emitting Diode (LED)
4. Illuminating Engineering Society (IES)
5. All applicable local lighting ordinances

B. Miscellaneous:
1. Lamps are identified for each luminaire in the Lighting Fixture Schedule on the Plans.
2. Lighting fixtures and electrical components:
   a. UL labeled, complete with lamps.
   b. Rated for area classification as indicated.
3. Location of lighting fixtures on Plans are intended to be used as a guide.
   a. Field conditions may affect actual locations.
   b. Coordinate with other trades to avoid conflicts in mounting of fixtures and other equipment.
4. The quality standard is established by the fixture listed in the Lighting Fixture Schedule.
   a. This quality standard includes, but is not necessarily limited to construction features, materials of construction, finish, and photometrics.

1.03 SUBMITTALS

A. The following shall be submitted to the Engineer for review:
1. Acknowledgment that products submitted meet requirements of standards referenced.
2. Manufacturer's technical information on products to be used including photometric performance curves for the fixture and ballast data.
3. Acknowledgment that products submitted are UL or ETL listed.
4. When general data sheets constitute part of the submittal, identify the products to be used on this project.
5. Manufacturer's installation instructions.
6. Identification of fixtures by Lighting Fixture Schedule.
7. UL nameplate data (Voltage, wattage, etc.).
8. Finishes, colors, and mounting type.
9. Pole, fixture, and accessories.
10. Pole wind loading.

B. Contractor shall submit shop drawings, manufacturer's data sheets, and a complete wiring diagram detailing all connections to the electrical system in accordance with Section 16000, and other requirements of the Contract Documents.

PRODUCTS

2.01 MANUFACTURERS

A. Lamps shall be manufactured by General Electric, North American/Phillips, Sylvania, or equal.

B. Lighting fixtures shall be provided as indicated on the Lighting Fixture Schedule on the Plans.

C. Lighting ballasts shall be manufactured by General Electric, Advance, Jefferson, Universal, Bodine, Lithonia, or equal.

D. Light poles shall be as indicated on the Plans. Include base template, galvanized steel anchor bolts and hardware, and pole grounding lug, handhole, anchor base and bolt covers. Pole foundations shall be as indicated on the Plans.

2.02 MATERIALS

A. General:
1. Lamps:
   a. See lighting fixture schedule on Plans for wattage, voltage and number required.

2. All Fixtures:
   a. There shall be no live parts normally exposed to contact.
   b. When intended for use in wet area:
      (1) Mark fixtures “suitable for wet locations.”
   c. When intended for use in damp areas:
      (1) Mark fixtures “suitable for damp locations” or “suitable for wet locations.”
   d. In wet or damp area, install fixtures so that water cannot enter or accumulate in the wiring compartment, lampholder, or other electrical parts.
   e. Gasket seals: Urethane foam
   f. Diffusers: UV stabilized acrylic plastic

3. Underground wiring:
   a. Provide all wiring runs with separate green grounding conductor.
   b. Ground all pole bases.

4. Pole wiring from base to ballast:
   a. No. 12 type XHHW.
   b. Each phase shall be protected by a 30A, 600V, type Tron waterproof fuseholder, Bussman “Limitron” type fuse, size rating 3-times load current.

B. Fluorescent Lamps:
1. Rapid start

2. Cool white (F32T8/41K-85CRI)
3. Energy efficient or standard as noted on the lighting fixture schedule.

C. Light Emitting Diodes (LED)
1. Colour Temperature 4,100k
2. 80,000 lamp life

D. Furnish a minimum of 2 lamps, or ten percent spare lamps of each type and wattage, whichever is greater.

2.03 FIXTURES

A. Fluorescent Lighting Fixtures:
1. Ballast:
   a. Rapid start, high efficiency, high frequency electronic
   b. CBM/ETL certified
   c. Sound rating A
   d. 10% THD maximum

2. Internal wiring: AWM, TFN or THHN

3. Channel and end plates: 22 GA steel

4. Steel door frame and socket track: 20 GA steel

5. Channel cover: 24 GA steel

B. Light Emitting Diode (LED) Fixtures:
1. Drivers for Light emitting Diode (LED) fixtures:
   a. Type: Solid State
   b. Operates at 50-60Hz with a power factor greater than 95%
   c. 9Kv surge suppression
   d. Power supply shall operate between -40°F to +140°F.
   e. Vibration test to ANSI C136.31-2001 for Roadway Luminaire Vibration.
   f. Salt fog tested to ASTM B117 for a minimum of 1,000 hours.
   g. Intrusion Protection 66
   h. Integral heat sink
   i. Optical system (Full cut-off)
   j. Dual driver (175mA/525mA)

C. FAA L-810 LED Obstruction Light:
1. Drivers for Light emitting Diode (LED) fixtures:
   a. Type: Solid State
   b. 120VAC
   c. Weather/corrosion resistant lamp assembly and housing
   d. Self contained wiring compartment

EXECUTION

3.01 INSTALLATION

A. Install lamps in all luminaires.

B. Replace all failed fluorescent, and led lamps with new lamps prior to final acceptance by Owner.

C. Surface and flush mounted fixtures shall be solidly connected to a junction box. Suspended fixtures shall be hung utilizing pendant mounting or stainless steel chains and hooks. Each suspended fixture, shall be electrically connected by a length of Type SO flexible cord, 3 conductor No. 14 AWG, minimum, with a twist-lock receptacle mounted in an individual junction box. Plugs and receptacles shall be as manufactured by Hubbell, General Electric Company, or equal.

D. Provide mounting brackets and/or structural mounting support for fixtures.
   1. Do not support fixture from conduit system.
   2. Do not support fixture from outlet boxes.

E. Install with approved mounting hardware following manufacturer's recommendations.

F. Pole mounted fixtures shall be mounted on steel or aluminum poles as indicated on the Plans. All metal poles shall be bonded to the facility ground system. Poles shall have adequate handholes and weatherproof receptacles where indicated.

G. All anchor bolts and nuts shall be galvanized rigid steel. Contractor shall paint all steel poles with aluminum paint or other color in accordance with these Contract Documents.

H. Fixture mounting heights and locations indicated on the Plans are approximate and are subject to revision in the field where necessary to avoid conflicts and obstructions.

3.02 ADJUSTING AND CLEANING

A. Wipe all lighting fixture reflectors, lenses, lamps, and trims clean after installation and prior to acceptance of Project by Owner.

METHOD OF PAYMENT

4.01 The quantity of each payment item under this section shall include the following:

A. For each pole mounted lighting fixture(s) - pole base, pole, ALL lighting fixtures for that pole location, bulbs, grounding, and other incidentals necessary for a complete installation in accordance with construction documents.

B. For each Bus Shelter mounted lighting fixture(s) – lighting fixture, buld(s), necessary supports, conduit, grounding, lighting contactor and controls, and other incidentals necessary to complete installation in accordance with construction documents.

C. For each Pole mounted lighting fixture(s) with obstruction light – lighting fixture, bulb(s), L-810 obstruction light, any necessary supports, conduit, grounding, and any other incidentals necessary for a complete installation in accordance with construction documents.

BASIS OF PAYMENT

5.01 System Components

A. Payment will be made at the contract unit price for each complete system component listed below installed in place by the Contractor and accepted by the Owner or Owner's Representative. This price shall be full compensation for furnishing all materials and for all preparation, assembly, and installation of these materials, and for all labor, equipment, tools, and incidentals necessary to complete this item. The unit price for these items shall also include Contractor's overhead, profit, and markup.

Payment will be made under:

Item 16500-5.1	Lighting Contactor, 30A, 4 pole — per each
Item 16500-5.2	Lighting Fixture Schedule Item "A" (LED) — per each
Item 16500-5.3	Lighting Fixture Schedule Item "D" (LED) — per each
Item 16500-5.4	Lighting Fixture Schedule Item "E" — per each
Item 16500-5.5	Spare Light Fixture only Schedule Item "A" – per each
Item 16500-5.6	Spare Light Fixture only Schedule Item "D" – per each
Item 16500-5.7	Spare Light Fixture only Schedule Item "E" – per each

SECTION 27 05 00

GENERAL PROVISIONS

PART 1 GENERAL

1.1 SUMMARY

A. Types of data/communication cable systems specified in this section include the following:

1. Fiber-optic cable systems.
2. Voice communication cable system.
3. Data communication cable system.
4. Associated conduit raceway distribution and equipment rack/cabinet system.

B. The Contractor shall furnish, install and test conduit system, cable and conduit support system, fire-stopping, fiber-optic, voice, data and CATV cables, associated connectors, patch panels, equipment racks, grounding system, patch cords, etc., as indicated on the drawings and in these specifications.

C. The Contractor shall include all work shown on the drawings and in the specifications. The drawings and specifications are intended to agree with each other. Any discrepancies shall be brought to the attention of the Engineer for correction. No omission from any drawing shall release the Contractor from furnishing equipment, materials or services required by these documents.

D. The Contractor, the cable manufacturer, the connectivity manufacturer and the distributor shall collaborate and work in partnership with one another so as to provide the Owner with UL or ETL independently verified cabling installation that is guaranteed to perform at levels above and beyond the proposed EIA/TIA 568B.1 Standards, as per the minimum acceptable full channel performance specification contained herein. The partnership shall make available optional UL or ETL independent testing and verification of the completed installation. The partnership shall provide full written certification of the installation to the Owner upon completion.

E. Any deviation, alteration or substitution from the drawings and specifications shall be fully documented by the Contractor and <u>submitted as a voluntary alternate to the base bid with the amount of deduct to the base bid specified</u>. Approval of requests for substitution of products, processes or procedures other than those specified shall be contingent upon submission of fully acceptable documentation to the Engineer.

© 2012 LSW Engineers Arizona, Inc.

F. Products that are submitted for substitution must be electrically and mechanically interchangeable with the specified product. Substitutions shall only be allowed with written approval from the Engineer. Samples of proposed substitutions must be submitted prior to approval, at the discretion of the Engineer. Any substitutions without the written approval of the Engineer are done so at the risk of the Contractor. Substitutions unacceptable to the Engineer shall be rejected without explanation or appeal.

G. The Contractor shall also be responsible for protecting any and all equipment and materials from damage during his installation process. Any equipment, material and/or facilities damaged by the Contractor during, due to, or in the performance of his contract, shall be replaced or repaired at the expense of the Contractor, as directed by the Engineer.

1.2 QUALITY CONTROL

A. Manufacturer Qualifications: Firms regularly engaged in manufacture of communication cabling system equipment whose products have been in satisfactory use in similar service for not less than five years.

B. Installer Qualifications:

1. Installers shall be fully capable and experienced in communication cabling system specified. This Contractor and all subcontractors engaged in this communication cabling installation shall have experience in this business for not less than five years and shall have successfully completed a minimum of five projects of similar size.
2. The Contractor shall specify, in his bid, all subcontractors who shall be utilized in this project. Subcontractors' company name, contact and responsibilities shall be listed.
3. The Contractor shall employ a Registered Communication Distribution Designer (RCDD) who shall be responsible to the Engineer, Architect and Owner for all work performed by the Contractor and his subcontractors. The RCDD shall have the authority of the Contractor to make immediate decisions regarding implementation of changes to the project as directed by the Engineer or Architect.
4. If, in the opinion of the Engineer, Architect or Owner, the RCDD does not possess or demonstrate adequate qualifications to support the project, the Owner reserves the right to require the Contractor to assign an RCDD who, in the Owner's opinion, possesses the skill necessary to complete the project.

1.3 ON-SITE PROJECT MANAGER (PROJECT FOREMAN)

A. The Project Manager shall report directly to the RCDD, Engineer, Architect and Owner for quality of installation and compliance with these documents.

© 2012 LSW Engineers Arizona, Inc.

B. The Project Manager shall be a manufacturer certified and a BICSI, registered cabling installation technician, NJATC installer technician, BICSI RCDD or Engineer-approved equal and have a minimum of two years experience.

C. The Project Manager shall maintain all documentation in accordance with these specifications.

D. Journeymen and Apprentices performing work under this specification shall be enrolled in or have completed the BICSI, registered cabling installation technician, NJATC installer technician, or Engineer-approved equal course.

1.4 REQUEST FOR INFORMATION

A. Request for Information:

1. A request for information is a document submitted by the Contractor requesting clarification of a portion of the Contract Documents, hereinafter referred to as an RFI.
2. A properly prepared RFI shall include a detailed written statement that indicates the specific drawings or specification in need of clarification and the nature of the clarification requested.

   a. Drawings shall be identified by drawing number and location on the drawing sheet.
   b. Specifications shall be identified by section number, page and paragraph.

B. Improper RFI's:

1. Improper RFI’s are RFI's that are not properly prepared.
2. Improper RFI's will be processed by the Architect/Engineer at the Architect/Engineer's standard hourly rate. The Architect/Engineer will charge the Owner and such costs will be deducted from monies still due the Contractor. The Contractor will be notified by the Architect/Engineer prior to the processing of improper RFI's.

C. Frivolous RFI's:

1. Frivolous RFI’s are RFI's requesting information that is clearly shown on the Contract Documents.
2. Frivolous RFI's may be returned unanswered or may be processed by the Architect/Engineer at the Architect/Engineer's standard hourly rate. The Architect/Engineer will charge the Owner and such costs will be deducted from monies still due the Contractor. The Contractor will be notified by the Architect/Engineer prior to the processing of frivolous RFI's.

© 2012 LSW Engineers Arizona, Inc.

1.5 RECORD DRAWINGS

A. Record Prints: Maintain one set of marked-up paper copies of the Contract Drawings, Submittals and Shop Drawings.

1. Preparation: Mark record prints to show the actual installation where installation varies from that shown originally. Include underground and overhead piping. Require individual or entity who obtained record data, whether individual or entity is Installer, subcontractor, or similar entity, to provide information for preparation of corresponding marked-up record prints.

a. Give particular attention to information on concealed elements that would be difficult to identify or measure and record later.
b. Include dimensions both horizontally and vertically to permanent points of reference accurate within 6 inches. Include descriptors such as “below slab”, “above ceiling”, etc.
c. Record data daily or as soon as possible after obtaining it.
d. Record and check the markup before enclosing concealed installations.

2. Mark the Contract Drawings, Submittals and Shop Drawings completely and accurately. Utilize personnel proficient at recording graphic information in production of marked-up record prints.
3. Mark record sets with erasable, red-colored pencil. Use other colors to distinguish between changes for different categories of the Work at same location.
4. Note Construction Change Directive numbers, alternate numbers, Change Order numbers, and similar identification, where applicable.

1.6 EXISTING MATERIALS AND EQUIPMENT

A. Disposition: With the exception of items that are to be reused or retained by the Owner, all other materials indicated to be removed shall be removed and disposed of by the Contractor. Items that are indicated to be retained or returned to the Owner and shall be delivered to a storage area designated by the Owner.

B. Exterior Services: The Contractor shall be responsible for maintaining communication and control service to the existing building during the construction period. Existing services are to be retained until such a time that the new services, if any, are completely installed and ready for use. Scheduling of service interruptions is to be coordinated with the Engineer and Owner.

C. Disconnect, demolish, and remove communication systems, equipment, and components that are indicated to be removed.

1. Conduit to be Removed: Remove portion of piping indicated to be removed and cap or plug remaining piping with same or compatible piping

© 2012 LSW Engineers Arizona, Inc.

material. Patch insulation, as required, to match adjacent areas.

2. Conduit to be Abandoned In Place: Drain piping and cap or plug piping with same or compatible piping material.
3. Equipment to be Removed: Disconnect services and remove equipment.
4. Equipment to be Removed and Reinstalled: Disconnect and remove, clean, and store equipment; when appropriate, reinstall, reconnect, and make equipment operational.
5. Equipment to be Removed and Salvaged: Disconnect and remove equipment and deliver to Owner.

D. Rerouting and Relocation of Existing Low Voltage Communication Equipment and Services in Existing Building:

1. General: Contractor shall reroute, relocate all existing materials which are in conflict with the building alterations and which are required to be maintained in use.
2. Existing Raceways and Conductors: Where applicable, existing material may be reused in their original location unless otherwise indicated.

E. Testing: All existing services affected by the new construction and which are to remain in operation shall be returned to their original condition. The existing services shall be tested as new, as described in other sections of these specifications. If for any reason these requirements cannot be met, the Contractor shall immediately notify the Engineer.

1.7 ALTERNATE MATERIALS AND EQUIPMENT

A. Refer to Division 1 for description of alternate material and equipment.

B. Refer to Division 1 for substitution request requirements.

1.8 SHOP DRAWINGS

A. Submit all shop drawings and data in accordance with Division 1, and at one time for all equipment provided under this Division. The complete communication shop drawings shall all be bound in one PDF electronic format indexed to this Division.

B. Processed shop drawing submittals are not change orders. The purpose of shop drawing submittals by the Contractor is to demonstrate that the Contractor understands the design concept; he demonstrates his understanding by indicating which equipment and material he intends to furnish and install and by detailing the fabrication and installation methods he intends to use. If deviations, discrepancies, or conflicts between shop drawings and specifications are discovered, either prior to or after shop drawing submittals are processed, the design drawings and specifications shall control and shall be followed.

© 2012 LSW Engineers Arizona, Inc.

C. Manufacturers' data and dimension sheets shall be submitted, giving all pertinent physical and engineering data including weights, cross-sections and maintenance instructions. Standard items of equipment such as receptacles, switches, plates, etc., which are cataloged items, shall be listed by manufacturer.

D. Index all submittals and reference to these specifications.

1.9 EQUIPMENT PURCHASES

A. Arrange for purchase and delivery of all materials and equipment within 20 days after acceptance of submittal. All materials and equipment shall be ordered in ample quantities for delivery at the proper time. If items are not on the project in time to expedite completion, the Owner may purchase said equipment and materials and deduct the cost from the Contract Sum.

B. Provide all materials of similar class or service by one manufacturer.

1.10 WORK AND MATERIALS

A. All electrical materials and equipment shall be new and of the type and quality specified, and shall be listed by UL and bear their label where standards have been established, in compliance with the applicable standards of NEC (NFPA 70), NFPA, ANSI, IEEE, IPCEA and NEMA. Replace or repair any nonconforming, damaged, or defective items at no extra cost to the Owner.

B. Perform all labor in a thorough and workmanlike manner, to the satisfaction of the Architect. The Contractor shall staff the project with sufficient skilled workmen, including a fully qualified superintendent, to complete the work in the time allotted. The Superintendent shall be qualified to supervise all of the work of this Division.

C. Materials provided under the contract for which the UL label is not normally available shall be mounted in separate enclosures and wired to the labeled units in an acceptable manner.

1.11 COOPERATIVE WORK

A. Cooperative work includes:

1. General supervision and responsibility for proper location and size of work related to this Division, but provided under other sections of these specifications.
2. Installation of sleeves, inserts, and anchor bolts for work under each section in this Division.

B. Correct without charge any work requiring alteration due to lack of proper supervision or failure to make proper provision in time. Correct without charge any damage to adjacent work caused by the alteration.

© 2012 LSW Engineers Arizona, Inc.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION

3.1 RECORD DRAWINGS

A. Recording: Post changes and modifications to project record documents as they occur; do not wait until the end of Project.

B. Maintenance of Record Documents and Samples: Store record documents in the field office apart from the Contract Documents used for construction. Do not use project record documents for construction purposes. Maintain record documents in good order and in a clean, dry, legible condition, protected from deterioration and loss. Provide access to project record documents for Engineer's reference during normal working hours.

3.2 VERIFICATION OF DIMENSIONS

A. Scaled and figured dimensions are approximate only. Before proceeding with work, carefully check and verify dimensions at site, and be responsible for properly fitting equipment and materials together and to the structure in spaces provided.

B. Drawings are diagrammatic and many offsets, bends, special fittings and exact locations are not indicated. Carefully study drawings and premises in order to determine best methods, exact locations, routes, building obstructions, and install apparatus and equipment in available locations. Install apparatus and equipment in manner and in locations to avoid obstructions, preserve headroom, and keep openings and passageways clear.

3.3 CUTTING AND PATCHING

A. Cut work and patch per Division 01 as necessary to properly install the new work. As the work progresses, coordinate necessary openings, holes, chases, etc., in their correct location. If the required openings, holes and chases are not in their correct locations, make the necessary corrections at no cost to the Owner. Avoid excessive cutting and do not cut structural members without the consent of the Engineer. Include as a part of the work all structural framing required by penetrations through the roof and necessary steel to support ducts and pipes between structural steel unless shown on the structural drawings.

3.4 CLOSING-IN OF UNFINISHED WORK

A. Cover no work until inspected, tested and approved. Where work is covered before inspection and test, uncover it, and when inspected, tested and approved, restore all work to original proper condition.

© 2012 LSW Engineers Arizona, Inc.

3.5 EXCAVATION AND BACKFILL

A. Perform all necessary excavation, shoring and backfilling required for the proper laying of all raceways, ducts, and conduits inside the building and premises, and outside as may be necessary. Remove all excess excavated materials from the site or dispose of on site as directed by General Contractor.

B. Excavate all trenches open cut, keep trench banks as nearly vertical as practicable, and sheet and brace trenches where required for stability and safety. Excavate trenches true to line and make bottoms not less than 18" wide but no wider than necessary to provide ample work room. Grade trench bottoms accurately to provide uniform bearing and support for each section of pipe on undisturbed soil along its entire length. Dig "bell" holes after the trench bottom has been graded. Machine grade only to the top line of the raceways, doing the balance by hand. Do not cut any trench near or under footings without first consulting the Engineer. Comply with OSHA requirements.

C. Provide not less than 4 inches of granular material as pipe bedding prior to laying pipe in trench to continuously support pipe and maintain required slope. Granular material shall be pea gravel or sand per MAG Standards.

D. Provide backfilling and compaction in accordance with provisions of these specifications and under the direction of the Engineer to the required density.

E. Provide not less than 4 inches of granular material, same as piping bedding, all around pipe. Make the first 2 feet of fill in 6 inch layers, each thoroughly compacted as directed, and free from rocks, large clods of earth, leaves, branches, and debris. Compact the rest of the backfill as directed, using in the backfill no rocks larger than 4 inches in diameter, and using no rock in the top 12 inches.

3.6 EQUIPMENT ROUGH-IN

A. Rough-in only (unless otherwise designated on the drawings) shall include providing all services as indicated and required, including all conduit and conductors. Cap all conduit stub-outs. Cap all conduits stub-outs in a manner suitable for future extension.

3.7 EQUIPMENT FINAL CONNECTIONS

A. Provide all final connections for the following:

1. All equipment furnished under this Division.
2. Communications equipment furnished under other sections of the specifications (except as otherwise designated).
3. Owner-furnished equipment as shown on the drawings.

© 2012 LSW Engineers Arizona, Inc.

3.8 OWNER-FURNISHED AND OTHER EQUIPMENT

A. Rough-in only for all Owner-furnished equipment reference Division 01 and all equipment furnished under other sections of the specifications, except as otherwise specified and/or noted on the drawings.

1. Rough-in only (unless otherwise designated on the drawings) shall include providing all services as indicated and required, including all conduit and conductors. Cap all conduit stub-outs. Cap all conduits stub-outs in a manner suitable for future extension.

3.9 CLEANUP

A. In addition to cleanup specified under Division 01, thoroughly clean all parts of the equipment. Where exposed parts are to be painted, thoroughly clean off any splattered construction materials and remove all oil and grease spots. Wipe the surface carefully and scrape out all cracks and corners.

B. During the progress of the work, keep the premises clean and free of debris.

3.10 PAINTING

A. Except as otherwise specified or indicated in the architectural drawings and/or specifications, paint all exposed unfinished metal with one coat of rust-inhibiting primer. Galvanized ductwork and factory painted equipment shall be considered as having primed surface.

B. Damage and Touch-Up: Repair marred and damaged factory-painted finishes with materials and procedures to match original factory finish.

C. Finished painting is specified under Division 09.

3.11 TESTING

A. Upon completion of the communication work, the entire installation shall be tested and demonstrated to be operating satisfactorily. Tests and documentation shall be in accordance with EIA/TIA Acceptance Testing Specifications for Communication Equipment and Systems.

B. Additional equipment-specific testing is described in the equipment's respective section of this Division.

C. Furnish a written report of testing to the Architect. At a minimum, the report shall include:

1. Testing Contractor's letterhead
2. Testing technician's name and signature.
3. Date and time that test was performed.

© 2012 LSW Engineers Arizona, Inc.

4. Ambient temperature and weather conditions.
5. Test equipment manufacturer, model number, and last calibration date.
6. The manufacturer, model number, and, as applicable, trip unit model number and available adjustments of tested equipment.
7. Statement of "As Left" conditions.
8. Pass/Fail statement.
9. Recommendations if any.

D. The Contractor shall submit the testing schedule to the Architect two weeks prior to initiation of testing activity.

END OF SECTION

© 2012 LSW Engineers Arizona, Inc.

SECTION 27 05 26

GROUNDING & BONDING FOR COMMUNICATIONS SYSTEMS

PART 1 GENERAL

1.1 SUMMARY

A. This section outlines the requirements of the telecommunication grounding work as indicated on the drawings and in the contract documents.

1.2 RELATED DOCUMENTS

A. Division 26 shall apply to work of this section.

B. Division 26 grounding shall apply in conjunction with this section, for a complete system.

1.3 QUALITY CONTROL

A. Manufacturers: Firms regularly engaged in the manufacture of electrical connectors, terminals and fittings, of types an ratings required, and ancillary grounding materials including stranded cable, copper braid and bus, ground rods and plate electrodes, whose products have been in satisfactory use in similar service for not less than three years.

B. NEC Compliance: Comply with NEC requirements as applicable to materials and installation of data/telecommunication grounding systems, associated equipment and wiring. Provide grounding products which are UL listed and labeled.

C. UL Compliance: Comply with applicable requirements of UL Standard Numbers 467 and 869, pertaining to data/telecommunication grounding and bonding.

D. TIA/EIA Compliance: Comply with TIA/EIA-607 Standards and the BICSI Telecommunications Distribution Methods Manual (TDMM) for the installation of data/telecommunication grounding and bonding system.

1.4 SUBMITTALS

A. Submit all shop drawings and data in accordance with Division 1, and at one time for all equipment provided under this Division.

B. Processed shop drawing submittals are not change orders. The purpose of shop drawing submittals by the Contractor is to demonstrate that the Contractor understands the design concept; he demonstrates his understanding by indicating which equipment and material he intends to furnish and install and by detailing the fabrication and installation methods he intends to use. If deviations,

© 2012 LSW Engineers Arizona, Inc.

discrepancies, or conflicts between shop drawings and specifications are discovered, either prior to or after shop drawing submittals are processed, the design drawings and specifications shall control and shall be followed.

C. Manufacturer's data and dimension sheets shall be submitted, giving all pertinent physical and engineering data including weights, cross-sections and maintenance instructions. Standard items of equipment such as receptacles, switches, plates, etc., which are cataloged items, shall be listed by manufacturer.

PART 2 PRODUCTS

2.1 TELECOMMUNICATION GROUNDING SYSTEM

A. Provide a low impedance telecommunication grounding system with a stable ± 0 volt to ground signal reference point for communication system equipment and infrastructures.

B. Telecommunication bonding backbone (TBB) shall be sized per NEC Table 250-66 (based on largest service entrance conductor or equivalent area for parallel conductors, minimum of a #2 AWG copper conductor.

C. All bonding conductors shall be minimum #6 AWG, insulated (green jacket), stranded copper.

D. In multi-story buildings requiring two or more vertical TBB's, the TBB's shall be bonded together at the top and bottom floors, with a minimum of every third floor when the building exceeds four floors.

E. System connections shall be irreversible compression-type connectors or exothermic welding with bronze bolt, star washer and nut connection hardware.

F. Zinc-clad or nickel-plated steel hardware is not acceptable.

G. Set screw, box lug, and split-bolt connectors are not acceptable.

H. Where required by local code, the data/telecommunication grounding system backbone cable conductor shall be a bare stranded copper conductor in lieu of an insulated conductor when installed in open cable trays and/or exposed in a return air plenum space or riser rated space. The Contractor shall verify requirements and coordinate with the Engineer.

I. Two-hole compression lugs shall be utilized for backbone cable terminations of #2 AWG and larger. One-hole compression lugs may be utilized for cable terminations of #6 AWG up to #2 AWG.

PART 3 EXECUTION

© 2012 LSW Engineers Arizona, Inc.

3.1 INSTALLATION

A. Bonding and grounding conductors installed in ferrous metallic conduit shall be bonded at each end of conduit, utilizing a minimum #6 AWG copper conductor and bond bushings. Conduits less than 3'-0" in length shall be bonded at one end. Bond bushing lug shall be replaced with a compression-type ground lug, bolted to bushing with bronze machine screw and star washer.

B. Bonding and grounding conductor splices shall be kept to a minimum. All splices shall be located in the telecommunication spaces only and shall be fully accessible.

C. Bonding conductors shall be individually routed to each piece of equipment.

D. Conductors shall terminate onto dedicated grounding lugs, one conductor per termination.

E. All conductors shall be maintained as short and as straight as possible.

F. Conductors shall be free from loops and coils; no bends shall be greater than 90 degrees.

G. The data/telecommunication grounding system shall be extended to and through data/communication raceways such as cable trays, cable channels, ladder systems, metallic surface-mounted raceways, etc., by means of extending a #6 AWG minimum bonding conductor through the length of the raceway system and bonding to each section of raceway, lugging at 10 foot maximum intervals along the length of the raceway, and lugging to any section of raceway greater than 3 feet in length, in lieu of the installation of individual bonding jumpers between each raceway section.

H. Where a bare copper TBB conductor or bonding conductor is routed through a cable tray system, the conductor shall be tied down and anchored to the cable tray 36" maximum on center, utilizing a UL listed wire fastener as required.

I. The data/telecommunication grounding system shall meet the requirements of NEC Articles 250 and 800. The Contractor shall bond individual electronic components and equipment to the grounding system per the equipment manufacturer's recommendations and instructions.

J. Each telecommunication bonding conductor shall be labeled. Labels shall be located on conductors, as close as practicable to their point of termination. Label shall be non-metallic and include the following information: "WARNING – IF THIS CONNECTOR OR CABLE IS LOOSE OR MUST BE REMOVED, PLEASE CALL THE BUILDING TELECOMMUNICATION MANAGER."

K. Items to be bonded to the data/telecommunication grounding system at the ground distribution bus bars shall include, but not be limited to, the following:

© 2012 LSW Engineers Arizona, Inc.

1. Telephone equipment (e.g. PBX's, KSU's, ISDN equipment, etc.).
2. CATV equipment.
3. Equipment racks and cabinets.
4. Cable ladders, trays, and channels.
5. Surface-mounted metallic raceways and wireways.
6. Metallic conduit systems.
7. Service entrance protected terminals.
8. Telecommunications and fiber-optic splice enclosures.
9. Inter-building cable sheaths and messengers.
10. Coupled bonding conductors.

3.2 SYSTEM TESTING

A. Upon completion of the installation of the data/telecommunication grounding system and/or servicing of the existing grounding systems, the Contractor shall perform approved standard ground resistance tests with an Engineer-approved ground resistance test unit (i.e., stakeless clamp-on ground resistance tester, three-point fall of potential tester), using approved procedures as noted in this specification.

B. The Contractor shall perform telecommunication grounding system testing as follows:

1. Measure ground current and ground resistance readings on all TBB conductors at each telecommunications main grounding bus bar.
2. Measure ground current and ground resistance readings on all bonding jumpers at each telecommunications main grounding bus bar.
3. Record all readings in a Test Report.
4. Where test results indicate a ground current of 1 amp or greater, the Contractor shall take appropriate action to identify and reduce the ground current to less than 1 amp. The Contractor shall notify the Engineer in writing of the excessive ground current, the source, and the action taken to reduce the current.

C. The Contractor shall demonstrate to the Owner or Owner's representative, by testing, that the data/telecommunication ground system to earth resistance value is 5 ohms or less, utilizing a "clamp-on" or three-point fall of potential tester.

D. The Contractor shall be able to demonstrate to the Owner or Owner's representative, by test, that the data/telecommunication grounding system resistance from any grounded non-current-carrying conductor in the system to the electrical service entrance neutral/ground bonding conductor is less than 0.1 ohms.

E. The Contractor shall record the test results in a Test Report, and provide a description of the testing procedures for submission to the Engineer for approval.

© 2012 LSW Engineers Arizona, Inc.

F. The Contractor shall include copies of the completed and approved Test Report in the Instruction Manuals.

SECTION 27 13 00

COMMUNICATIONS BACKBONE CABLING

PART 1 GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions and Division 01 Specification Sections, apply to this Section.

1.2 SUMMARY

A. Section Includes:

1. Pathways.
2. UTP cable.
3. Coaxial cable.
4. Cable connecting hardware, patch panels, and cross-connects.
5. Cabling identification products.
6. Single Mode Fiber.

1.3 DEFINITIONS

A. Basket Cable Tray: A fabricated structure consisting of wire mesh bottom and side rails.

B. BICSI: Building Industry Consulting Service International.

C. Channel Cable Tray: A fabricated structure consisting of a one-piece, ventilated-bottom or solid-bottom channel.

D. Consolidation Point: A location for interconnection between horizontal cables extending from building pathways and horizontal cables extending into furniture pathways.

E. Cross-Connect: A facility enabling the termination of cable elements and their interconnection or cross-connection.

F. EMI: Electromagnetic interference.

G. IDC: Insulation displacement connector.

© 2012 LSW Engineers Arizona, Inc.

H. Ladder Cable Tray: A fabricated structure consisting of two longitudinal side rails connected by individual transverse members (rungs).

I. LAN: Local area network.

J. NECA: National Electrical Contractors Association.

K. Outlet/Connectors: A connecting device in the work area on which horizontal cable or outlet cable terminates.

L. RCDD: Registered Communications Distribution Designer.

M. Trough or Ventilated Cable Tray: A fabricated structure consisting of longitudinal side rails and a bottom having openings for the passage of air.

N. UTP: Unshielded twisted pair.

O. Owner: Phoenix Mesa Gateway Airport.

1.4 BACKBONE CABLING DESCRIPTION

A. Backbone cabling system shall provide interconnections between communications equipment rooms, main terminal space, and entrance facilities in the telecommunications cabling system structure. Cabling system consists of backbone cables, intermediate and main cross-connects, mechanical terminations, and patch cords or jumpers used for backbone-to-backbone cross-connection.

B. Backbone cabling cross-connects may be located in communications equipment rooms or at entrance facilities. Bridged taps and splitters shall not be used as part of backbone cabling.

1.5 PERFORMANCE REQUIREMENTS

A. General Performance: Backbone cabling system shall comply with transmission standards in TIA/EIA-568-B.1, when tested according to test procedures of this standard.

1.6 SUBMITTALS

A. Product Data: For each type of product indicated.

1. Refer to Division 27, Section 27 05 00 “General Provisions”.
2. Include the following installation data for each type used:

a. Nominal OD.

© 2012 LSW Engineers Arizona, Inc.

b. Minimum bending radius.
c. Maximum pulling tension.

B. Shop Drawings:

1. System Labeling Schedules: Electronic copy of labeling schedules, in software and format selected by Owner.
2. Cabling administration drawings and printouts.
3. Cross-connects and patch panels. Detail mounting assemblies, and show elevations and physical relationship between the installed components.

C. Source quality-control reports.

D. Field quality-control reports.

E. Maintenance Data: For splices and connectors to include in maintenance manuals.

F. Testing Documentation

1. Provide three hard copies and one electronic copy (CD-rom) of test reports for horizontal UTP cables, coaxial cables, and fiber-optic cables. Test reports provided in electronic format shall include a shareware copy of the appropriate software for managing the reports in CSV format.
2. Documentation (printed form) shall be submitted to the Architect within five working days of the completion of each testing phase (e.g., subsystem, cable type, area, floor, etc.).

1.7 QUALITY CONTROL

A. Installer Qualifications: Cabling Installer must have personnel certified by BICSI on staff.

1. Installation Supervision: Installation shall be under the direct supervision of Registered Technician who shall be present at all times when Work of this Section is performed at Project site.
2. Testing Supervisor: Currently certified by BICSI as an RCDD to supervise on-site testing.

B. Electrical Components, Devices, and Accessories: Listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.

C. Telecommunications Pathways and Spaces: Comply with TIA/EIA-569-A.

D. Grounding: Comply with ANSI-J-STD-607-A.

© 2012 LSW Engineers Arizona, Inc.

1.8 DELIVERY, STORAGE, AND HANDLING

A. Test cables upon receipt at Project site.

1. Test optical fiber cable while on reels. Use an optical time domain reflectometer to verify the cable length and locate cable defects, splices, and connector, including the loss value of each. Retain test data and include the record in maintenance data.
2. Test each pair of UTP cable for open and short circuits.
3. Cable shall be stored according to manufacturers' recommendations as a minimum. In addition, cable must be stored in a location protected from vandalism and weather. Air temperature at cable storage location shall not exceed 50°F minimum, 130°F maximum. Storage location shall be well ventilated to prevent condensation. If necessary, cable shall be stored offsite at the Contractor's expense.

1.9 PROJECT CONDITIONS

A. Environmental Limitations: Do not deliver or install cables and connecting materials until wet work in spaces is complete and dry, and temporary HVAC system is operating and maintaining ambient temperature and humidity conditions at occupancy levels during the remainder of the construction period.

B. Cable shall be stored according to manufacturer's recommendations as a minimum. In addition, cable must be stored in a location protected from vandalism and weather. Air temperature at cable storage location shall not exceed 50°F minimum, 130°F maximum. Storage location shall be well ventilated to prevent condensation. If necessary, cable shall be stored offsite at the Contractor's expense.

1.10 COORDINATION

A. Coordinate layout and installation of telecommunications pathways and cabling with Owner's telecommunications and LAN equipment and service suppliers.

B. Coordinate layout and install of telecommunication pathway and cabling with other trades (Electrical, Civil, Landscape, Etc.)

PART 2 PRODUCTS

2.1 UTP CABLE HARDWARE

A. Manufacturers: Subject to compliance with requirements, provide products by:

1. Panduit.

© 2012 LSW Engineers Arizona, Inc.

B. General Requirements for Cable Connecting Hardware: Comply with TIA/EIA-568-B.2, IDC type, with modules designed for punch-down caps or tools. Cables shall be terminated with connecting hardware of same category or higher.

C. Connecting Blocks: 110-style IDC for Category 5e or Category 6 New Construction. Provide blocks for the number of cables terminated on the block, plus 25 percent spare. Integral with connector bodies, including plugs and jacks where indicated.

D. Cross-Connect: Modular array of connecting blocks arranged to terminate building cables and permit interconnection between cables.

1. Number of Terminals per Field: One for each conductor in assigned cables.

E. Patch Panel: Modular panels housing multiple-numbered jack units with IDC-type connectors at each jack for permanent termination of pair groups of installed cables.

1. Number of Jacks per Field: One for each four-pair UTP cable indicated.

F. Jacks and Jack Assemblies: Modular, color-coded, eight-position modular receptacle units with integral IDC-type terminals.

G. Patch Cords: Factory-made, 4-pair cables in 36-inch (900-mm) or 48-inch (1200-mm)] lengths; terminated with 8-position modular plug at each end or as directed by OWNER.

1. Patch cords shall have bend-relief-compliant boots and color-coded icons to ensure Category 6 performance. Patch cords shall have latch guards to protect against snagging.
2. Patch cords shall have color-coded boots for circuit identification.

2.2 OPTICAL FIBER CABLE

A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:

1. Corning Cable Systems.

B. Description: Singlemode, 8/125-micrometer, tight buffer and optical fiber cable.

1. Comply with ICEA S-83-596 for mechanical properties.
2. Comply with TIA/EIA-568-B.3 for performance specifications.
3. Listed and labeled by an NRTL acceptable to authorities having jurisdiction as complying with UL 444, UL 1651, and NFPA 70 for the following types:

© 2012 LSW Engineers Arizona, Inc.

a. General Purpose, Nonconductive: Type OFN or OFNG.
b. Plenum Rated, Nonconductive: Type OFNP, complying with NFPA 262.
c. Riser Rated, Nonconductive: Type OFNR complying with UL 1666.
d. General Purpose, Conductive: Type OFC or OFCG.
e. Plenum Rated, Conductive: Type OFCP complying with NFPA 262.
f. Riser Rated, Conductive: Type OFCR complying with UL 1666.

4. Conductive cable shall be aluminum armored type.
5. Maximum Attenuation: 3.50 dB/km at 1310 nm; .2 dB/km at 1550 nm.
6. Minimum Modal Bandwidth: 160 MHz-km at 850 nm; 500 MHz-km at 1300 nm.
7. Jacket Color: Yellow for single mode cable.
8. Cable cordage jacket, fiber, unit, and group color shall be according to TIA/EIA-598-B.
9. Imprinted with fiber count, fiber type, and aggregate length at regular intervals not to exceed 40 inches (1000 mm).

2.3 OPTICAL FIBER CABLE HARDWARE

A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:

1. Corning Cable Systems.
2. Panduit.

B. Cross-Connects and Patch Panels: Modular panels housing multiple-numbered, duplex cable connectors.

1. Number of Connectors per Field: One for each fiber of cable or cables assigned to field, plus spares and blank positions adequate to suit specified expansion criteria.

C. Patch Cords: Factory-made, dual-fiber cables in 36-inch (900-mm) lengths or lengths as directed by OWNER.

D. Cable Connecting Hardware:

1. Comply with Optical Fiber Connector Intermateability Standards (FOCIS) specifications of TIA/EIA-604-2, TIA/EIA-604-3-A, and TIA/EIA-604-12. Comply with TIA/EIA-568-B.3.
2. Quick-connect, simplex and duplex, UNICAM connectors. Insertion loss not more than 0.75 dB.

© 2012 LSW Engineers Arizona, Inc.

2.4 IDENTIFICATION PRODUCTS

A. Comply with TIA/EIA-606-A and UL 969 for a system of labeling materials, including label stocks, laminating adhesives, and inks used by label printers.

2.5 SOURCE QUALITY CONTROL

A. Testing Agency: Engage a qualified testing agency to evaluate cables.

B. Factory test cables on reels according to TIA/EIA-568-B.1.

C. Factory test UTP cables according to TIA/EIA-568-B.2.

D. Factory test multimode and single mode optical fiber cables according to TIA/EIA-526-14-A and TIA/EIA-568-B.3.

E. Cable will be considered defective if it does not pass tests and inspections.

F. Prepare test and inspection reports.

PART 3 EXECUTION

3.1 WIRING METHODS

A. Wiring Method: Install cables in raceways and cable trays. Conceal raceway and cables except in unfinished spaces.

1. Install plenum cable in environmental air spaces, including plenum ceilings.
2. Comply with requirements for raceways and boxes specified in Division 26 Section "Raceway and Boxes for Electrical Systems."

B. Wiring Method: Conceal conductors and cables in accessible ceilings, walls, and floors where possible.

C. Wiring within Enclosures: Bundle, lace, and train cables within enclosures. Connect to terminal points with no excess and without exceeding manufacturer's limitations on bending radii. Provide and use lacing bars and distribution spools.

3.2 INSTALLATION OF CABLES

A. Comply with NECA 1.

B. General Requirements for Cabling:

© 2012 LSW Engineers Arizona, Inc.

1. Comply with TIA/EIA-568-B.1.
2. Comply with BICSI ITSIM, Ch. 6, "Cable Termination Practices."
3. Install 110-style IDC termination hardware unless otherwise indicated.
4. Terminate all conductors; no cable shall contain unterminated elements. Make terminations only at indicated outlets, terminals, cross-connects, and patch panels.
5. Cables may not be spliced. Cabling shall be installed in continuous runs from cross-connect fields to cross-connect fields, to patch panels, workstation outlets, etc. Cabling shall be free from splices, taps, splitters, baluns and any other in-line connections.
6. Secure and support cables at intervals not exceeding 30 inches (760 mm) and not more than 6 inches (150 mm) from cabinets, boxes, fittings, outlets, racks, frames, and terminals.
7. Unsupported cable spans shall not exceed 12" horizontally, 24" vertically.
8. All cables shall be new and as specified on the drawings. Cables shall be shipped on 1,000 ft. reels or boxed. Coiled cables are not acceptable. Factory shorts and/or factory seconds, salvaged, leftover and reused cables are not acceptable. Cables of a given type shall be of a single manufacturer and part number. All unapproved or unacceptable cable shall be removed and replaced at the Contractor's expense.
9. A maximum of 36 (three groups of 12) cables shall be supported in a single hanger with a spacing of 48" on center. Cables shall be loosely bundled.
10. Install lacing bars to restrain cables, to prevent straining connections, and to prevent bending cables to smaller radii than minimums recommended by manufacturer.
11. Bundle, lace, and train conductors to terminal points without exceeding manufacturer's limitations on bending radii, but not less than radii specified in BICSI ITSIM, "Cabling Termination Practices" Chapter. Use lacing bars and distribution spools.
12. Do not install bruised, kinked, scored, deformed, or abraded cable. Do not splice cable between termination, tap, or junction points. Remove and discard cable if damaged during installation and replace it with new cable.
13. Cold-Weather Installation: Bring cable to room temperature before dereeling. Heat lamps shall not be used for heating.
14. In the communications equipment room, install a 10-foot- (3-m-) long service loop on end of cable. Provide 3-foot service loop at device.
15. Pulling Cable: Comply with BICSI ITSIM, Ch. 4, "Pulling Cable." Monitor cable pull tensions.
16. Cables requiring additional length shall be stored in an extended loop or in a "Figure 8" configuration. Do not store additional length in bundled loops. Each individual loop shall be tagged with cable number.
17. The Contractor shall make certain that during the installation and upon completion, all cables have been installed in good condition, free from jacket cuts or tears, kinks, twist, knots, sharp bends, etc., or any other physical damage. During the installation, the Contractor shall not allow the cables to be exposed to foot, vehicle or equipment traffic, or be

© 2012 LSW Engineers Arizona, Inc.

exposed to any other form of abuse which shall cause damage to cables, altering the electrical characteristics. Cables exhibiting such damage or an attempt by the Contractor to correct, hide or otherwise conceal such damage, shall result in cables being replaced at the Contractor's expense.

18. Cable pulls shall not exceed 100 feet in length. Cables shall be neatly coiled in a figure "8" pattern at the completion of a pull in preparation for the next pull.
19. Data/telecommunication and fiber-optic cables shall not be stored or installed in an unheated building where the temperature is less than 40°F. The structure and the cable must be brought to a minimum 50°F ambient for a minimum of 48 hours prior to installation of the cables. Failure to observe this precaution may result in damage to the cable and shall result in the cable being replaced at the Contractor's expense.

C. UTP Cable Installation:

1. Comply with TIA/EIA-568-B.2.
2. Do not untwist UTP cables more than 1/2 inch (12 mm) from the point of termination to maintain cable geometry.
3. Maximum of 12" and minimum of 6" of cable shall be stored in back box or raceway. Slack shall be coiled in the box without exceeding the bend radius.
4. Bend radiuses of the horizontal cable shall not be less than four times the outside diameter of the cable.
5. Cable jacket shall be maintained to within 1" of termination points.

D. Optical Fiber Cable Installation:

1. Comply with TIA/EIA-568-B.3.
2. Cable may be terminated on connecting hardware that is rack or cabinet mounted.

E. Open-Cable Installation:

1. Install cabling with horizontal and vertical cable guides in telecommunications spaces with terminating hardware and interconnection equipment.
2. Suspend UTP cable not in a wireway or pathway, a minimum of 8 inches (200 mm) above ceilings by cable supports not more than 48 inches (1524 mm) apart.
3. Cable shall not be run through structural members or in contact with pipes, ducts, or other potentially damaging items.

F. Group connecting hardware for cables into separate logical fields.

G. Separation from EMI Sources:

© 2012 LSW Engineers Arizona, Inc.

1. Comply with BICSI TDMM and TIA/EIA-569-A recommendations for separating unshielded copper voice and data communication cable from potential EMI sources, including electrical power lines and equipment.
2. Separation between open communications cables or cables in nonmetallic raceways and unshielded power conductors and electrical equipment shall be as follows:

    a. Electrical Equipment Rating Less Than 2 kVA: A minimum of 5 inches (127 mm).
    b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 12 inches (300 mm).
    c. Electrical Equipment Rating More Than 5 kVA: A minimum of 24 inches (610 mm).

3. Separation between communications cables in grounded metallic raceways and unshielded power lines or electrical equipment shall be as follows:

    a. Electrical Equipment Rating Less Than 2 kVA: A minimum of 2-1/2 inches (64 mm).
    b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 6 inches (150 mm).
    c. Electrical Equipment Rating More Than 5 kVA: A minimum of 12 inches (300 mm).

4. Separation between communications cables in grounded metallic raceways and power lines and electrical equipment located in grounded metallic conduits or enclosures shall be as follows:

    a. Electrical Equipment Rating Less Than 2 kVA: No requirement.
    b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 3 inches (76 mm).
    c. Electrical Equipment Rating More Than 5 kVA: A minimum of 6 inches (150 mm).

5. Separation between Communications Cables and Electrical Motors and Transformers, 5 kVA or HP and Larger: A minimum of 48 inches (1200 mm).
6. Separation between Communications Cables and Fluorescent Fixtures: A minimum of 5 inches (127 mm).

3.3 IDENTIFICATION

A. Identify system components, wiring, and cabling complying with TIA/EIA-606-A. Comply with requirements for identification specified in Division 26 Section "Identification for Electrical Systems."

© 2012 LSW Engineers Arizona, Inc.

1. Administration Class 4.
2. Color-code cross-connect fields and apply colors to voice and data service backboards, connections, covers, and labels.

B. See Division 27 Section "Communications Horizontal Cabling" for additional identification requirements. See Evaluations for discussion about TIA/EIA standard as it applies to this Section.Paint and label colors for equipment identification shall comply with TIA/EIA-606-A for Class 4 level of administration including optional identification requirements of this standard.

C. Comply with requirements in Division 27 Section "Communications Horizontal Cabling" for cable and asset management software.

D. Cable Schedule: Install in a prominent location in each equipment room and wiring closet. List incoming and outgoing cables and their designations, origins, and destinations. Protect with rigid frame and clear plastic cover. Furnish an electronic copy of final comprehensive schedules for Project.

E. Cable and Wire Identification:

1. Label each cable within 4 inches (100 mm) of each termination and tap, where it is accessible in a cabinet or junction or outlet box, and elsewhere as indicated.
2. Label each terminal strip and screw terminal in each cabinet, rack, or panel.

   a. Individually number wiring conductors connected to terminal strips and identify each cable or wiring group being extended from a panel or cabinet to a building-mounted device with name and number of particular device as shown.
   b. Label each unit and field within distribution racks and frames.

3. Identification within Connector Fields in Equipment Rooms and Wiring Closets: Label each connector and each discrete unit of cable-terminating and connecting hardware. Where similar jacks and plugs are used for both voice and data communication cabling, use a different color for jacks and plugs of each service.

F. Labels shall be preprinted or computer-printed type with printing area and font color that contrasts with cable jacket color but still complies with requirements in TIA/EIA 606-A, for the following:

1. Cables use flexible vinyl or polyester that flexes as cables are bent.

3.4 FIELD QUALITY CONTROL

A. Perform tests and inspections.

© 2012 LSW Engineers Arizona, Inc.

B. Tests and Inspections:

1. Visually inspect UTP and optical fiber jacket materials for NRTL certification markings. Inspect cabling terminations in communications equipment rooms for compliance with color-coding for pin assignments, and inspect cabling connections for compliance with TIA/EIA-568-B.1 and Addenda.
2. Visually inspect cable placement, cable termination, grounding and bonding, equipment and patch cords, and labeling of all components.
3. Test UTP copper cabling for DC loop resistance, shorts, opens, intermittent faults, and polarity between conductors. Test operation of shorting bars in connection blocks. Test cables after termination but not cross-connection.

    a. Test instruments shall meet or exceed applicable requirements in TIA/EIA-568-B.2. Perform tests with a tester that complies with performance requirements in "Test Instruments (Normative)" Annex, complying with measurement accuracy specified in "Measurement Accuracy (Informative)" Annex. Use only test cords and adapters that are qualified by test equipment manufacturer for channel or link test configuration.

4. Optical Fiber Cable Tests:

    a. Multi-Mode (62.5 / 125 UM) and Single-Mode (8.7 / 125 UM) Fiber-Optic Cable:

        1) All fiber-optic cables shall be fully tested for continuity and attenuation, utilizing a fiber-optic power motor and fiber-optic LED/laser light source. The fiber-optic test equipment shall be capable of testing multi-mode and/or single-mode fiber cable.
        2) The fiber-optic test equipment shall be an electronic micro-controller with automatic self-testing and data storage. The Contractor shall provide shop drawings, catalog cut sheets and operational procedures describing the test equipment proposed to be utilized, for the Architect's review and approval.
        3) Fiber conductor shall be tested with the cable completely installed and in final placement, with connector installed and polished out. The "ST" and/or "SC" connectors shall be inspected for proper termination techniques, workmanship, labeling, etc., and verified by the Contractor to be free from any visual defects, such as scratches and chips. All connector installations exhibiting any defected and/or improper assembly procedures shall be replaced at the Contractor's expense.

© 2012 LSW Engineers Arizona, Inc.

b. Each fiber shall be tested in both directions, with both readings recorded. The worst-case reading shall be utilized to determine acceptability of the fiber.

c. Attenuation shall be recorded for each fiber at 850 and 1,300 nm for multi-mode fiber-optic cable, and at 1,310 nm and 1,550 nm for single-mode fiber-optic cable. Fiber-optic cable link test procedures shall be based upon EIA/TIA-568A Annex "H" Standard procedures. The technician performing the fiber-optic verification tests should periodically check and verify the reference dB loss. All fiber-optic "ST" and/or "SC" connectors and couplers shall be thoroughly cleaned before and after testing, and dust caps installed after the test procedures have been completed.

d. The fiber-optic cable test report shall provide the following information:

1) Contractor's name.
2) Test Equipment Identification: Manufacturer, model number, and serial number.
3) Client/Owner identification.
4) Date test performed.
5) Cable manufacturer and part number.
6) Cable identification number.
7) Cable location (i.e., building - from/to).
8) Cable description (i.e., number of fibers, S/M, M/M).
9) Name, signature and date of signature of the technician performing the tests.
10) Cable length.
11) Proper conductor termination verification, both ends.
12) Link attenuation (loss) measurement in dB per fiber.
13) Reference dB.
14) Visual connector (both ends) inspection verification.
15) Calculated fiber loss based on fiber length and factory OTDR readings.
16) Calculated optical attenuation per connector pair (fiber link attenuation loss measurement), less the calculated fiber loss, less the reference dB, equals optical attenuation per connector pair.
17) Test results (i.e., pass/fail).

e. Maximum optical attenuation per connector pair for multi-mode fiber connectors shall be 0.5 dB or less when measured at 850/1,300 nm in accordance with ANSI/EIA/TIA-526-14A, Method A.1. Maximum optical attenuation per connector pair for single-mode fiber connectors shall be 0.5 dB or less when measured at 1,310/1,550 nm in accordance with ANSI/EIA/TIA-526-7, Method B. (NOTE: It is recognized by the Engineer that this specification is much more stringent than the EIA/TIA-568A Annex "H" Standard.) Reflection shall be ≥ 45 dB.

© 2012 LSW Engineers Arizona, Inc.

C. Data for each measurement shall be documented. Data for submittals shall be printed in a summary report that is formatted similar to Table 10.1 in BICSI TDMM, or transferred from the instrument to the computer, saved as text files, and printed and submitted.

D. Remove and replace cabling where test results indicate that they do not comply with specified requirements.

E. End-to-end cabling will be considered defective if it does not pass tests and inspections.

F. Prepare test and inspection reports.

END OF SECTION

SECTION 27 15 00

COMMUNICATIONS HORIZONTAL CABLING

PART 1 GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions and Division 01 Specification Sections, apply to this Section.

1.2 SUMMARY

A. Section Includes:

1. Pathways.
2. UTP cabling.
3. Coaxial cable.
4. Cable connecting hardware, patch panels, and cross-connects.
5. Telecommunications outlet/connectors.
6. Cabling system identification products.
7. Cable management system.

B. Related Sections:

1. Division 27 Section 27 13 00 "Communications Backbone Cabling" for voice and data cabling associated with system panels and devices.
2. Divisions 27 05 26 “Grounding & Bonding for Communications Systems”, 27 05 28 “Pathways for Communications Systems”, 27 06 10 “Schedules for Structured Cabling & Enclosures”.

1.3 DEFINITIONS

A. Basket Cable Tray: A fabricated structure consisting of wire mesh bottom and side rails.

B. BICSI: Building Industry Consulting Service International.

C. Channel Cable Tray: A fabricated structure consisting of a one-piece, ventilated-bottom or solid-bottom channel.

© 2012 LSW Engineers Arizona, Inc.

D. Consolidation Point: A location for interconnection between horizontal cables extending from building pathways and horizontal cables extending into furniture pathways.

E. Cross-Connect: A facility enabling the termination of cable elements and their interconnection or cross-connection.

F. EMI: Electromagnetic interference.

G. IDC: Insulation displacement connector.

H. Ladder Cable Tray: A fabricated structure consisting of two longitudinal side rails connected by individual transverse members (rungs).

I. LAN: Local area network.

J. NECA: National Electrical Contractors Association.

K. Outlet/Connectors: A connecting device in the work area on which horizontal cable or outlet cable terminates.

L. RCDD: Registered Communications Distribution Designer.

M. UTP: Unshielded twisted pair.

N. Owner: Phoenix Mesa Gateway Airport.

1.4 HORIZONTAL CABLING DESCRIPTION

A. Horizontal cable and its connecting hardware provide the means of transporting signals between the telecommunications outlet/connector and the horizontal cross-connect located in the communications equipment room. This cabling and its connecting hardware are called "permanent link," a term that is used in the testing protocols.

1. Horizontal cabling shall contain no transition point or consolidation point between the horizontal cross-connect and the telecommunications outlet/connector.
2. Bridged taps and splices shall not be installed in the horizontal cabling.
3. Splitters shall not be installed as part of the optical fiber cabling.

B. The maximum allowable horizontal cable length is 295 feet (90 m). This maximum allowable length does not include an allowance for the length of 16 feet (4.9 m) to the workstation equipment. The maximum allowable length does not include an allowance for the length of 16 feet (4.9 m) in the horizontal cross-connect.

© 2012 LSW Engineers Arizona, Inc.

1.5 PERFORMANCE REQUIREMENTS

A. General Performance: Horizontal cabling system shall comply with transmission standards in TIA/EIA-568-B.1, when tested according to test procedures of this standard.

1.6 SUBMITTALS

A. Product Data: For each type of product indicated.

1. Refer to Division 27 Section 27 05 13 “Communication Services”.
2. Include the following installation data for each type used:

   a. Nominal OD.
   b. Minimum bending radius.
   c. Maximum pulling tension.

B. Shop Drawings:

1. System Labeling Schedules: Electronic copy of labeling schedules, in software and format selected by Owner.
2. System Labeling Schedules: Electronic copy of labeling schedules that are part of the cabling and asset identification system of the software.
3. Cabling administration drawings and printouts.
4. Cross-connects and patch panels. Detail mounting assemblies, and show elevations and physical relationship between the installed components.

C. Qualification Data: For Installer, qualified layout technician, installation supervisor, and field inspector including BICSI Certification.

D. Source quality-control reports.

E. Field quality-control reports.

F. Maintenance Data: For splices and connectors to include in maintenance manuals.

G. Testing Documentation

1. Provide three hard copies and one electronic copy (CD-rom) of test reports for horizontal UTP cables, coaxial cables, and fiber-optic cables. Test reports provided in electronic format shall include a shareware copy of the appropriate software for managing the reports in CSV format.
2. Documentation (printed form) shall be submitted to the Architect within five working days of the completion of each testing phase (e.g., subsystem, cable type, area, floor, etc.).

© 2012 LSW Engineers Arizona, Inc.

1.7 QUALITY CONTROL

A. Installer Qualifications: Cabling Installer must have personnel certified by BICSI on staff.

1. Installation Supervision: Installation shall be under the direct supervision of Registered Technician, who shall be present at all times when Work of this Section is performed at Project site.
2. Testing Supervisor: Currently certified by BICSI as an RCDD to supervise on-site testing.

B. Surface-Burning Characteristics: As determined by testing identical products according to ASTM E 84 by a qualified testing agency. Identify products with appropriate markings of applicable testing agency.

1. Flame-Spread Index: 25 or less.
2. Smoke-Developed Index: 450 or less.

C. Electrical Components, Devices, and Accessories: Listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.

D. Telecommunications Pathways and Spaces: Comply with TIA/EIA-569-A.

E. Grounding: Comply with ANSI-J-STD-607-A.

1.8 DELIVERY, STORAGE, AND HANDLING

A. Test cables upon receipt at Project site.

1. Test each pair of UTP cable for open and short circuits.
2. Delivery and receipt of products shall be at the site described in the Scope section.
3. Cable shall be stored according to manufacturers' recommendations as a minimum. In addition, cable must be stored in a location protected from vandalism and weather. Air temperature at cable storage location shall not exceed 50°F minimum, 130°F maximum. Storage location shall be well ventilated to prevent condensation. If necessary, cable shall be stored offsite at the Contractor's expense.

1.9 PROJECT CONDITIONS

A. Environmental Limitations: Do not deliver or install cables and connecting materials until wet work in spaces is complete and dry, and temporary HVAC system is operating and maintaining ambient temperature and humidity conditions at occupancy levels during the remainder of the construction period.

© 2012 LSW Engineers Arizona, Inc.

B. Cable shall be stored according to manufacturer's recommendations as a minimum. In addition, cable must be stored in a location protected from vandalism and weather. Air temperature at cable storage location shall not exceed 50°F minimum, 130°F maximum. Storage location shall be well ventilated to prevent condensation. If necessary, cable shall be stored offsite at the Contractor's expense.

1.10 COORDINATION

A. Coordinate layout and installation of telecommunications pathways and cabling with Owner's telecommunications and LAN equipment and service suppliers.

B. Coordinate telecommunications outlet/connector locations with location of power receptacles at each work area.

C. Refer to Division 27 Section 27 05 13 "Communication Services".

PART 2 PRODUCTS

2.1 UTP CABLE

A. Manufacturers: Subject to compliance with requirements, provide products by:

1. Berk-Tek; a Nexans company.

B. Description: 100-ohm, 4-pair UTP, covered with a blue thermoplastic jacket.

1. Comply with ICEA S-90-661 for mechanical properties.
2. Comply with TIA/EIA-568-B.1 for performance specifications.
3. Comply with TIA/EIA-568-B.2, Category 6.
4. Listed and labeled by an NRTL acceptable to authorities having jurisdiction as complying with UL 444 and NFPA 70 for the following types:

   a. Communications, Plenum Rated: Type CMP, complying with NFPA 262.
   b. Communications, Riser Rated: Type CMR, complying with UL 1666.
   c. Communications, Limited Purpose: Type CMX.
   d. Multipurpose: Type MP or MPG.
   e. Multipurpose, Plenum Rated: Type MPP, complying with NFPA 262.
   f. Multipurpose, Riser Rated: Type MPR, complying with UL 1666.

© 2012 LSW Engineers Arizona, Inc.

2.2 UTP CABLE HARDWARE

A. Manufacturers: Subject to compliance with requirements, provide products by one of the following:

1. Panduit.

B. General Requirements for Cable Connecting Hardware: Comply with TIA/EIA-568-B.2, IDC type, with modules designed for punch-down caps or tools. Cables shall be terminated with connecting hardware of same category or higher.

C. Patch Panel: Modular panels housing multiple-numbered jack units with IDC-type connectors at each jack for permanent termination of pair groups of installed cables.

1. Number of Jacks per Field: One for each four-pair UTP cable indicated.

D. Jacks and Jack Assemblies: Modular, color-coded, eight-position modular receptacle units with integral IDC-type terminals.

E. Patch Cords: Factory-made, four-pair cables in 48-inch Length as directed by Airport Authority; terminated with eight-position modular plug at each end.

1. Patch cords shall have bend-relief-compliant boots and color-coded icons to ensure Category 6 performance. Patch cords shall have latch guards to protect against snagging.
2. Patch cords shall have color-coded boots for circuit identification.

2.3 IDENTIFICATION PRODUCTS

A. Comply with TIA/EIA-606-A and UL 969 for labeling materials, including label stocks, laminating adhesives, and inks used by label printers.

B. Comply with requirements in Division 26 Section "Identification for Electrical Systems."

C. Cable identification shall be by means of permanently applied, pre-printed, wraparound wire markers (i.e., "Brady-Wrap" B-292, LAT-18, or LAT-19 self-laminating markers). These labels must withstand the requirements of UL 969 as outlined in the EIA/TIA-606 Standard.

D. Patch panel labels shall be pre-printed and enclosed in self-adhesive clear strips (Panduit, Ortronics or as accepted by the Engineer).

E. Data/Telecommunications Outlet Face Plates: Permanent, clear, pre-printed laminated label with black lettering (Brady Label #CL-311-621 or LAT-7-722-10, or as accepted by the Engineer).

© 2012 LSW Engineers Arizona, Inc.

2.4 SOURCE QUALITY CONTROL

A. Factory test UTP on reels according to TIA/EIA-568-B.1.

B. Factory test UTP cables according to TIA/EIA-568-B.2.

C. Factory-sweep test coaxial cables at frequencies from 5 MHz to 1 GHz. Sweep test shall test the frequency response, or attenuation over frequency, of a cable by generating a voltage whose frequency is varied through the specified frequency range and graphing the results.

D. Cable will be considered defective if it does not pass tests and inspections.

E. Prepare test and inspection reports. Provide software to read original test results on disc provided to owner.

PART 3 EXECUTION

3.1 WIRING METHODS

A. Wiring Method: Install cables in raceways and cable trays except within consoles, cabinets, desks, and counters and except in accessible ceiling spaces. Conceal raceway and cables except in unfinished spaces.

1. Install plenum cable in environmental air spaces, including plenum ceilings.
2. Comply with requirements for raceways and boxes specified in Division 26 Section "Raceway and Boxes for Electrical Systems."

B. Wiring Method: Conceal conductors and cables in accessible ceilings, walls, and floors where possible.

C. Wiring within Enclosures: Bundle, lace, and train cables to terminal points with no excess and without exceeding manufacturer's limitations on bending radii. Provide and use lacing bars and distribution spools.

3.2 INSTALLATION OF CABLES

A. Comply with NECA 1.

B. General Requirements for Cabling:

1. Comply with TIA/EIA-568-B.1.
2. Comply with BICSI ITSIM, Ch. 6, "Cable Termination Practices."
3. Install 110-style IDC termination hardware unless otherwise indicated.

© 2012 LSW Engineers Arizona, Inc.

4. Terminate all conductors; no cable shall contain unterminated elements. Make terminations only at indicated outlets, terminals, cross-connects, and patch panels.
5. Cables may not be spliced. Cabling shall be installed in continuous runs from cross-connect fields to cross-connect fields, to patch panels, etc. Cabling shall be free from splices, taps, splitters, baluns and any other in-line connections.
6. Secure and support cables at intervals not exceeding 30 inches (760 mm) and not more than 6 inches (150 mm) from cabinets, boxes, fittings, outlets, racks, frames, and terminals.
7. Unsupported cable spans shall not exceed 12" (305 mm) horizontally, 24" (607 mm) vertically.
8. All cables shall be new and as specified on the drawings. Cables shall be shipped on 1,000 ft. reels or boxed. Coiled cables are not acceptable. Factory shorts and/or factory seconds, salvaged, leftover and reused cables are not acceptable. Cables of a given type shall be of a single manufacturer and part number. All unapproved or unacceptable cable shall be removed and replaced at the Contractor's expense.
9. Cables routed above a suspended ceiling in exposed space, and not installed in a conduit system, shall be supported by a cable tray, channel or hangers.
10. Cables shall not be supported from ceiling support wires, lighting fixture support wires, ductwork, plumbing line, fire suppression systems, mechanical systems or electrical conduits. Cables shall not come in contact with ductwork or piping, or lay on top of ceiling systems and lighting fixtures.
11. A maximum of 36 (three groups of 12) cables shall be supported in a single hanger with a spacing of 48" on center. Cables shall be loosely bundled.
12. Install lacing bars to restrain cables, to prevent straining connections, and to prevent bending cables to smaller radii than minimums recommended by manufacturer.
13. Bundle, lace, and train conductors to terminal points without exceeding manufacturer's limitations on bending radii, but not less than radii specified in BICSI ITSIM, "Cabling Termination Practices" Chapter. Use lacing bars and distribution spools.
14. Do not install bruised, kinked, scored, deformed, or abraded cable. Do not splice cable between termination, tap, or junction points. Remove and discard cable if damaged during installation and replace it with new cable.
15. Cold-Weather Installation: Bring cable to room temperature before de-reeling. Heat lamps shall not be used for heating.
16. In the communications equipment room, install a 10-foot- (3-m-) long service loop on each end of voice cable.
17. Pulling Cable: Comply with BICSI ITSIM, Ch. 4, "Pulling Cable." Monitor cable pull tensions.

© 2012 LSW Engineers Arizona, Inc.

18. Cables requiring additional length shall be stored in an extended loop or in a "Figure 8" configuration. Do not store additional length in bundled loops. Each individual loop shall be tagged with cable number.
19. The Contractor shall make certain that during the installation and upon completion, all cables have been installed in good condition, free from jacket cuts or tears, kinks, twist, knots, sharp bends, etc., or any other physical damage. During the installation, the Contractor shall not allow the cables to be exposed to foot, vehicle or equipment traffic, or be exposed to any other form of abuse which shall cause damage to cables, altering the electrical characteristics. Cables exhibiting such damage or an attempt by the Contractor to correct, hide or otherwise conceal such damage, shall result in cables being replaced at the Contractor's expense.
20. Cable pulls shall not exceed 100 feet in length. Cables shall be neatly coiled in a figure "8" pattern at the completion of a pull in preparation for the next pull.
21. Data/telecommunication and fiber-optic cables shall not be stored or installed in an unheated building where the temperature is less than 40°F. The structure and the cable must be brought to a minimum 50°F ambient for a minimum of 48 hours prior to installation of the cables. Failure to observe this precaution may result in damage to the cable and shall result in the cable being replaced at the Contractor's expense.

C. UTP Cable Installation:

1. Comply with TIA/EIA-568-B.2.
2. Do not untwist UTP cables more than 1/2 inch (12 mm) from the point of termination to maintain cable geometry.

D. Group connecting hardware for cables into separate logical fields.

E. Separation from EMI Sources:

1. Comply with BICSI TDMM and TIA/EIA-569-A for separating unshielded copper voice and data communication cable from potential EMI sources, including electrical power lines and equipment.
2. Separation between open communications cables or cables in nonmetallic raceways and unshielded power conductors and electrical equipment shall be as follows:

    a. Electrical Equipment Rating Less Than 2 kVA: A minimum of 5 inches (127 mm).
    b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 12 inches (300 mm).
    c. Electrical Equipment Rating More Than 5 kVA: A minimum of 24 inches (610 mm).

© 2012 LSW Engineers Arizona, Inc.

3. Separation between communications cables in grounded metallic raceways and unshielded power lines or electrical equipment shall be as follows:

   a. Electrical Equipment Rating Less Than 2 kVA: A minimum of 2-1/2 inches (64 mm).
   b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 6 inches (150 mm).
   c. Electrical Equipment Rating More Than 5 kVA: A minimum of 12 inches (300 mm).

4. Separation between communications cables in grounded metallic raceways and power lines and electrical equipment located in grounded metallic conduits or enclosures shall be as follows:

   a. Electrical Equipment Rating Less Than 2 kVA: No requirement.
   b. Electrical Equipment Rating between 2 and 5 kVA: A minimum of 3 inches (76 mm).
   c. Electrical Equipment Rating More Than 5 kVA: A minimum of 6 inches (150 mm).

5. Separation between Communications Cables and Electrical Motors and Transformers, 5 kVA or HP and Larger: A minimum of 48 inches (1200 mm).
6. Separation between Communications Cables and Fluorescent Fixtures: A minimum of 5 inches (127 mm).

3.3 FIRESTOPPING

A. Comply with requirements in Division 07 Section "Penetration Firestopping."

B. Comply with TIA/EIA-569-A, Annex A, "Firestopping."

C. Comply with BICSI TDMM, Chapter 11 "Firestopping Systems" Article.

3.4 IDENTIFICATION

A. Identify system components, wiring, and cabling complying with TIA/EIA-606-A. Comply with requirements for identification specified in Division 26 Section "Identification for Electrical Systems."

   1. Administration Class: 4.
   2. Color-code cross-connect fields. Apply colors to voice and data service backboards, connections, covers, and labels.

© 2012 LSW Engineers Arizona, Inc.

B. Using cable management system software specified in Part 2, develop Cabling Administration Drawings for system identification, testing, and management. Use unique, alphanumeric designation for each cable and label cable, jacks, connectors, and terminals to which it connects with same designation. At completion, cable and asset management software shall reflect as-built conditions.

C. Comply with requirements in Division 09 Section 09 91 23 "Interior Painting" for painting backboards. For fire-resistant plywood, do not paint over manufacturer's label.

D. Paint and label colors for equipment identification shall comply with TIA/EIA-606-A for Class 4 level of administration.

E. Cable Schedule: Post in prominent location in each equipment room and wiring closet. List incoming and outgoing cables and their designations, origins, and destinations. Protect with rigid frame and clear plastic cover. Furnish an electronic copy of final comprehensive schedules for Project.

F. Cabling Administration Drawings: Show building floor plans with cabling administration-point labeling. Identify labeling convention and show labels for telecommunications closets, backbone pathways and cables, entrance pathways and cables, terminal hardware and positions, horizontal cables, work areas and workstation terminal positions, grounding buses and pathways, and equipment grounding conductors. Follow convention of TIA/EIA-606-A. Furnish electronic record of all drawings, in software and format selected by Owner.

G. Cable and Wire Identification:

1. Label each cable within 4 inches (100 mm) of each termination point.
2. Exposed Backbone Cables and Cables in Cable Trays and Wire Troughs: Label each cable at intervals not exceeding 15 feet (4.5 m).
3. Label each terminal strip and screw terminal in each cabinet, rack, or panel.

    a. Individually number wiring conductors connected to terminal strips, and identify each cable or wiring group being extended from a panel or cabinet to a building-mounted device shall be identified with name and number of particular device as shown.
    b. Label each unit and field within distribution racks and frames.
4. Identification within Connector Fields in Equipment Rooms and Wiring Closets: Label each connector and each discrete unit of cable-terminating and connecting hardware. Where similar jacks and plugs are used for both voice and data communication cabling, use a different color for jacks and plugs of each service.

© 2012 LSW Engineers Arizona, Inc.

H. Labels shall be preprinted or computer-printed type with printing area and font color that contrasts with cable jacket color but still complies with requirements in TIA/EIA-606-A.

1. Cables use flexible vinyl or polyester that flex as cables are bent.

3.5 FIELD QUALITY CONTROL

A. Testing Agency: Installing Contractor to perform tests and inspections.

B. Perform tests and inspections.

C. Tests and Inspections:

1. Visually inspect UTP and optical fiber cable jacket materials for NRTL certification markings. Inspect cabling terminations in communications equipment rooms for compliance with color-coding for pin assignments, and inspect cabling connections for compliance with TIA/EIA-568-B.1.
2. Visually confirm Category 5e or Category 6, marking of outlets, cover plates, outlet/connectors, and patch panels.
3. Visually inspect cable placement, cable termination, grounding and bonding, equipment and patch cords, and labeling of all components.
4. Test UTP backbone copper cabling for DC loop resistance, shorts, opens, intermittent faults, and polarity between conductors. Test operation of shorting bars in connection blocks. Test cables after termination but not cross-connection.

   a. Test instruments shall meet or exceed applicable requirements in TIA/EIA-568-B.2. Perform tests with a tester that complies with performance requirements in "Test Instruments (Normative)" Annex, complying with measurement accuracy specified in "Measurement Accuracy (Informative)" Annex. Use only test cords and adapters that are qualified by test equipment manufacturer for channel or link test configuration.

5. UTP Performance Tests:

   a. Test for each outlet. Perform the following tests according to TIA/EIA-568-B.1 and TIA/EIA-568-B.2:

      1) Wire map.
      2) Length (physical vs. electrical, and length requirements).
      3) Insertion loss.
      4) Near-end crosstalk (NEXT) loss.
      5) Power sum near-end crosstalk (PSNEXT) loss.
      6) Equal-level far-end crosstalk (ELFEXT).
      7) Power sum equal-level far-end crosstalk (PSELFEXT).

© 2012 LSW Engineers Arizona, Inc.

8) Return loss.
9) Propagation delay.
10) Delay skew.

6. Coaxial Cable Tests: Conduct tests according to Division 27 Section "Master Antenna Television System."

D. Document data for each measurement. Data for submittals shall be printed in a summary report that is formatted similar to Table 10.1 in BICSI TDMM, or transferred from the instrument to the computer, saved as text files, and printed and submitted.

E. End-to-end cabling will be considered defective if it does not pass tests and inspections. Minimum acceptable level above testing standard is 3dBA. Although test equipment may “pass” a cable based on standard valves, Airport Authority reserves the right to reject any cable test report indicating 3.0 dBA or less. Contractor shall repair or replace unaccepted cable at their expense.

F. Prepare test and inspection reports.

END OF SECTION

© 2012 LSW Engineers Arizona, Inc.

SECTION 28 05 00

GENERAL PROVISIONS

PART 1 GENERAL

1.1 SCOPE

A. Provisions of this section apply to all work specified in all sections under Division 28.

B. In addition, work in Division 28 is governed by the provisions of the Bidding Requirements, Contract Forms, General Conditions, and all sections under Division 01.

1.2 DEFINITIONS

A. Exposed, not concealed.

B. Finished Spaces: Spaces other than mechanical, electrical, and communication equipment rooms, furred spaces, pipe and duct shafts, unheated spaces immediately below roof, spaces above ceilings, unexcavated spaces, crawlspaces, and utility tunnels.

C. Exposed, Interior Installations: Exposed to view indoors. Examples include un-finished spaces, mechanical, electrical, and communication equipment rooms.

D. Exposed, Exterior Installations: Exposed to view outdoors or subject to outdoor ambient temperatures and weather conditions. Examples include rooftop locations and equipment yards.

E. Concealed, Interior Installations: Concealed from view and protected from physical contact by building occupants. Examples include above ceilings and in duct shafts.

F. Concealed, Exterior Installations: Concealed from view and protected from weather conditions and physical contact by building occupants but subject to outdoor ambient temperatures. Examples include installations within unheated shelters.

G. Unfinished Space: A room or space that is ordinarily accessible only to building maintenance personnel, a room noted on the "Finish Schedule" with exposed and unpainted construction for walls, floor or ceilings, or specifically mentioned as "unfinished."

1.3 EXAMINATION OF PREMISES

© 2012 LSW Engineers Arizona, Inc.

A. Visit the site, verify all measurements and job conditions, and pay all costs necessary to perform the work.

1.4 REGULATIONS, PERMITS, FEES, CHARGES, INSPECTIONS

A. Regulations: Comply with all applicable codes, rules and regulations.

B. Fees and Permits: Pay all connection, installation, use, development, etc., fees and/or charges. Obtain and pay for all required permits and licenses. Refer to Division 01.

C. Inspections: All work must be inspected and approved by local authorities. Prior to final approval, furnish the Engineer with certificates of inspections and approvals by the local authorities in accordance with Division 01.

1.5 DRAWINGS AND SPECIFICATIONS

A. If a conflict exists on the drawings or between the drawings and specifications, promptly notify the Engineer.

1.6 SUBMITTALS

A. Submittals are for information and coordination only. The Engineer will diligently review the submittals and attempt to verify compliance with the project requirements. Such review, however, does not constitute approval or disapproval of obligation to comply with all project requirements. The submittals are not to be construed to be contract documents. Any failure by the Engineer to note a point of non-compliance shall not be construed to be acceptance or approval of the discrepancy.

B. Product Information Sheets: Provide manufacturer's literature which includes the information required by the Product Data paragraph of the applicable Specification Section. Where Product Information Sheets show multiple models or options, clearly mark the model and options to be provided.

C. Assembly: Assemble all required submittal information for each specification section and submit in PDF formats**.**

1. Assemble PDF submittals in one PDF file for each Division. Separate and order sections within each file by corresponding specification number. Provide bookmarks at the first page of each section and label each bookmark with the specification number and name to allow for easy navigation of the submittal.

2. Partial submittals will be returned without review.Identification and Information:
3. Name the PDF file with the Project name, Division number and sequential submittal number. (I.E. The first submittal shall be No. 1, the second submittal shall be No. 2.)

© 2012 LSW Engineers Arizona, Inc.

4. Provide a cover sheet at the front of each submittal with the following information:

   a. Project name.
   b. Date.
   c. Name of Engineer.
   d. Name of Contractor.
   e. Name of subcontractor.

5. Provide a cover sheet at the front of each submittal section with the following information:

   a. Name of supplier.
   b. Name of manufacturer.
   c. Number and title of appropriate Specification Section.
   d. Drawing number and detail references, as appropriate.
   e. Other necessary identification.

D. Options:

1. Identify options requiring selection by the Engineer.
2. Indentify options included with submittal item.

E. Deviations: Identify deviations from the Contract Documents on submittals

1.7 REQUEST FOR INFORMATION

A. Request for Information:

1. A document submitted by the Contractor requesting clarification of a portion of the Contract Documents, hereinafter referred to as RFI.
2. A properly prepared request for information shall include a detailed written statement of the clarification, apparent conflict, or information requested that indicates the specific drawings or specification in need of clarification and the nature of the clarification requested.

   a. Drawings shall be identified by drawing number and location on the drawing sheet.
   b. Specifications shall be identified by section number, page, and paragraph.

3. Include a proposed solution, where appropriate, based upon the field conditions and best knowledge of the Contractor.

B. Improper or Frivolous RFIs: RFIs which are not properly prepared or that request information which is clearly shown in the contract documents will be returned unanswered. Processing time for multiple submissions of improper or frivolous RFIs will be billed at the Engineer's standard hourly rate to the Owner who may deduct an equal amount from the monies due the Contractor.

© 2012 LSW Engineers Arizona, Inc.

1.8 RECORD DRAWINGS

A. Record Prints: Maintain one set of marked-up paper copies of the Contract Drawings, Submittals and Shop Drawings.

1. Preparation: Mark record prints to show the actual installation where installation varies from that shown originally. Include underground and overhead piping. Require individual or entity who obtained record data, whether individual or entity is Installer, subcontractor, or similar entity, to provide information for preparation of corresponding marked-up record prints.

a. Give particular attention to information on concealed elements that would be difficult to identify or measure and record later.
b. Include dimensions both horizontally and vertically to permanent points of reference accurate within 6 inches. Include descriptors such as “below slab”, “above ceiling”, etc.
c. Record data daily or as soon as possible after obtaining it.
d. Record and check the markup before enclosing concealed installations.

2. Mark the Contract Drawings, Submittals and Shop Drawings completely and accurately. Utilize personnel proficient at recording graphic information in production of marked-up record prints.
3. Mark record sets with erasable, red-colored pencil. Use other colors to distinguish between changes for different categories of the Work at same location.
4. Note Construction Change Directive numbers, alternate numbers, Change Order numbers, and similar identification, where applicable.

B. Format: Identify and date each record Drawing; include the designation "PROJECT RECORD DRAWING" in a prominent location.

1. Record Prints: Organize record prints and newly prepared Record Drawings into manageable sets. Bind each set with durable paper cover sheets. Include identification on cover sheets.
2. Identification: As follows:

a. Project name.
b. Date.
c. Designation "PROJECT RECORD DRAWINGS."
d. Name of Engineer.
e. Name of Contractor.

3. Remove or obscure Engineer’s seal from Record Drawings.

1.9 OPERATION AND MAINTENANCE MANUAL

© 2012 LSW Engineers Arizona, Inc.

A. Prior to completion of the project, compile a complete equipment, operation and maintenance manual for all equipment supplied under Division 28.

B. Schedule:

1. Submit a preliminary copy of the manual not less than 30 days prior to substantial completion for review and comment.
2. Submit the final version the manual not more than four weeks after substantial completion of the project.

C. Format: Submit manuals in both of the following formats:

1. PDF electronic file. Assemble each manual into a composite electronically-indexed file. Submit on digital media acceptable to Engineer.

   a. Name each indexed document file in composite electronic index with applicable item name. Include a complete electronically-linked operation and maintenance directory.
   b. Enable inserted reviewer comments on draft submittals.
   c. Provide one final copy to Engineer and two copies to Owner.

2. Three paper copies. Include a complete operation and maintenance directory. Enclose title pages and directories in clear plastic sleeves. Engineer will return three copies.

D. Provide operating and maintenance manuals for all systems, subsystems, and equipment that requires operation and regular maintenance, or has replaceable parts.

E. Content: For each system, subsystem, and piece of equipment not part of a system, include source information, product data, manufacturers' maintenance documentation, maintenance procedures, maintenance and service schedules, spare parts list and source information, maintenance service contracts, and warranty and bond information, as described below. In addition to requirements in this Section, include operation and maintenance data required in individual Specification Sections.

F. Source Information: List each system, subsystem, and piece of equipment included in manual, identified by product name and arranged to match manual's table of contents. For each product, list name, address, and telephone number of Installer or supplier and maintenance service agent, and cross-reference Specification Section number and title in Project Manual.

G. Product Data: Include the following information:

1. System, subsystem, and equipment descriptions. Use designations for systems and equipment indicated on Contract Documents.
2. Approved submittals.

© 2012 LSW Engineers Arizona, Inc.

3. Include the following if not shown on approved submittals:

   a. Product name and model number. Use designations for products indicated on Contract Documents.
   b. Manufacturer's name.
   c. Equipment identification with serial number of each component.
   d. Equipment function.
   e. Operating characteristics.
   f. Limiting conditions.
   g. Performance curves.
   h. Engineering data and tests.

H. Operating Procedures: Include the following, as applicable:

1. Startup procedures.
2. Equipment or system break-in procedures.
3. Routine and normal operating instructions.
4. Regulation and control procedures.
5. Instructions on stopping.
6. Normal shutdown instructions.
7. Seasonal and weekend operating instructions.
8. Required sequences for electric or electronic systems.
9. Special operating instructions and procedures. Including precautions against improper use.
10. Operating logs.

I. Wiring Diagrams: Diagram of factory installed wiring including any options as well as any field modifications.

J. Systems and Equipment Controls: Describe the sequence of operation, and diagram controls as installed.

K. Manufacturers' Maintenance Documentation: Manufacturers' maintenance documentation including the following information for each component part or piece of equipment:

1. Standard maintenance instructions and bulletins.
2. Drawings, diagrams, and instructions required for maintenance, including disassembly and component removal, replacement, and assembly.
3. Identification and nomenclature of parts and components.
4. List of items recommended to be stocked as spare parts.

L. Maintenance Procedures: Include the following information and items that detail essential maintenance procedures:

1. Test and inspection instructions.
2. Troubleshooting guide.
3. Precautions against improper maintenance.

© 2012 LSW Engineers Arizona, Inc.

