

**Invitation for Bid: 2026-007-IFB**

**Addendum Number: 1**

**Baggage Tractor**

**Due Date and Time: March 18, 2026, at 2:00 pm Arizona time**

The Invitation For Bid (IFB) is modified as set forth in this Addendum. The original IFB Documents and any previously issued addenda remain in full force and effect, except as modified by this Addendum, which is hereby made part of the IFB. Offeror shall take this Addendum into consideration when preparing and submitting its Bid. Responses to questions are in red.

**QUESTIONS**

The following question was received in writing prior to the deadline:

Q1: Please explain the call out of a 61" steering wheel height? Response: **The 61" steering wheel height referenced in the specifications was included to address operational needs, including safety considerations, and spatial constraints specific to our facility and use case. Steering wheel height is one measurable data point that helps define operator position and equipment profile, but it is not the sole determinant of overall operator height or clearance. It was not intended to favor any particular manufacturer or model.**

**The IFB was not written around, nor is it restricted to, any single brand.**

**We value the time and effort vendors invest in responding to our bids and are committed to maintaining a fair, open, and competitive procurement process. If bidders have a specific model in mind and would like to confirm whether it meets the published specifications, all are welcome to submit that information formally through the Q&A process prior to the deadline.**

Offeror shall indicate receipt of this Addendum and any previously issued Addenda by completing and including the Addenda Acknowledgement Attachment for the IFB.

**ALL OTHER TERMS AND CONDITIONS OF THE IFB REMAIN UNCHANGED.**

The above-referenced IFB Addendum is hereby issued and executed on February 24, 2026, at Mesa Gateway Airport Authority, Mesa, Arizona.