4. Disassembly; component removal, repair, and replacement; and reassembly instructions.
5. Aligning, adjusting, and checking instructions.
6. Demonstration and training video recording, if available.

M. Maintenance and Service Schedules: Include service and lubrication requirements, list of required lubricants for equipment, and separate schedules for preventive and routine maintenance and service with standard time allotment.

N. Spare Parts List and Source Information: Include lists of replacement and repair parts, with parts identified and cross-referenced to manufacturers' maintenance documentation and local sources of maintenance materials and related services.

O. Maintenance Service Contracts: Include copies of maintenance agreements with name and telephone number of service agent.

P. Licenses: Include copies of any licenses with requirements including inspection and renewal dates.

Q. Warranties and Bonds: Include copies of warranties and bonds and lists of circumstances and conditions that would affect validity of warranties or bonds.

R. Test and Balance Report: Include a final, approved copy of the Test and Balance Report.

1.10 WORK AND MATERIALS

A. Unless otherwise specified, all materials must be new and of the quality specified. The workmanship shall be of a quality that is acceptable to the Architect, Engineer, and Owner, and is equal to the standards of the trades. Contractor must staff the project with sufficient skilled workmen, including a fully qualified construction superintendent, to complete the work in the time allotted. The superintendent must be qualified to supervise all of the work in his work category.

B. Uniformity: Unless otherwise specified, provide all equipment and products of same type or classification by the same manufacturer.

1.11 APPROVALS OF MATERIALS AND EQUIPMENT

A. Refer to Division 01 for description of material and equipment for prior approvals and substitutions.

1.12 COOPERATIVE WORK

A. Correct without charge any work requiring alteration due to lack of proper supervision or failure to make proper provision in time. Correct without charge any damage to adjacent work caused by the alteration. See Division 01 for

© 2012 LSW Engineers Arizona, Inc.

additional requirements.

B. Cooperative Work Includes:

1. General supervision and responsibility for proper location, rough-in, and size of work related to Division 28 but provided under other divisions of these specifications.
2. Installation of sleeves, inserts and anchors bolts for work under sections in Division 28.

1.13 EXISTING MATERIALS AND EQUIPMENT

A. Disposition: With the exception of items that are to be reused or retained by the Owner, all other materials indicated to be removed shall be removed and disposed of by the Contractor. Items that are indicated to be retained or returned to the Owner and shall be delivered to a storage area designated by the Owner.

B. Unused Materials: All unused raceways, conductors, boxes, equipment, and miscellaneous materials shall be removed by the Contractor except where located within walls, below or above existing construction which is not being altered and would require removal and replacement of this existing construction. All visible raceways, conductors, boxes, equipment, and miscellaneous materials shall be removed and sealed or capped within wall, below floor unless noted otherwise.

C. Exterior Services: The Contractor shall be responsible for maintaining fire alarm service to the existing building during the construction period. Existing services are to be retained until such a time that the new services, if any, are completely installed and ready for use. Scheduling of service interruptions is to be coordinated with the Engineer and Owner.

D. Disconnect, demolish, and remove fire alarm systems, equipment, and components that are indicated to be removed.

1. Conduit to be Removed: Remove portion of piping indicated to be removed and cap or plug remaining piping with same or compatible piping material. Patch insulation, as required, to match adjacent areas.
2. Conduit to be Abandoned In Place: Drain piping and cap or plug piping with same or compatible piping material.
3. Equipment to be Removed: Disconnect services and remove equipment.
4. Equipment to be Removed and Reinstalled: Disconnect and remove, clean, and store equipment; when appropriate, reinstall, reconnect, and make equipment operational.
5. Equipment to be Removed and Salvaged: Disconnect and remove equipment and deliver to Owner.

© 2012 LSW Engineers Arizona, Inc.

E. Continuity of Services in Existing Building: Contractor shall permanently reroute existing fire alarm services or provide temporary connection as required to maintain service to existing fixtures in building which are to remain in service.

F. Testing: All existing services affected by the new construction and which are to remain in operation shall be returned to their original condition. The existing services shall be tested as new, as described in other sections of these specifications. If for any reason these requirements cannot be met, the Contractor shall immediately notify the Engineer.

1.14 CONSTRUCTION FACILITIES

A. General: Under this division of the specifications, execute all work in a manner to provide safe and lawful ingress and egress to the Owner's establishment and such facilities shall be kept clear of materials or equipment. Refer to Division 01 for additional requirements.

B. Furnish and maintain from the beginning to the completion of all work all lawful and necessary guards, railings, fences, canopies, lights, and warning signs. Take all necessary precautions required by city and state laws to avoid injury or damage to any and all persons and property.

1.15 GUARANTEE

A. Guarantee all material, equipment, installation and workmanship for all sections under Division 28 in writing to be free from defects of material and workmanship for one year from date of final acceptance as outlined in Division 01. Equipment warranties shall be a minimum of one year from date of substantial completion or as specified elsewhere. Replace without charge any material or equipment proving defective during this period. The guarantee shall include performance of the equipment under all conditions of load, installing any additional items of control and/or protective devices as required and the replacing of any refrigerant lost.

PART 2 PRODUCTS

2.1 CONCRETE

A. Where used for structures to be provided under the contract such as bases, etc., concrete work and associated reinforcing shall be as specified under that Division.

B. See other sections for additional requirements for underground vaults, cable ducts, etc.

2.2 FRAMING CHANNEL

© 2012 LSW Engineers Arizona, Inc.

A. The framing channel shall be a cold-rolled, high-quality, carbon steel channel with factory-applied, hot-dipped-after-fabrication finish. Utilize factory-built interconnecting components, mounting straps, connectors, etc., designed for use with the framing channel supplied. Channel nuts shall be spring type and shall utilize standard US threads. Provide heavy zinc paint for field touch-up. B-Line "B" series, Unistrut "P" series, or as accepted by the Architect.

2.3 ANCHORS

A. Anchors shall be expandable lead type, as manufactured by Ackerman-Johnson, Pierce, Diamond, Hilti, or as accepted by the Architect.

B. Adjustable concrete hanger inserts shall be as manufactured by Grinnell or as accepted by the Architect.

PART 3 EXECUTION

3.1 SUBMITTALS

A. Prepare submittals as directed for review by the Contractor, Owner**,** and Engineer.

B. Submit one copy of PDF submittals via email, project website or other electronic media.

3.2 RECORD DRAWINGS

A. Recording: Post changes and modifications to project record documents as they occur; do not wait until the end of Project.

B. Maintenance of Record Documents and Samples: Store record documents in the field office apart from the Contract Documents used for construction. Do not use project record documents for construction purposes. Maintain record documents in good order and in a clean, dry, legible condition, protected from deterioration and loss. Provide access to project record documents for Engineer's reference during normal working hours.

3.3 OPERATION AND MAINTENANCE MANUALS

A. Prepare Operation and Maintenance Manuals as directed for review by the Contractor, Owner**,** Architect, and Engineer.

B. Make corrections and resubmit as required.

3.4 VERIFICATION OF DIMENSIONS

A. Scaled and figured dimensions are approximate only. Before proceeding with work, carefully check and verify dimensions at site, and be responsible for

© 2012 LSW Engineers Arizona, Inc.

properly fitting equipment and materials together and to the structure in spaces provided.

B. Drawings are diagrammatic and many offsets, bends, special fittings and exact locations are not indicated. Carefully study drawings and premises in order to determine best methods, exact locations, routes, building obstructions, and install apparatus and equipment in available locations. Install apparatus and equipment in manner and in locations to avoid obstructions, preserve headroom, and keep openings and passageways clear.

3.5 CUTTING AND PATCHING

A. Cut work and patch per Division 01 as necessary to properly install the new work. As the work progresses, coordinate necessary openings, holes, chases, etc., in their correct location. If the required openings, holes and chases are not in their correct locations, make the necessary corrections at no cost to the Owner. Avoid excessive cutting and do not cut structural members without the consent of the Engineer. Include as a part of the work all structural framing required by penetrations through the roof and necessary steel to support ducts and pipes between structural steel unless shown on the structural drawings.

3.6 CLOSING-IN OF UNFINISHED WORK

A. Cover no work until inspected, tested and approved. Where work is covered before inspection and test, uncover it, and when inspected, tested and approved, restore all work to original proper condition.

3.7 PRODUCT AND EQUIPMENT INSTALLATION - COMMON REQUIREMENTS

A. All equipment, valves, sensors, dampers, detectors, etc., shall be installed in strict conformance with the manufacturer's recommendations and all codes.

B. Install equipment to allow maximum possible headroom unless specific mounting heights are not indicated.

C. Install equipment level and plumb, parallel and perpendicular to other building systems and components in exposed interior spaces, unless otherwise indicated.

D. Do not install any equipment in an application not recommended by the manufacturer.

3.8 EQUIPMENT ROUGH-IN

A. Rough in all equipment and fixtures as designated on the drawings and in the specifications. The drawings indicate only the approximate location of rough-ins. The exact rough-in locations must be determined from large-scale certified drawings. The Contractor shall obtain all certified rough-in

© 2012 LSW Engineers Arizona, Inc.

information before progressing with any work for rough-in final connections.

B. Be responsible for providing all outlets and services of proper size at the required locations.

C. Minor changes in the contract drawings shall be anticipated and provided for under this Division.

1. Rough-in only (unless otherwise designated on the drawings) shall include providing all services as indicated and required, including all conduit and conductors. Cap all conduit stub-outs. Cap all conduits stub-outs in a manner suitable for future extension.

3.9 EQUIPMENT FINAL CONNECTIONS

A. Provide all final connections for the following:

1. All equipment furnished under this Division.
2. Owner-furnished equipment as shown on the drawings.

3.10 OWNER-FURNISHED AND OTHER EQUIPMENT

A. Rough-in only for all Owner-furnished equipment reference Division 01 and all equipment furnished under other sections of the specifications, except as otherwise specified and/or noted on the drawings.

3.11 EQUIPMENT SUPPORTS

A. Erection of Metal Supports and Anchorages:

1. Refer to Division 05 for structural steel.
2. Cut, fit, and place miscellaneous metal supports accurately in location, alignment, and elevation to support and anchor fire alarm materials and equipment. Neatly fabricate and erect steel work with burrs and welding spatter ground off. Paint after fabrication with a rust-inhibitive primer.
3. Field Welding: Comply with AWS D1.1.

3.12 CLEANUP

A. In addition to cleanup specified under Division 01, thoroughly clean all parts of the equipment. Where exposed parts are to be painted, thoroughly clean off any splattered construction materials and remove all oil and grease spots. Wipe the surface carefully and scrape out all cracks and corners.

B. During the progress of the work, keep the premises clean and free of debris.

3.13 TESTING

© 2012 LSW Engineers Arizona, Inc.

A. Upon completion of the fire alarm work, the entire installation shall be tested and demonstrated to be operating satisfactorily. Tests and documentation shall be in accordance with NFPA 72 Acceptance Testing Specifications for Fire Alarm Equipment and Systems.

B. Additional equipment-specific testing is described in the equipment's respective section of this Division.

C. Furnish a written report of testing to the Architect. At a minimum, the report shall include:

1. Testing Contractor's letterhead
2. Testing technician's name and signature.
3. Date and time that test was performed.
4. Ambient temperature and weather conditions.
5. Test equipment manufacturer, model number, and last calibration date.
6. The manufacturer, model number, and, as applicable, trip unit model number and available adjustments of tested equipment.
7. Statement of "As Left" conditions.
8. Pass/Fail statement.
9. Recommendations if any.

D. The Contractor shall submit the testing schedule to the Architect two weeks prior to initiation of testing activity.

SECTION 28 05 01

SCOPE OF WORK

PART 1 GENERAL

1.1 SUMMARY

A. The work under this Division includes furnishing all labor, material and equipment necessary for the installation and placing into operation of the electrical systems as indicated on the drawings.

B. The work shall also include the completion of such minor details of electrical work not mentioned or shown which are necessary for the successful operation of all systems described on the drawings or required by these specifications.

1.2 SCOPE

A. The work includes, but is not necessarily limited to, furnishing and installing the following:

1. Complete access control and video surveillance and all accessories, branch circuits, etc.
2. All equipment and materials specified in this Division.
3. All other items and/or work indicated on the drawings.
4. Equipment lists and maintenance manuals.

1.3 AS-BUILT DRAWINGS

A. The Electrical Division shall maintain as-built drawings as specified in Division 1 requirements.

B. Drawings shall show locations of all concealed and exposed conduit runs, giving the number and size of conduit and wire. Underground ducts shall be shown with cross-section elevations. Any pipe, conduit or lines of other trades shall be included.

C. See Division 1 for additional requirements.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 28 23 00

VIDEO SURVEILLANCE

PART 1 GENERAL

1.1 SUMMARY

A. Section includes a video surveillance system consisting of cameras, digital video recorder, data transmission wiring, and a control station with its associated equipment.

B. Video surveillance system shall be integrated with existing Lenel Access Control monitoring and control system.

1.2 SUBMITTALS

A. Product Data: For each type of product indicated. Include dimensions and data on features, performance, electrical characteristics, ratings, and finishes.

B. Shop Drawings: For video surveillance. Include plans, elevations, sections, details, and attachments to other work.

1. Detail equipment assemblies and indicate dimensions, weights, loads, required clearances, method of field assembly, components, and location and size of each field connection.
2. Functional Block Diagram: Show single-line interconnections between components for signal transmission and control. Show cable types and sizes.
3. Dimensioned plan and elevations of equipment racks, control panels, and consoles. Show access and workspace requirements.
4. Wiring Diagrams: For power, signal, and control wiring.

C. Equipment List: Include every piece of equipment by model number, manufacturer, serial number, location, and date of original installation.

1.3 CLOSEOUT SUBMITTALS

A. Operation and maintenance data. Refer to Division 1 for additional information.

1.4 QUALITY ASSURANCE

A. Electrical Components, Devices, and Accessories: Listed and labeled as defined in NFPA 70, by a qualified testing agency, and marked for intended location and application.

B. Comply with NECA 1.

© 2012 LSW Engineers Arizona, Inc.

C. Comply with NFPA 70.

D. Electronic data exchange between video surveillance system with an access-control system shall comply with SIA TVAC.

1.5 PROJECT CONDITIONS

A. Environmental Conditions: Capable of withstanding the following environmental conditions without mechanical or electrical damage or degradation of operating capability:

1. Exterior Environment: System components installed in locations exposed to weather shall be rated for continuous operation in ambient temperatures of minus 30 to plus 122 deg F (minus 34 to plus 50 deg C) dry bulb and 20 to 90 percent relative humidity, condensing. Rate for continuous operation when exposed to rain as specified in NEMA 250, winds up to 85 mph (137 km/h). Use NEMA 250, Type 4X enclosures.
2. Security Environment: Camera housing for use in high-risk areas where surveillance equipment may be subject to physical violence.

1.6 WARRANTY

A. Special Warranty: Manufacturer's standard form in which manufacturer agrees to repair or replace components of cameras, equipment related to camera operation, and control-station equipment that fail in materials or workmanship within specified warranty period.

1. Warranty Period: two years from date of Substantial Completion.

PART 2 PRODUCTS

2.1 SYSTEM REQUIREMENTS

A. Video-signal format shall comply with motion JPEG standard, composite interlaced video. Composite video-signal termination shall be Category 6.
B. Surge Protection: Protect components from voltage surges entering through power, communication, signal, control, or sensing leads. Include surge protection for external wiring of each conductor's entry connection to components.

1. Minimum Protection for Communication, Signal, Control, and Low-Voltage Power Connections: Comply with requirements in Section 264313 "Transient-Voltage Suppression for Low-Voltage Electrical Power Circuits" as recommended by manufacturer for type of line being protected.

2.2 IP BASED CAMERAS

© 2012 LSW Engineers Arizona, Inc.

A. Basis-of-Design Product: Subject to compliance with requirements, provide product indicated on Drawings:

B. Automatic Day/Night Camera: Assembled and tested as a manufactured unit, containing dome assembly, color camera, motorized pan and tilt, zoom lens, and receiver/driver.
   1. Comply with UL 639.
   2. Pickup Device: two (2) megapixels.
   3. Resolution: Minimum 1280x960.
   4. Sensitivity: Camera shall provide usable images in low-light conditions, delivering an image at a scene illumination of 0.8 lux at 30 IRE F1.6 color, 0.04 lux at 30 IRE F1.6.
   5. Video Compression: Motion JPEG.
   6. Pan and Tilt (where applicable): Direct-drive motor, 360-degree rotation angle, and 180-degree tilt angle. Pan-and-tilt speed shall be controlled by operator. Movement from preset positions shall be not less than 300 degrees per second.

2.3 POWER SUPPLIES

A. Low-voltage power supplies matched for voltage and current requirements of cameras and accessories, and of type as recommended by manufacturer of camera and lens.

   1. Installed in an enclosure as indicated on the drawings.

2.4 CAMERA-SUPPORTING EQUIPMENT

A. Basis-of-Design Product: Subject to compliance with requirements, provide product indicated on Drawings:

B. Minimum Load Rating: Rated for load in excess of the total weight supported times a minimum safety factor of two.

C. Mounting Brackets for Fixed Cameras: Type matched to items supported and mounting conditions. Include manual pan-and-tilt adjustment.

D. Protective Housings for Fixed and Movable Cameras: IP 66 Rated aluminum enclosures with internal camera mounting and connecting provisions that are matched to camera/lens combination and mounting and installing arrangement of camera to be housed.

   1. Camera Viewing Window: Polycarbonate window, aligned with camera lens.
   2. Sun shield shall not interfere with normal airflow around the housing.
   3. Mounting bracket and hardware for pole mounting of the housing. Bracket shall be of same material as the housing; mounting hardware shall be stainless steel.

© 2012 LSW Engineers Arizona, Inc.

4. Finish: Housing and mounting bracket shall be factory finished using manufacturer's standard finishing process suitable for the environment.
5. Enclosure Rating: Insert NEMA 4X.

2.5 NETWORK VIDEO RECORDERS

A. Basis-of-Design Product: Subject to compliance with requirements, provide product indicated on Drawings:

B. Internal 250-GB hard disk drive for operating system.

1. Video and audio recording over TCP/IP network.
2. Video recording of MJPEG and MPEG-4 streams.
3. Duplex Operation: Simultaneous recording and playback.
4. Continuous and alarm-based recording.
5. Full-Featured Search Capabilities: Search based on camera, time, or date.
6. Automatic data replenishment to ensure recording even if network is down.
7. Digital certification by watermarking.
8. Internal RAID storage or non-RAID storage of up to 1500 GB.
9. Full integration with LAN, Intranet, or Internet through standard Web browser or video management software.
10. Integrated Web server FTP server functionality.
11. Supports up to 64 devices.

2.6 DIGITAL SWITCHERS

A. Basis-of-Design Product: Subject to compliance with requirements, provide product indicated on Drawings

2.7 IP VIDEO SYSTEMS

A. Manufacturers: Subject to compliance with requirements, provide products by one of the following available manufacturers offering products that may be incorporated into the Work include, but are not limited to, the following:

B. Basis-of-Design Product: Subject to compliance with requirements, provide product indicated on Drawings Insert manufacturer's name; product name or designation or comparable product by one of the following:

C. Description:

1. System shall provide high-quality delivery and processing of IP-based video, audio, and control data using standard Ethernet-based networks.
2. System shall have seamless integration of all video surveillance and control functions.

© 2012 LSW Engineers Arizona, Inc.

3. Graphical user interface software shall manage all IP-based video matrix switching and camera control functions, alarm monitoring and control, and recording and archive/retrieval management. IP system shall also be capable of integrating into larger system environments.
4. System design shall include all necessary compression software for high-performance, dual-stream, MJPEG/MPEG-4 video. Unit shall provide connections for all video cameras, camera PTZ control data, discreet sensor inputs, and control system outputs.
5. All camera signals shall be compressed, encoded, and delivered onto the network for processing and control by the IP video-management software.
6. Camera system units shall be ruggedly built and designed for extreme adverse environments, complying with NEMA Type environmental standards.
7. Encoder/decoder combinations shall place video, audio, and data network stream that can be managed from multiple workstations on the user's LAN or WAN.

2.8 CONTROL STATIONS

A. Existing Control Station is located in PMGA Facility Building.

2.9 SIGNAL TRANSMISSION COMPONENTS

A. Cable: Communication cabling system shall comply with Division 27."

PART 3 EXECUTION

3.1 WIRING

A. Comply with requirements in Section 260533 "Raceways and Boxes for Electrical Systems."

B. Wiring Method: Install cables in raceways unless otherwise indicated.

C. Wiring within Enclosures: Bundle, lace, and train conductors to terminal points with no excess and without exceeding manufacturer's limitations on bending radii. Provide and use lacing bars and distribution spools.

D. Splices, Taps, and Terminations: For power and control wiring, use numbered terminal strips in junction, pull, and outlet boxes; terminal cabinets; and equipment enclosures. Tighten electrical connectors and terminals according to manufacturer's published torque-tightening values. If manufacturer's torque values are not indicated, use those specified in UL 486A-486B.

E. For LAN connection and fiber-optic and copper communication wiring, comply with Section 271300 "Communications Backbone Cabling" and Section 271500 "Communications Horizontal Cabling."

© 2012 LSW Engineers Arizona, Inc.

F. Grounding: Provide independent-signal circuit grounding recommended in writing by manufacturer.

3.2 VIDEO SURVEILLANCE SYSTEM INSTALLATION

A. Install cameras with 84-inch- (2134-mm-) minimum clear space below cameras and their mountings. Change type of mounting to achieve required clearance.

B. Set pan-and-tilt unit stops to suit final camera position and to obtain the field of view required for camera. Connect all controls and alarms, and adjust.

C. Avoid ground loops by making ground connections only at the control station.

D. Identify system components, wiring, cabling, and terminals according to Section 260553 "Identification for Electrical Systems."

3.3 FIELD QUALITY CONTROL

A. Perform tests and inspections.

1. Manufacturer's Field Service: Engage a factory-authorized service representative to inspect components, assemblies, and equipment installations, including connections, and to assist in testing.

B. Tests and Inspections:

1. Inspection: Verify that units and controls are properly installed, connected, and labeled, and that interconnecting wires and terminals are identified.
2. Pretesting: Align and adjust system and pretest components, wiring, and functions to verify that they comply with specified requirements. Conduct tests at varying lighting levels, including day and night scenes as applicable. Prepare video-surveillance equipment for acceptance and operational testing as follows:

   a. Verify operation of auto-iris lenses.
   b. Set back-focus of fixed focal length lenses. At focus set to infinity, simulate nighttime lighting conditions by using a dark glass filter of a density that produces a clear image. Adjust until image is in focus with and without the filter.
   c. Set back-focus of zoom lenses. At focus set to infinity, simulate nighttime lighting conditions by using a dark glass filter of a density that produces a clear image. Additionally, set zoom to full wide angle and aim camera at an object 50 to 75 feet (17 to 23 m) away. Adjust until image is in focus from full wide angle to full telephoto, with the filter in place.

© 2012 LSW Engineers Arizona, Inc.

d. Set and name all preset positions; consult Owner's personnel.
e. Set sensitivity of motion detection.
f. Connect and verify responses to alarms.
g. Verify operation of control-station equipment.

3. Test Schedule: Schedule tests after pretesting has been successfully completed and system has been in normal functional operation for at least 14 days. Provide a minimum of 10 days' notice of test schedule.
4. Operational Tests: Perform operational system tests to verify that system complies with Specifications. Include all modes of system operation.

C. Video surveillance system will be considered defective if it does not pass tests and inspections.

D. Prepare test and inspection reports.

3.4 DEMONSTRATION

A. Engage a factory-authorized service representative to train Owner's maintenance personnel to adjust, operate, and maintain video-surveillance equipment.

Memorandum

To: J. Brian O'Neill, A.A.E., Executive Director, CEO

From: Bob Draper, PE, Director Engineering & Facilities
through Scott Brownlee, Deputy Director, COO

CC: Rich Adams, Project Manager Engineering & Facilities

Date: Thursday, March 31, 2022

Re: Project 1421 N Economy Parking Lot Expansion Change Order #1

Project 1421 N Economy Parking Lot Expansion was awarded to Nesbitt Construction as a CMAR via Board Resolution 22-07 on March 15th, 2022. This contract is funded with Non-Grant PFC funds. Construction started March 21st, 2022.

Attached for approvals are documents for Change Order #1

The original contract amount, as approved by the Board for early procurement of materials and schedule constraints, was for a total of: **$561,497.25**

Change Order #1 for balance of the work increases the contract amount by: $2,755,361.31 The new contract amount after Change Order #1 is: **$3,316,858.56**

CHANGE ORDER

Change Order No.:	1	Project Number/Name:	N Economy Parking Expansion
Change Order Date:	March 30, 2022	Notice to Proceed Date:	March 29, 2022
Is This Change Order Grant Eligible?	No	FAA Grant No.:	
Are Additional Grant Funds Requested?	No	ADOT Grant No.:	
Contract/Completion Implications - # of days:	0	Contract Date:	March 29, 2022
Contractor:	Nesbitt Contracting	Exhibit A Date:	
Contract No.:	20220236	Purchase Order No.:	N/A

This Contract is changed as follows:

This Change Order includes the remainder of the work included in the contract documents that were not included in the early procurement GMP 1. GMP 1 was approved based on procurement of long lead items and schedule constraints. The result of this change order will be the complete GMP for the Ray Road Parking Lot Expansion Project.

This Change Order shall constitute a final settlement of all matters relating to the change in the Work which is the subject of the Change Order, including but not limited to all direct or indirect costs associated with such change, all delay and disruption costs, any impact such change may have on unchanged work, and any and all adjustments to the Contract Sum or the Contract Time. This Change Order supersedes all prior reservations stated or implied.

	Cost excl. taxes	Taxes	Cost incl. Taxes
The original *Contract Sum* was	$ 532,755.11	$ 28,742.14	$ 561,497.25
Net change by previously authorized Change Orders:	$ -	$ -	$ -
The *Contract Sum* prior to this Change Order was:	$ 532,755.11	$ 28,742.14	$ 561,497.25
The Sum of this Change Order	$ 2,614,318.81	$ 141,042.50	$ 2,755,361.31
The new *Contract Sum*, including this Change Order is	$ 3,147,073.92	$ 169,784.64	$ 3,316,858.56

    - Finished grading
    - Engineering, design, surveying, and staking for line and / or grade are excluded. Elevations must be provided where required
    - QA/QC or 3rd party testing
    - Spoils from trench or excavation work will be placed trench side to be removed or spread by others. All concrete and asphalt removal and disposal by others
    - All electrical equipment, panelboards, circuit breakers or lighting control - Future GMP
    - All communication cables, fiber optic cable - Future GMP
    - Any/All work for the Toll Plaza Expansion
    - Any/All work for the Gate/Exit Lanes
    - Any/All equipment for the Security, CCTV or Access Control systems
    - Conduit system installed during GMP1
    - Dumpsters or Haul-off
- Bonding is NOT included in these bid amounts. If a bond is requested, it will be billed outside the contract value and will become due and payable immediately upon presentation of bond. Our bond rate for this project is 1.20%.
- Hard dig is excluded. Upon discovery of hard digging conditions that a standard 420F Caterpillar backhoe is unable to excavate, GC will excavate, remove rock and Rural will complete trench and backfill (Rural will provide credit for normal excavation)
- All Division 1 requirements are to be furnished by the Prime Contractor or others. This includes but is not limited to preparation of construction schedules, contractor quality control program, QA and QC testing, temporary construction trailers or facilities, construction lighting and power, maintenance of site access, site dust control, temporary site environmental protection, permits and/ or fees, and builders-risk or all risk insurance policies.
- Where the electrical drawings and electrical specifications conflict with other contract documents, our pricing is based on the electrical drawings.
- Rural Electric is not responsible for unmarked landscaping facilities.
- Prime contractor is to furnish a source for construction water at no cost to the subcontractor.
- Pay when paid clauses will not be accepted.
- Rural Electric, Inc. maintains its own job documentation system. Any additional requirements by the GC to complete job documentation on GC supplied forms will require additional subcontractor administration time and additional cost. This proposal excludes the use of GC supplied documents (i.e. Special GC daily reports, RFIs, certified payrolls, submittal/transmittal forms, etc.).
- This proposal is made with the understanding that we will enter into a mutually acceptable subcontract agreement. We will not accept any terms or conditions that are less favorable to Rural than those imposed in the Prime contract by the Owner. The conditions of this proposal must be attached or incorporated into our subcontract agreements.
- Prices quoted herein are those in effect today, and are predicated on immediate release for manufacture and shipment. These prices are subject to adjustment for changes in the base price of commodity items such as: Copper, Steel, Lead, Aluminum, or Resins), which may occur between the date of quotation and the date(s) shipments are made.
- Our Quote is valid for 30 days
- Rural shall not be liable for any losses, damages or delays due to causes beyond our reasonable control, including without limitations, acts of God, epidemics, extreme weather events, fire, delays by others, or any acts, conduct, or omission from unrelated third-parties outside of our direct control
- Liquidated damages (if applicable) shall be limited to the proportion of our subcontract to the General Contract.
- Retention shall be reduced by 50% upon substantial completion and released once beneficial occupancy or final acceptance has been received.
- If a subcontract payment bond is requested of Rural, then providing monthly lien releases shall not be a condition precedent for payment and all payment will be made to Rural as single party checks.

Payment Terms:

Net payment is expected within 30 days.

WORK PACKAGE BID FORM & STIPULATIONS

Construction Services for the North Economy Parking Lot Expansion
PMGAA No. 1241
Nesbitt Project No. 122038

North Economy Parking Lot Expansion Electrical Package

Bid Proposal of (Firm Legal Name): Rural Electric, Inc.

Bidder acknowledges receipt of the following Addenda: 1 & 2

Bidder agrees to perform all work within this Work Package as it appears below, including all applicable direct and overhead costs, profit, taxes, and all costs associated with the Project.

SCOPE:

Awarded Subcontractor shall furnish and install, complete and in-place all labor, materials, tools, equipment, supplies, and supervision for the proper and complete performance and acceptance of the electrical work specified in the drawings and specifications for the North Economy Parking Lot Expansion.

PLANS & SPECIFICATIONS:

Bidders acknowledge the following listed specifications and plans have been considered in this Proposal. This list is *not* to be considered inclusive. Bidder is responsible for reviewing all project documents and becoming familiar with all information related to this work package and pricing accordingly.

Specifications:	**Plans:**
Ray Road Parking Lot Phase III PMGAA Solicitation No. 2013-020-IFB PMGAA Project No. 779	Ray Road Parking Lot Phase III PMGAA Solicitation No. 2013-020-IFB PMGAA Project No. 779

ATTACHMENTS:

A. Selected Plan Sheets
B. Preliminary Baseline Schedule

STIPULATIONS:

1) Bidder is advised that the scope has been changed from the project documents provided. The reduced scope consists of:
   a. **ALL** Base Bid Toll Plaza electrical is descoped from this work package.

   b. **ALL** Alt 1 and Alt electrical is excluded from this work package

   c. **ALL** Base bid Bus Stop Shelter Canopies are descoped from this work package. However, the Subcontractor shall provide and install conduits ONLY for ALL communication and electrical to the bus pad.

   d. **ALL** Base bid Special Systems are descoped from this work package. However, the Subcontractor shall provide and install conduits ONLY for communication and electrical for future special systems.

   e. **ALL** Base Bid Special Systems are descoped from this work package. except for items noted below "Special Systems Bid No." The Subcontractor shall provide and install

      Electrical Scope INCLUDES (Ref. Plan Sheet 7 of 89):
      Bid Item No. 88-95 and 100-13
      ***Exclude Item No. 96 - Nema 3R Panel Board

      Special Systems Scope INCLUDES (Ref. Plan Sheet 7 of 89):
      Bid Item No. 104,114-115 and 122

2) Plan Sheet 7 of 89 provided has been marked-up to reflect the current scope. ALL other current plans and specifications provided have not been revised to show the changes described above. Bidder shall bid accordingly.

3) This will be a Lump Sum Contract.

4) This Subcontractor shall provide the work under this work package in accordance with the Contractor's current schedule, attached Attachment B. Currently, this schedule does not provide detail regarding the electrical work activities. As part of this work package, this Subcontractor shall cooperate with the Contractor to incorporate electrical work activities into the Contractor's schedule.

5) Furnish ALL submittals as required per the Contract Specifications. All submittals shall begin transmitting to the Contractor within fourteen (14) calendar days from the date of contract execution. If needed, re-submittals shall be transmitted within seven (7) calendar days from the rejection notice.

6) Subcontractor is responsible for purchasing, procuring, and supplying all materials needed to complete the work, including all design and/or permits.

7) Subcontractor is advised that this Project has special conditions to schedule, and 660 parking stalls shall be available to the owner by June 28th, 2022.

/
/
/
/

8) Contractor will provide a small storage area adjacent to Contractor laydown yard for material and equipment storage. Subcontractor shall keep material in an organized manner and keep it free of trash and debris. See Attachment C.

9) Contractor will provide a small parking area adjacent to Contractor laydown area for subcontractor parking. Subcontractor employees will park at their own risk. See Attachment C.

10) The Subcontractor shall comply with the Contractor's approved SWPP developed for the Project.

11) Subcontractor is responsible for providing fall protection, personal protective equipment (P.P.E), and meeting all applicable safety requirements for its own employees.

12) Subcontractor is responsible for its own dust control and shall remove dust and debris from all work areas at the end of the shift.

13) Subcontractor is responsible for the protection of existing facilities, pedestrians, and vehicles from its own work.

SCHEDULE OF VALUES:

Bid Proposal of (Firm Legal Name): **Rural Electric, Inc.**

The Proposer shall furnish a price for each line item in the table below. Do NOT leave any line item blank. Should the total proposed price be blank, the Proposal may be considered non-responsive unless the proposed price total can be calculated from the information available. Mathematical errors will be corrected if, and only if, the solution is self-evident.

Item No.	Description	Qty.	U.O.M.	Unit Price	Total
1	Mobilization	1	LS	$ 35,200.00	$ 35,200.00
2	Light Base Removal	1	LS	$ 1,785.00	$ 1,785.00
3	Sch 40 PVC Conduit	1	LS	$ 77,875.00	$ 77,875.00
4	Tench and Backfill – Slurry Encased	1	LS	$ 135,020.00	$ 135,020.00
5	Trench and Backfill – Direct Buried	1	LS	$ 0.00	$ 0.00
6	Pullbox Furnished and Installed #5	1	LS	$ 36,800.00	$ 36,800.00
7	Existing Pullbox #5 adjusted to grade	1	LS	$ 4,420.00	$ 4,420.00
8	Stranded Copper Wire	1	LS	$ 76,616.00	$ 76,616.00
9	20A GFCI Duplex Receptacle	1	LS	$ 0.00	$ 0.00
10	Lighting Fixture Schedule Item “E”	1	LS	$ 0.00	$ 0.00
11	Lighting Fixture Schedule Item “A”	1	LS	$ 84,400.00	$ 84,400.00
12	Lighting Fixture Schedule Item “D”	1	LS	$ 234,700.00	$ 234,700.00
13	Inner Duct – Maxcell (1) 2” 3 Cell	1	LS	$ 14,720.00	$ 14,720.00
14	Axis Q 6035-C	1	LS	$ 0.00	$ 0.00
15	Axis Q1755	1	LS	$ 0.00	$ 0.00
16	Code Blue CB-8	1	LS	$ 0.00	$ 0.00
	Total Lump Sum Price:		L.S.		$ **701,536.00**

Total Lump Sum Price amount used as the basis for determining the value of this bid proposal.

Note - Bid items 9, 10, 14, 15 & 16 are excluded. The conduits for this items are included in bid item 3. These conduits area stubbed into UG pull boxes.

Board Action Item

Re: Resolution 22-17

To:	**Board of Directors**
From:	**Margi EvanSon, Operations & Maintenance Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**ARFF Services IGA**
Date:	**April 19, 2022**

Proposed Motion

To authorize the Intergovernmental Agreement (IGA) with the City of Mesa for Aircraft Rescue and Firefighting Services, in an amount not to exceed $1,556,752 for one-year effective July 1, 2022, with two optional one-year renewals not to exceed $1,633,872 and $1,714,826 respectively each year.

Narrative

The Phoenix-Mesa Gateway Airport Authority (PMGAA or Airport) contracts with the City of Mesa (Mesa or Mesa Fire) to provide aircraft rescue and fire-fighting services. Both entities have determined that it is mutually beneficial for Mesa Fire to provide aircraft rescue and firefighting services (ARFF) for PMGAA for one year with two optional one-year renewals.

Arizona Revised Statute (A.R.S.), 11-951 et seq., authorizes Mesa and the Airport to enter into intergovernmental agreements for the provision of services, or for joint or cooperative actions. The agreement shall commence on July 1, 2022, and shall continue until June 30, 2023, unless terminated, cancelled, or extended pursuant to the provisions of the Agreement.

Fiscal Impact

This agreement was included in the FY23 operating budget and is funded under Contractual Services: Fire.

Attachment(s)

IGA

RESOLUTION NO. 22-17

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize the Intergovernmental Agreement (IGA) with the City of Mesa for Aircraft Rescue and Firefighting Services, in an amount not to exceed $1,556,752 for one-year effective July 1, 2022, with two optional one-year renewals not to exceed $1,633,872 and $1,714,826 respectively each year.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes the Intergovernmental Agreement (IGA) with the City of Mesa for Aircraft Rescue and Firefighting Services, in an amount not to exceed $1,556,752 for one-year effective July 1, 2022, with two optional one-year renewals not to exceed $1,633,872 and $1,714,826 respectively each year. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 19th day of April, 2022.

John Giles, Chair

ATTEST:

Misty Johnson, Clerk of the Board

APPROVED AS TO FORM:

Jill Casson Owen, Attorney

THE CITY OF MESA AND THE PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
INTERGOVERNMENTAL AGREEMENT
FOR
AIRCRAFT RESCUE AND FIREFIGHTING (ARFF) SERVICES

This Intergovernmental Agreement ("Agreement") is entered into this ___ day of _____, 2022. between the City of Mesa, an Arizona municipal corporation (the "City"), and Phoenix-Mesa Gateway Airport Authority, an Arizona joint powers airport authority ("PMGAA") (individually, a "Party" and, jointly, the "Parties").

RECITALS

WHEREAS, Arizona Revised Statutes, Sections 11-951 et seq., authorizes PMGAA and the City to enter into intergovernmental agreements for the provision of services, or for joint or cooperative actions; and

WHEREAS, the Parties have determined that it would be mutually beneficial for City to provide Aircraft Rescue and Firefighting services for the PMGAA,

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements contained in this Agreement, the Parties hereby agree as follows:

SECTION 1 – TERM AND TERMINATION

1.1 Term. The term of this Agreement ("Term") shall be one (1) year commencing on July 1, 2022 and continuing until June 30, 2023, unless sooner terminated pursuant to the provisions hereof. The Term may be extended for two additional one-year periods by PMGAA providing written notice of its desire to extend the Agreement at least ninety (90) days prior to expiration of the Term and the Parties' written and signed agreement to such extension.

1.2 Termination.

a. Without Cause. Either the City or PMGAA may terminate this Agreement without cause by providing at least 180 days written notice to the non-terminating Party.

b. For Cause. In the event of a material breach of any of the provisions of this Agreement, the non-breaching Party may terminate this Agreement by delivering written notice to the Party in breach specifically stating the nature of the breach. Upon receipt of such notice, the Party in breach shall have 60 days in which to cure said breach. If said breach has not been cured within this 60-day time period, this Agreement shall be terminated on expiration of the 60-day time period without further action.

c. Cease or Reduction of Air Carrier Operations. In the event that air carrier scheduled operations, as defined in Federal Aviation Regulation Part 139, cease, PMGAA may terminate this Agreement with 30 days written notice. In the event that air carrier scheduled operations are reduced thereby affecting the Index Requirements, the terms of this

Agreement may be renegotiated to implement any appropriate reduction in required firefighting services under this Agreement at PMGAA's request with 30 days written notice.

SECTION 2 – DEFINITIONS

2.1 Agreement. As used herein, the term Agreement includes the exhibits attached hereto and incorporated herein by this reference.

2.2 Airport. Phoenix-Mesa Gateway Airport in Mesa, Arizona.

2.3 Airport Property – Airport Property is that property owned and operated by PMGAA and further depicted and described on the map attached as Exhibit C hereto. The term "Airport Property" is interchangeable with the terms "on the Airport" or "at the Airport".

2.4 ARFF certified – Personnel who have received training by a qualified trainer to comply with, at a minimum, the ARFF qualifications and training requirements of the Federal Aviation Administration ("FAA"), Federal Aviation Regulations ("FAR") set forth in Part 139 of the Code of Federal Regulations. Airfield Driver and Security Identification Display Area training specific to Phoenix-Mesa Gateway Airport is also required.

2.5 ARFF Certified Firefighter/ARFF Certified Captain – a City Firefighter or City Captain who has undergone ARFF Certification as well as training requirements of the National Fire Prevention Association standards and the City's standards for fire fighters.

2.6 Center of the Airport – The Center of the Airport is noted in Exhibit C as the "IWA VORTAC" and shall be used to determine a five-mile radius of the Airport.

2.7 Dedicated ARFF equipment - ARFF equipment that is acquired by PMGAA. At a minimum, this equipment shall remain on the Airport Property at all times unless (i) it is being used to respond to an Alert III (aircraft crash) within a five-mile radius of the Center of the Airport, (ii) it is being sent in for maintenance as described in the most current Intergovernmental Agreement for Fire Vehicles and Equipment Maintenance Services.

2.8 Dedicated ARFF personnel – One (1) ARFF certified Captain and one (1) certified Firefighter who are assigned to ARFF duties at Phoenix-Mesa Gateway Airport. A minimum of two (2) ARFF certified firefighters shall be present on the Airport Property at all times unless responding to an Alert III (aircraft crash) within a five-mile radius of the Center of the Airport.

2.9 Fiscal Period – A time period beginning on July 1 and ending June 30, during each 12 month period.

2.10 Index Requirements - The requirements for the Airport under the current ARFF Index under FAR Part 139.

2.11 PMGAA Director – Operations and Maintenance – The Director – Operations and Maintenance of PMGAA or his/her designee.

SECTION 3 – RESPONSIBILITIES AND OBLIGATIONS

3.1 Responsibilities and Obligations of PMGAA:

a. PMGAA shall acquire and maintain sufficient ARFF firefighting vehicles at the Airport to meet the Index Requirements.

b. PMGAA shall pay, in twelve equal installments, a rate that is equivalent to the salaries, benefits, training, and overhead for a minimum of three full-time equivalent (3 FTE) ARFF certified Captains and four point five full-time equivalent (4.5 FTE) ARFF certified firefighters, all of which are current in basic emergency medical services to provide 24-hour coverage at the Airport. Rates are established and set forth in Exhibit A and are payable as follows:

(i) During the period from July 1, 2022 to June 30, 2023, PMGAA shall pay the City the total sum of $1,556,752 (personnel costs plus training costs) in twelve equal installments of one hundred twenty-nine thousand seven hundred twenty-nine dollars and thirty-three cents ($129,729.33) for ARFF services.

(ii) For fiscal periods subsequent to June 30, 2023, the amounts set forth in Exhibit A may be increased by an amount equal to that authorized by the City for annual salary increases, but in no case may exceed 5% per year, unless otherwise amended in writing by the parties hereto. All such requested increases shall be documented in writing by City prior to the commencement of the new fiscal period.

(iii) In the event that commercial airline passenger service or FAA regulations change to affect the Index Requirements, the Parties agree to amend this Agreement to reflect such changed requirements.

c. PMGAA shall communicate any changes in the Index Requirements to the City Fire Department promptly upon determination of any such change.

d. PMGAA shall pay the City for all ARFF training, as required under FAR Part 139, for dedicated ARFF personnel. The flat fee of the training is set forth in Exhibit B.

e. PMGAA shall acquire and maintain one (1) aviation radio for each ARFF firefighting vehicle based at the Airport and replace such radios as necessary to maintain them in working order.

3.2 Responsibilities and obligations of the City:

a. The City shall provide Dedicated ARFF personnel, as provided in Section 2.8, based at Phoenix-Mesa Gateway Airport, covering 24 hours per day.

b. The City shall provide or obtain the necessary ARFF training and certification for its personnel, as provided in Section 2.4 hereof, prior to assigning a firefighter to ARFF duties at the Airport.

c. Dedicated ARFF personnel and equipment shall respond to:

i. Dispatched actual and/or potential aircraft alerts, crashes, fires or medical assistance on the Airport Property;
ii. Aircraft crashes within a five-mile radius of the Center of the Airport;
iii. Triennial Full Scale Exercises and periodic response drills, including planning, coordinating, and participating;
iv. Spills of fuel or hazardous materials on the Airport Property; and
v. Any other emergency on the Airport Property, when requested to do so by the PMGAA Director– Operations and Maintenance, their designee, or the air traffic control tower staff or as required by the City's Fire Department Alarm Room.

d. The City shall maintain accurate and complete records of all training given to each ARFF certified firefighter, in the manner required by FAR Part 139. Additionally, the City shall maintain records of, including but not limited to, all accidents, incidents, safety inspections and safety violations related to ARFF at the Airport. Such records, including investigative analysis, shall be made available to PMGAA staff and the FAA upon request.

d. The City shall immediately notify the PMGAA Director – Operations and Maintenance or their designee any time it is anticipated or determined that the requirements of this Agreement may not be, or are not being, complied with.

e. In the event that an emergency incident at the airport causes PMGAA to temporarily fall below the Index Requirements and an operation requiring said Index is scheduled, the City shall make reasonable efforts to provide additional equipment for the duration of that operation as required pursuant to FAR Part 139. Requests for additional ARFF equipment above the Airport Index Requirements shall be fulfilled if equipment is available and reimbursed according to the published rates outlined in the most current Intergovernmental Agreement for Fire Vehicles and Equipment Maintenance Services.

f. In the event the Airport utilizes City equipment to maintain the published ARFF Index or to provide enhanced ARFF Index services in support of aircraft operations, PMGAA shall reimburse the City as described in the most current Intergovernmental Agreement for Fire Vehicles and Equipment Maintenance Services.

g. The City shall immediately notify the PMGAA Director - Operations and Maintenance, or their designee, when dedicated ARFF personnel and/or equipment have been dispatched off-airport as contemplated by Section 3.2b(ii) hereof.

h. The City is responsible for acquiring and maintaining one City dual band radio in each ARFF vehicle based at the Airport.

SECTION 4 – INSURANCE AND INDEMNIFICATION

4.1. Insurance. The City shall, at its sole cost and expense, purchase and maintain the following types and limits of insurance, in the form specified below:

a. Coverage Requirements:

i. Comprehensive Automobile Liability insurance in an amount not less than $5,000,000 combined single limit, covering all owned, non-owned and hired vehicles operated on the Airport that are assigned to or used in the performance of its activities or are operated within the air operations area (AOA) of the Airport.

ii. Workers' Compensation insurance as required by-law, and Employer's Liability insurance in an amount not less than $1,000,000 covering work-related injuries to City employees assigned to or working at or on the Airport.

iii. General Commercial Liability insurance in an amount not less than $5,000,000 per occurrence, to cover any claim arising from negligence or misconduct of its employees in providing the services and related activities described herein.

b. Form. Each insurance policy obtained pursuant to this Section 4.1, except for Workers' Compensation and Employer's Liability policies, shall: (i) name PMGAA as an additional named insured; (ii) contain a provision that written notice of cancellation or modification thereof shall be given to PMGAA not less than THIRTY (30) days before such cancellation or modification takes effect (TEN (10) days in case of nonpayment of premium); and (iii) contain a waiver of subrogation in favor of PMGAA. City shall not permit any insurance policy to be canceled or modified without PMGAA's written consent unless equivalent replacement policies are issued with no lapse in coverage. All policies shall be obtained from insurance companies licensed to do business in the State of Arizona and possessing a rating of at least A – VII or higher from the A.M. Best Company, or an equivalent rating and approved by PMGAA.

c. Certificates in Insurance. City shall deliver a certificate of insurance for each policy to PMGAA, in standard Acord format, prior to the Effective Date and continue to provide such certificate throughout the term of this Agreement

d. Blanket and Self-Insurance. City's insurance obligations under this Agreement may be satisfied by means of "blanket" or excess policies, or through self-insurance. If any or all limits of coverage, as specified in Section 4.1.1 herein, are provided via self-insurance, the City shall provide PMGAA a written acknowledgement of such self-insurance, and its responsibility to hold PMGAA harmless from acts and/or omissions of City's personnel up to and including the limits of such declared self-insurance coverage.

4.2. Indemnification.

a. To the fullest extent permitted by law, the City hereby agrees to defend, indemnify and hold harmless PMGAA and its members, elected or appointed officials, agents, contractors, subcontractors, boards, commissions and employees (hereinafter referred to collectively as "PMGAA" for purposes of this Section 4.2) for, from and against any and all claims, causes of action, liability, suits, litigation (including reasonable attorney's fees and other costs of investigation and litigation), actions, losses, damages or claims of any nature whatsoever which arise out of or in connection with (i) any negligent act or omission of the City or its agents, employees, contractors, or subcontractors (hereinafter referred to collectively as the "City" for purposes of this Section 4.2) in connection with the City's operations hereunder and which result directly or indirectly in the injury to or death of any persons or the damage to or loss of any property, or (ii) the failure of the City to comply with any provisions of this

Agreement. This indemnification shall exclude responsibility for any consequential damages of PMGAA and for claims arising by reason of the negligent or wrongful act of PMGAA or its employees, contractors or agents.

b. PMGAA shall defend, indemnify, and hold harmless the City, its officers, agents, employees, elected officials, and volunteers, for, from, and against any and all claims, causes of action, liability, suits, litigation (including reasonable attorney's fees and other costs of investigation and litigation), actions, losses, damages or claims of any nature whatsoever which arise out of or in connection with (i) any negligent act or omission or willful misconduct of PMGAA while performing this Agreement, or (ii) the failure of PMGAA to comply with any provisions in this Agreement. PMGAA shall continue in effect during the term of this Agreement, an Airport Liability insurance policy in an amount approved by the PMGAA Board of Directors, including premises liability, bodily injury, and property damage, and shall name the City of Mesa as Named Insured under this policy.

SECTION 5 - MISCELLANEOUS

5.1 Funding. Each Party shall have the separate and independent responsibility for budgeting for and funding its own participation in this Agreement, and this Agreement is subject to the availability of funds either appropriated, budgeted, or made available to the Parties hereto. In the event of a lack of funds being available, either Party may terminate this Agreement as is set forth in Section 1.

5.2 A.R.S. §38-511. As provided in Section 38-511 of the Arizona Revised Statutes, the City or PMGAA may cancel any contract to which it is a party within three (3) years after the execution thereof without penalty or further obligation, if any person significantly involved in initiating, negotiating, securing, drafting or creating the contract on behalf of the Party so canceling is, at any time while the contract or any extension thereof is in effect, an employee or agent of the other Party to the contract in any capacity or a consultant to the other Party to the contract with respect to the subject matter of the contract.

5.3 Filing. An executed copy of this Agreement shall be filed with the Maricopa County Recorder.

5.4 Entire Agreement. This Agreement constitutes the entire agreement between PMGAA and the City with respect to the subject matter hereof and supersedes the Intergovernmental Agreement entered into by the parties on July 1, 2019. This Agreement further supersedes any other oral or written representations, understandings or agreements relating to the subject matter hereof.

5.5 Amendments. This Agreement may be modified only by a written amendment approved by the City Council and Board of Directors of PMGAA pursuant to A.R.S. 11-952.

5.6 Assignment. Neither Party shall assign or otherwise transfer this Agreement, in whole or in part, without the prior written consent of the other Party. Any such assignment or other transfer, either voluntary or by operation of law, without such consent is void.

5.7 Waiver. The parties agree that no waiver of any default or breach of any of the terms or conditions of this Agreement shall be construed to be a waiver of any other or succeeding breach or default.

5.8 Governing Law. This Agreement shall be governed and construed in accordance with the laws of the State of Arizona, both as to interpretation and performance. Any action at law, suit in equity or judicial proceeding for the enforcement of this Agreement or any provision thereof shall be instituted only in the Federal or state courts in the State of Arizona.

5.9 Severability. If any term, covenant, condition or provision of this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the remainder of this Agreement shall, to the extent possible, remain in full force and effect and shall in no way be affected, impaired or invalidated.

5.10 Non-Discrimination. The City and PMGAA agree to comply with all provisions of applicable Federal, state, and local laws related to nondiscrimination and equal employment opportunity, including the Americans with Disabilities Act.

5.11 E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. § 41-4401, the Parties warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-Verify requirements under Ariz. Rev. Stat. § 23-214(A). Either Party's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the other Party.

5.12 **[Reserved]**

5.13 No Partnership. Nothing contained in this Agreement shall create any partnership, joint venture or common enterprise between the Parties. Except as specifically provided herein, each Party shall at all times be an independent operator and shall not at any time purport to act as the agent of the other Party, or any of its officers or agents.

5.14 Force Majeure. Either Party shall be excused for delay or failure to perform its obligations pursuant to this Agreement, in whole or in part, if and to the extent such delay or failure is a result of causes beyond the reasonable control and without the fault or negligence of the Party unable to perform. Such causes include, without limitation, acts of God, acts of the public enemy, terrorism, acts of the United States government, floods, epidemics, quarantine restrictions or embargoes, and shortages of labor or materials.

5.15 Surviving Provisions. The obligations contained in Section 4 (Insurance) shall survive the expiration or other termination of this Agreement.

5.16 All notices to be given pursuant to this Agreement shall be in writing and shall be delivered in person or sent by regular mail as follows:

MESA: City Manager's Office
City of Mesa
20 East Main Street, Suite 750
P.O. Box 1466
Mesa, AZ 85211-1466

PHOENIX-MESA
GATEWAY: Executive Director
Phoenix-Mesa Gateway Airport Authority
5835 S. Sossaman Road
Mesa, AZ 85212- 0919

All notices shall be deemed to be received upon actual receipt or five (5) working days after the notice has been deposited with a U.S. post office for delivery to the address set forth above, whichever occurs first.

IN WITNESS WHEREOF, the parties have executed this Agreement on the date and year first written above.

Exhibit A

Personnel Cost

Total FY 2023 (July 1, 2022 – June 30, 2023) Personnel Cost: $ 1,520,852.

Personnel Cost consists of Salary and Benefits plus the estimated hourly cost to backfill ARFF staffing absences during training and personnel time off (aka: minimum staffing backfill).

Annual Pay Increase:
All such requested increases shall be documented in writing by City prior to the commencement of the new fiscal period.

For fiscal periods subsequent to June 30, 2023, salary amounts increase by an amount equal to that authorized by the City for annual salary increases, but in no case may exceed 5% per year, unless otherwise amended in writing by the parties hereto.

Salary and Benefits – (budgetary estimate of 5% increase after FY2022)
FY23: 1,373,126
FY24: 1,441,782
FY25: 1,513,871

Minimum Staffing Backfill – (budgetary estimate of 5% increase after FY2022)
FY23: 147,726
FY24: 155,112
FY25: 162,868

Exhibit B

Initial and Annual Live Burn Training Cost Estimate (as required by FAR 139)

Total FY 2022 (July 1, 2022 – June 30, 2023) Training cost $ 35,900.00

Training costs to include the initial and annual live burn trainings. Constant staffing for this training is covered in exhibit A. Required training consists of local live burn and training at a certified live burn facility in alternating years for Dedicated ARFF Personnel and up to 2 alternates for constant staffing purposes. Training costs include expenses for travel to live burn facilities located out-of-state.

For fiscal periods subsequent to June 30, 2023, the amounts set forth in this exhibit may be increased by the 12-month percentage change of the Consumer Price Index for all items as of June 1 in each fiscal period, not to exceed 3 percent. All such requested increases shall be documented in writing by City prior to the commencement of the new fiscal period.

Re: Solicitation Notification
Date: **April 19, 2022**

This report is to provide notification of the active and upcoming solicitations to help ensure compliance with the Phoenix-Mesa Gateway Airport Authority procurement transparency clause. The active activities include the following:

Active/Pending Solicitations

Type Solicitation	Number	Title	Anticipated Contract Award (Board Action)
Request for Proposals	2022-014--RFP	Revenue Parking Operations	April 2022
Request for Qualifications	2022-020-RFQ	CMAR for Rental Car Care Facility Improvements	April 2022
Request for Qualifications	2022-013-RFQ	On-Call Cultural / Archeological Services	May 2022
Request for Proposals	2022-015-RFP	Herbicide Application Services	May 2022
Request for Proposals	2022-016-RFP	Landscape Maintenance Services	May 2022

Future Solicitations

Type Solicitation	Number	Title	Scheduled for Release	Anticipated Contract Award (Board Action)
Invitation for Bid	2022-004-IFB	Taxiway W Rehabilitation	April 2022	June 2022
Invitation for Bid	2022-017-IFB	Rwy 12C/30C Reconstruct	April 2022	June 2022
Invitation for Bid	2022-022-IFB	Taxiway Connectors & Access Road & Utilities	April 2022	June 2022
Request for Proposals	2022-023-RFP	Security Services	April 2022	July 2022
Invitation for Bid	2022-021-IFB	Alpha Apron Phase IV	May 2022	July 2022
Request for Qualifications	2022-005-RFQ	Fabrication and Installation of Signs	May 2022	July 2022

Fiscal year totals from sales of decommissioned / nonworking equipment total $7,350.

If you have any questions about the solicitations or the procurement process, please feel free to contact me at 480-988-7613.

Re: **Project 1098, Cell Phone and Terminal Employee Parking Lots Change Orders**
Date: **April 19, 2022**

On June 15, 2021, the Board approved a contract for the Cell Phone and Terminal Employee Parking Lots project with Ace Asphalt of Arizona, now doing business as Sunland Asphalt, resolution #21-24, in the amount of $604,733.79. The total available budget is $700,000. Since the project has been underway, Airport staff has issued two change orders against the contract for required modifications.

Change order #1: addition $ 6,507.16

Way finding signs added to the scope of work in order to get Airport customers, taxi drivers, and TNCs directed to the new location. Electrical boring needed due to unforeseen issues with a crushed conduit intended for use. Entry/Exit devices removed to not conflict with the PARCS project.

Change order #2: addition $40,357.99

Installation of an additional light pole for safety, relocation of Airforce remediation temporary fence to acquire more parking spaces, installed signage needed to direct employees, relocation of parking stops as well as the removal of any broken parking stops.

Total Revised Project Amount $651,598.94

The current remaining budget unencumbered for the project after all charges and the above change orders is $28,760.54. This project has been completed and closed by Airport staff.

To: **Board of Directors**
From: **J. Brian O'Neill, A.A.E., Executive Director/CEO**
Re: **Weighted Voting Rights Related to the Amended and Restated Joint Powers Airport Authority Agreement**
Date: **April 19, 2022**

The Voting Rights (Section 8) of the Phoenix-Mesa Gateway Airport Authority Amended and Restated Joint Powers Airport Authority Agreement (Agreement) defines Member Government (Member) voting rights and weighted voting rights. Per the Agreement, each Member is entitled to a weighted vote equal to that Member's *cumulative investment* as a percentage of the total investment made by all current Members since 1993.

When utilizing a weighted vote, should any one Member's weighted vote calculated under the Voting Rights Section exceed 50%, then the weighted vote for that Member shall be deemed equal to the sum of the weighted vote of all the other Members combined. However, the weighted votes of all the Members combined must be adjusted so that the total weighted vote calculation equals 100%. As an example, if a Member's weighted vote is calculated at 68%, that Member's weighted vote would then be deemed to be 50%, with the remaining Members holding a proportionate share of the remaining 50% of the total weighted vote.

Based on the above criteria, the weighted vote calculation for fiscal year 2023 is as follows:

Member Government	Unweighted	Weighted
City of Mesa	64.76%	50.00%
City of Phoenix	17.34%	24.60%
Gila River Indian Community	7.99%	11.33%
Town of Gilbert	6.83%	9.69%
Town of Queen Creek	1.99%	2.83%
City of Apache Junction	1.09%	1.54%
Total	**100.00%**	**100.00%**

NOTICE AND AGENDA OF MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the members of the Phoenix-Mesa Gateway Airport Authority and to the public that the Phoenix-Mesa Gateway Airport Authority will hold a meeting open to the public on **Tuesday, May 17, 2022 beginning at 9:00 a.m.** in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

The agenda for the meeting is as follows:

1. **Call to Order** (Mayor John Giles, Chair)
   Members of the Phoenix-Mesa Gateway Airport Authority will attend either in person or via videoconference.

2. **Roll Call** (Mayor John Giles, Chair)

3. **Pledge of Allegiance**

4. **Motion to convene into Executive Session**
   Pursuant to A.R.S. § 38-431-03 (A)(7), the Board of Directors may convene into executive session for the purpose of discussion and consideration regarding the purchase, sale, or lease of real property and discussion and consideration of a real estate lease transaction.

5. **Motion to Reconvene into Regular Session**

6. **Call to the Public**
   Members of the Board may not discuss items that are not on the agenda. Therefore, action taken as a result of public comment will be limited to directing staff to study the matter or scheduling the matter for further consideration and decision at a later date. Maximum of three minutes per speaker.

7. **Executive Director's Report** - J. Brian O'Neill, A.A.E., Executive Director/CEO

8. **Gulfstream Presentation** – Shea Joachim, Business Development Director

9. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on April 19, 2022.

   b) **Resolution No. 22-18 –** Authorizing a contract with **Artistic Land Management, Inc.** for landscape maintenance services in an amount not to exceed $900,440.64 for five years which includes (2) one-year renewal options.

   c) **Resolution No. 22-19 –** Authorizing a contract with **AZ Weed King, Inc.** for herbicide application services in an amount not to exceed $425,773.24 for five years which includes (2) one-year options.

   d) **Resolution No. 22-20 –** Authorizing the First Amendment to the Land Lease dated November 1, 2018 with **L37, LLC** for lot #37 in order to add approximately 37,825.6 square feet to the Premises.

Consideration and Possible Approval of:

10. **Resolution No. 22-21 –** Authorizing a land lease with **Gulfstream Product Support Corporation** for a lot of land consisting of approximately 18.62 acres. The Initial Term is forty (40) years, commencing on May 17, 2022, with two (2) five-year Renewal Terms**.**

    Authorizing the Chair or the Executive Director/CEO to execute any and all other documents and instruments necessary and appropriate, in order to consummate the lease transaction and the Lessee's financing in conjunction therewith according to the terms and conditions set forth in the lease, including a consent to assignment and assumption and an owner's affidavit.

11. **Resolution No. 22-22 –** Authorizing an increase in the Airport Car Rental Customer Facility Charge (CFC) from $2.50 to $3.50 per vehicle per rental day effective August 1, 2022.

12. **Resolution No. 22-23 –** Authorizing a Professional Service Agreement for On-Call Cultural and Archaeological Services with **SWCA Environmental Consultants, Inc.** (SWCA), for the length of the base term of three years with two optional one-year extensions for various grant and non-grant projects**.**

13. **Resolution No. 22-24 –** Authorizing a contract with Republic Parking Systems, LLC (Republic Parking) to provide parking operations at a fixed management fee, in an amount not to exceed $1,571,468, for the length of the base term of three years, with two optional one-year extensions not to exceed $534,224 and $542,751 respectively. This amount does not include labor, which is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and will be adjusted on an annual basis:

Supervisors:	$26.77
Shuttle Drivers:	$24.98
Customer Service Representatives:	$21.19
Parking Attendants:	$21.19

14. **Board Member Comments/Announcements**

15. **Next Meeting: Tuesday, June 21, 2022 at 9:00 a.m.**

16. **Adjournment**

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Misty Johnson at 480-988-7607 or mrjohnson@gatewayairport.com. Requests should be made as early as possible to allow time to arrange the accommodation.

Phoenix-Mesa Gateway Airport

- New Air Traffic Control Tower Exterior Complete
- Two Important Infrastructure Projects Getting Underway
- Gateway Airport Sets All-Time Passenger Activity Record
- PMGAA to Update Planning for East Side Commercial Passenger Terminal

Executive Director's Report

May 2022

Financial Snapshot

OPERATING INCOME	March		Month Variance	FYTD Comparison		FYTD Variance
	2021	2022		FY21	FY22	
Revenues	$2,040,061	$2,558,102	**$518,041**	$16,355,805	$18,965,333	$2,609,528
Less Expenses	$1,626,991	$1,984,011	**$357,020**	$14,261,664	$16,425,464	$2,163,800
Operating Income *(Before Depreciation)*	**$413,070**	**$574,091**	**$161,021**	**$2,094,141**	**$2,539,869**	**$445,728**

Investment Fund Balances: As of March, the Local Governmental Investment Pool (LGIP) 700 = $18,739,322; Wells Fargo; Collateralized Money Market = $244,826 and Collateralized CD's = $49,307,938; Total $68,292,086.

Finance and Accounting

Phoenix-Mesa Gateway Airport Authority (PMGAA) reported a net operating income of $574,091 in March 2022, and a fiscal-year-to-date 2022 (FYTD22) net operating income of $2,539,869. Aeronautical revenues in March were 18% higher than in March 2021. Overall, Aeronautical and Non-Aeronautical revenues continue to perform well compared to last year due to increased passenger activity and related revenues.

This winter, Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) had five airlines offering nonstop service to approximately 60 destinations across the U.S. and Canada. In March, the Airport welcomed just shy of 240,000 total passengers, an all-time record high for commercial passenger activity at the Airport.

March 2022 operating expenditures exceeded budget estimates by 8%. Increased Cost of Goods Sold for fuel accounted for the full variance. FYTD expenditures are 5% under budgeted amounts.

PMGAA has been awarded an $8,222,781 grant from the American Rescue Plan Act (ARPA). To date, PMGAA has submitted reimbursement requests for $7,845,997.

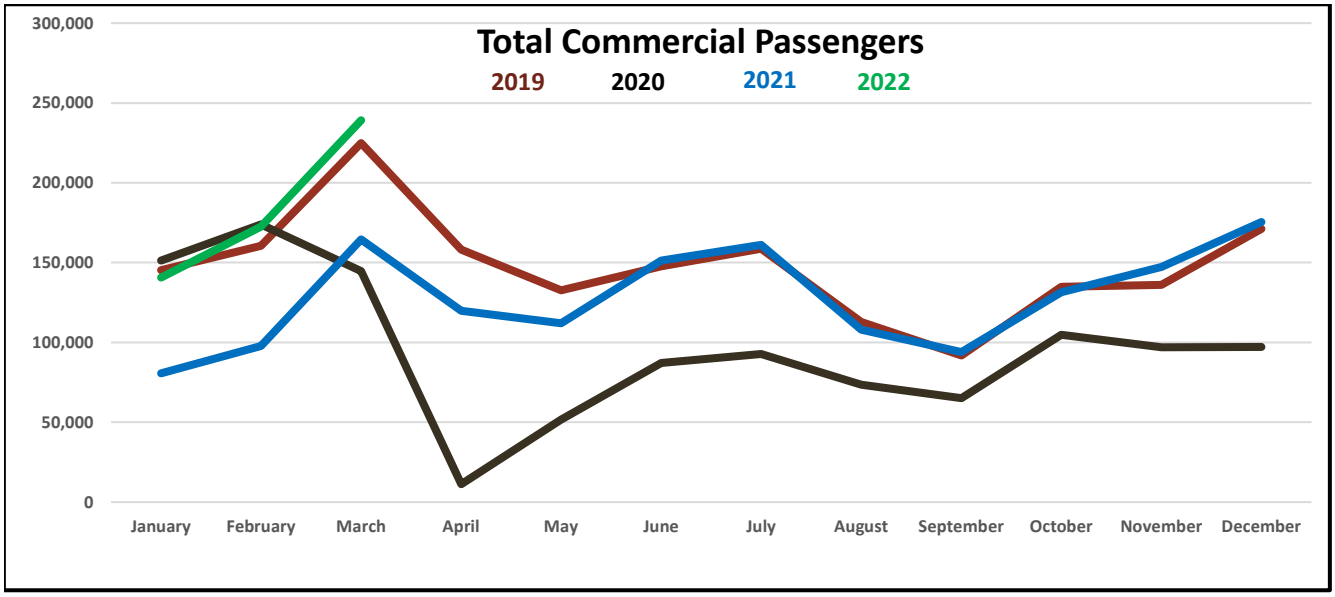
Airport Operations

ADOT Completing Pavement Condition Index (PCI) Evaluation at Gateway Airport

The Arizona Department of Transportation (ADOT) is updating its Airport Pavement Management System (APMS) at airports across the State. As part of this program, ADOT is conducting Pavement Condition Index (PCI) evaluations on all airside pavements – taxiways, runways, and other movement and non-movement areas. PCI is a numerical index between 0 and 100, which is used to indicate the general condition of pavement. The PCI is widely used by states, municipalities, and authorities to measure and calculate the performance of airfield infrastructure. PCI is a visual survey of the number, types, and severity of distresses in airfield pavement.

Gateway Airport Experiencing Record-Setting Commercial Passenger Activity



Winter is generally a very busy time at Gateway Airport, as sun-seeking visitors flock to the greater Phoenix Area for some much-needed respite from cold weather and snowy conditions back home. Cactus League baseball, golf, and hiking are just a few of the activities drawing record numbers of people to the Valley.

PMGAA Team Member Spotlight

Employee Name: **Mike Hanas**
Employee Title: **Project Coordinator**
PMGAA Department: **Engineering and Facilities**
Years with PMGAA: **17**

What are your job responsibilities for PMGAA? I am responsible for providing oversight of capital improvement and tenant construction projects from concept development, through design and construction, and into project closeout. I am directly involved in the growth of the Airport which is quite exciting and have frequent interactions with other PMGAA staff members, Serco air traffic controllers, the City of Mesa, and the FAA.

What is your most memorable Gateway Airport moment? I was once tasked with providing information and a site tour to the U.S. Secret Service in preparation for a visit by President Obama in 2012. It was quite exciting to assist in planning a Presidential visit. A very close second has been the privilege of being a team member on the new Air Traffic Control Tower project, an opportunity I will not forget.

What is something people may not know about you? I am an avid rail fan and have had a fascination for railroads as long as I can remember. In 2015, I was fortunate enough to get a ride with my dad in the lead engine cab of the Royal Gorge Route Railroad in Colorado, a memory I will cherish forever.

Engineering and Planning

New Air Traffic Control Tower Exterior Complete

PMGAA continues to make great progress on the construction of its new Air Traffic Control Tower (Tower, ATCT). The exterior elevator, scaffolding, and blue construction barrier have all been removed and the impressive monument for the Phoenix East Valley has finally been unveiled. The new ATCT is approximately 50% taller than the current Tower and its cab is 100% larger, with eight controller positions.

Site work, FAA equipment installation, and interior finishes are still ongoing. The new Tower is scheduled to be completed later this summer, with its commissioning occurring in the fall of 2022.

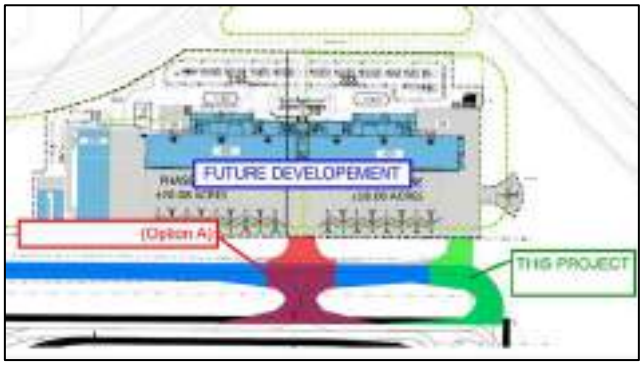
Conceptual Design

During Construction

Exterior Complete

Two East Side Infrastructure Projects Currently Underway

Gateway Blvd. and Aviation Way Design



Gulfstream Taxiway Connector Design

As a flurry of private development continues on the west side of the airfield, two important infrastructure projects are getting underway that are designed to unlock the east side of the Airport for future development. The first project is being completed by the City of Mesa and consists of 1,000 linear feet of a new "spine road" named Gateway Blvd. that bisects the 700-acre site, a box culvert over the Ellsworth Channel at the new Williams Field Road/Ellsworth Road intersection, and a variety of utilities.

The second project, which is the responsibility of PMGAA, is a taxiway connector from Taxiway Charlie into the new Gulfstream Aerospace site. This improvement project will provide airfield access for Gulfstream's new 225,000 SF West Coast Service Center.

PMGAA to Update Planning for East Side Commercial Passenger Terminal

In June 2012, PMGAA released a document called **Gateway 2030,** a planning exercise that included PMGAA member communities and other key stakeholders that focused on the eventual development of the east side of Gateway Airport. The goal was to set a big, shared vision for what the Airport could become in the future. Well, much has changed during the past decade – the continued transformation of Gateway Airport, planning for the new Gateway***East*** master development, and tremendous residential and commercial growth across the entire Phoenix East Valley. Although a relocation to the east side may still be outside the next 5 – 10-year planning horizon, PMGAA believes there is value in validating and updating our planning for an east side commercial passenger terminal. What needs to be built? What's it going to cost? How do we pay for it? Is a move to the east side feasible?

PMGAA is launching a new planning initiative called **Gateway Tomorrow**. This inclusive, long-range planning exercise will consider, refocus, and build upon past planning efforts using recent data and updated information about the region, Gateway Airport, the aviation industry, and current global economic conditions. The PMGAA Board of Directors, staff, member communities, and key stakeholders will once again be invited and encouraged to participate during every step of the process. The goal of **Gateway Tomorrow** is to reset our shared vision, establish expectations, and identify the important operational and financial metrics that could trigger development of a new commercial passenger terminal on the east side of the Airport.

Gateway Aviation Services

Airport Pumps Over Two Million Gallons of Aviation Fuel During March!

For only the fourth time in the Airport's history, Gateway Aviation Services (GAS), the PMGAA owned and operated fixed base operator (FBO), pumped over two million gallons (2,127,570) of aviation fuel during the month. FYTD22, GAS has pumped 14,875,237 gallons of fuel into a variety of commercial, corporate, military, cargo, and general aviation aircraft; a 3% increase over the same time period last year.

The U.S. Forest Service is ramping up activity ahead of this year's wildfire season in Arizona. GAS is ready to provide fuel, aircraft parking, and other services to assist these brave aerial firefighters as they work to combat wildfires, save lives, and protect vulnerable structures across the region.

FUEL (Gallons)	March			FYTD

Community Noise Report

During the month of March 2022, PMGAA received aircraft noise calls from a total of 11 area residents, compared to the 20 received from callers during March 2021. Growing airports can generate aircraft noise concerns within the regions they serve. Gateway Airport works closely with elected officials, homeowners, and homeowner's associations (HOA) to answer questions and address issues raised regarding the Airport's operation.

Business Development

Gulfstream's Temporary Service Center at Gateway Airport

Gulfstream Expands Gateway Airport Presence

Gulfstream Aerospace Corporation has selected a contractor and plans to begin construction on their new 225,000 SF West Coast Service Center later in May. An industry leader in the business jet market, Gulfstream has leased a 50,000 SF hangar on the south end of Gateway Airport's airfield so they can begin servicing Gulfstream aircraft and hiring Arizona team members while their new facility is under construction. Welcome to the PMGAA family Gulfstream!

PMGAA Travels the Country Meeting with Companies Interested in Gateway Airport

Getting an existing company to relocate part or all of its operation to Gateway Airport is gratifying and an important part of regional economic sustainability. If successful in recruitment efforts, these companies bring high-wage jobs and new opportunities to the greater Phoenix area.

Each year, PMGAA staff travels the country meeting with prospective companies interested in learning more about Gateway Airport. These companies want to know about the local, regional, and state economy; the pipeline of qualified employees; and incentives being offered to make the relocation more attractive.

The State of Arizona does a good job promoting a "team approach" to corporate recruitment. Often times, PMGAA staff are joined by representatives from the Arizona Commerce Authority (ACA), the Greater Phoenix Economic Council (GPEC), and economic development professionals from area communities when making their Gateway Airport pitch.

PMGAA would like to thank all our business development partners for their continued efforts and support.

Promotional Materials Highlighting Opportunities for Companies Interested in Relocating to Gateway Airport

MINUTES OF PUBLIC MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS | April 19, 2022

A public meeting of the Phoenix-Mesa Gateway Airport Authority (PMGAA) was convened on Tuesday, April 19, 2022, beginning at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona.

Members Present

Mayor John Giles, Mesa
Councilmember Jim Waring, Phoenix (*via videoconference*)
Mayor Brigette Peterson, Gilbert
Mayor Chip Wilson, Apache Junction
Lt. Governor Monica Antone, Gila River Indian Community (*via videoconference*)
Mayor Gail Barney, Queen Creek *

** Neither present nor represented*

Airport Staff Present

J. Brian O'Neill, Executive Director/CEO
Scott Brownlee, Deputy Director/COO
Chuck Odom, CFO
Misty Johnson, Clerk of the Board
Jill Casson Owen, Attorney

1. **Call to Order** at 9:00 a.m. (Mayor Giles, Chair)

2. **Roll Call**

3. **Pledge of Allegiance**

4. **Call to the Public**
   There were no public comments.

5. **Executive Director's Report** – J. Brian O'Neill, A.A.E., Executive Director/CEO
   Executive Director O'Neill provided a briefing on PMGAA financial performance, passenger activity, the community noise report, and various Airport projects.

   - Fiscal Year-to-Date 2022 (FYTD22) Net Operating Income is $1,963,898.
   - Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) welcomed 172,575 commercial passengers during February 2022; a 77% increase in passengers compared to February 2021.
   - The Authority is conducting a Classification and Compensation Study to remain competitive in recruiting and retaining top talent. The last study was completed in 2014-2015.
   - Customer Facility Charge (CFC) funds are fees assessed to passengers renting cars at the Airport. The CFC amount is $2.50 per rental day. These funds go into a dedicated account and can only be used to improve the infrastructure and facilities for rental car operations. The Rental Car Return Lot and the Rental Car Care Center are two upcoming projects that will deplete the funds in the CFC account in addition to having the Airport loan money to this account to complete the projects. In May the Board will be asked to consider an increase to the CFC charges from $2.50 to $3.50 per rental day.
   - The Authority appreciates the exemplary service of Mesa Fire and Medical. On today's agenda, the Board is asked to consider extending the Intergovernmental Agreement with the City of

DRAFT

Mesa for Aircraft Rescue and Fire Fighting (ARFF) services for one year at over $1.5MM. The Authority will begin exploring all its options for providing (ARFF) services. This is a financial exercise to ensure PMGAA is getting the best deal for services rendered. Options include entering into a longer-term agreement with the City of Mesa, bringing ARFF services in house, or contracting with a 3rd party contractor or another area fire department at an annual fee of less than the $1.5MM.

- Gulfstream Aerospace Corporation (Gulfstream) is currently leasing a 50,000 SF hangar at the Airport while their new facility is being constructed. Negotiations continue on a land lease agreement with Gulfstream. This agreement is anticipated to be presented to the Board for their consideration at the May Board meeting.
- Gateway***East*** is a 400-acre mixed use non-aeronautical master development opportunity located on the east side of the Airport. The Boyer Company from Salt Lake City, Utah is working with the City of Mesa and the Authority on infrastructure needs to unlock the site. PMGAA is working with the developer to finalize negotiations on a master lease and master development agreement for the property. These agreements are anticipated to be presented to the Board for their consideration at the May Board meeting.
- Three hangars totaling 183,000 SF are under construction in the Gateway Executive Airpark located at the north end of the airfield. The first hangar will be available for lease later this summer. One company has expressed interest in taking all three hangars. If negotiations between the owner and the interested party are successful, hangars two and three will be built to meet the specific needs of the tenant.
- SkyBridge Arizona has received the necessary permits from the City of Mesa for their 127-room dual-brand hotel along Sossaman Road. SkyBridge Arizona hopes to begin construction during the spring/summer of 2022. Design for SkyBridge Arizona's horizontal infrastructure –taxi lane extension, entrance roadways, sewer, water, fiber, and other utilities – continues. The master development agreement with SkyBridge requires substantial completion of horizontal infrastructure by year seven. They are currently in year four of that agreement. SkyBridge Arizona is designing two additional industrial buildings. These two flex industrial buildings will be approximately 200,000 SF and 250,000 SF respectively. SkyBridge Arizona anticipates breaking ground on these two buildings in the fall of 2022.
- The exterior of the Air Traffic Control Tower (ATCT) is at substantial completion. Interior construction continues. Federal Aviation Administration (FAA) technicians have been onsite installing the cabling and equipment. The ATCT is on-track to be commissioned at the end of summer 2022.
- PMGAA staff has submitted a Bipartisan Infrastructure Law (BIL) grant application for the new 30,000 SF, five-gate terminal addition. PMGAA is hoping to secure a $20MM - $25MM grant from the Terminal Modernization Program to complete the important project.
- Director O'Neill acknowledged and thanked the City of Mesa for their partnership and their infrastructure investment of approximately $40MM to unlock the developable aeronautical and non-aeronautical land on the east side. The City is working closely with the Boyer Company and the GatewayEast development, and with Gulfstream for their 225,000 SF West Coast Service Center adjacent to Ellsworth Road. The first 1,000' of Gateway Boulevard and the interior road, Aviation Way will bring infrastructure and utilities to the east side of the Airport. PMGAA committed to construct a taxiway connector from Taxiway Charlie to the Gulfstream site.
- PMGAA has expanded aircraft parking opportunities for larger/heavier aircraft at the south end of the airfield. Alpha Apron Phase III is complete and in use. The Alpha Apron is located

adjacent to the U.S. Forest Service, who plans to use the new aircraft parking area during the 2022 wildfire season.

- The BIL also includes much-needed funding for other important Airport projects. PMGAA has received an additional $4.4MM for reconstruction of a portion of its Center Runway. PMGAA is working closely with its partners at the FAA to try and complete the runway reconstruction project in one year.
- PMGAA is improving the Rental Car Return Lot - re-designing traffic flow, expanding capacity, adding new facilities for the car rental companies, and erecting shade structures for customer convenience. PMGAA is also investing more than $5MM in CFC funds to improve the Rental Car Care Facility where all rental vehicles are maintained, washed, and vacuumed. These two projects will deplete the funds in the CFC account in addition to having the Airport loan money to the project. The requested increase to the CFC charges from $2.50 to $3.50 per rental day will help to quickly replenish this account and build a reserve for future projects.
- Unique circumstances this year including the fuel pipeline from California to Arizona shutting down, the fuel rack in Phoenix having periods of closure, and fuel trucking disruptions have led to challenges getting aviation fuel deliveries. PMGAA is expanding its fuel storage capacity to try and avert any negative impacts of future fuel delivery disruptions. Last month the Board approved Resolution 22-09 for the fuel farm expansion design. Current fuel storage is 250,000 gallons which is a 3-day supply and is susceptible to fuel delivery disruptions. The additional 4-day, 300,000 gallons in tank storage will provide a 7-day supply of 550,000 gallons to protect against operational failures due to fuel delivery disruptions.
- The Ray Road Economy Parking Lot Expansion is under construction. An additional 1300 parking spaces will be completed for the busy July travel period with ample parking going into this year's holiday season.

6. Allegiant Presentation – Michael Graci, Allegiant Manager of Airport Affairs

Mr. Graci provided a brief update on their business model as a leisure travel airline.

- Allegiant has placed an order for 50 Boeing 737 MAX aircrafts with options for 50 additional airplanes. The first ten will arrive in 2023 with the remainder being integrated into the fleet by the end of 2025. There is currently a combination of the Airbus A-319 and the A-320 totaling 108 in the fleet. Some of the Airbus planes have reached end of life and will be taken out of use.
- In December 2021, Allegiant and Viva Aerobus announce proposed plans for a fully integrated commercial alliance agreement. The expected timeline is subject to regulatory approval. The alliance will enable Allegiant, which does not currently fly to Mexico, to offer flights to Mexican leisure hotspots. Viva Aerobus will be able to add several routes to popular destinations in the U.S. where Allegiant has a strong presence. The two airlines will begin flying north and south of the border in January of 2023 pending Department of Transportation (DOT) approval. Allegiant will identify cities and airports for international travel. If it is a city that currently does not have a Federal Inspection Station (FIS), Mr. Graci will be speaking with the airport staff about the possibility for putting one in.
- Allegiant chairman and CEO Maurice Gallagher will hand the chief executive role to company president John Redmond on June 1st. Mr. Gallagher will continue as executive chairman, while Mr. Redmond will hold the CEO position alongside his title as president.

7. Consent Agenda

a) Minutes of the Board Meeting held on **March 15, 2022.**

b) **Resolution No. 22-10 –** Authorizing an increase for FY22 **City of Mesa Fire Aircraft Rescue and Fire Fighting** services in an amount not to exceed $28,434.

c) Resolution No. 22-11 – Approving an unscheduled 5% **cost of living adjustment** for the PMGAA Executive Director/CEO.

d) Resolution No. 22-12 – Authorizing the filing of **grant applications** including agreeing to all understandings and assurances contained therein; and, authorizing the acceptance and execution of any Federal Aviation Administration (FAA) or other Federal agency, State of Arizona, Arizona County or Arizona Local Municipal grant offer(s), applied for or received between July 1, 2022 and June 30, 2023 by the Chair of the Authority, the Executive Director/CEO, Deputy Director/COO or Chief Financial Officer/CFO.

e) Resolution No. 22-13 – Authorizing the procurement of wireless network equipment and software from **Enterprise Networks Solutions (ENS)** in an amount not to exceed $74,000.

f) Resolution No. 22-14 – Approving the amended and restated Phoenix-Mesa Gateway Airport Authority **Personnel Rules**.

g) Resolution No. 22-15 – Authorizing an increase to the annual contractual authority by $8,000 per year to cover the safety enhancements and the potential addition of Airport buildings not currently covered under the contract to the **Fire Protection Systems** in Airport Facilities.

Mayor Brigette Peterson moved to approve the Consent Agenda.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

Consideration and Possible Approval of:

8. Resolution No. 22-16 – Authorizing a change order for the final phase of the North Economy Parking Lot Expansion Construction Manager at Risk (CMAR) construction services contract with **Nesbitt Contracting Co.,** in an amount not to exceed $2,755,361.31.

Mayor Chip Wilson moved to approve Resolution No. 22-16.
Mayor Brigette Peterson seconded the motion.
The motion was carried unanimously.

9. Resolution No. 22-17 – Authorizing the Intergovernmental Agreement (IGA) with the **City of Mesa for Aircraft Rescue and Fire Fighting Services**, in an amount not to exceed $1,556,752 for one-year effective July 1, 2022, with two optional one-year renewals not to exceed $1,633,872 and $1,714,826 respectively each year**.**.

Mayor Brigette Peterson moved to approve Resolution No. 22-17.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

10. **Board Member Comments/Announcements.**
    There were no comments or announcements.

11. **Next Meeting: Tuesday, May 17, 2022** at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone/videoconference.

12. **Adjournment.**
    The meeting adjourned at 9:44 a.m.

Dated this _____ day of _____ 20___.

Board Action Item

Re: Resolution 22-18

To:	**Board of Directors**
From:	**Margi EvanSon, Operations & Maintenance Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Landscape Services**
Date:	**May 17, 2022**

Proposed Motion
To authorize a contract with Artistic Land Management, Inc. for landscape maintenance services in an amount not to exceed $900,440.64 for five years which includes (2) one-year renewal options.

Narrative
A primary function of Operations and Maintenance is to ensure an aesthetically pleasing environment for passengers, visitors, tenants and staff of the Airport. This contract covers landscape services for a total of 77.06 acres of Airport property including:

35.81 acres of Sossaman Rd median, parkways, PMGAA entryway, and the west retention area;
16.75 acres of parking lot areas;
5.9 acres of the Charles L. Williams terminal complex;
13.86 acres of tenant leased or potential tenant leased property;
2.96 acres of the General Aviation Center, Park and Administration Building;
1.78 acres comprising of the Fuel Farm & Air Traffic Control Tower

Request for Proposals 2022-016-RFP for Landscape Maintenance Services was issued on February 15, 2022. The RFP was advertised in the Arizona Business Gazette on February 17 and 24 and March 3 and 10, 2022 as well as emailed to a list of prospective respondents. In addition, the RFP was posted on the Arizona Airports Association and Airports Council International-North American websites.

PMGAA received proposals by the RFP deadline. The Evaluation Committee reviewed all proposals and determined the proposal from Artistic Land Management, Inc. best satisfied the detailed requirements of the RFP based on the award criteria. Artistic Land Management, Inc's experience, qualifications, and approach to the project offers the best overall service for PMGAA. In addition, Artistic Land Management offered the least expensive proposal.

Fiscal Impact
This contract was included in the FY23 operating budget for the Operations and Maintenance Department.

Attachment(s)
Contract

RESOLUTION NO. 22-18

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize a contract with Artistic Land Management, Inc. for landscape maintenance services in an amount not to exceed $900,440.64 for five years which includes (2) one-year renewal options.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes a contract with Artistic Land Management, Inc. for landscape maintenance services in an amount not to exceed $900,440.64 for five years which includes (2) one-year renewal options. This resolution also authorizes the Chair or Executive Director/CEO to execute such Contract, with such insertions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 17th day of May, 2022.

John Giles, Chair

Phoenix-Mesa Gateway Airport Authority, a joint powers airport authority authorized by the State of Arizona ("PMGAA") desires performance of the services more fully described in this **Contract Number C-20220269** ("Contract") and the attached exhibits. Artistic Land Management, Inc., an Arizona S Corporation ("Vendor"), with its principal offices located at 506 E. Boston Circle, Chandler, Arizona, 85225, desires to perform these services.

Recitals

A. PMGAA requires the services as described in this Contract, including any and all exhibits and amendments, and Vendor is willing to provide these and other services under this Contract; and

B. PMGAA desires to contract with Vendor to provide services as noted herein.

Now therefore, in consideration of the recitals and the mutual covenants set forth below, PMGAA and Vendor agree as follows.

SECTION I – VENDOR SERVICES

The services to be performed by Vendor are specified in this Contract. PMGAA will not pay Vendor for any services that have not been authorized under the Contract. There is no guarantee of a minimum purchase of services.

The anticipated services to be provided by Vendor under this Contract shall generally include, but not be limited to, the following: Landscape Maintenance Services, as more specifically described in the detailed scope of services attached as **EXHIBIT A**, "Scope of Services & Fee Schedule."

PMGAA's authorized representative shall be the PMGAA Operations and Maintenance Director, or his/her duly authorized representative, and that he/she shall be the sole contact for administering this Contract.

All services provided by Vendor under this Contract must be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances in Arizona. Vendor makes no other warranty, expressed or implied.

SECTION II – PMGAA RESPONSIBILITIES

PMGAA shall furnish Vendor, at no cost to Vendor, the following information or services for this Contract:

A. Access to copies of readily available maps, records, as-built drawings, benchmarks or other data pertinent to work assignments affiliated with this Contract. This does not, however, relieve Vendor of the responsibility of searching records for additional information, for requesting specific information or for verification of that information provided. PMGAA does not warrant the accuracy or comprehensiveness of any information or documents provided to Vendor.

B. In PMGAA's discretion and upon Vendor's reasonable request, access to staff for consultation with Vendor during the performance of this contract in order to identify the problems, needs, and other functional aspects of the work.

C. Prompt review of and feedback on Vendor's deliverables. PMGAA will advise Vendor concerning progress of PMGAA's review of the work, as needed.

SECTION III – PERIOD OF SERVICE

Vendor shall complete all work in accordance with the provisions of this Contract as amended.

All work initiated under this Contract must be completed on or before the expiration date of the Contract as amended.

The term of this Contract shall commence on July 1, 2022 and ends on June 30, 2025 ("Base Term"), unless terminated, canceled or extended as provided in this Contract.

This Contract has two (2) optional one-year extensions that PMGAA may exercise at its sole discretion. Prior to the expiration of the Contract Base Term, PMGAA may elect to extend the Contract. If PMGAA exercises such right, all terms, conditions and provisions of the original Contract shall remain the same and apply during the extended

period with the possible exception of price. All fees for the optional renewal terms are provided for in **EXHIBIT A**, "Scope of Services & Fee Schedule.". Any extension of this Contract shall require an amendment signed by both parties.

Vendor shall commence its services within seven (7) days of the written authorization by PMGAA. Vendor shall perform its services in a diligent manner and in accordance with this Contract.

SECTION IV – KEY PERSONNEL

The Vendor itself shall provide all services to be performed under this Contract. If Sub-Contractors are required by Vendor to perform any services listed under this contract, Vendor shall notify PMGAA prior to authorizing work by said Sub-Contractors. PMGAA may, at its sole discretion, accept or reject proposed Sub-Contractors.

SECTION V – PAYMENTS TO THE VENDOR

Vendor will be paid for work performed under this Contract plus any adjustments that have been approved in writing by PMGAA in accordance with PMGAA's Procurement Policy. Payments will be made in accordance with **EXHIBIT D**, "Compensation."

All services to be rendered by Vendor are subject to the terms of **EXHIBIT D**, "Compensation" attached hereto.

PMGAA does not guarantee any minimum or maximum fee during the Term of this Contract, and Vendor, in executing this Contract, shall not anticipate or require any minimum or maximum fee.

PMGAA shall pay Vendor monthly for services authorized and rendered under this Contract at the completion of each work assignment, provided Vendor has satisfactorily completed the requested work. If any such work requires time in excess of 30 calendar days to complete, progress payment(s) may be made on invoices certified and approved by PMGAA.

SECTION VI – ALTERATION IN SCOPE OF SERVICES

For any alteration in the Scope of Services that would materially increase or decrease the Contract fee, the parties shall negotiate an amendment to the Contract to be executed by PMGAA and Vendor. No work shall commence on any amendment or change until the amendment has been approved by PMGAA and Vendor has been notified to proceed by PMGAA. No claim for extra work done or materials furnished by Vendor will be allowed by PMGAA, except as provided herein, nor shall Vendor do any work or furnish any materials not covered by this Contract unless the work is first authorized in writing by PMGAA and the change complies with PMGAA's Procurement Policy. Any work or materials furnished by Vendor without advance, written authorization will be at Vendor's own risk, cost, and expense. Without written authorization, Vendor shall make no claim for compensation for such work or materials furnished.

SECTION VII – WORK ASSIGNMENT COMPLETION

If, during the Term of this Contract, situations arise which prevent work completion within the allotted time, PMGAA may grant an appropriate time extension.

SECTION VIII – OWNERSHIP OF DOCUMENTS

Any documents, including all electronic copies thereof, prepared under or as a result of this Contract, shall be the property of PMGAA. To the extent necessary to effectuate such ownership, Vendor hereby assigns all right, title and interests to such documents to PMGAA. Vendor shall execute any separate contracts or documents, if any, which may be necessary to implement the terms of this Section.

All of Vendor's documents prepared under this Contract, including electronic files, are instruments of service. All of these documents become the property of PMGAA upon completion of the services and payment in full to Vendor. PMGAA may reuse or modify the documents, as it deems necessary, without Vendor's prior written authorization. PMGAA shall indemnify and hold harmless Vendor, its officers, directors, employees and Sub-Contractors (collectively, the "Vendor") against any and all damages, liabilities or costs arising from PMGAA's modification of documents produced by Vendor under this Contract unless Vendor authorizes the modification in writing.

SECTION IX – COMPLIANCE WITH LAWS

Vendor shall comply with all federal, state and local laws, local ordinances and regulations throughout the Term.

Vendor's signature on this Contract certifies compliance with the provisions of the I-9 requirements of the *Immigration Reform and Control Act of 1986* for all personnel that Vendor and any Sub-Contractors employ to complete any work assignment.

PMGAA shall administer this Contract in accordance with PMGAA's Procurement Policy.

SECTION X – GENERAL CONSIDERATIONS

A. The failure of either party to enforce any of the provisions of this Contract or require performance of the other party of any of the provisions hereof shall not be construed to be a waiver of the provisions, nor shall it affect the validity of this Contract or the right of either party to enforce each and every provision.

B. The fact that PMGAA has accepted or approved Vendor's work shall in no way relieve Vendor of responsibility for the work under this Contract.

C. This Contract shall be governed by the laws of the state of Arizona, both as to interpretation and performance. Any action at law, suit in equity, or judicial proceeding for the enforcement of this Contract, or any provision thereof, shall be instituted only in the courts of the state of Arizona.

D. All exhibits to this Contract and any amendments to the Contract are incorporated into it.

SECTION XI – NO KICK-BACK CERTIFICATION

Vendor warrants that no person has been employed or retained to solicit or secure this Contract upon any agreement or understanding for a commission, percentage, brokerage, or contingent fee and that no member of the PMGAA Board of Directors or any employee of PMGAA has any interest, financially or otherwise, in Vendor's firm.

For breach or violation of this warranty, PMGAA may annul this Contract without liability.

SECTION XII – SUSPENSION OF SERVICES

Vendor shall, within five (5) business days upon receiving written notice from PMGAA, suspend, delay, or interrupt all or a part of the Scope of Services. Vendor shall resume the Scope of Services within five (5) business days of receiving written notice from PMGAA.

SECTION XIII – TIMES OF PAYMENTS

Vendor shall submit monthly invoices for services actually completed. PMGAA shall review, certify, and approve or reject each invoice in whole or in part. PMGAA shall pay each approved invoice within 30 calendar days of the date that PMGAA approves the invoice.

SECTION XIV – TIMELY REVIEW

PMGAA will review Vendor's studies, reports, proposals, and other related documents and render any decisions required by Vendor in a timely manner. Notwithstanding these reviews, Vendor remains solely responsible for all of its deliverables and services under this Contract. By PMGAA's reviews, PMGAA does not assume any liability for or retained control over Vendor's work or Vendor's responsibility for the safety of its employees.

SECTION XV – DISPUTE RESOLUTION

All disputes between PMGAA and Vendor arising out of or relating to this Contract will be subject to the Dispute Resolution provisions as set forth in **EXHIBIT F**, "PMGAA Standard Terms and Conditions", attached hereto and incorporated herein by reference.

PMGAA and Vendor shall include a similar dispute resolution provision in all contracts with other vendors retained for the Project and shall require all other independent contractors and vendors to include a similar dispute resolution provision in all contracts with subcontractors, suppliers or fabricators retained by them.

SECTION XVI – LIABILITY OF VENDOR

To the fullest extent permitted by law, Vendor shall defend, save, indemnify, and hold harmless PMGAA, its member governments, departments, officers, employees, and agents from and against damages arising out of any act, error, or omission of Vendor relating to its services under this Contract.

SECTION XVII – LAWS AND REGULATIONS

All federal, state, and local laws and regulations that relate to Vendor's services apply to Vendor's performance of this Contract throughout. These laws and regulations are deemed included in this Contract the same as though written out in full, especially the current applicable Federal Aviation Administration (FAA) rules and regulations associated with airport projects; pertinent Airport engineering standards; and local rules, regulations, and industry standards.

SECTION XVIII – ARCHAEOLOGICAL RESOURCE PROTECTION

While performing services under this Contract, Vendor may encounter a known or unknown archaeological site located at the Airport. If Vendor encounters what it believes to be an archaeological site, Vendor shall immediately notify PMGAA of the site's location and take all reasonable precautions to protect and preserve the site until PMGAA otherwise directs.

SECTION XIX INSURANCE REQUIREMENTS

A. Vendor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Vendor, its agents, representatives, or employees.

B. All insurance policies required by this Contact, except *Workers Compensation* and *Professional Liability*, shall name PMGAA, its agents, representatives, officers, directors, officials and employees as Additional Insured.

C. Minimum Scope and Limits of Insurance. Coverage shall be at least as broad as:

   i. Commercial General Liability: Insurance Services Office Form CG 00 01 covering Bodily Injury and Property Damage on an "occurrence" basis, including personal & advertising injury with limits no less than $1,000,000 per occurrence, $2,000,000 General Aggregate.
   ii. Auto Liability: ISO Form CA 00 01 covering any auto (Symbol 1), or if Vendor has no owned autos, hired, (Symbol 8) and non-owned autos (Symbol 9), with limit no less than $1,000,000 Combined Single limit per accident for bodily injury and property damage ($5,000,000 if operating in the Air Operations Area of the Airport).
   iii. Workers' Compensation: Statutory Limits as required by the state of Arizona, and Employer's Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

D. If the Vendor maintains higher limits than the minimums shown above, PMGAA requires and shall be entitled to coverage for the higher limits maintained by the Vendor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to PMGAA.

E. Additional insurance provisions. The insurance policies shall provide, or be endorsed to include, the following provisions:

   i. Notice of Cancellation: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to PMGAA.
   ii. Waiver of Subrogation: Vendor waives any right to subrogation. Vendor shall obtain an endorsement necessary to affect this waiver of subrogation from the insurer for all lines of coverage required by this Contract, except *Workers Compensation* and *Professional Liability,* for claims arising out of the Vendor's work or service.
   iii. Primary Coverage: For all claims related to this Contract, all of Vendor's insurance policies will be primary and non-contributory. Any insurance or self-insurance maintained by PMGAA, its officers, officials, employees, or volunteers will be in excess of Vendor's insurance and will not contribute with it.
   iv. Deductibles and Self-Insured Retentions: Any deductibles or self-insured retentions must be declared to and approved by PMGAA. PMGAA may require the Vendor to provide proof of ability

to pay losses and related investigations, claim administration, and defense expenses within the retention.

v. Acceptability of Insurers: Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A, VII, unless otherwise acceptable to PMGAA.

vi. Claims Made Policies: No Claims Made policies (other than Professional Liability) will be accepted. For policies that provide claims-made coverage:

a) The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

b) Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

c) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Vendor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.

vii. Verification of Coverage: Vendor shall furnish PMGAA with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by PMGAA before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Vendor's obligation to provide the required insurance. PMGAA reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

viii. Subcontractors: Vendor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Vendor shall ensure that PMGAA is an additional insured on insurance required from subcontractors.

ix. Special Risks or Circumstances: PMGAA reserves the right to modify these requirements, including limits, based on the nature of the risk, scope of services, prior experience, insurer, coverage, or other special circumstances.

SECTION XX NOTICES

Any notice, report or information which may be or is required to be given under this Contract will be in writing and shall be sent by registered or certified mail, return receipt requested, postage prepaid, addressed as follows:

TO PMGAA: Phoenix-Mesa Gateway Airport Authority
Attn: Operations & Maintenance Director
5835 South Sossaman Road
Mesa, Arizona 85212

TO VENDOR: Artistic Land Management, Inc.
Attn: Jose Hernandez
506 E. Boston Circle
Chandler, AZ 85225

or to such other person(s) or address(es) as any such Party may designate from time to time by notice to the other Parties in accordance with this Section.

SECTION XXI – COOPERATIVE USE OF CONTRACT

This contract may be extended for use by other municipalities, school districts and government agencies (participating agency) in the State of Arizona. Any such usage by other participating agencies must be in accordance with the statutes, codes, ordinances, charter and/or procurement rules and regulations of the respective participating agency.

Other participating agencies will be responsible for entering into separate cooperative use agreements with the Vendor.

Payment for purchase(s) made under this contract will be the sole responsibility of each participating agency. PMGAA shall not be responsible for any disputes arising out of transactions made by other agencies. Vendor shall be responsible for correctly administering these contracts in accordance with all terms, condition, requirements and approved pricing to any eligible participating agency.

SECTION XXII – LIQUIDATED DAMAGES

PMGAA's expectation is that landscape and grounds maintenance performed by the Vendor will result in the Airport's landscape maintenance locations looking well-groomed and clean. If tasks are omitted or not satisfactory completed, public safety and appearance of PMGAA's facilities, medians and right of ways are compromised. The Vendor and PMGAA agree upon the following schedule of liquidated damages to be deducted from monies due or to become due to the Vendor. These sums are fixed and agreed upon, not as a penalty, but because the parties agree that the actual loss to PMGAA and to the public caused by the omission of work or substandard performance is impractical and extremely difficult to ascertain.

SITUATION	Liquidated Damages Amount
A. Failure to respond to emergency calls within the specified time limits.	$100 per site/emergency
B. Failure to repair irrigation system problems in a timely manner or with acceptable quality.	$100 per site/day
C. Failure to correct deficiencies within the time allowed in the Correction Time Limit Schedule.	$100 per site/day
D. Failure to start "Extra Work" within forty-eight (48) hours, or on the date agreed or withdrawing from the job prior to completion without authorization from PMGAA.	$100 per day plus the City has the right to re-award and charge any increased difference to the Contractor.
E. Failure to start and satisfactorily complete routine work within the scheduling requirements.	$100 per site/day
F. Illegal or non-conforming waste disposal.	$100 per site/day
G. Failure to submit schedules and work plans within the dates and times required.	$100 per site/day
H. Field supervisor performing labor without PMGAA's authorization or not being available during working hours to address problems, do field inspections, and/or meet with PMGAA representatives.	$100 per occurrence
I. Failure to wear a uniform bearing the Vendor's name or to bear individual photo identification.	$100 per occurrence
J. Failure to comply with Parking Restrictions on Arterial and Major Collector Streets, and/or failure to provide alternative pedestrian route around work areas when parking on or blocking sidewalks.	$100 per occurrence
K. Failure to return PMGAA issued badges of past employees.	$100 per incident/employee
L. Failure to comply with List of Employees requirements.	$100 per occurrence
M. Failure to comply with environmental regulations.	$100 per occurrence

Executed as of the Commencement Date.

EXHIBIT A – SCOPE OF SERVICES & FEE SCHEDULE

The services to be performed by Vendor and the completion of related efforts are specified in the following Scope of Services & Fee Schedule agreed to by the parties.

SCOPE OF SERVICES

1. General Instructions

Vendor must provide their own labor, tools, equipment, fertilizers, pesticides/herbicides, transportation, and other necessary materials to provide landscaping services to meet the Scope of Services contained herein. Preferred equipment includes propane or battery powered mowers, edging or trimming devices. PMGAA will not provide storage space for the Vendor's equipment. The Vendor will dispose of all trimmings and dead growth at the day of service to an off-site location. Environmentally approved vegetation killers are permissible in all areas to the extent that they do not adversely affect the plants and trees which have been planted but, these must be approved by PMGAA prior to application.

The PMGAA sites and acreage designated under this Contract can be found in Exhibits B and C.

The Vendor will provide MSDS sheets for all fertilizers, herbicides and pesticides used on PMGAA property. Pesticide and herbicide applications shall be made by certified pesticide applicators.

2. Condition of Landscape Areas at Beginning and End of Contract

Condition of Landscape at Beginning of Contract: Vendor shall perform an inspection of all properties/locations covered under this Contract within two (2) weeks of the Contract's start date for identification of preexisting conditions that would prevent or adversely affect completion of any normal routine maintenance activities.

Upon completion of inspections, the Vendor shall prepare a list of specific deficiencies found at each contract area and submit the list to the Operations and Maintenance Director or authorized PMGAA representative for review. If no deficiencies are found, written documentation must be submitted stating such. PMGAA will evaluate each problem listed to determine if extra compensation is warranted for repair work prior to starting routine maintenance.

PMGAA may authorize the Vendor to make extra work repairs or may determine that the items listed represent normal conditions that might be expected at any time during the contract period. The determination and disposition of all items listed shall be the responsibility of PMGAA and PMGAA's decision shall be final and binding upon the Vendor. All repairs to preexisting conditions deemed necessary and authorized by PMGAA, shall be made within thirty (30) days of approval.

Condition of Landscape at End of Contract: Approximately six (6) weeks prior to the Contract being terminated, PMGAA and Vendor will make a final inspection to determine the condition of all landscape areas. Items found to be improperly maintained by Vendor will be fully corrected at no cost to PMGAA, prior to the last two (2) weeks of the Contract. If not fully corrected within two (2) weeks of the end of the contract, PMGAA will arrange for repairs to be made and the costs for making repairs to the areas will be deducted from final payment(s) to Vendor. The same terms and conditions will apply even if the Vendor has been awarded a new contract for the same areas. The last payment shall be that which is due for all work completed during the final forty-five (45) days of the contract.

3. Performance Standards

The specifications listed below are the minimum requirements and are intended to govern, in general, the requirements desired. These requirements are not intended to replace or supersede the latest industry

standards or material and equipment manufacturer's recommendations. PMGAA reserves the right to evaluate variations from these specifications.

a) Mowing

All turf areas shall be inspected and policed for litter and debris and disposed of prior to each mowing. Mowing shall occur as often as necessary to keep all turf areas looking crisp, clean and well-groomed. Lift mower height, as seasonal growth requires, preventing scalping of the lawn. Make every effort to position and operate equipment such that cutting and debris picked up by rotating assemblies will be directed away from vehicles and buildings. Mowing direction will alternate with each visit to the site.

b) Edging

All sidewalks curb lines, concrete slabs, bed edges and the immediate high visual areas shall be mechanically edged as needed to maintain a neat, clean appearance. Mechanical edgers will be used at all possible locations.

c) Trimming or Weed Eating

Trimming shall be performed around all road signs, guard posts, trees, shrubs, utility poles and other obstacles paying special care not to damage trees and shrubs. The grass to be trimmed shall not be trimmed to less than the desired height of cut determined by the mowing operation

d) Turf Fertilization

Turf shall be fertilized with a well-balanced slow release fertilizer. Notify the OPM Program Manager prior to application so that we can water the lawn thoroughly after applying the fertilizer. Only irrigated areas with established turf grass will be fertilized.

e) Weed Control

Pre-emergent for control of weeds shall be applied as necessary. All precautions shall be taken in the handling and application of all sprays as stated on the herbicide label. One application with follow up applications as required to attain a kill of 90% of broadleaved weeds shall be required. All irrigation valve boxes are to be kept grass and weed free.

f) Debris Removal

Vendor shall remove grass clippings from walk, curbs and paving. Grass clippings are to be removed from lawns if in wind rows or if unsightly clumps are left on the lawn (normally created by the inability to mow on schedule because of rain). Fallen limbs or branches shall be removed from sidewalks and lawn areas. Blowers must be turned off when pedestrians are in vicinity. Vendor may be asked by PMGAA employees to cease operation of any equipment in certain areas when needed. Resume when instructed or area is clear.

g) Tree and Shrub Care

Maintain trees and shrubs in a healthy, growing condition by following accepted horticultural practices and performing all necessary operations including, but not limited to, the following:

i. Fertilizing
Fertilizing of all shrubs, ground cover and other ornamentals to be done once a year with a well-balanced slow release fertilizer. Notify Landscape Specialist prior to application so that proper water may be applied.

ii. Pruning of Trees

All cuts shall be made clean and outside the branch collar leaving no stubs or tearing bark. Remove branches touching buildings, and those blocking pedestrian and vehicular traffic. Trees shall be trimmed to maintain an 8 foot clearance over sidewalks and 14 foot clearance over vehicular traffic. Remove dead branches. All suckers are to be continually removed from trees. All major pruning shall take place in the dormant season.

iii. Pruning of Ornamental and Desert Plants

Minimal pruning shall be done to enhance natural growth. All major pruning shall be done during the plants dormant season unless an early flowering plant, then prune immediately after flowering. Dead, damaged and diseased portions of the plant will be removed. Pruned shrubbery to maintain proper size in relationship to adjacent plantings and intended function. Prune groundcover plantings as required to restrain perimeter growth to within planting beds areas where adjacent to walks and curbs. Tip prune selected branches of low growing shrub or groundcover masses to maintain even overall heights and promote fullness. Perennials should be cut back after going dormant and trimmed periodically through growing season to maintain manicured look and avoid woody growth. Ornamental grasses shall be pruned back once per year in the dormant season prior to spring growth. Remove growth protruding over sidewalks.

iv. Clearance and Visibility

Trees and shrubs shall be pruned in such a way to avoid blocking the clear view of signs, illumination by light fixtures, the flow of air vents and air conditioner compressors as well as pedestrian and vehicular traffic. Remove lower limbs when obstructing vehicular or pedestrian clearances.

v. Staking

Maintain tree alignment, provided by guying or staking, in sound condition; periodically check all ties to ensure against injury to the cambium layer. Remove tree stakes and guys when the trees are able to support themselves, typically after a year. Reset and stake trees that have been windblown and are leaning.

vi. Weed Control

Keep basins and shrub beds free of weeds. Avoid excessive soil cultivation which destroys shallow roots and contributes to soil erosion. Bed edges are to be kept clean and weed defined. Control of weed and undesirable grasses shall occur through mechanical means and post-emergence chemicals.

vii. Debris, Litter & Trash

Litter will be removed from landscape areas, sidewalks and parking lots on each visit. All debris, litter and trash will be disposed of by the use of dumpsters on site, when available. Fallen limbs and branches should be removed from landscaped areas and sidewalks.

h) Rock Refresh, Tree Planting and Irrigation Repairs

Vendor shall submit proposals to include hourly rate and materials costs for granite (rock) refresh and vegetation replacements. This would be completed upon written request by PMGAA with areas to be defined.

i) Emergency Response

The Vendor shall be prepared to respond to irrigation system and landscape emergency calls on a twenty-four (24) hour, seven (7) day per week basis. "Emergency Response Work" shall mean any work PMGAA requests the Vendor to perform which is in response to an immediate hazard or other emergency as determined by PMGAA. The Vendor must commence work within one (1) hour of receiving PMGAA's request. Failure to respond shall be considered a default of Contract.

The Vendor shall provide the names and phone numbers of employees who will be assigned to respond to after-hour "Emergency" situations. PMGAA shall also be kept informed of the name of the specific person assigned to respond on any given day.

The Vendor shall respond to the site where the emergency exists within one (1) hour of receiving notification from PMGAA. During "off duty" hours, the Vendor's employee assigned to respond to the emergency, shall only take those actions that will enable the problem to be downgraded from an emergency. However, in no case shall a hazardous condition be left uncorrected.

Payment for "Emergency Response" shall comply with the Vendors hourly labor and equipment rates submitted in Attachment B, Price Proposal. However, if the emergency was caused by the Vendor's failure to adequately perform "Routine" or "Extra" maintenance work, no compensation shall be made for responding to the emergency. PMGAA shall make the determination whether or not payment is due after reviewing the work performed.

j) Inspections

Vendor's on-site supervisor shall conduct weekly inspections of all areas to ensure compliance with the required scope of work and shall maintain written records of these inspections. A copy of the inspection report shall be furnished to the Operations & Maintenance Supervisor personnel weekly.

k) Extra Work

All "Extra Work" ordered in the contracted area shall be compensated for in accordance with Exhibit A. Vendor shall not perform any Extra Work until written authorization is obtained from PMGAA. All extra work shall commence within forty-eight (48) hours or on a date agreed, except Emergency Response Work that requires a one (1) hour response/commencement. Extra Work performed without authorization may not be paid. The Vendor is not guaranteed full or exclusive right to perform Extra Work that may be required. PMGAA reserves the right to obtain competitive quotations or otherwise select the most appropriate Vendor for performing Extra Work.

l) Work Corrections

In the event Vendor fails to perform services or fails to perform services to meet the Scope of Services, PMGAA shall notify Vendor. Upon notification, Vendor shall perform the requested services within the times listed below:

Correction Time Limit Schedule (Time starts upon receipt of notification)	
Emergency Response Work	1 Hour response – Complete ASAP
Daily Cleaning	2 Working Hours
Detailed Maintenance	1 Working Day
Mowing	1 Working Day
Irrigation/Sprinkler System Maintenance, Repairs, or Controller Programming Issues	1 Working Day
Submission of Schedules, Work Plans and/or Daily Reports	1 Working Day
Extra Work	2 Working Days
Weed Control	1 Working Day
Fertilization	5 Working Days
Replanting	5 Working Days

m) Badging

Airport Access Badges are required of Vendor's and/or subcontractor's supervisors and lead personnel performing work functions in accordance with this Contract. Vendor and/or subcontractor personnel shall obtain and properly display a PMGAA airport security badge while on the airport. Airport Security Access Badge applications may be downloaded at www.gatewayairport.com under the General Information/Documents and Forms Link. Vendor is responsible for all badging fees.

n) List of Employees

Vendor shall supply PMGAA with a current list of Supervisors and Spray Technicians assigned under this Contract to PMGAA. The list must include: full names, driver's license number with expiration date, job title, and where applicable, certifications (pesticide applicator's license number and expiration date, International Society of Arboriculture (ISA), or any other pertinent or required certifications or registrations). The list shall be kept current, changes to contract assignments must be submitted in writing to PMGAA within two (2) workdays after implementation. Failure to submit current list and changes shall be subject to liquidated damages as set forth in Section XXII. Repeated failures may result in a Notice of Default.

4. Schedule

Vendor shall, at a minimum, perform the Scope of Services according to the following schedules. Vendor may, upon written approval from PMGAA adjust the schedule.

Weekly Schedule to Comple Work

Day	Site	Work to be Performed
MONDAY	Charles L. Williams Terminal Frontage, Courtyard & Parking Areas	Cleaning, mowing, litter pick up, blowing, of sidewalks and curbs. Inspect tree stakes and elevate trees.
TUESDAY	General Aviation Center Park & Administrative Building	Cleaning, litter pick up, blowing, of sidewalks and curbs. Inspect tree stakes and elevate trees.
TUESDAY	Texas Road Parking Lot	Cleaning, litter pick up, blowing, of sidewalks and curbs. Inspect tree stakes and elevate trees.
WEDNESDAY & THURSDAY	Sossman Road Medians Ray Road Parking Lot	Cleaning, litter pick up, blowing, of sidewalks and curbs. Inspect tree stakes and elevate trees.
FRIDAY	Air Traffic Control Tower & FAA Facility Building 1095 Building 5950 Fuel Farm Hanger 31, 32 & 37	Cleaning, litter pick up, blowing, of sidewalks and curbs. Inspect tree stakes and elevate trees.
MONDAY THROUGH FRIDAY	All Sites	Trash and litter pick up will be performed daily to all sites

FEE SCHEDULE

For the services provided herein, PMGAA agrees to pay Vendor the not to exceed amount of $174,504.00 for the first year of the Contract. Vendor may increase pricing beginning the second year of the Contract up to the percentage increase noted below and if Vendor notifies PMGAA at least 45 days prior to the beginning of year two of the Contract.

The prices stated below are all inclusive and includes all pertinent fees normally associated with the services provided under this Contract. This shall include, but not limited to, environmental fees, shop supplies, clean-up, transportation, etc. No additional charges beyond the prices listed below (except applicable sales tax) shall be allowed unless authorized, in writing by PMGAA, prior to the services being performed.

Attachment B
Price Proposal

Landscape service locations may be added or removed during the contract term.

Year 1 of Contract:

No.	Landscape Service Location	Monthly Price
1	Airport Entrance	$ 603.00
2	Ray Road Economy Parking Lot	$ 1064.00
3	Cell Phone Parking Lot	$ 230.00
4	Retention Basin	$ 355.00
5	Multi-Tenant Hangar (5755 S. Sossaman Rd.)	$ 461.00
6	General Aviation Center & Park	$ 308.00
7	PMGAA Administration	$ 942.00
8	Rental Car Ready Lot	$ 615.00
9	Terminal	$ 1845.00
10	Rental Car Return Lot	$ 308.00
11	ATC	$ 490.00
12	Airport Maintenance Facility	$ 615.00
13	Retention Basin	$ 462.00
14	F/F Facility	$ 308.00
15	Rental Car Wash Facility	$ 308.00
16	Airport Employee Parking Lot	$ 230.00

EXHIBIT D– COMPENSATION

All compensation for services rendered by Vendor shall be based upon criteria established below. All services must be billed through the Vendor.

1. Fees to be Specified in Contract

Any and all services to be performed under this Contract require approval. All compensation for services shall be identified in writing. The Contract shall describe the scope of services to be performed (by tasks and subtasks, where appropriate), the fees associated with that performance, and any applicable special provisions. Vendor's compensation for services included in this Contract is totaled and set forth in **EXHIBIT A**, "Scope of Services and Fee Schedule".

2. Method of Payment

Subject to the terms of this Contract, PMGAA shall pay Vendor the appropriate rate or fixed price amount for services rendered as described in the Contract only after Vendor has submitted an invoice for services performed and PMGAA has certified and approved each invoice.

For services rendered in accordance with the Contract, Vendor shall submit to PMGAA an invoice depicting tasks performed and/or hours spent for services performed. Invoices must be based on the actual hours and/or expenses incurred for the services completed during the billing period. Vendor's invoices must specify that Vendor has performed the services, and PMGAA must certify and approve each invoice as a condition to payment.

3. Vendor Responsibilities for Compensation

Vendor shall prepare monthly invoices and/or progress reports in accordance with terms specified in the Contract. Progress reports will clearly indicate the progress to date and the amount of compensation due by virtue of that progress. All invoices for payment shall be for work completed unless otherwise agreed to by PMGAA. Invoices/requisitions for payment for services subject to funding by the FAA and/or ADOT shall include the documentation requirements of the FAA and/or ADOT, which are outlined in the *Airport Improvement Program (AIP) Handbook* dated September 30, 2014, or most current version.

4. PMGAA Responsibilities for Compensation

PMGAA agrees to pay Vendor's invoices for payment within 30 calendar days after the invoice is approved. PMGAA may withhold payment on any invoice if it believes that Vendor has not performed the work in a satisfactory manner. If PMGAA withholds payment to Vendor, PMGAA shall promptly notify Vendor and explain the reasons for the decision to withhold payment.

5. Billing Address

All invoices submitted to PMGAA for payment shall be submitted to:

Phoenix-Mesa Gateway Airport Authority
Attn: Operations and Maintenance Director
5835 S. Sossaman Road
Mesa, Arizona 85212

EXHIBIT E - SPECIAL PROVISIONS

1. Civil Rights Act of 1964, Title VI – General

The contractor (herein includes Vendor) agrees to comply with pertinent statues, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

2. Civil Rights Act of 1964, Title VI – Assurances

During the performance of this Contract, the Vendor, for itself, its assignees and successors in interest agrees as follows:

a. Compliance with Regulations – Compliance with Regulations: The contractor (hereinafter includes Vendor) will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

b. Nondiscrimination – The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

c. Solicitations for Subcontracts, including Procurements of Materials and Equipment – In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Non-discrimination Acts And Authorities on the grounds of race, color, or national origin.

d. Information and Reports – The contractor will provide all information and reports required by the Acts, the Regulations and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by PMGAA or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to PMGAA or the FAA as appropriate, and will set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance – In the event of a contractor's noncompliance with the Nondiscrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to:

i) Withholding of payments to the contractor under the contract until the contractor complies, and/or;
ii) Cancellation, termination, or suspension of the Contract, in whole or in part.

f. Incorporation of Provisions – The contractor will include the provisions of paragraphs one through six of this **EXHIBIT E** in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as PMGAA or the FAA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request PMGAA to enter into any litigation to protect the interests of PMGAA. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

3. Civil Rights – Title VI List of Pertinent Nondiscrimination Acts and Authorities

During the performance of this contract, the Vendor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- 49 CFR part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;
- The FAA's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

4. <u>Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion</u>

Vendor, by accepting this Contract, certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any government department or agency.

5. <u>Project Security</u>

As some or all portions of work possible during the Term of this Contract may be located inside the secured area of the Airport, adherence to and familiarity with federal security regulations is essential. For these projects, Vendor shall be responsible for fulfilling the security requirements described herein.

a. <u>Secured Area Access</u> – All Vendor personnel who require unescorted access to the secured area of the Airport, prior to the issuance of an Airport Identification badge, must successfully complete the Security Badge Application and Security Badge Authorization forms.

b. Employee Security Badges – If deemed necessary by PMGAA Vendor and/or subcontractor personnel performing work functions in accordance with this Contract shall obtain and properly display an Airport security badge. Vendor shall submit a Security Badge Application form to the PMGAA security office for each employee requiring unescorted access, along with the current fee for each badge. Badge fees are identified on the current *Airport Fees, Services and Rental Rates* available via the Airport website at www.gatewayairport.com and are subject to change.

i. All fees must be paid to PMGAA by cash or check.
ii. Airport Security Badge Application forms and instructions are available via the Airport website at www.gatewayairport.com.
iii. An authorized representative of Vendor must also obtain and submit a Security Media Authorization form, which is to be submitted to the PMGAA badging office. The Security Media Authorization form and instructions are available via the Airport website at www.gatewairport.com.
iv. A training class on aviation security must be successfully completed before individuals are issued a badge. Fees for the security badge include attendance for the necessary training classes. Attendance at the security classes and issuance of the security badge may take two hours per person.
v. Additional information, including a "Frequently Asked Questions" is available via the Airport website at www.gatewairport.com or by contacting the PMGAA Badging Office at (480) 988-7522. The Badging Office is located at 5803 S. Sossaman Road, Mesa AZ 85212.
vi. Vendor shall immediately notify the PMGAA Badging Office of any Vendor personnel whose employment status has changed.
vii. Vendor shall retrieve all security badges and keys and return them to the PMGAA Badging Office. A fee, as indicated on the most current *Airport Rates and Charges Schedule*, will be charged for each badge that is damaged, lost or not returned.
viii. The PMGAA Badging Office will require a completed Security Badge Application from each Vendor employee so certified by Vendor as requiring such before a Security Badge is issued.
ix. Under certain circumstances and out of control of PMGAA, security measures may change on short notice. No deviations from any security measure shall be allowed at any time.
x. At all times, aircraft shall have the right-of-way over all vehicle traffic.

c. Fines – Due to both the safety and security precautions necessary at the Airport, any failure of the Vendor to adhere to prescribed Airport requirements/regulations has consequences that may jeopardize the health, welfare and lives of Airport customers and employees, as well as the Vendor's own employees. Therefore, if Vendor is found to be in non-compliance with any security, airfield badging/licensing and airfield safety requirement, a Notice of Violations (NOV) may be issued. A current listing of fines is available by contacting the PMGAA Badging Office.

6. Standard Terms & Conditions

PMGAA's Standard Terms & Conditions (in **EXHIBIT F** attached) include clauses that pertain to both construction and professional services. For such, the term "contractor" or "Vendor" is to be considered same as "consultant." If a clause implies construction service then it is waived for a professional services contract. PMGAA reserves the right to make that determination if there is a conflict.

7. Federal and State Guidelines and Regulations

All work performed under this Contract must satisfy FAA and applicable agency standards, and be accomplished in accordance with applicable federal, state and local guidelines and regulations, including FAA Advisory Circulars, NEPA and Arizona environmental statutes.

Vendor shall perform the services as described in approved Contract in accordance with the applicable requirements imposed by PMGAA, ADOT, FAA and any other applicable sponsoring agencies. Vendor and its subconsultants/subcontractors, if any, shall comply with any and all applicable laws, regulations, executive orders, policies, guidelines, and any other requirements for FAA Airport Improvement Program (AIP) projects. Vendor shall provide PMGAA all information, reports, documents, and/or certifications requested by PMGAA for the satisfaction of any grant requirements for the reimbursement of services, including, without limitation, identifying

the specific services provided by Vendor and the billing period(s) during which services were or are to be provided. Nothing herein shall be construed as making the FAA or ADOT a party to this Contract.

8. Right to Contract With Other Firms

PMGAA shall have the right to contract with other firms and/or persons and/or to self-perform additional services, which may be the subject of this Contract. Vendor shall conduct its operations and perform any services authorized under the Contract so as not to interfere with or hinder the progress of completion of the work being performed by PMGAA and/or other firms and/or persons. Vendors working on the same project shall cooperate with each other in the performance, scheduling, and, if applicable, the integration of their respective services.

9. Independent Contractor Status

At all relevant times, Vendor is - and shall remain - an independent contractor with regard to performance of its services. PMGAA retains no control over Vendor, the performance of its work or services, or the safety of its employees. Vendor is not authorized to enter into any contract or commitment, authorize any payment, or accept any document, services, goods or materials for, in the name of, or on behalf of PMGAA.

EXHIBIT F – PMGAA STANDARD TERMS & CONDITIONS

1. **Certification.** Vendor certifies:
   a. The award of this Contract did not involve collusion or other anti-competitive practices.
   b. It shall not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, or A.R.S. Section 31-1461, et. seq.
   c. It has not given, offered to give, nor intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Contract; and Vendor hereby certifies that the individual signing this Contract is an authorized agent for Vendor and has the authority to bind the Vendor to the Contract.

2. **Termination of Contract.**

   a. PMGAA reserves the right to cancel this Contract in whole or in part due to failure of Vendor to carry out any term, promise, or condition of the Contract. At least ten (10) business days before terminating the Contract, PMGAA will issue a written notice of default specifying one of the following reasons. PMGAA shall, at all times during the term of the Contract or any extension term thereto, have the sole authority to determine if the default has been cured to its satisfaction.

      (1) Vendor has provided personnel that do not meet the requirements of the Contract.

      (2) Vendor has failed to perform adequately the stipulations, conditions or services/specifications required in this Contract.

      (3) Vendor has attempted to impose on PMGAA personnel or materials, products, or workmanship of unacceptable quality.

      (4) Vendor has failed to furnish the required service(s) and/or product(s) within the time stipulated in the Contract or associated Authorization of Services.

      (5) Vendor has failed to make progress in the performance of the requirements of the Contract or Authorization of Services, or Vendor fails to give PMGAA adequate assurance the Vendor will perform the Contract in full and on time.

      (6) Each payment obligation of PMGAA created hereby is conditioned on the availability of PMGAA, state, or federal funds appropriated for payment of the obligation. If funds are not available or allocated by PMGAA for continuance of service under this Contract, then PMGAA may terminate the Contract. PMGAA shall promptly notify Vendor regarding the service that may be affected by a shortage of funds. No penalty accrues to PMGAA if this provision is exercised, and PMGAA shall not be liable for any future payments due or for any damages as a result of termination under this paragraph.

   b. This Contract may be terminated at any time by mutual written consent or by PMGAA - with or without cause - provided the terminating party gives forty-five (45) calendar days' advance written notice to the other party. PMGAA may terminate this Contract, in whole or in part, for PMGAA's convenience and with fourteen (14) days' written notice. If this Contract is terminated, then PMGAA is liable only for services rendered and material received, certified, and approved by PMGAA under the Contract before the termination effective date.

3. **Dispute Resolution**.

   a. **Negotiations**. If a dispute arises out of or relates to this Contract or its breach, the parties to this Contract shall endeavor to settle the dispute through direct discussions as a condition precedent to mediation or binding dispute resolution.

   b. **Mediation**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations, the parties to this Contract, upon the written request of either, shall engage in mediation, to be administered privately by a mediator and according to rules mutually agreed upon by the parties to this Contract, or, the absence of such mutual agreement, by a mediator appointed by JAMS and

administered by JAMS in accordance with its then-current mediation rules. The fees and costs of mediation shall be split equally by the parties to this Contract, but subject to reallocation following binding dispute resolution.

c. **Binding Dispute Resolution**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations or mediation, either party may, within the time limitations for bringing claims under Arizona law and this Contract, commence formal dispute resolution proceedings. Both parties to this Contract consent to binding arbitration administered by JAMS according to its then current arbitration rules, provided, however, that (i) in the event both parties agree, the arbitration may be administered privately by an arbitrator and according to rules mutually agreed upon by the parties to this Contract, and (ii) in the event any party seeks relief against the other party or against a non-party which cannot fully be granted in arbitration, by reason of non-joinder or otherwise, the parties to this Contract are excused from this arbitration requirement and the parties to this Contract shall proceed in the state or federal courts of competent jurisdiction and located in Maricopa County, Arizona. In any arbitration or litigation, the prevailing party shall be entitled to an award of its reasonable attorneys' fees and costs as determined by the arbitrator or court as applicable.

4. **Independent Contractor.** At all times, each party acts in its individual capacity not as agent, employee, partner, joint venturer, or associate of the other party. An employee or agent of one party may not be deemed or construed to be the employee or agent of the other party for any purpose whatsoever. Neither Vendor nor any of its employees are entitled to compensation from PMGAA in the form of salaries, paid vacation, or sick days. PMGAA will not provide any insurance to Vendor, including *Workers' Compensation* coverage. PMGAA will not withhold FICA, taxes, or any similar deductions from PMGAA's payments under this Contract.

5. **Affirmative Action.** Vendor shall abide by all the federal and state of Arizona provisions for equal opportunity in the work place.

6. **Human Relations**. Vendor shall abide by all the federal and state of Arizona provisions against discrimination of disadvantaged business enterprises in applicable PMGAA contracts.

7. **Non-Exclusive Contract**. This Contract is for the sole convenience of PMGAA. PMGAA reserves the right in its discretion to obtain the same or similar goods or services from any other source.

8. **Americans with Disabilities Act.** Vendor shall comply with all applicable provisions of the *Americans with Disabilities Act* (Public Law 101-336, 42 U.S.C. 12101-12213) and applicable federal regulations under the *Act*.

9. **Confidentiality of Records**. Vendor shall establish and maintain procedures and controls that are acceptable to PMGAA for the purpose of assuring that no information contained in its records or obtained from PMGAA or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under this Contract. Persons requesting such information should be referred to PMGAA. Vendor also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Vendor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by PMGAA.

10. **Gratuities.** PMGAA may, by written notice to the Vendor, cancel this Contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by Vendor or any agent or representative of Vendor, to any officer or employee of PMGAA involved in the amending, or the making of any determinations with respect to the performing of such Contract. If this Contract is canceled by PMGAA under this provision, PMGAA shall, in addition to any other rights and remedies, repay to the Vendor the amount of the gratuity.

11. **Applicable Law.** This Contract shall be governed by, and PMGAA and Vendor shall have, all remedies afforded each by the *Uniform Commercial Code*, as adopted in the state of Arizona, except as otherwise provided in this Contract or in laws pertaining specifically to PMGAA. This Contract shall be governed by

the laws of the state of Arizona, and suits pertaining to this Contract shall be brought only in federal or state courts in the state of Arizona.

12. **Contract**. This Contract is based on and the result of a negotiated Scope of Work and Proposal, Bid or Statement of Qualifications submitted by Vendor under this RFP, IFB or RFQ. The Contract contains the entire agreement between PMGAA and Vendor. No prior oral or written agreements, contracts, proposals, negotiations, purchase orders, or master agreements (in any form) are enforceable between the parties.

13. **Contract Amendments**. This Contract shall be modified only by a written amendment signed by the PMGAA Executive Director or his/her designee, and persons duly authorized to enter into contracts on behalf of Vendor.

14. **Provisions Required by Law**. Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

15. **Severability.** The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract, which may remain in effect without the valid provision, or application.

16. **Protection of Government Property.** Vendor shall use reasonable care to avoid damaging all PMGAA property, including buildings, equipment, and vegetation (such as trees, shrubs, and grass). If Vendor damages PMGAA's property in any way, Vendor shall immediately report such damage to PMGAA and repair or replace the damage at no cost to PMGAA, as directed by the PMGAA Executive Director. If Vendor fails or refuses to repair or replace the damage, then PMGAA may terminate the Contract, and PMGAA shall deduct the repair or replacement cost from money due Vendor under the Contract.

17. **Interpretation – Parol Evidence.** This Contract is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms thereof. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in this Contract. Acceptance or acquiescence in a course of performance rendered under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to object.

18. **Subcontracts.** Vendor shall not assign any rights or interest nor enter into any subcontract with any other party to furnish any of the materials, goods or services specified herein without the prior written permission of PMGAA. PMGAA may, at its sole discretion, accept or reject proposed subcontractors or assignment. PMGAA shall notify Vendor of its acceptance or rejection within forty-five (45) days or written request by Vendor. All subcontracts shall comply with federal and state laws and regulations applicable to the materials, goods or services covered by the subcontract and shall include all the terms and conditions set forth herein, which shall apply with equal force to the subcontract, as if the subcontractor were the Vendor referred to herein. Vendor is responsible for Contract performance whether subcontractors are used.

19. **No Waiver.** No provision in this Contract shall be construed, expressly or by implication, to waive either party's existing or future claim, right, or remedy available by law for breach of contract. The failure of either party to insist on strict performance of any Contract term or condition; to exercise or delay exercising any right or remedy provided in the Contract or by law; or to accept materials, services, or Vendor's services under this Contract or imposed by law, shall not be deemed a waiver of any right of either party to insist upon strict performance of the Contract.

20. **Warranties.** Vendor warrants that all materials and services delivered under this Contract shall conform to the specifications thereof. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by PMGAA, shall not alter or affect the obligations of Vendor or the rights of PMGAA under the foregoing warranties. Additional warranty requirements may be set forth in this Contract.

21. **Indemnification.** To the fullest extent permitted by law, Vendor shall defend, save, indemnify, and hold harmless PMGAA, its agents, representatives, officers, directors, officials, and employees (collectively the "Indemnitees"), for, from and against all claims, damages, losses and expenses, including but not limited to

attorney fees, court costs, expert witness fees, and the cost of appellate proceedings, relating to, arising out of, or alleged to have resulted from the Vendor's acts, errors, omissions, or mistakes relating to Vendor's services under this Contract.

22. **Right to Assurance.** Whenever one party to this Contract in good faith has reason to question the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. If a demand is made and no written assurance is given within five (5) business days, the demanding party may treat this failure as an anticipatory repudiation with this Contract.

23. **Advertising.** Vendor shall not advertise or publish information concerning this Contract without prior written consent of PMGAA.

24. **Right to Inspect.** PMGAA may, at reasonable times, and at PMGAA's expense, inspect the place of Vendor's or any of Vendor's subcontractor's business, which is related to the performance of this Contract or related subcontract.

25. **Force Majeure.** In the event either party shall be delayed or hindered in or prevented from the performance of any covenant, agreement, work, service, or other act required under this Contract to be performed by such party ("Required Act"), and such delay or hindrance is due to causes entirely beyond its control such as riots, insurrections, martial law, civil commotion, war, fire, flood, earthquake, or other casualty or acts of God ("Force Majeure Event"), then the performance of such Required Act shall be excused for the period of delay and the time period for performance of the Required Act shall be extended by the same number of days in the period of delay. For purposes of this Contract, the financial inability of Vendor to perform any Required Act, including, without limitation, failure to obtain adequate or other financing shall not be deemed to constitute a Force Majeure Event. A Force Majeure Event shall not be deemed to commence until ten (10) days before the date on which the party who asserts some right, defense, or remedy arising from or based upon such Force Majeure Event gives written notice thereof to the other party. If abnormal adverse weather conditions are the basis for a claim for an extension of time due to a Force Majeure Event, the written notice shall be accompanied by data substantiating (a) that the weather conditions were abnormal for the time and could not have been reasonably anticipated and (b) that the weather conditions complained of had a significant adverse effect on the performance of a Required Act. To establish the extent of any delay to the performance of a Required Act due to abnormal adverse weather, a comparison will be made of the weather for the time of performance of the Required Act with the average of the preceding ten (10) years' climatic range based on the National Weather Service statistics for the nearest weather reporting station to the Premises. No extension of time for or excuse for a delay in the performance of a Required Act will be granted for rain, snow, wind, cold temperatures, flood, or other natural phenomena of normal intensity for the locality where the Premises are located.

26. **Inspection.** All material or service is subject to final inspection and acceptance by PMGAA. Material or service failing to conform to the specifications of this Contract will be held at Vendor's risk and may be returned to Vendor. If so returned, all costs are the responsibility of Vendor. Noncompliance shall conform to the cancellation clause set forth in this Contract.

27. **Exclusive Possession.** All services, information, computer program elements, reports, and other deliverables, which may be created under this Contract, are the sole property of PMGAA and shall not be used or released by Vendor or any other person except with prior written permission by PMGAA.

28. **Title and Risk of Loss.** The title and risk of loss of materials or services shall not pass to PMGAA until PMGAA actually receives the material or service at the Airport, unless otherwise provided within this Contract.

29. **Liens.** All materials, services, and other deliverables supplied to PMGAA under this Contract must be free of all liens and other encumbrances. Upon request of PMGAA, Vendor shall provide a formal release of all liens.

30. **Licenses.** Vendor shall maintain in current status all federal, state, and local licenses and permits required for the operation of the business conducted by Vendor as applicable to this Contract.

31. **Subsequent Employment.** PMGAA may cancel this Contract without penalty or further obligation in accordance with A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the contract, on behalf of the PMGAA is or becomes, at any time while the Contract or any extension of the contract is in effect, an employee of, or a contractor to any other party to this Contract with respect to the subject matter of the Contract. Such cancellation shall be effective when the parties to this Contract receive written notice from PMGAA, unless the notice specifies a later time.

32. **Clean Up.** Vendor shall at all times keep Contract performance areas, including storage areas used by the Vendor, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any rubbish from the premises and all tools, scaffolding, equipment and materials not property of PMGAA. Upon completion of any repair, Vendor shall leave the work and premises in clean, neat, and workmanlike condition.

33. **Patents.** Vendor shall defend, indemnify, and hold harmless PMGAA, its officers and employees from all liabilities, claims, damages, costs, or expenses, including, but not limited to attorneys' fees, for any alleged infringement of any person's patent rights or copyrights in consequence of the use by PMGAA, its officers, employees, agents, and other duly authorized representatives of tangible or intellectual property supplied to PMGAA by Vendor under this Contract.

34. **Records and Audit Rights.** Vendor's and all of its approved subcontractors' books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating to this Contract, including the papers of all Vendor and subcontractor employees that work on the Contract (all the foregoing collectively referred to as "Records"), must be open to inspection and subject to audit and/or reproduction during normal working hours by PMGAA. PMGAA is entitled to evaluate and verify all invoices, payments or claims based on Vendor's and its subcontractor's actual costs (including direct and indirect costs and overhead allocations) incurred or units expended directly in the performance of work under this Contract. For any audit under this Section, Vendor and its subcontractors hereby waive the right to keep such Records confidential. PMGAA is entitled to access to these Records from the effective date of this Contract for the duration of the work and until five years after the date of final payment by PMGAA to Vendor under the Contract. During normal working hours, PMGAA is entitled to access to all necessary Vendor and subcontractor facilities and shall be provided adequate and appropriate workspace, in order to conduct audits under this Section. PMGAA shall give Vendor or subcontractors reasonable advance notice of intended audits. Vendor shall require its subcontractors to comply with the provisions of this Section by including its requirements in all subcontracts related to this Contract.

35. **E-Verify Requirements.** To the extent applicable under A.R.S. § 41-4401, Vendor and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees, and compliance with the E-Verify requirements under A.R.S. §23-214(A). Vendor's or its subcontractors' failure to comply with such warranty shall be deemed a material breach of this Contract and may result in the termination of this Contract by PMGAA. PMGAA shall have the right to inspect the papers of Vendor's and any of Vendor's subcontractor's employee who works on this Contract to ensure the Vendor is complying with this paragraph.

EXHIBIT G – VENDOR'S RFP SUBMITTAL

Vendor's Proposal in response to Phoenix-Mesa Gateway Airport Authority's Solicitation 2022-016-RFP dated March 17, 2022, is hereby incorporated herein and made part of this Contract.

Phoenix-Mesa Gateway Airport Authority

Board Action Item

Re: Resolution 22-19

To:	**Board of Directors**
From:	**Margi EvanSon, Operations & Maintenance Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Herbicide Application Services**
Date:	**May 17, 2022**

Proposed Motion
To authorize a contract with AZ Weed King, Inc. for herbicide application services in an amount not to exceed $425,773.24 for five years which includes (2) one-year renewal options.

Narrative
A primary function of Operations and Maintenance is to ensure a safe and compliant surface for aircraft operations. This includes the elimination of wildlife attractants and maintaining Safety Areas and drainage clear of surface variations and vegetation. Additionally, an aesthetically pleasing environment for passengers, visitors, tenants, and staff of the Airport is beneficial. This contract covers herbicide application services for a total of approximately 269 acres of Airport property including:

67.66 acres of Taxiways
8.92 acres of Fence Line
144.79 acres of Runways
23.63 acres of Detention Basins
16.84 acres of Service Roads
7.71 acres of Misc. Buildings, Equipment & Storage

Request for Proposals 2022-015-RFP for Herbicide Application Services was issued on February 10, 2022. The RFP was advertised in the Arizona Business Gazette on February 10, 17, and 24, 2022 and March 3, 2022, as well as emailed to a list of prospective respondents. In addition, the RFP was posted on the Arizona Airports Association and Airports Council International-North American websites.

PMGAA received proposals by the deadline. The Evaluation Committee reviewed all proposals and determined the proposal from AZ Weed King, Inc. best satisfied the detailed requirements of the RFP based on the award criteria. AZ Weed King, Inc.'s experience, qualifications and approach to the project offers the best overall service for PMGAA. In addition, AZ Weed King, Inc. offered the least expensive proposal.

Fiscal Impact
This contract was included in the FY23 operating budget for the Operations and Maintenance Department.

Contract

RESOLUTION NO. 22-19

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize a contract with AZ Weed King, Inc. for herbicide application services in an amount not to exceed $425,773.24 for five years which includes (2) one-year renewal options.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes a contract with AZ Weed King, Inc. for herbicide application services in an amount not to exceed $425,773.24 for five years which includes (2) one-year renewal options. This resolution also authorizes the Chair or Executive Director/CEO to execute such Contract, with such insertions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 17th day of May, 2022.

John Giles, Chair

ATTEST:

Misty Johnson, Clerk of the Board

APPROVED AS TO FORM:

Jill Casson Owen, Attorney

Phoenix-Mesa Gateway Airport Authority, a joint powers airport authority authorized by the State of Arizona ("PMGAA") desires performance of the services more fully described in this **Contract Number C-20220256** ("Contract") and the attached exhibits. Arizona Weed King, Inc., an Arizona Corporation ("Vendor"), with its principal offices located at 11423 N. Cave Creek Rd., Phoenix, AZ, 85020, desires to perform these services.

Recitals

A. PMGAA requires the services as described in this Contract, including any and all exhibits and amendments, and Vendor is willing to provide these and other services under this Contract; and

B. PMGAA desires to contract with Vendor to provide services as noted herein.

Now therefore, in consideration of the recitals and the mutual covenants set forth below, PMGAA and Vendor agree as follows.

SECTION I – VENDOR SERVICES

The services to be performed by Vendor are specified in this Contract. PMGAA will not pay Vendor for any services that have not been authorized under the Contract. Services will be performed on an as needed basis. There is no guarantee of a minimum purchase of services.

The anticipated services to be provided by Vendor under this Contract shall generally include, but not be limited to, the following: Herbicide Application Services, as more specifically described in the detailed scope of services attached as **EXHIBIT A**, "Scope of Services & Fee Schedule."

PMGAA's authorized representative shall be the PMGAA Operations and Maintenance Director or his/her duly authorized representative, and that he/she shall be the sole contact for administering this Contract.

All services provided by Vendor under this Contract must be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances in Arizona. Vendor makes no other warranty, expressed or implied.

SECTION II – PMGAA RESPONSIBILITIES

PMGAA shall furnish Vendor, at no cost to Vendor, the following information or services for this Contract:

A. Access to copies of readily available maps, records, as-built drawings, benchmarks or other data pertinent to work assignments affiliated with this Contract. This does not, however, relieve Vendor of the responsibility of searching records for additional information, for requesting specific information or for verification of that information provided. PMGAA does not warrant the accuracy or comprehensiveness of any information or documents provided to Vendor.

B. In PMGAA's discretion and upon Vendor's reasonable request, access to staff for consultation with Vendor during the performance of this contract in order to identify the problems, needs, and other functional aspects of the work.

C. Prompt review of and feedback on Vendor's deliverables. PMGAA will advise Vendor concerning progress of PMGAA's review of the work, as needed.

SECTION III - PERIOD OF SERVICE

Vendor shall complete all work in accordance with the provisions of this Contract as amended.

All work initiated under this Contract must be completed on or before the expiration date of the Contract as amended.

The term of this Contract shall commence on July 1, 2022 and ends on June 30, 2025, unless terminated, canceled or extended as provided in this Contract.

This Contract has two (2) optional one-year extensions that PMGAA may exercise at its sole discretion. Prior to the expiration of the Contract Base Term, PMGAA may elect to extend the Contract. If PMGAA exercises such right, all terms, conditions and provisions of the original Contract shall remain the same and apply during the extended period with the possible exception of price. All fees for the optional renewal terms are provided for in **EXHIBIT A**,

"Scope of Services & Fee Schedule.". Any extension of this Contract shall require an amendment signed by both parties.

Vendor shall commence its services within seven (7) days of the written authorization by PMGAA. Vendor shall perform its services in a diligent manner and in accordance with this Contract.

SECTION IV – KEY PERSONNEL

The Vendor itself shall provide all services to be performed under this Contract. If Sub-Contractors are required by Vendor to perform any services listed under this contract, Vendor shall notify PMGAA prior to authorizing work by said Sub-Contractors. PMGAA may, at its sole discretion, accept or reject proposed Sub-Contractors.

SECTION V - PAYMENTS TO THE VENDOR

Vendor will be paid for work performed under this Contract plus any adjustments that have been approved in writing by PMGAA in accordance with PMGAA's Procurement Policy. Payments will be made in accordance with **EXHIBIT D**, "Compensation."

All services to be rendered by Vendor are subject to the terms of **EXHIBIT D**, "Compensation" attached hereto.

PMGAA does not guarantee any minimum or maximum fee during the Term of this Contract, and Vendor, in executing this Contract, shall not anticipate or require any minimum or maximum fee.

PMGAA shall pay Vendor in agreed upon installments for services authorized and rendered under this Contract at the completion of each work assignment, provided Vendor has satisfactorily completed the requested work.

SECTION VI - ALTERATION IN SCOPE OF SERVICES

For any alteration in the Scope of Services that would materially increase or decrease the Contract fee, the parties shall negotiate an amendment to the Contract to be executed by PMGAA and Vendor. No work shall commence on any amendment or change until the amendment has been approved by PMGAA and Vendor has been notified to proceed by PMGAA. No claim for extra work done or materials furnished by Vendor will be allowed by PMGAA, except as provided herein, nor shall Vendor do any work or furnish any materials not covered by this Contract unless the work is first authorized in writing by PMGAA and the change complies with PMGAA's Procurement Policy. Any work or materials furnished by Vendor without advance, written authorization will be at Vendor's own risk, cost, and expense. Without written authorization, Vendor shall make no claim for compensation for such work or materials furnished.

SECTION VII - WORK ASSIGNMENT COMPLETION

If, during the Term of this Contract, situations arise which prevent work completion within the allotted time, PMGAA may grant an appropriate time extension.

SECTION VIII - OWNERSHIP OF DOCUMENTS

Any documents, including all electronic copies thereof, prepared under or as a result of this Contract, shall be the property of PMGAA. To the extent necessary to effectuate such ownership, Vendor hereby assigns all right, title and interests to such documents to PMGAA. Vendor shall execute any separate contracts or documents, if any, which may be necessary to implement the terms of this Section.

All of Vendor's documents prepared under this Contract, including electronic files, are instruments of service. All of these documents become the property of PMGAA upon completion of the services and payment in full to Vendor. PMGAA may reuse or modify the documents, as it deems necessary, without Vendor's prior written authorization. PMGAA shall indemnify and hold harmless Vendor, its officers, directors, employees and subcontractors (collectively, the "Vendor") against any and all damages, liabilities or costs arising from PMGAA's modification of documents produced by Vendor under this Contract unless Vendor authorizes the modification in writing.

SECTION IX - COMPLIANCE WITH LAWS

Vendor shall comply with all federal, state and local laws, local ordinances and regulations throughout the Term.

Vendor's signature on this Contract certifies compliance with the provisions of the I-9 requirements of the *Immigration Reform and Control Act of 1986* for all personnel that Vendor and any subcontractors employ to complete any work assignment.

PMGAA shall administer this Contract in accordance with PMGAA's Procurement Policy.

SECTION X - GENERAL CONSIDERATIONS

A. The failure of either party to enforce any of the provisions of this Contract or require performance of the other party of any of the provisions hereof shall not be construed to be a waiver of the provisions, nor shall it affect the validity of this Contract or the right of either party to enforce each and every provision.

B. The fact that PMGAA has accepted or approved Vendor's work shall in no way relieve Vendor of responsibility for the work under this Contract.

C. This Contract shall be governed by the laws of the state of Arizona, both as to interpretation and performance. Any action at law, suit in equity, or judicial proceeding for the enforcement of this Contract, or any provision thereof, shall be instituted only in the courts of the state of Arizona.

D. All exhibits to this Contract and any amendments to the Contract are incorporated into it.

SECTION XI - NO KICK-BACK CERTIFICATION

Vendor warrants that no person has been employed or retained to solicit or secure this Contract upon any agreement or understanding for a commission, percentage, brokerage, or contingent fee and that no member of the PMGAA Board of Directors or any employee of PMGAA has any interest, financially or otherwise, in Vendor's firm.

For breach or violation of this warranty, PMGAA may annul this Contract without liability.

SECTION XII – SUSPENSION OF SERVICES

Vendor shall, within five (5) business days upon receiving written notice from PMGAA, suspend, delay, or interrupt all or a part of the Scope of Services. Vendor shall resume the Scope of Services within five (5) business days of receiving written notice from PMGAA.

SECTION XIII – TIMES OF PAYMENTS

Vendor shall submit invoices, and any additional required documents, for services actually completed. PMGAA shall review, certify, and approve or reject each invoice in whole or in part. PMGAA shall pay each approved invoice within 30 calendar days of the date that PMGAA approves the invoice.

SECTION XIV – TIMELY REVIEW

PMGAA will review Vendor's studies, reports, proposals, and other related documents and render any decisions required by Vendor in a timely manner. Notwithstanding these reviews, Vendor remains solely responsible for all of its deliverables and services under this Contract. By PMGAA's reviews, PMGAA does not assume any liability for or retained control over Vendor's work or Vendor's responsibility for the safety of its employees.

SECTION XV – DISPUTE RESOLUTION

All disputes between PMGAA and Vendor arising out of or relating to this Contract will be subject to the Dispute Resolution provisions as set forth in **EXHIBIT F**, "PMGAA Standard Terms and Conditions", attached hereto and incorporated herein by reference.

PMGAA and Vendor shall include a similar dispute resolution provision in all contracts with other contractors and Vendors retained for the Project and shall require all other independent contractors and Vendors to include a similar dispute resolution provision in all contracts with subcontractors, suppliers or fabricators retained by them.

SECTION XVI - LIABILITY OF VENDOR

To the fullest extent permitted by law, Vendor shall defend, save, indemnify, and hold harmless PMGAA, its member governments, departments, officers, employees, and agents from and against damages arising out of any act, error, or omission of Vendor relating to its services under this Contract.

SECTION XVII - LAWS AND REGULATIONS

All federal, state, and local laws and regulations that relate to Vendor's services apply to Vendor's performance of this Contract throughout. These laws and regulations are deemed included in this Contract the same as though written out in full, especially the current applicable Federal Aviation Administration (FAA) rules and regulations associated with airport projects; pertinent Airport engineering standards; and local rules, regulations, and industry standards.

SECTION XVIII – ARCHAEOLOGICAL RESOURCE PROTECTION

While performing services under this Contract, Vendor may encounter a known or unknown archaeological site located at the Airport. If Vendor encounters what it believes to be an archaeological site, Vendor shall immediately notify PMGAA of the site's location and take all reasonable precautions to protect and preserve the site until PMGAA otherwise directs.

SECTION XIX INSURANCE REQUIREMENTS

A. Vendor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Vendor, its agents, representatives, or employees.

B. All insurance policies required by this Contact, except *Workers Compensation* and *Professional Liability*, shall name PMGAA, its agents, representatives, officers, directors, officials and employees as Additional Insured.

C. Minimum Scope and Limits of Insurance. Coverage shall be at least as broad as:

i. Commercial General Liability: Insurance Services Office Form CG 00 01 covering Bodily Injury and Property Damage on an "occurrence" basis, including personal & advertising injury with limits no less than $1,000,000 per occurrence, $2,000,000 General Aggregate.

ii. Auto Liability: ISO Form CA 00 01 covering any auto (Symbol 1), or if Vendor has no owned autos, hired, (Symbol 8) and non-owned autos (Symbol 9), with limit no less than $1,000,000 Combined Single limit per accident for bodily injury and property damage ($5,000,000 if operating in the Air Operations Area of the Airport).

iii. Workers' Compensation: Statutory Limits as required by the state of Arizona, and Employer's Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

iv. Pollution Legal Liability: Insurance with a combined single limit, or the equivalent, of not les than 2,000,000 for each occurrence and $2,000,000 aggregate.

D. If the Vendor maintains higher limits than the minimums shown above, PMGAA requires and shall be entitled to coverage for the higher limits maintained by the Vendor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to PMGAA.

E. Additional insurance provisions. The insurance policies shall provide, or be endorsed to include, the following provisions:

i. Notice of Cancellation: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to PMGAA.

ii. Waiver of Subrogation: Vendor waives any right to subrogation. Vendor shall obtain an endorsement necessary to affect this waiver of subrogation from the insurer for all lines of coverage required by this Contract, except *Workers Compensation* and *Professional Liability,* for claims arising out of the Vendor's work or service.

iii. Primary Coverage: For all claims related to this Contract, all of Vendor's insurance policies will be primary and non-contributory. Any insurance or self-insurance maintained by PMGAA, its officers, officials, employees, or volunteers will be in excess of Vendor's insurance and will not contribute with it.

iv. Deductibles and Self-Insured Retentions: Any deductibles or self-insured retentions must be declared to and approved by PMGAA. PMGAA may require the Vendor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

v. Acceptability of Insurers: Insurance is to be placed with insurers with a current A.M. Best's rating

of no less than A, VII, unless otherwise acceptable to PMGAA.

vi. Claims Made Policies: No Claims Made policies (other than Professional Liability) will be accepted. For policies that provide claims-made coverage:

a) The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

b) Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

c) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Vendor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.

vii. Verification of Coverage: Vendor shall furnish PMGAA with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by PMGAA before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Vendor's obligation to provide the required insurance. PMGAA reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

viii. Subcontractors: Vendor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Vendor shall ensure that PMGAA is an additional insured on insurance required from subcontractors.

ix. Special Risks or Circumstances: PMGAA reserves the right to modify these requirements, including limits, based on the nature of the risk, scope of services, prior experience, insurer, coverage, or other special circumstances.

SECTION XX NOTICES

Any notice, report or information which may be or is required to be given under this Contract will be in writing and shall be sent by registered or certified mail, return receipt requested, postage prepaid, addressed as follows:

TO PMGAA: Phoenix-Mesa Gateway Airport Authority
Attn: Operations & Maintenance Director
5835 South Sossaman Road
Mesa, Arizona 85212

TO VENDOR: Arizona Weed King, Inc.
Attn: Lance Robinson
11423 N. Cave Creek Road
Phoenix, AZ 85020

or to such other person(s) or address(es) as any such Party may designate from time to time by notice to the other Parties in accordance with this Section.

SECTION XXI – COOPERATIVE USE OF CONTRACT

This contract may be extended for use by other municipalities, school districts and government agencies (participating agency) in the State of Arizona. Any such usage by other participating agencies must be in accordance with the statutes, codes, ordinances, charter and/or procurement rules and regulations of the respective participating agency.

Other participating agencies will be responsible for entering into separate cooperative use agreements with the Vendor.

Payment for purchase(s) made under this contract will be the sole responsibility of each participating agency. PMGAA shall not be responsible for any disputes arising out of transactions made by other agencies. Vendor shall be responsible for correctly administering these contracts in accordance with all terms, condition, requirements and approved pricing to any eligible participating agency.

Executed as of the Commencement Date.

EXHIBIT A – SCOPE OF SERVICES & FEE SCHEDULE

The services to be performed by Vendor and the completion of related efforts are specified in the following Scope of Services & Fee Schedule agreed to by the parties.

SCOPE OF SERVICES

1. Product and Service Requirements

The Airport consists of approximately two hundred sixty nine (269) acres of river rock, dirt, and gravel covered areas in and around runways, taxiways, and fence lines. They require a pre and post emergent herbicide application.

Vendor shall furnish all labor, materials (except water), equipment, tools, supplies, supervisors, and transportation necessary to provide herbicide application service in accordance with the specifications contained herein.

Vendor shall apply a pre-emergent twice annually with the first application beginning in July and the second commencing in December. Each application, whether pre-emergent or spot spraying, shall begin with a "Written Notice of Intent", notifying the PMGAA representative no less than five (5) calendar days prior to the intended spraying activity. Once the work has begun, the Vendor shall have a **MAXIMUM** of eight (8) business days to complete that particular project.

There may be occasions when the Vendor may have to exit certain areas that are next to the runway while an aircraft operation takes place. Airport Operations personnel will work closely with the application crews to schedule the work that takes place in these critical areas during the late night hours when aircraft typically do not operate. These types of delays are possible but should be very minimal.

During application, the operator shall not be allowed to exit the vehicle while in the vicinity of any taxiways or runways.

The Vendor shall be responsible to have the label and MSDS in plain view of anyone approaching the vehicle. The Vendor shall also have all of the personal protective gear required at all times.

The Vendor shall email the spray logs to the designated PMGAA representative within two (2) business days of completing the contract work. The logs must contain, at a minimum, the date of application, what areas were treated, product that was used, dilution of final formula sprayed , weather conditions, and name and license number of applicator.

The applicable PMGAA representative shall show the Vendor where they may retrieve water. Only one (1) place shall be designated for this.

All runways, taxiways, taxiway edges, fence lines, and designated pocket areas shall be treated with the following products, dictated by temperature. Vendor may suggest product substitutions to PMGAA, prior to use, however all such substitutions must be approved in writing by PMGAA prior to use.

<u>Diuron 4L</u> (pre- and post-emergent)
This product must be watered in for full effectiveness. Product to be used as follows:

- Temperatures near or over seventy degrees Fahrenheit (70° F).
- Eight (8) quarts per acre with non-ionic surfactant added as last ingredient.
- Sixteen (16) ounces of blue marker per one hundred (100) gallons of water.

- Applied with largest nozzle available with lowest pressure allowed for proper coverage.

DO NOT apply near shrubs, trees, or turf. **DO NOT** apply over any tree root zones or where run-off is possible.

The above product shall NOT be used in any retention basin.

Isoxaben (pre-emergent only)

This product must be watered in for full effectiveness. Product to be used as follows:

- Temperature under seventy degrees Fahrenheit (70° F).
- One and thirty-three one hundredths (1.33) pounds active ingredient per acre (ai/A).

Glysophate (non-selective herbicide, spot treatment only, year-round use)

Product to be used as follows:

- Two percent (2%) solution per label.
- Sixteen (16) ounces blue marker per one hundred (100) gallons water required with product.
- Silicon (only) surfactant required with this product (per product label).

Diquant (non-selective herbicide, spot treatment only)

This product is targeted to top kill plant use only. Product to be used as follows:

- Per label mixture.
- Sixteen (16) ounces blue marker per one hundred (100) gallons water required with product.
- Silicon (only) surfactant required with this product (per product label).

Upon completion, the Vendor shall provide documentation of work completed at specified rates to the designated PMGAA representative. The spray report forms established by the Structural Pest Control Commission shall suffice.

Under **NO** circumstances shall the site be sprayed when people are present.

All products supplied by the Vendor shall meet any and all federal, state, local, ANSI, and O.S.H.A. laws, rules, and regulations pertaining to the products covered under the scope of this contract.

The Vendor shall have sufficient personnel and equipment to complete all work requests, as defined in this Contract, in the time frame required by PMGAA.

The Vendor shall protect and prevent damage to wires, cable, structures, fences, vehicles, airplanes, trees, plants, and other artifacts. Damage to any property shall be corrected by repair or replacement by the Vendor at his or her own expense to the satisfaction of the property owner or PMGAA.

Vendor shall be in compliance with all federal, state, local, ANSI, and O.S.H.A. laws rules and regulations, and all other applicable regulations for the term, and any extension thereof, of this Contract.

Vendor, without additional expense to PMGAA, shall be responsible for obtaining and maintaining any necessary licenses and permits required in connection with the completion of the required services herein.

2. Warranty Requirements

For all workmanship and materials provided under the Scope of Services, Vendor shall guarantee and warranty a weed-free environment for all areas treated for a **MINIMUM** period of one (1) year after treatment.

Vendor shall respond to a request for re-treatment of weed growth breakthrough within three (3) business days after initial contact. Call-outs will be made for any pre-treated area that experiences more than one-hundred square feet (100 ft^2) of weed growth within the warranty period. All call-outs (warranty work) for re-treatment during the warranty period shall be done at no cost to PMGAA.

Upon all herbicide applications, Offeror shall provide to PMGAA, in a method agreed to by both parties, the date of application, what areas were treated, product that was used, dilution of final formula sprayed, weather conditions, and name and license number of Applicator.

3. Supervisors and Crews

The Vendor's Supervisor(s) shall have the full authority to act on behalf of the Vendor in any situation.

The Vendor's Supervisor(s) and crews shall be monitored by PMGAA for their effectiveness interacting with PMGAA personnel, citizens, and ability to maintain a written schedule.

Vendor must, at a minimum, provide a fully staffed crew for services at PMGAA The actual crew size shall be the responsibility of the Vendor to establish in order to meet the Scope of Services detailed herein. A fully staffed crew shall be defined as a **minimum** of the following:

- One (1) Supervisor who is conversant in the English Language
- One (1) vehicle capable of performing the required work as indicated by applicable PMGAA representative at the time of service request.
- Additional crew members as required to complete the required work as indicated by applicable PMGAA representatives at the time of service request.

4. Vehicle and Equipment Requirements

All vehicles and equipment used for the performance of work under the scope of this Contract, shall be maintained in a safe operating condition, and shall comply with all applicable federal, state, local, ANSI, and O.S.H.A. laws, rules, and regulations.

<u>Vehicles:</u>
The Vendor shall only use trucks and vehicles licensed for use on public streets (when applicable). All vehicles shall have signage as required by the Arizona Structural Pest Control Commission. Prior to use, PMGAA shall authorize all equipment used on any Airport sites.

All vehicles used in the performance of work under the scope of this contract shall be equipped with an amber/yellow light bar OR amber/yellow light which can be clearly seen from a **minimum** distance of five hundred feet (500') in all directions. Applicable PMGAA representative shall be the sole determinant as to whether equipment warning lights are sufficient.

All Vendor vehicles used in the performance of the Scope of Services shall contain signage which includes a **minimum** of the Vendor Company name; and /or logo. Vehicle signage shall be sufficient, in the opinions

of the applicable PMGAA representative, to make it apparent to others, as to the nature of the business and the occupants of the vehicle. Vehicle signage shall appear on a **minimum** of the right and left sides of the vehicle. Applicable PMGAA representative will approve proper identification of vehicles during the term of the contract.

Equipment:
The **MINIMUM** requirements of Vendor's application equipment shall be as follows:

- Three hundred (300) gallon truck-mounted water tank.
- No hand wands or handguns will be allowed in any open areas, Hand wands or handguns will be allowed along the Airport boundaries and in some areas designated by the applicable PMGAA representative.
- Application guidance spray system calibrated for the nozzle kit on the unit.
- Computer generated printout of flow metered material. Printed report shall contain gallons of water used and herbicide application rate.
- GPS tracking system is desirable to enable the Vendor to verify the areas that were treated.

Vendor's equipment to be used for the performance of this Contract is included in Vendor's Proposal that was submitted to PMGAA under solicitation 2022-015-RFP and is made part of this Contract.

5. Employee Badging, Identification, and Work Apparel

Airport Security Access Badges are required of all Vendor personnel performing work functions in accordance with this Contract. Vendor personnel shall obtain and properly display a PMGAA airport security badge in plain view while on the Airport. Airport Security Access Badge applications may be downloaded at www.gatewayairport.com under the About Us | Policies, Documents and Forms link. Vendor is responsible for all badging fees.

All Vendor employees performing work under the scope of this contract shall wear conservative style uniform shirts that will have sewn on or embossed identification labels of the Vendor's company name, and/or logo and will appear on the front area of the shirt near chest height of the shirt. Shirts may also have the company name or logo appear on the backside of the shirt. PMGAA will approve proper identification of uniforms during the term of the contract.

Any apparatus which may impede hearing or sight is not allowed. Earplugs and/or safety glasses are exempt.

Vendor's employees shall wear uniform style pants or shorts in durable denim, canvas, or woven fabric in a slacks, utility, cargo or Bermuda style. Cut-offs and short-shorts are not acceptable wearing apparel.

Outlandish styles, patterns, hats, colors of wearing apparel, verbiage imprinted on apparel, etc. worn by Vendor's employees that may promote negativity in the work place or advertise any product other than the Vendor's company name and/or logo will not be allowed.

Sandals, flip-flops, open-toed shoes are not acceptable footwear.

PMGAA shall be the sole determinant of the appropriateness of all work apparel.

Vendor will provide a roster of his employees that will be performing work under the scope of this contract. Vendor will be required to update roster monthly to notify PMGAA representative of all changes made in personnel.

6. Inspections

The Vendor shall meet with the applicable PMGAA representative, on a regular basis as established by PMGAA, to ensure proper performance of the Scope of Services.

FEE SCHEDULE

For the services provided herein, PMGAA agrees to pay Vendor the not to exceed amount of $80,336.68 for the first year of the Contract. Vendor may increase pricing on an annual basis up to the percentage increase noted below and if Vendor notifies PMGAA at least 45 days prior to the beginning of the next years anniversary date. Anniversary date is July 1 of each year.

The prices stated below are all inclusive and includes all pertinent fees normally associated with the services and are on an annual basis. This shall include, but not limited to, environmental fees, shop supplies, clean-up, transportation, etc. No additional charges beyond the prices listed below (except applicable sales tax) shall be allowed unless authorized, in writing by PMGAA, prior to the services being performed.

Exhibit C (Continued)

EXHIBIT D - COMPENSATION

All compensation for services rendered by Vendor shall be based upon criteria established below. All services must be billed through the Vendor.

1. Fees to be Specified in Contract

Any and all services to be performed under this Contract require approval. All compensation for services shall be identified in writing. The Contract shall describe the scope of services to be performed (by tasks and subtasks, where appropriate), the fees associated with that performance, and any applicable special provisions. Vendor's compensation for services included in this Contract is totaled and set forth in **EXHIBIT A**, "Scope of Services and Fee Schedule".

2. Method of Payment

Subject to the terms of this Contract, PMGAA shall pay Vendor the appropriate rate or fixed price amount for services rendered as described in the Contract only after Vendor has submitted an invoice for services performed and PMGAA has certified and approved each invoice.

For services rendered in accordance with the Contract, Vendor shall submit to PMGAA an invoice depicting tasks performed and/or hours spent for services performed. Invoices must be based on the actual hours and/or expenses incurred for the services completed during the billing period. Vendor's invoices must specify that Vendor has performed the services, and PMGAA must certify and approve each invoice as a condition to payment.

3. Vendor Responsibilities for Compensation

Vendor shall prepare monthly invoices and/or progress reports in accordance with terms specified in the Contract. Progress reports will clearly indicate the progress to date and the amount of compensation due by virtue of that progress. All invoices for payment shall be for work completed unless otherwise agreed to by PMGAA. Invoices/requisitions for payment for services subject to funding by the FAA and/or ADOT shall include the documentation requirements of the FAA and/or ADOT, which are outlined in the *Airport Improvement Program (AIP) Handbook* dated September 30, 2014, or most current version.

4. PMGAA Responsibilities for Compensation

PMGAA agrees to pay Vendor's invoices for payment within 30 calendar days after the invoice is approved. PMGAA may withhold payment on any invoice if it believes that Vendor has not performed the work in a satisfactory manner. If PMGAA withholds payment to Vendor, PMGAA shall promptly notify Vendor and explain the reasons for the decision to withhold payment.

5. Billing Address

All invoices submitted to PMGAA for payment shall be submitted to:

Phoenix-Mesa Gateway Airport Authority
Attn: Operations and Maintenance Director
5835 S. Sossaman Road
Mesa, Arizona 85212

EXHIBIT E - SPECIAL PROVISIONS

1. Civil Rights Act of 1964, Title VI – General

The contractor (Vendor) agrees to comply with pertinent statues, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

2. Civil Rights Act of 1964, Title VI – Assurances

During the performance of this Contract, the contractor (Vendor), for itself, its assignees and successors in interest agrees as follows:

a. Compliance with Regulations – Compliance with Regulations: The contractor (hereinafter includes Vendors) will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

b. Nondiscrimination – The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

c. Solicitations for Subcontracts, including Procurements of Materials and Equipment – In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Non-discrimination Acts And Authorities on the grounds of race, color, or national origin.

d. Information and Reports – The contractor will provide all information and reports required by the Acts, the Regulations and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by PMGAA or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to PMGAA or the FAA as appropriate, and will set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance – In the event of a contractor's noncompliance with the Nondiscrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to:

i) Withholding of payments to the contractor under the contract until the contractor complies, and/or;
ii) Cancellation, termination, or suspension of the Contract, in whole or in part.

f. Incorporation of Provisions – The contractor will include the provisions of paragraphs one through six of this **EXHIBIT E** in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as PMGAA or the FAA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request PMGAA to enter into any litigation to protect the interests of PMGAA. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

3. Civil Rights – Title VI List of Pertinent Nondiscrimination Acts and Authorities

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- 49 CFR part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;
- The FAA's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

4. <u>Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion</u>

Vendor, by accepting this Contract, certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any government department or agency.

5. <u>Project Security</u>

As some or all portions of work possible during the Term of this Contract may be located inside the secured area of the Airport, adherence to and familiarity with federal security regulations is essential. For these projects, Vendor shall be responsible for fulfilling the security requirements described herein.

a. <u>Secured Area Access</u> – All Vendor personnel who require unescorted access to the secured area of the Airport, prior to the issuance of an Airport Identification badge, must successfully complete the Security Badge Application and Security Badge Authorization forms.

b. <u>Employee Security Badges</u> – If deemed necessary by PMGAA all Vendor and/or subcontractor personnel performing work functions in accordance with this Contract shall obtain and properly display

an Airport security badge. Vendor shall submit a Security Badge Application form to the PMGAA security office for each employee requiring unescorted access, along with the current fee for each badge. Badge fees are identified on the current *Airport Fees, Services and Rental Rates* available via the Airport website at www.gatewayairport.com and are subject to change.

i. All fees must be paid to PMGAA by cash or check.
ii. Airport Security Badge Application forms and instructions are available via the Airport website at www.gatewayairport.com.
iii. An authorized representative of Vendor must also obtain and submit a Security Media Authorization form, which is to be submitted to the PMGAA badging office. The Security Media Authorization form and instructions are available via the Airport website at www.gatewairport.com.
iv. A training class on aviation security must be successfully completed before individuals are issued a badge. Fees for the security badge include attendance for the necessary training classes. Attendance at the security classes and issuance of the security badge may take two hours per person.
v. Additional information, including a "Frequently Asked Questions" is available via the Airport website at www.gatewairport.com or by contacting the PMGAA Badging Office at (480) 988-7522. The Badging Office is located at 5803 S. Sossaman Road, Mesa AZ 85212.
vi. Vendor shall immediately notify the PMGAA Badging Office of any Vendor personnel whose employment status has changed.
vii. Vendor shall retrieve all security badges and keys and return them to the PMGAA Badging Office. A fee, as indicated on the most current *Airport Rates and Charges Schedule*, will be charged for each badge that is damaged, lost or not returned.
viii. The PMGAA Badging Office will require a completed Security Badge Application from each Vendor employee so certified by Vendor as requiring such before a Security Badge is issued.
ix. Under certain circumstances and out of control of PMGAA, security measures may change on short notice. No deviations from any security measure shall be allowed at any time.
x. At all times, aircraft shall have the right-of-way over all vehicle traffic.

c. Fines – Due to both the safety and security precautions necessary at the Airport, any failure of the Vendor to adhere to prescribed Airport requirements/regulations has consequences that may jeopardize the health, welfare and lives of Airport customers and employees, as well as the Vendor's own employees. Therefore, if Vendor is found to be in non-compliance with any security, airfield badging/licensing and airfield safety requirement, a Notice of Violations (NOV) may be issued. A current listing of fines is available by contacting the PMGAA Badging Office.

6. Standard Terms & Conditions

PMGAA's Standard Terms & Conditions (in **EXHIBIT F** attached) include clauses that pertain to both construction and professional services. For such, the term "contractor" is to be considered same as "Vendor." If a clause implies construction service then it is waived for a professional services contract. PMGAA reserves the right to make that determination if there is a conflict.

7. Federal and State Guidelines and Regulations

All work performed under this Contract must satisfy FAA and applicable agency standards, and be accomplished in accordance with applicable federal, state and local guidelines and regulations, including FAA Advisory Circulars, NEPA and Arizona environmental statutes.

Vendor shall perform the services as described in approved Contract in accordance with the applicable requirements imposed by PMGAA, ADOT, FAA and any other applicable sponsoring agencies. Vendor and its subcontractors/subcontractors, if any, shall comply with any and all applicable laws, regulations, executive orders, policies, guidelines, and any other requirements for FAA Airport Improvement Program (AIP) projects. Vendor shall provide PMGAA all information, reports, documents, and/or certifications requested by PMGAA for the satisfaction of any grant requirements for the reimbursement of services, including, without limitation, identifying the specific services provided by Vendor and the billing period(s) during which services were or are to be provided. Nothing herein shall be construed as making the FAA or ADOT a party to this Contract.

8. Right to Contract With Other Firms

PMGAA shall have the right to contract with other firms and/or persons and/or to self-perform additional services, which may be the subject of this Contract. Vendor shall conduct its operations and perform any services authorized under the Contract so as not to interfere with or hinder the progress of completion of the work being performed by PMGAA and/or other firms and/or persons. Vendors working on the same project shall cooperate with each other in the performance, scheduling, and, if applicable, the integration of their respective services.

9. Independent Contractor Status

At all relevant times, Vendor is - and shall remain - an independent contractor with regard to performance of its services. PMGAA retains no control over Vendor, the performance of its work or services, or the safety of its employees. Vendor is not authorized to enter into any contract or commitment, authorize any payment, or accept any document, services, goods or materials for, in the name of, or on behalf of PMGAA.

EXHIBIT F – PMGAA STANDARD TERMS & CONDITIONS

1. **Certification.** Vendor certifies:
   a. The award of this Contract did not involve collusion or other anti-competitive practices.
   b. It shall not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, or A.R.S. Section 31-1461, et. seq.
   c. It has not given, offered to give, nor intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Contract; and Vendor hereby certifies that the individual signing this Contract is an authorized agent for Vendor and has the authority to bind the Vendor to the Contract.

2. **Termination of Contract.**

   a. PMGAA reserves the right to cancel this Contract in whole or in part due to failure of Vendor to carry out any term, promise, or condition of the Contract. At least ten (10) business days before terminating the Contract, PMGAA will issue a written notice of default specifying one of the following reasons. PMGAA shall, at all times during the term of the Contract or any extension term thereto, have the sole authority to determine if the default has been cured to its satisfaction.

      (1) Vendor has provided personnel that do not meet the requirements of the Contract.

      (2) Vendor has failed to perform adequately the stipulations, conditions or services/specifications required in this Contract.

      (3) Vendor has attempted to impose on PMGAA personnel or materials, products, or workmanship of unacceptable quality.

      (4) Vendor has failed to furnish the required service(s) and/or product(s) within the time stipulated in the Contract or associated Authorization of Services.

      (5) Vendor has failed to make progress in the performance of the requirements of the Contract or Authorization of Services, or Vendor fails to give PMGAA adequate assurance the Vendor will perform the Contract in full and on time.

      (6) Each payment obligation of PMGAA created hereby is conditioned on the availability of PMGAA, state, or federal funds appropriated for payment of the obligation. If funds are not available or allocated by PMGAA for continuance of service under this Contract, then PMGAA may terminate the Contract. PMGAA shall promptly notify Vendor regarding the service that may be affected by a shortage of funds. No penalty accrues to PMGAA if this provision is exercised, and PMGAA shall not be liable for any future payments due or for any damages as a result of termination under this paragraph.

   b. This Contract may be terminated at any time by mutual written consent or by PMGAA - with or without cause - provided the terminating party gives forty-five (45) calendar days' advance written notice to the other party. PMGAA may terminate this Contract, in whole or in part, for PMGAA's convenience and with fourteen (14) days' written notice. If this Contract is terminated, then PMGAA is liable only for services rendered and material received, certified, and approved by PMGAA under the Contract before the termination effective date.

3. **Dispute Resolution**.

   a. **Negotiations**. If a dispute arises out of or relates to this Contract or its breach, the parties to this Contract shall endeavor to settle the dispute through direct discussions as a condition precedent to mediation or binding dispute resolution.

   b. **Mediation**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations, the parties to this Contract, upon the written request of either, shall engage in mediation, to be administered privately by a mediator and according to rules mutually agreed upon by the parties to this Contract, or, the absence of such mutual agreement, by a mediator appointed by JAMS and

administered by JAMS in accordance with its then-current mediation rules. The fees and costs of mediation shall be split equally by the parties to this Contract, but subject to reallocation following binding dispute resolution.

c. **Binding Dispute Resolution**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations or mediation, either party may, within the time limitations for bringing claims under Arizona law and this Contract, commence formal dispute resolution proceedings. Both parties to this Contract consent to binding arbitration administered by JAMS according to its then current arbitration rules, provided, however, that (i) in the event both parties agree, the arbitration may be administered privately by an arbitrator and according to rules mutually agreed upon by the parties to this Contract, and (ii) in the event any party seeks relief against the other party or against a non-party which cannot fully be granted in arbitration, by reason of non-joinder or otherwise, the parties to this Contract are excused from this arbitration requirement and the parties to this Contract shall proceed in the state or federal courts of competent jurisdiction and located in Maricopa County, Arizona. In any arbitration or litigation, the prevailing party shall be entitled to an award of its reasonable attorneys' fees and costs as determined by the arbitrator or court as applicable.

4. **Independent Contractor.** At all times, each party acts in its individual capacity not as agent, employee, partner, joint venturer, or associate of the other party. An employee or agent of one party may not be deemed or construed to be the employee or agent of the other party for any purpose whatsoever. Neither Vendor nor any of its employees are entitled to compensation from PMGAA in the form of salaries, paid vacation, or sick days. PMGAA will not provide any insurance to Vendor, including *Workers' Compensation* coverage. PMGAA will not withhold FICA, taxes, or any similar deductions from PMGAA's payments under this Contract.

5. **Affirmative Action.** Vendor shall abide by all the federal and state of Arizona provisions for equal opportunity in the work place.

6. **Human Relations**. Vendor shall abide by all the federal and state of Arizona provisions against discrimination of disadvantaged business enterprises in applicable PMGAA contracts.

7. **Non-Exclusive Contract**. This Contract is for the sole convenience of PMGAA. PMGAA reserves the right in its discretion to obtain the same or similar goods or services from any other source.

8. **Americans with Disabilities Act.** Vendor shall comply with all applicable provisions of the *Americans with Disabilities Act* (Public Law 101-336, 42 U.S.C. 12101-12213) and applicable federal regulations under the *Act*.

9. **Confidentiality of Records**. Vendor shall establish and maintain procedures and controls that are acceptable to PMGAA for the purpose of assuring that no information contained in its records or obtained from PMGAA or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under this Contract. Persons requesting such information should be referred to PMGAA. Vendor also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Vendor as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by PMGAA.

10. **Gratuities.** PMGAA may, by written notice to the Vendor, cancel this Contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by Vendor or any agent or representative of Vendor, to any officer or employee of PMGAA involved in the amending, or the making of any determinations with respect to the performing of such Contract. If this Contract is canceled by PMGAA under this provision, PMGAA shall, in addition to any other rights and remedies, repay to the Vendor the amount of the gratuity.

11. **Applicable Law.** This Contract shall be governed by, and PMGAA and Vendor shall have, all remedies afforded each by the *Uniform Commercial Code*, as adopted in the state of Arizona, except as otherwise provided in this Contract or in laws pertaining specifically to PMGAA. This Contract shall be governed by

the laws of the state of Arizona, and suits pertaining to this Contract shall be brought only in federal or state courts in the state of Arizona.

12. **Contract**. This Contract is based on and the result of a negotiated Scope of Services and Proposal, Bid or Statement of Qualifications submitted by Vendor under this RFP, IFB or RFQ. The Contract contains the entire agreement between PMGAA and Vendor. No prior oral or written agreements, contracts, proposals, negotiations, purchase orders, or master agreements (in any form) are enforceable between the parties.

13. **Contract Amendments**. This Contract shall be modified only by a written amendment signed by the PMGAA Executive Director or his/her designee, and persons duly authorized to enter into contracts on behalf of Vendor.

14. **Provisions Required by Law**. Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

15. **Severability.** The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract, which may remain in effect without the valid provision, or application.

16. **Protection of Government Property.** Vendor shall use reasonable care to avoid damaging all PMGAA property, including buildings, equipment, and vegetation (such as trees, shrubs, and grass). If Vendor damages PMGAA's property in any way, Vendor shall immediately report such damage to PMGAA and repair or replace the damage at no cost to PMGAA, as directed by the PMGAA Executive Director. If Vendor fails or refuses to repair or replace the damage, then PMGAA may terminate the Contract, and PMGAA shall deduct the repair or replacement cost from money due Vendor under the Contract.

17. **Interpretation – Parol Evidence.** This Contract is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms thereof. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in this Contract. Acceptance or acquiescence in a course of performance rendered under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to object.

18. **Subcontracts.** Vendor shall not assign any rights or interest nor enter into any subcontract with any other party to furnish any of the materials, goods or services specified herein without the prior written permission of PMGAA. PMGAA may, at its sole discretion, accept or reject proposed subcontractors or assignment. PMGAA shall notify Vendor of its acceptance or rejection within forty-five (45) days or written request by Vendor. All subcontracts shall comply with federal and state laws and regulations applicable to the materials, goods or services covered by the subcontract and shall include all the terms and conditions set forth herein, which shall apply with equal force to the subcontract, as if the subcontractor were the Vendor referred to herein. Vendor is responsible for Contract performance whether subcontractors are used.

19. **No Waiver.** No provision in this Contract shall be construed, expressly or by implication, to waive either party's existing or future claim, right, or remedy available by law for breach of contract. The failure of either party to insist on strict performance of any Contract term or condition; to exercise or delay exercising any right or remedy provided in the Contract or by law; or to accept materials, services, or Vendor's services under this Contract or imposed by law, shall not be deemed a waiver of any right of either party to insist upon strict performance of the Contract.

20. **Warranties.** Vendor warrants that all materials and services delivered under this Contract shall conform to the specifications thereof. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by PMGAA, shall not alter or affect the obligations of Vendor or the rights of PMGAA under the foregoing warranties. Additional warranty requirements may be set forth in this Contract.

21. **Indemnification.** To the fullest extent permitted by law, Vendor shall defend, save, indemnify, and hold harmless PMGAA, its agents, representatives, officers, directors, officials, and employees (collectively the "Indemnitees"), for, from and against all claims, damages, losses and expenses, including but not limited to

attorney fees, court costs, expert witness fees, and the cost of appellate proceedings, relating to, arising out of, or alleged to have resulted from the Vendor's acts, errors, omissions, or mistakes relating to Vendor's services under this Contract.

22. **Right to Assurance.** Whenever one party to this Contract in good faith has reason to question the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. If a demand is made and no written assurance is given within five (5) business days, the demanding party may treat this failure as an anticipatory repudiation with this Contract.

23. **Advertising.** Vendor shall not advertise or publish information concerning this Contract without prior written consent of PMGAA.

24. **Right to Inspect.** PMGAA may, at reasonable times, and at PMGAA's expense, inspect the place of Vendor's or any of Vendor's subcontractor's business, which is related to the performance of this Contract or related subcontract.

25. **Force Majeure.** In the event either party shall be delayed or hindered in or prevented from the performance of any covenant, agreement, work, service, or other act required under this Contract to be performed by such party ("Required Act"), and such delay or hindrance is due to causes entirely beyond its control such as riots, insurrections, martial law, civil commotion, war, fire, flood, earthquake, or other casualty or acts of God ("Force Majeure Event"), then the performance of such Required Act shall be excused for the period of delay and the time period for performance of the Required Act shall be extended by the same number of days in the period of delay. For purposes of this Contract, the financial inability of Vendor to perform any Required Act, including, without limitation, failure to obtain adequate or other financing shall not be deemed to constitute a Force Majeure Event. A Force Majeure Event shall not be deemed to commence until ten (10) days before the date on which the party who asserts some right, defense, or remedy arising from or based upon such Force Majeure Event gives written notice thereof to the other party. If abnormal adverse weather conditions are the basis for a claim for an extension of time due to a Force Majeure Event, the written notice shall be accompanied by data substantiating (a) that the weather conditions were abnormal for the time and could not have been reasonably anticipated and (b) that the weather conditions complained of had a significant adverse effect on the performance of a Required Act. To establish the extent of any delay to the performance of a Required Act due to abnormal adverse weather, a comparison will be made of the weather for the time of performance of the Required Act with the average of the preceding ten (10) years' climatic range based on the National Weather Service statistics for the nearest weather reporting station to the Premises. No extension of time for or excuse for a delay in the performance of a Required Act will be granted for rain, snow, wind, cold temperatures, flood, or other natural phenomena of normal intensity for the locality where the Premises are located.

26. **Inspection.** All material or service is subject to final inspection and acceptance by PMGAA. Material or service failing to conform to the specifications of this Contract will be held at Vendor's risk and may be returned to Vendor. If so returned, all costs are the responsibility of Vendor. Noncompliance shall conform to the cancellation clause set forth in this Contract.

27. **Exclusive Possession.** All services, information, computer program elements, reports, and other deliverables, which may be created under this Contract, are the sole property of PMGAA and shall not be used or released by Vendor or any other person except with prior written permission by PMGAA.

28. **Title and Risk of Loss.** The title and risk of loss of materials or services shall not pass to PMGAA until PMGAA actually receives the material or service at the Airport, unless otherwise provided within this Contract.

29. **Liens.** All materials, services, and other deliverables supplied to PMGAA under this Contract must be free of all liens and other encumbrances. Upon request of PMGAA, Vendor shall provide a formal release of all liens.

30. **Licenses.** Vendor shall maintain in current status all federal, state, and local licenses and permits required for the operation of the business conducted by Vendor as applicable to this Contract.

31. **Subsequent Employment.** PMGAA may cancel this Contract without penalty or further obligation in accordance with A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the contract, on behalf of the PMGAA is or becomes, at any time while the Contract or any extension of the contract is in effect, an employee of, or a contractor to any other party to this Contract with respect to the subject matter of the Contract. Such cancellation shall be effective when the parties to this Contract receive written notice from PMGAA, unless the notice specifies a later time.

32. **Clean Up.** Vendor shall at all times keep Contract performance areas, including storage areas used by the Vendor, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any rubbish from the premises and all tools, scaffolding, equipment and materials not property of PMGAA. Upon completion of any repair, Vendor shall leave the work and premises in clean, neat, and workmanlike condition.

33. **Patents.** Vendor shall defend, indemnify, and hold harmless PMGAA, its officers and employees from all liabilities, claims, damages, costs, or expenses, including, but not limited to attorneys' fees, for any alleged infringement of any person's patent rights or copyrights in consequence of the use by PMGAA, its officers, employees, agents, and other duly authorized representatives of tangible or intellectual property supplied to PMGAA by Vendor under this Contract.

34. **Records and Audit Rights.** Vendor's and all of its approved subcontractors' books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating to this Contract, including the papers of all Vendor and subcontractor employees that work on the Contract (all the foregoing collectively referred to as "Records"), must be open to inspection and subject to audit and/or reproduction during normal working hours by PMGAA. PMGAA is entitled to evaluate and verify all invoices, payments or claims based on Vendor's and its subcontractor's actual costs (including direct and indirect costs and overhead allocations) incurred or units expended directly in the performance of work under this Contract. For any audit under this Section, Vendor and its subcontractors hereby waive the right to keep such Records confidential. PMGAA is entitled to access to these Records from the effective date of this Contract for the duration of the work and until five years after the date of final payment by PMGAA to Vendor under the Contract. During normal working hours, PMGAA is entitled to access to all necessary Vendor and subcontractor facilities and shall be provided adequate and appropriate workspace, in order to conduct audits under this Section. PMGAA shall give Vendor or subcontractors reasonable advance notice of intended audits. Vendor shall require its subcontractors to comply with the provisions of this Section by including its requirements in all subcontracts related to this Contract.

35. **E-Verify Requirements.** To the extent applicable under A.R.S. § 41-4401, Vendor and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees, and compliance with the E-Verify requirements under A.R.S. §23-214(A). Vendor's or its subcontractors' failure to comply with such warranty shall be deemed a material breach of this Contract and may result in the termination of this Contract by PMGAA. PMGAA shall have the right to inspect the papers of Vendor's and any of Vendor's subcontractor's employee who works on this Contract to ensure the Vendor is complying with this paragraph.

EXHIBIT G – VENDOR'S RFP SUBMITTAL

Vendor's Proposal in response to Phoenix-Mesa Gateway Airport Authority's Solicitation 2022-015-RFP dated March 16, 2022, is hereby incorporated herein and made part of this Contract.

Board Action Item

Re: Resolution 22-20

To: Board of Directors
From: Shea Joachim, CEcD, Business Development Director
Through: J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject: L37, LLC – First Amendment to Land Lease
Date: May 17, 2022

Proposed Motion
To authorize the First Amendment to the Land Lease dated November 1, 2018, with L37, LLC for lot #37 in order to add approximately 37,825.6 square feet to the Premises.

Narrative
L37, LLC has leased Lot #37 and constructed improvements pursuant to the terms outlined within the Land Lease dated November 1st, 2018. L37, LLC has requested to add approximately 37,825.6 square feet to the Premises.

Agreement Term and Rate
The First Amendment to Land Lease adds an additional 37,825.6 square feet to the Premises ("RS2"), payable at an annual rate of $31,788.96 ("RS2 Base Rent").

All other terms and conditions within the Lease remain the same.

Attachment(s)
Amendment 1

RESOLUTION NO. 22-20

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize the First Amendment to the Land Lease dated November 1, 2018, with L37, LLC for lot #37 in order to add approximately 37,825.6 square feet to the Premises.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes the First Amendment to the Land Lease dated November 1, 2018, with L37, LLC for lot #37 in order to add approximately 37,825.6 square feet to the Premises. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Phoenix-Mesa Gateway Airport

Phoenix-Mesa Gateway Airport Authority
FIRST AMENDMENT TO LAND LEASE

This FIRST AMENDMENT TO LAND LEASE ("Amendment 1") is executed to be effective as of the FIRST (1st) day of JUNE 2022 ("Amendment 1 Effective Date") by and between the **PHOENIX-MESA GATEWAY AIRPORT AUTHORITY**, a joint powers airport authority authorized and existing under the laws of the State of Arizona ("Lessor"), and **L37, LLC,** a Delaware limited liability company authorized to do business in the state of Arizona ("Lessee"). Lessee and Lessor may be referred to jointly as "Parties," and each separately may be referred to as a "Party."

RECITALS:

A. Lessor and Lessee are parties to that certain Land Lease Agreement dated and effective the FIRST (1st) day of NOVEMBER 2018 and assigned pursuant to the Assignment and Assumption of Land Lease dated and effective MARCH 20, 2019 (collectively, the "Lease"), with respect to that certain real property at the Airport located at 6253 South Sossaman Road, Mesa, AZ 85212, and commonly described as LOT 37, which real property is more particularly described in the Lease as the "Premises".

B. The Parties desire to enter into this AMENDMENT 1 in order to add additional airside apron serving the Premises on the southeast of LOT 37, consisting of approximately 37,825.6 square feet and more particularly described on Exhibit "1" attached hereto, resulting in a total of 198,999.24 square feet (4.57 acres) of land in the Premises.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained in this AMENDMENT 1 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. The above recitals are hereby confirmed as true and correct and are reaffirmed herein.

2. Each capitalized term used in this Amendment 1 and not defined herein shall be deemed to have the same meaning ascribed to it in the Lease.

3. The contents of **EXHIBIT "A"** are hereby deleted in their entirety and replaced with the attached **EXHIBIT "A"**.

4. The third **WHEREAS** is hereby deleted in its entirety and replaced with the following:

   WHEREAS, Lessor desires to lease to Lessee, and Lessee desires to lease from Lessor, that certain real property at the airport located at 6253 South Sossaman Road, Mesa, Arizona, 85212 and described as Lot 37, consisting of approximately ONE HUNDRED SIXTY-ONE THOUSAND, ONE HUNDRED SEVENTY-THREE AND 64/100 (161,173.64) square feet (individually, "RS1"), and existing airside apron consisting of approximately THIRTY-SEVEN THOUSAND, EIGHT HUNDRED AND FORTY-FOUR (37,825.6) square feet (individually, "RS2"), as set forth in **Exhibit A** attached hereto (collectively, the "Premises"); and

5. The provisions of Section 4.1 are hereby deleted in their entirety and replaced with the following:

DW

4.1 Base Rent. Lessee agrees to pay Lessor RS1 Base Rent (as defined below) and RS2 Base Rent (as defined below) for the use of the Premises. Collectively, the RS1 Base Rent and RS2 Base Rent is defined and referred to herein as the "Base Rent." The Base Rent shall be payable in advance, without any prior demand therefor and without any abatement, deductions or set-offs whatsoever, and tendered in lawful currency of the United States, either by check or electronic transfer.

4.1.1 RS1. Lessee agrees to pay Lessor an annual rental for the use of RS1 in the amount of EIGHTY-FIVE THOUSAND, FOUR HUNDRED AND SIXTY-SEVEN AND 12/100 dollars ($85,467.12), payable in equal monthly installments of SEVEN THOUSAND, ONE HUNDRED AND TWENTY-TWO AND 26/100 dollars ($7,122.26) (the "RS1 Base Rent").

4.1.2 RS2. From and after the Amendment 1 Effective Date, Lessee agrees to pay Lessor an annual rental for the use of RS2 in the amount of THIRTY-ONE THOUSAND, SEVEN HUNDRED AND EIGHTY-EIGHT AND 96/100 dollars (31,788.96), payable in equal monthly installments of TWO THOUSAND, SIX HUNDRED AND FORTY-NINE AND 08/100 dollars ($2,649.08) (the "RS2 Base Rent").

6. Lessee warrants and represents to Lessor that: (i) all necessary actions have been taken to authorize the execution of this AMENDMENT 1 by Lessee; (ii) the persons who have executed this AMENDMENT 1 on behalf of Lessee are duly authorized to do so; and (iii) this AMENDMENT 1 constitutes a legal, valid and binding obligation of Lessee, enforceable against Lessee in accordance with its terms and the terms of the Lease.

7. In all other respects the Lease shall remain unchanged and in full force and effect. The Lease, as amended by this AMENDMENT 1 shall continue to be binding upon Lessor and Lessee and their permitted successors and assigns.

8. All of the Recitals set forth above are incorporated into this AMENDMENT 1 by this reference.

Board Action Item

Re: Resolution 22-21

To: Board of Directors
From: Shea Joachim, CEcD, Business Development Director
Through: J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject: Land Lease – Gulfstream Product Support Corp.
Date: May 17, 2022

Proposed Motion

To authorize a land lease with Gulfstream Product Support Corporation for a lot of land consisting of approximately 18.62 acres. The Initial Term is forty (40) years, commencing on May 17, 2022, with two (2) five-year Renewal Terms.

To authorize the Chair or the Executive Director/CEO to execute any and all other documents and instruments necessary and appropriate, in order to consummate the lease transaction and the Lessee's financing in conjunction therewith according to the terms and conditions set forth in the lease, including a consent to assignment and assumption and an owner's affidavit.

Narrative

In November 2021, Gulfstream Product Support Corporation ("Lessee") announced its intentions to develop a brand new 225,000 SF maintenance, repair, and overhaul (MRO) facility on the east side of the Airport. Since the November announcement Lessee has leased the entire hangar located at 6253 S. Sossaman Road, hired staff, and initiated maintenance, repair, and overhaul operations at the Airport.

The Airport has offered Lessee approximately 18.62 acres of vacant land on the eastside of the Airport (the "Premises"). The Premises is generally located at the southwest corner of Ellsworth and Williams Field Roads. Lessee will construct a state-of-the-art MRO facility and ancillary office space with a combined square footage of approximately 225,000 square feet under roof and a capital investment of approximately $80-100 Million (the "Phase I Improvements"). Lessee has an Option to Lease an adjacent 21.06 acres to facilitate any future expansion they may need. There are several Offsite Improvements that are required to be constructed to facilitate the Phase I Improvements that both the Airport and the City of Mesa are actively pursuing.

Agreement Term and Rate

The initial Base Rent is $37,179.45 per month (or $446,153.40 annually) for the Premises. The Initial Term of the lease is forty (40) years with two (2) five-year Renewal Terms.

To facilitate design, site preparation, and construction of the Phase I Improvements the Rent Commencement Date of the lease is on the earlier of: (i) six (6) months following the date on which Lessee receives a Certificate of Occupancy ("CofO") or its equivalent from the City of Mesa for the Phase I Improvements ("Date of

Substantial Completion"); or (ii) thirty (30) months from the Effective Date of this Lease (the "Rent Commencement Date").

Land Lease Agreement

RESOLUTION NO. 22-21

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize a land lease with Gulfstream Product Support Corporation for a lot of land consisting of approximately 18.62 acres. The Initial Term is forty (40) years, commencing on May 17, 2022, with two (2) five-year Renewal Terms.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

The Board of Directors of the Authority hereby authorizes a land lease with Gulfstream Product Support Corporation for a lot of land consisting of approximately 18.62 acres. The Initial Term is forty (40) years, commencing on May 17, 2022, with two (2) five-year Renewal Terms. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.

The Board of Directors of the Authority hereby authorizes the Chair or the Executive Director/CEO to execute any and all other documents and instruments necessary and appropriate, in order to consummate the lease transaction and the Lessee's financing in conjunction therewith according to the terms and conditions set forth in the lease, including a consent to assignment and assumption and an owner's affidavit.

Passed and adopted by the Authority this 17th day of May, 2022.

Phoenix-Mesa Gateway Airport Authority

LAND LEASE

This Land Lease (the "**Lease**") is executed to be effective the SEVENTEENTH (17TH) day of MAY 2022 (the "**Effective Date**") between the **PHOENIX-MESA GATEWAY AIRPORT AUTHORITY**, a joint powers airport authority authorized and existing under the laws of the State of Arizona ("**Lessor**"), and **GULFSTREAM PRODUCT SUPPORT CORPORATION**, a Delaware Corporation ("**Lessee**"). Lessor and Lessee may be referred to jointly as "**Parties**," and each separately may be referred to as a "**Party**."

WITNESSETH:

WHEREAS, Lessor is the owner and operator of the Phoenix-Mesa Gateway Airport generally located at the intersection of Ray Road and Sossaman Road, City of Mesa, Maricopa County, Arizona (the "**Airport**"); and

WHEREAS, Lessor has the right to lease, license and grant the use of property and facilities on the Airport and has full power and authority to enter into this Lease in respect thereof; and

WHEREAS, Lessor desires to lease to Lessee, and Lessee desires to lease from Lessor, that certain real property at the Airport located at the intersection of Ellsworth Road and Williams Field Road, consisting of Eight Hundred Eleven Thousand and One Hundred Eight-Eight (811,188) square feet of land (approximately 18.62 acres) as set forth in **EXHIBIT A** and depicted on **EXHIBIT A-1,** each exhibit attached hereto, together with all easements or access agreements and right of ways required for ingress and egress (collectively, the "**Premises**"); and

WHEREAS, Lessor desires to lease the Premises to Lessee on the terms and conditions set forth herein;

NOW THEREFORE, in consideration of the foregoing and of the mutual covenants and agreements herein contained, the Parties do hereby undertake, promise and agree, each for itself and its successors and assigns, as follows:

1. LEASE

Lessor hereby leases the Premises to Lessee, subject to all easements and rights of way that encumber the Premises, and further subject to all applicable operational and use restrictions and other terms and conditions set forth in this Lease. This Lease shall commence upon the Effective Date hereof (the "**Lease Commencement Date**").

1.1 Right to Use Premises. Lessor agrees that so long as no Event of Default shall have occurred and is continuing, Lessee shall peaceably have and enjoy the use of and access to the Premises without hindrance from Lessor and those claiming through Lessor. Subject to the completion of the Offsite Improvements, as described in SECTION 7 herein, Lessee specially acknowledges that Lessee has inspected the Premises prior to entering into this Lease and agrees to accept the Premises in an "**as is, where is**" condition without any warranty or representation from Lessor, either express or implied, of any kind or nature whatsoever with respect to the Premises, including, but not limited to, any warranty of merchantability, habitability, or fitness for any particular or specific purpose, and all such warranties are hereby disclaimed, except for those representations

and warranties contained in this Lease. Should Lessee desire any inspection report, environmental assessment, survey (other than a topographical survey), drainage report, or any similar study, Lessee shall be responsible for the same at Lessee's sole expense, subject to Lessor's duty to cooperate with Lessee (at no or nominal cost to Lessor) in connection with such activities and undertakings. Notwithstanding anything herein to the contrary, Lessor represents and warrants that, to its actual knowledge as of the Effective Date and without any duty of inquiry, the Premises are in compliance with all applicable Environmental Laws, zoning and other laws, statutes, ordinances, regulations, laws, and codes. In the event the foregoing representation and warranty that, to its actual knowledge, the Premises are in compliance with applicable laws proves to be untrue, in addition to any remedies available to Lessee at law or in equity, subject to the terms of SECTION 15 herein, Lessor shall, at its sole cost and expense, promptly make any repairs and alterations or perform any remediation necessary in order to comply with such laws and ordinances, including but not limited to such Environmental Laws, provided that such repairs, alterations and/or remediation shall be done at such times and in such manner so as to minimize interference with Lessee's use of and/or access to the Premises. In the event that Lessor fails to complete the work described in this SECTION 1.1 to Lessee's reasonable satisfaction on or before thirty (30) days after receiving notice thereof, Lessee shall have the right, but not the obligation to perform such maintenance, repairs or replacements on behalf of Lessor. In the event Lessee performs any such maintenance, repairs or replacements on behalf of Lessor in accordance with this paragraph, the costs thereof shall be due and payable by Lessor within thirty (30) days after written demand from Lessee, which demand shall be accompanied by invoices or receipts evidencing such costs. Failure of Lessor to reimburse Lessee on or before the expiration of such thirty-day period shall entitle Lessee to deduct the costs thereof from the Base Rent (as hereinafter defined in SECTION 4) next due hereunder.

1.2 Access. Lessee is granted the right of reasonable access to and from the Premises via such portions of the Airport as are or may be necessary to allow Lessee to conduct its business operations permitted herein at and on the Premises and the Airport. Lessor reserves the right to designate the location of such access and to change its location from time to time, as Lessor deems reasonably necessary and appropriate; provided such changes do not materially interfere with Lessee's use of and/or access to the Premises.

1.3 Permitted Uses. Subject to the provisions of SECTION 1.5 herein, Lessee may use the Premises for the maintenance, repair, and overhaul of Gulfstream aircraft ("**MRO**"); completions of Gulfstream aircraft; office space, shop space, warehousing of materials, supplies and tools, and vehicular parking facilities and loading areas; ramp and aircraft parking areas; aircraft storage; fueling/defueling services and associated fuel farm for Lessee and Lessee's customers subject to the requirements of SECTION 1.6 below; construction and use of aircraft run-up pads for Lessee's exclusive use; and other aviation uses permitted under the MRO or manufacturing designations, and any other aeronautical uses permitted by law that are consistent with Lessor's Airport Master Plan. Lessee and any of its assignees or subtenants shall have the sole and exclusive use of all parking spaces within the Premises throughout the Term (as hereinafter defined), including any Renewal Term, (as hereinafter defined) if exercised. In addition, Lessee may use, at no expense to Lessee, any existing run-up pad or any future designated run-up pad in common with other Airport users or tenants, or Lessee may construct a run-up pad for Lessee's exclusive use at Lessee's sole expense. Lessee's use of the Premises and operation of its business at and on the Airport and the Premises is subject to all applicable laws, rules and regulations of any governmental authority, including Lessor, and to Lessee's compliance with applicable provisions of the Airport Rules and Regulations and Minimum Standards. Lessee may discontinue its operations at the Premises at any time or from time to time, and Lessee shall be permitted, in its sole discretion, to vacate all or a portion of the Premises, provided Lessee continues to pay Base Rent (as hereinafter defined) as and when due and continues to perform all obligations of Lessee under this Lease, including without limitation, all insurance, repair and maintenance obligations.

1.4 Fueling Activities. Subject to the requirements of SECTION 8 herein and compliance with the applicable rules, regulations, laws, Airport Rules and Regulations and Minimum Standards, Lessee may install fueling facilities and provide oil products and fuel to Lessee's aircrafts, and to Lessee's service center customer aircrafts; provided, however, that customer aircraft fueling is performed only as a result of said aircraft

having undergone maintenance service or repair at the Premises and at the time such service or repair is performed. Furthermore, regardless of the status of an on-site or off-site fuel farm, Lessor may provide Lessee with the option to utilize existing on-site aircraft fueling and de-fueling services to support Lessee's maintenance operations, with such services provided using Airport owned equipment under a separate pre-negotiated agreement.

1.5 Fixed Based Operator. Lessee is not a Fixed Based Operator as defined in the Airport Minimum Standards and is not authorized to be a Fixed Based Operator at the Airport.

1.6 Lessee Reporting Requirements. Lessee shall furnish to Lessor on or before the twentieth (20th) day of the each month a written statement, and fuel manifests or delivery slips issued by the supplier, setting forth (1) the total number of gallons of fuel delivered to the Premises (other than fuel delivered by Lessor) during the preceding month and (ii) the total number and Maximum Gross Landing Weight (as certified by the manufacturer) of all aircraft which are subject to landing fees and which utilized the Premises during the preceding month. Lessee shall remit to Lessor the fuel flowage and landing fees determined to be owing for each month at the same time Lessee delivers the monthly written statement therefor. Lessor reserves the right to require a specific format for reporting.

1.7 Books and Records. Lessee shall keep and maintain adequate books and records to establish and verify the accuracy of the fuel volumes and landed weight information reported to Lessor. Lessor shall have the right, upon reasonable notice, to examine, inspect or audit Lessee's books and records for the purpose of verifying the accuracy of the information reported by Lessee. In the event such examination reveals that there is a deficiency in the volumes or amounts reports equal to or less than five percent (5%) or more of the volumes or amounts that should have been reported, Lessee agrees to promptly pay the additional fees owing. In the event such examination reveals that there is a deficiency in the volumes or amounts reported equal to five percent (5%) or more of the volumes or amounts that should have been reported, Lessee agrees to promptly pay the additional fees owing, plus interest at the rate of one and one-half percent (1.5%) per month from the date the fees should have been paid, plus any costs incurred by Lessor in connection with such examination, including fees and expenses of third parties used to conduct such examination.

1.8 Prohibited Activities. Lessee shall not use or permit its agents, employees, contractors, invitees, licensees or customers to use the Premises or the Airport for any use that is in violation of the Airport Rules and Regulations, the Airport Minimum Standards, any matters of record, or applicable laws, rules, regulations and operating policies of any governmental authority, including Lessor, or for any other activity or operation not specified in SECTION 1.3 herein, or that does not have advance, written approval of Lessor's Executive Director, which shall not be unreasonably withheld, conditioned, or delayed.

1.9 On-Site Manager. Upon commencement of business operations at and on the Premises and the Airport, Lessee shall designate an on-site manager for the term of this Lease who shall be available to Lessor and Lessee's customers during normal business hours, and otherwise as required by the Airport Minimum Standards, as applicable.

1.10 Lessee Acknowledgement. Lessee acknowledges and agrees that its obligations to pay Base Rent and all other charges due and owing under the terms hereof shall be absolute and unconditional, and shall not be affected by any circumstances whatsoever, including, without limitation:, any insolvency, bankruptcy, reorganization or similar proceedings by or against Lessee, or any other person; or any future or present law notwithstanding, it being the intention of the Parties hereto that all rent being payable by Lessee hereunder shall continue to be payable at the times provided herein.

2. TERM

2.1 Initial Term. The initial term of this Lease shall be for a period of FORTY (40) years, commencing on the Date of Substantial Completion, as defined in SECTION 4.2 below (the "**Initial Term**").

2.2 Renewal Term(s). Provided no Event of Default has occurred and is continuing, Lessee shall have the option of extending the Initial Term for TWO (2) consecutive, additional periods of FIVE (5) years each (each, individually, a "**Renewal Term**"). Lessee may exercise a Renewal Term by giving written notice to Lessor of its desire to do so no later than ONE HUNDRED EIGHTY (180) calendar days prior to the expiration of the Initial Term, or then current Renewal Term, as applicable. Lessee's option to exercise a Renewal Term shall be transferable to any Permitted Transfer (as hereinafter defined). All references herein to the "**Term**" shall include the Initial Term and any Renewal Term(s), to the extent Lessee has properly notified Lessor of its desire to exercise a Renewal Term.

2.2.1 Upon the commencement of any Renewal Term, if exercised, the Base Rent shall be increased (but never decreased) to the fair market value of the improved Premises. Lessor's written determination of such fair market base rental rate for the Premises shall be delivered to Lessee no later than ONE-HUNDRED TWENTY (120) calendar days prior to the commencement of a Renewal Term. If Lessee disputes Lessor's determination of such fair market base rental rate, Lessee shall deliver written notice of such dispute, together with Lessee's determination of such fair market base rent rate, to Lessor within FORTY-FIVE (45) calendar days of Lessee's receipt of Lessor's determination. The Parties shall then attempt in good faith to agree upon such fair market base rental rate. If the Parties fail to agree within FIFTEEN (15) business days, they shall, within SEVEN (7) calendar days thereafter, mutually appoint an appraiser to determine the fair market base rental rate. Said appraiser shall have at least FIVE (5) years of full-time commercial appraisal experience and be a member of the Appraisal Institute or comparable professional organization. If the Parties are unable to agree upon an appraiser within such SEVEN (7) calendar days, they shall, within FIVE (5) business days thereafter, apply to the president of the local Board of Realtors for the selection of an appraiser. The president of the Board of Realtors shall, within FIFTEEN (15) business days, select an appraiser with the above qualifications who has not acted in any capacity for either Party within the prior TWO (2) years. Within SEVEN (7) calendar days of the appointment (either by agreement or selection) of the appraiser, the Parties shall submit to the appraiser their respective determinations of the fair market base rental rate and any/all substantiated information. Within TWENTY (20) business days thereafter, the appraiser shall review each Party's submittal (and such other information as the appraiser deems necessary) and shall select one Party's submittal as representing the most reasonable approximation of such fair market base rental rate, and the appraiser's fees and expenses shall be paid by the Party whose submittal was not selected.

3. NONEXCLUSIVE RIGHTS

Lessee shall have the exclusive right to occupy and use the Premises while in compliance with the terms and conditions of this Lease. Except as otherwise provided, all other rights granted to Lessee under this Lease are nonexclusive. Lessor may, in its sole discretion and at any time, permit third parties to conduct any and all business activities at the Airport that Lessor deems appropriate, or conduct such activities itself, provided that such activities do not require or materially interfere with Lessee's use of and/or access to the Premises.

4. RENT

4.1 Base Rent. Lessee agrees to pay Lessor annual rental for the use of the Premises at a rate of fifty-five cents ($0.55) per square foot of land, in the amount of FOUR HUNDRED FORTY-SIX THOUSAND ONE HUNDRED TWENTY-ONE AND 00/100 DOLLARS ($446,121.00), payable in equal monthly installments of THIRTY-SEVEN THOUSAND ONE HUNDRED SEVENTY-SIX AND 75/100 DOLLARS ($37,176.75) (the "**Base Rent**"). The Base Rent shall be payable in advance, without any prior demand therefor and, except as otherwise expressly set forth in this Lease in SECTIONS 1.1, 8.7, 8.8, 15.13,

15.17, and 35.1, without any abatement, deductions or set-offs whatsoever, and tendered in lawful currency of the United States, either by check or electronic transfer.

4.2 Rent Commencement. Base Rent shall become due and payable on the earlier of: (i) six (6) months following the date on which Lessee receives a Certificate of Occupancy ("**CofO**") or its equivalent from the City of Mesa for the Phase I Improvements (as defined in SECTION 8.1) ("**Date of Substantial Completion**"); or (ii) thirty (30) months from the Effective Date of this Lease (the "**Rent Commencement Date**").

4.3 Base Rent Adjustments. During the Initial Term, the annual Base Rent paid by Lessee shall be increased (but never decreased) on every FIVE (5) year anniversary of the Rent Commencement Date of this Lease by Seven and one half (7.5) percent.

4.4 Security Deposit. None. Lessee shall not be required to post any security deposit.

4.5 Airport Rates and Charges Schedule. Lessee or its subtenants, as applicable and including its contractors and agents, shall pay all applicable fees identified in the most current *Airport Rates and Charges Schedule* and/or *Airport Fees, Services and Rental Rates Schedule* at the time of receipt of any covered service or use of any covered facilities, unless specifically outlined in this Lease, or unless otherwise expressly agreed to between Lessor and Lessee pursuant to a separate agreement, if any. The current *Airport Rates and Charges Schedule* and/or *Airport Fees, Services and Rental Rates Schedule* is included as **EXHIBIT B** and is subject to change with prior written notice but without approval of Lessee. Subject to the express terms of any separate agreement between Lessor and Lessee, or unless specifically outlined in this Lease, Lessee acknowledges and agrees that Lessor may amend the *Airport Rates and Charges Schedule* and/or *Airport Fees, Services and Rental Rates Schedule* at any time at Lessor's sole discretion, and that no fee shall apply to the use of the Premises or access to the Premises.

4.6 Payment.

4.6.1 Unless otherwise specified herein, the first payment of Base Rent shall be paid to Lessor within ten (10) business days after the Rent Commencement Date, prorated on the basis of the number of such days to the total number of days in said month that the Rent Commencement Date occurs. Thereafter, all Base Rent payments shall be paid in monthly installments, in advance, on the first day of each calendar month (the "**Base Rent Due Date**"). On each such date, Lessee shall pay the Base Rent payment.

4.6.2 No payment to or receipt by Lessor of a lesser amount than that which is due and payable under the provisions of this Lease at the time of such payment shall be deemed to be other than a payment on account of the earliest payment due, nor shall any endorsement or statement on any check or payment prejudice in any way Lessor's right to recover the balance of such payment or pursue any other remedy provided in this Lease or by law.

4.6.3 All payments (and reports, if any) required by this SECTION 4.6 shall be remitted to the following address by the due date(s) specified hereinabove:

Phoenix-Mesa Gateway Airport Authority
Attn.: Department of Finance (Accounts Receivable)
5835 S. Sossaman Road
Mesa, Arizona 85212-6014
or such other address specified in writing by Lessor to Lessee.

4.7 Finance Charges and Late Fees. If Lessee fails to pay any installment of Base Rent or any other charge due and owing to Lessor on or before the applicable due date, Lessee shall be responsible for interest on the unpaid installment at the rate of EIGHTEEN PERCENT (18%) per annum from the due date

until payment in full is made. In addition, in the event any installment of Base Rent or other charges owing to Lessor is paid more than TEN (10) days after the due date, a late penalty of TEN PERCENT (10%) of the amount of such delinquent Base Rent installment or other charge shall be due and payable in addition thereto.

4.8 Taxes. Lessee shall pay any leasehold tax, sales tax, personal property tax, transaction privilege tax, license or permit fee, or any other tax assessed as the result of its occupancy of Premises or conduct of any activity at the Airport under authority of this Lease, including any such tax assessable on Lessor as a result of this Lease. In the event that laws or judicial decisions result in the imposition of a real property tax or any other form of tax or imposition on the interest of Lessor, such tax shall also be paid by Lessee for the period this Lease is in effect, to the extent such taxes are reasonably attributable to the Premises or a portion thereof or the operation of Lessee's business.

4.9 Other Fees Any additional costs or fees, including (but not limited to) fuel flowage fees, stormwater fees, and airport usage fees, are to be in amounts at least as favorable as those being offered to any other purchaser or tenant of similar services under generally similar terms and conditions.

4.10 Survival. Lessee's obligation to pay all amounts stated herein, together with any interest thereon and/or penalties therefor, shall survive the termination of this Lease other than non-default termination events expressly permitted by and set forth in this Lease, including SECTIONS 8.7 or 8.8.

5. EXPANSION PREMISES

5.1 Expansion Premises. As of the Effective Date hereof, Lessor shall reserve an additional NINE HUNDRED SEVENTEEN THOUSAND FIVE HUNDRED EIGHTEEN (917,518) square feet of property (approximately 21.06 acres) immediately adjacent to the Premises ("**Expansion Premises**"), as depicted in **EXHIBIT D**, to facilitate Lessee's potential future expansion.

5.2 Option. Provided no Event of Default has occurred and is continuing, Lessee shall have the exclusive option to lease the Expansion Premises, exercisable at any time during the FIVE (5) year period following the Date of Substantial Completion ("**Option Period**"). As of the Effective Date hereof and throughout the Option Period, Lessor shall not market for sale or lease the Expansion Premises. To effectuate the option, Lessee shall notify Lessor, in writing, of its intentions to lease the Expansion Premises on or prior to the expiration of the Option Period. Lessee's written notification shall indicate whether Lessee has elected, in its sole discretion, to add the Expansion Premises to the Premises leased under this Lease or to enter into a new lease agreement between Lessor and Lessee, which shall be consistent with the terms and conditions of this Lease, including, without limitation, the Base Rent payable under this Lease, at the per-square-foot rate then in effect, and the Term. Lessee shall have ONE HUNDRED TWENTY (120) calendar days, after Lessor's receipt of Lessee's written notice to lease the Expansion Premises (the "**Due Diligence Period**"), to conduct any and all due diligence deemed necessary by Lessee, including but not limited to title search, survey, soils testing, environmental testing, site planning, and permitting. Lessor and Lessee agree to work together in good faith to resolve any matters related to the Expansion Premises, including, but not limited to design budgets, anticipated project hard and soft costs and permitted title exceptions, which the Parties agree will be finalized prior to the expiration of the Due Diligence Period. If Lessee determines for any reason or for no reason that the Expansion Premises is not suitable for Lessee's intended purpose, then Lessee may terminate its election to lease the Expansion Premises by giving written notice to Lessor on or prior to the expiration of the Due Diligence Period. If Lessee does not terminate its election to lease the Expansion Premises on or prior to the expiration of the Due Diligence Period, then the Parties shall within SIXTY (60) calendar days following the expiration of the Due Diligence Period, either amend the Lease to add the Expansion Premises or enter into a new lease for the Expansion Premises. Rent for the Expansion Premises, subject to an Unavoidable Delay and/or delays caused by Lessor shall commence upon the earlier to occur of: (i) the date of substantial completion of the improvements on the Expansion Premises, or (ii) TWENTY-FOUR (24) months after Lessor's and Lessee's execution of either an amendment to this Lease, or a new lease agreement, as applicable.

5.3 Option Fee. In consideration for Lessee's exclusive option to lease the Expansion Premises, on the Date of Substantial Completion and on each subsequent anniversary thereof during the Option Period, Lessee shall pay Lessor $50,463.49 to maintain its exclusive option to lease the Expansion Premises ("**Option Fee").** If Lessee fails to pay Lessor the Option Fee within ten (10) business days after receipt of written notice from Lessor that such Option Fee is due, Lessor may terminate Lessee's exclusive option in its sole and absolute discretion, unless otherwise agreed to in writing by the Parties. To the extent Lessee has paid Lessor the Option Fee for the Expansion Premises, and Lessee, in the same one-year period, exercises its election to lease the Expansion Premises, Lessee shall be entitled to a refund of a pro rata portion of the Option Fee applicable to the one-year period.

5.4 Right Of First Refusal. Provided no Event of Default has occurred and is continuing , upon the expiration of the Option Period, Lessor shall provide Lessee with a right of first refusal ("**ROFR**") on the Expansion Premises for a period of FIVE (5) years thereafter ("**ROFR Period**"). The Parties agree the ROFR will be exclusive to Lessee at no additional cost to Lessee. During the ROFR Period, Lessor may market for sale or lease the Expansion Premises.

5.4.1 If, at any time while the ROFR is in effect, Lessor receives a written offer ("**Offer**") from a third party ("**Offeror**") to lease all or any portion of the Expansion Premises ("**Offered Space**"), and Lessor intends to accept the offer, Lessor will transmit a copy of the Offer to Lessee ("**Offer Notice**"). The submission of an Offer Notice by Lessor to Lessee shall constitute an offer by Lessor to lease the Offered Space to Lessee and Lessee shall have the first right to lease the Offered Space from Lessor in accordance with the terms of the Offer by notifying Lessor, in writing, of Lessee's intent to lease the Offered Space in accordance with the terms of the Offer within fifteen (15) calendar days of the Offer Notice ("**Acceptance Notice**"). The Acceptance Notice shall indicate whether Lessee desires to add the Offered Space to Premises or enter into a new lease which shall be consistent with the terms and conditions of this Lease. If (a) Lessee fails to deliver a complete Acceptance Notice to Lessor within fifteen (15) calendar days after receipt of the Offer Notice, or (b) Lessee notifies Lessor that it does not desire to lease the Offered Space, then Lessee's rights to the Offered Space shall terminate unless Lessor fails to enter into a lease of the Offered Space on the terms set forth in the Offer Notice with such third party, whereupon thereafter Lessee shall again have the ROFR. If Lessee delivers an Acceptance Notice and then Lessee fails to execute the necessary amendment or lease to effectuate the Acceptance Notice within sixty (60) calendar days after delivering the Acceptance Notice, then Lessee's rights to the Offered Space shall terminate.

6. AIRPORT OPERATING AGREEMENT

If and to the extent that Lessee, including its subtenants, contractors, agents, etc., operates aircraft for a commercial purpose at or on the Airport, Lessee shall be required to enter into an operating agreement with Lessor. If any subtenant, contractor or agent of Lessee conducting activities on or at the Premises operates aircraft at the Airport, all shall be subject to the provisions of the Airport Operating Agreement, which Lessor may enforce directly against such subtenant, contractor or agent, but Lessee shall have no direct liability or responsibility with respect to such matters; except, however, Lessee shall be responsible for compliance by its subtenants, contractors and/or agents with the Airport Rules and Regulations and Minimum Standards, as appropriate.

7. OFFSITE IMPROVEMENTS TO BE CONSTRUCTED

7.1 Lessor shall, either directly or in partnership and by agreement with the City of Mesa, construct the following off-site and airfield improvements as described below ("**Offsite Improvements**") in accordance with SECTION 7.2 of this Lease. A draft schedule for the installation of the Offsite Improvements is set forth on **EXHIBIT I-1** attached to this Lease, and the Parties acknowledge that Lessor shall commence the Offsite Improvements generally in accordance with such schedule, but that such dates may change. Lessor shall

communicate any changes (either to the dates and/or in the scope) in a timely manner and as and when Lessor determines any changes.

7.1.1 Sewer Line. A new sewer line in Gateway Blvd (also referred to as the Spine Road) with an outfall to the existing sewer line at Hawes Road and Ray Road(the "**Sewer Line**");

7.1.2 Intersection. A new signalized intersection at Ellsworth Road and the realigned Williams Field Road (future Gateway Blvd);

7.1.3 Culvert and Road. Construct a new box culvert and road across the Ellsworth channel with associated water and sewer lines thereby connecting the "**Intersection**" to Airport property and approximately one thousand linear feet of roadway designed as a 4 + 1 Major Collector extending west into Airport property from the western edge of the Intersection;

7.1.4 Circulatory Road. A new circulatory road (Aviation Way) from the southernmost culvert into Airport property along Ellsworth Road connecting to the Culvert and Road project. The circulatory road will run adjacent to the Premises. Lessee has received the design plans for the circulatory road and acknowledges it is sufficient for Lessee's purposes. Lessor will build the circulatory road to the published City of Mesa standards and achieve the acceptance of the road by the City of Mesa. Once the circulatory road has been accepted, Lessee acknowledges that Lessor has no further responsibility for the road.

7.1.5 Utilities. Lessor will install a 8" PVC sewer pipe and a 16" DIP water line ("**Wet Utility Infrastructure**") within the boundaries of the circulatory roadway and stubbed to the Premises. Lessee has received the design plans for the Wet Utility Infrastructure and acknowledges it is sufficient for Lessee's purposes. Lessor will build the Wet Utility Infrastructure specified in this SECTION 7.1.5 to the published standards of the applicable utility service provider (City of Mesa) and achieve acceptance of the Wet Utility Infrastructure by the applicable utility service provider. Once the Wet Utility Infrastructure has been accepted, Lessee acknowledges that Lessor has no further responsibility for the Wet Utility Infrastructure. Lessor will install conduit ("**Dry Utility Infrastructure**") within the boundaries of the circulatory roadway and stubbed to the Premises to accommodate dry utility providers (electric, gas, telecom, etc.) based on plans provided by Lessee and its dry utility providers so long as Lessee provides Lessor with the plans by June 1, 2022. Lessee acknowledges that Lessor has no further responsibility for the Dry Utility Infrastructure once it is installed.

7.1.6 Taxiway Connector. A single airfield connection from Taxiway Charlie to the Premises apron built to FAA standards and in accordance with the Airport's Master Plan. The design of the Taxiway Connector will consider a future parallel taxiway between the Premises and Taxiway Charlie. Lessee has received the design plans for the Taxiway Connector and has acknowledged it is sufficient for Lessee's purposes.

7.1.7 Relocation of the Remote Transmission Facility ("**RTR**"). An existing communications facility at the Airport will be relocated to a new location. This includes the demolition of the existing RTR building located on the Expansion Premises, as applicable in accordance with a construction schedule that is mutually agreed upon by the Parties. In addition, Lessor shall use commercially reasonable efforts to clear any related title exceptions, including but not limited to removal of any power easements on the Premises or the Expansion Premises, as applicable.

7.2 Construction Milestone. Lessor shall, either directly or in partnership with the City of Mesa, complete construction of the Offsite Improvements by April 1, 2023, with the exception of conduit for electrical power, which shall be completed as soon as reasonably possible, subject to City of Mesa and Salt River Project approval.

7.3 Intergovernmental Agreement. Lessor and the City of Mesa have entered into an Intergovernmental Agreement (IGA) for the development of some of the Offsite Improvements. The IGA is attached as **EXHIBIT G**.

8. LESSEE IMPROVEMENTS

8.1 Construction by Lessee. Lessee shall, at its sole cost and expense, construct improvements on the Premises that generally shall consist of an approximately 130,000 square foot hangar, office and backshop/support complex, associated aircraft and exclusive vehicle parking facilities, aircraft run-up pad, a fuel farm (if desired by Lessee), and such other improvements as Lessee shall reasonably require in connection with its business, with an estimated cost of approximately $50 million, as generally depicted in **EXHIBIT E** (the "**Phase I Improvements**") and in accordance with a site plan prepared by Lessee and approved by Lessor's design review committee, such approval not to be unreasonably withheld, conditioned or delayed, and in compliance with all applicable governmental regulations, restrictions and building codes. Lessor and Lessee agree that Lessee shall be solely responsible for: (i) any required connection(s) between the Premises and the terminating point of the existing vehicular access way to the Premises, as reasonably required by Lessor; (ii) constructing all utility improvements and connections within the Premises necessary to connect the Offsite Improvements including, without limitation, electrical, gas, water, sewer, cable and telephone utilities, and Lessee shall be responsible for the long-term cost and expense associated with maintenance of such utilities only to the extent of the lease boundary lines of the Premises; (iii) installing all utility meters and water and sewer lines to service all improvements constructed on the Premises; and (iv) with the exception of the taxiway connector described in SECTION 7.1.5, constructing all improvements necessary to connect the Premises to existing taxiways or taxilanes in accordance with and if allowable under all Airport and FAA rules, regulations and other requirements. Lessor acknowledges and agrees that Lessee shall not be responsible for the Wet Utility Infrastructure or the Dry Utility Infrastructure from the Premises to the applicable source of all such utilities. The parties acknowledge and agree that Lessee will be constructing and installing certain improvements outside the boundary of the Premises in locations as generally depicted on Exhibit A-2, which improvements and installations consist of (i) a storm drain and related improvements that outfalls into what is commonly known as the Ellsworth Channel (the "**Storm Drain**"), and (ii) fencing (the "**Fencing**"). Lessor hereby grants Lessee a license for non-exclusive access to and use of the property upon which the aforementioned Storm Drain and Fencing will be located for the purpose of installing, constructing and maintaining the same, and once installed, such license shall remain in place for the Term of this Lease with respect to the Storm Drain only, but not for the Fencing, it being the intent of the parties hereto that Lessor, and not Lessee, shall have the obligation to maintain the Fencing for the remainder of the Term once installed and accepted by Lessor.

8.2 Construction Milestones. Lessee shall construct Phase I Improvements in accordance with the following schedule (each of which events are herein called a "**Construction Milestone**"):

8.2.1 Lessee shall submit its Phase I Improvements plans to Lessor for review and approval no later than February 15, 2022, Lessor shall review Lessee's Phase I Improvements plans and advise Lessee of its approval or disapproval, with its reasons therefor, within ten (10) business days of Lessee's submission to Lessor. Such process shall continue until Lessor approves of such plans and specifications. As long as Lessee's Phase I Improvements design plans for the exterior of the Phase I Improvements are similar to Lessee's like-investments in North America then in no event shall Lessor have the right to disapprove of Lessee's plans and specifications based on design aesthetics. Lessee, or its general contractor and/or architect, shall be responsible for preparing all plans and specifications required for permitting and construction of the Phase I Improvements. Notwithstanding the foregoing, Lessor agrees to support Lessee to the best of its ability in expediting any review and/or permitting process with any applicable government entities, including but not limited to the State of Arizona and the City of Mesa.

8.2.2 Lessee shall submit its Phase I Improvements construction plans to the City of Mesa for a permit for full building design no later than February 15, 2022, which dates shall be extended in the event Lessor has not approved Lessee's plans in accordance with SECTION 8.2.1 above.

8.2.3 Subject to delays caused by Lessor, Lessee shall use good faith and reasonable efforts to commence construction of the Phase I Improvements within SIXTY (60) calendar days after the issuance of all necessary construction permits and receipt of all approvals required for such, including any approvals required from the FAA. For purposes of this section "**commence construction**" shall be the date on which Lessee has obtained it permits, has executed a contract for construction of the Phase I Improvements and has commenced work, such as grading or pouring of footings.

8.2.4 Lessee desires to substantially complete construction of the Phase I Improvements and occupy the Premises, on or about December 31, 2023, subject to an Unavoidable Delay.

8.2.5 Reserved.

8.3 No Alterations. Subject to the terms of Subsection 8.2.1 above, Lessee may not make improvements to the Premises ("**Lessee Improvements**") during the Term of this Lease without the prior written consent of Lessor, which shall not be unreasonably withheld, conditioned or delayed and, if and to the extent applicable, without the approval by Lessor's Design Review Committee. Lessee shall provide Lessor with electronic as-built drawings (or their equivalent) when any improvement or alteration is completed for which such drawings are reasonably required. Notwithstanding the foregoing, Lessee may, at its own expense and without Lessor's consent and, if applicable, without the approval by Lessor's Design Review Committee, make non-structural Lessee Improvements to the Premises, so long as such Lessee Improvements do not adversely impact the mechanical systems, structural integrity of the Premises, or affect any exterior portions of the Premises. All such Lessee Improvements shall be made in a good and workmanlike manner in accordance with all applicable laws and ordinances. No supervision or overhead fee or charge shall be payable to Lessor with respect to any Lessee Improvements performed by Lessee. At the expiration or sooner termination of this Lease, Lessor agrees to accept the Premises with the Lessee Improvements and the Phase I Improvements in place, which improvements shall thereafter become Lessor's property, and Lessee shall not be required to restore the Premises to the condition existing prior to the making of such Phase I Improvements or Lessee Improvements at the commencement of the Initial Term; provided, however, if Lessee elects in its sole discretion to remove any Lessee Improvements, Lessee shall, prior to the expiration of the Term or earlier termination of this Lease, restore the Premises to their condition prior to the making of such Lessee Improvements. Notwithstanding anything herein to the contrary, in no event shall Lessee be required to remove any portion of the Phase I Improvements, nor shall Lessee be required to remove any portion of any Lessee Improvements at the expiration of the Term or earlier termination of this Lease unless Lessor has indicated to Lessee in writing that Lessor requires such removal at the time that Lessor reviews for its approval in accordance with the terms hereof the plans for any Lessee Improvements.

8.4 Title to Alterations and Improvements. Title to the Phase I Improvements and any Lessee Improvements shall remain vested in Lessee during the Term of this Lease. Subject to SECTION 8.3 above, Title to all Phase I Improvements and Lessee Improvements on the Premises (but not personal property or trade fixtures) shall vest in Lessor upon the expiration or termination of this Lease, and Lessee agrees to execute and deliver to Lessor, within Ten (10) business days after Lessor's request therefor, a quitclaim deed confirming that title to such Phase I Improvements and Lessee Improvements is vested in Lessor.

8.5 Mechanics' Liens. Lessee shall keep the Premises and all improvements constructed by Lessee thereon free of any mechanic or materialmen's liens. In the event that any such lien is filed, Lessee shall, at its sole cost, cause such lien to be removed from the Premises by bonding over such lien or take other steps acceptable to Lessor that remove such lien or stay enforcement thereof within thirty (30) calendar days of notice thereof.

8.6 Permit Required. Lessee shall be responsible for determining whether it is subject to local building/construction codes or permit requirements, and for compliance with them to the extent they are applicable. All structural, electrical, plumbing or mechanical construction or reconstruction shall conform to City of Mesa (the "**City**") construction and technical codes. No such work shall be commenced without first submitting required plans and obtaining required permits from the City. All such work shall be permitted, inspected and approved by the City prior to concealment or use, as and if required by law. Lessee shall provide to Lessor a contemporaneous copy of Lessee's permit application and the associated plans and specifications

8.7 Damage or Destruction. Lessee shall maintain insurance on all of Lessee's improvements to the Premises. In the event that all or any portion of the Premises, Phase I Improvements, or Lessee's improvements are damaged or destroyed in whole or in part by fire or other casualty of any kind or nature, then Lessee shall give Lessor notice thereof within thirty (30) calendar days after such casualty occurs. To the extent such damage or destruction renders unusable fifty percent (50%) or more of the square footage of the Phase I Improvements, or such smaller percentage thereof if the damage has occurred in a vital (as determined in Lessee's reasonable good faith discretion) portion of the Premises for the operation of Lessee's business, then Lessee shall have the option to re-build or not to re-build in Lessee's sole discretion. Lessee shall notify Lessor in writing within sixty (60) days of the casualty occurrence of Lessee's decision of whether or not to re-build. If Lessee elects not to re-build, then the Lease shall terminate on the thirty-first (31st) day following Lessee's election, provided that Lessee shall leave the Premises and improvements thereon in a safe, usable condition upon termination, and any compromised vertical improvements shall be demolished and removed. On or before such termination, Lessee shall pay Lessor a sum equal to fifty percent (50%) of the total ground rent that would have otherwise been due for the unexpired portion of the Initial Term (and any Renewal Term, if exercised).

8.8 Condemnation. In the event that the whole of the Premises shall be permanently taken, condemned or title thereto acquired by the exercise of the power of eminent domain (hereinafter referred to as a "**Proceeding**") by any person or corporation, municipal, public, private or otherwise, during the Term hereof, then and in that event, the Term of this Lease shall terminate from the date when possession of the Premises shall be required for such use or purpose. If, during the Term of the Lease, less than the entirety of the Premises shall be taken in any such Proceeding, Lessee shall, nevertheless, continue to perform and observe all of the terms, covenants and conditions of this Lease upon the part of Lessee to be performed and observed, as though such taking had not occurred, except that from and after the date of vesting of title, a just and appropriate part of the Rent, inclusive of Base Rent, according to the nature and extent of the taking, shall be equitably adjusted; provided, however, that in the event less than the entirety of the Premises shall be permanently taken in any such Proceeding, and such portion taken through such Proceeding is a vital (as determined Lessee's reasonable good faith discretion after consultation with Lessor) portion of the Premises for the operation of Lessee's business, then Lessee shall also have the option to terminate this Lease as set forth herein. Lessor and Lessee shall each be entitled to seek their own separate awards from the condemning authority in the Proceeding unless the condemning authority shall refuse to grant separate awards and, in such event, the net proceeds of any such award shall be equitably divided between Lessor and Lessee, as their interests may appear. Any award arising from the condemnation of the Phase I Improvements and any Lessee Improvements shall be negotiated, adjusted, settled, applied, held and/or disbursed to Lessee and its lender, pursuant to agreements between them.

9. MAINTENANCE

9.1 Lessee Responsibilities. Lessee shall, at its sole cost and expense, keep the Premises in a clean condition and in good order, condition and repair throughout the Term, reasonable wear and tear excepted. Lessee's maintenance of the Premises shall consist of, as reasonably necessary, the inspection, servicing and repair of all Phase I Improvements and Lessee Improvements, including pest control, landscaping and grounds maintenance.

9.2 Damage to Lessor Property. Any real or personal property of Lessor damaged or destroyed by Lessee as a result of Lessee's use or occupancy of the Premises shall be promptly repaired or replaced by Lessee to the reasonable satisfaction of Lessor. In lieu of such repair or replacement, Lessee may elect to pay to Lessor an amount sufficient to compensate for the loss sustained by Lessor.

9.3 Trash Removal. Lessee shall at all times keep the Premises in a neat, clean, safe, sanitary and orderly condition and shall keep such area free of all trash and debris. Lessee shall be responsible for all trash removal from the Premises and Lessee shall deposit all trash and debris only at collection stations located on or in proximity to the Premises, in accordance with City code.

9.4 Emergency Contact. Within FIFTEEN (15) days of the Effective Date hereof, Lessee shall provide Lessor with a list of names and telephone numbers for 24-hour emergency contact for the Premises. Lessee shall thereafter provide Lessor with updated lists and changes as necessary.

10. ASSIGNMENT, SUBLETTING AND OTHER TRANSFERS

10.1 Transfer of Lease Interest. In the event Lessee desires to transfer, assign, encumber, pledge or hypothecate any portion of its interest in this Lease or any right or interest hereunder (including, but not limited to as part of a mortgagor deed of trust or an assignment by means of a foreclosure or trustee's sale thereunder)(individually and collectively, "**Transfer**"), or sublet the Premises or any part thereof, Lessee must obtain the prior written consent of Lessor, which such consent shall not be unreasonably withheld, conditioned, or delayed. Where Lessor approves in writing of such Transfer, Lessor shall be entitled to request and acquire written financial assurances, including, but not limited to financial statements, business plans and other information related to the financial condition and plans of any proposed transferee. Lessor shall release Lessee from on-going liability in the event that the transferee assumes all obligations of Lessee hereunder and has a net worth equal to or greater than Lessee's as of the date of this Lease. Lessee understands and agrees to these terms and conditions regarding any proposed Transfer, and that any violation of this SECTION 10, may irreparably harm Lessor as the requirements set forth herein are directly related to PMGAA's (and any Lessee's) legal and financial obligations to the Federal Aviation Administration. This SECTION 10 shall remain valid and enforceable even in the event of amendment to or repeal of FAA regulations, so long as this SECTION 10 does not directly conflict therewith.

10.1.1 Notwithstanding the foregoing, Lessee may, without Lessor's consent (but with prior notice to Lessor), assign this Lease or sublease all or any portion of the Premises to an Affiliate, or to any business entities directly or indirectly, controlling, controlled by, or under common control with Lessee, or to successors to Lessee by merger, consolidation, realignment, reorganization or purchase of Lessee, or to a purchaser of all of substantially all of the assets of Lessee used in the operation of Lessee's business, or in connection with financing obtained by Lessee, but subject to compliance with the terms of SECTION 23 hereof (each, a "**Permitted Transfer**" and such entity, a "**Permitted Transferee**"). For purposes of this SECTION 10.1.1, "**Affiliate**" means any person or entity that, directly or indirectly, controls, is controlled by or is under common control with Lessee. For purposes of this definition, "**control**" shall mean possessing the power to direct or cause the direction of the management and policies of the entity by the ownership of a majority of the voting securities of the entity. Lessee's option to exercise a Renewal Term shall be transferable to any Permitted Transfer.

10.2 Lessee's Required Advance Notice to Lessor of Proposed Transfer. In order for Lessor to consider a Transfer, Lessee must: (i) notify Lessor in writing at least thirty (30) calendar days prior to such proposed transfer, including with respect to a Permitted Transfer; (ii) deliver to Lessor, at the time of Lessee's notice, current financial statements of the proposed transferee (along with transferee's business plans) that are reasonably acceptable to Lessor, provided that no such approval right shall apply to a Permitted Transfer); and (iii) the transferee (including a Permitted Transferee) assumes and agrees in writing to perform Lessee's obligations under this Lease. However, nothing herein shall be construed as Lessor providing its consent to

any Transfer or relieving Lessee of any legal, financial or other obligation under the Lease, regardless of Lessor's acceptance or refusal to accept such proposed transfer of Lease except as set forth in SECTION 10.1 above.

10.3 Subletting. Lessee may sublease all or a portion of the Premises if the following conditions are met:

10.3.1 The sublease and any amendments or modifications thereto are approved in advance and in writing by Lessor, or are in a form which shall have been previously approved in writing (except for changes that do not materially impact Lessor's rights and interests) by Lessor. If a pre-approved form is used, Lessor's advance approval of the actual sublease and any amendments or modifications thereto is not required, nor shall this Subsection 10.3.1 apply to a Permitted Transfer.

10.3.2 Rent for subleased premises shall not be less than fair market value for the subleased premises unless otherwise approved in writing be Lessor.

10.3.3 The sublease(s) and sublessee(s) shall at all times be subject to the terms and conditions of this Lease.

10.3.4 The permitted uses of the Premises under any sublease shall be the same as that permitted under this Lease. Sublessees shall agree in the sublease not to engage in any prohibited activity, as described in SECTION 1.5 herein.

10.3.5 The term of any sublease shall not extend beyond the stated expiration of this Lease.

10.3.6 Except for the payment of a security deposit, if any, the sublessee under such sublease shall not pay rent more than SIX (6) months in advance of its due date under the sublease.

10.4 Non-Disturbance and Attornment. Upon request from Lessee and/or any sublessee, Lessor shall enter into a Non-Disturbance and Attornment Agreement (in form and substance reasonably acceptable to Lessor, Lessee, sublessee and any applicable Mortgagee (as hereinafter defined) of Lessee or sublessee) so long as (i) the conditions of SECTION 10.3 above have been met; (ii) the sublessee is not then in default beyond an applicable notice and cure period under the sublease and there is no existing Event of Default under this Lease; and (iii) the sublessee does not have a history of five (5) or more documented events of noncompliance with the Airport Rules and Regulations or Airport Minimum Standards. All reasonable legal fees incurred by Lessor in connection with any reasonably necessary third-party legal counsel review and approval of a Non-Disturbance and Attornment Agreement shall be paid by in advance by Lessee or sublessee. This Section 10.4 shall not apply to a Permitted Transfer.

10.5 Security Clearance. Lessee shall not permit any sublessee unescorted access to the secured areas of the Airport unless and until the sublessee has obtained its own valid Airport security clearance and media from Lessor. Lessee acknowledges that it may take THIRTY (30) calendar days or more to process sublessee for security clearance and media.

10.6 Copy of Sublease. Lessee shall submit a copy of each fully executed sublease to Lessor as soon as possible, but no later than FIFTEEN (15) business days after execution.

10.7 Use of Premises by Third Parties. Notwithstanding anything herein to the contrary, Lessee shall be permitted in the ordinary course of its business to allow its clients and/or subcontractors to occupy portions of the Premises in connection with work such clients and/or subcontractors are performing on behalf of Lessee without notice to or consent of Lessor.

10.8 No Recapture. Lessor shall not have the ability to recapture any such sublease space during the Term of this Lease.

10.9 No Sharing of Profits. Lessee shall retain one hundred percent (100%) of any profits derived from any assignment or sublease.

10.10 Transferability. Any subleasing or assignment by Lessee shall not affect the right to exercise a Renewal Term as set forth in the Lease. All rights of Lessee under this Lease may, in Lessee's discretion, be transferred to any assignee and/or Permitted Transferee, including, without limitation, in connection with Lessee's option to exercise a Renewal Term.

11. IDENTIFICATION SIGNS

Lessee, at its own cost and expense, may install on the Premises, a sign or signs identifying its business on the exterior of the Premises, including both monument signage at the entrance, as well as building signage, which will be visible from the runway for approaching aircraft and in addition, directional signage on Airport property leading to the Premises; provided, however, that the general type, size, and location of such sign(s) shall conform to Lessor's Comprehensive Sign Plan, be approved in writing by Lessor in advance of installation (such approval not to be unreasonably withheld, conditioned or delayed) and be subject to any signage rules, codes and/or regulations of any governmental authority.

12. DEFAULT; TERMINATION BY LESSOR

12.1 Events of Default. Each of the following shall constitute a material default of this Lease by Lessee (an "**Event of Default**"): `

12.1.1 Failure to pay any installment of Base Rent or other amount due from Lessee hereunder, provided that Lessee does not cure such failure within TEN (10) calendar days after delivery by Lessor of a written notice of such failure.

12.1.2 Failure to perform any of its other obligations under this Lease, provided that Lessee does not cure such failure within THIRTY (30) calendar days after delivery by Lessor of a written notice of such default; provided, however, if a cure of the default reasonably requires more than THIRTY (30) calendar days to complete, then the time to cure shall be extended so long as the cure is being diligently pursued.

12.1.3 The filing of any mechanic's, materialmen's or other lien or any kind against the Premises because of any act or omission of Lessee which lien is not discharged, by bonding or take other steps acceptable to Lessor that remove such lien or stay enforcement thereof within THIRTY (30) calendar days of receipt of actual notice thereof by Lessee.

12.1.4 The Transfer or attempted transfer of any interest in the Lease to any transferee which is not in accordance with SECTION 10 and SECTION 23 hereof.

12.2 Lessor's Remedies. Upon the occurrence of an Event of Default under this Lease, Lessor may, without prejudice to any other rights and remedies available to a Lessor at law, in equity or by statute, but subject to the provisions of this Lease, including but not limited to SECTIONS 10, 23 and 24 herein, exercise one or more of the following remedies, all of which shall be construed and held to be cumulative and non-exclusive:

12.2.1 Terminate this Lease and re-enter and take possession of the Premises; or

12.2.2 Without terminating this Lease, re-enter and take possession of the Premises; or

12.2.3 Without such re-entry, recover possession of the Premises in the manner prescribed by any statute relating to summary process, and any demand for Base Rent, re-entry for condition broken; or

12.2.4 With or without terminating this Lease, Lessor may re-let the Premises or any portion thereof.

12.3 No Implied Termination. Lessor shall not be deemed to have terminated this Lease unless Lessor shall have notified Lessee in writing that it has so elected to terminate this Lease. For the period commencing upon the occurrence and during the continuance of an Event of Default until such time as the Event of Default is cured and possession is revested in or delivered to Lessee, Lessee hereby waives all claims based on Lessor's reentering and taking possession of the Premises, or removing and storing the property of Lessee, and shall save Lessor harmless from all losses, costs or damages occasioned thereby. No such reentry shall be considered or construed to be a forcible entry by Lessor.

12.4 Lessor's Current Damages. Upon the occurrence and during the continuance of an Event of Default, Lessor is authorized to make such repairs, refurbishments or improvements to the Premises as may be reasonably necessary for the purpose of attempting to re-let the Premises, and the reasonable costs and expenses incurred in respect of such repairs, redecorating, refurbishments and improvements shall be paid by Lessee to Lessor within THIRTY (30) calendar days after receipt of Lessor's statement, together with copies of invoices and supporting documentation. If Lessor exercises any of the remedies stated above, Lessor shall be entitled to recover from Lessee all actual damages incurred by Lessor by reason of the Event of Default, which shall include, without limitation, (i) the equivalent of the amount of the present value of Base Rent and all other payments which would be payable under this Lease by Lessee for the remainder of the Term as if this Lease were still in effect, less (ii) the net proceeds of any re-letting by Lessor after deducting all of Lessor's reasonable expenses in connection with such re-letting, which shall include, without limitation, repossession costs, repairs, redecorating, refurbishments or improvements to the Premises, brokerage commissions, reasonable attorneys' fees, and reasonable legal expenses. Lessee shall pay such current damages to Lessor, in the amount set forth in the preceding sentence ("**Deficiency**"), in monthly installments on the days on which the Base Rent would have been payable under this Lease as if this Lease were still in effect. In no event shall Lessee be liable for punitive, consequential or speculative damages under this Lease. Lessor agrees to satisfy its obligations to mitigate its damages and to, in all instances, comply with applicable law.

12.5 Lessor's Final Damages. At any time after an Event of Default, whether or not Lessor shall have collected any monthly Deficiency as set forth above, Lessor shall be entitled to recover (without duplication or in excess of Lessor's total damages arising out of this Lease) from Lessee, and Lessee shall pay to Lessor, promptly on demand, as Lessor's final damages for the applicable Event of Default, the sum of (a) the then present worth (at a discount of SIX PERCENT (6%) per annum) of (i) the aggregate of the Base Rent and all other amounts to be paid by Lessee hereunder for the unexpired portion of the Term of this Lease (assuming this Lease had not been terminated), less (ii) the amount of Rent and any losses that could have been reasonably avoided, plus (b) reasonable repossession costs, reasonable Lessor's expenses in connection with any attempts it may have made to re-let the Premises (which shall include, without limitation, repairs, refurbishments or improvements to the Premises and brokerage commissions), reasonable attorneys' fees, reasonable legal expenses, and all other actual damages incurred by Lessor as a result of such Event of Default.

12.6 No Waiver by Lessor. No waiver by Lessor of any breach or Event of Default by Lessee in the performance of its obligations under this Lease shall be deemed to be a waiver of any subsequent Event of Default by Lessee in the performance of any such obligations, and no express waiver shall affect an Event of Default in a manner other than as specified in said waiver. The consent or approval by Lessor to or of any act by Lessee requiring Lessor's consent or approval shall not be deemed to waive or render unnecessary Lessor's consent or approval to or of any subsequent similar acts by Lessee.

12.7 Content of Default Notice. Any notice for an Event of Default tendered to Lessee hereunder shall be deemed to be sufficient if it is reasonably calculated to put Lessee on inquiry as to the nature and extent of such default and is made in accordance with SECTION 20 herein.

12.8 Limitation on Exercise of Termination Remedy by Lessor. Notwithstanding anything to the contrary in SECTION 12.2 hereinabove, if an Event of Default occurs, Lessor shall not have the remedy of terminating this Lease or of taking possession of the Premises unless: (i) the Event of Default consists of a failure to pay Base Rent or other amounts owed to Lessor; or (ii) Lessor has no other remedy that is adequate to protect Lessor's interests. Other remedies that are available to Lessor include self-help and recovery of damages, and nothing in this SECTION 12 shall limit the exercise of any such other remedy.

12.9 Waiver of Landlord's Lien. Lessor hereby waives all statutory or common law landlord's lien rights with respect to personal property located on the Premises.

13. RESERVED.

14. INDEMNIFICATION

14.1 Lessee's Indemnity. Except for the negligent acts or omissions and intentional misconduct of Lessor and its agents, contractors, employees, managers and representatives, to the fullest extent permitted by law, Lessee hereby agrees to defend, indemnify and hold harmless Lessor and its members, elected or appointed officials, agents, boards, commissions and employees from and against any and all third-party claims, causes of action, liability, suits, litigation (including reasonable attorney's fees and other costs of investigation and litigation), actions, losses, damages or claims of any nature whatsoever (collectively, "**Liabilities**") to the extent caused by or arising out of (i) violations of the Airport Security plan, security directives, security bulletins, or notifications about Airport security ("**Security Communications**") provided that the portions of the Security Communications applicable to Lessee and Lessees' operations have been delivered to Lessee in advance and in writing, (ii) any breach of any representation or warranty of Lessee under this Lease or Event of Default of Lessee in the performance of any covenant or agreement on the part of Lessee to be performed pursuant to the terms of the Lease, and (iii) any and all negligent acts or omissions and intentional misconduct of Lessee, its agents, employees, and contractors. This indemnification shall exclude responsibility for any damages and for claims arising by reason of the negligent acts or omissions and intentional misconduct of Lessor or its employees, managers, representatives, contractors, subcontractors, or agents. Lessor's members, elected or appointed officials, agents, boards, commissions and employees are third-party beneficiaries of this Section 14.1.

14.2 Lessor's Indemnity. Except for the negligent acts and omissions and intentional misconduct of Lessee and its agents, contractors, employees, managers and representatives, to the fullest extent permitted by law, Lessor hereby agrees to defend, indemnify and hold harmless Lessee and its members, elected or appointed officials, agents, boards, commissions and employees from and against any and all third-party Liabilities to the extent caused by or arising out of (i) Lessor's ownership, occupancy, use or conduct of business on the Premises, (ii) any breach of any representation or warranty of Lessor under this Lease or default of Lessor in the performance of any covenant or agreement on the part of Lessor to be performed pursuant to the terms of this Lease, and (iii) any and all negligent acts or omissions and intentional misconduct of Lessor, its agents, employees, and contractors on or about the Premises. This indemnification shall exclude responsibility for any damages and for claims arising by reason of the negligent acts or omissions and intentional misconduct of Lessee or its employees, managers, representatives, contractors, subcontractors, or agents. Lessee's members, elected or appointed officials, agents, boards, commissions an employees are third-party beneficiaries of this Section 14.2.

14.3 Lessor's Damage to Improvements. Lessor shall be responsible and liable for any damage to any improvements or alterations on the Premises, including but not limited to the Phase I Improvements

and Lessee Improvements, to the extent caused by Lessor or its agents, employees, and contractors, and Lessor shall promptly repair any damage caused by Lessor or its agents, employees, and contractors.

14.4 Lessee's Damages to Improvements. Lessee shall be responsible and liable for any damage to any improvements or alterations on the Airport, to the extent caused by Lessee or its agents, employees, and contractors, and Lessee shall promptly repair any damage caused by Lessee or its agents, employees, and contractors.

15. ENVIRONMENTAL PROTECTION

15.1 Definitions. Unless the context shall clearly require otherwise, the terms defined in this SECTION 15.1 shall, for all purposes of this Lease and of any agreement amendatory hereof or supplemental hereto, have the meanings herein specified, with the following definitions to be equally applicable to both the single and plural forms of any of the following:

15.1.1 *Environmental Laws.* The term "**Environmental Law**" shall mean any one or all of the following, as the same are amended from time to time: the Comprehensive Environmental Response, Compensation, and Liability Act, 42 USC Section 9601 et seq.; the Resource Conservation and Recovery Act, 42 USC Section 6901, et seq.; the Toxic Substances Control Act, 15 USC Section 2601 et seq.; the Safe Drinking Water Act, 42 USC Section 300f et seq.; the Clean Water Act, 33 USC Section 1251 et seq.; the Clean Air Act, 42 USC Section 7401 et seq.; the Arizona Hazardous Waste Management Act, A.R.S. Section 49-921 et seq. the Arizona Environmental Quality Act, A.R.S. Title 49, as amended; and all regulations thereunder and any other laws, regulations and ordinances (whether enacted by the local, state or federal government) now in effect or hereafter enacted that deal with the regulation or protection of the environment, including the ambient air, ground water, surface water, and land use, including substrata land, or that govern the use of hazardous materials, hazardous waste and hazardous substances and petroleum products.

15.1.2 *Hazardous Material.* The term "**Hazardous Material**" shall mean any toxic or hazardous material, substance or waste, or any pollutant or contaminant as defined or regulated pursuant to any Environmental Law and petroleum products. For purposes of this definition, petroleum includes petroleum-based substances comprised of a complex blend of hydrocarbons derived from crude oil through processes of separation, conversion, upgrading and finishing (e.g., distillate fuel oils, petroleum solvents and used oils).

15.1.3 *Environmental Conditions.* The term "**Environmental Conditions**" shall mean any adverse condition relating to surface water, ground water, drinking water supply, land, surface or subsurface strata, or the ambient air, and includes, without limitation, air, land and water pollutants, noise, vibration, light, and odors, which may result in a claim of liability under any Environmental Laws, and which shall include Offsite Migration. For purposes hereof, "**Offsite Migration**" shall mean the migration of any Environmental Condition on or under the Premises originating from land other than the Premises, which Lessee proves to Lessor's reasonable satisfaction was not caused or exacerbated (as opposed to the mere discovery or uncovering of) by Lessee or any of its agents, employees, or contractors.

15.2 Environmental Compliance and Lessor Representations.

15.2.1 Lessee shall, at the Lessee's own expense, comply with all enacted Environmental Laws, including any amendments thereto (but as to any violations of laws existing as of the date of this Lease, such compliance obligation shall not transfer to Lessee by virtue of Lessee's tenancy under this Lease), affecting Lessee's activities on and property interest in the Premises during the Term of this Lease and shall not in the use and occupancy of the Premises or otherwise, cause any Environmental Condition on or about the Premises. To the extent that Lessor, or any Lessor's employees, agents or contractors, conducts any activities on or about the Premises during the Term of this Lease, Lessor shall, at Lessor's own expense, comply with all present and

hereafter Environmental Laws, including any amendments thereto, affecting any of Lessor's activities on the Premises, and Lessor shall not cause any Environmental Condition on or about the Premises. Lessee may elect, in its sole discretion, to cleanup, remediate, remove, and/or restore any matters of non-compliance not caused by Lessee, its agents, employees, or contractors, and in such instance, Lessor shall use commercially reasonable efforts to enforce all obligations of the United States Government and all other tenants and/or users at the Airport.

15.2.2 Lessee shall not cause or permit any Hazardous Material to be brought upon, kept or used in or about the Premises or the Airport by Lessee's agents, employees, or contractors in violation of any Environmental Law, except that the Parties recognize and agree that Lessee may bring on or about the Premises and Airport and use Hazardous Material that is ordinarily and customarily used in the conduct of Lessee's permitted use and activities under this Lease, provided that such use shall comply fully with all applicable Environmental Laws. Except in connection with Lessor's delivery of fuel to the Premises requested by Lessee in the ordinary course of its business, Lessor shall not cause or permit any Hazardous Material to be brought upon, kept, or used on the Premises by Lessor's agents, employees, or contractors for any activity Lessor conducts on the Premises during Lessee's occupancy, without prior written notification to and written approval by Lessee (which may be withheld in Lessee's sole discretion), and any such use or presence shall be in compliance with Environmental Law.

15.3 Indemnification.

15.3.1 Lessee's Indemnity. To the fullest extent permitted by law, Lessee shall indemnify, defend (with counsel reasonably acceptable to Lessor), protect and hold harmless Lessor and its employees and agents for, from and against any and all liability, loss, damage, expense, penalties and legal and investigation fees or costs, arising from or related to any claim or action for injury, liability, or damage to persons or property and any and all claims or actions brought by any person, entity or governmental body, alleging or arising in connection with contamination of the environment or violation of any Environmental Law or other statute, ordinance, rule, regulation, judgment or order of any government or judicial entity, or arising in connection with an Environmental Conditions (collectively, "**Environmental Damages**") which are incurred or assessed as a result of any of Lessee's activities or operations on the Premises. This obligation includes, but is not limited to, all costs and expenses related to cleaning up the property, land, soil and underground or surface water as required under the law. Lessee's obligations and liabilities under this SECTION 15.3.1 shall survive the termination of this Lease. The indemnification of Lessor by Lessee as described above includes, without limitation, costs incurred in connection with any investigation of site conditions or any cleanup, remedial, removal or restoration work required by any federal, state or local governmental agency or political subdivision. Lessor reserves the right to seek injunctive relief as may be permitted under law and equity. Provided however, this SECTION 15.3.1 explicitly excludes Lessee's duty, liability or indemnity to Lessor for any claims or Environmental Damages of any kind whatsoever arising from or in connection with any contamination of any kind existing in, on, under, or from the Premises on or prior to the Effective Date hereof, or the mere discovery of any Hazardous Materials in, on, under or from the Premises as a result of Lessee's construction and completion of the Phase I Improvements and/or any other Lessee Improvements (except and only to the extent a known contamination is exacerbated by Lessee's negligence), and/or any claims or Environmental Damages arising as a result of an act of omission of Lessor or its agents, employees, or contractors at the Premises.

15.3.2 Lessor's Indemnity. To the fullest extent permitted by law, Lessor shall indemnify, defend (with counsel reasonably acceptable to Lessee), protect and hold harmless Lessee and its employees and agents for, from and against any and all Environmental Damages which are incurred or assessed as a result of Lessor's activities or operations on the Premises. This obligation includes, but is not limited to, all costs and expenses related to cleaning up the property, land, soil and underground or surface water as required under the law. Lessor's obligations and liabilities under this SECTION 15.3.2 shall survive the termination of this Lease. Lessee reserves the right to seek injunctive relief as may be permitted under law and in equity. In addition,

Lessee may elect, in its sole discretion, to cleanup, remediate, remove, and/or restore any such site conditions, and in such instance, Lessor shall use commercially reasonable efforts to enforce all obligations of the United States Government to reimburse the costs of the same.

15.4 Remediation. Subject to the provisions in SECTION 15.3 above, if the presence of any Hazardous Material during the Term of this Lease caused or permitted by Lessee to be first brought on the Airport or Premises upon or after the Effective Date hereof results in any Release (as defined below) on the Airport or Premises in violation of any Environmental Law, or if a known contamination is exacerbated as a result of Lessee's construction and completion of the Phase I Improvements and/or any other Lessee Improvements, Lessee shall promptly take action to remediate the affected property at its sole expense as necessary to return the Airport or Premises to the condition existing prior to the introduction of any such Hazardous Material to the Airport or Premises; provided that Lessor's approval of such actions shall first be obtained, which approval shall not be unreasonably withheld, conditioned or delayed, so long as such actions would not potentially have any material adverse long-term effect on the Airport and Lessee is not under administrative or court order related to such remediation action (and which shall not be required in the event of an emergency). Notwithstanding Lessor's approval pursuant to this SECTION 15.4, Lessor is not responsible for directing or managing any remediation action. For purposes of this SECTION 15.4, the term "**Release**" means any releasing, spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, disposing, or dumping. Lessee shall have no responsibility for any remediation that may be required due to conditions set forth in that certain Phase I environmental report dated October 27, 2021 unless such conditions are exacerbated by Lessee or its employees, agents, or contractors.

15.5 Governmental Submittals. Lessee shall, at Lessee's own expense, make all submissions to, provide all information to, and comply with all requirements of the appropriate governmental authority ("**Government**") under the Environmental Laws. Subject to the provisions in SECTION 1.1 and SECTION 15.3 above, should the Government determine that a site characterization, site assessment and/or cleanup plan should be prepared and/or that a cleanup should be undertaken because of any spills or discharges of Hazardous Material by reasons of Lessee's activities or actions at the Airport which occur during the Term of this Lease, then Lessee shall, at the Lessee's own expense, prepare and submit the required plans and financial assurances, and carry out the approved plans.

15.6 Information Sharing. Lessee shall promptly notify Lessor of any of the following: (i) Lessee's receipt of any written notification from any governmental entity either charging or informing Lessee that it will be charged with a significant violation of Environmental Law (as defined below), and (ii) any significant change in Lessee's activities on the Premises that is reasonably likely to adversely change Lessee's obligations or liabilities under the Environmental Laws. In addition, upon written request by Lessor, Lessee agrees to provide Lessor with non-privileged copies of documents, if any, reflecting the physical condition of the Premises, including but not limited to, environmental testing of soils and groundwater, and existing, non-privileged information reasonably requested by Lessor to determine the applicability of the Environmental Laws to the Premises, or to assist in the response to any governmental investigation or claim of liability by third parties which is related to environmental contamination of the Premises, to the extent that such investigations or claims are related to Lessee's activities thereon. A "**significant violation of Environmental Law**" shall be any violation that requires more than ONE HUNDRED EIGHTY (180) calendar days to resolve.

15.7 Sublease. Lessee shall insert provisions substantially identical to the provisions of this SECTION 15 in any sublease agreement or contract by which it grants a right or privilege to any person, firm, corporation or other entity under this Lease.

15.8 Actions of Lessee. The activities or actions of Lessee under this SECTION 15 shall include the activities or actions of Lessee's officers, directors, employees, agents, contractors, invitees and successors.

15.9 Clean Water Act; NPDES Permits and SWPPPs. Without in any way limiting the foregoing, Lessee shall comply with all Environmental Laws regarding discharges to water and land, including, without limitation, obtaining and complying with an individual National Pollutant Discharge Elimination System (NPDES) permit, or requesting coverage under and complying with any applicable Multi-Sector General Permit ("**MSGP**"). If applicable, Lessee shall also prepare and comply with a site-specific MSGP with an individual Storm Water Pollution Prevention Plan ("**SWPPP**") or any revisions to a SWPPP, with respect to Lessee's operations or activities on the Premises or Airport. Proof of individual compliance shall be provided in the form of both the Lessee's Notice of Intent ("**NOI**") that has been received by the Arizona Department of Environmental Quality ("**ADEQ**") and the individual Arizona Multi-Sector General Permit (AZMSGP) number associated with the NOI, within the times prescribed by law.

15.10 Protective Devices and Plans. If Lessee is required by the City to estimate the possible constituents of sanitary sewer discharges in order that the City may define certain discharge limitations for the Premises, Lessee shall complete and return an Industrial Wastewater Discharge Questionnaire ("**Questionnaire**") to the City and upon written request of Lessor, Lessee shall provide Lessor with updates, if any to the Questionnaire as they arise. Also, if the City so requires, in accordance with applicable law, Lessee shall install and maintain appropriate protective devices to prevent accidental discharge of any Hazardous Material into domestic or industrial drains on or near the Premises and elsewhere on the Airport, as appropriate, and for any other material for which a slug load discharge is reasonably likely to pollute the Airport's storm water discharge or disrupt operations at the sewage treatment plant serving the Premises. Lessee shall ensure that Lessee's designated employees are trained with regard to the spill protection plan hereinafter referenced in SECTION 15.15 below. Lessee also shall provide Lessor with prompt notice of any spill under said SECTION 15.15 to Lessee's actual knowledge.

15.11 Right to Enter Premises. In addition to the rights afforded to Lessor in SECTION 19 below, this Lease specifically includes the right of the United States Government, the Environmental Protection Agency (the EPA), ADEQ, Lessor, and the Arizona Department of Occupational Safety and Health (ADOSH), subject to compliance with applicable laws, to enter the Premises upon reasonable notice to Lessee and subject to Lessee's rights under this Lease, for purposes of: (i) inspecting Lessee's compliance with environmental, occupational safety and health laws and regulations, whether or not such party is responsible for enforcing such laws; (ii) conducting environmental investigation or remediation, including, without limitation, performing tests and surveys, drillings, test-pitting, borings, compiling data and/or records, and other activities related to environmental investigation; and (iii) carrying out remedial or removal actions as required or necessary under applicable laws, including, without limitation, installing monitoring wells, pumping wells and/or treatment facilities. Lessee shall have no claim against Lessor for any entries by the United States, EPA, ADEQ, Arizona ADOSH, or any officer, agent, employee or contractor thereof.

15.12 U.S. Air Force Use and Remedial Action.

15.12.1 The Parties assume no liability or responsibility for environmental impacts and Environmental Damages or claims of any kind whatsoever caused by or resulting from the U.S. Air Force's use of Hazardous Material on any portion of the Airport, including the Premises, prior to the Effective Date hereof, and have no obligation under this Lease to undertake the defense of any claim or action, whether in existence now or brought in the future, solely arising out of the use of or release of any Hazardous Material or deposits of solid waste on or from any part of the Airport, including, but not limited to, the Premises, even if such claims or contamination are first discovered or made after the Effective Date hereof. Further, the Parties have no obligation or liability under this Lease to undertake environmental response, remediation, or cleanup relating to any contamination caused by or related to such use or release. For purposes of this SECTION 15.12.1, "**defense**" or "**environmental response, remediation, or cleanup**" shall include liability and responsibility for the costs of damage, penalties, legal and investigative services relating to such use or release. The term "**use**" in this SECTION 15.12.1 shall mean any activity or presence (in or upon) such portion of, or such building, facility or other improvement on the Premises.

15.12.2 Pursuant to Section VII.E.3 of the Deed (as defined herein), the U.S. Air Force warrants and covenants that all remedial action necessary to protect human health and the environment with respect to Hazardous Material remaining on the Airport, including the Premises, has been completed prior to the date of the Deed and, further, any remedial action found to be necessary after the date of the Deed shall be conducted by the U.S. Air Force; provided, however, that the foregoing covenant does not apply where Lessor or Lessee is a potentially responsible party with respect to any portion of the Premises or the Airport. To the extent permissible without the consent of the United States of America, the U.S. Air Force, or the Federal Aviation Administration, and on a non-exclusive basis, Lessor hereby assigns to Lessee, as beneficiary only and without any obligations or covenants by Lessee, the right to enforce the obligations of the U.S. Air Force, jointly and severally with Lessor, pursuant to the terms of Section VII.E.3 of the Deed.

15.13 Cleanup Requirements. Except as otherwise provided in this Lease, including but not limited to SECTIONS 1.1, 14.2, 15.3.2, and 15.17, Lessee agrees that Lessor assumes no liability to Lessee should Hazardous Material cleanup or related requirements, whether imposed by law, regulatory agencies, the U.S. Air Force or Department of Defense cause delays or interferes with Lessee's use of the Premises. Except as otherwise provided in SECTIONS 1.1, 14.2 , 15.3.2, and 15.17, Lessee shall have no claim against Lessor or the United States or any officer, agent, employee or contractor thereof on account of any such interference whether due to entry, performance of remedial or removal investigations, or exercise of any right with respect to the Federal Facilities Agreement (FFA) or the Installation Restoration Program (IRP) or under this Lease or otherwise. Lessee and/or Lessor, as applicable agree to comply with the provisions of any health or safety plan in effect under the IRP or any hazardous substance remediation or response agreement with environmental regulatory authorities during the course of any of the above described response or remedial actions. Any inspection, survey, investigation, or other response or remedial action conducted by any governmental authorities or Lessor shall, to the extent practicable, be coordinated with representatives designated by Lessee. Lessor covenants and agrees to comply with any directives, orders and or requirements imposed upon Lessor, whether imposed by law, regulatory agencies, or the U.S. Air Force or Department of Defense. Notwithstanding anything contained herein to the contrary, in the event the cleanup requirements as described in this SECTION 15.14 interfere with Lessee's use of and/or access to the Premises for more than NINETY (90) consecutive days, then Lessee shall have the right to either (i) equitably abate Base Rent to the degree of interference with Lessee's use and access to the Premises, or (ii) terminate this Lease without any further obligations in connection herewith except for those accruing prior to termination or which expressly survive termination of this Lease.

15.14 Spill Protection Plan. In the event Lessee undertakes any type of manufacturing, maintenance or other activities on the Premises involving the use or generation of any Hazardous Material regulated by Environmental Laws, then if required by applicable law, Lessee shall have a plan for responding to Hazardous Material, fuel, and other chemical spills ("**Spill Protection Plan**") prior to commencement of Lessee's activities on the Premises and other approved Airport locations. Such Spill Protection Plan shall comply with all applicable requirements of Environmental Law, which Spill Protection Plan shall be updated from time to time or as may be required to comply with changes in site conditions or applicable requirements, and shall be approved by all agencies that are obligated by law to approve such plan. Such Spill Protection Plan shall be independent of Lessor's spill prevention and response plans, if any. Lessee shall not rely on use of Lessor or Lessor personnel or equipment in execution of its Spill Protection Plan. Lessee shall file a copy of the Spill Protection Plan and any Lessee amendments thereto with Lessor's Environmental and Safety Coordinator within THIRTY (30) calendar days of receipt of a CofO from the City. Notwithstanding the foregoing, should Lessor provide any personnel or equipment, whether for initial fire response and/or spill containment, on the request of Lessee, or because Lessee was not, in the reasonable opinion of Lessor, conducting firefighting, containment or timely cleanup actions, Lessee agrees to reimburse Lessor for its actual reasonable costs in accordance with all applicable laws and regulations, except to the extent that Lessor was responding to conditions caused by events occurring at the Airport (not including the Premises) or by the negligence or omission of Lessor or its employees, agents or contractors.

15.15 Wells. Lessee shall not install any drinking water or other wells in any location on the Premises without the prior written approval of Lessor, which shall not be unreasonably withheld, conditioned, or delayed.

15.16 Surface Disturbances. After construction of Lessee's improvements on the Premises, if any, either in the future or as otherwise provided herein, Lessee shall not conduct any subsurface excavation, digging, drilling or other disturbance of the surface other than what is usual and customary for the anticipated uses without the prior written approval of Lessor, which shall not be unreasonably withheld, conditioned or delayed.

15.17 Later Discovered Hazmat. If any Hazardous Material is newly discovered on a portion of the Premise after the Effective Date that: (a) (i) were not placed on the Premises by Lessee or exacerbated as a result of Lessee's construction and completion of the Phase I Improvements and/or any other Lessee Improvements, and (ii) were present on the Premises on or prior to the Effective Date, or that migrated in, on, under or from the Premises (collectively, "**Later-Discovered, Pre-Existing Hazmat**"); and (b) such Later-Discovered, Pre-Existing Hazmat will cause Unavoidable Delay in the construction of the Phase I Improvements, Lessee shall promptly notify Lessor and cease development activity in the impacted area of the Premises, and Lessee shall have the right to either (1) conduct such investigations and remedial actions as necessary under applicable Environmental Law and continue development activity as the remedial process allows (and reserve any rights it may have to seek whatever compensation it is entitled to recover), if Lessor does not agree within SEVEN (7) business days of receiving Lessee's notice to promptly investigate and remediate the detected Hazardous Material in accordance with Environmental Law, at its sole cost, and on a schedule and in a manner that does not interfere with Lessee's development, use or construction plans, or (2) terminate this Lease upon written notice to Lessor without any further obligations in connection herewith except for those accruing prior to termination or which expressly survive termination of this Lease.

In the event Lessee elects to take any investigative and/or remedial actions in connection with any Later-Discovered, Pre-Existing Hazmat, Lessor agrees to reimburse Lessee for the actual, reasonable, out-of-pocket third-party costs thereof, not to exceed ONE MILLION DOLLARS ($1,000,000.00), which amount shall be due and payable by Lessor within thirty (30) days after written demand from Lessee, which demand shall be accompanied by reasonable supporting documentation, including without limitation environmental studies and reports, and invoices or receipts evidencing such costs. If Lessor does not reimburse Lessee on or before the expiration of such thirty-day period, Lessee shall be entitled to deduct the costs thereof from the Base Rent (as hereinafter defined in SECTION 4) next due hereunder.

16. PROTECTION OF WETLANDS

Lessee shall minimize the destruction, loss, or degradation by Lessee or its employees, agents, and contractors of any known wetlands located on the Premises. Lessor represents and warrants that, to its actual knowledge, there are no wetlands existing on the Premises as of the Effective Date. However, before locating new construction in wetlands, if any exist, Lessee shall contact Lessor and the United States Army Corps of Engineers and obtain a permit or waivers under Section 404 of the Clean Water Act. For purposes of this SECTION 16, the term, "**new construction**," includes structures, facilities, draining, dredging, channeling, filling, diking, impounding, and related activities.

17. INSURANCE

17.1 Coverage Required. Lessee shall procure and maintain, or cause to be procured and maintained, the following types and amounts of insurance with respect to the Premises:

17.1.1 ***Airport Premises Liability.*** Airport Premises Liability insurance in the amount of $10,000,000 per occurrence, covering third party bodily injury and property damage, and including coverage for "**premises/operations**," "**products and completed operations**," "**professional**," "**host liquor**," and "**blanket contractual liabilities**."

17.1.2 ***Comprehensive/Commercial Automobile Liability***. Comprehensive/Commercial Automotive Liability insurance in the amount of $5,000,000 combined single limit, covering all owned, non-owned, and hired vehicles operated on the Airport that are assigned to or used in the performance of commercial activities, or are operated within the AOA.

17.1.3 ***Environmental Impairment Liability***. Environmental Impairment Liability (or Pollution Legal Liability) insurance in the amount of $1,000,000 per occurrence and $2,000,000 aggregate, covering third party bodily injury and property damage associated with hazardous material storage facilities, tanks, piping, ancillary equipment and containment systems or structures that are used, controlled, constructed, or maintained on the Airport, and including expenses for defense, release mitigation, and off- and on-site remediation.

17.1.4 ***Hangarkeeper's Liability.*** Hangarkeeper's Liability insurance in the amount of $10,000,000 per occurrence (or the value of the largest aircraft operator can accommodate, whichever is greater), covering aircraft and related damage to owned and non-owned aircraft stored by or otherwise in the operator's care, custody or exclusive control. Coverage may be "**ground**" (if no test flying or other related airborne/aircraft powered operations (e.g., ferrying, ground taxiing) are conducted) or "**air**," and is required anytime aircraft are "**moved**" by the operator, irrespective of whether or not a physical hangar facility is involved.

17.1.5 ***Property Insurance.*** Property insurance in an amount equal to the full insurable value of the operator's essential personal property and all improvements made to buildings or facilities within the operator's premises, if any, including all replacements and/or additions thereto, on an All Risks, replacement-cost basis. Such shall require an ISO Special Causes of Loss Form or equivalent.

17.1.6 ***Builder's Risk Insurance***. Builder's Risk insurance covers the insured's premises and all replacements and/or additions thereto for their full insurable value on a "**replacement cost**" basis, and requires an ISO Special Causes of Loss form or equivalent. Coverage pertains only to new construction and major premises renovation projects (greater than $10,000) and is required only until project completion. Required if project involves excavation or erecting a vertical structure.

17.1.7 ***Workers Compensation.*** Workers' Compensation and Employer's Liability insurance, the former in amounts specified by law and the latter in the amount of $1,000,000 per occurrence, covering work-related injuries to the operator's employees and others permitted to conduct business activities on the operator's premises.

17.2 Form. Each insurance policy obtained pursuant to this SECTION, except for Worker's Compensation and Employer's Liability policies, shall: (i) name Lessor as a certificate holder and additional named insured via endorsement; (ii) contain a provision that written notice of cancellation or modification thereof shall be given to Lessor not less than THIRTY (30) calendar days before such cancellation or modification takes effect TEN (10) days in case of nonpayment of premium); and (iii) contain a waiver of subrogation in favor of Lessor. Lessee shall not permit any insurance policy to be canceled or modified without Lessor's written consent unless equivalent replacement policies are issued with no lapse in coverage. All policies shall be obtained from insurance companies licensed to do business in the State of Arizona and possessing a rating of at least A – VII or higher from the A.M. Best Company, or an equivalent rating and approved by Lessor.

17.3 Certificates of Insurance. Lessee shall deliver a certificate of insurance for each policy required along with an endorsement naming Phoenix-Mesa Gateway Airport Authority as additional insured, herein to Lessor, in standard Acord or equivalent form, prior to the Effective Date and shall continue to provide such certificates throughout the term of this Lease.

17.4 Blanket Insurance. Lessee's insurance obligations under this Lease may be satisfied by means of "**blanket**" or excess policies.

17.5 Insurance by Lessor. In the event Lessee shall fail to procure any insurance required hereunder, Lessor may, upon written notice to, and a reasonable opportunity to cure by, Lessee, procure and maintain any or all of the insurance required of Lessee under this SECTION 17 in its reasonable discretion. In such event, all costs of such insurance procured and maintained by Lessor on behalf of Lessee shall be the responsibility of Lessee and shall be fully reimbursed to Lessor within THIRTY (30) business days after Lessor advises Lessee of the cost thereof.

17.6 Lessor Coverage Required. Lessor shall procure and maintain, or cause to be procured and maintained, the following types and amounts of insurance with respect to the Airport:

17.6.1 ***Airport General Liability.*** Airport General Liability insurance in the amount of $200,000,000 per occurrence, covering third party bodily injury and property damage, and including coverage for "**premises/operations**," "**products and completed operations**," "**professional**," "**host liquor**," and "**blanket contractual liabilities**."

17.6.2 ***Comprehensive/Commercial Automobile Liability***. Comprehensive/Commercial Automotive Liability insurance in the amount of $1,000,000 combined single limit, covering all owned, non-owned, and hired vehicles operated on the Airport that are assigned to or used in the performance of commercial activities, or are operated within the AOA.

17.6.3 ***Environmental Impairment Liability***. Environmental Impairment Liability (or Pollution Legal Liability) insurance in the amount of $3,000,000 aggregate, covering third party bodily injury and property damage associated with hazardous material storage facilities, tanks, piping, ancillary equipment and containment systems or structures that are used, controlled, constructed, or maintained on the Airport, and including expenses for defense, release mitigation, and off- and on-site remediation.

17.6.4 ***Property Insurance.*** Property insurance in an amount equal to the full insurable value of the operator's essential personal property and all improvements made to buildings or facilities within the operator's premises, if any, including all replacements and/or additions thereto, on an All Risks, replacement-cost basis. Such shall require an ISO Special Causes of Loss Form or equivalent.

17.6.5 Lessor's insurance policies shall contain a waiver of claim and subrogation in favor of Lessee for loss or damage to property, both real and personal, caused by or resulting from casualties customarily insurable.

18. SURRENDER OF POSSESSION

18.1 Condition of Property. Upon the expiration or earlier termination of this Lease, Lessee's right to occupy the Premises and exercise the privileges and rights granted thereunder shall cease, and Lessee shall peaceably surrender the same and leave the Premises broom clean and in good condition excepting (a) normal wear and tear, (b) subject to Lessee's obligations pursuant to SECTION 8.7 hereof, damage from fire or other casualty, condemnation and/or (c) acts or omissions of Lessor and its agents, employees, contractors, or representatives. All trade fixtures, equipment, and other personal property installed or placed by Lessee on the Premises which are not permanently affixed thereto (collectively, "**Personal Property**") shall remain the property of Lessee, and Lessee shall have the right at any time during the Term of this Lease, to remove the same from the Airport and Lessee shall repair, at its sole cost, any damage caused by such removal. Any such Personal Property not removed by Lessee on or prior to the termination of this Lease, or revocation of Lessee's right to occupy the Premises, shall become a part of the Premises, and ownership thereof shall vest in Lessor. Unless otherwise agreed to by the Parties, Lessee shall, however, remain financially liable to Lessor for the

reasonable cost of repairs to the Premises incurred as a result of Lessor's removal and/or relocation of such Personal Property formerly belonging to Lessee and not otherwise removed from the Premises, as provided herein, and shall remit to Lessor payment for such costs within THIRTY (30) calendar days of Lessee's receipt of Lessor's invoice therefor, together with supporting documentation.

18.1.1 At the expiration or sooner termination of this Lease, Lessor agrees to accept the Premises with all alterations, additions and improvements made by Lessee in accordance with SECTION 8.3, which improvements shall thereafter become Lessor's property, and Lessee shall not be required to restore the Premises to the condition existing at the commencement of the Initial Term.

18.2 Holding Over. Lessee shall not remain in possession of the Premises after the expiration or earlier termination of the Term without the express written consent of Lessor. Should Lessee hold over without the express written consent of Lessor, such tenancy shall be at the sufferance of Lessor and not a renewal of the Term. In such case, the Base Rent and all other charges due pursuant to this Lease shall be payable at ONE HUNDRED FIFTY PERCENT (150%) of the amount payable during the last year of the Term, and such tenancy at sufferance shall be subject to every other term, covenant and provision of this Lease. In the event Lessee holds over for more than three (3) months, Lessee shall be liable for all of Lessor's direct and consequential damages, which shall include, without limitation, costs, fees, expenses, damages and attorneys' fees incurred by Lessor as a result of Lessee's holding over, and damages and expenses incurred by Lessor for its inability to deliver possession of the Premises to a new lessee.

19. INSPECTION BY LESSOR

Lessor acknowledges and agrees that (i) the portion of the Phase I Improvements consisting of approximately 30,000 square feet of office space on the second and/or third floors of the Premises has been designated by Lessee as a sensitive information facility due to the highly confidential nature of the use thereof; and (ii) Lessee shall have the right from time to time to reasonably and in good faith designate additional portions of the Phase I Improvements and other portions of the Premises as "**Designated Secured Areas**." Upon FIVE (5) business days' advance written notice to Lessee (herein, an "**Entry Request**"), and provided Lessor complies with the entry requirements established by Lessee from time to time and does not unreasonably interfere with Lessee's use of the Premises, Lessee shall permit Lessor and its agents to enter upon the Premises (other than the Designated Secure Areas), subject to any safety, security, and/or confidentiality requirements of Lessee and provided that Lessee or its agent is present, for the purpose of inspecting the same (other than the Designated Secure Areas). In the case of an emergency in which Lessor is required under applicable law to immediately enter, no prior notice to Lessee is required (but notice reasonable under the circumstances shall be given), but Lessor shall nevertheless be subject to Lessee's confidentiality requirements and agreement. Without limiting the generality of the foregoing, Lessee may implement (and from time to time modify) and Lessor and its agents, employees, and contractors shall comply with, commercially reasonable rules, systems and procedures for the security and safety of the Premises and its contents and Lessee's employees, agents, guests and invitees, which systems and procedures may include, among other things, continuously monitored video surveillance, roving security guards/patrols, lobby attendants, security lighting, key-card systems, access gates, the right to escort Lessor and any third parties while the same are on the Premises, the right to prohibit photographs of any portion of the Premises designated by Lessee without Lessee's prior written consent (which consent may be withheld in Lessee's sole and absolute discretion); the right to require Lessor and/or any of Lessor's designees to deliver to Lessee its then current commercially reasonable confidentiality/non-disclosure agreement prior to any entry onto the Premises; reasonable and good faith designation by Lessee of sensitive areas of the Premises that are wholly restricted from entry by Lessor, any of the Lessor's employees, contractors, and agents or any of their designees except as otherwise expressly provided herein (the "**Designated Secure Areas**"); and the right to restrict access by any visitor whom Lessor intends to bring on the Premises who is a competitor, as determined by Lessee in its sole and absolute discretion (collectively, "**Lessee's Security Systems**"). Lessor shall take reasonable steps to avoid interrupting or disrupting the conduct of business of Lessee on the Premises.

20. NOTICES

20.1 All notices required or permitted under this Lease shall not be effective unless personally delivered or mailed by certified mail, return receipt requested, postage prepaid, or by reputable commercial overnight courier service, to the following addresses:

TO LESSOR:	Phoenix-Mesa Gateway Airport Authority Attn: Business Development Department 5835 South Sossaman Road Mesa, Arizona 85212
TO LESSEE:	Gulfstream Aerospace Corporation Attn.: James Whalen, Director, Real Estate & Facilities 500 Gulfstream Road, M/S E-02 Savannah, GA 31408
With a copy to:	Gulfstream Aerospace Corporation Attn: Kandice Harvey, Senior Contract Manager 500 Gulfstream Road, M/S E-02 Savannah, GA 31408
And to:	Jenner & Block LLP Attn: Michelle McAtee 353 N. Clark Street Chicago, IL 60654

20.2 Any notice shall be deemed to have been received Two (2) business days after the date of mailing, if given by certified mail, or upon actual receipt if personally delivered or if given by reputable commercial overnight courier service. Any Party may designate in writing a different address for notice purposes pursuant to this Section.

21. SEVERABILITY

Should a court of competent jurisdiction declare any provision of this Lease invalid, the remaining terms shall remain effective.

22. APPROVALS, CONSENTS AND NOTICES

All approvals, consents and notices called for in this Lease shall be in writing, signed by the appropriate Party, and may not be established solely by oral testimony.

23. LIENS AND MORTGAGES

23.1 Fee Mortgagees. Lessor may mortgage its fee interest in the Premises; provided, however, that any mortgagee under a fee mortgage shall, prior to execution and recordation of such fee mortgage, acknowledge and recognize in a writing, in form and substance satisfactory to the Leasehold Mortgagee (as defined hereinafter), that the fee mortgage is in all respects subject to the rights and remedies of the Leasehold Mortgagee under the Leasehold Mortgage and under any consent of the Lessor to an assignment of this Lease.

23.2 Mortgaging of the Leasehold.

23.2.1 Definitions. "**Leasehold Mortgage**" shall mean any financing obtained by Lessee, as evidenced by any mortgage, deed of trust, assignment of leases and rents, financing statement, or other instrument and secured by Lessee's interest in this Lease and the leasehold estate created hereby, including any assignments, extensions, modifications, amendments, replacements, supplements, renewals, refinancing, and consolidation thereof. "**Leasehold Mortgagee**" shall mean the holder of a Leasehold Mortgage approved in accordance with SECTION 23.2.2.

23.2.2 Leasehold Mortgage. Lessee, and any of its Permitted Transferees, may encumber its interest in this Lease with Lessor's prior written consent, not to be unreasonably withheld, conditioned, or delayed, under any one or more Leasehold Mortgages, provided that all rights acquired under the Leasehold Mortgage(s) shall be subject to the provisions in this Lease and to all rights and interests of the Lessor herein. Lessee shall reimburse Lessor for all legal fees reasonably incurred by Lessor in connection with legal counsel review and approval of Lessee's Leasehold Mortgage and associated documents.

23.2.3 Consent to Leasehold Mortgage. Lessee, and any of its permitted successors and assigns, may encumber its interest in this Lease with Lessor's prior written consent, not to be unreasonably withheld, conditioned, or delayed, under any one or more Leasehold Mortgages, provided that all rights acquired under the Leasehold Mortgage(s) shall be subject to the provisions in this Lease and to all rights and interests of the Lessor herein. In accordance with the foregoing, Lessor hereby consents to Lessee's encumbrance of its interest in this Lease pursuant to a Leasehold Mortgage in favor of Sumitomo Mitsui Banking Corporation ("**Approved Leasehold Mortgage**") which shall secure outstanding principal indebtedness of no more than ONE HUNDRED ELEVEN MILLION FIVE HUNDRED THOUSAND and 00/100 Dollars ($111,500,000.00). If, from time to time thereafter, Lessee or Lessee's permitted successors or assigns encumbers this Lease with a Leasehold Mortgage, and if the Leasehold Mortgagee delivers to Lessor: (a) an executed counterpart of such Leasehold Mortgage; (b) any assignment thereof; (c) written notice of the Leasehold Mortgagee's name and address; and (d) the pertinent recording data for the Leasehold Mortgage, Lessor agrees that from and after the date of receipt by Lessor of such notice and for the duration of such Leasehold Mortgage, the provisions of this SECTION 23 shall apply. Upon Lessee's written request, Lessor shall execute and deliver an estoppel certificate to the Leasehold Mortgagee under any Leasehold Mortgage consented to by Lessor, which estoppel certificate shall be in form and substance reasonably satisfactory to such Leasehold Mortgagee. There shall be no material modification in the Leasehold Mortgage or related documentation without Lessor's prior written consent, which consent shall not be unreasonably withheld, conditioned, or delayed.

23.3 Termination of Lease. There shall be no cancellation, surrender, or modification of this Lease by Lessor or Lessee without the prior written consent of Leasehold Mortgagee. Notwithstanding the foregoing (but subject to Leasehold Mortgagee's rights set forth in SECTION 23.6 and SECTION 23.7 hereof), nothing herein shall be deemed to prohibit Lessor from terminating this Lease in accordance with its terms.

23.4 Notices to Leasehold Mortgagees. If serving Lessee with any notice of default or termination, Lessor shall simultaneously send a copy of such notice to Leasehold Mortgagee. Leasehold Mortgagee may remedy or cause to be remedied Lessee's default under this Lease and Lessor shall accept performances by, or at the instigation of, Leasehold Mortgagee as if it had been done by Lessee. Any notice required to be given to Leasehold Mortgagee shall be given in the same manner as sent to Lessee, addressed to Leasehold Mortgagee at the address and to the attention of the person designated by such Leasehold Mortgagee under SECTION 23.2 hereof.

23.5 Curative Rights of Leasehold Mortgagees. Leasehold Mortgagee shall have an additional period of thirty (30) days to remedy or cause to be remedied any default of which it receives notice pursuant to SECTION 23.4, provided such Leasehold Mortgagee shall reimburse Lessor, at the time of so remedying the

default, for all reasonable costs and expenses of Lessor for maintaining, protecting, insuring, and operating the Premises during the additional thirty (30)-day period

23.6 Limitation Upon Termination Rights of Lessor. If Lessor elects to terminate this Lease because of an Event of Default, Leasehold Mortgagee may postpone and extend the date of termination for not more than three (3) months after the timing specified in SECTION 23.5 hereof if the Leasehold Mortgagee: (a) has cured, or has caused to be cured, any then-existing monetary or non-monetary Event of Default (with the exception of Lessee's non-monetary defaults of such a personal nature that they cannot be cured by Leasehold Mortgagee); and (b) pays the Rent and other charges due under this Lease. Leasehold Mortgagee shall take steps necessary to acquire Lessee's interest and estate in this Lease by foreclosure of its Leasehold Mortgage, or otherwise, and shall prosecute such action to completion with diligence. If at the end of the period identified in this SECTION 23.6 Leasehold Mortgagee shall be actively engaged and diligently pursuing foreclosure or other action to acquire Lessee's interest in the Lease, and all Events of Default have been cured (with the exception of Lessee's non-monetary Events of Default of such a personal nature that they cannot be cured by Leasehold Mortgagee), the time for Leasehold Mortgagee to comply with the provisions of this SECTION 23.6 shall be extended for such period as shall be reasonably necessary to acquire Lessee's interest in the Lease with reasonable diligence and continuity. In no event shall Leasehold Mortgagee have any obligation to cure any default of Lessee under this Lease unless and until Leasehold Mortgagee becomes the owner of said leasehold estate by foreclosure, sale in lieu of foreclosure, or otherwise.

23.7 Mortgagee Lease. Lessor agrees that if this Lease is terminated based on any Event of Default, or if Lessee rejects the Lease in a bankruptcy proceeding, subject to the rights herein granted to Leasehold Mortgagee, Lessor will enter into a lease (the "**Mortgagee Lease**") of the Premises with the Leasehold Mortgagee for the remainder of the Term effective as of the date of termination, at the same Base Rent and on the same terms, provisions, covenants, and agreements as contained in this Lease, provided, however, notwithstanding the foregoing, if, at the time of such Event of Default or bankruptcy, Lessee is an affiliate of the Leasehold Mortgagee, Lessor shall have no obligation to enter into a Mortgagee Lease; and further provided:

23.7.1 Leasehold Mortgagee shall request Lessor execute such a Mortgagee Lease within [thirty (30)] days after the date of termination and shall, within [thirty (30)]days after its receipt from Lessor of a written statement of all amounts then due to Lessor under this Lease, pay to Lessor all such amounts (with the exception of amounts due by reason of Lessee's indemnification obligations set forth in SECTION 14);

23.7.2 Leasehold Mortgagee shall pay to Lessor at the time of the execution and delivery of the Mortgagee Lease: (a) any sums due under this Lease but for the termination; and (b) all reasonable attorney's fees and expenses actually incurred by Lessor;

23.7.3 Leasehold Mortgagee shall remedy any matters that Lessee was obligated to perform under the terms of this Lease; and

23.7.4 Leasehold Mortgagee, as replacement Lessee under the Mortgagee Lease, shall have the same right, title, and interest in and to the Premises and the right to use the Improvements thereon as Lessee had under this Lease.

23.8 Agreement Between Lessor and Leasehold Mortgagee. Lessor, upon request, shall execute, acknowledge, and deliver to Leasehold Mortgagee an agreement, by and among Lessor, Lessee, and Leasehold Mortgagee (provided the same has been previously executed by Lessee and Leasehold Mortgagee) agreeing to all of the provisions of this SECTION 23, in form and substance reasonably satisfactory to Leasehold Mortgagee and Lessor.

23.9 Limitation on Liability of Leasehold Mortgagee. Notwithstanding any other provision of this Lease, Lessor agrees that Leasehold Mortgagee shall in no manner or respect whatsoever be liable or responsible

for any of Lessee's obligations or covenants under this Lease (nor shall any rights of such Leasehold Mortgagee be contingent on the satisfaction of such obligations or covenants), unless and until Leasehold Mortgagee becomes the owner of said leasehold estate by foreclosure, sale in lieu of foreclosure, or otherwise, in which event such Leasehold Mortgagee shall remain liable for such obligations and covenants only while it remains the owner of said leasehold estate.

23.10 No Merger. So long as any Leasehold Mortgage remains outstanding, the fee title and the leasehold estate created by this Lease shall not merge but shall always be kept separate and distinct, notwithstanding the union of such estates in either the Lessor or the Lessee or a third party, by purchase or otherwise.

24. GOVERNING LAW; ATTORNEY FEES

The laws of the State of Arizona shall govern the matters set forth in this Lease. Venue of any action brought under this Lease shall lie in Maricopa County, Arizona.

25. RULES AND REGULATIONS

Lessee shall at all times comply with all Federal, state and local laws, ordinances, rules, and regulations which are applicable to its activities on the Airport, the Premises itself (including but not limited to the *Americans with Disabilities Act*), or the operation, management, maintenance, or administration of the Airport, including all laws, ordinances, rules and regulations adopted after the Effective Date hereof. Lessor shall at all times comply with all such laws, ordinances, rules, and regulations applicable to Lessor. Lessee shall at all times comply with the Airport *Minimum Standards* and *Airport Rules and Regulations*, as the same may be amended from time to time. Copies of the current Airport *Minimum Standards* and *Airport Rules and Regulations* are attached hereto as **EXHIBIT C**. Lessee acknowledges and agrees that Lessor may amend the Airport *Minimum Standards* and *Airport Rules and Regulations* at any time in Lessor's sole discretion. Lessee shall be responsible for controlling and preventing disruptive pedestrian and vehicle traffic associated with its activities on the Premises and at the Airport. Lessee also shall display to Lessor any permits, licenses, or other evidence of compliance with laws upon request.

26. CORPORATE AUTHORIZATION

In executing this Lease, both Lessor and Lessee represent and warrant to the other that each is a valid entity, and each has obtained and been granted the full right, power and authority to enter into this Lease.

27. UTILITY LINES AND SERVICE CHARGES

27.1 Connections and Services. Subject to SECTION 7 herein, Lessee shall, at no cost or expense to Lessor, provide or arrange for any public utility, water and sewage lines, connections and services that are needed in connection with any building(s), structure(s) or other improvement(s) placed on the Premises by Lessee, or required for Lessee's activities thereon, and shall be responsible for the maintenance of such lines and connections from where they enter the Premises. If requested in advance to do so by Lessee, Lessor will grant reasonable rights-of-way on or across the Airport to suppliers of public utility services for the purpose of supplying Lessee with such services, but Lessor reserves the right to reasonably designate the lands along which such rights-of-way shall be granted so as to cause the least inconvenience in the operation of the Airport, Lessee and other Airport tenants, and provided such rights-of-way do not interfere with Lessee's use of and/or access to the Premises. Lessor agrees that, to the extent the City of Mesa is responsible for certain areas and/or utilities that run from other Airport land to the Premises, Lessor shall enforce all such obligations of the City of Mesa and shall cause the City of Mesa to perform such obligations, all at no cost or expense to Lessee.

27.2 Payment. Lessee shall pay for all utilities, including trash collection, used in its operations at the Airport and the Premises. The charges and method of payment for each utility or service shall be determined by the appropriate supplier of the utility or service in accordance with applicable laws and regulations, on such basis as the appropriate supplier of the utility or service may establish.

27.3 Continued Use and Repair. Notwithstanding the execution of this Lease, Lessor retains the right to the continued use of such utility lines and services as are presently on the Premises and the right to repair the same when necessary in Lessor's sole discretion, including but not limited to, any utility easements on the Premises; provided, however, that, except in the event of an emergency when notice as is reasonable under the circumstances is given, such access must be requested in advance by Lessor and consented to by Lessee, and thereafter, Lessor shall conduct such repairs in such a manner and at such times as to not unreasonably interfere with Lessee's activities thereon.

28. RESERVATIONS TO LESSOR. The Premises are accepted "**as is, where is**" by Lessee, subject to any and all existing easements or other encumbrances. Lessor reserves the right to grant reasonable easements, rights-of-way, and permits, over, on, or across any portions of the Premises for commercially reasonable purposes; provided, that Lessor and the grantee, as applicable, shall not exercise such rights so as to unreasonably interfere with or disrupt Lessee's activities on the Premises, including the development of the Premises, to be determined in the reasonable judgment of Lessor and Lessee, and all such interference shall be minimized. Lessor shall provide Lessee reasonable notice of any plan to undertake the activities contemplated under this Section and shall coordinate with Lessee regarding the execution of such plans to minimize any interference with Lessee's or any subtenant's activities on the Premises. All work shall be in compliance with all applicable laws, including Environmental Laws, and the surface of the Premises shall be restored to its original condition, including any necessary remediation in accordance with Environmental Laws of any contamination associated with any Hazardous Material disturbed during any construction, at no cost to Lessee, upon the completion of any construction. Lessor agrees that any rights granted to any parties by reason of this clause shall contain provisions obligating such parties to, at a minimum, the same conditions applicable to Lessor under this SECTION 28, including but not limited to that the surface of the Premises and any Improvements shall be promptly restored to their original condition, at no cost to Lessee, promptly upon the completion of any construction.

29. FEDERAL AVIATION ADMINISTRATION (FAA) PROVISIONS

29.1 Lessee agrees that in the event improvements are constructed, maintained, or otherwise operated on the Premises for a purpose for which a Department of Transportation (DOT) program or activity is intended, or for another purpose involving the providing of similar services or benefits, Lessee shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to 49 CFR Part 21, *Nondiscrimination in Federally Assisted Programs of the Department of Transportation,* as it may be amended.

29.2 Lessee agrees that: (i) no person shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination on the grounds of race, color, creed, disability, age, sex or national origin in the use of the Premises; (ii) that in the construction of any improvements on, over, or under the Premises and the furnishing of services thereon, no person shall be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination on the grounds of race, color, or national origin; and (iii) that Lessee shall use the Premises in compliance with all other requirements imposed by or pursuant to 49 CFR Part 21, as it may be amended.

29.3 Lessee assures Lessor that it will comply with pertinent statutes, Executive Orders, and rules promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, or sex, age or handicap, be excluded from participating in any activity.

29.4 Lessor reserves the right to further develop or improve the landing area of the Airport as it sees fit, regardless of the desires or view of Lessee, and without interference or hindrance therefrom, provided however, such development or improvement shall not unduly interfere with Lessee's use of and/or access to the Premises.

29.5 Lessor shall maintain and keep in repair the landing area of the Airport and all publicly owned facilities of the Airport, together with the right to reasonably direct all activities of Lessee in this regard. Lessor and Lessee agree that Lessee has no responsibility whatsoever with respect to maintenance and repair of the landing area of the Airport, or any publicly owned facilities of the Airport.

29.6 This Lease shall be subordinate to the provisions and requirements of any existing or future agreement between Lessor and the United States relative to the development, operation or maintenance of the Airport. Lessor agrees to reasonably consult with Lessee prior to executing or entering into any agreement that could reasonably be expected to have a material or adverse effect on the Premises or access thereto, or on Lessee or its subtenants, or on any of Lessee's permitted uses, with the stated purpose of attempting in good faith to avoid any interference with, disruption of, or restriction or limitation on Lessee's intended use and development of the Premises in accordance with this Lease. Provided however, if any modification to said agreement with the United States has a material and adverse impact on Lessee's use of and/or access to the Premises, then Lessee shall have the right to terminate this Lease upon ninety (90) days written notice to Lessor.

29.7 There is reserved unto Lessor, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the Premises, which shall include the right to cause in the airspace any noise inherent in the operation of aircraft, now known or hereafter used for navigation of or flight in or through the airspace, and for the use of such airspace for landing on, taking off from, or operation on the Airport.

29.8 Lessee agrees to comply with the notification and review requirements covered in 14 CFR Part 77, if applicable, in the event future construction of a building is planned for the Premises or in the event of any planned modification or alteration of any present or future building or structure situated on the Premises.

29.9 Lessee shall not erect or permit the erection of any structure or building, nor permit the growth of any tree on the Premises, or any other obstruction that exceeds height requirements contained in 14 CFR Part 77 or amendments thereto, or interferes with the runway and/or taxiway "**line of sight**" of the control tower. In the event these covenants are breached, Lessor reserves the right to enter upon the Premises and to remove the offending structure or object at the expense of Lessee, following reasonable written notice and a reasonable opportunity to Lessee to remedy the same, under the circumstances.

29.10 Lessee shall not make use of the Premises in any manner that might interfere with the landing and taking off of aircraft from the Airport or otherwise constitute a hazard. In the event this covenant is breached, Lessor reserves the right to enter upon the Premises and cause the abatement of such interference at the expense of Lessee, following reasonable written notice and a reasonable opportunity to Lessee to remedy the same, under the circumstances.

29.11 Nothing contained in this Lease shall be construed to grant or authorize the granting of an exclusive right within the meaning 49 U.S.C. §40103(e) and 47107 (a)(4).

29.12 This Lease and all of the provisions hereof shall be subject to whatever right the United States government now has, or in the future may have or acquire, affecting the control, operation, regulation and taking over of the Airport, or the exclusive or non-exclusive use of the Airport by the United States during the time of war or national emergency (collectively, "**Assumption**"). In the event an Assumption substantially restricts the conduct of Lessee's use of and/or access to the Premises for a period of thirty (30) calendar days or more; Lessee shall have the right to terminate this Lease upon thirty (30) days written notice to Lessor.

29.13 To the extent that Lessee conducts or engages in any aeronautical activity for furnishing services to the public at the Airport, Lessee shall furnish its services on a reasonable and not unjustly discriminatory basis to all users and charge reasonable and not unjustly discriminatory prices for each unit or service; except, however, that Lessee may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar type of price reductions to volume purchasers.

29.14 Lessee shall conform to Lessor and FAA safety and security rules and regulations regarding use of the Airport air operations area including runways, taxiways, taxilanes and aircraft aprons by vehicles, employees, customers, visitors, etc., in order to prevent security breaches and avoid aircraft incursions and vehicle/pedestrian deviations; complete and pass an airfield safe driving instruction program when offered or required by Lessor; and be subject to penalties as prescribed by Lessor for violations of Airport safety and security requirements applied in a non-discriminatory manner.

30. TITLE VI

30.1 Lessee agrees to comply with pertinent statues, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance. Lessee understands and acknowledges that the FAA requires inclusion of and adherence to the terms and conditions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§2000d to 2000d-4) ("**Title VI**") in all airport/aviation lease agreements where Lessor receives federal funding, including the Lease in this instance.

30.2 During the Term, Lessee agrees as follows:

30.2.1 Compliance with Regulations: Lessee will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities ("**Nondiscrimination Acts and Authorities**"), as they may be amended from time to time, which are herein incorporated by reference and made a part of this Lease.

30.2.2 Non-discrimination: Lessee, with regard to the work performed by Lessee during the Term of the Lease, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. Lessee will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

30.2.3 Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations, either by competitive bidding, or negotiation made by Lessee for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by Lessee of Lessee's obligations under this Lease and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.

30.2.4 Information and Reports: Lessee will provide all applicable information and reports required by such Nondiscrimination Acts and Authorities, the regulations and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of Lessee is in the exclusive possession of another who fails or refuses to furnish the information, Lessee will so certify to the sponsor or the Federal Aviation Administration as appropriate, and will set forth what efforts it has made to obtain the information.

30.2.5 Sanctions for Noncompliance: In the event of Lessee's noncompliance with the nondiscrimination provisions of this Lease, Lessor may impose such default remedies as the Federal Aviation Administration determines to be appropriate, including, but not limited to:

(i) withholding payments, if any, to Lessee under the Lease until Lessee complies; and/or

(ii) cancelling, terminating, or suspending the Lease, in whole or in part.

30.2.6 Incorporation of Provisions: Lessee will include the provisions subsections 30.2.1 through 30.2.5 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Nondiscrimination Acts and Authorities, and the regulations and directives issued pursuant thereto. Lessee will take action with respect to any subcontract or procurement as the sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if Lessee becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, Lessee may request Lessor to enter into any litigation to protect the interests of Lessor. In addition, Lessee may request the United States to enter into the litigation to protect the interests of the United States.

30.3 Lessee, for itself and its successors in interests and assigns, as a part of the consideration hereof, does hereby covenant and agree that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of Lessee's facilities, (2) that in the construction of any improvements on, over, or under the Premises, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, (3) that Lessee will use the Premises in compliance with all other requirements imposed by or pursuant to the Nondiscrimination Acts and Authorities.

30.4 During the performance of this Lease, Lessee, for itself, its assignees and successors in interest agrees to comply with the following non-discrimination statutes and authorities; including but not limited to the following (which Lessor is required to disclose and include in such Lease and other agreements, pursuant to FAA regulation):

30.4.1 Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 Stat. 252) (prohibits discrimination on the basis of race, color, national origin);

30.4.2 49 CFR Part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);

30.4.3 The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. § 4601) (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

30.4.4 Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;

30.4.5 The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.) (prohibits discrimination on the basis of age);

30.4.6 Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended (prohibits discrimination based on race, creed, color, national origin, or sex);

30.4.7 The Civil Rights Restoration Act of 1987 (PL 100-209) (broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "**programs or activities**" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

30.4.8 Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;

30.4.9 The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

30.4.10 Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;

30.4.11 Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);

30.4.12 Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et *seq.*).

30.5 Lessee agrees that in the event improvements are constructed, maintained, or otherwise operated on the Premises for a purpose for which a Department of Transportation (DOT) program or activity is intended, or for another purpose involving the providing of similar services or benefits on the Premises, Lessee shall maintain and operate such facilities and services on the Premises in compliance with all other requirements imposed pursuant to 49 CFR Part 21, Nondiscrimination in Federally Assisted Programs of the Department of Transportation, as it may be amended.

31. FEDERAL FAIR LABOR STANDARDS ACT

This Lease incorporates by reference the provisions of 29 CFR Part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. Lessee has full responsibility to monitor compliance to the referenced statue or regulation. Lessee must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

32. OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970

This Lease incorporates by reference the provisions of 29 CFR Part 1910 with the same force and effect as if given in full text. Lessee must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. Lessee retains full responsibility to monitor its compliance and their subcontractor's compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20CFR Part 1910). Lessee must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.

33. INCORPORATION OF QUITCLAIM DEED

Lessor owns the Airport pursuant to a Quitclaim Deed from the United States Government dated April 14, 1998 and recorded in the Official Records of Maricopa County Recorder on April 30, 1998 as instrument no. 98-354787 (the "**Deed**"), and the terms of the Deed are hereby incorporated in its entirety. To the extent the Deed has terms, conditions, obligations, requirements or restrictions that apply to this Lease, Lessor, Lessee or any matter in connection herewith, Lessee and Lessor agree to be bound by all the terms, covenants and conditions of the Deed, including the following:

33.1 That this Lease is subject to all terms and conditions of the Deed; and

33.2 That in case of any conflict between the Deed and this Lease, the Deed shall control.

34. REQUIRED PROVISIONS OF QUITCLAIM DEED

34.1 Section VI (A)(5)(c) of the Deed requires that the following provisions be included in this Lease:

34.1.1 In furnishing services to the public, Lessee shall not discriminate against any person or class of persons by reason of race, color, creed, or national origin, and Lessee shall otherwise provide such services on a fair, equal, and not unjustly discriminatory basis to all users thereof.

34.1.2 Lessee shall charge fair, reasonable, and not unjustly discriminatory prices for each unit for service; except, however, that the Lessee may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

34.2 If the Premises are within any of the archaeological sites identified in Section VIII.A of the Deed, then, the provisions of Section VIII of the Deed shall be deemed incorporated in this Lease by this express reference to Section VIII of the Deed.

34.3 To the extent the Deed requires that other specific provisions thereof be inserted in this Lease by express reference to the Deed, this sentence shall constitute an express reference to all such applicable provisions of the Deed.

35. AIRPORT SECURITY

35.1 Airport Security Plan.

35.1.1 Lessor's Operations Department maintains an approved Airport Security Plan, which is applicable to all Airport tenants ("**Security Plan**"), and the non-confidential terms of which and/or summaries of, shall be provided to Lessee in writing prior to or simultaneous with Lessor's execution of this Lease, pursuant to 49 CFR Parts 1540 and 1542, and 14 CFR Part 139. Lessee shall at all times comply with Lessor's Operations Department security directives, security bulletins, or verbal notifications, followed by written notification within FORTY-EIGHT (48) hours, existing now or in the future and which are in accordance with the Security Plan provided that Lessee has received the terms of such Security Plan or additional directives.

35.1.2 Lessee is responsible for maintaining security practices, facilities, and perimeter boundaries on their leasehold that meet the security standards set forth by Lessor's Operations Department in accordance with the Security Plan.

35.1.3 Lessee shall promptly upon written request from Lessor correct physical or procedural deficiencies caused by Lessee that are located on the Premises which are contrary to the Operations Department security directives, security bulletins, or verbal notifications existing now or in the future. Within TWENTY-FOUR (24) hours of Lessor notifying Lessee of any deficiency, Lessor shall provide Lessee with a reasonably-detailed written explanation of the deficiencies. Lessee shall be given a reasonable period of time (under the circumstances) to correct such deficiencies.

35.1.4 Reserved.

35.1.5 Lessee shall conduct and document all self-audits and self-inspections as required by Transportation Security Administration ("**TSA**") or the Security Plan make such audits available for inspection by Lessor upon written notice to Lessee.

35.1.6 Lessee shall designate a primary security coordinator to receive security related briefings, bulletins and sensitive security information.

35.1.7 Lessor reserves the right to reasonably modify the Security Plan from time to time, as necessary or as directed by TSA. Lessor's Operations Department shall notify the Lessee and Lessee's security coordinator in writing regarding modifications that effect Lessee in advance of the application thereof to Lessee. Provided however, such modifications shall not interfere with Lessee's use of and/or access to the Premises and shall apply to all Airport tenants.

35.2 Airport Security Badge.

35.2.1 Lessee's employees and contractors that require a badge shall be obligated to complete all training and comply with all reasonable security requirements and directives issued by Lessor's Operations Department, TSA or other entity having security jurisdiction at the Airport. Lessee, its employees, and contractors will surrender security badges upon request by Lessor's Operations Department; physical security media (badges and keys) remain the property of Lessor. Within FORTY-EIGHT (48) hours of Lessor's confiscation of any security badges, Lessor shall provide Lessee and Lessee's security coordinator with a reasonably-detailed and written explanation of the violations that caused Lessor to confiscate the security badges.

35.2.2 Subject to SECTION 19 herein, Lessee, its employees and contractors shall cooperate with all reasonable security related audits, inspections, and screenings conducted by the Lessor's Operations Department in accordance with the Security Plan.

35.2.3 Lessee will promptly return badges to the Lessor's badging office when badge holders employment is terminated, the badge is no longer needed or the employee/contractor is on an extended leave for more than NINETY (90) days.

35.3 Misuse of a badge or security procedures will bring about action, including, but not limited to, retraining, suspension or revocation of one or all misused badges.

36. DEFAULT BY LESSOR

In the event of any alleged breach by Lessor of its covenants contained in this Lease, Lessee shall have available all rights and remedies provided at law or in equity, subject to the terms and conditions of this Lease; provided, however, Lessee may not exercise any such right or remedy unless Lessee has notified Lessor by written notice of such alleged default, and Lessor has not cured such default within the THIRTY (30) calendar day period subsequent to receipt of such notice or, in the event such alleged default is of such a nature that it cannot reasonably be cured within such THIRTY (30) calendar day period, Lessor has failed to cure such alleged

default with all due diligence. Except as expressly provided in this Lease in SECTIONS 1.1, 8.7, 8.8, 15.13, 15.17, 28.6, 28.12, and 35.1, in no event shall Lessee be entitled to terminate this Lease or abate or offset any installment of Base Rent, or any other payments to be made by Lessee to Lessor hereunder.

36.1 Notwithstanding anything contained herein to the contrary, if Lessor defaults in the performance of any of its maintenance and repair obligations under the Lease with respect to the Premises, the taxiway connector (between the Premises and Taxiway Charlie) referenced in SECTION 7.1.6 , and any future parallel taxiway serving the Premises or Taxiway Charlie, then following the notice and cure periods described in this SECTION 36 (except in the event of an emergency in which case Lessee shall provide notice as soon as practical), Lessee may, at its option and in addition to all other rights and remedies available to Lessee, cure the same on behalf of Lessor, whereupon the reasonable cost of such cure shall be due and payable to Lessee from Lessor after THIRTY (30) days written demand therefor by Lessee. Failure of Lessor to reimburse Lessee within THIRTY (30) days after Lessor's receipt of an invoice setting forth such costs, shall entitle Lessee to deduct the costs thereof (together with interest thereon at the default rate) from the Base Rent next due hereunder, unless Lessor timely disputes such costs. In no event shall any reimbursement to Lessee hereunder be subject to any procurement procedures, including but not limited to any City, State or Federal procurement procedures.

37. BROKERS

Lessor and Lessee each represents and warrants to the other Party that it has not had any dealings with any real estate brokers, finders or agents in connection with this Lease. Lessor and Lessee each agrees to indemnify, defend (with counsel reasonably selected by the other) and hold the other Party and other Party's nominees, successors and assigns harmless from any and all claims, costs, commissions, fees or damages arising from a breach of such Party's representation and warranty in this Section.

38. SALE BY LESSOR

Lessee agrees to look solely to Lessor's interest in the Premises (or any sale proceeds therefrom) for the recovery of any judgment from Lessor, it being agreed that neither Lessor nor the holders of the equity interests of Lessor, nor the members, partners, officers, directors or shareholders of Lessor shall be personally liable for any such judgment. In the event of any sale or other conveyance by Lessor of its interest in the Premises, Lessor shall be released from all personal liability accruing from and after the date of such sale or conveyance as respects the performance of any covenant or obligation on the part of Lessor contained in this Lease to be performed provided that any purchaser, transferee, successor, or assignee assumes all obligations of the Lessor hereunder.

39. ESTOPPEL CERTIFICATE

Lessee shall, without charge, at any time and from time to time hereafter, within FIFTEEN (15) business days after written request of Lessor to do so, certify, by written instrument duly executed and acknowledged by Lessee and certified to Lessor and to any prospective lender or purchaser: (i) as to whether this Lease has been supplemented or amended, and if so, the substance and manner of such supplement or amendment; (ii) as to the existence of any Event of Default hereunder to Lessee's actual knowledge; (iii) as to the date on which Lessee was obligated to commence paying Base Rent and all other charges hereunder and the expiration date of the Term; (iv) as to whether the Lessee has assigned or transferred its interests or any portion thereof in this Lease; and (v) as to any other matters as may be reasonably requested in a standard form of estoppel. Lessor and any prospective purchaser or lender to whom the same was certified may rely upon any such certificate.

Lessor shall, without charge, at any time and from time to time hereafter, within FIFTEEN (15) business days after written request of Lessee to do so, certify, by written instrument duly executed and

acknowledged by Lessor and certified to Lessee and to any prospective lender or assignee: (i) as to whether this Lease has been supplemented or amended, and if so, the substance and manner of such supplement or amendment; (ii) as to the existence of any Event of Default hereunder to Lessor's actual knowledge; (iii) as to the date through which Base Rent and other charges have been paid and the expiration date of the Term; and (iv) as to any other matters as may be reasonably requested in a standard form of estoppel. Lessee and any prospective purchaser or lender to whom the same was certified may rely upon any such certificate.

40. UNAVOIDABLE DELAY

In the event either Party shall be delayed or hindered in or prevented from the performance of any covenant, agreement, work, service, or other act required under this Lease to be performed by such Party ("**Required Act**"), and such delay or hindrance is due to Unavoidable Delay (as defined below), then the performance of such Required Act shall be excused for the period of delay and the time period for performance of the Required Act shall be extended by the same number of days in the period of Unavoidable Delay provided, however, Unavoidable Delay shall not excuse the payment of Base Rent or other charges due hereunder. For purposes of this Lease, "**Unavoidable Delay**" shall mean, with respect to either Party, an unavoidable delay in the performance by such Party of any non-monetary conditions or obligations under this Lease due including but not limited to: (a) construction delay to the extent caused by the other Party, (b) legal proceeding brought by a non-Party with respect to the Phase I Improvements or any provision or requirement of this Lease which by its nature prohibits the Phase I Improvements from being commenced, continued and/or completed, (c) a Party not receiving a governmental permit, license, approval or inspection in time to meet a contractual time period imposed hereunder provided that Party, in good faith, was diligent in the application or request for and prosecution of the process to obtain that permit, license, approval or inspection, (d) flood, (e) epidemic or pandemic, (f) quarantine restriction, (g) unusually severe weather not reasonably anticipated, (h) strike, (i) walkout, (j) lock-out, (k) war, (l) national emergency, (m) fire, (n) act of God, (o) act of terrorism, (p) natural disaster, (q) explosion, (r) default by the other Party hereunder in the performance of its obligations hereunder, (s) a delay caused by the discovery, presences or actions necessary to investigate or remediate Hazardous Material under SECTION 15 herein (but excluding Hazardous Material attributable to the Party claiming Unavoidable Delay), (t) shipping or construction delays caused by unusual delay in transportation or delivery caused by supply chain issues, material shortages, or any other similar act or condition, including weather delays, (u) state or federal mandates, or (v) other causes beyond such Party's control; provided that no Unavoidable Delay shall exist unless the Party claiming such Unavoidable Delay shall give written notice to the other Party of the occurrence of the Unavoidable Delay not later than TWENTY (20) business days after knowledge of such Unavoidable Delay is obtained or should have been obtained, and provided further, that Unavoidable Delay shall not excuse the payment of Base Rent.

41. MISCELLANEOUS

41.1 Personal Liability. No member of or employee of either Party shall be charged personally or held contractually liable by or to the other Party under any term or provision of this Lease because of any breach thereof, or because of its execution or attempted execution.

41.2 No Waiver. No provision of this Lease may be waived or modified except by a writing signed by the Party against whom such waiver or modification is sought.

41.3 Non-Waiver of Rights. No waiver or default by either Party of any of the terms, conditions, covenants or agreements hereof to be performed, kept or observed by the other Party shall be construed or act as a waiver of any subsequent default of any of the terms, covenants, conditions or agreements herein contained to be performed, kept or observed by the Parties, and neither Party shall be restricted from later enforcing any of the terms and conditions of this Lease.

41.4 Amendment. This Lease contains all agreements of the Parties as of the date hereof with respect to any matter mentioned herein. No prior agreement, correspondence, or understanding pertaining to any such matter shall be effective to interpret or modify the terms hereof. Oral commitments or promises are not enforceable and shall not be binding or made part of this Lease. Any revisions or modifications to this Lease must be in writing and mutually accepted and executed by persons with full and complete authority to bind both Parties.

41.5 Litigation Expenses. In the event of litigation between Lessor and Lessee, the prevailing Party shall be entitled to recover its reasonable attorneys' fees and all reasonable costs and expenses of litigation, including witness fees, expert witness fees, and court costs.

41.6 Headings. The headings contained herein are for convenience in reference only and are not intended to define or limit the scope of this Lease or any term thereof.

41.7 Entire Agreement. This Lease, including its exhibits attached hereto and made a part hereof, at the time of its execution, constitutes the entire agreement between the Parties hereto and supersedes all prior negotiations, understandings and agreements between the Parties concerning such matters.

41.8 Memorandum of Lease. Upon the request by one Party upon the other, Lessor and Lessee will execute for purposes of recordation in the appropriate recording office a memorandum of lease substantially in the form attached hereto as **EXHIBIT F** containing the names of the Parties, a description of the Premises, the Term and a description of the easements granted to Lessee pursuant to this Agreement (the "**Memorandum**") upon finalization of the easements. The cost and expenses of recording the Memorandum shall be borne by the Party asking for the Memorandum to be recorded. Each Party agrees that it will not record this Lease in its entirety. Upon request following expiration or earlier termination of this Lease, Lessee shall promptly execute for purposes of recordation a form of termination of the Memorandum. This obligation shall survive expiration or termination of this Lease.

41.9 Reserved.

41.10 Incentives. At no cost to Lessor, Lessor agrees to cooperate with Lessee in connection with Lessee's seeking of any incentives for the Premises. Potential incentives are outlined in **EXHIBIT H** attached hereto.

41.11 Reserved.

41.12 GatewayEast. Lessee acknowledges Lessor's oversight and efforts related to GatewayEast and related development at the Airport. Lessor shall provide the on-going opportunity to Lessee, throughout the Term, to provide input to Lessor regarding the approved uses of the property immediately adjacent to the what is commonly known as the "**Gateway East**" Premises.

42. INCORPORATION OF RECITALS

The recitals set forth herein are acknowledged by the Parties to be true and correct and are incorporated herein by this reference.

IN WITNESS WHEREOF, the Parties have executed this Lease the day and year first above written.

EXECUTED to be effective on the date specified above.

MEMORANDUM OF LEASE

WHEN RECORDED,
RETURN TO:

<Name>
<Company>
<Address>
<City>, <State> <Zip>

MEMORANDUM OF LEASE

This MEMORANDUM OF LEASE ("**Memorandum**"), is made and executed as of the ____ day of _____, 20_____ (the "**Effective Date**"), by and between **PHOENIX-MESA GATEWAY AIRPORT AUTHORITY**, a joint powers airport authority authorized and existing under the laws of the State of Arizona ("**Landlord**"), whose mailing address is Phoenix-Mesa Gateway Airport Authority, Attn: Business Development Department, 5835 South Sossaman Road, Mesa, Arizona 85212, and Gulfstream Product Support Corporation, a Delaware Corporation ("**Tenant**"), whose mailing address is 500 Gulfstream Road, Savannah, Georgia, 31408.

RECITALS:

A. Landlord and Tenant entered into that certain Land Lease dated _____, 20_____ (the "**Lease**"), covering that certain real property legally described on Exhibit A attached hereto and incorporated herein by this reference (the "**Leased Premises**").

B. Landlord and Tenant have agreed to enter into this Memorandum for the purposes of providing record notice of the Lease, and to protect the rights and interests of Landlord and Tenant as to third parties. All capitalized terms not specifically defined herein shall have the meaning ascribed to such terms in the Lease.

NOW, THEREFORE, for and in consideration of the premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant hereby agree as follows:

Lease and Premises. Subject to the covenants and conditions contained in the Lease, Landlord has leased to Tenant, and Tenant has leased from Landlord, the Leased Premises. Notice to the world is hereby given of the Lease and of the terms of the Lease.

Term. The term of the Lease commenced on _____, 20__, and expires on _____, unless earlier terminated pursuant to the terms of the Lease. Subject to the terms of the Lease, Tenant has the right and option extend the term of the Lease for two (2) consecutive additional terms of FIVE (5) years each, in accordance with the terms of the Lease.

Conflict. This Memorandum is prepared for the purpose of constructive notice and in no way modifies the provisions of the Lease. In the event of any conflict or any inconsistency between the terms and provisions of the Lease and the terms and provisions of this Memorandum, the terms and provisions of the Lease shall control.

Successors and Assigns. This Memorandum shall be binding upon and inure to the benefit of the parties and their permitted successors and assigns.

Counterparts. This Memorandum may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same document, provided that all parties are furnished a copy thereof reflecting the signature of all parties.

(*Signatures appear on the following page.*)

IN WITNESS WHEREOF, the parties hereto have duly executed this Memorandum as of the Effective Date set forth above.

LEGAL DESCRIPTION

[TO COME]

EXHIBIT G

INTERGOVERNMENTAL AGREEMENT

INTERGOVERNMENTAL AGREEMENT

BETWEEN
THE CITY OF MESA
AND
THE PHOENIX-MESA GATEWAY AIRPORT AUTHORITY

THIS INTERGOVERNMENTAL AGREEMENT ("Agreement") is entered into this date October 5th, 2021 (the "Effective Date") pursuant to the Arizona Revised Statutes ("A.R.S.") §§ 11-951 et seq., between the CITY OF MESA, an Arizona municipal corporation (the "City"), and PHOENIX-MESA GATEWAY AIRPORT AUTHORITY, a joint powers airport authority authorized and existing under the laws of the State of Arizona ("PMGAA"). The City and the PMGAA are collectively referred to as "Parties."

I. RECITALS

1. A.R.S. §§ 11-951 et seq., authorizes the City and PMGAA to enter into intergovernmental agreements for the provision of services, or for joint or cooperative actions.

2. A.R.S. § 48-572 also empowers the City to enter into this Agreement, and it has by resolution (a copy of which is attached and made a part of) resolved to enter into this Agreement and has authorized the undersigned to execute this Agreement on behalf of the City.

3. The City is administering the design and construction of four infrastructure projects, collectively referred to as the "City Projects," which will improve the City's utility service delivery and aid in the future development of the eastside of the Phoenix-Mesa Gateway Airport generally located at the intersection of Ray Road and Sossaman Road, City of Mesa, Maricopa County, Arizona (the "Airport"). The infrastructure projects include a new signalized intersection at Ellsworth Road and the realigned Williams Field Road ("Intersection"), a new box culvert across the Ellsworth channel with associated utility stubs thereby connecting the Intersection to PMGAA property and eight hundred linear feet of roadway, designated as a 4 + 1 Major Collector extending west into PMGAA property from the western edge of the Intersection ("Culvert and Road"), the extension of a 20-inch waterline along Ellsworth Road from SR24 to Pecos Road and across the Culvert and Road into PMGAA property ("Water Line"), and an alignment study of the entire Spine Road from Ellsworth Road to Ray Road ("Spine Road Alignment Study"). Exhibit 1 provides additional details about the City Projects.

4. PMGAA is administering the design and construction of a sewer line extension from Old Pecos Road to PMGAA property, a lift station (if required) and a private sewer line north within PMGAA property to facilitate development within the GatewayEast site ("PMGAA Project"). The Parties understand that a portion of the PMGAA Project will be located outside of public Rights-of-Way ("ROW") and PMGAA will own and maintain the portion of the PMGAA Project that is outside of the ROW. Exhibit 1 provides additional details about the PMGAA Project.

5. This Agreement is intended to set forth the roles and responsibilities of the Parties with respect to the City Projects and PMGAA Projects, including contracting consultant engineering design services, design review, construction administration, construction permitting and inspection, and ownership of the completed projects.

6. The Parties recognize and agree that neither Party can guarantee that a contractor will meet the deadlines proposed in this Agreement, particularly in light of recent external influences on labor and supply chain

availability. Nevertheless, each Party agrees that it will utilize all contractual remedies available under its respective construction and design contracts in a prudent manner to encourage contractor compliance with completion deadlines.

THEREFORE, in consideration of the mutual terms expressed in this Agreement, it is agreed as follows:

II. SCOPE

I. Responsibilities of PMGAA:

1.1. PMGAA shall certify the design of the PMGAA Project according to the current City Engineering & Design Standards.

1.2. PMGAA will submit the plans, specifications, and estimates ("PS&E") to the City for review and approval of the PMGAA Project prior to the commencement of any construction.

1.3. PMGAA will provide Easements (in a form acceptable to the City) if required to accommodate the City Projects and the PMGAA Project for the City to access them on PMGAA property.

1.4. PMGAA will coordinate with the City regarding times when construction activities of the PMGAA Project are to be performed so as to allow the City to perform Quality Assurance ("QA") services as needed by the City. PMGAA shall allow the City to inspect all portions of the PMGAA Project located within the ROW.

1.5. PMGAA shall pay all costs associated with the design, applicable permit fees (if any), construction administration, and construction of the PMGAA Project.

1.6. PMGAA will provide to the City, at its request, all pertinent documents related to the PMGAA Project including, but not limited to, legal and exhibit documents of the Easements, final sealed PS&E, record drawings, and construction documentation.

1.7. PMGAA will require PMGAA's contractor to assume responsibility for the operation and maintenance of the PMGAA Project until the City accepts the permitted work and the permit is closed out.

1.8. PMGAA will require PMGAA's contractor to substantially complete the PMGAA Project on or before April 1, 2023.

1.9. PMGAA agrees that ownership of the PMGAA Project within City ROW shall transfer to the City (without any further documentation) upon the City accepting the permitted work pursuant to Section 2.4. Furthermore, such transfer of ownership shall include an assignment to the City of any and all warranties associated with any improvement transferred to City ownership.

1.10. PMGAA acknowledges that utility service provided by the City, including but not limited to

service through the PMGAA Project, is subject to the City's Terms and Conditions for the Sale of Utilities and payment of applicable rates, fees and charges, all as adopted and made effective by the City.

2. **Responsibilities of the City:**

2.1. The City shall certify through the permit process the design of the Intersection, Culvert and Road, Spine Road Alignment Study, and Water Line according to the current City Engineering & Design Standards.

2.2. The City will include PMGAA in the review of the design plans for the City Projects.

2.3. The City shall pay all costs associated with the design, construction administration, and construction of the City Projects.

2.4. The City will perform all permit required inspections and QA services to verify that the construction of the City Projects is in compliance with the approved PSAP.

2.5. The City will require the City's contractor(s) to substantially complete the Intersection by April 1, 2022.

2.6. The City will require the City's contractor(s) to substantially complete the Culvert and Road by April 1, 2023.

2.7. The City will require the City's contractor(s) to substantially complete the Spine Road Alignment Study by February 1, 2022.

2.8. The City will require the City's contractor(s) to substantially complete the Water Line by April 1, 2023.

2.9. The City will assume the ownership (including operation and maintenance), for the completed City Projects and PMGAA Project within the ROW upon the City receiving and accepting them, in writing.

3. **Term:**

3.1. The term of this Agreement shall commence on the Effective Date and shall automatically terminate upon the City's written acceptance of the City Projects and PMGAA Project; provided, however, termination of this Agreement shall not affect the transfer of ownership in subsections 1.9. and 2.9 of this Agreement.

4. **General Provisions:**

4.1. Each Party reserves all rights that it may have to cancel this Agreement under A.R.S. § 38-511.

4.2. The Parties reserve the right to extend the deadlines set forth in Section 1.8, 2.5, 2.6, 2.7, and 2.8 administratively and through written agreement should there be a material change in plans for economic development tied to the PMGAA Project and/or City Project.

4.3. PMGAA warrants compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under A.R.S. § 23-214(A). PMGAA will require any contractor, and all subcontractors, to provide the same warranty. Failure by PMGAA, PMGAA's contractors, or subcontractors, to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement.

4.4. This Agreement contains the entire understanding between the Parties with respect to the subjects addressed and supersedes all prior negotiations and agreements.

4.5. This Agreement may be amended only by an instrument in writing signed by authorized representatives of the Parties.

4.6. Each Party shall (as "Indemnitor") indemnify, defend, and hold harmless the other Party, any of its departments, agencies, officers or employees (collectively referred to in this paragraph as "Indemnitee") from any and all claims, demands, suits, actions, proceedings, loss, cost and damages of every kind and description, including reasonable attorneys' fees and/or litigation expenses (collectively referred to in this paragraph as the "Claims"), which may be brought or made against or incurred by the Indemnitee on account of loss of or damage to any property or for injuries to or death of any person, to the extent caused in whole or in part by, arising out of, or contributed to, by reasons of any alleged act, omission, professional error, fault, mistake, or negligence of Indemnitor, its employees, officers, directors, agents, representatives, or contractors, their employees, agents, or representatives in connection with or incident to the performance of this Agreement. Indemnitor's obligations under this paragraph shall not extend to any Claims to the extent caused by the negligence of the Indemnitee. The obligations under this paragraph shall survive the termination of this Agreement.

4.7. The Parties are governmental agencies which rely upon the appropriation of funds by their respective governing bodies to satisfy their obligations. If a party reasonably determines that it does not have funds to meet its obligations under this Agreement, such party shall have the right to terminate this Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such a termination, such terminating party agrees to provide written notice of its intent to terminate 30 days prior to the termination date.

4.8. In accordance with A.R.S. § 11-952 (D), attached and incorporated in this Agreement is the written determination of each Party's legal counsel that the Parties are authorized under the laws of this State to enter into this Agreement and that the Agreement is in proper form.

[Signatures on following page]

IN WITNESS WHEREOF, the Parties have executed this Agreement on or as of the day and year first written above.

COM Projects Scope:

- New signalized intersection at Ellsworth Road and the realigned Williams Field Road
- New box culvert across the Ellsworth channel with associated utility stubs thereby connecting the "Intersection" to PMGAA property and eight hundred linear feet of roadway designed as a 4 + 1 Major Collector extending west into PMGAA property from the western edge of the Intersection
- Extension of a 20-inch waterline along Ellsworth Road from SR24 to Pecos Road and across the Box Culvert and Road into PMGAA property
- An alignment study of the entire Spine Road from Ellsworth Road to Ray Road

PMGAA Project Scope:

- PMGAA is administering the design and construction of a sewer line extension from Old Pecos Road to PMGAA property, a lift station (if required) and a private sewer line north within PMGAA property to facilitate development within the GatewayEast site

EXHIBIT H

INCENTIVES

Tax Abatement: Lessor confirms that the Premises are not subject to ad valorem property taxes and Lessor agrees to cooperate with Lessee as it seeks any reduction or abatement of personal property taxes and a rebate of or exemption from sales tax on construction materials offered through the Military Reuse Zone program.

Infrastructure Grants: The Parties will cooperate to secure any grants, or other financing tools, to cover the cost of Offsite Improvements or on-site utility or transportation infrastructure improvements necessary for the Phase I Improvements including those offered through the State of Arizona or City of Mesa or other funds available through the state Department of Transportation or state or local government bodies.

Permits and Impact Fees: Lessor will support Lessee's efforts to secure all necessary state and local permits as expeditiously as possible and to minimize such costs.

State Incentives: Lessor will coordinate and cooperate with Lessee and the Arizona Commerce Authority and other state parties in securing state incentives including the Arizona Quality Job Tax Credit and grants or other aid for recruitment and training expenses.

Utility Incentives: Lessor will support Lessor's efforts to secure support for rate relief and subsidies for infrastructure from the Salt River Project.

Board Action Item

Re: Resolution 22-22

To: Board of Directors
From: Chuck Odom, Chief Financial Officer
Through: J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject: Increase in the Customer Facility Charge
Date: May 17, 2022

Proposed Motion
To authorize an increase in the Airport Car Rental Customer Facility Charge (CFC) from $2.50 to $3.50 per vehicle per rental day effective August 1, 2022.

Narrative
The Customer Facility Charge (CFC) is used to fund capital improvement projects at the Airport related to Car Rentals. The current CFC rate has not increased since 7/1/2015.

A current Car Rental project that will benefit from the additional funds is the Rental Car Care Facility Improvement project. Redevelopment of the site will include new administration and maintenance buildings, car service canopies, car vacuum bays, car wash building, new asphalt, utilities, equipment pads, fire hydrants and traffic markings. These facilities need to be upgraded in order to accommodate the increase in the number of rental cars currently in service at the Airport.

Fiscal Impact
By increasing this rate by one dollar, this will generate approximately $300,000 in additional CFC funds per year.

Attachment(s)
Marked up Airport Rates and Charges effective 8-1-22

RESOLUTION NO. 22-22

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize an increase in the Airport Car Rental Customer Facility Charge from $2.50 to $3.50 per vehicle per rental day effective August 1, 2022.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes an increase in the Airport Car Rental Customer Facility Charge from $2.50 to $3.50 per vehicle per rental day effective August 1, 2022. This resolution also authorizes the Chair or Executive Director/CEO to make such additions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**
>
> Passed and adopted by the Authority this 17th day of May, 2022.

John Giles, Chair

ATTEST:

Misty Johnson, Clerk of the Board

APPROVED AS TO FORM:

Airport Rates and Charges*

Effective August 1, 2022

This schedule of Airport Rates and Charges is subject to updates. For the latest schedule, please visit the Phoenix-Mesa Gateway Airport website at:
http://www.gatewayairport.com/PoliciesDocumentsandForms#BoardPolicies

Signatory Commercial Carriers	Scheduled, FAR Part 121 and 129 operators, with a 90-day rolling average of 90 or more departures per month.		
Non-Signatory Commercial Carriers	Scheduled, FAR Part 121 and 129 operators, with a 90-day rolling average of less than 90 departures per month.		
Aircraft Landing Fee	Signatory Commercial Carriers, $1.32 per 1,000 lbs. maximum gross landing weight (MGLW). Non-Signatory Commercial Carriers, General Aviation and other eligible aircraft $1.98 per 1,000 lbs. MGLW. *Exemptions:* 1. U.S. Government owned aircraft 2. Non-revenue and flight training aircraft up to 12,500 MGLW 3. All based flight training school aircraft		
Aircraft Terminal Use Fee	Signatory Commercial Carriers - $50 per Turn Non-Signatory Commercial Carriers - $75 per Turn		
	Commercial Carriers with no operating agreement, see page 2 Non-Operating Agreement Passenger Terminal – Common Use Areas and Equipment		
Aircraft Parking Fee	**Aircraft Passenger Capacity**	**Signatory**	**Non-Signatory**
	1-69	$ 35	$ 53
	70-250	$ 70	$105
	251 or greater	$100	$150
	Will be assessed for the occupancy of an aircraft parking position for more than 3 hours, including terminal gates and remote parking positions, and for each additional 24 hour period.		
Airport Car Rental Customer Facility Charge (CFC)	$3.50 ~~$2.50~~ per vehicle rental day		
Aviation Fuel Flowage Fees	Fuel Flowage Fees are paid to PMGAA by any entity or person dispensing or receiving fuel on the Airport in accordance with PMGAA Aviation Fuel Storage, Dispensing & Handling Guidelines.		
	Signatory Commercial Carriers by agreement		
	Non-Signatory Commercial Carriers - $.05 per gallon		
	All Others - $0.12 per gallon		
Fire Suppression Services	$.50 per year per square foot of floor space + $250.00 set-up charge, billed in monthly installments. 15% of annual fees required as security deposit. South ramp connection fee = $209,746.00		
Parking Rates *Grace Period first 10 minutes	**Fee by Location**	**Rate**	**Daily Maximum Charge**
	Hourly Parking Lot	$1.00 / 30 minutes*	$48.00
	Daily Parking Lot	$1.00 / 30 minutes*	$11.00
	Ray Rd Economy Parking Lot Uncovered	$1.00 / 30 minutes*	$ 7.00
	Ray Rd Economy Parking Lot Covered	$1.00 / 30 minutes*	$11.00

All Airport Rates and Charges may vary due to terms defined in specific agreements.
Late payments are subject to a 1.5% finance charge. Payment terms are net 30 days unless otherwise specified.

	Lost Token Fee with itinerary = Days of Stay x Parking Lot Rate + $20 Lost Token & Admin Fee Lost Token Fee without itinerary (may be adjusted later with proof of itinerary)	$250.00
Passenger Facility Charge (PFC)	$4.50 per enplaned commercial passenger, Per FAA Approved PFC Application; reference Federal Register: (Vol. 79, Number 3)	
Airport Licenses & Permits	Fuel Dispensing Permit	$100.00 per organization, permit valid for 2 years
	Fuel Handling Permit (includes exam)	$15.50 per individual, permit valid for 2 years
	Fuel Storage & Service Equipment Permit	$38.00 per filtration vessel, permit valid for 2 years
Common Use Terminal Equipment	Signatory Commercial Carriers	$1,250 per month
	Non-Signatory Commercial Carriers	$ 500 per month

Common Use Area - Operational Surcharges

Item	Description	Area	Operation	Surcharge
Operational Surcharges	Charges for exceeding allocated time slots on common use areas	Ticket counter or gate	Occupying a gate after the scheduled allocation time, resulting in aircraft holding or gate change	$200 per hour
		Use of ticket counter or gate without prior permission.		$200 plus regular fees
		Failure to use allocated time slot without 48-hour cancellation notice	Negatively impacting another scheduled carrier or causing Airport to shift resources to accommodate.	$200 plus regular fees

Transient Air Carrier Passenger Terminal – Common Use Areas and Equipment Rates

Item	Description	Aircraft Passenger Capacity	Resources Included	Rate
Full Service	Includes ticket counter(s) and lobby area, secure hold room and boarding area podium, aircraft parking position (2 hours), baggage claim area, and common use computer equipment per flight, as scheduled by Airport Operations. 1 ticket counter = 2 positions	1-69	1 ticket counter, 1 gate podium, 1 shared use hold room, 1 baggage belt, 1 aircraft parking spot	$ 260 per flight
		70-250	2 ticket counters, 1 gate podium, 1 shared use hold room, 1 baggage belt, 1 aircraft parking spot	$ 495 per flight
		251 or greater	3 ticket counters, 2 gate podiums, 2 shared use hold rooms, 1 baggage belt, 1 aircraft parking spot	$ 915 per flight
Ticket Counter and Lobby	Use of 1 ticket counter and shared use of the lobby area for up to 2.5 hours. Includes common use equipment.	1-69	1 ticket counter and lobby	$ 75 per flight
		70-250	2 ticket counters and lobby	$150 per flight
		251 or greater	3 ticket counters and lobby	$ 225 per flight
Boarding Gates – Secured Hold Room	Shared use of secured boarding gate area for up to 2 hours and one aircraft parking position. Includes use of gate podium, common use equipment, and one passenger boarding ramp.	1-69	1 gate podium and 1 hold room	$110 per flight
		70-250	1 gate podium and 1 hold room	$220 per flight

All Airport Rates and Charges may vary due to terms defined in specific agreements.
Late payments are subject to a 1.5% finance charge. Payment terms are net 30 days unless otherwise specified.

		251 or greater	2 gate podiums and 2 hold rooms	$ 440 per flight
Baggage Claim	Use of baggage claim area and baggage delivery belt/slide. Includes aircraft parking position*. * if associated with a live departure within 3 hours of arrival. Otherwise standard aircraft parking fee applies.	1-69	1 belt, oversize slide, aircraft parking*	$ 75 per flight
		70-250	1 belt, oversize slide, aircraft parking*	$125 per flight
		251 or greater	2 belts, oversize slide, aircraft parking*	$ 250 per flight

U.S. Customs and Border Protection

U.S. Customs and Border Protection (CBP) Service User Fees	**Category (based on MGLW)**	**Inspection Fee (per aircraft arrival)**
	<5,000	$80.00
	5,001 – 12,500	$250.00
	12,501 – 35,000	$350.00
	35,001 – 100,000	$480.00
	100,001 – 255,000	$670.00
	> 255,000	$830.00
	Regular service hours are Monday – Friday, 1100 – 1900 hrs. (MST). After-hours by appointment only. For after-hours appointments, there will be a minimum two-hour fee of $415.00 per inspector in addition to the standard user fee shown above. Two hours after the aircraft's scheduled arrival time, each additional 30 minutes required of the U.S. Customs Inspector will incur a $61.00 fee above the $415.00 minimum each.	

Airport Rates and Charges*

Effective August 1, 2022

Gateway Aviation Services (Fixed Based Operator) Rates and Charges

		Category (based on MGLW)	Monthly Tie-Down Fee (2-month minimum)
Aircraft Open Ramp Tie-Down Fees (Space subject to availability)		<5,000 lbs.	$44.00
		5,001 – 12,500 lbs.	$98.00
		12,501 – 35,000 lbs.	$201.00
		35,001 – 100,000 lbs.	$316.00
		100,001 – 255,000 lbs.	$672.00
		> 255,000 lbs.	$1,321.00
Daily Ramp Fee	Max Gross Landing Weight	Rate	A purchase of the following fuel gallon minimums will waive the first Daily Ramp Fee per visit. A purchase of a meal from the restaurant located in the Gateway Aviation Center will equate to a $20.00 credit applicable to the first Daily Ramp Fee per visit.

Board Action Item

Re: Resolution 22-23

To:	**Board of Directors**
From:	**R. J. Draper, P.E., LEED AP, CM Engineering & Facilities Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**On-Call Cultural & Archaeological Services–SWCA Environmental Consultants, Inc.**
Date:	**May 17, 2022**

Proposed Motion

To authorize a Professional Service Agreement for On-Call Cultural and Archaeological Services with SWCA Environmental Consultants, Inc. (SWCA), for the length of the base term of three years with two optional one-year extensions for various grant and non-grant projects.

Narrative

In support of the many vital projects that occur at the Airport, the Phoenix-Mesa Gateway Airport Authority, (PMGAA), requires periodic Cultural, Archaeological Monitoring, Testing, Evaluation and Data Recovery services for various grant and non-grant projects. SWCA will provide assistance, as required, concerning all aspects of cultural and archaeological services, including identifying all potentially applicable federal, state and local cultural requirements, along with interpreting, understanding and being current on applicable statutes, regulations, case laws and terms and conditions of permits.

The Request for Qualifications, 2022-013-RFQ, On-Call Cultural and Archaeological Services, was issued on March 2, 2022, and advertised in the Arizona Business Gazette on March 10 and 17 and 24 and 31, 2022; it was also posted on the AzAA, ACC, ACI-NA, SWAAAE and FAA Matchmaker websites as well as the Phoenix-Mesa Gateway Airport Authority Website. In addition, the RFQ was emailed to 11 prospective firms and included ACDBE/DBE/SBC outreach. Statements of Qualifications (SOQ) were received on April 4, 2022, from four (4) firms:

Commonwealth Heritage Group
Cogstone Resource Management, Inc.
Logan Simpson Design, Inc.
SWCA Environmental Consultants, Inc.

Based on the Statement of Qualifications, and the overall ranking, the Evaluation Panel recommends placing SWCA under contract for On-Call Cultural and Archaeological Services.

Fiscal Impact

The Authorization of Services for individual projects under this Professional Services Agreement may be funded with Federal, State, Local Matching or Non-grant dollars depending on the project and will be subject to Board approval as required.

Attachment(s)
Statement of Qualifications, Professional Services Agreement

RESOLUTION NO. 22-23

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize a Professional Service Agreement for On-Call Cultural and Archaeological Services with SWCA Environmental Consultants, Inc. (SWCA), for the length of the base term of three years, with two optional one-year extensions for various grant and non-grant projects.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

> **The Board of Directors of the Authority hereby authorizes a Professional Service Agreement for On-Call Cultural and Archaeological Services with SWCA Environmental Consultants, Inc. (SWCA), for the length of the base term of three years, with two optional one-year extensions for various grant and non-grant projects. This resolution also authorizes the Chair or Executive Director/CEO to execute such Agreement, with such insertions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.**

Passed and adopted by the Authority this 17th day of May, 2022.

John Giles, Chair

Phoenix-Mesa Gateway Airport Authority, a joint powers airport authority authorized by the State of Arizona ("PMGAA") desires performance of the services more fully described in this **Contract Number 20220272** ("Contract") and the attached exhibits. SWCA, Incorporated, dba SWCA Environmental Consultants, an Arizona Corporation ("Consultant"), with its principal offices located at 20 East Thomas Road, Suite 1700, Phoenix, AZ, 85012, desires to perform these services.

Recitals

A. PMGAA requires the services as described in this Contract, including any and all exhibits and amendments, and Consultant is willing to provide these and other services under this Contract; and

B. PMGAA desires to contract with Consultant to provide services as noted herein.

Now therefore, in consideration of the recitals and the mutual covenants set forth below, PMGAA and Consultant agree as follows.

SECTION I – CONSULTANT SERVICES

The services to be performed by Consultant are specified in this Contract. PMGAA will not pay Consultant for any services that have not been authorized under the Contract. There is no guarantee of a minimum purchase of services.

The anticipated services to be provided by Consultant under to this Contract shall generally include, but not be limited to, the following: On-Call Cultural and Archeological Services, as more specifically described in Consultant's detailed scope of work attached as **EXHIBIT A**, "Scope of Services & Fee Schedule."

PMGAA's authorized representative shall be the PMGAA Engineering and Facilities Director or his/her duly authorized representative, and that he/she shall be the sole contact for administering this Contract.

All services provided by Consultant under this Contract must be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances in Arizona. Consultant makes no other warranty, expressed or implied.

SECTION II – PMGAA RESPONSIBILITIES

PMGAA shall furnish Consultant, at no cost to Consultant, the following information or services for this Contract:

A. Access to copies of readily available maps, records, as-built drawings, benchmarks or other data pertinent to work assignments affiliated with this Contract. This does not, however, relieve Consultant of the responsibility of searching records for additional information, for requesting specific information or for verification of that information provided. PMGAA does not warrant the accuracy or comprehensiveness of any information or documents provided to Consultant.

B. In PMGAA's discretion and upon Consultant's reasonable request, access to staff for consultation with Consultant during the performance of this contract in order to identify the problems, needs, and other functional aspects of the work.

C. Prompt review of and feedback on Consultant's deliverables. PMGAA will advise Consultant concerning progress of PMGAA's review of the work, as needed.

SECTION III - PERIOD OF SERVICE

Consultant shall complete all work in accordance with the provisions of this Contract as amended.

The term of this Contract shall commence on May 18, 2022 and ends on May 17, 2025 ("Base Term"), unless terminated, canceled or extended as provided in this Contract. This Contract has two (2) optional one-year extensions that PMGAA may exercise at its sole discretion. Prior to the expiration of the Contract Base Term, PMGAA may elect to extend the Contract. If PMGAA exercises such right, all terms, conditions and provisions of the original Contract shall remain the same and apply during the extended period with the possible exception of fees which, may be changed and agreed to by both parties in writing prior to the renewal. Any extension of this Contract shall require an amendment signed by both parties.

Consultant shall commence its services within seven (7) days of the written authorization by PMGAA. Consultant shall perform its services in a diligent manner and in accordance with this Contract.

SECTION IV – KEY PERSONNEL

The Consultant itself shall provide all services to be performed under this Contract. If Sub-Consultants are required by Consultant to perform any services listed under this contract, Consultant shall notify PMGAA prior to authorizing work by said Sub-Consultants. PMGAA may, at its sole discretion, accept or reject proposed Sub-Consultants.

SECTION V - PAYMENTS TO THE CONSULTANT

Consultant will be paid for work performed under this Contract plus any adjustments that have been approved in writing by PMGAA in accordance with the Phoenix-Mesa Gateway Airport Authority Procurement Policy. Payments will be made for the actual hours worked and/or other costs incurred or provided for in accordance with **EXHIBIT B**, "Compensation."

All services to be rendered by Consultant are subject to the terms of **EXHIBIT B,** "Compensation" attached hereto.

PMGAA does not guarantee any minimum or maximum fee during the Term of this Contract, and Consultant, in executing this Contract, shall not anticipate or require any minimum or maximum fee.

PMGAA shall pay Consultant in agreed upon installments for services authorized and rendered under this Contract at the completion of each work assignment, provided Consultant has satisfactorily completed the requested work. If any such work requires time in excess of 30 calendar days to complete, progress payment(s) may be made on invoices certified and approved by PMGAA.

SECTION VI - ALTERATION IN SCOPE OF SERVICES

For any alteration in the Scope of Services that would materially increase or decrease the Contract fee, the parties shall negotiate an amendment to the Contract to be executed by PMGAA and Consultant. No work shall commence on any amendment or change until the amendment has been approved by PMGAA and Consultant has been notified to proceed by PMGAA. No claim for extra work done or materials furnished by Consultant will be allowed by PMGAA, except as provided herein, nor shall Consultant do any work or furnish any materials not covered by this Contract unless the work is first authorized in writing by PMGAA and the change complies with PMGAA's Procurement Policy. Any work or materials furnished by Consultant without advance, written authorization will be at Consultant's own risk, cost, and expense. Without written authorization, Consultant shall make no claim for compensation for such work or materials furnished.

SECTION VII - WORK ASSIGNMENT COMPLETION

If, during the Term of this Contract, situations arise which prevent work completion within the allotted time, PMGAA may grant an appropriate time extension.

SECTION VIII - OWNERSHIP OF DOCUMENTS

Any documents, including all electronic copies thereof, prepared under or as a result of this Contract, shall be the property of PMGAA. To the extent necessary to effectuate such ownership, Consultant hereby assigns all right, title and interests to such documents to PMGAA. Consultant shall execute any separate agreements or documents, if any, which may be necessary to implement the terms of this Section.

All of Consultant's documents prepared under this Contract, including electronic files, are instruments of service. All of these documents become the property of PMGAA upon completion of the services and payment in full to Consultant. PMGAA may reuse or modify the documents, as it deems necessary, without Consultant's prior written authorization. PMGAA shall indemnify and hold harmless Consultant, its officers, directors, employees and subconsultants (collectively, the "Consultant") against any and all damages, liabilities or costs arising from PMGAA's modification of documents produced by Consultant under this Contract unless Consultant authorizes the modification in writing.

SECTION IX - COMPLIANCE WITH LAWS

Consultant shall comply with all federal, state and local laws, local ordinances and regulations throughout the Term.

Consultant's signature on this Contract certifies compliance with the provisions of the I-9 requirements of the *Immigration Reform and Control Act of 1986* for all personnel that Consultant and any subconsultants employ to complete any work assignment.

PMGAA shall administer this Contract in accordance with PMGAA's Procurement Policy.

SECTION X - GENERAL CONSIDERATIONS

A. The failure of either party to enforce any of the provisions of this Contract or require performance of the other party of any of the provisions hereof shall not be construed to be a waiver of the provisions, nor shall it affect the validity of this Contract or the right of either party to enforce each and every provision.

B. The fact that PMGAA has accepted or approved Consultant's work shall in no way relieve Consultant of responsibility for the work under this Contract.

C. This Contract shall be governed by the laws of the state of Arizona, both as to interpretation and performance. Any action at law, suit in equity, or judicial proceeding for the enforcement of this Contract, or any provision thereof, shall be instituted only in the courts of the state of Arizona.

D. All exhibits to this Contract and any amendments to the Contract are incorporated into it.

SECTION XI - NO KICK-BACK CERTIFICATION

Consultant warrants that no person has been employed or retained to solicit or secure this Contract upon any agreement or understanding for a commission, percentage, brokerage, or contingent fee and that no member of the PMGAA Board of Directors or any employee of PMGAA has any interest, financially or otherwise, in Consultant's firm.

For breach or violation of this warranty, PMGAA may annul this Contract without liability.

SECTION XII – SUSPENSION OF SERVICES

Consultant shall, within five (5) business days upon receiving written notice from PMGAA, suspend, delay, or interrupt all or a part of the Scope of Services. Consultant shall resume the Scope of Services within five (5) business days of receiving written notice from PMGAA.

SECTION XIII – TIMES OF PAYMENTS

Consultant shall submit periodic invoices for any unbilled portion of the services actually completed. PMGAA shall review, certify, and approve or reject each invoice in whole or in part. PMGAA shall pay each approved invoice within 30 calendar days of the date that PMGAA approves the invoice.

SECTION XIV – TIMELY REVIEW

PMGAA will review Consultant's studies, reports, proposals, and other related documents and render any decisions required by Consultant in a timely manner. Notwithstanding these reviews, Consultant remains solely responsible for all of its deliverables and services under this Contract. By PMGAA's reviews, PMGAA does not assume any liability for or retained control over Consultant's work or Consultant's responsibility for the safety of its employees.

SECTION XV – DISPUTE RESOLUTION

All disputes between PMGAA and Consultant arising out of or relating to this Contract will be subject to the Dispute Resolution provisions as set forth in **EXHIBIT C**, "PMGAA Standard Terms and Conditions", attached hereto and incorporated herein by reference.

PMGAA and Consultant shall include a similar dispute resolution provision in all agreements with other contractors and consultants retained for the Project and shall require all other independent contractors and consultants to include a similar dispute resolution provision in all agreements with subcontractors, subconsultants, suppliers or fabricators retained by them.

SECTION XVI - LIABILITY OF CONSULTANT

To the fullest extent permitted by law, Consultant shall defend, save, indemnify, and hold harmless PMGAA, its member governments, departments, officers, employees, and agents from and against damages arising out of any act, error, or omission of Consultant relating to its services under this Contract.

SECTION XVII - LAWS AND REGULATIONS

All federal, state, and local laws and regulations that relate to Consultant's services apply to Consultant's performance of this Contract throughout. These laws and regulations are deemed included in this Contract the same as though written out in full, especially the current applicable Federal Aviation Administration (FAA) rules and regulations associated with airport projects; pertinent Airport engineering standards; and local rules, regulations, and industry standards.

SECTION XVIII – ARCHAEOLOGICAL RESOURCE PROTECTION

While performing services under this Contract, Consultant may encounter a known or unknown archaeological site located at the Airport. If Consultant encounters what it believes to be an archaeological site, Consultant shall immediately notify PMGAA of the site's location and take all reasonable precautions to protect and preserve the site until PMGAA otherwise directs.

SECTION XIX – INSURANCE REQUIREMENTS FOR PROFESSIONAL SERVICES CONTRACTS

A. Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

B. All insurance policies required by this Contact, except *Workers Compensation* and *Professional Liability*, shall name PMGAA, its agents, representatives, officers, directors, officials and employees as Additional Insured.

C. Minimum Scope and Limits of Insurance. Coverage shall be at least as broad as:

   i. Professional Liability (Errors and Omissions): Insurance appropriate to the Consultant's profession, with limit no less than $1,000,000 per occurrence or claim, $2,000,000 aggregate.
   ii. Commercial General Liability: Insurance Services Office Form CG 00 01 covering Bodily Injury and Property Damage on an "occurrence" basis, including personal & advertising injury with limits no less than $1,000,000 per occurrence, $2,000,000 General Aggregate.
   iii. Auto Liability: ISO Form CA 00 01 covering any auto (Symbol 1), or if Consultant has no owned autos, hired, (Symbol 8) and non-owned autos (Symbol 9), with limit no less than $1,000,000 Combined Single limit per accident for bodily injury and property damage ($5,000,000 if operating in the Air Operations Area of the Airport).
   iv. Workers' Compensation: Statutory Limits as required by the state of Arizona, and Employer's Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

D. If the Consultant maintains higher limits than the minimums shown above, PMGAA requires and shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to PMGAA.

E. Additional insurance provisions.

   The insurance policies shall provide, or be endorsed to include:

   i. Notice of Cancellation: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to PMGAA.
   ii. Waiver of Subrogation: Consultant waives any right to subrogation. Consultant shall obtain an endorsement necessary to affect this waiver of subrogation from the insurer for all lines of coverage required by this Contract.
   iii. Primary Coverage: For all claims related to this Contract, all of Consultant's insurance policies will be primary and non-contributory. Any insurance or self-insurance maintained by PMGAA, its officers, officials, employees, or volunteers will be in excess of Consultant's insurance and will not contribute with it.

iv. Deductibles and Self-Insured Retentions: Any deductibles or self-insured retentions must be declared to and approved by the PMGAA. PMGAA may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

v. Acceptability of Insurers: Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A, VII, unless otherwise acceptable to PMGAA.

vi. Claims Made Policies: No Claims Made policies (other than Professional Liability) will be accepted. For policies that provide claims-made coverage:

a) The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

b) Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

c) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Consultant must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.

vii. Verification of Coverage: Consultant shall furnish PMGAA with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by PMGAA before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant's obligation to provide the required insurance. PMGAA reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

viii. Subcontractors: Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Consultant shall ensure that PMGAA is an additional insured on insurance required from subcontractors.

ix. Special Risks or Circumstances: PMGAA reserves the right to modify these requirements, including limits, based on the nature of the risk, scope of services, prior experience, insurer, coverage, or other special circumstances.

SECTION XX – DISADVANTAGED BUSINESS ENTERPRISE

THIS SECTION XX IS APPLICABLE TO ALL FEDERALLY FUNDED PROJECTS ONLY

This Contract is subject to the requirements of the U.S. Department of Transportation's regulations, 40 CFR Part 26. Consultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. Consultant shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT assisted contracts or projects that the Airport anticipates to be federally funded. Failure by Consultant to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as PMGAA deems appropriate, which may include, but is not limited to: (1) withholding monthly progress payments; (2) assessing sanctions; (3) liquidated damages; and/or (4) disqualifying the consultant/contractor from future bidding/submittal as non-responsible.

Consultant is required to insert the above paragraph in all subcontracts or agreements it enters into, and all lower tier subcontracts and agreements, as a result of this contract, regardless of whether or not the subcontractor is a DBE.

Consultant is required to make available, upon execution, a copy of all subcontracts, DBE/SBE and non-DBE/SBE subcontracts. The Consultant shall ensure that all subcontracts or agreements entered into as a result of this Contract require that the subcontract and all lower tier subcontractors contain the required contract clauses and be performed in accordance with this part's provisions.

A. Definitions:

Disadvantaged Business Enterprise (DBE) means a small business concern that has successfully completed a DBE certification process and been granted DBE status by the Arizona Unified Certification Program or by a U.S. Department of Transportation (USDOT) recognized agency who certifies DBE applicants pursuant to the criteria contained in 49 CFR Part 26.

Small Business Enterprise (SBE) means a small business as defined pursuant to Section 3 of the Small Business Act and relevant regulations promulgated pursuant thereto. A small business concern shall not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual(s) that has annual average gross receipts in excess of the cap established by federal regulation. The Secretary shall adjust this figure from time to time for inflation.

Socially and Economically Disadvantaged Individuals means those individuals who are citizens of the United States (or lawfully admitted permanent residents) and who are women, Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, or Asian-Indian Americans. Membership in one of the above-mentioned groups does not qualify the firm to be considered a DBE for purposes of this contract. Only firms that have completed a DBE certification process and been granted DBE status shall be considered socially and economically disadvantaged individuals for purposes of this contract.

DBE Joint Venture is an association between two or more persons, partnerships, corporations, or any combination thereof, formed to carry on a single business activity. One participant in the joint venture arrangement must hold DBE status from a recognized certifying entity. The joint venture is limited in scope and duration to this contract, and resources, assets and labor of the participants must be combined in an effort to accrue profit.

Sole Proprietorship is a DBE for purposes of this contract, if it is 100 percent owned, operated, and controlled by a socially and economically disadvantaged individual.

Corporation is a DBE, for purposes of this contract, if the ownership, operation, and control of the business is conditioned upon the control of its shares of stock or other equitable securities, at least 51 percent of which (of all shares) is legally and equitably owned by socially and economically disadvantaged individuals.

Partnership is a DBE, for purposes of this contract, if one or more socially and economically disadvantaged individuals own more than 51 percent of the assets or interest in the partnership's property.

Purchaser for purposes of this contract, means the Phoenix-Mesa Gateway Airport Authority.

Contract is a written agreement obligating the seller or business enterprise to furnish goods or services as proposed and the Purchaser or Buyer to pay for such goods or services.

Subcontract is any contract at any tier below the prime contract, including purchase orders.

Supplier is a business enterprise that manufactures the goods or materials it sells.

Wholesaler, Distributor, Broker, or Jobber is a business enterprise that does not manufacture the goods or materials it sells or does not perform the essential work of the contract.

B. Utilization:

Phoenix-Mesa Gateway Airport Authority's Disadvantage Business Enterprise (DBE) Program is race-neutral. PMGAA encourages the use of DBEs and other small businesses in the performance of this opportunity. Phoenix Mesa Gateway Airport Authority does not have a specific Small Business Enterprise (SBE) goal, however, reporting on SBE utilization is required.

PMGAA encourages Consultant to provide subcontracting opportunities of a size that small businesses, including DBEs, can reasonably perform. It is the policy of the PMGAA to ensure that DBE certified companies, as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in DOT assisted contracts.

C. Outreach Efforts and Required Information/Forms Prior to Commencing Services:

Consultant agrees to employ outreach efforts to carry out the requirements of 49 CFR Part 26 through award of subcontracts to small businesses and disadvantaged business enterprises to the fullest extent consistent with the sufficient performance of PMGAA's Contract. PMGAA shall not, nor shall it require its Consultant to, award contracts or subcontracts to or to make purchases of materials or equipment from small businesses and/or DBEs who are not qualified.

Prior to issuing an Authorization of Services for a project, Consultant shall submit, with its proposed fees, the following for PMGAA's consideration and approval:

i. Documentation of outreach efforts
    a. Copy of notification sent to DBE firms that the Offeror has subcontracting opportunities and is requesting subcontractor quotes. This should include the scope of work to be quoted and performed on the project.
    b. Documentation of each DBE firm contacted, and the response of the DBE firms or other action taken as a result of the contact. Documentation of contact with DBE firms may include, fax logs, telephone logs, mail receipts, etc. including documentation of the number of times that firms were contacted, the dates of contact, the name, phone number, fax number, and address of the contact person associated with each DBE firm.
    c. Documentation of bid responses/quotes from all subcontractors who quoted to perform work on the project in the areas that DBE firms were also quoting on, including information regarding the reasons why DBE quotes were not considered or chosen.
    d. The actions taken to meet the outreach requirements must be substantiated by written documentation and proof. A declaration that outreach efforts were made will not be sufficient to meet the burden of proof required. Failure of Consultant to provide sufficient evidence to show that outreach efforts made to obtain DBE participation shall result in PMGAA determining that Consultant was non-responsive to the DBE requirements. PMGAA Procurement department's decision as to whether or not outreach efforts have been made is final and conclusive.

ii. EXHIBIT F: Subcontracting and Outreach Efforts Summary
It is the responsibility of Consultant to ensure that the scope of work to be performed by the DBE is consistent with the area in which the firm has been granted DBE certification. DBE scopes of work listed on the form that fall outside the trade or performance area in which the DBE has been granted certification shall not be counted as DBE participation.

iii. EXHIBIT G: Letter of Intent to Perform as a Subconsultant

iv. EXHIBIT H: DBE's Certification Statement

v. EXHIBIT I: DBE Identification Statement

vi. EXHIBIT J: DBE Data Collection Form

D. Reporting:

Consultant is required to track and report all DBE participation and prompt payment that occurs as a result of and in conjunction with this Contract. As such, the following forms are required throughout the duration of this Contract.

PMGAA reserves the right to validate the information submitted by Consultant with the DBE firm(s) listed and/or other certifying entities or licensing agents as part of the verification process. PMGAA does not have a specific Small Business Enterprise (SBE) goal, however, reporting on SBE utilization is required.

i. EXHIBIT K: Statement of Subconsultant Utilization

ii. EXHIBIT L: Certification of Prompt Payment to Subconsultants

iii. EXHIBIT M: Certification of Payment of to Lower Tier

E. Approved DBE Program:

The Phoenix-Mesa Gateway Airport Authority's Disadvantaged Business Enterprise Program, dated August 1, 2017, as amended from time to time, all its terms and conditions is hereby incorporated into and made

part of this Contract by reference.
The approved DBE Program can be found at PMGAA's website (www.gatewayairport.com) under the Business | Procurements & Notices section.

F. Enforcement
This contract and all subsequent subcontracts entered into as a result of this contract, are subject to the requirements, provisions, and enforcement actions of 49 CFR Part 26, Subpart F, *Compliance and Enforcement*, § 26.105 and 26.107. Further, Consultant is required to insert § 26.107 in all DBE subcontracts entered into as a result of this Contract.

Failure to comply with the requirements of this SECTION XX constitutes a breach of this Contract. Such breach may lead to the termination or cancellation of the Contract.

Executed as of the Commencement Date.

EXHIBIT A - SCOPE OF SERVICES & FEE SCHEDULE

The services to be performed by Consultant and the completion of related efforts are specified in the following Scope of Services & Fee Schedule agreed to by the parties.

SCOPE OF SERVICES

The Scope of Services shall include, but not be limited to, the following:

1. Meetings with PMGAA related to the project(s)
1. Determination of specific areas of "high cultural sensitivity" or areas most likely to contain buried archaeological features within the project(s), and recommendations to PMGAA on how best to proceed in such areas
2. Archaeological Monitoring, where determined necessary by the consulting archaeologist, as needed
3. Examining excavated material for evidence of archaeological features, notifying PMGAA and providing necessary recommendations regarding how to address such features if found
4. Examining trenches and/or excavations for evidence of archaeological artifacts, notifying PMGAA and provide recommendations regarding treatment of artifacts, if found
5. Providing necessary Archaeological testing, evaluation, and data recovery of materials recovered
6. Preparing plans for and identifying options for mitigation, including but not limited to: avoidance, preservation, partial preservation, or excavation and curation
7. Manually excavating in areas containing archaeological materials appearing to be significant
8. Providing photographs and mapping
9. Preparing all necessary documenting reports to be filed with the State Historic Preservation Office
10. Cataloging and preparation of recovered artifacts, as required, for placement with a repository
11. Compliance with all applicable state and federal laws related to cultural resources
12. Consulting with PMGAA as necessary to provide recommendations and consulting support throughout project(s)
13. Preparing technical reports summarizing the consulting work performed, detailing the results of
    all findings, and summarizing all recommendations

FEE SCHEDULE

The fees stated herein shall remain in effect for the Base Term. Fee increases for the optional renewal term(s) are subject to the conditions as set for in Section III, Period of Service, of this Contract.

EXHIBIT B - COMPENSATION

All compensation for services rendered by Consultant shall be based upon criteria established below and in accordance with each Authorization of Services initiated under this Contract. All services must be billed through the Consultant.

1. Fees to be Specified in Contract

Any and all services to be performed under this Contract require approval. All compensation for services shall be identified in writing. The Contract shall describe the scope of services to be performed (by tasks and subtasks, where appropriate), the amount of time required for performance, the fees associated with that performance, and any applicable special provisions. Consultant's compensation for services included in this Contract is totaled and set forth in **EXHIBIT A**, "Scope of Services and Fee Schedule".

2. Method of Payment

For services rendered in accordance with the Contract, Consultant shall submit to PMGAA an invoice or payment application depicting tasks performed, hours spent, utilized and expenses incurred for services performed. Invoices or payment applications must be based on the actual hours required and expenses incurred for the services completed during the billing period. Consultant's invoices or payment applications must specify that Consultant has performed the services, and PMGAA must certify and approve each invoice or application as a condition to payment.

3. Consultant Responsibilities for Compensation

Consultant shall prepare monthly invoices and progress reports in accordance with terms specified in the Contract, which clearly indicate the progress to date and the amount of compensation due by virtue of that progress. All invoices/requisitions for payment shall be for work completed unless otherwise agreed to by PMGAA. Invoices/requisitions for payment for services subject to funding by the FAA and/or ADOT shall include the documentation requirements of the FAA and/or ADOT, which are outlined in the *Airport Improvement Program (AIP) Handbook* dated September 30, 2014, or most current version.

4. PMGAA Responsibilities for Compensation

PMGAA agrees to pay Consultant's invoices/requisitions for payment within 30 calendar days after the invoice is approved. PMGAA may withhold payment on any invoice if it believes that Consultant has not performed the work in a satisfactory manner. If PMGAA withholds payment to Consultant, PMGAA shall promptly notify Consultant and explain the reasons for the decision to withhold payment.

5. Billing Address

All invoices submitted to PMGAA for payment shall be submitted to:

Phoenix-Mesa Gateway Airport Authority
Attn: Engineering and Facilities Director
5835 S. Sossaman Road
Mesa, Arizona 85212

EXHIBIT C – PMGAA STANDARD TERMS & CONDITIONS

1. Certification

By signature of this Contract, Consultant certifies:

a. The award of this Contract did not involve collusion or other anti-competitive practices.
b. It shall not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, or A.R.S. Section 31-1461, et. seq.
c. It has not given, offered to give, nor intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Contract; and Consultant hereby certifies that the individual signing this Contract is
an authorized agent for Consultant and has the authority to bind the Consultant to the Contract.

2. Dispute Resolution

a. Negotiations. If a dispute arises out of or relates to this Contract or its breach, the parties to this Contract shall endeavor to settle the dispute through direct discussions as a condition precedent to mediation or binding dispute resolution.
b. Mediation. Should the parties to this Contract be unable to resolve their dispute through direct negotiations, the parties to this Contract, upon the written request of either, shall engage in mediation, to be administered privately by a mediator and according to rules mutually agreed upon by the parties to this
Contract, or, the absence of such mutual agreement, by a mediator appointed by JAMS and administered by JAMS in accordance with its then-current mediation rules. The fees and costs of mediation shall be split equally by the parties to this Contract, but subject to reallocation following binding dispute resolution.
c. Binding Dispute Resolution. Should the parties to this Contract be unable to resolve their dispute through direct negotiations or mediation, either party may, within the time limitations for bringing claims under Arizona law and this Contract, commence formal dispute resolution proceedings. Both parties to this Contract consent to binding arbitration administered by JAMS according to its then current arbitration rules, provided, however, that (i) in the event both parties agree, the arbitration may be administered privately by an arbitrator and according to rules mutually agreed upon by the parties to this Contract, and (ii) in the event any party seeks relief against the other party or against a non-party which cannot fully be granted in arbitration, by reason of non-joinder or otherwise, the parties to this Contract are excused from this arbitration requirement and the parties to this Contract shall proceed in the state or federal courts of competent jurisdiction and located in Maricopa County, Arizona. In any arbitration or litigation, the prevailing party shall be entitled to an award of its reasonable attorneys' fees and costs as determined by the arbitrator or court as applicable.

3. Independent Contractor

At all times, each party acts in its individual capacity and not as agent, employee, partner, joint venturer, or associate the other party. An employee or agent of one party may not be deemed or construed to be the employee or agent of the other party for any purpose whatsoever. Neither Consultant nor any of its employees are entitled to compensation from PMGAA in the form of salaries, paid vacation, or sick days.

PMGAA will not provide any insurance to Consultant, including *Workers' Compensation* coverage. PMGAA will not withhold FICA, taxes, or any similar deductions from PMGAA's payments under this Contract.

4. Affirmative Action

Consultant shall abide by all the federal and state of Arizona provisions for equal opportunity in the work place.

5. Human Relations

Consultant shall abide by all the federal and state of Arizona provisions against discrimination of disadvantaged business enterprises in applicable PMGAA contracts.

6. Non-Exclusive Contract

This Contract is for the sole convenience of PMGAA. PMGAA reserves the right in its discretion to obtain the same or similar goods or services from any other source.

7. Americans with Disabilities Act

Consultant shall comply with all applicable provisions of the *Americans with Disabilities Act* (Public Law 101-336, 42 U.S.C. 12101-12213) and applicable federal regulations under the *Act*.

8. Confidentiality of Records

Consultant shall establish and maintain procedures and controls that are acceptable to PMGAA for the purpose of assuring that no information contained in its records or obtained from PMGAA or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under this Contract. Persons requesting such information should be referred to PMGAA. Consultant also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Consultant as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by PMGAA.

9. Gratuities

PMGAA may, by written notice to the Consultant, cancel this Contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by Consultant or any agent or representative of Consultant, to any officer or employee of PMGAA involved in the amending, or the making of any determinations with respect to the performing of such Contract. If this Contract is canceled by PMGAA under this provision, PMGAA shall, in addition to any other rights and remedies, repay to the Consultant the amount of the gratuity.

10. Applicable Law

This Contract shall be governed by, and PMGAA and Consultant shall have, all remedies afforded each by the *Uniform Commercial Code*, as adopted in the state of Arizona, except as otherwise provided in this Contract or in laws pertaining specifically to PMGAA. This Contract shall be governed by the laws of the state of Arizona, and suits pertaining to this Contract shall be brought only in federal or state courts in the state of Arizona.

11. Contract

This Contract is based on and the result of a negotiated Scope of Services and Fee Schedule submitted by Consultant. The Contract contains the entire agreement between PMGAA and Consultant. No prior oral or written agreements, contracts, proposals, negotiations, purchase orders, or master agreements (in any form) are enforceable between the parties.

12. Contract Amendments

This Contract shall be modified only by a written amendment signed by the PMGAA Executive Director or his/her designee, and persons duly authorized to enter into contracts on behalf of Consultant.

13. Provisions Required by Law

Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

14. Severability

The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract, which may remain in effect without the valid provision, or application.

15. Protection of Government Property

Consultant shall use reasonable care to avoid damaging all PMGAA property, including buildings, equipment, and vegetation (such as trees, shrubs, and grass). If Consultant damages PMGAA's property in any way, Consultant shall

immediately repair or replace the damage at no cost to PMGAA, as directed by the PMGAA Executive Director. If Consultant fails or refuses to repair or replace the damage, then PMGAA may terminate the Contract, and PMGAA shall deduct the repair or replacement cost from money due Consultant under the Contract.

16. Interpretation – Parol Evidence

This Contract is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms thereof. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in this Contract. Acceptance or acquiescence in a course of performance rendered under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to object.

17. Subcontracts

Offeror shall not assign any rights or interest nor enter into any subcontract with any other party to furnish any of the materials, goods or services specified herein without the prior written permission of PMGAA. PMGAA may, at its sole discretion, accept or reject proposed subcontractors or assignment. PMGAA shall notify Offeror of its acceptance or rejection within forty-five (45) days or written request by Offeror. All subcontracts shall comply with federal and state laws and regulations applicable to the materials, goods or services covered by the subcontract and shall include all the terms and conditions set forth herein, which shall apply with equal force to the subcontract, as if the subcontractor were the Offeror referred to herein. Offeror is responsible for Contract performance whether or not subcontractors are used.

18. No Waiver

No provision in this Contract shall be construed, expressly or by implication, to waive either party's existing or future claim, right, or remedy available by law for breach of contract. The failure of either party to insist on strict performance of any Contract term or condition; to exercise or delay exercising any right or remedy provided in the Contract or by law; or to accept materials, services, or Consultant's services under this Contract or imposed by law, shall not be deemed a waiver of any right of either party to insist upon strict performance of the Contract.

19. Warranties

Consultant warrants that all materials and services delivered under this Contract shall conform to the specifications thereof. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by PMGAA, shall not alter or affect the obligations of Consultant or the rights of PMGAA under the foregoing warranties. Additional warranty requirements may be set forth in this Contract.

20. Indemnification

To the fullest extent permitted by law, Consultant shall indemnify and hold harmless PMGAA, its officers and employees (collectively the "Indemnitees") from liabilities, damages, losses and costs, including reasonable attorney fees and court costs but only to the extent caused by the negligence, recklessness or intentional wrongful conduct of Consultant or other persons employed or used by Consultant in the performance of this Contract.

21. Right to Assurance

Whenever one party to this Contract in good faith has reason to question the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. If a demand is made and no written assurance is given within five (5) business days, the demanding party may treat this failure as an anticipatory repudiation with this Contract.

22. Advertising

Consultant shall not advertise or publish information concerning this Contract without prior written consent of PMGAA.

23. Right to Inspect

PMGAA may, at reasonable times, and at PMGAA's expense, inspect the place of a Consultant's or subcontractor's business, which is related to the performance of this Contract or related subcontract.

24. Force Majeure

In the event either party shall be delayed or hindered in or prevented from the performance of any covenant, agreement, work, service, or other act required under this Contract to be performed by such party ("Required Act"), and such delay or hindrance is due to causes entirely beyond its control such as riots, insurrections, martial law, civil commotion, war, fire, flood, earthquake, or other casualty or acts of God ("Force Majeure Event"), then the performance of such Required Act shall be excused for the period of delay and the time period for performance of the Required Act shall be extended by the same number of days in the period of delay. For purposes of this Contract, the financial inability of Consultant to perform any Required Act, including, without limitation, failure to obtain adequate or other financing shall not be deemed to constitute a Force Majeure Event. A Force Majeure Event shall not be deemed to commence until ten (10) days before the date on which the party who asserts some right, defense, or remedy arising from or based upon such Force Majeure Event gives written notice thereof to the other party. If abnormal adverse weather conditions are the basis for a claim for an extension of time due to a Force Majeure Event, the written notice shall be accompanied by data substantiating (a) that the weather conditions were abnormal for the time and could not have been reasonably anticipated and (b) that the weather conditions complained of had a significant adverse effect on the performance of a Required Act. To establish the extent of any delay to the performance of a Required Act due to abnormal adverse weather, a comparison will be made of the weather for the time of performance of the Required Act with the average of the preceding ten (10) years' climatic range based on the National Weather Service statistics for the nearest weather reporting station to the Premises. No extension of time for or excuse for a delay in the performance of a Required Act will be granted for rain, snow, wind, cold temperatures, flood, or other natural phenomena of normal intensity for the locality where the Premises are located.

25. Inspection

All material or service is subject to final inspection and acceptance by PMGAA. Material or service failing to conform to the specifications of this Contract will be held at Consultant's risk and may be returned to Consultant. If so returned, all costs are the responsibility of Consultant. Noncompliance shall conform to the cancellation clause set forth in this Contract.

26. Exclusive Possession

All services, information, computer program elements, reports, and other deliverables, which may be created under this Contract, are the sole property of PMGAA and shall not be used or released by Consultant or any other person except with prior written permission by PMGAA.

27. Title and Risk of Loss

The title and risk of loss of materials or services shall not pass to PMGAA until PMGAA actually receives the material or service at the Airport, unless otherwise provided within this Contract.

28. Liens

All materials, services, and other deliverables supplied to PMGAA under this Contract must be free of all liens and other encumbrances. Upon request of PMGAA, Consultant shall provide a formal release of all liens.

29. Licenses

Consultant shall maintain in current status all federal, state, and local licenses and permits required for the operation of the business conducted by Consultant as applicable to this Contract.

30. Subsequent Employment

PMGAA may cancel this Contract without penalty or further obligation in accordance with A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the contract, on behalf of PMGAA is or becomes, at any time while the Contract or any extension of the contract is in effect, an employee of, or a contractor to any other party to this Contract with respect to the subject matter of the Contract. Such cancellation shall be effective when the parties to this Contract receive written notice from PMGAA, unless the notice specifies a later time.

31. Clean Up

Consultant shall at all times keep Contract performance areas, including storage areas used by the Consultant, free

from accumulation of waste material or rubbish and, prior to completion of the work, remove any rubbish from the premises and all tools, scaffolding, equipment and materials not property of PMGAA. Upon completion of any repair, Consultant shall leave the work and premises in clean, neat, and workmanlike condition.

32. Patents

Consultant shall defend, indemnify, and hold harmless PMGAA, its officers and employees from all liabilities, claims, damages, costs, or expenses, including, but not limited to attorneys' fees, for any alleged infringement of any person's patent rights or copyrights in consequence of the use by PMGAA, its officers, employees, agents, and other duly authorized representatives of tangible or intellectual property supplied to PMGAA by Consultant under this Contract.

33. Records and Audit Rights

Consultant's and all of its approved subcontractors' books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating to this Contract, including the papers of all Consultant and subcontractor employees that work on the Contract (all the foregoing collectively referred to as "Records"), must be open to inspection and subject to audit and/or reproduction during normal working hours by PMGAA. PMGAA is entitled to evaluate and verify all invoices, payments or claims based on Consultant's and its subcontractor's actual costs (including direct and indirect costs and overhead allocations) incurred or units expended directly in the performance of work under this Contract. For any audit under this Section, Consultant and its subcontractors hereby waive the right to keep such Records confidential. PMGAA is entitled to access to these Records from the effective date of this Contract for the duration of the work and until five years after the date of final payment by PMGAA to Consultant under the Contract. During normal working hours, PMGAA is entitled to access to all necessary Consultant and subcontractor facilities and shall be provided adequate and appropriate workspace, in order to conduct audits under this Section. PMGAA shall give Consultant or subcontractors reasonable advance notice of intended audits. Consultant shall require its subcontractors to comply with the provisions of this Section by including its requirements in all subcontracts related to this Contract.

34. E-Verify Requirements

To the extent applicable under A.R.S. § 41-4401, Offeror and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees, and compliance with the E-Verify requirements under A.R.S. §23-214(A). Offeror's or its subcontractors' failure to comply with such warranty shall be deemed a material breach of this Contract and may result in the termination of this Contract by PMGAA. PMGAA shall have the right to inspect the papers of Consultant's and any of Consultant's subcontractor's employee who works on this Contract to ensure the Consultant is complying with this paragraph.

35. Availability of Project Funding

This Contract's approval and continuation is conditioned on the availability of funds appropriated by PMGAA for this purpose. If funds are not available or appropriated for the Contract's requirements, PMGAA may terminate the Contract. Possible sources of funding for this Contract include FAA and ADOT, and this Contract is contingent on the availability of those funds to PMGAA.

EXHIBIT D- FEDERAL PROVISIONS

Paragraphs 1 through 6 shall apply to Consultant and any work/project covered under this contract, regardless of project funding. All other paragraphs shall apply to Federally funded projects.

1. Civil Rights Act of 1964, Title VI – General

The contractor agrees to comply with pertinent statues, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

2. Civil Rights Act of 1964, Title VI – Assurances

During the performance of this Contract, the contractor, for itself, its assignees and successors in interest agrees as follows:

a. Compliance with Regulations – Compliance with Regulations: The contractor (hereinafter includes consultants) will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

b. Nondiscrimination – The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

c. Solicitations for Subcontracts, including Procurements of Materials and Equipment – In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Non-discrimination Acts And Authorities on the grounds of race, color, or national origin.

d. Information and Reports – The contractor will provide all information and reports required by the Acts, the Regulations and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by PMGAA or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to PMGAA or the FAA as appropriate, and will set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance – In the event of a contractor's noncompliance with the Nondiscrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to:

i) Withholding of payments to the contractor under the contract until the contractor complies, and/or;
ii) Cancellation, termination, or suspension of the Contract, in whole or in part.

f. Incorporation of Provisions – The contractor will include the provisions of paragraphs one through six of this **EXHIBIT D** in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as PMGAA or the FAA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request PMGAA to enter into any litigation to protect the interests of PMGAA. In addition,

the contractor may request the United States to enter into the litigation to protect the interests of the United States.

3. Civil Rights – Title VI List of Pertinent Nondiscrimination Acts and Authorities

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- 49 CFR part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;
- The FAA's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

4. Termination for Convenience

PMGAA may, by written notice to the Consultant, terminate this Contract for its convenience and without cause or default on the part of Consultant. Upon receipt of the notice of termination, except as explicitly directed by PMGAA, the Consultant must immediately discontinue all services affected.

Upon termination of the Contract, the Consultant must deliver to PMGAA all data, surveys, models, drawings, specifications, reports, maps, photographs, estimates, summaries, and other documents and materials prepared by the Engineer under this contract, whether complete or partially complete.

Owner agrees to make just and equitable compensation to the Consultant for satisfactory work completed up through the date the Consultant receives the termination notice. Compensation will not include anticipated profit on non-performed services.

Owner further agrees to hold Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

5. Termination for Default

Either party may terminate this Contract for cause if the other party fails to fulfill its obligations that are essential to the completion of the work per the terms and conditions of the Contract. The party initiating the termination action must allow the breaching party an opportunity to dispute or cure the breach.

The terminating party must provide the breaching party [7] days advance written notice of its intent to terminate the Contract. The notice must specify the nature and extent of the breach, the conditions necessary to cure the breach, and the effective date of the termination action. The rights and remedies in this clause are in addition to any other rights and remedies provided by law or under this Contract.

a. Termination by Owner: PMGAA may terminate this Contract in whole or in part, for the failure of the Consultant to:
   i. Perform the services within the time specified in this contract or by Owner approved extension;
   ii. Make adequate progress so as to endanger satisfactory performance of the Project;
   iii. Fulfill the obligations of the Contract that are essential to the completion of the Project.

   Upon receipt of the notice of termination, the Consultant must immediately discontinue all services affected unless the notice directs otherwise. Upon termination of the Contract, the Consultant must deliver to PMGAA all data, surveys, models, drawings, specifications, reports, maps, photographs, estimates, summaries, and other documents and materials prepared by the Engineer under this contract, whether complete or partially complete.

   Owner agrees to make just and equitable compensation to the Consultant for satisfactory work completed up through the date the Consultant receives the termination notice. Compensation will not include anticipated profit on non-performed services.

   Owner further agrees to hold Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

   If, after finalization of the termination action, PMGAA determines the Consultant was not in default of the Contract, the rights and obligations of the parties shall be the same as if PMGAA issued the termination for the convenience of PMGAA.

b. Termination by Consultant: The Consultant may terminate this Contract in whole or in part, if the Owner:
   i. Defaults on its obligations under this Contract;
   ii. Fails to make payment to the Consultant in accordance with the terms of this Contract;
   iii. Suspends the Project for more than [180] days due to reasons beyond the control of the Consultant.

   Upon receipt of a notice of termination from the Consultant, Owner agrees to cooperate with Consultant for the purpose of terminating the Contract or portion thereof, by mutual consent. If Owner and Consultant cannot reach a mutual agreement on the termination settlement, the Consultant may, without prejudice to any rights and remedies it may have, proceed with terminating all or parts of this Contract based upon PMGAA's breach of the contract.

In the event of termination due to Owner breach, the Engineer is entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Contract and all justified reimbursable expenses incurred by the Consultant through the effective date of termination action. Owner agrees to hold Consultant harmless for errors or omissions in documents that are incomplete as a result of the termination action under this clause.

6. Breach of Contract Terms

Any violation or breach of terms of this Contract on the part of Consultant or its subconsultants or subcontractors may result in suspension or termination of this Contract, or such other action that may be necessary to enforce the rights of the parties with respect thereto. The duties and obligations imposed by the Contract and the rights and remedies available thereunder shall be in addition to, and not a limitation of, any duties, obligations, rights and remedies otherwise imposed or available by law.

PMGAA will provide Consultant written notice that describes the nature of the breach and corrective actions the Consultant must undertake in order to avoid termination of the Contract. PMGAA reserves the right to withhold payment to the Consultant until such time the Consultant corrects the breach or PMGAA elects to terminate the Contract. PMGAA's notice will identify a specific date by which the Consultant must correct the breach. PMGAA may proceed with termination of the Contract if the Consultant fails to correct the reach by the deadline indicated in PMGAA's notice.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

7. Access to Records and Reports

Consultant shall maintain an acceptable cost accounting system. Consultant further agrees to provide PMGAA, the FAA and the Comptroller General of the United States, or any of their duly authorized representatives, access to any books, documents, papers, and records of Consultant which are directly pertinent to this specific Contract for the purpose of making audit, examination, excerpts and transcriptions. Consultant agrees to maintain all books, records and reports required under this Contract for a period of not less than three (3) years after final payment is made and all pending matters are closed.

8. Disadvantaged Business Enterprises (DBE)

The requirements of 49 CFR Part 26 apply to this contract. The Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of Department of Transportation-assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the Owner deems appropriate, which may include, but is not limited to:

1) Withholding monthly progress payments;
2) Assessing sanctions;
3) Liquidated damages; and/or
4) Disqualifying the Contractor from future bidding as non-responsible.

a. Contract Assurance (§26.13) – Consultant and/or subcontractor(s) shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. Consultant shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT assisted contracts. Failure by Consultant to carry out these requirements is a material breach of this Contract, which may result in the termination thereof or such other remedy, as the recipient deems appropriate.

b. Prompt Payment (§26.29) – Consultant agrees to pay each subcontractor under this Contract for satisfactory performance of its contract obligations no later than seven (7) days from the receipt of each payment Consultant receives from PMGAA. Consultant agrees further to return retainage payments to

each subcontractor for work satisfactorily completed within seven (7) days from the receipt of payment the Consultant receives from PMGAA. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of PMGAA. This clause applies to both DBE and non-DBE subcontractors.

In addition, Consultant agrees to all rules, policies, and requirements as set forth in these contract documents and exhibits.

9. Energy Conservation Requirements

Consultant and Subconsultant agree to comply with mandatory standards and policies relating to energy efficiency as contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201*et seq*)

10. Federal Fair Labor Standards Act

This contract and all subcontracts that result from this contract incorporate by reference the provisions of 29 CFR part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part time workers.

The Consultant has full responsibility to monitor compliance to the referenced statue or regulation. The Consultant must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

11. Occupational Safety and Health Act of 1970

This contract and all subcontracts that result from this contract incorporate by reference the provisions of 29 CFR part 1910 with the same force and effect as if given in full text. Consultant must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. The Consultant retains full responsibility to monitor its compliance and their subcontractor's compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20CFR Part 1910). Consultant must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.

12. Tax Delinquency and Felony Conviction

a. Certification of Consultant. Consultant, by accepting this Contract, certifies that it is not a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

Consultant further certifies that it is not a corporation that was convicted of a criminal violation under any Federal law within the preceding 24 months.

b. Certification of Lower Tier Subconsultants. Consultant, by administering each lower tier subcontract must certify and include this certification in all lower tier subcontracts.

Term Definitions

Felony conviction: Felony conviction means a conviction within the preceding twenty four (24) months of a felony criminal violation under any Federal law and includes conviction of an offense defined in a section of the U.S. code that specifically classifies the offense as a felony and conviction of an offense that is classified as a felony under 18 U.S.C. § 3559.

Tax Delinquency: A tax delinquency is any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

13. Trade Restriction Clause

By submission of an offer, the Offeror/Contractor/Consultant certifies that with respect to this solicitation and any resultant contract, the Offeror/Contractor/Consultant -

a. is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (U.S.T.R.);
b. has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the U.S.T.R; and
c. has not entered into any subcontract for any product to be used on the Federal on the project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001.

The Offeror/Contractor/Consultant must provide immediate written notice to PMGAA if the Offeror/Contractor/Consultant learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The Consultant must require subcontractors provide immediate written notice to the Consultant if at any time it learns that its certification was erroneous by reason of changed circumstances.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to an Offeror or subcontractor:

a. who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R. or
b. whose subcontractors are owned or controlled by one or more citizens or nationals of a foreign country on such U.S.T.R. list or
c. who incorporates in the public works project any product of a foreign country on such U.S.T.R. list;

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor/consultant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

The Offeror/Contractor/Consultant agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in in all lower tier subcontracts. The contractor/consultant may rely on the certification of a prospective subcontractor that it is not a firm from a foreign country included on the list of countries that discriminate against U.S. firms as published by U.S.T.R, unless the Offeror/Contractor/Consultant has knowledge that the certification is erroneous.

This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that the Contractor/Consultant or subcontractor/subconsultant knowingly rendered an erroneous certification, the FAA may direct through PMGAA cancellation of the contract or subcontract for default at no cost to PMGAA or the FAA.

14. Veteran's Preference

In the employment of labor (excluding executive, administrative, and supervisory positions), the consultant and all sub-tier consultants must give preference to covered veterans as defined within Title 49 United States Code Section 47112. Covered veterans include Vietnam-era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns (as defined by 15 U.S.C. 632) owned and controlled by disabled

veterans. This preference only applies when there are covered veterans readily available and qualified to perform the work to which the employment relates.

15. Debarment and Suspension

a. Certification of Consultant. Consultant, by accepting this Contract, certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

b. Certification of Lower Tier Subconsultants

Consultant, by administering each lower tier subcontract that is equal to or exceeds $25,000 as a "covered transaction", must verify each lower tier participant of a "covered transaction" under the project is not presently debarred or otherwise disqualified from participation in this federally assisted project. The consultant will accomplish this by:

1. Checking the System for Award Management website at: http://www.sam.gov
2. Collecting a certification statement similar to the Certificate Regarding Debarment and Suspension above
3. Inserting a clause or condition in the covered transaction with the lower tier contract

If the FAA later determines that a lower tier participant failed to disclose to a higher tier participant that it was excluded or disqualified at the time it entered the covered transaction, the FAA may pursue any available remedies, including suspension and debarment of the non-compliant participant.

16. Distracted Driving

In accordance with Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving" (10/1/2009) and DOT Order 3902.10 "Text Messaging While Driving" (12/30/2009), the FAA encourages recipients of Federal grant funds to adopt and enforce safety policies that decrease crashes by distracted drivers, including policies to ban text messaging while driving when performing work related to a grant or sub-grant.

In support of this initiative, PMGAA encourages the Consultant to promote policies and initiatives for its employees and other work personnel that decrease crashes by distracted drivers, including policies that ban text messaging while driving motor vehicles while performing work activities associated with the project. The Consultant must include the substance of this clause in all sub-tier contracts exceeding $3,500 and involve driving a moto vehicle in performance of work activities associated with the project.

17. Lobbying and Influencing Federal Employees

Consultant certifies by signing and accepting this contract, to the best of his or her knowledge and belief that:

a. No federal appropriated funds shall be paid, by or on behalf of Consultant, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any federal grant and the amendment or modification of any federal grant.

b. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any federal grant, the contractor shall complete and submit Standard Form-LLL, "Disclosure of Lobby Activities," in accordance with its instructions.

c. Consultant, by submission of an offer and/or execution of a contract, certifies that the language above will be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

18. Clean Air and Water Pollution Control

Consultant agrees to comply with all applicable standards, orders, and regulations issued pursuant to the Clear Air Act (42 U.S.C. § 740-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C § 1251-1387). Consultant agrees to report any violation to PMGAA immediately upon discovery. PMGAA assumes responsibility for notifying the Environmental Protection Agency (EPA) and the FAA.

Consultant must include this requirement in all subcontracts that exceed $150,000.

19. Rights to Inventions

Contracts or agreements that include the performance of experimental, developmental, or research work must provide for the rights of the Federal Government and PMGAA in any resulting invention as established by 37 CFR part 401, Rights to Inventions Made by Non-profit Organizations and Small Business Firms under Government Grants, Contracts, and Cooperative Agreements. This contract incorporates by reference the patent and inventions rights as specified within in the 37 CFR §401.14. Consultant must include this requirement in all sub-tier contracts involving experimental, developmental or research work.

20. Equal Employment Opportunity (E.E.O)

During the performance of this contract, Consultant agrees as follows:

a. The Consultant will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Consultant will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identify or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

b. The Consultant will, in all solicitations or advertisements for employees placed by or on behalf of the Consultant, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

c. The Consultant will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Consultant's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Consultant will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The Consultant will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

f. In the event of the Consultant's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Consultant may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and

remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

g. The Consultant will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Consultant will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance*: Provided, however*, That in the event a Consultant becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the Consultant may request the United States to enter into such litigation to protect the interests of the United States.

21. Prohibition of Segregated Facilities

a. The Consultant agrees that it does not and will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not and will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The Consultant agrees that a breach of this clause is a violation of the Equal Opportunity clause in this contract.

b. "Segregated facilities," as used in this clause, means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees, that are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, sex, or national origin because of written or oral policies or employee custom. The term does not include separate or single-user rest rooms or necessary dressing or sleeping areas provided to assure privacy between the sexes.

c. The Consultant shall include this clause in every subcontract and purchase order that is subject to the Equal Opportunity clause of this contract.

22. Contract Workhours and Safety Standards Act Requirements

a. Overtime Requirements.
No Consultant or subconsultant contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic, including watchmen and guards, in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

b. Violation; Liability for Unpaid Wages; Liquidated Damages.
In the event of any violation of the clause set forth in paragraph (1) of this clause, the Consultant and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such Consultant and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this clause, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this clause.

c. Withholding for Unpaid Wages and Liquidated Damages.
The FAA or PMGAA shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys

payable on account of work performed by the Consultant or subcontractor under any such contract or any other Federal contract with the same prime Consultant, or any other Federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Consultant, such sums as may be determined to be necessary to satisfy any liabilities of such Consultant or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph 2 of this clause.

d. Subcontractors.
The Consultant or subconsultant shall insert in any subcontracts the clauses set forth in paragraphs (1) through (4) and also a clause requiring the subcontractor to include these clauses in any lower tier subcontracts. The prime Consultant shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this clause.

23. Seismic Safety
In the performance of design services, the Consultant agrees to furnish a building design and associated construction specification that conform to a building code standard which provides a level of seismic safety substantially equivalent to standards as established by the National Earthquake Hazards Reduction Program (NEHRP). Local building codes that model their building code after the current version of the International Building Code (IBC) meet the NEHRP equivalency level for seismic safety. At the conclusion of the design services, the Consultant agrees to furnish PMGAA a "certification of compliance" that attests conformance of the building design and construction specifications with the seismic standards of NEHRP or an equivalent building code.

24. Procurement of Recovered Materials
Contractor and subcontractor agree to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, and the regulatory provisions of 40 CFR Part 247. In the performance of this contract and to the extent practicable, the Contractor and subcontractors are to use of products containing the highest percentage of recovered materials for items designated by the Environmental Protection Agency (EPA) under 40 CFR Part 247 whenever:

a. The contract requires procurement of $10,000 or more of a designated item during the fiscal year; or,
b. The contractor has procured $10,000 or more of a designated item using Federal funding during the previous fiscal year.

The list of EPA-designated items is available at www.epa.gov/epawaste/conserve/tools/cpg/products/.
Section 6002(c) establishes exceptions to the preference for recovery of EPA-designated products if the contractor can demonstrate the item is:

a. Not reasonably available within a timeframe providing for compliance with the contract performance schedule;
b. Fails to meet reasonable contract performance requirements; or
c. Is only available at an unreasonable price.

25. Affirmative Action
If, during the duration of this Contract, any work conducted by Consultant or Consultant's subcontractors / subconsultants, meets the current definition of construction, as defined by the U.S. Department of Labor and exceeds $10,000.00, then all provisions, terms, and conditions of Affirmative Action as set forth in Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects, shall apply to this Contract and Consultant agrees to comply with such requirements.

26. Copeland Anti-Kickback Act
If, during the duration of this Contract, any work conducted by Consultant or Consultant's subcontractors / subconsultants, meets the current definition of construction, alteration or repair as defined in 29 CFR Part 5 and the work exceeds $2,000.00, then all provisions, terms, and conditions of the Copeland Anti-Kickback Act as set forth in Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects, shall apply to this Contract and Consultant agrees to comply with such requirements.

27. Davis Bacon

If, during the duration of this Contract, any work conducted by Consultant meets the current definition of construction, alteration or repair as defined in 29 CFR Part 5 and the work exceeds $2,000.00, then all provisions, terms, and conditions of the Davis Bacon Act as set forth in Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects, shall apply to this Contract and Consultant agrees to comply with such requirements.

EXHIBIT E - SPECIAL PROVISIONS

1. Project Security

As some or all portions of work possible during the Term of this Contract may be located inside the secured area of the Airport, adherence to and familiarity with federal security regulations is essential. For these projects, Consultant shall be responsible for fulfilling the security requirements described herein.

a. Secured Area Access – All Consultant personnel who require unescorted access to the secured area of the Airport, prior to the issuance of an Airport Identification badge, must successfully complete the Security Badge Application and Security Badge Authorization forms.

b. Employee Security Badges – If deemed necessary by PMGAA All Contractor and/or subcontractor personnel performing work functions in accordance with this Contract shall obtain and properly display an Airport security badge. Consultant shall submit a Security Badge Application form to the PMGAA security office for each employee requiring unescorted access, along with the current fee for each badge. Badge fees are identified on the current *Airport Fees, Services and Rental Rates* listing available via the Airport website at www.gatewayairport.com and are subject to change.

   i. All fees must be paid to PMGAA by cash or check.
   ii. Airport Security Badge Application forms and instructions are available via the Airport website at www.gatewayairport.com.
   iii. An authorized representative of Consultant must also obtain and submit a Security Media Authorization form, which is to be submitted to the PMGAA badging office. The Security Media Authorization form and instructions are available via the Airport website at www.gatewairport.com.
   iv. A training class on aviation security must be successfully completed before individuals are issued a badge. Fees for the security badge include attendance for the necessary training classes. Attendance at the security classes and issuance of the security badge may take two hours per person.
   v. Additional information, including a "Frequently Asked Questions" is available via the Airport website at www.gatewairport.com or by contacting the PMGAA Badging Office at (480) 988-7522. The Badging Office is located at 5803 S. Sossaman Road, Mesa AZ 85212.
   vi. Consultant shall immediately notify the PMGAA Badging Office of any Consultant personnel whose employment status has changed.
   vii. Consultant shall retrieve all security badges and keys and return them to the PMGAA Badging Office. A fee, as indicated on the most current *Airport Rates and Charges Schedule*, will be charged for each badge that is damaged, lost or not returned.
   viii. The PMGAA Badging Office will require a completed Security Badge Application from each Consultant employee so certified by Consultant as requiring such before a Security Badge is issued.
   ix. Under certain circumstances and out of control of PMGAA, security measures may change on short notice. No deviations from any security measure shall be allowed at any time.
   x. At all times, aircraft shall have the right-of-way over all vehicle traffic.

c. Fines – Due to both the safety and security precautions necessary at the Airport, any failure of the Consultant to adhere to prescribed Airport requirements/regulations has consequences that may jeopardize the health, welfare and lives of Airport customers and employees, as well as the Consultant's own employees. Therefore, if Consultant is found to be in non-compliance with any security, airfield badging/licensing and airfield safety requirement, a Notice of Violations (NOV) may be issued. A current listing of fines is available by contacting the PMGAA Badging Office.

2. Standard Terms & Conditions

PMGAA's Standard Terms & Conditions (in **EXHIBIT C** attached) include clauses that pertain to both construction and professional services. For such, the term "contractor" is to be considered same as "consultant." If a clause implies construction service then it is waived for a professional services contract. PMGAA reserves the right to make that determination if there is a conflict. Wherever Standard Terms & Conditions are in conflict with conditions stated in this Special Provisions Section, the conditions stated in this Section shall take precedence.

3. Federal and State Guidelines and Regulations

All work performed under this Contract must satisfy FAA and applicable agency standards, and be accomplished in accordance with applicable federal, state and local guidelines and regulations, including FAA Advisory Circulars, NEPA and Arizona environmental statutes.

Consultant shall perform the services as described in approved Contract in accordance with the applicable requirements imposed by PMGAA, ADOT, FAA and any other applicable sponsoring agencies. Consultant and its subconsultants/subcontractors, if any, shall comply with any and all applicable laws, regulations, executive orders, policies, guidelines, and any other requirements for FAA Airport Improvement Program (AIP) projects. Consultant shall provide PMGAA all information, reports, documents, and/or certifications requested by PMGAA for the satisfaction of any grant requirements for the reimbursement of services, including, without limitation, identifying the specific services provided by Consultant and the billing period(s) during which services were or are to be provided. Nothing herein shall be construed as making the FAA or ADOT a party to this Contract.

4. Right to Contract With Other Firms

PMGAA shall have the right to contract with other firms and/or persons and/or to self-perform additional services, which may be the subject of this Contract. Consultant shall conduct its operations and perform any services authorized under the Contract so as not to interfere with or hinder the progress of completion of the work being performed by PMGAA and/or other firms and/or persons. Consultants working on the same project shall cooperate with each other in the performance, scheduling, and, if applicable, the integration of their respective services.

5. Independent Contractor Status

At all relevant times, Consultant is - and shall remain - an independent contractor with regard to performance of its services. PMGAA retains no control over Consultant, the performance of its work or services, or the safety of its employees. Consultant is not authorized to enter into any contract or commitment, authorize any payment, or accept any document, services, goods or materials for, in the name of, or on behalf of PMGAA.

EXHIBIT F – SUBCONTRACTING AND OUTREACH EFFORTS SUMMARY

Submit: With each cost proposal for EACH scope of work identified REGARDLESS of whether it resulted in selection of a subconsultant/subcontractor
Completed By: Prime Consultant

Project Description: _____ Project No.: _____

Scope of Work That May Be Subcontracted	NAISC Code(s) for Scope

FIRMS CONTACTED	NOTES / OUTCOME	DBE (Y/N)	SBE (Y/N)	NON DBE/SBE (Y/N)	SELECTED (Y/N)

THIS FORM SHALL NOT RELEASE CONSULTANT FROM PROVIDING DETAILED DOCUMENTATION OF OUTREACH EFFORTS AS SPECIFIED IN SECTION XX (C) OF THIS CONTRACT

1. **CONSULTANT SHALL COMPLETE THIS FORM TO SUMMARIZE THEIR OUTREACH EFFORTS FOR EACH SCOPE OF WORK OPPORTUNITY IDENTIFIED TO SUBCONTRACT. MAKE COPIES OF THIS FORM AS NECESSARY. EXPAND TEXT BOXES OR ATTACH INFORMATION AS NEEDED.**

2. **CONSULTANT MUST RETAIN ALL DETAILED OUTREACH EFFORTS DOCUMENTATION FOR A PERIOD OF 1 YEAR FROM FINAL ACCEPTANCE BY PMGAA.**

Consultant Hereby affirms that the above information, as well as the detailed documentation submitted regarding Consultant's outreach efforts, is true and complete to the best of Consultant's knowledge.

Further, Consultant hereby affirms that Consultant will enter into a formal agreement with the identified selected subcontractors/subconsultants/suppliers listed herein conditioned upon the execution of an Authorization of Services for the project with the Phoenix-Mesa Gateway Airport Authority.

Signed By: _____ Date: _____

Title: _____ Print Name: _____

EXHIBIT G – LETTER OF INTENT TO PERFORM AS A SUBCONSULTANT

Submit: With each cost proposal for any Subconsultant/Subcontractor to perform work
Completed By: Each Subconsultant/Subcontractor (regardless of DBE status) to perform work

PROJECT DESCRIPTION: _____ **Solicitation No.**: _____

TO: _____ (Insert name of prime consultant)

1. The undersigned is prepared and licensed in Arizona to perform the following scope(s) of work on the above referenced project:

Scope of Work Description	NAICS Code(s) for Scope of Work to be Performed	Total Minimum Contract Amount
		$

2. The undersigned will sublet and/or award $_____ of the above Total Minimum Contract Amount to a non-DBE/SBE firm

3. The undersigned will sublet and/or award $ _____ of the above Total Minimum Contract Amount to a certified ☐ DBE and/or ☐ SBE firm

   DBE/SBE Firm Name(s): _____
   (Use of DBEs on sub-tier contracts must be reported to Owner)

IF THE SUBCONSULTANT/SUBCONTRACTOR IS A DBE OR SBE, COMPLETE A THROUGH C:

A. The undersigned is certified as a (check all that apply):

   ☐ Disadvantaged Business Enterprise
   ☐ Small Business Enterprise

B. Certifying Agency: _____

C. The undersigned is certified by the Arizona UPC (or other DOT-approved UPC) to perform work for the following North American Industry Classification System (NAICS) codes:

   _____

On the _____ day of _____, 20___, by signature below, the undersigned agrees to enter into a formal agreement/subcontract for the work cited herein should _____ receive award of this project from the Phoenix-Mesa Gateway Airport Authority.

_____ _____
(Print Firm Name) (Phone Number)

_____ _____
(Authorized Signature) (Print Name and Title)

IF THE CONSULTANT DOES NOT RECEIVE AWARD OF PROJECT, ANY AND ALL REPRESENTATIONS IN THIS LETTER OF INTENT AND AFFIRMATION SHALL BE NULL AND VOID.

EXHIBIT H –DISADVANTAGED BUSINESS ENTERPRISE'S CERTIFICATION STATEMENT

Submit: With each cost proposal for any DBE Subconsultant/Subcontractor selected to perform work if the selected DBE is NOT certified by the Arizona Unified Certification Program

Completed By: Each DBE Subconsultant/Subcontractor selected to perform work who is NOT certified by the Arizona Unified Certification Program (UCP)

The undersigned herein affirms that the firm submitting this statement has qualified as a Disadvantaged Business Enterprise and holds a current DBE certification from a U.S. Department of Transportation (USDOT) recognized certifying agency as follows:

DBE Certifying Agency: _____ Phone # _____

Expiration Date of Current DBE Certification: _____, 20_____

DBE Business Name: _____

DBE Principal Business Address: _____

City: _____ State: _____ Zip: _____

Phone #: (_____) _____

DBE Qualifying Owner Name: _____

Title: _____

Licenses Held by DBE Firm: _____

Issued By: _____

Services/Work/Products Provided: _____

EXHIBIT L – CERTIFICATION OF PROMPT PAYMENT TO SUBCONSULTANTS

Submit: **For each payment made to a Subcontractor or lower tier Subcontractor**
Completed By: **Prime Consultant and Subconsultant OR Subconsultant and Lower Tier Subconsultant**

PRIME Consultant or Subconsultant: _____ PAY REQUEST/INVOICE NO.: _____

PRIME Consultant OR Subconsultant AFFIDAVIT:
The undersigned, having contracted as the prime Consultant or Subconsultant on Project # _____, hereby certifies that a payment has been made to the Subconsultant cited below. The total value of this payment made to the Subconsultant for materials and/or work performed on this project contract is as follows:

Subconsultant: _____ Total Amount Paid: $_____Date Sent _____

This certification is made under Federal and State laws concerning false statement. Supporting documentation for this payment is subject to audit and should be retained for a minimum of three (3) years following final completion of the contract. In the event the Subconsultant was not paid in accordance with affidavits submitted by the Prime Consultant or Subconsultant, all documentation supporting the payee's position should be submitted.

I DECLARE UNDER PENALTY OF PERJURY IN THE SECOND DEGREE, AND ANY OTHER APPLICABLE STATE OR FEDERAL LAW, THE STATEMENTS MADE ON THIS DOCUMENT ARE TRUE AND COMPLETE TO THE BEST OF MY KNOWLEDGE.

By: _____
Authorized Agent for Prime Consultant or Subconsultant (Print Name and Title)

Date: _____

SUBCONSULTANT AFFIDAVIT:
The undersigned Subconsultant hereby certifies that a contract was entered into with the above named prime Consultant or Subconsultant to perform work or provide materials on the project cited in this document. I further certify that the total amount of this payment received as provided herein by the Prime Consultant or Subconsultant is accurate and unchallenged.

Total Amount Received: $_____ Date Received _____

I DECLARE UNDER PENALTY OF PERJURY IN THE SECOND DEGREE, AND ANY OTHER APPLICABLE STATE OR FEDERAL LAWS, THE STATEMENTS MADE ON THIS DOCUMENT ARE TRUE AND COMPLETE TO THE BEST OF MY KNOWLEDGE.

By: _____
Authorized Agent for Subconsultant (Print Name and Title)

Date: _____

OVER FOR INSTRUCTIONS

PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
CERTIFICATION OF PROMPT PAYMENT TO SUBCONTRACTORS

INSTRUCTIONS

Prime Consultant or Subconsultant will prepare a form for each c being paid from each Airport payment for services when the Subconsultant is being paid. The amount paid to each Subconsultant should match the amount earned less any retention held on a pay application as shown on Attachment D.

The date documented by the Prime Consultant or Subconsultant must be the date a check is issued or that an Electronic Fund Transfer is completed as payment to the Subconsultant. This must be in conformance with State and Federal prompt payment regulations per the contract.

The authorized Prime Consultant or Subconsultant must sign and certify the accuracy of the information on Attachment E and send it to the Subconsultant.

The Subconsultant must document the amount of payment received and the date payment from the Prime Consultant or Subconsultant was received. The authorized Subconsultant representative must sign and certify accuracy of the information.

The Subconsultant must email a scan of the record to the Airport within five (5) days of receipt of the Prime Consultant or Subconsultant payment. Airport contact information is as follows:

PromptPayment@gatewayairport.com

The Subconsultant should also copy the Prime Consultant or Subconsultant on the record.

The Prime Consultant and Subconsultant must retain the payment records and evidence of compliance for three years following completion of the contract.

FOR QUESTIONS ON COMPLETING THIS FORM, PLEASE CONTACT THE PHOENIX-MESA GATEWAY AIRPORT AUTHORITY AT (480) 988-7628.

Subconsultants may file complaints on alleged violations of the Prompt Payment standards by contacting the Airport Project Manager or Airport Staff at the number noted above.

EXHIBIT M – CERTIFICATION OF PAYMENT TO LOWER TIER

Submit: When a Subconsultant sublets and pays a firm/individual for a portion of work performed under their contract

Re: On-call Cultural & Archaeological Services / RFQ No. 2022-013-RFQ

Dear Ms. Whilden,

SWCA, Incorporated, dba SWCA Environmental Consultants (SWCA), appreciates the opportunity to provide our statement of qualifications to provide on-call cultural and archaeological services to Phoenix-Mesa Gateway Airport Authority (PMGAA). SWCA's nearly 30-year history of providing cultural and archaeological services at the Phoenix-Mesa Gateway Airport (Airport) makes us uniquely qualified to support PMGAA in its cultural resources preservation responsibilities, handed down as a result of its past history as Williams Air Force Base, and in the environmental review process associated with airport project and planning activities subject to review and approval by the Federal Aviation Administration. SWCA's team of cultural resources professionals has a long history of working at the Airport. We are familiar with the resources, both archaeological and architectural, and we understand PMGAA's goal to be the airport of choice for Phoenix-area air travelers and commercial and industrial businesses.

We have more than 1,200 employees in 39 offices and are 100% employee owned. Having been in business in Arizona for more than 40 years and having provided environmental services at airports across Arizona for more than two decades, SWCA offers a team of qualified cultural resources specialists familiar with the needs of our aviation clients.

SWCA is an Arizona corporation. Our headquarters are located at 20 East Thomas Road, Suite 1700, Phoenix, Arizona 85012. Our phone number is 602-274-3831. We are excited about the opportunity to continue our work at the airport and look forward to working with your staff.

Sincerely,

Don Kelly | Director | donald.kelly@swca.com

Jerome Hesse | Contract Manager | jhesse@swca.com

2. ARIZONA BUSINESS/GOOD STANDING EVIDENCE

Please see Tab H for a copy of SWCA's certificate of good standing.

TAB C: RELEVANT FIRM EXPERIENCE

1. SERVICE CAPABILITY

FIRM OVERVIEW

Founded in 1981 in Flagstaff, SWCA Environmental Consultants (SWCA) has more than 1,200 employees in 39 offices and is 100% employee owned. SWCA has been in business in Arizona for nearly 40 years and has provided environmental services at airports across Arizona for more than two decades. SWCA's team of qualified cultural resource professionals has provided environmental support on aviation projects by working with airports and alongside aviation engineers on airport safety, improvements, and development projects, such as runway extensions, master planning, facilities development, and land acquisition projects.

Figure 1: Arizona Airport Project Experience

SWCA is familiar with the Phoenix-Mesa Gateway Airport Authority (PMGAA) and has worked on more than 40 projects at the Phoenix-Mesa Gateway Airport (Airport) dating back to the mid-1990s.

In addition to archaeological, historic preservation, and cultural resource studies, we offer the following services:

- Wildlife Hazard Assessments, Wildlife Hazard Management Plans, and wildlife hazard training
- Biological resources studies, including species-specific surveys
- Air quality conformity and analysis
- Clean Water Act reviews and permitting
- Environmental/National Environmental Policy Act (NEPA) planning
- Phase I Environmental Due Diligence Audits
- Sustainability planning

CULTURAL RESOURCES

Our proven track record of conducting cultural resources projects in Arizona for the past 33 years shows our ability to provide on-call cultural resources services. SWCA's Cultural Resources specialists provides a full suite of in-house archaeological and architectural historian services in Arizona.

Since 1988, SWCA's Arizona Cultural Resources Program has completed more than **2,000** cultural resources projects for public and private clients.

We have an unblemished record of securing and maintaining cultural resources permits under all regulatory jurisdictions in Arizona. We have the ability and qualifications to obtain all needed permits to work on state, municipal, and federal lands. We maintain business licenses and excellent professional relationships with Native American communities within Arizona and can obtain permits, right-of-entry, and permission to conduct field projects across tribal lands in the state. **SWCA's work at the Airport dates to the mid-1990s closure of Williams Air Force Base. Starting in 2002, we began to provide on on-call archaeological consulting services to Williams Gateway Airport, as it was then called, and have provided services nearly annually for two decades. Our Cultural Resources Team is familiar with PMGAA staff, policies, and procedures.**

Over the past 5 years, we have averaged about 70 surveys per year in Arizona. During surveys, SWCA's archaeologists conduct in-field analysis of ceramic, flaked stone, ground stone, and historic-era artifacts, documenting the attributes that help to address questions regarding cultural affiliation, chronology, and site function. Our staff is skilled at identifying cultural resources, evaluating their significance and integrity through application of the National Register of Historic Places (NRHP) criteria and context development, and assessing the potential effects that an undertaking may have on the resources.

SWCA has also conducted several significant archaeological excavation projects in Arizona in recent years. SWCA's Sunset Road project in Tucson involved a massive subsurface investigation that resulted in the high-profile discovery of the oldest known human footprints in the desert Southwest. SWCA has conducted excavations at the prehistoric Massera Ruin and Southwest Germann Site, which uncovered a very large ancient Hohokam village site nearby in Queen Creek. Recently, SWCA has concluded field excavations of Locus 2 of the Will E. Coyote site within the Airport. The excavation uncovered Hohokam pit houses and thermal features.

Our specialized services and analyses include human remains osteological excavation and analyses; analysis of ceramic, flaked stone, ground stone, faunal bone, and shell artifacts; geomorphological studies; microinvertebrate identification of canal sediments; charred plant species identification from flotation analyses; identification and comparative studies of palynological assemblages; and radiocarbon dating of charred remains.

Over the past 5 years, SWCA has conducted more than 50 cultural resources construction monitoring projects throughout Arizona, including at least three for the PMGAA. Our monitors are skilled at identifying cultural resources and are accustomed to working safely on active construction sites. SWCA recently completed the archaeological monitoring fieldwork for a City of Phoenix Street Transportation Department water main replacement project within the archaeological site known as Grand Canal Ruin, which documented 17 features, including Hohokam canals, roasting/cooking pits, and a pit house.

SWCA is an industry leader in architectural history, and architecture routinely forms a part of SWCA cultural resources projects. Our staff have participated in policy workshops on the documentation and assessment of in-use linear historic properties and understand the methods of evaluating contributing elements within properly established historic contexts. SWCA's Historic American Engineering Record (HAER) documentation of Fossil Creek hydroelectric plant and of the Transcanyon Water Pipeline across the Grand Canyon was awarded the Arizona Governor's Preservation Award in 2006 and 2016, respectively.

Federal agencies and local governments that have assumed National Historic Preservation Act (NHPA) Section 106 responsibilities must consider the effects of their actions on cultural resources listed in or eligible for listing in the NRHP. SWCA plays a critical role in Section 106 review by conducting surveys, evaluating the significance of cultural resources for the NRHP, and assessing project effects on NRHP-listed or NRHP-eligible properties. SWCA also assists by facilitating consultation with tribes, the State Historic Preservation Office (SHPO), and other consulting parties, preparing Historic Properties Treatment Plans (HPTPs), preparing Memoranda of Agreement (MOAs)/Programmatic Agreements (PAs), conducting ethnographic research and interviews, and assisting in the identification and evaluation of Traditional Cultural Properties (TCPs). SWCA regularly assists agencies with other documentation, reporting, and planning items, such as project summaries for Advisory Council on Historic Preservation (ACHP) consultation letters, Historic American Buildings Survey (HABS)/HAER documentation, cultural resources impact analysis for NEPA documents, documentation of tribal consultation meetings or on-site project tours, PowerPoint presentations for consultation meetings, and construction crew training materials.

SWCA'S CULTURAL RESOURCES SERVICES:

- Archival research
- Archaeological survey and site documentation
- HABS
- HAER
- Historic context development
- NRHP/ARHP eligibility evaluations
- Assessment of direct and indirect effects
- Historic Property Treatment Plans
- Testing and data recovery excavations
- Construction monitoring; cultural sensitivity training
- NHPA Section 106 consultation assistance
- MOA/PA preparation
- Ethnographic and oral history interviews
- TCP documentation
- National Register nomination forms
- Cultural landscape studies; subsistence and land use systems modeling
- Cultural resource predictive and sensitivity modeling
- Effective coordination with the City of Phoenix Archaeology Office and the Pueblo Grande Museum (PGM)

2. COMPARABLE PROJECTS

SWCA has conducted approximately 250 projects at airports across Arizona (see Figure 1), most of which included some form of cultural resources assessment. Many of these projects are contracted through airport planning firms; however, we routinely conduct work at the larger airports through existing on-call agreements, such as our on-call environmental services agreements with Tucson Airport Authority (Tucson International Airport and Ryan Air Field) and the City of Phoenix (Sky Harbor International Airport). Most commonly, our cultural resources work entails archaeological survey and historic buildings inventories to support Federal Aviation Administration (FAA) in its NHPA Section 106 review responsibilities, although construction monitoring and data recovery excavations take place as needed. Below, we provide descriptions of projects comparable to those that we would conduct under an on-call agreement with PMGAA; in fact, several of these projects were conducted at the Airport.

DATA RECOVERY WITHIN LOCUS 2 OF AZ U:10:69(ASM)

SWCA is under contract (prime) to complete a data recovery excavation within Locus 2 of AZ U:10:69(ASM) on lands managed by the PMGAA in Mesa, Maricopa County, Arizona. The PMGAA seeks to develop a portion of the airport that would impact Locus 2. In 1997, test excavations identified subsurface prehistoric features within Locus 2. To comply with the Arizona Antiquities Act (AAA) and the State Historic Preservation Act (SHPA), SWCA prepared an HPTP that was accepted with minimal revisions. SWCA archaeologists then completed the PMGAA badging process and commenced with the data recovery to investigate and excavate the previously identified prehistoric features. The archaeological excavation project is anticipated to be completed on schedule and within budget.

PROJECT OWNER

PROJECT LOCATION
Mesa, Arizona

CONTRACT VALUE
$142,506

CONTRACT DATES
September 2021–Present

MONITORING WITHIN AZ U:10:69(ASM)

SWCA is under contract (prime) to complete archaeological monitoring of soil borings within AZ U:10:69(ASM) on lands managed by the PMGAA in Mesa, Maricopa County, Arizona. The PMGAA seeks to design and reconstruct a portion of Runway 12C/30C that would impact a portion of the site. To comply with the AAA and the SHPA, SWCA prepared a Monitoring and Discovery Plan that was accepted with minimal revisions. An SWCA archaeologist then monitored the soil borings, with no findings observed. A report on the monitoring was submitted with minimal revisions. Project materials are currently in the process of being prepared for curation with the Arizona State Museum (ASM). The monitoring project is anticipated to be completed on schedule and within budget.

PROJECT OWNER
PMGAA

PROJECT LOCATION
Mesa, Arizona

CONTRACT VALUE
$9,723

CONTRACT DATES
October 2021–Present

SKYBRIDGE ARIZONA BUSINESS PARK

SWCA, under subcontract to Coffman Associates, conducted a cultural resources inventory for the approximately 353-acre SkyBridge Arizona Business Park at the Airport. The project was a federal undertaking subject to review and approval by the FAA. SWCA's work entailed a cultural resources review and in-field documentation of historic-era buildings and structures. In total, the inventory identified 12 cultural properties within the project's area of potential effects, including two archaeological sites, seven historic buildings, and three historic structures, all of which were either previously determined ineligible for listing in the NRHP or were determined ineligible for listing in the NRHP. The FAA concluded that the project would result in No Historic Properties Affected, and the SHPO concurred. This project was completed on schedule and within budget.

PROJECT OWNER
PMGAA

PROJECT LOCATION
Mesa, Arizona

CONTRACT VALUE
$8,845

CONTRACT DATES
August–October 2021

PINAL AIRPARK ENVIORNMENTAL SERVICES

SWCA, under subcontract to Dibble Engineering, conducted an archaeological survey and historic buildings inventory of the approximately 1,600-acre Pinal Airpark, owned by Pinal County. The cultural resources work was conducted to support FAA review and approval of two projects, including runway improvements and the development of an engine testing facility, as well to project information important in the planning of future projects. The archaeological survey resulted in the identification of three Native American sites and one historic-era site associated with the former Marana Army Air Field. The historic buildings inventory identified 68 architectural resources, including one historic district consisting of the Marana Air Base Cadet Barracks, dating to 1951–1952. All but one of the original 32 barracks still exist. Two historic-era hangars and the World War II–era flight control tower were also determined to be eligible for listing in the NRHP. SWCA's work was critical in assisting the FAA in determining that the two projects would result in No Historic Properties Affected, for which the SHPO concurred. SWCA's work also helped to show Pinal Airpark's historical importance and will prove useful in the development of future projects at the airport.

CONTRACT VALUE
$96,203

CONTRACT DATES
December 2018–May 2019

3. ATTACHMENT J: PROJECT REFERENCE QUESTIONNAIRE

SWCA has sent Attachment J: Project Reference Questionnaires to our references. We have confirmed that our references have received them and returned them to PMGAA.

4. PROJECT ISSUES/SCHEDULE MANAGEMENT

At SWCA, we pride ourselves on being adaptive and flexible and serving as an extension of the PMGAA's staff. To achieve that, we recognize that clear, effective communication is key to the project success. Our communication style is direct and to the point, with clear protocols in place about how, when, and with whom we communicate. SWCA Project Manager (PM) Andrew Vorsanger will be the primary point of contact and will coordinate directly with the PMGAA. He will be supported by the rest of the project team and our Project Controls Program.

SWCA's dedicated Project Controls Specialist oversees all budgetary and financial aspects of the project, enabling management to maintain their focus on the technical aspects of the project and producing high-quality deliverables. SWCA has used this method with great success on similar projects to identify potential project issues early and communicate those issues, with solutions, to the client. Please See Tab E, Sections 3 and 4, for details on SWCA's planning, budgeting, and scheduling approach.

The goal is to respond to potential project changes quickly, efficiently, and in a proactive manner by laying out a plan, presenting solutions to address changes, and outlining the pros and cons of making a change. Our approach is to ensure that PMGAA is notified as early as possible of potential issues, so they can keep the project moving forward while having as much time as possible to consider any cost and schedule implications.

5. CAPABILITY AND INTENT TO PROCEED

SWCA has a long history of providing the on-call archaeological consulting services to agencies at various levels. Staff availability and responsiveness are critical elements to consider when managing and delivering work on schedule. Upon receipt of a task order, Mr. Vorsanger will ensure, through looking at forecasts, that SWCA can fully support this contract through its lifespan. If key personnel become unavailable through uncontrollable circumstances, SWCA has a deep bench from which to draw to ensure that we will meet critical milestones and stay on schedule. Our local Phoenix presence, supported by offices in Tucson and Flagstaff, as well as additional offices nationwide, ensures we can handle any volume of work while offering area-specific resource expertise and the ability to respond quickly to requests. SWCA is unique in our ability to ensure timely completion of projects because of our number of experienced professionals. As a result of recent work at the airport, SWCA has several cultural resources team members who have been badged for security clearance to work at the Airport.

6. EXPERIENCE WITH REGULATIONS, POLICIES, AND PROCEDURES

SWCA's key personnel routinely assist federal and state agencies in compliance with various cultural resource laws, regulations, and policies. Federal work requires compliance with Section 106 of the NHPA of 1966, as amended (54 United States Code 306108), and its implementation through 36 Code of Federal Regulations Part 800. In Arizona, the ASM administers the AAA (Arizona Revised Statutes [ARS] 41-841 *et seq.)*, which preserves archaeological and historical resources on State, County, or municipal land, and grants permits to conduct such archaeological investigations to qualified organizations. The SHPO administers the SHPA (ARS 41-861 *et seq.*), which mirrors the NHPA and requires State agencies to consider the effects of their actions on historic properties.

SWCA is familiar with the various federal, state, and tribal requirements for cultural resources documents and has a long record of providing quality deliverables for review, such as the preparation of cultural resources consultation documents, MOAs, PAs, ethnographic research and interviews, and TCP identification and evaluation. SWCA ensures all reports, plans, and other documents reflect the dynamic process of recording, evaluating, and mitigating adverse effects on historic properties.

In working closely with Part 139 certified airports across the West, SWCA is familiar with the certification process and the regulations behind it. SWCA's aviation team works to stay informed of the most recent FAA regulations and Advisory Circulars (ACs) when preparing cultural resources reports to ensure that the work is done in accordance with FAA standards.

In particular, the PMGAA is a party to the 1995 PA between the U.S. Air Force (USAF), SHPO, ACHP, and other concurring parties. In accordance with the PA, an umbrella treatment plan for the protection, preservation, and investigation of the historic properties on the former Williams Air Force Base (currently the Phoenix-Mesa Gateway Airport) was prepared by SWCA and Ryden Architects (1995). On December 16, 1997, the former Williams Gateway Airport Authority (now the PMGAA) and the SHPO entered into an intergovernmental agreement (IGA) for purposes of the implementation of the PA, treatment plan, burial agreement, and state preservation statutes upon transfer of the land. The IGA also specified procedures for routine maintenance activities that might affect historic properties. This agreement was updated in 2017 to reflect the current status of historic properties at the airport. PMGAA is currently responsible for compliance with the PA and the IGA.

SWCA has an unblemished record of securing and maintaining cultural resources permits under all regulatory jurisdictions in Arizona. Our cultural resources staff have extensive credentials, giving us the ability and qualifications to obtain all needed permits to work on state and federal land. We maintain institutional access to the AZSITE database, and our offices in Phoenix, Tucson, and Flagstaff are conveniently located close to the ASM Archaeological Records Office, the SHPO, and other federal agency offices that may require in-person records searches.

ARIZONA ANTIQUITIES ACT PERMIT

SWCA's Cultural Resources specialists maintain the necessary permits and permissions to conduct archaeological investigations on municipal lands, and can easily acquire project-specific permits, permissions, and agreements as required. SWCA maintains an AAA blanket permit for archaeological surveys on State, County, or municipal land, issued by the ASM. Our current permit number is 2022-033bl, which expires on December 31, 2022. The permit lists seven individuals as principal investigators and 12 individuals as project directors. No permits are required for investigation of non-archaeological cultural resources, such as standing buildings and structures.

TAB D: PROJECT TEAM EXPERIENCE AND QUALIFICATIONS

1. PROJECT TEAM QUALIFICATIONS

We have assembled a highly qualified team that has the necessary knowledge to provide archaeology and historic preservation services accurately and efficiently. Our local presence, supported by a nationwide team, ensures we can handle any volume of work while offering area-specific resource expertise and the ability to respond quickly to requests. We are committed to maintaining the same team proposed here for the life of the contract, to the extent practicable.

Our team's qualifications are briefly described below. Full resumes with applicable professional certifications, coursework, and training information for each key personnel member are in Tab H.

JEROME HESSE, M.S. | CONTRACT MANAGER

EDUCATION
M.S., Geology
B.S., Geology

YEARS OF EXPERIENCE
25 years

Mr. Hesse is the cultural resources program lead for SWCA's Arizona offices, with over 25 years of professional experience. He has designed and managed projects of varying size and degrees of complexity in Arizona, New Mexico, California, Texas, North Dakota, and Kansas, managing more than 500 projects in Arizona alone. Mr. Hesse meets the *Secretary of the Interior's Professional Qualification Standards for Archaeology* and is an ASM-permitted Principal Investigator. He has directed field projects, conducted geoarchaeological studies, facilitated tribal consultation, and analyzed flaked and ground stone artifact assemblages. Mr. Hesse routinely prepares and reviews cultural resources inventory reports, treatment plans, and mitigation reports, and has assisted in the preparation of NEPA documents, consultation letters, and MOA. He is well versed in NHPA Section 106 compliance and its state- and local-level equivalents. Mr. Hesse will be responsible for overall contract administration, will track task orders, and will be the point of contact for PMGAA for issuance of task orders and notices to proceed. Mr. Hesse has been SWCA's primary point of contact for cultural resources services provided to PMGAA for the past 10 years.

ANDREW VORSANGER, M.A. | PROJECT MANAGER

EDUCATION
M.A., Anthropology
B.A., Anthropology

YEARS OF EXPERIENCE
8 years

Mr. Vorsanger is the cultural resources team lead for SWCA's Phoenix office, with over 8 years of professional experience. He has served as PM and Field Director for over 100 cultural resource projects throughout the Southwest, including Arizona, California, Nevada, New Mexico, and Utah. Mr. Vorsanger meets the *Secretary of the Interior's Professional Qualification Standards for Archaeology* and is an ASM-permitted project director. Mr. Vorsanger is familiar with a variety of cultural resources projects (survey, testing, monitoring, and data recovery) requiring compliance under Section 106/110 of the NHPA, applicable state and local antiquity and preservation laws, and regulations pertaining to cultural resources under the NEPA. Mr. Vorsanger currently serves as a board member of the Arizona Archaeological Council, a non-profit organization run by professional archaeologists. He will be responsible for managing the individual task orders, including invoicing and budgets, and will be responsible for managing the technical work completed for each task.

ADRIENNE TREMBLAY, PH.D. | PRINCIPAL INVESTIGATOR

EDUCATION
Ph.D., Anthropology
M.A., Anthropology
B.A., Anthropology

YEARS OF EXPERIENCE
16 years

Dr. Tremblay is a cultural resources Principal Investigator and PM in SWCA's Phoenix office, with over 16 years of professional experience. Dr. Tremblay meets and exceeds the *Secretary of the Interior's Professional Qualification Standards* for prehistoric and historic archaeologists and is an ASM-permitted Principal Investigator. She has managed survey, testing, and data recovery projects for both prehistoric and historic sites throughout Arizona on lands administered by various government agencies, including the U.S. Forest Service (Forest Service), Bureau of Land Management (BLM), Department of Defense (DOD), and Arizona State Land Department (ASLD). She has managed multiple monitoring projects for PMGAA, and she took the lead on assembling the needed archival materials for delisting several archaeological sites at PMGAA. She is experienced with Section 106 regulations and NRHP evaluations. Dr. Tremblay will be responsible for developing research designs, overseeing implementation and completion of projects, providing guidance and mentoring to junior staff, and providing critical review of deliverables as part of our quality assurance/quality control (QA/QC) program.

ANNIE LUTES, M.A., M.S. | ARCHITECTURAL HISTORIAN

EDUCATION
M.S., Geography
M.A., Near Eastern Studies
B.A., Classical Studies

YEARS OF EXPERIENCE
15 years

Ms. Lutes is an archaeologist, architectural historian, and PM in SWCA's Flagstaff office, with 15 years of professional experience. Ms. Lutes meets the *Secretary of the Interior's Professional Qualification Standards* for *Architectural History* and *History* and is an ASM-permitted project director. She has conducted archaeological surveys and data recovery, federal site inventory and testing, and private consulting compliance work in the southwestern United States. Ms. Lutes serves as the primary staff archaeologist and historian in SWCA's Flagstaff office, where she provides her expertise locally and statewide, and assists staff in other SWCA offices throughout the Southwest. During her career, she has prepared and contributed to reports for survey, testing, data recovery, monitoring, condition/damage assessments, and historic preservation projects, including many reviewed by the SHPO. Ms. Lutes has conducted historic building inventories at multiple airports across Arizona, including Pinal Airpark, Kingman Airport, and the Bisbee-Douglas Airport, all of which, like the Phoenix-Mesa Gateway Airport, have buildings dating back to their original use as U.S. Army Airfields. Through her job duties, Ms. Lutes conducts extensive archival research and data collection using scientific and academic research that provides her with a strong yet dynamic framework upon which to base her analyses. Her skills base includes a firm understanding of analysis methods for prehistoric and historical cultural material in order to assess the significance of these resources. Ms. Lutes also has conducted several historical building studies for both residential and commercial buildings that have regularly included architectural integrity assessments and historical significance in the application of the evaluation for inclusion in the Arizona Register of Historic Places (ARHP) and the NRHP. Ms. Lutes will be responsible for conducting archival research and development of historic contexts, the evaluation and documentation of historic districts, buildings, and structures, conducting historic property surveys, preparing National Register Nomination, Historic Property Inventory, and Multiple Property Documentation Forms, collecting oral histories, conducting historic property interpretation, and assisting in the development of historic preservation design guidelines.

CHRISTOPHER WHITING, B.A. | FIELD DIRECTOR

Mr. Whiting is an Assistant Project Archaeologist/Field Director in SWCA's Phoenix office, with over 15 years of professional experience. He has conducted archaeological survey, monitoring, excavation, and report writing for projects throughout Arizona. He has extensive experience with the Gila River Indian Community Cultural Resource Management Program (GRIC-CRMP) based out of Sacaton, Arizona. As Field Director, Mr. Whiting will assist the PM and Principal Investigator by directly supervising crew chiefs.

EDUCATION
B.A., Anthropology

YEARS OF EXPERIENCE
15 years

2. ORGANIZATIONAL CHART

We have assembled a team that has the knowledge to provide archaeology and historic preservation services accurately and efficiently. We combine scientific expertise with in-depth knowledge of permitting and compliance protocols to achieve technically sound, cost-effective solutions. Our local presence, supported by a nationwide team, ensures that we can handle any volume of work while offering area-specific resource expertise and the ability to respond quickly to requests.

3. TEAM EXPERIENCE

SWCA has a team of qualified professionals with extensive experience of working together throughout Arizona, who will provide PMGAA with cultural services of the highest quality, based on scientifically sound principles. Our key personnel, led by Program Lead and Contract Manager Jerome Hesse, have a combined 48 years of working at SWCA. The team has worked closely together on hundreds of projects, from small surveys for utilities improvements to large testing and data recovery excavations for major roadway projects, including multiple projects for the PMGAA. Andrew Vorsanger and Christopher Whiting are newer additions to SWCA and the Phoenix office, having been hired in 2021, but have a history of working together on archaeological excavations since 2008.

Our team, although spread out across three offices within Arizona, have dedicated, permanent, local staff who have worked together worked to provide similar archaeological and historic preservation services to many federal, state, municipal, and private clients. These clients have included the Arizona Department of Transportation (ADOT), ASLD, Arizona Game and Fish Department, BLM, DOD, Forest Service, U.S. Army Corps of Engineers, and U.S. Fish and Wildlife Service, as well as many local municipalities like Maricopa County, Pima County, Pinal County, the City of Phoenix, City of Mesa, and the City of Maricopa.

4. SUBCONSULTANTS

SWCA will not need additional project support and will complete all tasks from the scope of work in house unless it is a federal requirement to have DBE participation.

TAB E: PROJECT UNDERSTANDING AND APPROACH

1. PROPOSED METHODOLOGY

A. PMGAA MEETINGS

A key element of a project's success is holding effective kick-off meetings using Microsoft Teams, Zoom, or similar platforms. Mr. Vorsanger will coordinate with PMGAA staff within 24 hours of any requests or task orders to determine topics to be covered at the initial kick-off meeting, including identifying team members from PMGAA and SWCA and reviewing roles and responsibilities; establishing the frequency and cadence for project check-in meetings; establishing schedule milestones; identifying short-term action items; discussing the protocol for submittals, review periods, and approval of deliverables; and establishing a process for information flow. If necessary, SWCA will develop a communication plan, a single-referenced document that will provide SWCA and PGMAA with centralized project information.

B. HIGH CULTURAL SENSITIVITY AREAS

SWCA has conducted extensive archival background research of the Phoenix-Mesa Gateway Airport for previously conducted archaeological and historical projects conducted at the Airport. This research has included obtaining copies of previous archaeological survey and testing projects that have occurred within the Airport. SWCA acknowledges that much of the Airport has already been surveyed. In addition, many of the identified archaeological sites that have been classified as historic properties have undergone Phase I test excavations. For areas that have not been previously tested, SWCA will compare the results of these past projects with what is known of the natural landscape and geomorphology in the airport. Together, these lines of data can identify areas of "high cultural sensitivity," such as higher density concentrations of artifacts, that cannot be explained through natural processes. Depending on the findings, SWCA will provide options to PMGAA for how to proceed in these areas.

C. ARCHAEOLOGICAL MONITORING

SWCA frequently provides archaeological monitors to ensure that cultural resources are avoided during field activities or to observe ground-disturbing activity near or within a known archaeological sites in lieu of subsurface testing. In general, monitoring would be undertaken in accordance with an approved monitoring and discovery plan. Before conducting archaeological monitoring within a known archaeological site, SWCA will acquire a project-specific AAA permit and repository agreement from the ASM. If subsurface archaeological phenomena are identified, work must cease in the area to allow the monitor to assess the discovery. If the cultural resource is deemed significant, the monitor will notify the SWCA PM, who will in turn notify the PMGAA PM. The monitor will document the feature with a GPS device, photography, profiling (if possible), and a written description. If further disturbance to the feature is anticipated, agency consultation will determine the appropriate treatment.

In the past 5 years, SWCA has conducted more than 50 cultural resources construction monitoring projects throughout Arizona, including at least three for the PMGAA. Our monitors are skilled at identifying cultural resources and are accustomed to working safely on active construction sites. Note that to ensure that no cultural resources go unnoticed during construction work, the minimum staff level SWCA will assign to a solo monitoring project is a Crew Chief with demonstrated field excavation experience. SWCA strictly adheres to Occupational Safety and Health Administration (OSHA) requirements.

D. EXAMINING EXCAVATED MATERIAL AND TRENCHES

SWCA staff are available on short notice to evaluate and assess potential archaeological finds encountered during construction work performed by the PMGAA. We understand that such situations are emergencies, and we can commit to providing a qualified archaeologist as soon as possible but within 3 to 4 hours of a request on a normal business day, provided that a binding advanced notice to proceed or similar contract is in place. SWCA's 24-hour contact can be contacted at any time outside normal business hours.

The SWCA archaeologist would inspect the excavated soil for evidence of archaeological features and artifacts. If it is safe to do so, the archaeologist will also enter the trench or excavated area to examine the sidewalls for evidence of archaeological features and artifacts. Note that SWCA strictly adheres to OSHA requirements, and the archaeologist will not enter an unsafe excavation without appropriate shoring and egress provided by the contractor.

If archaeological material is identified, the SWCA archaeologist will notify the SWCA PM, who will in turn notify the PMGAA PM. If the find meets the definition of an archaeological site, as defined and published by the ASM, the area would be secured, and the ASM would be contacted to obtain an emergency AAA project-specific permit before proceeding. If the find does not rise to the definition of an archaeological site, it will be documented with a GPS device, photography, profiling (if possible), and a written description. If further disturbance is anticipated, consultation with the PMGAA and any other appropriate agencies will be initiated to determine whether further archaeological or other treatments are warranted. In the event that the discovery involves human remains, the archaeologist would immediately secure the remains and contact the ASM Burial Coordinator.

E. ARCHAEOLOGICAL TESTING, EVALUATION, AND DATA RECOVERY

Archaeological excavations include subsurface testing, aimed at the identification of deposits and/or an assessment of their significance, as well as data recovery investigations aimed at collection of artifacts, samples, and documentation of subsurface remains in mitigation of an adverse effect. Excavations could be conducted using hand techniques or by using excavators to trench or strip away sediment. Generally, excavations would follow the methods and research goals outlined in a treatment plan approved by the ASM and SHPO.

SWCA excavation projects commonly lead to the recovery of additional materials and samples, such as faunal bone, marine shell, and flotation, pollen, and sediment particle–size samples. All artifacts and samples are assigned unique tracking numbers and are entered into a database, where processing activities (washing and labeling) are tracked.

We are keenly aware that archaeological excavations in the greater Phoenix area are likely to encounter human remains during excavation, and any work within an archaeological site would involve obtaining a burial agreement with the ASM prior to ground disturbance. Our crews are trained to identify calcined and non-burned human bone, and we maintain a bioarcheologist on staff who is available to inspect bone and make a determination of human origin.

SWCA also is aware that excavations, especially in urban areas, require consideration of complex permits, laws, and regulations that must be adhered to. SWCA has extensive experience not only with cultural resources permits and regulations, but also with right-of-way encroachment processes for several state and federal agencies, utilities coordination and safety, Maricopa County air quality rules, stormwater

pollution prevention plans (SWPPPs) specifically for archaeological projects, measured soil compaction, stabilization, site restoration, and uniform traffic control device implementation requirements that are essential for complex urban archaeology work. Note that all SWCA excavation projects comply with OSHA requirements, including having at least one certified competent person available on-site at all times. SWCA is able to provide trained SWPPP/Erosion Control inspectors and Dust Control inspectors as needed.

F. PREPARING PLANS, TECHNICAL REPORTS, AND OTHER SHPO REPORTS

Under this contract, SWCA is prepared to produce a number of archaeological report types, including site-specific research design, HPTPs, historic context documents, Class I background research reports, Class III archaeological survey results reports, archaeological resource documentation and evaluation reports, archaeological monitoring reports and damage assessments, preliminary end-of-field reports for excavation projects, technical publications synthesizing the results of data recovery and analysis, historic building evaluations, historic in-use structure forms, and Historic Property Inventory Forms for submittal to the SHPO. All reports would be prepared to ASM and SHPO publishing standards and would be professionally produced using industry-standard word processing, layout, illustration, and cartographic tools. SWCA maintains a rigorous QA/QC process for all project deliverables. Our three-step process includes 1) Principal Investigator review, 2) technical editing by our dedicated editing staff, and 3) final review by the author(s). Comments from the PMGAA on the draft deliverables will be incorporated into the final reports. SWCA administrative staff produces the final reports, ensuring high-quality reproduction, consistency, cost-effectiveness, electronic archival storage, and proper transmittal to the PMGAA for agency submittal.

G. PHOTOGRAPHS AND MAPPING

SWCA collects all field note data, photographs, and spatial data electronically on Samsung tablets that are able to withstand the rugged field conditions of Phoenix. Photographs are taken by the tablet at 13 megapixel resolution. Spatial data are recorded with submeter accuracy by pairing a Juniper Geode GNS2 GPS receiver with the tablet. The field data is uploaded at the end of each day to SWCA servers, which minimizes the potential for data loss and allows QA/QC by the PM/Principal Investigator while fieldwork is ongoing. SWCA uses Esri applications for data collection, which integrates with the Esri desktop products used by our GIS team, for a seamless workflow in photologs, geodatabases, and maps for cultural resources reports.

SWCA has FAA-licensed pilots and DJI Phantom quadcopters, with which SWCA can capture high-resolution video, photographs, and detailed aerial imagery of a project area. These visuals can be georeferenced and incorporated into GIS products. In addition, we can perform three-dimensional modeling to create surfaces for GIS visualization and analysis.

H. RECOVERED ARTIFACTS

Land owned by the PMGAA is considered State land with respect to the AAA. Prior to fieldwork, when artifacts will be collected, SWCA will obtain an AAA project-specific permit and Repository Services Agreement from the ASM. At the end of each day of fieldwork when collections have been made, the project materials will be transported to SWCA's Phoenix office for processing, all project records will be reviewed for completeness, and the digital forms and databases will be synced. Collection processing will follow ASM guidelines for cleaning, cataloging, labeling, and storing materials of various types. Prior to washing any material class suitable for washing, the laboratory technician will do a final review of the specimens, looking for any unusual residues or unique specimens. All field specimen records will be entered into a relational database to assist in tracking custody of the specimens until they are submitted for

curation at the ASM. Samples and artifacts will be grouped according to type and submitted to the appropriate analysts. Upon completion of the analyses and acceptance of the final report, the collections will be packaged in accordance with ASM guidelines and submitted for final curation.

I. STATE AND FEDERAL LAW COMPLIANCE

SWCA's key personnel have experience helping the PMGAA navigate the regulatory process for both federal and state compliance. Federal work requires compliance with Section 106 of the NHPA, while work on State land requires compliance with the AAA and the SHPA.

In particular, the PMGAA is responsible for compliance with the 1995 PA between the USAF, SHPO, ACHP, and other concurring parties; and the 1997 IGA between the former Williams Gateway Airport Authority (now the PMGAA) and the SHPO for purposes of the implementation of the PA.

See Tab C Section 6 for more information on these regulations.

J. PMGAA CONSULTATION

In SWCA's experience, successful project management can largely be boiled down to a single basic principle: effective communication. For this contract, SWCA communications will be directly managed by Mr. Vorsanger, with support from Principal Investigators and Field Directors as appropriate. Mr. Vorsanger will coordinate directly with the PMGAA PM identified on the task order. A single line of communication ensures promptness and clarity in communications between team members and agency counterparts. Managing communications through Mr. Vorsanger minimizes the possibility for miscommunication, misunderstanding, and erroneous information dissemination—thus reducing potential disruptions in the project process.

Mr. Vorsanger will keep the PMGAA PM apprised of the progress of tasks and any changes in the anticipated schedule. We feel that the results of fieldwork and the contents of any reports should not contain surprises for the PMGAA. We strive to be an extension of the PMGAA team and will have open communication with the PMGAA regarding recommendation and consultation. SWCA will not contact agencies at all, unless directed by the PMGAA. We are, however, available to coordinate/communicate with outside agencies at PMGAA's request or assist PMGAA in the drafting of consultation letters and other related documents, such as Annual Reports on Historic Properties.

2. SELF-PERFORMING WORK/SUBCONSULTANTS

SWCA will not need additional project support and will complete all tasks from the scope of work in house.

3. BUDGET AND SCHEDULE APPROACH

Contract Manager Jerome Hesse and PM Andrew Vorsanger will work closely on all aspects of executing the requirements of this contract. They will work seamlessly to provide the appropriate level of project management structure, project expertise, and understanding of staffing needs. SWCA commits to responding promptly to feedback and will take necessary actions based on that feedback.

SWCA has an outstanding management and organizational structure, ensuring that projects are completed on time and on budget. Cost control starts with being clear on the scope of work the PMGAA needs and tailoring our approach to that early understanding. We easily achieve on-time and on-budget projects

because we provide realistic cost and schedule projections that use the best-qualified and least-costly personnel suited for each task. These expectations are communicated to everyone on the project team. SWCA excels at managing costs, adhering to schedule, and coordinating between our clients and our internal team.

Schedule Approach. At the beginning of each project, SWCA will coordinate with PMGAA staff within 24 hours of any requests or task orders to determine topics to be covered in the initial kick-off meeting, including identifying team members from PMGAA and SWCA; establishing the frequency and cadence for project check-in meetings; establishing schedule milestones; identifying short-term action items; and providing more detail on the project tasks. An effective kick-off meeting will make sure that the PMGAA's and SWCA's expectations for the project are aligned and is a key element in the success of a project.

Once the project details have been clarified, the SWCA PM will hold an internal kick-off meeting with key staff to ensure that every team member understands the ultimate project goals and timeline. Weekly meetings with the Office Director and supervisory staff are held to review current workloads, review the progress of ongoing projects, and reallocate resources if necessary.

SWCA provides a comprehensive, full-service approach to managing the planning, permitting, and environmental compliance efforts for infrastructure development. Our focus is to provide timely and cost-effective high-value services. We do this by leveraging our long-standing, positive agency relationships to work through the regulatory and permitting processes. By working with our clients to collaborate with cooperating agencies, project proponents, the public, and other important stakeholders, we deliver defensible products that are accurate, balanced, and practical.

Cost Control and Budget Management. SWCA uses Deltek Vision, a fully integrated system widely used in the architecture/engineering/construction industry that encompasses all our company processes and resources. A unique number assigned to each SWCA project is used throughout the life of the project to ensure that costs are closely tracked and correctly attributed. As project work is accomplished, the PM ensures that hours are assigned and billed appropriately. The online project "folder" includes the scope of work, budget, staff allocations, and all pertinent contract and billing information.

As staff hours spent on the project are entered daily into online timesheets, those charges are posted seamlessly to the project; direct cost expenditures are posted weekly. PMs are able to view the daily updated status of the project. With access to reliable information, PMs are required to enter monthly estimates of the project percentage complete, which alerts them to any contrasts in work completed vs. budget spent. Monthly expense reports are provided to the Office Director, and PMs are required to explain any discrepancies.

Vision also has a flexible work-breakdown structure, which allows project costs to be tracked by phase or task and can incorporate multiple billing arrangements in a single project. This system provides concise and easy-to-understand invoices and gives SWCA the option of providing billing information electronically in a detailed or simple format in response to clients' requirements.

In the past 3 years, an estimated 90% of SWCA projects are completed within the originally allocated budget and the originally forecast schedule, and it is not uncommon for our projects to be completed under budget and early, resulting in significant cost and time savings for our clients. Our ability to track labor charges on a daily basis helps to keep budgets in check. Each office has a Project Controls Specialist who is available to provide PMs with as-needed contracting, budget-tracking, schedule-tracking, and invoice

review assistance to ensure that PMs have the tools and assistance needed to meet critical deadlines and keep projects on budget.

Project Controls. SWCA's well-established Project Controls Program will prove invaluable to the successful execution of the proposed services. SWCA believes in strong project management by which schedules, tracking, and reporting are communicated to the client in a way that makes the client's job easier. Financial forecasting can be a critical component for a successful project. SWCA has a robust, flexible accounting system that can be tailored to the needs of the client to maintain budgets and save money. Monthly invoicing will be consistent, accurate, and provide the required information. **Project Manager Andrew Vorsanger** will be responsible for all aspects of project management and project controls. He will be supported by SWCA project controls staff to oversee project contract administration as well as track our schedule and budget across all phases of the project. Project controls staff will provide skilled and dedicated project-level financial oversight, allowing our technical staff to focus on ensuring that the technical parts of the scope are of the highest quality and are completed on time. Each week, the project controls staff will work in partnership with the PM to create the weekly project status report, which will include burn rate analysis and will also provide an independent review of actual spending vs. budgets and completion of scope vs. schedule. Project controls staff will also review monthly invoices to ensure accuracy of rates and allowed charges according to our contract. We will also provide monthly accruals, future months forecasted spending, and schedule updates to the PM and PMGAA.

Project Controls oversees all budgetary and financial aspects of projects, enabling management to maintain focus on delivering high-quality deliverables on time and within budget. SWCA has used this method with great success on similar projects.

4. PLANNING, SCHEDULING AND PROJECT MANAGEMENT TOOLS

As described above, SWCA uses several tools to manage projects.

Staffing. Our team is committed to maintaining the same team proposed here for the life of the contract, to the extent practicable, and can fully commit staff for any task, as needed. Maintaining staffing consistency allows SWCA to minimize project inefficiencies, rapidly mobilize for tasks on short notice, and increase efficiency with diverse staff who already work together as a comprehensive team.

Project Documentation. To ensure that PMGAA and SWCA are on the same page about project guidance and decisions made over the course of a project or task, SWCA will briefly document that decision or guidance via email and keep the documentation in our project record. SWCA strongly believes that project documentation is an important management step.

Regulatory Understanding. SWCA believes that having a solid understanding of an airport's responsibility to maintain compliance with regulatory requirements is key to producing high-quality deliverables. We make sure our team understands PMGAA's needs and requirements, along with the regulatory requirements and standards, before starting work. This approach makes for focused, accurate, usable data and reports that meet PMGAA's needs.

Field Procedures. SWCA's team will hold external and internal project kick-off meetings. The kick-off meetings can include a review of the project scope, location, fieldwork objectives, safety issues, and logistics; and relevant field procedures and techniques for ensuring a safe working environment and an efficient use of time while in the field.

Data collected in the field are recorded on electronic tablets and customized for each project. Field data are downloaded to our servers daily. Data collection forms are thoughtfully and rigorously designed to consistently capture data in a manner consistent with regulatory requirements, guidance, and research goals. Field Supervisors and PMs review data on a daily or weekly basis to ensure that data are accurate and meet PMGAA's requirements. Specific to airports, we have vehicle beacons, aviation radios, and experience driving on airfield within the Air Operations Area.

Safety. Our "Safety by Choice, Not by Accident!" safety motto is a part of our culture. SWCA has developed a world-class safety program that is continuously improved and designed to prevent safety incidents and ensure a positive outcome if a safety incident occurs. Our safety program plans for potential job hazards and identifies hazard mitigation before field deployment. Due to COVID-19, SWCA is taking extra precautions and has developed an industry-leading Coronavirus Field Safety Plan to keep ourselves, coworkers, clients, and community members safe and healthy.

Report Production. SWCA reports are the responsibility of Mr. Vorsanger, who seeks input from the appropriate senior scientists and various specialists regarding technical issues, field methods, and/or research and regulatory compliance topics. Mr. Vorsanger tracks the report as it progresses through SWCA's QA/QC procedures. Draft reports go through an in-house subject matter expert review by a Principal Investigator and then through professional editing. Reports are formatted by our publications specialists. Mr. Vorsanger is responsible for final review before the report is delivered.

SWCA reports are produced using the latest version of Microsoft Word and PDF versions are produced using Adobe Acrobat. SWCA publication software includes Adobe InDesign desktop publishing and Adobe Photoshop. These capabilities are enhanced by full graphics workstations, a full-feature copier, binding equipment, color and black-and-white laser printers, large-scale plotters, etc. SWCA administrative staff is responsible for ensuring high-quality report production, reproduction, electronic archival storage, and proper transmittal to the PMGAA. SWCA maintains an electronic library of past project reports.

Quality Assurance/Quality Control. SWCA maintains a rigorous QA/QC process for all project deliverables. Our three-step process is composed of 1) discipline/scientific lead peer review, 2) technical editing by our dedicated editing staff, and 3) final review by the SWCA Contract Manager and/or Team Lead. This ensures that all deliverables are of the highest quality. We excel at preparing documents for audiences ranging from technical experts to the public.

TAB F: DBE PERFORMANCE PLAN (DBEPP)

SWCA commits to using Small Business Enterprise (SBE) and Disadvantaged Business Enterprise (DBE) partners when feasible. We maintain excellent reciprocal relationships with SBEs and DBEs who can provide additional expertise and capacity to supplement SWCA's in-house services. SWCA often manages large contracts with SBE and/or DBE requirements, and we have the proven ability to meet or exceed those requirements.

1. DETAILED DBE PERFORMANCE PLAN

A. THE TYPES OF WORK OFFEROR WILL SOLICIT DBEs TO PERFORM

While SWCA can expertly provide all the items called out in this RFQ's Scope of Work, having DBE partners enhance our ability to respond to projects of any size and complexity. In the event that a task order is issued and we are required to use DBEs, we will reach out to local DBE vendors and subcontractors and develop a plan for their participation. Although we do not frequently need to subcontract the use of outside services for labor, we occasionally rely on vendors for the rental of field equipment or for specialized analysis. In these instances, we prioritize the use of DBEs.

B. UTILIZATION PLAN

Partnership Philosophy

SWCA thoughtfully and strategically chooses trusted DBE partners for projects. SWCA's key staff and PMs are experienced in managing multiple DBE partners in Arizona and are able to assign the most appropriate field staff from potential DBE partners. SWCA can select the closest qualified field technicians to perform fieldwork. This minimizes travel costs, which will save PMGAA money. SWCA also tracks the technical strengths of our DBE partners' staff members, which allows SWCA to control costs for by ensuring that fieldwork is performed by DBE field staff of the most appropriate labor classification. SWCA actively minimizes fieldwork costs by making sure that experts are not assigned work that can be completed by junior staff. Conversely, where a given assignment requires special expertise, SWCA mobilizes expert DBE field staff who can perform the most challenging work efficiently and with technical excellence. By balancing expertise and location, SWCA's key staff and PMs add value and reduce project costs.

SWCA's DBE partners can also increase the depth of the SWCA Team. Select DBE partners can mobilize large numbers of qualified technical staff, which augments SWCA's own significant contingent of technical professionals. In conjunction with our DBE partners, SWCA can support multiple field efforts simultaneously. SWCA's PMs routinely balance all these factors and leverage the strength brought to our team by our DBE partners.

SWCA regularly consults local agencies' online databases, including ADOT and the City of Phoenix. We use Deltek Vision as our internal database to identify and track our socioeconomically diverse businesses. SWCA can produce reports from our database to show businesses with the following SBE/DBE designations:

- Disadvantaged Business (DBE)
- Minority-Owned Business (MBE)
- HUB Zone Business

- 8 (a) Business
- Historically Black Colleges and Universities (HBCUs)
- Small Business (SBE)
- Woman-Owned Small Business (WBE)
- Veteran-Owned Small Business (VOSB)
- Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Native-Owned Business
- LGBTQ-Owned Business

C. MONITORING PLAN

We use our system (Deltek Vision) to quantify the use of DBEs on a per-project basis. Having on-call contracts with multiple municipalities makes us familiar with the various annual reporting processes tied to DBE use. DBE monitoring plans are developed based on the client's requirements. The PM and Project Controls Specialist will work together to monitor and track the use of DBEs.

D. HOW OFFEROR WILL ENSURE COMPLIANCE

SWCA has strong relationships with numerous SBEs. Many times SWCA is a subcontractor to the SBE, and many times SWCA is the prime using the SBEs as subcontractors. SWCA has experience developing SBE subcontracting plans and has a history of meeting or exceeding the goals established in the plan. SWCA's efforts to encourage the use of SBEs include the following activities internally:

Internal Efforts:

- Provide internal Project Management Training in the area of subcontracting requirements, intent, and practices.
- Provide guidance to internal management; increase awareness and provide information on accountability and requirements.

E. HOW OFFEROR WILL CONDUCT OUTREACH/MARKETING EFFORTS

Outreach Efforts to Obtain Sources:

- Contact MBE and SBE trade associations;
- Contact business development organizations;
- Attend SBE and MBE procurement conferences and trade fairs; and
- Request sources from the Small Business Administration's (SBA's) PASS

Internal Efforts to Guide and Encourage Subcontractors:

- Conduct workshops, seminars, and training programs;

- Establish, maintain, and use small business, HUB Zone small business, small disadvantaged business, veteran-owned, service-disabled veteran-owned, and women-owned small business source lists, guides, and other data for soliciting subcontractors; and
- Monitor activities to evaluate compliance with subcontracting plans.

Further Outreach Efforts:

- Seek assistance directly from the SBA on sources of businesses, reporting requirements, and local interaction and formatted networking sessions.
- Seek sources through information systems such as: Procurement Marketing and Access Network (PRO-Net) of the SBA, the National Minority Purchasing Council Vendor Information Service. The Research and information Division of the Minority Business Development Agency in the Department of Commerce, and small business trade associations.
- Enquire of past subcontractors, information about small businesses that they have worked with in the past.
- Participate in local SBA fairs, speaking events, and open houses.

F. HOW OFFEROR WILL REPORT/TRACK DBE PARTICIPATION

We will track and run reports from our internal database (Deltek Vision) in coordination with PMGAA and their requirements.

2. DBE UTILIZATION PAST PERFORMANCE

As part of SWCA's General Service Administration (GSA) Contract, we provide a yearly subcontracting plan, and report our metrics in complying with that plan on a quarterly basis. While SWCA does not intend to use any subcontractors for this specific project, we strive to use SBEs and DBEs when applicable.

3. RECORD OF OFFEROR'S PAST PERFORMANCE, INCLUDING DBE UTILIZATION, PROGRAM COMPLIANCE, ETC.

As discussed in Section 2 and as part of SWCA's GSA Contract, we report our metrics on a quarterly basis. We can provide a copy of our most recent quarterly report upon request.

4. OFFEROR'S DESIGNATED REPRESENTATIVE(S) RESPONSIBLE FOR DBE COMPLIANCE OVER THE COURSE OF THE PROJECT

Contract Manager Jerome Hesse, with assistance from SWCA's corporate team, will be responsible for DBE compliance. They will use our internal billing system and databases to track DBE project goals throughout the project.

A. JOB TITLE

Jerome Hesse, Contract Manager

B. SKILL SET AND EXPERIENCE

As discussed in Tab D, Mr. Hesse will be responsible for overall contract administration. He has extensive project management experience, can track subconsultants, and can manage multiple concurrent task orders. He has been SWCA's primary point of contact for cultural resources services provided to PMGAA for the past 10 years.

5. OFFEROR'S COMMITMENT AND ABILITY TO IMPLEMENT THEIR DBEPP

SWCA is able and committed to implementing our DBE Participation Plan. Without the buy-in and engagement of DBE partners, SWCA would not have a proven record of success providing full-service environmental support to our utility clients' most demanding programs. Rather than seeing DBE subcontractors as only a means to satisfy a mandate, SWCA considers its DBE team members to be integral partners in the long-term success of the SWCA Team.

TAB G: OTHER

1. CLAIMS/ISSUES

A. TERMINATED CONTRACTS/SUBCONTRACTS

SWCA has not had any contracts or subcontracts within the past 10 years that have been terminated.

B. CLAIMS/ISSUES FROM THE LAST 10 YEARS

The following is SWCA's claims history since 2012. Please note that the following claims are not associated with SWCA's Phoenix office.

DONNA CHICK, AS ADMINISTRATOR OF THE ESTATE OF LOUISE BARBUZZI V. ROLFE HOUSE LIMITED PARTNERSHIP D/B/A ROLFE HOUSE APARTMENTS; SHP MANAGEMENT CORPORATION; NEW ENGLAND ENVIRONMENTAL, INC.; SWCA, INC.; AND OCCUHEALTH, INC.	
Name of Project Owner	Rolfe House Limited Partnership D/B/A Rolfe House Apartments
Filing Date	May 2021
Basis for Claim	Settlement agreement contains a strict confidentiality clause.
Court	Commonwealth of Massachusetts, Suffolk, SS., Superior Court Department
Case No.	Civil Action No. 2084 CV 00745
Claim or Suit Amount	N/A
Current Status	Ongoing
Award or Settlement Amount	N/A

DYNAMIC ENERGY V. SWCA, INCORPORATED	
Name of Project Owner	Dynamic Energy
Filing Date	March 2020
Basis for Claim	Massachusetts Attorney General alleged that runoff left the site of a solar emplacement that was being developed by Dynamic Energy. SWCA had performed a SWPPP for Dynamic and was drawn into mediation as a result.
Court	N/A – Claim was resolved through mediation.
Case No.	N/A
Claim or Suit Amount	N/A
Current Status	Settled out of court on 5/24/21 with no admission of fault, accompanied by a strict confidentiality agreement.
Award or Settlement Amount	N/A

THE PEOPLE OF THE STATE OF CALIFORNIA V. CUPERTINO ELECTRIC INC., SPOWER SUSTAINABLE POWER GROUP, SWCA, INCORPORATED AND [SWCA EMPLOYEE NAME REDACTED]	
Name of Project Owner	SPower Sustainable Power Group
Filing Date	September 2019
Court	Superior Court of the State of California, for the County of Los Angeles
Case No.	9AN06709
Basis for Claim	Alleged permittance of the removal of an unoccupied nest.
Claim or Suit Amount	N/A
Current Status	Case dismissed
Award or Settlement Amount	N/A

SARAH BOHLING AND BRADLEY BOHLING V. SWCA, INCORPORATED AND [SWCA EMPLOYEE NAME REDACTED]	
Name of Project Owner	N/A
Filing Date	February 2019
Court	State of New Mexico, County of Bernalillo, Second Judicial District
Case No.	D-202-CV-2019-01474
Basis for Claim	Vehicle injury accident involving an SWCA employee. The case is yet unresolved, and SWCA does not discuss active cases.
Claim or Suit Amount	N/A
Current Status	Ongoing
Award or Settlement Amount	N/A

2. LIQUIDATED DAMAGES

SWCA has not had Liquidated Damages assessed for failure to complete a contract.

STATE OF ARIZONA

Office of the
CORPORATION COMMISSION

CERTIFICATE OF GOOD STANDING

I, the undersigned Executive Director of the Arizona Corporation Commission, do hereby certify that:

SWCA, INCORPORATED

ACC file number: 01646387

was incorporated under the laws of the State of Arizona on 04/13/1984;

That all annual reports owed to date by said corporation have been filed or delivered for filing, and all annual filing fees owed to date have been paid; and

That, according to the records of the Arizona Corporation Commission, said corporation is in good standing in the State of Arizona as of the date this Certificate is issued.

This Certificate relates only to the legal existence of the above named entity as of the date this Certificate is issued, and is not an endorsement, recommendation, or approval of the entity's condition, business activities, affairs, or practices.

IN WITNESS WHEREOF, I have hereunto set my hand, affixed the official seal of the Arizona Corporation Commission, and issued this Certificate on this date: **03/02/2022**

Matthew Neubert, Executive Director

Attachment A
Standard Certifications

Complete Attachment A by checking the applicable box(s) and/or providing responses.
Failure to complete this Attachment A in its entirety and submit with Offeror's SOQs will result in Offeror's submittal being deemed nonresponsive and not evaluated.

If Offeror cannot affirmatively certify to statement numbers 1 and 2 below, Offeror's submittal will be rejected and will not be evaluated.

1. Offeror hereby ☒ certifies ☐ does not certify
That this engagement, if selected, will not result in a conflict of interest.

2. Offeror hereby ☒ certifies ☐ does not certify
That the project manager meets the Minimum Requirements/Qualifications as stated in Section Two B of this RFQ.

If Offeror cannot affirmatively certify to statement number 3 below, PMGAA will consider Offeror's written response to determine if it's submittal will be accepted and be evaluated.

3. Offeror hereby ☒ certifies ☐ does not certify
That it has no known business or financial relationships between Offeror or Offeror's firm and members of the PMGAA Board.

If Offeror does have known business or financial relationships, please list them below:

Title

Attachment B
Federal Provisions Certifications

Contractor shall mean the same as "Consultant", "Offeror", "Bidder", "Proposer" or "Firm"

1. Civil Rights – General

The contractor agrees to comply with pertinent statues, Executive Orders, and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

This provision binds the Contractor and subcontractors from the bid solicitation period through the completion of the contract. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

2. Civil Rights – Title VI Assurances. Compliance with Nondiscrimination Requirements

During the performance of this contract, the Contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Contractor"), agrees as follows:

1. Compliance with Regulations: The Contractor (hereinafter includes consultants) will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

2. Nondiscrimination: The Contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR part 21.

3. Solicitations for Subcontracts, including Procurements of Materials and Equipment: In all solicitations, either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the Contractor of the contractor's obligations under this contract and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.

4. Information and Reports: The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the Contractor will so certify to the sponsor or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance: In the event of a Contractor's noncompliance with the non-discrimination provisions of this contract, the sponsor will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to:

a. Withholding payments to the Contractor under the contract until the Contractor complies; and/or

b. Cancelling, terminating, or suspending a contract, in whole or in part.

6. Incorporation of Provisions: The Contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Contractor will take action with respect to any subcontract or procurement as the sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the

Contractor may request the sponsor to enter into any litigation to protect the interests of the sponsor. In addition, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

3. Debarment and Suspension

a. Certification of Contractor. By submitting a bid/proposal under this solicitation, the bidder/offeror certifies that neither it nor its principals are presently debarred or suspended by any Federal department or agency from participation in this transaction.

b. Certification of Lower Tier Contractors. The successful bidder, by administering each lower tier subcontract that exceeds $25,000 as a "covered transaction", must verify each lower tier participant of a "covered transaction" under the project is not presently debarred or otherwise disqualified from participation in this federally assisted project. The successful bidder will accomplish this by:

1. Checking the System for Award Management at website: http://www.sam.gov.
2. Collecting a certification statement similar to the Certification of Offeror /Bidder Regarding Debarment, above.
3. Inserting a clause or condition in the covered transaction with the lower tier contract.

If the Federal Aviation Administration later determines that a lower tier participant failed to disclose to a higher tier participant that it was excluded or disqualified at the time it entered the covered transaction, the FAA may pursue any available remedies, including suspension and debarment of the non-compliant participant.

4. Disadvantaged Business Enterprises (DBE)

The requirements of 49 CFR part 26 apply to this contract. It is the policy of the PMGAA to practice nondiscrimination based on race, color, sex, or national origin in the award or performance of this contract. PMGAA encourages participation by all firms qualifying under this solicitation regardless of business size or ownership.

a. Contract Assurance (§ 26.13). The Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of Department of Transportation-assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the Owner deems appropriate, which may include, but is not limited to:

1. Withholding monthly progress payments;
2. Assessing sanctions;
3. Liquidated damages; and/or
4. Disqualifying the Contractor from future bidding as non-responsible.

b. Prompt Payment (§26.29). The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 7 days from the receipt of each payment the prime contractor receives from PMGAA. The prime contractor agrees further to return retainage payments to each subcontractor within 7 days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of PMGAA. This clause applies to both DBE and non-DBE subcontractors.

For purposes of this section, a subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the Owner. When Owner has made an incremental acceptance of a portion of this Contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

5. Federal Fair Labor Standards Act

All contracts and subcontracts that result from this solicitation incorporate by reference the provisions of 29 CFR part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part-time workers.

The Contractor has full responsibility to monitor compliance to the referenced statute or regulation. The Contractor must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

6. Foreign Trade Restriction Clause

By submission of an offer, the Offeror certifies that with respect to this solicitation and any resultant contract, the Offeror:

a. is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (USTR);

b. has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the USTR; and

c. has not entered into any subcontract for any product to be used on the Federal project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18 USC Section 1001.

The Offeror/Contractor must provide immediate written notice to the Owner if the Offeror/Contractor learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The Contractor must require subcontractors provide immediate written notice to the Contractor if at any time it learns that its certification was erroneous by reason of changed circumstances.
Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to an Offeror or subcontractor:

a. who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR or

b. whose subcontractors are owned or controlled by one or more citizens or nationals of a foreign country on such USTR list or

c. who incorporates in the public works project any product of a foreign country on such USTR list.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

The Offeror agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in all lower tier subcontracts. The Contractor may rely on the certification of a prospective subcontractor that it is not a firm from a foreign country included on the list of countries that

discriminate against U.S. firms as published by USTR, unless the Offeror has knowledge that the certification is erroneous.

This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that the Contractor or subcontractor knowingly rendered an erroneous certification, the Federal

Aviation Administration (FAA) may direct through the Owner cancellation of the contract or subcontract for default at no cost to the Owner or the FAA.

7. Lobbying and Influencing Federal Employees

The Bidder or Offeror certifies by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No federal appropriated funds have been paid or will be paid, by or on behalf of the Bidder or Offeror, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan, or cooperative agreement.
b. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
c. The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

8. Occupational Safety and Health Act of 1970

All contracts and subcontracts that result from this solicitation incorporate by reference the requirements of 29 CFR Part 1910 with the same force and effect as if given in full text. The employer must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. The employer retains full responsibility to monitor its compliance and their subcontractor's compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20 CFR Part 1910). The employer must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.

9. Procurement of Recovered Materials

Contractor and subcontractor agree to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, and the regulatory provisions of 40 CFR Part 247. In the performance of this contract and to the extent practicable, the Contractor and subcontractors are to use products containing the highest percentage of recovered materials for items designated by the Environmental Protection Agency (EPA) under 40 CFR Part 247 whenever:

a. The contract requires procurement of $10,000 or more of a designated item during the fiscal year; or,
b. The contractor has procured $10,000 or more of a designated item using Federal funding during the previous fiscal year.

The list of EPA-designated items is available at www.epa.gov/smm/comprehensive-procurement-guidelines-construction-products.

Section 6002(c) establishes exceptions to the preference for recovery of EPA-designated products if the contractor can demonstrate the item is:

a. Not reasonably available within a timeframe providing for compliance with the contract performance schedule;
b. Fails to meet reasonable contract performance requirements; or
c. Is only available at an unreasonable price.

10. Tax Delinquency and Felony Conviction

Complete certification statement – Attachment C.

By submission of a Statement of Qualifications, Offeror hereby certifies that it meets all Federal Provisions provided in this Attachment B. Further, Offeror certifies that, if selected by PMGAA for the On-Call Cultural and Archaeological Services, that Offeror will comply with all Federal Provisions provided in this Attachment B and those listed in the sample Standard Professional Services Agreement (Exhibit 2).

Title	Date

Attachment C

Tax Delinquency and Felony Conviction Certification

Offeror must complete the following two certification statements. The applicant must indicate its current status as it relates to tax delinquency and felony conviction by inserting a checkmark (✓) in the space following the applicable response. The applicant agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification in all lower tier subcontracts.

Certifications

1) The applicant represents that it is ( ) is not (✓) a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

2) The applicant represents that it is ( ) is not (✓) is not a corporation that was convicted of a criminal violation under any Federal law within the preceding 24 months.

Note

If an Offeror responds in the affirmative to either of the above representations, the Offeror is ineligible to receive an award unless the sponsor has received notification from the agency suspension and debarment official (SDO) that the SDO has considered suspension or debarment and determined that further action is not required to protect the Government's interests. The Offeror therefore must provide information to the owner about its tax liability or conviction to PMGAA, who will then notify the FAA Airports District Office, which will then notify the agency's SDO to facilitate completion of the required considerations before award decisions are made.

Term Definitions

Felony conviction: Felony conviction means a conviction within the preceding twenty-four (24) months of a felony criminal violation under any Federal law and includes conviction of an offense defined in a section of the U.S. code that specifically classifies the offense as a felony and conviction of an offense that is classified as a felony under 18 U.S.C. § 3559.

Tax Delinquency: A tax delinquency is any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted, or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

Attachment D
DBE Requirements Certification

By submitting a SOQ and by entering into any contract on the basis of this SOQ, the Offeror certifies to each of the following DBE Program-related conditions and assurances:

1. Offeror agrees to comply with 49 CFR Part 26 and PMGAA's DBE Program requirements.

2. To ensure that DBE firms have been given full and fair opportunity to participate in the performance of the contract. Offeror certifies that all reasonable steps will be taken to ensure that DBE firms will have an opportunity to compete for and perform work on the contract. Offeror further certifies that Offeror shall not discriminate on the basis of race, color, age, national origin, or sex in the performance of the contract or in the award of any subcontract.

3. Offeror certifies it shall utilize its DBEPP as presented in its submitted SOQ if awarded the contract under this solicitation.

Authorization for Release of Performance Information and Waiver

---

The purpose of this disclosure is to provide references to PMGAA. Offeror hereby consents that as an Offeror to PMGAA's Solicitation 2022-013-RFQ, On-Call Cultural and Archeological Services for Phoenix-Mesa Gateway Airport, Offeror authorizes those companies and government entities listed in Offeror's RFQ submittal and any other government entity for whom this company has performed Cultural and/or Archeological Services to disclose and release to PMGAA, or their representatives, information, records and opinions concerning this company's past performance.

SWCA, Incorporated (Offeror) hereby waives any claim it may have against PMGAA or any company or entity providing information to PMGAA by reason of any information being disclosed or opinions provided regarding the actions or performance of this company.

This authorization for disclosure of information is effective for one (1) year.

This consent or copy of this authorization shall be as valid and effective as the original.

Attachment H
Agreement Review Statement

As an Offeror to PMGAA's Solicitation 2022-013-RFQ, On-Call Cultural and Archeological Service, Offeror hereby certifies that Offeror has reviewed the PMGAA sample Standard Professional Services Agreement (Exhibit 1) and Section Three, Standard Terms and Conditions to be attached to the sample Standard Professional Services Agreement and have listed any objections to it below. The response shall clearly identify if the attached sample Standard Professional Services Agreement is acceptable in all respects. If the Agreement is not acceptable, the response shall identify the unacceptable clauses and shall provide suggested alternate language. General or vague statements or invitations to discuss further are not adequate answers. Offeror understands that Exhibit 1 is a "sample" of PMGAA's Standard Professional Services Agreement and, as such, additions, revisions, and/or deletions of terms and conditions may be made to the final Agreement to be executed for the services procured under this solicitation.

Offeror is aware any objections to the sample Standard Professional Services Agreement (or to Section Three Standard Terms and Conditions) will be considered and included in PMGAA's evaluation of Offeror's firm's qualifications. Offeror is also aware, if Offeror fails to list any objections to PMGAA's sample Standard Professional Services Agreement, including the Standard Terms and Conditions, Offeror will not be allowed to raise any objections later if selected as the most qualified Offeror.

Specific Objections:

JEROME HESSE, M.S., CONTRACT MANAGER

Mr. Hesse is the cultural resources program lead for SWCA's Arizona offices and has participated in projects in Arizona, New Mexico, California, Texas, North Dakota, and Kansas, managing more than 400 projects in Arizona alone. He has designed and managed projects of varying sizes and degrees of complexity, directed field projects, conducted geoarchaeological studies, facilitated tribal consultation, and analyzed flaked and ground stone artifact assemblages. He is well versed in National Historic Preservation Act (NHPA) Section 106 compliance and its state- and local-level equivalents. His clients include federal, state, and local municipalities; interstate and local natural gas and electrical utilities providers; and industrial, commercial, and private land developers.

Mr. Hesse routinely prepares and reviews cultural resources inventory reports, treatment plans, and mitigation reports, and has assisted in the preparation of National Environmental Policy Act (NEPA) documents, consultation letters, and Memoranda of Agreement. He oversees cultural resources staff in the Flagstaff, Phoenix, and Tucson offices, ensuring that projects receive the staff best suited for successful project completion.

TRAINING

Project Management Bootcamp, PSMJ Resources, Inc.

SELECTED PROJECT EXPERIENCE

Phoenix-Mesa Gateway Airport Site 319 Eligibility Testing; Phoenix-Mesa Gateway Airport Authority; Mesa, Maricopa County, Arizona. SWCA conducted test excavations at this large pre-Contact archaeological site to evaluate its eligibility for the National Register of Historic Places and to assist PMGAA in its future planning and development efforts. *Role: Project Manager. Responsibilities included project management and content review of technical reports.*

Phoenix-Mesa Gateway Northeast Development; Ricondo Associates; Mesa, Maricopa County, Arizona. SWCA conducted surveys and a historic buildings inventory in support of the PMGAA's plan to develop 700 acres of airport property adjacent to existing infrastructure. The project also included survey at Rittenhouse Airfield for the relocation of an air surveillance radar system from its current location at Phoenix-Mesa Gateway Airport. *Role: Project Manager and Principal Investigator.*

Pinal Airpark RPZ and Improvements CATEX; Dibble Engineering; Pinal County, Arizona. SWCA conducted a biological resources study, jurisdictional delineation, and cultural resources investigations to support the NEPA process for two proposed projects (runway improvements and an engine testing facility) at Pinal Airpark. In addition, the cultural resources investigations included a historic property inventory and an archaeological survey for the entire Pinal Airpark property. *Role: Principal Investigator.*

H.A. Clark Airport; Coffman Associates, Inc.; Williams, Coconino County, Arizona. SWCA provided environmental services for the proposed H.A. Clark Airport Expansion project in Williams, Coconino County, Arizona. The project included three parcels totaling 185 acres of land administered by the U.S. Forest Service, specifically the Kaibab National Forest, and the land exchange process for this project required a Cultural Resources (archaeological) Survey and an Environmental Due Diligence Audit Phase I Environmental Site Assessment. *Role: Principal Investigator.*

Marana Airport Expansion; Coffman Associates, Inc.; Marana, Pima County, Arizona. SWCA conducted environmental services for the land acquisition phase of the project. SWCA tasks included jurisdictional waters delineation, biological evaluation, biological regulations memorandum, cultural, historical, and archaeological resource inventory, and environmental due diligence audit (EDDA) Phase I environmental site assessment. *Role: Principal Investigator.*

Member, Geological Society of America

Member, Arizona Archaeological Council

Member, Arizona Geological Society

Benson Airport Categorical Exclusion Resource Reports; City of Benson; Benson, Cochise County, Arizona. SWCA conducted resource studies, including a biological evaluation and cultural resources (archaeological) survey for a 1.65-acre project area at the Benson Municipal Airport. The resource studies were performed as part of the NEPA analysis, which only required a categorical exclusion. The action involved taxiway lighting, threshold lights, and helipad developments. *Role: Project Manager.*

H.A. Clark Airport; Coffman Associates, Inc.; Williams, Coconino County, Arizona. SWCA provided environmental services for the proposed H.A. Clark Airport Expansion project in Williams, Coconino County, Arizona. The project included three parcels totaling 185 acres of land administered by the U.S. Forest Service, specifically the Kaibab National Forest, and the land exchange process for this project required a cultural resources (archaeological) survey and an EDDA Phase I Environmental Site Assessment. *Role: Project Manager.*

Marana Airport Expansion; Coffman Associates, Inc.; Marana, Pima County, Arizona. SWCA conducted environmental services for the land acquisition phase of the project. SWCA tasks included jurisdictional waters delineation, biological evaluation, biological regulations memorandum, cultural, historical, and archaeological resource inventory, and EDDA Phase I environmental site assessment. *Role: Cultural Resources Specialist. Managed cultural resources tasks and performed content review of all deliverables.*

Rolle Airfield Environmental Assessment; Armstrong Consultants, Inc.; San Luis, Yuma County, Arizona. SWCA conducted archaeological surveys and a historic buildings inventory in support of the PMGAA plan to develop 700 acres of airport property adjacent to existing infrastructure. The project also included survey at Rittenhouse Airfield for the relocation of an air surveillance radar system from its current location at Phoenix-Mesa Gateway Airport. *Role: Project Manager. Responsibilities included project management and content review of technical reports.*

Kingman Airport Land Release; Coffman Associates, Inc.; Kingman, Mohave County, Arizona. SWCA will perform a biological evaluation, biological regulations review, cultural resources survey, jurisdictional waters delineation, and an environmental due diligence audit for the Kingman Airport Expansion. *Role: Project Manager.*

Nogales International Airport Proposed Land Acquisition and Drainage/Erosion Control Improvements; Coffman Associates, Inc.; Nogales, Santa Cruz County, Arizona. SWCA conducted cultural and biological resource studies, a Phase I EDDA, a floodplain review and assessment, and a CWA preliminary jurisdictional delineation for an ADOT-funded land acquisition and drainage/erosion control improvements project at the Nogales International Airport. The project included approximately 36 acres of Santa Cruz County–owned and privately owned lands in Section 24, Township 23 South, Range 14 East and Sections 17–20, Township 23 South, Range 15 East in Santa Cruz County, Arizona. *Role: Project Manager.*

Bagdad Mine Stockpile Extension NEPA Study; Freeport McMoRan Bagdad Incorporated; Bagdad, Yavapai County, Arizona. As a third-party consultant for the project, SWCA is assisting the BLM Kingman Field Office with analyzing proposed modifications to the current Bagdad Mine Plan of Operations. If approved through the current EA process, Freeport McMoRan's proposed mine plan modifications, which include extending the present stockpile and constructing access roads, monitoring wells, and other distributed facilities, could result in disturbance of as much as 600 acres of BLM-managed public lands. *Role: Project Manager.*

ANDREW VORSANGER, M.A., PROJECT MANAGER

Mr. Vorsanger has served most recently as a Team Lead, as well as a project manager and field director, for numerous cultural resource projects throughout the Southwest, including Arizona, California, Nevada, New Mexico, and Utah. He has worked on projects such as transmission lines, solar farms, telecommunication towers, hazardous vegetation removal, and multi-use land development. Mr. Vorsanger has conducted over 100 cultural resources projects (survey, testing, monitoring, and data recovery) requiring compliance with Section 106/110 of the NHPA, applicable state and local antiquity and preservation laws, and regulations pertaining to cultural resources under the National Environmental Protection Act. These projects, primarily conducted for industries such as energy, mining, transportation, materials resources, land development, and local government planning have provided the opportunity to work with a number of private interests as well as various state and federal agencies including the BIA, BLM, BOR, USACE, DOD, DOE, EPA, FAA, USFWS, USFS, and various Native American tribes. He is proficient with multiple GPS platforms and ESRI GIS applications. Previous academic training has included human and hominin osteological analysis, isotopic analysis of indigenous Madagascar hair samples, and statistical analysis of phytoliths from the southeast United States.

SELECTED PROJECT EXPERIENCE (∗ denotes project experience prior to SWCA)

Phoenix-Mesa Gateway Data Recovery of Locus 2; Phoenix-Mesa Gateway Airport Authority; Mesa, Maricopa County, Arizona. *Role: Project Manager / Field Director. Supervised three archaeologists for a data recovery and excavation at the Phoenix-Mesa Gateway Airport. Data recovery occurred at one Historic Property (AZ U:10:69[ASM]) in a 9-acre area. Prehistoric cultural resources encountered: Hohokam Village. No historic resources encountered.*

Soil Evaluation in Support of Runway 12C/30C Design and Reconstruction Archaeological Monitoring; Phoenix-Mesa Gateway Airport Authority; Mesa, Maricopa County, Arizona. *Role: Project Manager. Supervised one archaeologist for geotechnical monitoring in the Phoenix-Mesa Gateway Airport at one Historic Property (AZ U:10:69[ASM]). No prehistoric or historic resources encountered.*

GEU Box Hangar Development; Confidential Client; Glendale, Maricopa County, Arizona. CONFIDENTIAL. *Role: Archaeologist. Supervised one archaeologist for monitoring at the Glendale Municipal Airport. No prehistoric or historic resources encountered.*

*** 48th Avenue and Watkins Street Data Recovery Project; Werner Enterprises, Inc.; Maricopa County, Arizona.** *Role: Crew Chief. Supervised four archaeologists for a data recovery and excavation in an agricultural field. Data recovery occurred at one Historic Property (Pueblo del Rio) in a 21.7-acre area. Prehistoric cultural resources encountered: Hohokam Village. No historic resources encountered.*

*** Massera Ruin: QC320 Data Recovery Project; Communities Southwest; Queen Creek, Maricopa County, Arizona.** *Role: Field Director. Supervised four archaeologists for a data recovery and excavation for mixed-use development. Data recovery occurred at one Historic Property (AZ U:10:22[ASM]) in a 320-acre area. Prehistoric cultural resources encountered: Hohokam Village. No historic resources encountered.*

*** SRP-MIC Development Cultural Survey Project; NOVO Development; Maricopa County, Arizona.** *Role: Field Director. Supervised one archaeologist for survey of 20 acres on SRP-MIC land, in support of real-estate development. Prehistoric cultural resources encountered: Hohokam artifact scatter. No historic cultural resources encountered.*

*** NEACC Water and Sewer Lines Monitoring Project; Salt River Pima-Maricopa Indian Community; Maricopa County, Arizona.** *Role: Field Director. Supervised two archaeologists for construction monitoring of water and sewer lines. Monitoring occurred at seven historic properties in a linear network measuring 4.15 miles long by 12 feet wide (6.0 acres). No prehistoric cultural resources encountered. Historic cultural resources encountered: Pima farm field and canals.*

*** NEACC Water and Sewer Lines Data Recovery Project; Salt River Pima-Maricopa Indian Community; Maricopa County, Arizona.** *Role: Field Director. Supervised six archaeologists for an excavation data recovery in water and sewer lines rights-of-way in McKellips Road and Dobson Road. Data recovery occurred at two historic properties in a 1-mile-long by 12foot-wide (1.5-acre) APE. Prehistoric cultural resources encountered: Hohokam Village. Historic cultural resources encountered: Pima farm field and canals.*

*** Sentinel 135 Project; FNF Construction Inc.; Maricopa County, Arizona.** *Role: Project Manager / Field Director. Class III survey in support of ADOT materials source certification, including GIS and report preparation. The survey was approximately 42.8 acres. No prehistoric cultural resources encountered. No historic resources encountered.*

*** Desert Fox Paintball Borrow Source Project; Himes Consulting; Pima County, Arizona.** *Role: Project Manager / Field Director. Class III survey in support of an ADOT borrow source certification project, including GIS and report preparation. The survey was approximately 16.3 acres. No prehistoric cultural resources encountered. Historic cultural resources encountered: Euro-American brick making facility.*

*** Horse Mountain Fuels Reduction Project; Prescott National Forest; Yavapai County, Arizona.** *Role: Project Manager / Field Director. Project Manager and Field Director, supervising 14 archaeologists for a Class III survey in support of fire fuels reduction, including report preparation. The survey was approximately 5,197 acres. Prehistoric cultural resources encountered: Archaic and Prescott Culture habitations, campsites, rock art, rock piles, artifact scatters. Historic cultural resources encountered: Euro-American ranching, mining, cabins, trash scatters.*

*** Grande Vista Site Fencing and Cleanup Project; San Carlos Irrigation Project; Pinal County, Arizona.** *Role: Field Director. Class III survey and subsequent monitoring of the Grande Vista Site (AZ AA:2:63[ASM]) on BIA land in support of fencing and trash cleanup, including GIS and report preparation. The survey was approximately 40 acres. Prehistoric cultural resources encountered: Hohokam habitation site. No historic resources encountered.*

*** PHO Cielo-A Telecommunication Facility Project; Verizon Wireless; Queen Creek, Maricopa County, Arizona.** *Role: Field Director. Class III survey and visual impact analysis in support of construction of a 65-foot-tall replacement ballfield light pole, including GIS and report preparation. The survey was approximately 0.47 acre. No prehistoric cultural resources encountered. No historic resources encountered.*

*** PHO Dartmouth-D Telecommunication Facility Project; Verizon Wireless; Mesa, Maricopa County, Arizona.** *Role: Field Director. Class III survey and visual impact analysis in support of construction of a 65-foot-tall monopalm telecommunications tower, including GIS, and report preparation. The survey was approximately 0.21 acre. No prehistoric cultural resources encountered. No historic resources encountered.*

ADRIENNE TREMBLAY, PH.D., PRINCIPAL INVESTIGATOR

Dr. Tremblay is a cultural resources principal investigator and project manager in SWCA's Phoenix office. She is responsible for managing and maintaining quality in all stages of cultural resources projects. Dr. Tremblay has conducted projects on land administered by various government agencies, including the U.S. Forest Service, Bureau of Land Management (BLM), Bureau of Reclamation, Department of Defense, and Arizona State Land Department. She is experienced with Section 106 regulations and National Register of Historic Places (NRHP) evaluations and nominations. She meets and exceeds the Secretary of the Interior's Professional Qualifications Standards for prehistoric and historic Archeology and History. Dr. Tremblay is experienced in evaluating effects to cultural resources including archaeological sites, historic built environment, and Traditional Cultural Properties for projects under the National Environmental Policy Act (NEPA) and has contributed to several environmental assessments (EAs) and environmental impact statements.

SELECTED PROJECT EXPERIENCE

Williams Gateway Airport On-Call Cultural Resource Services; Phoenix-Mesa Gateway Airport Authority; Mesa, Maricopa County, Arizona. SWCA has provided on-call archaeological and cultural resource services for Williams Gateway Airport for the last four years. Tasks have included general consultation; annual report preparation; archaeological monitoring; testing and data recovery; and report preparation. Cultural resources within the airport property include prehistoric archaeological sites and late Historic period buildings and structures associated with Williams Air Force Base. Investigations were required by the Arizona Antiquities Act, ARS Title 41, Article 4, Archaeological Discoveries, Section 41-841 through 41-846, which addresses the identification and documentation under permit of cultural resources that might be impacted as a result of state, county, or municipal actions. When proposed projects involve other state or federal agencies, other preservation laws are likely to pertain - chiefly, the State Historic Preservation Act involving the SHPO, and the NHPA, as amended, and its implementing regulations (36 CFR 800). *Role: Archaeologist, Project Manager, and Principal Investigator.*

Cultural Resources - Sky Harbor CAMP EA; City of Phoenix; Phoenix, Maricopa County, Arizona. SWCA has conducted a Class III cultural resources survey including both archaeological and built environmental resources in support of the Sky Harbor CAMP EA. SWCA continues to provide Section 106 support to the Federal Aviation Administration and City of Phoenix Aviation Department. *Role: Principal Investigator.*

Phoenix-Mesa Gateway East Terminal Expansion Cultural Services; Ricondo & Associates, Inc.; Mesa, Maricopa County, Arizona. Archaeological survey and historic buildings inventory in support of PMGAA's proposal to develop the airport's northeast side as a new terminal. *Role: Archaeologist and Principal Investigator.*

Chandler Municipal Airport Drainage Study Environmental Services; Dibble Engineering; Chandler, Maricopa County, Arizona. SWCA is preparing a CE in accordance with Federal Aviation Administration NEPA guidelines, including biological, cultural, and wetland resource studies. *Role: Principal Investigator.*

Grand Canyon National Park Airport Environmental Services; Dibble Engineering; Chandler, Maricopa County, Arizona. SWCA produced a Federal Aviation Administration CE document, with supporting biological, historic, and archaeological

surveys and reporting for the Grand Canyon National Park Airport Runway/Taxiway Shoulders and Airfield Lighting Rehabilitation project. *Role: Archaeologist.*

Show Low Municipal Airport; Wilcox Professional Services, LLC; Show Low, Navajo County, Arizona. SWCA was contracted to complete multiple environmental studies, including an opportunities and constraints analysis report, a biological evaluation, and a wildlife hazard assessment. *Role: Cultural Resources Specialist.*

Sonoran Valley Parkway Environmental Impact Statement; City of Goodyear; Maricopa County, Arizona. Under the direction of the Bureau of Land Management (BLM) Phoenix District Office, SWCA prepared an EIS as a third-party contractor for the City of Goodyear. The project included a proposed parkway stretching between Goodyear and Mobile, Arizona. SWCA was responsible for coordinating the NEPA process, developing alternatives, completing impacts analysis, and conducting field surveys for natural and cultural resources on a minimum of three alternatives, each measuring approximately 20 miles long. *Role: Cultural Resources Specialist. Developed cultural resources EIS sections and supervised survey of alternatives.*

ADOT On-call Statewide Environmental Investigations; Arizona Department of Transportation; Maricopa County, Arizona. SWCA was contracted by the Arizona Department of Transportation (ADOT) to provide statewide as-needed National Environmental Policy Act (NEPA) environmental services for roadway development projects. SWCA staff conducted archaeological and biological surveys and completed CEs for projects such as pavement and shoulder improvement projects. *Role: Cultural Resources Specialist.*

Maricopa County Parks On-Call, New River Trails; Maricopa County; Maricopa County, Arizona. SWCA conducted an archaeological survey of a potential trailhead area proposed by Maricopa County Parks and Recreation Department. The trailhead examined for this project is located on lands under the jurisdiction of the ASLD. *Role: Archaeologist.*

City of Globe Pinal Creek Bridge and Road Design (EPS Group); EPS Group Inc., Engineers, Planners & Surveyors; Globe, Pinal County, Arizona. The City of Globe (City) is proposing to construct a new bridge across Pinal Creek, the reconstruction of the intersection of Broad Street/Jesse Hayes Road, a new railroad crossing, drainage and scour protection, and removal of the existing bridge structure. As a subconsultant to EPS Group, SWCA is providing biological, cultural, CWA Section 404, and environmental overview services. *Role: Archaeologist.*

Southline 2018 Pre-Construction; Southline Transmission LLC; Multiple Counties, Multiple States. SWCA served as the third-party NEPA consultant to the BLM and Western Area Power Administration (the co-lead federal agencies) and Southline LLC (the proponent). The project proposed more than 360 miles of new and rebuilt transmission line and will provide 1,000 megawatts of capacity in southern New Mexico and Arizona. The new build portion of the transmission line is located from Las Cruces, New Mexico, to Willcox, Arizona, and the rebuilt transmission line is located from Willcox, Arizona, to northwest Tucson, Arizona. The line will cross federal lands managed by the BLM and other agencies, as well as state, private, and tribal lands. SWCA is currently conducting archaeological pre-construction surveys of the proposed transmission line locations in Pinal and Pima County. *Role: Cultural Resources Lead and Principal Investigator.*

ANNIE LUTES, M.A., M.S., ARCHITECTURAL HISTORIAN

Ms. Lutes is an architectural historian, archaeologist, and project manager with over 15 years of professional experience conducting archaeological and built-environment assessments in the southwestern United States. She serves as the Cultural Resources Team Lead for SWCA's Flagstaff office. She meets and exceeds the Secretary of the Interior's Professional Qualification Standards in Architectural History, History, and Archaeology.

Ms. Lutes has extensive experience in both cultural resources management and historic preservation. This includes preparing archaeological and historic building reports, historic contexts for evaluation and assessment, and cultural resources sections for numerous environmental reports. She has managed and directed historic preservation and archaeological projects, and frequently provides her expertise on the built environment for cultural resources inventories. She has a deep understanding of how to properly apply the Criteria for Evaluation and the Section 106 process under the National Historic Preservation Act (NHPA). Ms. Lutes currently oversees Braces and Bolts reviews in California for FEMA grant-funded projects administered by the California Earthquake Authority, and recently completed a building inventory and NRHP-eligibility evaluation of 180 residential, commercial, and industrial buildings for a proposed expansion of Sky Harbor International Airport in Phoenix, Arizona.

SELECTED PROJECT EXPERIENCE

Bisbee-Douglas International Airport Cultural Resources Services; Armstrong Consultants, Inc.; Cochise County, Arizona. SWCA has been tasked with conducting a building inventory for the Bisbee-Douglas International Airport, which is owned by Cochise County. The inventory involves documenting several historic-era buildings and structures, the development of a historic context for the airport property, and evaluating the remaining components of the original World War II Douglas Army Airfield. *Role: Lead Architectural Historian. Responsible for conducting the inventory; development of the historic context; evaluations of significance; recommendations for National Register eligibility; and preparation of the final report for submission to the Arizona State Historic Preservation Office (SHPO) and the Federal Aviation Administration (FAA).*

Sky Harbor Comprehensive Asset Management Plan (CAMP) Environmental Assessment (EA) – Cultural Resources; City of Phoenix; Phoenix, Maricopa County, Arizona. SWCA was retained to conduct a comprehensive inventory of multiple city blocks north of Sky Harbor International Airport. The inventory considered both archaeological and architectural resources, including the documentation of over 180 historic-era residential, commercial, and industrial buildings located from Washington Street south to the airport boundary between 24th and 44th Streets. Terminal 4 at the airport was also evaluated for the proposed new concourse. The work was completed in support of the airport's short-range development plan, requiring FAA and Federal Railroad Administration approval. *Role: Lead Architectural Historian. Responsible for conducting the architectural inventory; development of the historic contexts applicable to the project area; evaluations of significance; recommendations for National Register eligibility; and co-authoring the final report submitted to the Arizona SHPO, the FAA, the FRA, the City of Phoenix Archaeology Office, and City of Phoenix Historic Preservation Office.*

Old Tucson Studios Historical Overview; Pima County Cultural Resources and Historic Preservation Division; Pima County, Arizona. Under its on-call contract with Pima County, SWCA prepared a historical overview of the recently closed Old Tucson Studios to capture the story of the property as a local cultural and historical icon of the

Western movie genre that is much valued by the community. The work was completed in support of internal planning for the County-owned parcel. *Role: Lead Historian. Responsible for conducting extensive research; preparation of the overview report; and development of recommendations for future work and public education opportunities.*

Pinal Airpark Historic Building Inventory; Dibble Engineering; Pinal County, Arizona. SWCA was retained to conduct a historic building inventory for the Pinal Airpark, which is owned by Pinal County. The inventory involved documenting and recording 70 historic-era buildings and structures, and the development of a historic context specific for the airpark and its nearly 80 years of history first as a World War II airfield, as a Korean War training school, and finally as a false-front enterprise for the Central Intelligence Agency during the Cold War. The work was conducted in support of future planning efforts for the facility on behalf of Pinal County. *Role: Lead Architectural Historian. Responsible for conducting the inventory; development of the historic context; evaluations of significance; recommendations for National Register eligibility; and preparation of the final report for submission to the Arizona SHPO and the FAA.*

Grand Canyon National Park Airport Architectural Documentation; Coffman Associates, Inc.; Grand Canyon, Coconino County, Arizona. SWCA conducted an architectural study of the Grand Canyon National Park Airport terminal in anticipation of proposed improvements to the building. The airport is owned and operated by the Arizona Department of Transportation. *Role: Lead Architectural Historian. Responsible for conducting the field documentation; development of the historic context; evaluations of significance; recommendation for National Register eligibility; and preparation of the final report for submission to the Arizona SHPO.*

Grand Canyon National Park Trans-Canyon National Register Determination of Eligibility and HAER Documentation; National Park Service; Grand Canyon National Park, Coconino County, Arizona. SWCA was tasked by the National Park Service to document the historic Trans-Canyon water distribution pipeline from Roaring Springs below the North Rim to Indian Garden near the South Rim. The work was conducted to assist the National Park Service in documenting the water distribution pipeline prior to replacement. *Role: Historian and Researcher. Responsible for conducting extensive archival research at the Grand Canyon National Park Museum Collections and Archives; and assisting with HAER photographic documentation of the pipeline in the Grand Canyon.*

H.A. Clark Memorial Field Historic-Era Hangar National Register Evaluation; Stantec, Inc.; Williams, Coconino County, Arizona. SWCA was retained to conduct an NRHP evaluation for a historic-era hangar at the H.A. Clark Memorial Field for proposed improvements to the airport apron. The proposed project required removal of the historic-era hangar. The assessment was conducted in support of a Categorical Exclusion. *Role: Project Manager and Architectural Historian. Responsible for project management; development of a historic context using established National Register guidance for airport properties; conducting the evaluation and assessment of effects; and preparing the final report for submission to the Arizona SHPO and the FAA.*

Coconino County Art Barn Historic Resource Study; Coconino County Department of Public Works; Flagstaff, Coconino County, Arizona. In pursuit of demolition of a historic barn, Coconino County Public Works Department tasked SWCA with preparation of a historic building assessment prior to demolition per the Flagstaff Zoning Code. *Role: Project Manager and Architectural Historian. Responsible for revising previous building assessment and evaluating significance and integrity of an early twentieth century barn converted to an art center in 1964; report prepared pursuant to City of Flagstaff requirements.*

Davis Camp Water Storage Tank Historic Structure Assessment; Mohave County; Bullhead City, Mohave County, Arizona. SWCA was retained to conduct a cultural resources evaluation, including archaeological survey and built-environment assessment, for a historic water tank in Bullhead City. The work was conducted in compliance with Section 106 of the NHPA. *Role: Architectural Historian. Responsible for conducting historic structure assessment and archaeological survey and preparation of the final report pursuant to federal guidelines for submission to the National Park Service.*

Flagstaff Amtrak Station Platform Historic Property Assessment; City of Flagstaff; Flagstaff, Coconino County, Arizona. The 1926 Atchison, Topeka & Santa Fe Railway depot, once a major call for the Super Chief and other transcontinental luxury trains, now is owned by the City of Flagstaff and serves Amtrak's daily Southwest Chief. To help Amtrak and its federal oversight agencies comply with the Americans with Disabilities Act (ADA), the city commissioned SWCA to evaluate various alternatives for altering the historic brick depot platform to also comply with Section 106 and Flagstaff's preservation ordinance. *Role: Project Manager. Responsible for project management; development of a historic context for the depot; conducting the evaluation and assessment of effects; and preparing the final report to be submitted to the Federal Railroad Administration.*

CHRISTOPHER WHITING, B.A., CULTURAL RESOURCES FIELD DIRECTOR

Mr. Whiting has 15 years of experience as an archaeologist in the southwestern United States. He has conducted archaeological survey, monitoring, excavation, and report writing for projects throughout Arizona. He has previously worked for the Gila River Indian Community Cultural Resource Management Program (GRIC-CRMP) based out of Sacaton, Arizona. In working with the GRIC for over 12 years, Chris has performed work in all seven Districts on the community and many off-reservation projects.

Board Action Item

Re: Resolution 22-24

To:	**Board of Directors**
From:	**Margi EvanSon, Operations & Maintenance Director**
Through:	**Scott Brownlee, Deputy Director/COO**
	J. Brian O'Neill, A.A.E., Executive Director/CEO
Subject:	**Revenue Parking Operations**
Date:	**May 17, 2022**

Proposed Motion

To authorize a contract with Republic Parking Systems, LLC (Republic Parking) to provide parking operations at a fixed management fee, in an amount not to exceed $1,571,468, for the length of the base term of three years, with two optional one-year extensions not to exceed $534,224 and $542,751 respectively. This amount does not include labor, which is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and will be adjusted on an annual basis:

Supervisors:	**$26.77**
Shuttle Drivers:	**$24.98**
Customer Service Representatives:	**$21.19**
Parking Attendants:	**$21.19**

Narrative

The airport currently operates and maintains three (3) revenue parking facilities comprised of 846 Daily Lot spaces, 2,808 Economy Lot spaces and 186 Hourly Lot spaces in support of the Charles L. Williams Passenger Terminal operations. In addition, PMGAA provides a non-revenue employee parking facility comprised of 150 parking spaces all to meet customer demand.

Parking lots are operated through a revenue control system and 2,808 spaces plus seasonal overflow require shuttle service to the Charles L. Williams Passenger Terminal Complex during flight activity. The evaluation panel's recommendation is to award a contract to Republic Parking System, LLC. based on the selection criteria, written proposals, pricing proposals, and a Best and Final offer, for Revenue Parking Operations services for a three-year term with two optional one-year extensions.

Request for Proposal # 2022-014-RFP for Revenue Parking Operations services was issued on January 18, 2022. The RFP was posted on the Airport website as well as on the following websites: Arizona Association of Airports, International Parking Institute, Airports Council International North America, Airport Consultants Council, and the Southwest Chapter of the American Association of Airport Executives. The RFP was also advertised in the Arizona Business Gazette on January 20 and 27 and February 3, 2022, as well as emailed to seven perspective respondents. Airport staff received four proposals on February 24, 2022:

1. Ace Parking
2. Laz Parking Southwest, LLC

3. Republic Parking System, LLC
4. SP Plus Corporation.

Based on the written proposals received, the evaluation panel selected the top three ranked firms to submit a Best and Final Offer (BAFO): Ace Parking, Laz Parking Southwest, LLC and Republic Parking System, LLC. After review of the qualifications and BAFOs, the evaluation panel unanimously selected Republic Parking as the firm that best satisfied the requirements, based on the qualifications, experience, project understanding and approach, and pricing proposal.

Fiscal Impact

This contract was included in the FY23 operating budget and is funded under Operations & Maintenance, Contractual Services: Parking Management.

Phoenix-Mesa Gateway Airport

RESOLUTION NO. 22-24

WHEREAS, the Phoenix-Mesa Gateway Airport Authority ("Authority"), a joint powers airport authority formed pursuant to Arizona Revised Statute §28-8521 *et seq.* owns and operates the Phoenix-Mesa Gateway Airport ("Airport"); and

WHEREAS the Authority desires to authorize a contract with Republic Parking Systems, LLC (Republic Parking) to provide parking operations at a fixed management fee, in an amount not to exceed $1,571,468, for the length of the base term of three years, with two optional one-year extensions not to exceed $534,224 and $542,751 respectively. This amount does not include labor, which is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and will be adjusted on an annual basis:

- Supervisors $26.77
- Shuttle Drivers: $24.98
- Customer Service Representatives $21.19
- Parking Attendants: $21.19

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Authority as follows:

The Board of Directors of the Authority hereby authorizes a contract with Republic Parking Systems, LLC (Republic Parking) to provide parking operations at a fixed management fee, in an amount not to exceed $1,571,468, for the length of the base term of three years, with two optional one-year extensions not to exceed $534,224 and $542,751 respectively. This amount does not include labor, which is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and will be adjusted on an annual basis:.

- **Supervisors $26.77**
- **Shuttle Drivers: $24.98**
- **Customer Service Representatives $21.19**
- **Parking Attendants: $21.19**

This resolution also authorizes the Chair or Executive Director/CEO to execute such Contract, with such insertions, deletions, and changes as may be approved by the Chair or Executive Director/CEO, necessary to carry out the purposes and intent of this Resolution.

Passed and adopted by the Authority this 17th day of May, 2022.

John Giles, Chair

ATTEST:

Misty Johnson, Clerk of the Board

Phoenix-Mesa Gateway Airport Authority, a joint powers airport authority authorized by the State of Arizona ("PMGAA") desires performance of the services more fully described in this **Contract Number C-20220245** ("Contract") and the attached exhibits. Republic Parking system, LLC, a Tennessee Limited Liability Corporation ("Consultant"), with its principal offices located at 633 Chestnut Street, Suite 2000, Chattanooga, TN, 37450, desires to perform these services.

Recitals

A. PMGAA requires the services as described in this Contract, including any and all exhibits and amendments, and Consultant is willing to provide these and other services under this Contract; and

B. PMGAA desires to contract with Consultant to provide services as noted herein.

Now therefore, in consideration of the recitals and the mutual covenants set forth below, PMGAA and Consultant agree as follows.

SECTION I – CONSULTANT SERVICES

The services to be performed by Consultant are specified in this Contract. PMGAA will not pay Consultant for any services that have not been authorized under the Contract. There is no guarantee of a minimum purchase of services.

The anticipated services to be provided by Consultant under this Contract shall generally include, but not be limited to, the following: Revenue Parking Operations, as more specifically described in the detailed scope of services attached as **EXHIBIT A**, "Scope of Services & Fee Schedule."

PMGAA's authorized representative shall be the PMGAA Operations and Maintenance Director, or his/her duly authorized representative, and that he/she shall be the sole contact for administering this Contract.

All services provided by Consultant under this Contract must be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances in Arizona. Consultant makes no other warranty, expressed or implied.

SECTION II – PMGAA RESPONSIBILITIES

PMGAA shall furnish Consultant, at no cost to Consultant, the following information or services for this Contract:

A. Access to copies of readily available maps, records, as-built drawings, benchmarks or other data pertinent to work assignments affiliated with this Contract. This does not, however, relieve Consultant of the responsibility of searching records for additional information, for requesting specific information or for verification of that information provided. PMGAA does not warrant the accuracy or comprehensiveness of any information or documents provided to Consultant.

B. In PMGAA's discretion and upon Consultant's reasonable request, access to staff for consultation with Consultant during the performance of this contract in order to identify the problems, needs, and other functional aspects of the work.

C. Prompt review of and feedback on Consultant's deliverables. PMGAA will advise Consultant concerning progress of PMGAA's review of the work, as needed.

SECTION III - PERIOD OF SERVICE

Consultant shall complete all work in accordance with the provisions of this Contract as amended.

All work initiated under this Contract must be completed on or before the expiration date of the Contract as amended.

The term of this Contract shall commence on July 1, 2022 and ends on June 30, 2025 ("Base Term"), unless terminated, canceled or extended as provided in this Contract.

This Contract has two (2) optional one-year extensions that PMGAA may exercise at its sole discretion. Prior to the expiration of the Contract Base Term, PMGAA may elect to extend the Contract. If PMGAA exercises such right, all terms, conditions and provisions of the original Contract shall remain the same and apply during the extended

period. All fees for the optional renewal terms are provided for in **EXHIBIT A**, "Scope of Services & Fee Schedule.". Any extension of this Contract shall require an amendment signed by both parties.

Consultant shall commence its services within seven (7) days of the written authorization by PMGAA. Consultant shall perform its services in a diligent manner and in accordance with this Contract.

SECTION IV – KEY PERSONNEL

The Consultant itself shall provide all services to be performed under this Contract. If Sub-Consultants are required by Consultant to perform any services listed under this contract, Consultant shall notify PMGAA prior to authorizing work by said Sub-Consultants. PMGAA may, at its sole discretion, accept or reject proposed Sub-Consultants

SECTION V - PAYMENTS TO THE CONSULTANT

Consultant will be paid for work performed under this Contract plus any adjustments that have been approved in writing by PMGAA in accordance with PMGAA's Procurement Policy. Payments will be made in accordance with **EXHIBIT B**, "Compensation."

All services to be rendered by Consultant are subject to the terms of **EXHIBIT B**, "Compensation" attached hereto.

PMGAA does not guarantee any minimum or maximum fee during the Term of this Contract, and Consultant, in executing this Contract, shall not anticipate or require any minimum or maximum fee.

SECTION VI - ALTERATION IN SCOPE OF SERVICES

For any alteration in the Scope of Services that would materially increase or decrease the Contract fee, the parties shall negotiate an amendment to the Contract to be executed by PMGAA and Consultant. No work shall commence on any amendment or change until the amendment has been approved by PMGAA and Consultant has been notified to proceed by PMGAA. No claim for extra work done or materials furnished by Consultant will be allowed by PMGAA, except as provided herein, nor shall Consultant do any work or furnish any materials not covered by this Contract unless the work is first authorized in writing by PMGAA and the change complies with PMGAA's Procurement Policy. Any work or materials furnished by Consultant without advance, written authorization will be at Consultant's own risk, cost, and expense. Without written authorization, Consultant shall make no claim for compensation for such work or materials furnished.

SECTION VII - WORK ASSIGNMENT COMPLETION

If, during the Term of this Contract, situations arise which prevent work completion within the allotted time, PMGAA may grant an appropriate time extension.

SECTION VIII - OWNERSHIP OF DOCUMENTS

Any documents, including all electronic copies thereof, prepared under or as a result of this Contract, shall be the property of PMGAA. To the extent necessary to effectuate such ownership, Consultant hereby assigns all right, title and interests to such documents to PMGAA. Consultant shall execute any separate contracts or documents, if any, which may be necessary to implement the terms of this Section.

All of Consultant's documents prepared under this Contract, including electronic files, are instruments of service. All of these documents become the property of PMGAA upon completion of the services and payment in full to Consultant. PMGAA may reuse or modify the documents, as it deems necessary, without Consultant's prior written authorization. PMGAA shall indemnify and hold harmless Consultant, its officers, directors, employees and subconsultants (collectively, the "Consultant") against any and all damages, liabilities or costs arising from PMGAA's modification of documents produced by Consultant under this Contract unless Consultant authorizes the modification in writing.

SECTION IX - COMPLIANCE WITH LAWS

Consultant shall comply with all federal, state and local laws, local ordinances and regulations throughout the Term.

Consultant's signature on this Contract certifies compliance with the provisions of the I-9 requirements of the *Immigration Reform and Control Act of 1986* for all personnel that Consultant and any subconsultants employ to complete any work assignment.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

PMGAA shall administer this Contract in accordance with PMGAA's Procurement Policy.

SECTION X - GENERAL CONSIDERATIONS

A. The failure of either party to enforce any of the provisions of this Contract or require performance of the other party of any of the provisions hereof shall not be construed to be a waiver of the provisions, nor shall it affect the validity of this Contract or the right of either party to enforce each and every provision.

B. The fact that PMGAA has accepted or approved Consultant's work shall in no way relieve Consultant of responsibility for the work under this Contract.

C. This Contract shall be governed by the laws of the state of Arizona, both as to interpretation and performance. Any action at law, suit in equity, or judicial proceeding for the enforcement of this Contract, or any provision thereof, shall be instituted only in the courts of the state of Arizona.

D. All exhibits to this Contract and any amendments to the Contract are incorporated into it.

SECTION XI - NO KICK-BACK CERTIFICATION

Consultant warrants that no person has been employed or retained to solicit or secure this Contract upon any agreement or understanding for a commission, percentage, brokerage, or contingent fee and that no member of the PMGAA Board of Directors or any employee of PMGAA has any interest, financially or otherwise, in Consultant's firm.

For breach or violation of this warranty, PMGAA may annul this Contract without liability.

SECTION XII – SUSPENSION OF SERVICES

Consultant shall, within five (5) business days upon receiving written notice from PMGAA, suspend, delay, or interrupt all or a part of the Scope of Services. Consultant shall resume the Scope of Services within five (5) business days of receiving written notice from PMGAA.

SECTION XIII – TIMES OF PAYMENTS

Consultant shall submit invoices no later than the seventh day of the month for the preceding month for services actually completed. PMGAA shall review, certify, and approve or reject each invoice in whole or in part. PMGAA shall pay each approved invoice within 30 calendar days of the date that PMGAA approves the invoice.

SECTION XIV – TIMELY REVIEW

PMGAA will review Consultant's studies, reports, proposals, and other related documents and render any decisions required by Consultant in a timely manner. Notwithstanding these reviews, Consultant remains solely responsible for all of its deliverables and services under this Contract. By PMGAA's reviews, PMGAA does not assume any liability for or retained control over Consultant's work or Consultant's responsibility for the safety of its employees.

SECTION XV – DISPUTE RESOLUTION

All disputes between PMGAA and Consultant arising out of or relating to this Contract will be subject to the Dispute Resolution provisions as set forth in **EXHIBIT D**, "PMGAA Standard Terms and Conditions", attached hereto and incorporated herein by reference.

PMGAA and Consultant shall include a similar dispute resolution provision in all contracts with other contractors and consultants retained for the Project and shall require all other independent contractors and consultants to include a similar dispute resolution provision in all contracts with subcontractors, subconsultants, suppliers or fabricators retained by them.

SECTION XVI - LIABILITY OF CONSULTANT

PMGAA acknowledges that the scope of services required of Consultant under the Contract do not include any security services for the Airport and PMGAA is solely responsible for all matters relating to the security and safety of the Airport, provided, however, that Consultant shall be responsible for any safety issues to the extent caused by Consultant's acts or omissions.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

PMGAA will be solely responsible for all PMGAA owned facilities and equipment. Consultant shall be responsible for liabilities caused by improper or negligent, acts or omissions of their employees, contractors, or agents as they pertain to PMGAA owned facilities and equipment. Consultant shall be responsible for upkeep of facilities as outlined within the Scope of Services. In addition, Consultant shall be responsible for keeping any workspace provided to the Consultant by PMGAA neat, clean, and in good order throughout the term of the agreement. Any claims or losses resulting from design or structural faults or defects of the PMGAA owned facilities and equipment will be the sole responsibility of PMGAA, unless resulting from the negligence or willful misconduct of Consultant.

Notwithstanding anything to the contrary in the Contract, the parties agree that Consultant is not responsible for liabilities caused by the acts or omissions of PMGAA, third parties or their employees, contractors, or agents.

In no event will either party be liable for any claim for punitive, special, exemplary, liquidated, indirect or consequential damages or for loss of profits or business provided that this limitation on liability shall not apply to or limit any claims resulting from (i) Consultant's failure to properly account for revenues collected by Consultant; and/or (ii) the imposition of liquidated damages pursuant to Section XXI of the Contract.

SECTION XVII - LAWS AND REGULATIONS

All federal, state, and local laws and regulations that relate to Consultant's services apply to Consultant's performance of this Contract throughout. These laws and regulations are deemed included in this Contract the same as though written out in full, especially the current applicable Federal Aviation Administration (FAA) rules and regulations associated with airport projects; pertinent Airport engineering standards; and local rules, regulations, and industry standards.

SECTION XVIII – ARCHAEOLOGICAL RESOURCE PROTECTION

While performing services under this Contract, Consultant may encounter a known or unknown archaeological site located at the Airport. If Consultant encounters what it believes to be an archaeological site, Consultant shall immediately notify PMGAA of the site's location and take all reasonable precautions to protect and preserve the site until PMGAA otherwise directs.

SECTION XIX INSURANCE REQUIREMENTS

A. Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

B. All insurance policies required by this Contact, except *Workers Compensation* and *Professional Liability*, shall name PMGAA, its agents, representatives, officers, directors, officials and employees as Additional Insured.

C. Minimum Scope and Limits of Insurance. Coverage shall be at least as broad as:

   i. Commercial General Liability: Insurance Services Office Form CG 00 01 covering Bodily Injury and Property Damage on an "occurrence" basis, including personal & advertising injury with limits no less than $1,000,000 per occurrence, $2,000,000 General Aggregate.
   ii. Auto Liability: ISO Form CA 00 01 covering any auto (Symbol 1), or if Consultant has no owned autos, hired, (Symbol 8) and non-owned autos (Symbol 9), with limit no less than $5,000,000 Combined Single limit per accident for bodily injury and property damage.
   iii. Workers' Compensation: Statutory Limits as required by the state of Arizona, and Employer's Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

D. If the Consultant maintains higher limits than the minimums shown above, PMGAA requires and shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to PMGAA.

E. Additional insurance provisions. The insurance policies shall provide, or be endorsed to include, the following provisions:

i. Notice of Cancellation: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to PMGAA.

ii. Waiver of Subrogation: Consultant waives any right to subrogation. Consultant shall obtain an endorsement necessary to affect this waiver of subrogation from the insurer for all lines of coverage required by this Contract, except *Workers Compensation* and *Professional Liability,* for claims arising out of the Consultant's work or service.

iii. Primary Coverage: For all claims related to this Contract, all of Consultant's insurance policies will be primary and non-contributory. Any insurance or self-insurance maintained by PMGAA, its officers, officials, employees, or volunteers will be in excess of Consultant's insurance and will not contribute with it.

iv. Deductibles and Self-Insured Retentions: Any deductibles or self-insured retentions must be declared to and approved by PMGAA. PMGAA may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

v. Acceptability of Insurers: Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A, VII, unless otherwise acceptable to PMGAA.

vi. Claims Made Policies: No Claims Made policies (other than Professional Liability) will be accepted. For policies that provide claims-made coverage:

a) The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

b) Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

c) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Consultant must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.

vii. Verification of Coverage: Consultant shall furnish PMGAA with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by PMGAA before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant's obligation to provide the required insurance. PMGAA reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

viii. Subcontractors: Consultant shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Consultant shall ensure that PMGAA is an additional insured on insurance required from subcontractors.

ix. Special Risks or Circumstances: PMGAA reserves the right to modify these requirements, including limits, based on the nature of the risk, scope of services, prior experience, insurer, coverage, or other special circumstances.

SECTION XX NOTICES

Any notice, report or information which may be or is required to be given under this Contract will be in writing and shall be sent by registered or certified mail, return receipt requested, postage prepaid, addressed as follows:

TO PMGAA: Phoenix-Mesa Gateway Airport Authority
Attn: Operations and Maintenance Director
5835 South Sossaman Road
Mesa, Arizona 85212

TO CONSULTANT: Republic Parking System, LLC
Attn: Bob Linehart
633 Chestnut Street, Suite 2000
Chattanooga, TN 37450

or to such other person(s) or address(es) as any such Party may designate from time to time by notice to the other Parties in accordance with this Section.

SECTION XXI –PERFORMANCE MONITORING AND LIQUIDATED DAMAGES

A. PMGAA reserves the right, at its sole and absolute discretion, to temporarily suspend, deny or permanently revoke Consultant's operating privileges under this Contract in the event of extended failure to meet the requirements of this Contract or failure to correct deficiencies in performance.

In addition to any other remedy available to PMGAA at law or in equity, the Consultant will be liable for and must pay to PMGAA any liquidated damages as set forth below. The parties further agree that the amount is reasonable and approximate and the actual or anticipated loss to PMGAA at the time and making of this Contract in the event that the Consultant commits a breach. The parties acknowledge and agree to the fixed amount set forth below because of the difficulty of proving PMGAA's actual damages in the event that the Consultant commits a breach.

In the event the Consultant fails to complete the Scope of Services or fails to complete the Scope of Services within the time specified in the Contract, or with such additional time as may be granted in writing by PMGAA, Consultant shall pay to PMGAA, as liquidated damages, the following sums per occurrence until such failure is resolved to PMGAA's satisfaction, together with any increased costs incurred by PMGAA, in completing the Scope of Services.

Situation	Liquidated Damages Amount
Failure to Meet the requirements of the Scope of Services - Customer Service	$55.00 per occurrence
Failure to Meet the requirements of the Scope of Services - PARCS	$55.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Revenue Control Protection	$500.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Vehicles & equipment	$55.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Management, Staffing, & Scheduling	$500.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Reporting	$100.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Irregular Operations	$500.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Administrative	$100.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Facility & Parking Lot Maintenance	$55.00 per occurrence
Failure to Meet the requirements of the Scope of Services - Shuttle Service	$100.00 per occurrence

B. The amount payable to PMGAA will be deducted from the Consultant's invoice(s).

C. Consultant agrees all of the deficiencies listed in this section shall result in PMGAA incurring damages that are impractical or impossible to determine. Consultant agrees the monetary assessments set forth in this section are reasonable approximations of such damages. The parties intend that Consultant's payment of the liquidated damages amount would serve to compensate PMGAA for any breach by Consultant of its obligations under this section, and they do not intend for it to serve as punishment for any such breach by Consultant, but rather a reasonable measure of damages.

D. In the event of Consultant's failure to provide services, including but not limited to shuttle service, PMGAA may need to procure shuttle services or other ancillary services, from a third party. In this event, Consultant shall be responsible for, and pay to PMGAA, all expenses incurred for obtaining the third party shuttle services or ancillary services in addition to paying any liquidated damages PMGAA may impose.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

SECTION XXII PAYROLL RECORDS AND LABOR CERTIFICATION REPORT

Consultant shall submit, no later than the seventh day of each month for the preceding month, payroll records for employees working under this Contract.

Executed as of the Commencement Date.

EXHIBIT A – SCOPE OF SERVICES & FEE SCHEDULE

The services to be performed by Consultant and the completion of related efforts are specified in the following Scope of Services & Fee Schedule agreed to by the parties.

SCOPE OF SERVICES

1. Background

PMGAA operates three (3) revenue parking facilities in support of the Charles L. Williams Passenger Terminal operations. In addition, PMGAA provides a non-revenue employee parking facility comprised of 150 parking spaces.

Revenue Facilities

- Daily Lot – 846 spaces
- Economy Lot – 2608 uncovered spaces / 200 covered spaces
- Hourly Lot – 186 spaces

The revenue parking operation utilizes a cashier-less, automated Pay-On-Foot (POF) system. Scheidt & Bachmann provides the Parking Access Revenue Control System (PARCS). PMGAA currently utilizes a chip-coin based system and is replacing this system with a ticket-based system. The system replacement is currently in progress.

2. Requirements

a. General

Consultant shall furnish all labor, insurance, supervision, and incidentals necessary for the operation and management of the parking facilities, PARCS, and shuttle services.

The responsibilities of the Consultant shall include, but are not limited to, the items listed below and in accordance with those normally related to the management of airport parking facilities and shuttle systems. Consultant shall operate the facilities to provide exceptional customer service, generate revenue, create operational efficiencies, and reduce or limit costs.

b. Customer Service

PMGAA believes that parking is the first and last impression for customers, making customer satisfaction critical. A high level of professionalism and customer service is a priority for PMGAA and shall be provided by the Consultant.

The following services shall be provided by Consultant at no additional cost to the customer or PMGAA.

i. Amenities

a) Courtesy Assistance – Consultant shall provide motorist assistance services to PMGAA's parking customers to include locating lost vehicles, inflating flat tires, and jump-starting dead batteries. All required equipment for these services shall be provided by the Consultant.

b) Luggage Assistance – Consultant shall assist customers with loading/unloading luggage into/off-of the shuttle buses.

ii. Customer Assistance

a) Parking Hotline – Consultant shall be responsible for, and monitor the PMGAA parking hotline, and check for messages a minimum of three (3) times a day. Consultant's staff shall respond back to all messages within 24 hours.

b) Intercom – Consultant shall provide immediate assistance to those requesting help via the PARCS intercom system. The Consultant shall be responsible for providing the requested information or dispatching the appropriate resources to assist the customer.

c) In-person – Consultant shall provide personnel in the revenue parking lots during peak air carrier arrival and departure times to provide customer service to patrons. Personnel shall

effectively facilitate parking lot arrival traffic, exiting traffic, and internal traffic flows. In addition, personnel shall respond to calls for service from the PARCS intercom system.

d) Complaints – Consultant shall investigate and resolve all complaints from public persons who use the PMGAA parking facilities. In the event of a conflict of interest, or a refund request, the complaint resolution process shall be forwarded to the designated PMGAA staff member.

iii. Quality Control/Quality Assurance

a) Customer Surveys - Customer service surveys, in a format approved by PMGAA, shall be completed on a quarterly basis. Summarized results shall be provided to PMGAA upon completion of each survey.

b) Audit Rights and access to records – see Exhibit D, PMGAA Standard Terms and Conditions.

c. Parking Access Revenue Control System Equipment

The Consultant shall ensure that all facets of the PARCS are operating at all times, including entry/exit lane equipment, pay stations, management hardware and software, signage, and monitoring equipment.

i. Equipment Support

a) Troubleshooting – In the event of a technical issue with a field device, the Consultant shall comply with the following procedure to restore functionality:

- Troubleshoot the problem in accordance with PMGAA procedures and equipment operating manuals.
- Complete a light repair, including but not limited to, resetting a device.
- If the light repair does not resolve the problem, the issue shall be escalated to the designated PMGAA staff member to submit a service request with Scheidt & Bachmann.

ii. Consumables

a) Ticket Stock and Receipt Paper – All entry/exit devices and pay stations shall be stocked with the appropriate quantity of consumables to ensure proper functionality of the device. Consumables utilized by the PARCS will be provided by PMGAA and stored in an area designated by PMGAA. The Consultant shall be responsible for pulling consumables from PMGAA's inventory in accordance with inventory control procedures.

d. Revenue Control, Collection, & Protection

Consultant shall be responsible for the conduct of proper revenue control procedures and for the preparation and submission of reports associated with such procedures and shall comply with Generally Accepted Accounting Principles (GAAP) and auditing standards.

i. Unaccounted-for Revenues

a) Misplaced/Lost Revenue – Consultant shall be responsible for all cash collected and any credit card revenue collected via the Consultant's mobile credit card terminals. If any revenue is misplaced or lost while in the custody of the Consultant, the Consultant shall report the missing or lost money to PMGAA within twenty-four (24) hours after the occurrence. The Consultant, at no expense to PMGAA, shall make payment in full to PMGAA the amount of revenue misplaced or lost in full within fourteen (14) calendar days unless PMGAA and the Consultant agree to a longer period of time. The amount of missing or lost revenue shall be determined by using system accounting software, receipts, counters, and other equipment. PMGAA may investigate any incident of misplaced or lost revenue. If a dispute arises in the amount of misplaced or lost revenue, the determination of PMGAA shall prevail.

b) Stolen Revenue - If any revenue is stolen, the Consultant shall notify the Police immediately after the theft is discovered. The Consultant shall also notify PMGAA no later than twenty-four (24) hours after the Police have been notified. For instances of internal theft, the Consultant shall immediately reimburse PMGAA for the full amount lost as a result of the occurrence. For instances in which external theft occurs, the Consultant has no more than fourteen (14) calendar days to make payment in full to PMGAA. PMGAA may investigate any incident of theft.

ii. Revenue Protection

a) Collection of Revenue – The Consultant shall take every reasonable action to collect and enforce the collection of all parking associated fees. In the event of a PARCS malfunction, the

Consultant shall utilize mobile credit card terminals to collect parking fees. Revenues shall be accounted for on a daily basis.

b) Cash-Handling – A cash bank shall be supplied and maintained, by the Consultant to stock all cash processing pay stations. The Consultant shall be responsible for implementing and using strong cash-handling controls in accordance with its revenue control procedures.

c) Fee Waiver – Consultant is prohibited from waiving or adjusting parking fees without the express approval of the PMGAA Executive Director/CEO or designee. Further, any such adjustments, if approved, shall be documented by the Consultant in a manner approved by PMGAA.

d) License Plate Recognition (LPR) Image Review – Consultant shall continuously, during operating hours, review and adjudicate license plate images within the PARCS & LPR System to rectify any alarms or read issues that arise to ensure license plates are correctly associated with tickets.

e) Lot Counts – Consultant shall conduct parking lot counts of vehicles, in every PMGAA revenue facility, at a minimum of three (3) times per day, to ensure an accurate space count within the PMGAA PARCS System. Offer shall update the PARCS system upon completion of each count.

e. Shuttle Service

Consultant shall own, operate, and maintain a shuttle bus system to transport customers between the Charles L. Williams Passenger Terminal, at 6033 S. Sossaman Road, and the Ray Road Economy Lot.

i. Service Guarantees

a) Roundtrip Time – Shuttles shall maintain a seven (7) minute, one-way, travel time to/from the Terminal and the Economy Lot.

b) Wait Time – The maximum wait time for passengers to be picked up shall be no longer than ten (10) minutes.

ii. Shuttle Service Requirements

a) Vehicles – Consultant shall provide shuttles based on the quantity and specifications listed in the *Vehicles & Equipment* section of this RFP and in accordance with **Exhibit F,** "Consultant's Vehicles."

b) Drivers - shall be qualified to operate the shuttles. All drivers shall be properly licensed to provide the services of the Consultant and shall meet all applicable U.S. Department of Transportation, Arizona Department of Transportation, and any other federal, state, or local requirements for operating a commercial vehicle.

c) Emergencies – Consultant may be required, in the event of a catastrophic emergency on the airport, provide shuttle service as directed by the Incident Commander or other personnel designated by PMGAA.

f. Vehicles & Equipment

Consultant shall provide and maintain vehicles and equipment in support of this operation. All vehicles shall be clean, maintained, and in good working order. Vehicles shall be a maximum of five (5) years old.

i. Shuttles

a) Quantity & Style – Consultant shall provide and operate shuttles in accordance with "**Exhibit F,** "Consultant's Vehicles," two of which shall be Non-CDL and two of which shall be CDL. If shuttles require replacement, Consultant must obtain prior written approval of the replacement(s) from PMGAA.

The Consultant shall procure and implement graphics on the vehicles in collaboration with PMGAA. The finalized graphics shall be reviewed and approved by PMGAA prior to installation.

b) Capacity – Shuttles shall have the following capacities:

- Non-CDL: 14 passengers
- CDL: At least 30 passengers

c) ADA Accessibility – All shuttles shall be ADA compliant/compatible for passengers requiring ADA assistance.

d) Fuel Type – N/A
e) Tracking – Shuttles shall be outfitted with an electronic GPS tracking solution. The solution shall be web-hosted and shall be capable of providing, but not limited to, the following features:
- Administrative Web Dashboard with live vehicle tracking and reporting capabilities
- Customer facing features such as estimated arrival time for a shuttle

ii. Service Vehicle
a) Quantity & Style – Consultant shall provide the service vehicle listed in **Exhibit F,** "Consultant's Vehicles," to enable staff to respond to calls for assistance and perform functions within the Scope of Services. The vehicle shall be equipped with an amber light bar. The Consultant shall procure and implement graphics on the vehicle(s) in accordance with graphic design standards designated by PMGAA.

iii. Radios
a) PMGAA Operations – The Consultant shall procure two (2) radios that conform to PMGAA configuration standards and are approved by PMGAA. Upon conclusion of the contract, the ownership of the radios shall be transferred to PMGAA.
b) Internal Communications – Radios shall be procured and utilized by the Consultant to facilitate internal communication and operational efficiencies.

iv. Mobile Credit Card Terminals
a) Quantity & Style – The Consultant shall provide at least three (3) cellular based, mobile credit card terminals to process credit card payments in the event of payment processing issues with the PARCS. These terminals shall be EMV certified/compliant and meet all applicable Payment Card Industry (PCI) security standards.
b) Management – Consultant shall be responsible for upkeep of these devices, all bank merchant fees, payment processing fees, and all consumables needed for the devices.

g. Facility & Parking Lot Maintenance
The Consultant, by way of their own staff or by use of subcontracted services, as allowed, shall provide the following services:
i. Cleaning and trash removal of the public parking lots, including but not limited to; the removal of paper debris and litter, bottles, cans and broken glass; liquid matter or waste as needed; and the emptying of trash receptacles. The Consultant shall remove or provide for the removal of all such litter, debris, trash and other matter to an approved dumping station as often as required. At no time is litter, debris, trash or other matter to remain uncollected and not deposited in trash receptacles or otherwise removed from the site (including trash overflowing) for more than 12 (twelve) hours.
ii. Housekeeping maintenance in and around the existing parking office located in the Ray Road Economy Lot.

h. Management, Staffing, & Scheduling
The Consultant shall employ, train, schedule, and assign personnel in accordance with **Exhibit E,** "Staffing Requirements," and to sufficiently meet the Scope of Services seven (7) days per week as needed to accommodate airline arrival and departure traffic.
Consultant shall staff and operate at least 2.5 hours prior to the first departure of the day and shall cease operation approximately 1.5 hours after the checked baggage from the last arriving flight has been delivered to baggage claim.
i. Management
a) General Manager
- The operation shall be under the supervision and direction of a full-time, qualified, competent, on-site General Manager subject to the direction and control of PMGAA. The General Manager must make arrangements to be able to respond, or have a delegate with comparable authority respond, on-site within one (1) hour of being notified of a major impact to operations. At a minimum, the Consultant's General Manager must be physically present on-site during conventional weekday working hours, 8am-5pm. The General Manager must also

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

regularly make on-site inspections of Consultant's operation at other hours of the day and other days of the week. PMGAA reserves the right to exert its discretion with regard to the retainment of the General Manager.

b) Supervisors
- The Consultant shall provide supervisors to monitor the overall operation, performance, standards, and staffing for each shift.

ii. Staffing

a) The following staff level positions shall be staffed in accordance with **Exhibit E,** "Staffing Requirements." and at sufficient levels to ensure the Scope of Services is met during operating hours:
- Shuttle Driver(s) – Drives shuttles in accordance with all requirements listed within the Scope of Services.
- Customer Service Representatives (CSRs) – Provides customer assistance in the field and completes all other requirements listed within the Scope of Services.
- Parking Attendant – This position staffs a workstation in the Parking Office to monitor the PARCS system, complete LPR Image Review, answer Intercom calls, dispatches CSRs for customer assistance, and maintains radio communication with PMGAA Operations and the Consultant's staff.

i. Irregular Operations

PMGAA experiences irregular operations from time to time, including but not limited to flight delays, emergencies, and extraordinarily high passenger activity levels. The Management Fee stated in **Exhibit A**, "Scope of Services and Fee Schedule", may not be increased due to any Irregular Operations. The Reimbursable Hourly Labor Rates sated in **Exhibit A**, shall apply to any irregular Operations.

i. Flight delays & Emergencies

a) The Consultant may be required to stay late and provide the required level of resources to support flight delays or emergencies.

ii. Extraordinarily high passenger activity levels

a) Consultant shall procure the necessary personnel and equipment to meet the requirements of the Scope of Services.

j. Administrative

The following administrative requirements shall be followed by the Consultant. This list is subject to change by PMGAA at its discretion:

i. Uniforms

a) General Requirements – The Consultant shall provide uniforms and identification badges to its employees.
b) Uniform Approval - All uniforms are subject to review and approval by PMGAA.
c) Uniform Restrictions – No other clothing will be allowed except for personal shoes, which shall be closed toed.
d) Responsibility for Uniforms – All upkeep, maintenance, and replacement of uniforms are the responsibility of the Consultant.

ii. Personnel

a) Background Screening – The Consultant shall conduct a 10-year criminal background check, a motor vehicle records check for the last 36 months, and a verification of employment for the last ten years on all employees prior to employment and/or assignment to PMGAA. Hiring decisions after review of such verifications will be made based on the job duties being performed by the potential employee and the type(s) of infractions, arrests and/or convictions.

iii. Invoicing

a) Due date – Accurate invoices shall be provided by the Consultant to PMGAA no later than the seventh day of the month for the preceding month. In the event the due date falls on a weekend or holiday, the invoice will be provided on the next business day.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

b) Cash Revenues & Credit Card Revenues (Collected by Consultant) – Cash Revenues and Credit Card Revenues collected by the Consultant (Via the mobile credit card terminals) shall be included on the monthly invoice to PMGAA and shall offset any balance due to the Consultant.

iv. Tax Remittance

a) PMGAA shall be responsible for the remittance of applicable City of Mesa and State of Arizona taxes ("Parking Taxes") to the appropriate authorities.

v. Operations Manual

a) Consultant shall maintain an up-to-date Operations and Procedures manual on-site for employees and shall be available to PMGAA staff for review. The manual shall be created specifically for the PMGAA location. A standard manual that covers all of the Consultant's contracts at other locations is not acceptable. The manual shall be completed and submitted to PMGAA within 60 days of the commencement of the contract, in a form acceptable to PMGAA.

vi. Reporting

a) Monthly Operating Report - On a Monthly basis, the Consultant shall provide to PMGAA, in a format approved by PMGAA, a report delineating the following:

- Hourly Shuttle Counts per day
- Equipment Issues
- Parking Exceptions

b) Quarterly Operating Report – On a quarterly basis, the Consultant shall provide to PMGAA, in a format approved by PMGAA, a report delineating the following:

- Consultant's Operating Status (Staffing Levels, Vehicle health, etc.)
- Activity forecasts for the upcoming quarter
- Contingency Plans for upcoming holidays and or peak travel times

c) Annual Report – Consultant shall compose and deliver an annual report for the previous fiscal year (July 1 – June 30) to PMGAA no later than July 31st. The report shall include:

- An analysis on parking revenue for the year, with comparisons to the previous fiscal year
- A report on the Consultant's equipment condition and staffing levels
- The Consultant's goals for the upcoming fiscal year
- Recommendations/Proposals for operational or physical improvements
- Recommendations for revenue enhancement

k.. N/A

l.. Advertising

PMGAA reserves the right to advertise inside Consultant's shuttles while in service at PMGAA. Consultant shall not be allowed to advertise inside Consultant's shuttles while in service at PMGAA.

FEE SCHEDULE

For the services provided herein, PMGAA agrees to pay Consultant the following amounts. Labor hours are a variable, based on demand to meet the Scope of Services.

EXHIBIT B - COMPENSATION

All compensation for services rendered by Consultant shall be based upon criteria established below. All services must be billed through the Consultant.

1. Fees to be Specified in Contract

Any and all services to be performed under this Contract require approval. All compensation for services shall be identified in writing. The Contract shall describe the scope of services to be performed (by tasks and subtasks, where appropriate), the fees associated with that performance, and any applicable special provisions. Consultant's compensation for services included in this Contract is totaled and set forth in **EXHIBIT A**, "Scope of Services and Fee Schedule".

2. Method of Payment

Subject to the terms of this Contract, PMGAA shall pay Consultant the appropriate rate or fixed price amount for services rendered as described in the Contract only after Consultant has submitted an invoice for services performed and PMGAA has certified and approved each invoice.

For services rendered in accordance with the Contract, Consultant shall submit to PMGAA an invoice depicting tasks performed and/or hours spent for services performed. Invoices must be based on the actual hours and/or expenses incurred for the services completed during the billing period. Consultant's invoices must specify that Consultant has performed the services, and PMGAA must certify and approve each invoice as a condition to payment.

3. Consultant Responsibilities for Compensation

Consultant shall prepare monthly invoices and/or progress reports in accordance with terms specified in the Contract. Progress reports will clearly indicate the progress to date and the amount of compensation due by virtue of that progress. All invoices for payment shall be for work completed unless otherwise agreed to by PMGAA. Invoices/requisitions for payment for services subject to funding by the FAA and/or ADOT shall include the documentation requirements of the FAA and/or ADOT, which are outlined in the *Airport Improvement Program (AIP) Handbook* dated September 30, 2014, or most current version.

4. PMGAA Responsibilities for Compensation

PMGAA agrees to pay Consultant's invoices for payment within 30 calendar days after the invoice is approved. PMGAA may withhold payment on any invoice if it believes that Consultant has not performed the work in a satisfactory manner. If PMGAA withholds payment to Consultant, PMGAA shall promptly notify Consultant and explain the reasons for the decision to withhold payment.

5. Billing Address

All invoices submitted to PMGAA for payment shall be submitted to:

Phoenix-Mesa Gateway Airport Authority
Attn: Accounts Payable
5835 S. Sossaman Road
Mesa, Arizona 85212

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

EXHIBIT C - SPECIAL PROVISIONS

1. Civil Rights Act of 1964, Title VI – General

The contractor agrees to comply with pertinent statues, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color or national origin, sex, age or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance.

2. Civil Rights Act of 1964, Title VI – Assurances

During the performance of this Contract, the contractor, for itself, its assignees and successors in interest agrees as follows:

a. Compliance with Regulations – Compliance with Regulations: The contractor (hereinafter includes consultants) will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.

b. Nondiscrimination – The contractor, with regard to the work performed by it during the contract, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

c. Solicitations for Subcontracts, including Procurements of Materials and Equipment – In all solicitations, either by competitive bidding, or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the contractor of the contractor's obligations under this contract and the Non-discrimination Acts And Authorities on the grounds of race, color, or national origin.

d. Information and Reports – The contractor will provide all information and reports required by the Acts, the Regulations and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by PMGAA or the FAA to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the contractor will so certify to PMGAA or the FAA as appropriate, and will set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance – In the event of a contractor's noncompliance with the Nondiscrimination provisions of this contract, the Recipient will impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to:

i) Withholding of payments to the contractor under the contract until the contractor complies, and/or;
ii) Cancellation, termination, or suspension of the Contract, in whole or in part.

f. Incorporation of Provisions – The contractor will include the provisions of paragraphs one through six of this **EXHIBIT C** in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. The contractor will take action with respect to any subcontract or procurement as PMGAA or the FAA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the contractor may request PMGAA to enter into any litigation to protect the interests of PMGAA. In addition, the contractor may request the United States to enter into the litigation to protect the interests of the United States.

3. Civil Rights – Title VI List of Pertinent Nondiscrimination Acts and Authorities

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- 49 CFR part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;
- The FAA's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

4. <u>Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion</u>

Consultant, by accepting this Contract, certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any government department or agency.

5. <u>Project Security</u>

As some or all portions of work possible during the Term of this Contract may be located inside the secured area of the Airport, adherence to and familiarity with federal security regulations is essential. For these projects, Consultant shall be responsible for fulfilling the security requirements described herein.

a. <u>Secured Area Access</u> – All Consultant personnel who require unescorted access to the secured area of the Airport, prior to the issuance of an Airport Identification badge, must successfully complete the Security Badge Application and Security Badge Authorization forms.

b. Employee Security Badges – If deemed necessary by PMGAA all Contractor and/or subcontractor personnel performing work functions in accordance with this Contract shall obtain and properly display an Airport security badge. Consultant shall submit a Security Badge Application form to the PMGAA security office for each employee requiring unescorted access, along with the current fee for each badge. Badge fees are identified on the current *Airport Fees, Services and Rental Rates* available via the Airport website at www.gatewayairport.com and are subject to change.

i. All fees must be paid to PMGAA by cash or check.
ii. Airport Security Badge Application forms and instructions are available via the Airport website at www.gatewayairport.com.
iii. An authorized representative of Consultant must also obtain and submit a Security Media Authorization form, which is to be submitted to the PMGAA badging office. The Security Media Authorization form and instructions are available via the Airport website at www.gatewairport.com.
iv. A training class on aviation security must be successfully completed before individuals are issued a badge. Fees for the security badge include attendance for the necessary training classes. Attendance at the security classes and issuance of the security badge may take two hours per person.
v. Additional information, including a "Frequently Asked Questions" is available via the Airport website at www.gatewairport.com or by contacting the PMGAA Badging Office at (480) 988-7522. The Badging Office is located at 5803 S. Sossaman Road, Mesa AZ 85212.
vi. Consultant shall immediately notify the PMGAA Badging Office of any Consultant personnel whose employment status has changed.
vii. Consultant shall retrieve all security badges and keys and return them to the PMGAA Badging Office. A fee, as indicated on the most current *Airport Rates and Charges Schedule*, will be charged for each badge that is damaged, lost or not returned.
viii. The PMGAA Badging Office will require a completed Security Badge Application from each Consultant employee so certified by Consultant as requiring such before a Security Badge is issued.
ix. Under certain circumstances and out of control of PMGAA, security measures may change on short notice. No deviations from any security measure shall be allowed at any time.
x. At all times, aircraft shall have the right-of-way over all vehicle traffic.

c. Fines – Due to both the safety and security precautions necessary at the Airport, any failure of the Consultant to adhere to prescribed Airport requirements/regulations has consequences that may jeopardize the health, welfare and lives of Airport customers and employees, as well as the Consultant's own employees. Therefore, if Consultant is found to be in non-compliance with any security, airfield badging/licensing and airfield safety requirement, a Notice of Violations (NOV) may be issued. A current listing of fines is available by contacting the PMGAA Badging Office.

6. Standard Terms & Conditions

PMGAA's Standard Terms & Conditions (in **EXHIBIT D** attached) include clauses that pertain to both construction and professional services. For such, the term "contractor" is to be considered same as "consultant." If a clause implies construction service then it is waived for a professional services contract. PMGAA reserves the right to make that determination if there is a conflict.

7. Federal and State Guidelines and Regulations

All work performed under this Contract must satisfy FAA and applicable agency standards, and be accomplished in accordance with applicable federal, state and local guidelines and regulations, including FAA Advisory Circulars, NEPA and Arizona environmental statutes.

Consultant shall perform the services as described in approved Contract in accordance with the applicable requirements imposed by PMGAA, ADOT, FAA and any other applicable sponsoring agencies. Consultant and its subconsultants/subcontractors, if any, shall comply with any and all applicable laws, regulations, executive orders, policies, guidelines, and any other requirements for FAA Airport Improvement Program (AIP) projects. Consultant shall provide PMGAA all information, reports, documents, and/or certifications requested by PMGAA for the satisfaction of any grant requirements for the reimbursement of services, including, without limitation, identifying

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

the specific services provided by Consultant and the billing period(s) during which services were or are to be provided. Nothing herein shall be construed as making the FAA or ADOT a party to this Contract.

8. Right to Contract With Other Firms

PMGAA shall have the right to contract with other firms and/or persons and/or to self-perform additional services, which may be the subject of this Contract. Consultant shall conduct its operations and perform any services authorized under the Contract so as not to interfere with or hinder the progress of completion of the work being performed by PMGAA and/or other firms and/or persons. Consultants working on the same project shall cooperate with each other in the performance, scheduling, and, if applicable, the integration of their respective services.

9. Independent Contractor Status

At all relevant times, Consultant is - and shall remain - an independent contractor with regard to performance of its services. PMGAA retains no control over Consultant, the performance of its work or services, or the safety of its employees. Consultant is not authorized to enter into any contract or commitment, authorize any payment, or accept any document, services, goods or materials for, in the name of, or on behalf of PMGAA.

EXHIBIT D – PMGAA STANDARD TERMS & CONDITIONS

1. **Certification.** Consultant certifies:
   a. The award of this Contract did not involve collusion or other anti-competitive practices.
   b. It shall not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, or A.R.S. Section 31-1461, et. seq.
   c. It has not given, offered to give, nor intends to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Contract; and Consultant hereby certifies that the individual signing this Contract is an authorized agent for Consultant and has the authority to bind the Consultant to the Contract.

2. **Termination of Contract.**

   a. PMGAA reserves the right to cancel this Contract in whole or in part due to failure of Consultant to carry out any term, promise, or condition of the Contract. At least ten (10) business days before terminating the Contract, PMGAA will issue a written notice of default specifying one of the following reasons. PMGAA shall, at all times during the term of the Contract or any extension term thereto, have the sole authority to determine if the default has been cured to its satisfaction.

      (1) Consultant has provided personnel that do not meet the requirements of the Contract.

      (2) Consultant has failed to perform adequately the stipulations, conditions or services/specifications required in this Contract.

      (3) Consultant has attempted to impose on PMGAA personnel or materials, products, or workmanship of unacceptable quality.

      (4) Consultant has failed to furnish the required service(s) and/or product(s) within the time stipulated in the Contract or associated Authorization of Services.

      (5) Consultant has failed to make progress in the performance of the requirements of the Contract or Authorization of Services, or Consultant fails to give PMGAA adequate assurance the Consultant will perform the Contract in full and on time.

      (6) Each payment obligation of PMGAA created hereby is conditioned on the availability of PMGAA, state, or federal funds appropriated for payment of the obligation. If funds are not available or allocated by PMGAA for continuance of service under this Contract, then PMGAA may terminate the Contract. PMGAA shall promptly notify Consultant regarding the service that may be affected by a shortage of funds. No penalty accrues to PMGAA if this provision is exercised, and PMGAA shall not be liable for any future payments due or for any damages as a result of termination under this paragraph.

   b. This Contract may be terminated at any time by mutual written consent or by PMGAA - with or without cause - provided the terminating party gives forty-five (45) calendar days' advance written notice to the other party. PMGAA may terminate this Contract, in whole or in part, for PMGAA's convenience and with fourteen (14) days' written notice. If this Contract is terminated, then PMGAA is liable only for services rendered and material received, certified, and approved by PMGAA under the Contract before the termination effective date.

3. **Dispute Resolution**.

   a. **Negotiations**. If a dispute arises out of or relates to this Contract or its breach, the parties to this Contract shall endeavor to settle the dispute through direct discussions as a condition precedent to mediation or binding dispute resolution.

   b. **Mediation**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations, the parties to this Contract, upon the written request of either, shall engage in mediation, to be administered privately by a mediator and according to rules mutually agreed upon by the parties to this Contract, or, the absence of such mutual agreement, by a mediator appointed by JAMS and

administered by JAMS in accordance with its then-current mediation rules. The fees and costs of mediation shall be split equally by the parties to this Contract, but subject to reallocation following binding dispute resolution.

c. **Binding Dispute Resolution**. Should the parties to this Contract be unable to resolve their dispute through direct negotiations or mediation, either party may, within the time limitations for bringing claims under Arizona law and this Contract, commence formal dispute resolution proceedings. Both parties to this Contract consent to binding arbitration administered by JAMS according to its then current arbitration rules, provided, however, that (i) in the event both parties agree, the arbitration may be administered privately by an arbitrator and according to rules mutually agreed upon by the parties to this Contract, and (ii) in the event any party seeks relief against the other party or against a non-party which cannot fully be granted in arbitration, by reason of non-joinder or otherwise, the parties to this Contract are excused from this arbitration requirement and the parties to this Contract shall proceed in the state or federal courts of competent jurisdiction and located in Maricopa County, Arizona. In any arbitration or litigation, the prevailing party shall be entitled to an award of its reasonable attorneys' fees and costs as determined by the arbitrator or court as applicable.

4. **Independent Contractor.** At all times, each party acts in its individual capacity not as agent, employee, partner, joint venturer, or associate of the other party. An employee or agent of one party may not be deemed or construed to be the employee or agent of the other party for any purpose whatsoever. Neither Consultant nor any of its employees are entitled to compensation from PMGAA in the form of salaries, paid vacation, or sick days. PMGAA will not provide any insurance to Consultant, including *Workers' Compensation* coverage. PMGAA will not withhold FICA, taxes, or any similar deductions from PMGAA's payments under this Contract.

5. **Affirmative Action.** Consultant shall abide by all the federal and state of Arizona provisions for equal opportunity in the work place.

6. **Human Relations**. Consultant shall abide by all the federal and state of Arizona provisions against discrimination of disadvantaged business enterprises in applicable PMGAA contracts.

7. **Non-Exclusive Contract**. This Contract is for the sole convenience of PMGAA. PMGAA reserves the right in its discretion to obtain the same or similar goods or services from any other source.

8. **Americans with Disabilities Act.** Consultant shall comply with all applicable provisions of the *Americans with Disabilities Act* (Public Law 101-336, 42 U.S.C. 12101-12213) and applicable federal regulations under the *Act*.

9. **Confidentiality of Records**. Consultant shall establish and maintain procedures and controls that are acceptable to PMGAA for the purpose of assuring that no information contained in its records or obtained from PMGAA or from others in carrying out its functions under the Contract shall be used by or disclosed by it, its agents, officers, or employees, except as required to efficiently perform duties under this Contract. Persons requesting such information should be referred to PMGAA. Consultant also agrees that any information pertaining to individual persons shall not be divulged other than to employees or officers of Consultant as needed for the performance of duties under the Contract, unless otherwise agreed to in writing by PMGAA.

10. **Gratuities.** PMGAA may, by written notice to the Consultant, cancel this Contract if it is found that gratuities, in the form of entertainment, gifts or otherwise, were offered or given by Consultant or any agent or representative of Consultant, to any officer or employee of PMGAA involved in the amending, or the making of any determinations with respect to the performing of such Contract. If this Contract is canceled by PMGAA under this provision, PMGAA shall, in addition to any other rights and remedies, repay to the Consultant the amount of the gratuity.

11. **Applicable Law.** This Contract shall be governed by, and PMGAA and Consultant shall have, all remedies afforded each by the *Uniform Commercial Code*, as adopted in the state of Arizona, except as otherwise provided in this Contract or in laws pertaining specifically to PMGAA. This Contract shall be governed by

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

the laws of the state of Arizona, and suits pertaining to this Contract shall be brought only in federal or state courts in the state of Arizona.

12. **Contract**. This Contract is based on and the result of a negotiated Scope of Services and Proposal, Bid or Statement of Qualifications submitted by Consultant under this RFP, IFB or RFQ. The Contract contains the entire agreement between PMGAA and Consultant. No prior oral or written agreements, contracts, proposals, negotiations, purchase orders, or master agreements (in any form) are enforceable between the parties.

13. **Contract Amendments**. This Contract shall be modified only by a written amendment signed by the PMGAA Executive Director or his/her designee, and persons duly authorized to enter into contracts on behalf of Consultant.

14. **Provisions Required by Law**. Each and every provision of law and any clause required by law to be in the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not correctly inserted, then upon the application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

15. **Severability.** The provisions of this Contract are severable to the extent that any provision or application held to be invalid shall not affect any other provision or application of the Contract, which may remain in effect without the valid provision, or application.

16. **Protection of Government Property.** Consultant shall use reasonable care to avoid damaging all PMGAA property, including buildings, equipment, and vegetation (such as trees, shrubs, and grass). If Consultant damages PMGAA's property in any way, Consultant shall immediately report such damage to PMGAA and repair or replace the damage at no cost to PMGAA, as directed by the PMGAA Executive Director. If Consultant fails or refuses to repair or replace the damage, then PMGAA may terminate the Contract, and PMGAA shall deduct the repair or replacement cost from money due Consultant under the Contract.

17. **Interpretation – Parol Evidence.** This Contract is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms thereof. No course of prior dealings between the parties and no usage of the trade shall be relevant to supplement or explain any term used in this Contract. Acceptance or acquiescence in a course of performance rendered under this Contract shall not be relevant to determine the meaning of this Contract even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to object.

18. **Subcontracts.** Consultant shall not assign any rights or interest nor enter into any subcontract with any other party to furnish any of the materials, goods or services specified herein without the prior written permission of PMGAA. PMGAA may, at its sole discretion, accept or reject proposed subcontractors or assignment. PMGAA shall notify Consultant of its acceptance or rejection within forty-five (45) days or written request by Consultant. All subcontracts shall comply with federal and state laws and regulations applicable to the materials, goods or services covered by the subcontract and shall include all the terms and conditions set forth herein, which shall apply with equal force to the subcontract, as if the subcontractor were the Consultant referred to herein. Consultant is responsible for Contract performance whether subcontractors are used.

19. **No Waiver.** No provision in this Contract shall be construed, expressly or by implication, to waive either party's existing or future claim, right, or remedy available by law for breach of contract. The failure of either party to insist on strict performance of any Contract term or condition; to exercise or delay exercising any right or remedy provided in the Contract or by law; or to accept materials, services, or Consultant's services under this Contract or imposed by law, shall not be deemed a waiver of any right of either party to insist upon strict performance of the Contract.

20. **Warranties.** Consultant warrants that all materials and services delivered under this Contract shall conform to the specifications thereof. Mere receipt of shipment of the material or service specified and any inspection incidental thereto by PMGAA, shall not alter or affect the obligations of Consultant or the rights of PMGAA under the foregoing warranties. Additional warranty requirements may be set forth in this Contract.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

21. **Indemnification.**

A. Consultant's Indemnity. To the fullest extent permitted by law, Consultant hereby agrees to defend, indemnify and hold harmless PMGAA for, from and against any and all third-party claims, causes of action, liability, suits, litigation (including reasonable attorney's fees and other costs of investigation and litigation), actions, losses, damages or claims of any nature whatsoever (collectively, "Losses") to the extent such arise out of or in connection with (i) any negligent act or omission or intentional misconduct of Consultant or its agents, employees, or contractors, (hereinafter referred to collectively as "Consultant" for purposes of this Section 21) on the Parking Lots or the Airport and which result directly or indirectly in the injury to or death of any persons or the damage to or loss of any property or other damages or losses to PMGAA; and/or (ii) the failure of Consultant to comply with any provisions of this Contract. This indemnification shall exclude responsibility for any damages and for claims to the extent arising by reason of the acts or omissions of PMGAA or its employees, contractors or agents.

B. PMGAA's Indemnity. To the fullest extent permitted by law, PMGAA hereby agrees to defend, indemnify and hold harmless Consultant for, from and against any and all Losses to the extent such arise out of or in connection with (i) any negligent act or omission or intentional misconduct by PMGAA or its agents, employees, or contractors (hereinafter referred to collectively as "PMGAA" for purposes of this Section 21) on the Parking Lots, and which result directly or indirectly in the injury to or death of any persons or the damage to or loss of any property or other damages or losses to Consultant, and/or (ii) the failure of PMGAA to comply with any provisions of this Contract. This indemnification shall exclude responsibility for any damages and for claims to the extent arising by reason of the acts or omissions of Consultant or its employees, contractors or agents.

22. **Right to Assurance.** Whenever one party to this Contract in good faith has reason to question the other party's intent to perform, the former party may demand that the other party give a written assurance of this intent to perform. If a demand is made and no written assurance is given within five (5) business days, the demanding party may treat this failure as an anticipatory repudiation with this Contract.

23. **Advertising.** Consultant shall not advertise or publish information concerning this Contract without prior written consent of PMGAA.

24. **Right to Inspect.** PMGAA may, at reasonable times, and at PMGAA's expense, inspect the place of Consultant's or any of Consultant's subcontractor's business, which is related to the performance of this Contract or related subcontract.

25. **Force Majeure.** In the event either party shall be delayed or hindered in or prevented from the performance of any covenant, agreement, work, service, or other act required under this Contract to be performed by such party ("Required Act"), and such delay or hindrance is due to causes entirely beyond its control such as riots, insurrections, martial law, civil commotion, war, fire, flood, earthquake, or other casualty or acts of God ("Force Majeure Event"), then the performance of such Required Act shall be excused for the period of delay and the time period for performance of the Required Act shall be extended by the same number of days in the period of delay. For purposes of this Contract, the financial inability of Consultant to perform any Required Act, including, without limitation, failure to obtain adequate or other financing shall not be deemed to constitute a Force Majeure Event. A Force Majeure Event shall not be deemed to commence until ten (10) days before the date on which the party who asserts some right, defense, or remedy arising from or based upon such Force Majeure Event gives written notice thereof to the other party. If abnormal adverse weather conditions are the basis for a claim for an extension of time due to a Force Majeure Event, the written notice shall be accompanied by data substantiating (a) that the weather conditions were abnormal for the time and could not have been reasonably anticipated and (b) that the weather conditions complained of had a significant adverse effect on the performance of a Required Act. To establish the extent of any delay to the performance of a Required Act due to abnormal adverse weather, a comparison will be made of the weather for the time of performance of the Required Act with the average of the preceding ten (10) years' climatic range based on the National Weather Service statistics for the nearest weather reporting station to the Premises. No extension of time for or excuse for a delay in the performance of a Required Act will be granted for rain, snow, wind, cold temperatures, flood, or other natural phenomena of normal intensity for the locality where the Premises are located.

26. **Inspection.** All material or service is subject to final inspection and acceptance by PMGAA. Material or service failing to conform to the specifications of this Contract will be held at Consultant's risk and may be returned to Consultant. If so returned, all costs are the responsibility of Consultant. Noncompliance shall conform to the cancellation clause set forth in this Contract.

27. **Exclusive Possession.** All services, information, computer program elements, reports, and other deliverables, which may be created under this Contract, are the sole property of PMGAA and shall not be used or released by Consultant or any other person except with prior written permission by PMGAA.

28. **Title and Risk of Loss.** The title and risk of loss of materials or services shall not pass to PMGAA until PMGAA actually receives the material or service at the Airport, unless otherwise provided within this Contract.

29. **Liens.** All materials, services, and other deliverables supplied to PMGAA under this Contract must be free of all liens and other encumbrances. Upon request of PMGAA, Consultant shall provide a formal release of all liens.

30. **Licenses.** Consultant shall maintain in current status all federal, state, and local licenses and permits required for the operation of the business conducted by Consultant as applicable to this Contract.

31. **Subsequent Employment.** PMGAA may cancel this Contract without penalty or further obligation in accordance with A.R.S. Section 38-511 if any person significantly involved in initiating, negotiating, securing, drafting, or creating the contract, on behalf of the PMGAA is or becomes, at any time while the Contract or any extension of the contract is in effect, an employee of, or a contractor to any other party to this Contract with respect to the subject matter of the Contract. Such cancellation shall be effective when the parties to this Contract receive written notice from PMGAA, unless the notice specifies a later time.

32. **Clean Up.** Consultant shall at all times keep Contract performance areas, including storage areas used by the Consultant, free from accumulation of waste material or rubbish and, prior to completion of the work, remove any rubbish from the premises and all tools, scaffolding, equipment and materials not property of PMGAA. Upon completion of any repair, Consultant shall leave the work and premises in clean, neat, and workmanlike condition.

33. **Patents.** Consultant shall defend, indemnify, and hold harmless PMGAA, its officers and employees from all liabilities, claims, damages, costs, or expenses, including, but not limited to attorneys' fees, for any alleged infringement of any person's patent rights or copyrights in consequence of the use by PMGAA, its officers, employees, agents, and other duly authorized representatives of tangible or intellectual property supplied to PMGAA by Consultant under this Contract.

34. **Records and Audit Rights.** Consultant's and all of its approved subcontractors' books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating to this Contract, including the papers of all Consultant and subcontractor employees that work on the Contract (all the foregoing collectively referred to as "Records"), must be open to inspection and subject to audit and/or reproduction during normal working hours by PMGAA. PMGAA is entitled to evaluate and verify all invoices, payments or claims based on Consultant's and its subcontractor's actual costs (including direct and indirect costs and overhead allocations) incurred or units expended directly in the performance of work under this Contract. For any audit under this Section, Consultant and its subcontractors hereby waive the right to keep such Records confidential. PMGAA is entitled to access to these Records from the effective date of this Contract for the duration of the work and until five years after the date of final payment by PMGAA to Consultant under the Contract. During normal working hours, PMGAA is entitled to access to all necessary Consultant and subcontractor facilities and shall be provided adequate and appropriate workspace, in order to conduct audits under this Section. PMGAA shall give Consultant or subcontractors reasonable advance notice of intended audits. Consultant shall require its subcontractors to comply with the provisions of this Section by including its requirements in all subcontracts related to this Contract.

35. **E-Verify Requirements.** To the extent applicable under A.R.S. § 41-4401, Consultant and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

employees, and compliance with the E-Verify requirements under A.R.S. §23-214(A). Consultant's or its subcontractors' failure to comply with such warranty shall be deemed a material breach of this Contract and may result in the termination of this Contract by PMGAA. PMGAA shall have the right to inspect the papers of Consultant's and any of Consultant's subcontractor's employee who works on this Contract to ensure the Consultant is complying with this paragraph.

36. **Environmental Provision.**.

A. Consultant's Indemnity. To the fullest extent permitted by law, Consultant shall indemnify, defend (with counsel reasonably acceptable to PMGAA), protect and hold harmless PMGAA for, from and against any and all liability, loss, damage, expense, penalties and legal and investigation fees or costs, arising from or related to any claim or action for injury, liability, or damage to persons or property and any and all claims or actions brought by any person, entity or governmental body, alleging or arising in connection with contamination of the environment, the presence of Hazardous Material on the Parking Lots, Airport or neighboring properties, or violation of any Environmental Law or other statute, ordinance, rule, regulation, judgment or order of any government or judicial entity (collectively, "Environmental Damages") which are to the extent arising as a result of any of Consultant's activities or operations on the Parking Lots or the Airport. This obligation includes, but is not limited to, all costs and expenses related to cleaning up the property, land, soil and underground or surface water as required under the law. Consultant's obligations and liabilities under this Section 36 shall survive the termination of this Contract. The indemnification of PMGAA by Consultant as described above includes, without limitation, reasonable costs incurred in connection with any investigation of site conditions or any cleanup, remedial, removal or restoration work required by any federal, state or local governmental agency or political subdivision. PMGAA reserves the right to seek injunctive relief as may be permitted under law and equity. This Section 36 explicitly excludes Consultant's duty, liability or indemnity to PMGAA for any claims or Environmental Damages of any kind whatsoever to the extent arising from or in connection with any contamination of any kind existing on the Parking Lots prior to the Effective Date hereof, or the mere discovery of any Hazardous Materials in, on, under or from the Parking Lots a result of Consultant's activities, except and only to the extent known contamination is exacerbated by Consultant by Consultant's negligence or unknown contamination is exacerbated by Consultant's gross negligence.

B. PMGAA's Indemnity. To the fullest extent permitted by law, PMGAA shall indemnify, defend (with counsel reasonably acceptable to Consultant), protect and hold harmless Consultant for, from and against any and all Environmental Damages to the extent arising as a result of any of PMGAA's activities or operations on the Parking Lots. This obligation includes, but is not limited to, all costs and expenses related to cleaning up the property, land, soil and underground or surface water as required under the law. PMGAA's obligations and liabilities under this Section 36 shall survive the termination of this Contract. The indemnification of Consultant by PMGAA as described above includes, without limitation, reasonable costs incurred in connection with any investigation of site conditions or any cleanup, remedial, removal or restoration work required by any federal, state or local governmental agency or political subdivision. Consultant reserves the right to seek injunctive relief as may be permitted under law and equity. This Section 36 explicitly excludes PMGAA's duty, liability or indemnity to Consultant for any claims or Environmental Damages of any kind whatsoever arising from or in connection with any contamination of any kind existing on the Property prior to the Effective Date hereof, except and only to the extent contamination that is known to PMGAA is exacerbated by PMGAA by PMGAA's negligence or unknown contamination is exacerbated by PMGAA's gross negligence.

B. Definitions. The term "Hazardous Material" shall mean any toxic or hazardous material, substance or waste, or any pollutant or contaminant as defined or regulated pursuant to any Environmental Law and petroleum products. For purposes of this definition, petroleum includes petroleum-based substances comprised of a complex blend of hydrocarbons derived from crude oil through processes of separation, conversion, upgrading and finishing (e.g., distillate fuel oils, petroleum solvents and used oils). The term "Environmental Law" shall mean any one or all of the following, as the same are amended from time to time: the *Comprehensive Environmental Response, Compensation, and Liability Act*, 42 USC Section 9601 et seq.; the *Resource Conservation and Recovery Act*, 42 USC Section 6901, et seq.; the *Toxic Substances Control Act*, 15 USC Section 2601 et seq.; the *Safe Drinking Water Act*, 42 USC Section 300f et seq.; the Clean Water Act, 33 USC Section

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

1251 et seq.; the *Clean Air Act*, 42 USC Section 7401 et seq.; the *Arizona Hazardous Waste Management Act*, A.R.S. Section 49-921 et seq. the *Arizona Environmental Quality Act,* A.R.S. Title 49, as amended; and all regulations thereunder and any other laws, regulations and ordinances (whether enacted by the local, state or federal government) now in effect or hereafter enacted that deal with the regulation or protection of the environment, including the ambient air, ground water, surface water, and land use, including substrata land, or that govern the use of hazardous materials, hazardous waste and hazardous substances and petroleum products.

DocuSign Envelope ID: EDEB6A0B-68FF-4DD6-AA23-E80FA6B7F128

EXHIBIT E – STAFFING REQUIREMENTS

Consultant agrees to provide the following staffing, at a minimum, throughout the Contract Term.

Attachment A BAFO
STAFFING BREADOWN

Complete only the Positoin Title & Weekly Scheduled Hours fields for all positions proposed as part of Offeror's submittal

Include Supervisor position(s) but do NOT include manager position(s)
PMGAA defines a FTE as 40 hours per week

Number	Position Title	Weekly Scheduled Hours	Yearly Hours	FTE
1	Supervisor 1	40	2080	1
2	Supervisor 2	40	2080	1
3	Supervisor 3	20	1040	0.5
4	Lot Attendant 1	40	2080	1
5	Lot Attendant 2	40	2080	1
6	Lot Attendant 3	24	1248	0.6

NOTICE AND AGENDA OF MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS

Pursuant to A.R.S. § 38-431.02, notice is hereby given to the members of the Phoenix-Mesa Gateway Airport Authority and to the public that the Phoenix-Mesa Gateway Airport Authority will hold a meeting open to the public on **Tuesday, June 21, 2022 beginning at 9:00 a.m.** in the Board Room (Saguaro A & B) of the Gateway Administration Building, 5835 South Sossaman Road, Mesa, Arizona. Members of the Phoenix-Mesa Gateway Airport Authority may attend either in person or by telephone. The Board may vote to hold an executive session for the purpose of obtaining legal advice from the Board's attorney on any matter listed on the agenda pursuant to A.R.S. § 38-431.03 (A)(3)&(4).

The agenda for the meeting is as follows:

1. **Call to Order** (Mayor John Giles, Chair)
   Members of the Phoenix-Mesa Gateway Airport Authority will attend either in person or via videoconference.

2. **Roll Call** (Mayor John Giles, Chair)

3. **Pledge of Allegiance**

4. **Call to the Public**
   Members of the Board may not discuss items that are not on the agenda. Therefore, action taken as a result of public comment will be limited to directing staff to study the matter or scheduling the matter for further consideration and decision at a later date. Maximum of three minutes per speaker.

5. **Executive Director's Report** - J. Brian O'Neill, A.A.E., Executive Director/CEO

6. **GatewayEast Presentation** – Shea Joachim, Business Development Director

7. **Consent Agenda**

   a) **Minutes** of the Board Meeting held on **May 17, 2022**.

   b) **Resolution No. 22-25 –** Authorizing the **Denver Series of Lockton Companies, LLC (Lockton)** under the terms of its existing Insurance Broker / Risk Management Consulting Agreement with the Phoenix-Mesa Gateway Airport Authority to purchase specific lines of insurance on behalf of the Authority beginning July 1, 2022 not to exceed premium cost of $617,021.

   c) **Resolution No. 22-26 –** Authorizing an agreement for financial participation between the **City of Mesa** and Phoenix-Mesa Gateway Airport Authority to share state and federal lobbyist and consulting services effective July 1, 2022 in the amount of $106,406.40.

   d) **Resolution No. 22-27 –** Authorizing a contract with **Blackstone Security Services, Inc. (Blackstone)** to provide unarmed security guard services for a three-year initial contract term in an amount not to exceed $298,000.00. The contract allows for two optional one-year extensions. Labor is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and may be adjusted on an annual basis:

Description	Est. Weekly Hours	Billable Rate
Unarmed security guard - regular time	60	$23.61
Unarmed security guard - overtime	10	$35.42
Description	Est. Annual Hours	Billable Rate
Unarmed security guard - holiday time	120	$35.42

e) **Resolution No. 22-28 –** Authorizing the purchase of janitorial supplies from **Network Services Company in partnership with Waxie Sanitary Supply** for FY23, in an amount not to exceed $125,000.

f) **Resolution No. 22-29 –** Authorizing the purchase of Jet A fuel and 100LL Avgas from **Ascent Aviation** for Airport Authority resale in the amount of $5,250,000.

g) **Resolution No. 22-30 –** Authorizing the purchase of Unleaded and Diesel fuel from the **lowest priced State contract vendor** at market prices for Airport Authority use and resale in an amount not to exceed of $630,000. This amount will provide fuel for the 2023 fiscal year.

h) **Resolution No. 22-31 –** Authorizing the purchase of international waste management services from **Stericycle, Inc. (Stericycle)** in an amount not to exceed $55,000.00 for fiscal year 2023.

i) **Resolution No. 22-32 –** Approving a Construction Contract with **Coffman Specialties, Inc.** for the construction of the TWY Connectors in an amount not to exceed $7,851,927.50 under CIP 1236.

j) **Resolution No. 22-33 –** Approving an Authorization of Services for the TWY Connectors Construction Administration Services with **Kimley-Horn & Associates (KHA)** in an amount not to exceed $246,768 under CIP 1236**.**

k) **Resolution No. 22-34 –** Authorizing an **amendment of the FY23 Capital Budget** to provide an additional $6 million in funding to CIP 1224 Fuel Farm Expansion Construction not to exceed $12 million.

l) **Resolution No. 22-35 –** Approving a Pre-Construction Services Contract with **KEAR Civil Corp.** for CMAR Pre-Construction Services for the Fuel Farm Expansion Construction, in an amount not to exceed $243,671 under CIP 1224.

m) **Resolution No. 22-36 –** Authorizing an amendment to the Ground Lease 2016-093 for **Lot #39** to extend the expiration of the term by nine (9) years, from June 30, 2043 to June 30, 2052 with an associated extension fee of $322,262.68 to be paid by the Lessee, and hereby authorizes approval of a concurrent assignment of the Ground Lease to **Vernon Investments, LLC**.

n) **Resolution No. 22-37 –** Authorizing an amendment to the Ground Lease 2016-093 for **Lot #39A** to extend the expiration of the term by nine (9) years, from June 30, 2043 to June 30, 2052 with an associated extension fee of $122,462.47 to be paid by the Lessee, and hereby authorizes approval of a concurrent assignment of the Ground Lease to **Vernon Investments, LLC**.

Consideration and Possible Approval of:

8. **Resolution No. 22-38 –** Authorizing a Master Development Agreement and Master Lease Agreement with **Boyer GatewayEast, L.C**. for the property referred to as GatewayEast, each for a term of forty (40) years with no extensions, and each to be guaranteed by The Boyer Company, L.C.

9. **Election of Chair and Vice Chair**

10. **Election of Secretary and Treasurer**

11. **Board Member Comments/Announcements**

12. **Next Meeting: Tuesday, July 19, 2022 at 9:00 a.m.**

13. **Adjournment**

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Misty Johnson at 480-988-7607 or mrjohnson@gatewayairport.com. Requests should be made as early as possible to allow time to arrange the accommodation.

Executive Director's Report

June 2022

Financial Snapshot

OPERATING INCOME	April		Month Variance	FYTD Comparison		FYTD Variance
	2021	2022		FY21	FY22	
Revenues	$2,148,956	$2,889,829	**$740,873**	$18,504,760	$21,855,162	$3,350,402
Less Expenses	$1,518,298	$2,113,773	**$595,475**	$15,779,351	$18,540,547	$2,761,196
Operating Income *(Before Depreciation)*	**$630,658**	**$776,056**	**$145,398**	**$2,725,409**	**$3,314,615**	**$589,206**

Investment Fund Balances: As of April, the Local Governmental Investment Pool (LGIP) 700 = $18,657,375; Wells Fargo; Collateralized Money Market = $4,303,643 and Collateralized CD's = $45,233,086; Total $68,194,104. The total is less than the March ending balance of $68,292,087 due to a market of adjustment of ($97,983). Market adjustments are accounting entries only. PMGAA invests in fixed rate instruments and there is no actual loss.

Finance and Accounting

Phoenix-Mesa Gateway Airport Authority (PMGAA) reported a net operating income of $776,056 for April 2022. Fiscal year-to-date 2022 (FYTD22), PMGAA has a net operating income of $3,314,615 compared to $2,725,409 for the same time period last fiscal year. Overall, aeronautical (6% increase) and non-aeronautical (51% increase) revenue sources continue to perform well when compared to FY21. Revenue increases are the byproduct of increasing passenger activity and additional land leases.

FYTD22, concession revenue has increased 73% over the prior fiscal year - 24% due to increased spending-per-enplaned-passenger and 76% due to increased enplanement volume.

April 2022 operating expenditures exceeded budget estimates by 19%, mainly driven by the increased cost of aviation fuel. FYTD22 expenditures are approximately 2% under budget.

PMGAA Solicitations

Active/Pending Solicitations

TYPE OF SOLICITATION	Number	Title	Anticipated Contract Award
Request for Qualifications	2022-024-RFQ	CMAR for Fuel Farm Expansion	June 2022

Future Solicitations

TYPE OF SOLICITATION	Number	Title	Scheduled for Release
Request for Qualifications	2023-002-RFQ	Fabrication and Installation of Signs	June 2022
Request for Proposals	2023-003-RFP	Banking Services	August 2022

Airport Operations

1,300 New Spaces Being Added to Ray Road Economy Parking Lot

Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) is currently constructing approximately 1,300 new parking spaces in its Ray Road Economy Parking Lot. Six hundred additional parking spaces will be ready in time for the busy July 4th Holiday travel period, with the remaining 700 available by this fall.

As passenger activity increases, so do facility and infrastructure pressures at the Airport. PMGAA is committed to staying ahead of Gateway Airport's growing popularity by expanding parking, passenger queuing, and terminal facilities. The new, on-airport parking spaces will ensure that all passengers desiring to park at Gateway Airport will have a space.

Gateway Airport Reports Best April Ever!

PMGAA Team Member Spotlight

Employee Name: **Pearl Roberts**
Employee Title: **Accounting Analyst**
PMGAA Department: **Accounting**
Years with PMGAA: **15**

What are your job responsibilities for PMGAA? I reconcile TAS GL accounts, Monitor TAS AR Aging customer accounts and process TAS tenant monthly tie-down billing. Process daily, weekly, and monthly customer account statements for payment. Process AR cash and check deposits in Tyler Cashiering. Process customer credit card payments in Tyler Cashiering. I review AP invoices for accuracy.

What is your most memorable Gateway Airport moment? My most memorable experience at Gateway Airport is seeing all the different aircraft. I was able to meet some of our NASA and military pilots while working as a Customer Service Representative at the FBO.

What is something people may not know about you? I enjoy watching movies. One of my favorites is Young Frankenstein!

Engineering and Planning

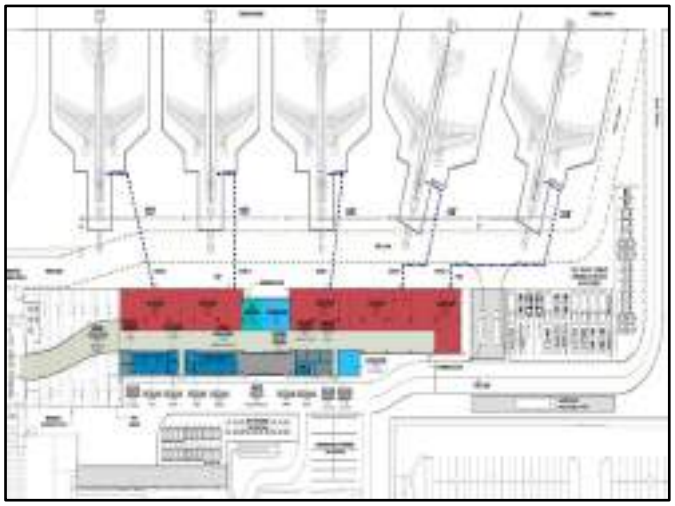
Gateway Airport Designing Ticketing Terminal Connector

Air travelers using Gateway Airport currently exit the ticketing terminal, navigate an outdoor walkway, and then enter the security screening checkpoint through a different set of doors. Often times, customers find transitioning between buildings during the check-in process confusing and frustrating. Improvements are on the way!

Ticketing Terminal Connector Design Rendering

PMGAA is designing a connector to link the airline ticketing area with the Transportation Security Administration (TSA) Checkpoint. This project will create a seamless transition between functions, increase queuing capacity at the checkpoint, and eliminate any weather concerns.

Five-Gate Terminal Addition Awaits Bipartisan Infrastructure Law (BIL) Grant Funding



5-Gate Commercial Passenger Terminal Addition

In 2007, PMGAA purchased a portable 10,000 SF four-gate structure to address commercial passenger terminal capacity constraints as Allegiant Air added more and more nonstop destinations at the Airport. The plan has always been to replace the temporary structure with a permanent one.

PMGAA has applied for, and is hopeful to receive, an approximately $20MM BIL grant to fund this important terminal expansion project. The new 5-gate, 30,000 SF terminal addition will advance Americans with Disabilities Act (ADA) compliance, improve efficiency and customer service, and increase the opportunity for new airlines to serve the greater Phoenix region.

Once the BIL grant is received, the project should take 12-18 months to complete. When finished, Gateway Airport will have a 160,000 SF commercial passenger terminal with eleven gates, exciting new food/beverage/retail concessions, and many modern airport amenities. This project represents the final facility optimization project on the west side of the Airport. Future commercial passenger terminal growth will occur on the east side of the airfield.

Gateway Aviation Services

PMGAA pumped approximately 1.75MM gallons of aviation fuel during the month of April 2022, just slightly over the 1.71MM gallons handled last April.

FUEL (Gallons)	April			FYTD		
	2021	2022	% Change	FY21	FY22	% Change

Community Noise Report

PMGAA received aircraft noise calls from 11 individuals during the month of April 2022, compared to the eight callers last April. PMGAA staff is committed to answering these calls, educating residents, and addressing community noise concerns. Many times, callers are inquiring about a specific flight or aircraft heard or seen overhead.

The map to the right depicts where the noise calls emanated from during April 2022. As you can see, calls come from across the region without a heavy concentration in any one specific area.

Business Development

Gulfstream Groundbreaking Ceremony

Gulfstream Aerospace Breaks Ground on New Facility

Big news for Gateway Airport, greater Phoenix, and the entire State of Arizona. On Tuesday, May 17, 2022, executives from Gulfstream Aerospace Corporation and several PMGAA Board members officially broke ground on the aerospace industry giant's new 225,000 SF West Coast Service Hub at Gateway Airport. The new $100MM+ facility is located on approximately 18 acres on the east side of the Airport adjacent to Ellsworth Road.

The new Gulfstream facility is the largest single private investment project in the Airport's history. PMGAA Board Chairman, Mesa Mayor John Giles, welcomed Gulfstream to the Airport and remarked that "years of work have come to a crescendo today".

Steel Going Up on 2nd Gateway Executive Airpark Hangar

Steel Going Up on Second Gateway Executive Airport Hangar

Progress is very visible at the Gateway Executive Airpark as steel continues to be erected on the second of three hangars within the new complex.

Gateway Executive Airpark is a 183,000 SF state-of-the-art, full-service hangar complex located at the north end of Gateway Airport's airfield between Textron Aviation's Mesa Service Center and Embraer's Executive Jet Service Center. This project includes both multi-tenant and single tenant hangars sized to accommodate larger jets, multiple smaller aircraft, and helicopters. The first two hangars will be available for lease by the end of 2022, and the third larger hangar is scheduled to be completed sometime in 2023.

Rendering of New Macayo's and Infusion Coffee & Tea

Coming Soon! Macayo's Mexican Food and Infusion Coffee & Tea Crafters Under Construction

Hungry air travelers will soon have more delicious food options to choose from at Gateway Airport. Macayo's Mexican Food and Infusion Coffee and Tea Crafters will be opening in the commercial passenger terminal in August.

Macayo's is an Arizona favorite and will be very popular with local travelers and sun-seeking visitors. Infusion Coffee & Tea Crafters has a strong following and boosts the food and drink selections for early morning passengers.

Are You REAL ID Ready?

Starting on May 3, 2023, all U.S. air travelers must be REAL ID compliant to board domestic flights and access certain federal facilities. The TSA checkpoint at Phoenix-Mesa Gateway Airport will only accept a driver's license with a gold star in the upper right-hand corner, a valid passport, or another Real ID compliant identification.

MINUTES OF PUBLIC MEETING OF THE
PHOENIX-MESA GATEWAY AIRPORT AUTHORITY
BOARD OF DIRECTORS | May 17, 2022

A public meeting of the Phoenix-Mesa Gateway Airport Authority (PMGAA) was convened on Tuesday, May 17, 2022, beginning at 9:00 a.m. in the Board Room (Saguaro A&B) of the Gateway Administration Building, 5835 S Sossaman Road, Mesa, Arizona.

Members Present

Mayor John Giles, Mesa
Councilmember Jim Waring, Phoenix (*via videoconference*)
Mayor Brigette Peterson, Gilbert
Mayor Chip Wilson, Apache Junction
Lt. Governor Monica Antone, Gila River Indian Community*
Vice Mayor Jeff Brown, Queen Creek

** Neither present nor represented*

Airport Staff Present

J. Brian O'Neill, Executive Director/CEO
Scott Brownlee, Deputy Director/COO
Chuck Odom, CFO
Misty Johnson, Clerk of the Board
Jill Casson Owen, Attorney
Shea Joachim, Business Development Director

1. **Call to Order** at 9:03 a.m. (Mayor Giles, Chair)

2. **Roll Call**

3. **Pledge of Allegiance**

4. **Motion to convene into Executive Session**
   Pursuant to A.R.S. § 38-431-03 (A)(7), the Board of Directors may convene into executive session for the purpose of discussion and consideration regarding the purchase, sale, or lease of real property and discussion and consideration of a real estate lease transaction.

   Mayor Chip Wilson moved to convene into Executive Session.
   Mayor Brigette Peterson seconded the motion.
   The motion was carried unanimously.

5. **Motion to Reconvene from Executive Session to Regular Session (9:30 a.m.)**

   Mayor Brigette Peterson moved to reconvene the PMGAA Board of Directors meeting.
   Mayor Chip Wilson seconded the motion.
   The motion was carried unanimously.

6. **Call to the Public**
   There were no public comments.

7. **Executive Director's Report** – J. Brian O'Neill, A.A.E., Executive Director/CEO
   Executive Director O'Neill provided a briefing on PMGAA financial performance, passenger activity, the community noise report, and various Airport projects.

DRAFT

- Fiscal Year-to-Date 2022 (FYTD22) Net Operating Income is $2,539,869.
- Best month ever! Phoenix-Mesa Gateway Airport (Airport, Gateway Airport) welcomed 239,160 commercial passengers during March 2022; a 45% increase in passengers compared to March 2021.
- Allegiant has announced reductions in service for June, July, and August due to a pilot shortage impacting their service system wide. Sun Country and Canadian airlines, Flair, WestJet, and Swoop will return with their seasonal routes in October. Swoop is continuing Saturday-only, year-round service to Edmonton.
- The Authority is conducting a Classification and Compensation Study to remain competitive in recruiting and retaining top talent.
- Gulfstream Aerospace Corporation (Gulfstream) has been leasing a 50,000 SF hangar at the Airport since the beginning of the year while their new facility is being constructed.
- Gateway***East*** is a 300-acre mixed use non-aeronautical master development opportunity located on the east side of the Airport. The Boyer Company from Salt Lake City, Utah is working with the City of Mesa and the Authority on infrastructure needs to unlock the site. PMGAA is working with the developer to finalize negotiations on a master lease and master development agreement for the property. These agreements are anticipated to be presented to the Board for their consideration at the June Board meeting.
- Three hangars totaling 183,000 SF are under construction in the Gateway Executive Airpark located at the north end of the airfield. The first hangar will be available for lease later this summer. The steel for the second hangar is being erected.
- Construction is scheduled to begin on SkyBridge Arizona's 127-room dual-brand hotel in June. The hotel will offer rooms for both transient overnight guests and extended stay customers.
- **Gateway Tomorrow** is a planning initiative to reset and refine the vision for a future commercial passenger terminal campus on the east side of Airport. A Request for Qualifications for the long-range planning project has been issued. The PMGAA Board of Directors and staff, member communities, airlines, and other key stakeholders will be invited and encouraged to participate during every element of the planning process.
- The exterior of the Air Traffic Control Tower (ATCT) is at substantial completion. Interior construction continues. Federal Aviation Administration (FAA) technicians have been onsite installing the cabling and equipment. The ATCT is on-track to be commissioned at the end of summer 2022.
- PMGAA staff has submitted a Bipartisan Infrastructure Law (BIL) grant application for the new 30,000 SF, five-gate terminal addition. PMGAA is hoping to secure a $20MM - $25MM grant from the Terminal Modernization Program to complete the important project.
- A ticketing terminal connector is being designed to allow passengers to proceed from the ticketing terminal building directly into the security screening checkpoint area. This project will increase the queuing area for the security screening checkpoint by approximately 30%.
- PMGAA has expanded aircraft parking opportunities for larger/heavier aircraft at the south end of the airfield. Alpha Apron Phase III is complete and now in use by the U.S. Forest Service. The design for Alpha Apron IV is complete. Construction of Alpha Apron IV will begin once the Airport's new ATCT is finished.
- Included in the BIL is much-needed funding for other important Airport projects. PMGAA has received an additional $4.4MM for reconstruction of a portion of its center runway. PMGAA is

working closely with its partners at the FAA to try and complete the runway reconstruction project in one year.

- PMGAA is improving the Rental Car Return Lot - re-designing traffic flow, expanding capacity, adding new facilities for the car rental companies, and erecting shade structures for customer convenience. PMGAA is also investing more than $5MM in CFC funds to improve the Rental Car Care Facility where all rental vehicles are maintained, washed, and vacuumed.
- PMGAA is expanding its fuel storage capacity to protect against the negative impacts of fuel delivery disruptions. In March the Board approved Resolution 22-09 for the fuel farm expansion design. Current fuel storage is 250,000 gallons which is a 3-day supply and is susceptible to fuel delivery disruptions. The additional 4-day, 300,000 gallons in tank storage will provide a 7-day supply of 550,000 gallons to protect against operational failures due to fuel delivery disruptions.
- The Ray Road Economy Parking Lot Expansion is under construction. An additional 1,300 parking spaces will be completed for the busy July travel period with ample parking going into this year's holiday season.

8. Gulfstream Presentation – Shea Joachim, Business Development Director

Mr. Joachim gave a presentation on PMGAA's growing partnership with Gulfstream and an overview of the land lease on the agenda for Board consideration.

Joe Rivera, Vice President of Gulfstream, gave an overview of the company, explained why they chose Gateway Airport, talked about future development opportunities, and acknowledged his appreciation for the collaboration and cooperation of those who have participated in this project.

9. Consent Agenda

a) Minutes of the Board Meeting held on **April 19, 2022.**

b) **Resolution No. 22-18 –** Authorizing a contract with **Artistic Land Management, Inc.** for landscape maintenance services in an amount not to exceed $900,440.64 for five years which includes (2) one-year renewal options.

c) Resolution No. 22-19 – Authorizing a contract with **AZ Weed King, Inc.** for herbicide application services in an amount not to exceed $425,773.24 for five years which includes (2) one-year options.

d) Resolution No. 22-20 – Authorizing the First Amendment to the Land Lease dated November 1, 2018, with **L37, LLC** for lot #37 in order to add approximately 37,825.6 square feet to the Premises.

Mayor Chip Wilson moved to approve the Consent Agenda.
Councilmember Jim Waring seconded the motion.
The motion was carried unanimously.

Consideration and Possible Approval of:

10. Resolution No. 22-21 – Authorizing a land lease with **Gulfstream Product Support Corporation** for a lot of land consisting of approximately 18.62 acres. The Initial Term is forty (40) years, commencing on May 17, 2022, with two (2) five-year Renewal Terms.

Authorizing the Chair or the Executive Director/CEO to execute any and all other documents and instruments necessary and appropriate, in order to consummate the lease transaction and the Lessee's financing in conjunction therewith according to the terms and conditions set forth in the lease, including a consent to assignment and assumption and an owner's affidavit.

Vice Mayor Jeff Brown moved to approve Resolution No. 22-21.
Mayor Brigette Peterson seconded the motion.
The motion was carried unanimously.

11. **Resolution No. 22-22 –** Authorizing an increase in the **Airport Car Rental Customer Facility Charge** (CFC) from $2.50 to $3.50 per vehicle per rental day effective August 1, 2022.

Mayor Brigette Peterson moved to approve Resolution No. 22-22.
Mayor Chip Wilson seconded the motion.
The motion was carried unanimously.

12. **Resolution No. 22-23 –** Authorizing a Professional Service Agreement for On-Call Cultural and Archaeological Services with **SWCA Environmental Consultants, Inc.** (SWCA), for the length of the base term of three years with two optional one-year extensions for various grant and non-grant projects.

Vice Mayor Jeff Brown moved to approve Resolution No. 22-23.
Mayor Brigette Peterson seconded the motion.
The motion was carried unanimously.

13. **Resolution No. 22-24 –** Authorizing a contract with **Republic Parking Systems, LLC (Republic Parking)** to provide parking operations at a fixed management fee, in an amount not to exceed $1,571,468, for the length of the base term of three years, with two optional one-year extensions not to exceed $534,224 and $542,751 respectively. This amount does not include labor, which is a variable amount based on demand. Hourly labor rates, which include fringe benefits, for year one of the contract are below and will be adjusted on an annual basis:

Supervisors:	$26.77
Shuttle Drivers:	$24.98
Customer Service Representatives:	$21.19
Parking Attendants:	$21.19

Mayor Chip Wilson moved to approve Resolution No. 22-24.
